The Master of Science in Athletic Training (p. 583)(MSAT) prepares students for careers in athletic training (<https://www.nata.org/about/athletic-training/>). The men and women of this service profession desire to enhance the quality of health care for patients and physically active individuals, specializing in the prevention, assessment, treatment, and rehabilitation of injuries and illnesses.

The Master of Science in Physical Education (p. 591) equips candidates with the knowledge and skills needed to teach physical education, administrate athletics programs, and coach at the K-12, junior college, and four-year university levels. This degree is also available online and with an emphasis in sport management.

The Master of Arts in Physical Education and Single Subject Teaching Credential (p. 579) program equips students with the skills and knowledge needed to teach physical education and coach at the K-12, junior college, and four-year university levels. In addition to the master's degree, students earn a 2042 Single Subject Teaching Credential, preparing them for positions at the middle and high school levels (7-12) and as pre-K-12 specialists in physical education.

The Master of Arts in Physical Education with an Added Authorization in Adapted Physical Education (p. 581) program is designed for candidates who possess a teaching credential in physical education and are also seeking to teach adapted physical education in the pre-K-12 and/or community college systems.

The Adapted Physical Education Added Authorization (p. 574) enables the physical education teacher to teach disabled students ranging from preschool through adult school, conduct assessments, and report findings through the Individual Education Plan (IEP) process.

## Accreditation

- All Azusa Pacific University programs are accredited by the WASC Senior College and University Commission (WSCUC). (<http://www.wascsenior.org>)
- The Master of Science in Athletic Training program is accredited through 2025-26 by the Commission on Accreditation of Athletic Training Education (CAATE) (<http://www.caate.net>), 6850 Austin Center Blvd., Suite 100, Austin, TX 78731-3184, (844) 462-2283.
- The Master of Arts in Physical Education and Single Subject Teaching Credential program, Master of Arts in Physical Education with an Added Authorization in Adapted Physical Education program, and the Adapted Physical Education Added Authorization program are accredited by the National Council for Accreditation of Teacher Education (NCATE, transitioning to the Council for the Accreditation of Educator Preparation, CAEP (<http://www.caepnet.org/>)) and are approved by the California Commission on Teacher Credentialing (CTC) (<http://www.ctc.ca.gov/>).

## Programs

### Major

- Kinesiology (p. 575)

### Minor

- Adapted Physical Activity (p. 593)

## Graduate Programs

### Athletic Training

- Master of Science in Athletic Training (p. 583)

### Physical Education

- Master of Science in Physical Education (Also Online) (p. 591)
- Master of Arts in Physical Education and Single Subject Teaching Credential (p. 579)
- Master of Arts in Physical Education with an Added Authorization in Adapted Physical Education (p. 581)
- Adapted Physical Education Added Authorization (p. 574)

## Courses

### AT 160, Acute Care of Injury and Illness, 2 Units

This course follows the basic guidelines of the American Red Cross courses CPR for the Professional Rescuer and First Aid. Included are adult, child, and infant CPR, two-person CPR, use of an AED, and standard first aid procedures. Students may receive American Red Cross certifications upon successful completion of the course.

### AT 340, Practicum In Orthopedic Assessment, 2 Units

This course is designed for junior-level students in the Athletic Training Education Program. Students are assigned to clinical instructors who directly supervise them as they work in athletic training settings. As students display competence in the Proficiencies in Athletic Training, they are given increased responsibility in working directly with patients. In addition to the responsibilities of AT 242, students may begin performing orthopedic injury assessments.

**Prerequisite:** AT 270

### AT 355, Medical Conditions and Disabilities, 2 Units

This course covers the basic knowledge, skills, and values that health professionals, specifically those working with athletes and active populations, must possess in order to appropriately recognize and treat those with general medical conditions. Recognition of conditions that must be referred to other healthcare professionals for further evaluation and treatment will be emphasized.

**Prerequisite:** BIOL 115 or BIOL 250/BIOL 251 and AES 363

### AT 444, General Practicum in Athletic Training, 1-3 Units

Students are assigned to clinical instructors who directly supervise them as they work in athletic training settings. As students display competence in the Proficiencies in Athletic Training, they are given increased responsibility in working directly with patients.

**Prerequisite:** Acceptance into Athletic Training Education Program

### AT 469, Health Care Administration, 3 Units

This course addresses the organizational and administrative aspects of health care to the physically active. Students study such issues as medical record keeping, facility design and maintenance, leadership strategies, insurance issues, public relations, and legal and ethical issues related to health care.

**Corequisite:** AES 473 and Senior Standing

### AT 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

### AT 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The one-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than one unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

**Prerequisite:** Junior or Senior Standing

### AT 499, Thesis/Project, 1-4 Units

This is a senior-level 'capstone' type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, or electronic media. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

**Prerequisite:** Upper-division writing intensive course or instructor consent; and junior or senior standing

### AT 501, Foundations of Athletic Training, 3 Units

The focus of this course is on the basic tenets of athletic training and the healthcare team, as well as emergency care. Students learn how to prepare for emergencies and how to create emergency action plans, as well as how to prevent, assess, and treat environmental injuries and illnesses.

### AT 511, Foundations of Athletic Training, 5 Units

This course provides students with basic information and skills necessary in the clinical practice of athletic training. Topics include acute care, risk management, orthopedic taping and wrapping, and equipment fitting. Students will also learn the roles and responsibilities of a certified athletic trainer and the sports medicine team. Students are also introduced to evidence-based practice concepts. A laboratory component is included.

### AT 513, Fundamental Skills in Athletic Training, 3 Units

This course provides students with basic information and skills necessary in the clinical practice of athletic training. Topics include acute care, risk management, orthopedic taping and wrapping, and equipment fitting. The course provides an opportunity for students to practice skills introduced in AT 501 or AT 511.

### **AT 515, Anatomical Basis of Athletic Training, 4 Units**

This course provides an in-depth look at human anatomy, with an emphasis on musculoskeletal anatomy, functional anatomy, and basic kinesiology principles. The lab component will include the use of cadavers.

### **AT 518, Foundations of Examination and Diagnosis: Lower Extremity, 3 Units**

This is one in a series of courses offering an in-depth inquiry into the pathophysiology of injuries to the physically active. This course emphasizes injuries to the lower extremity, addressing mechanisms of injury as well as specific evaluation techniques and methods standard to the practice of athletic training.

### **AT 522, Foundations of Therapeutic Interventions: Lower Extremity, 3 Units**

This course focuses on the theory, selection, and operation of common therapeutic interventions used to manage injuries experienced by physically active individuals. Included are therapeutic modalities, therapeutic and corrective exercise, and an introduction to basic pharmacological interventions.

### **AT 524, Principles of Evidence-Based Practice, 2 Units**

The focus of this course is evidence-based practice (EBP) in athletic training. Students learn to critically read athletic training literature using EBP tools, and to make clinical decisions based on evidence from the literature, experience, and patient needs and goals.

### **AT 525, Research Methods I, 3 Units**

This is the first of two courses in research methodology. The focus of this course is the critical reading of athletic training and sports medicine literature, the interpretation of research, and the analysis of research methodology appropriate to the field. In addition, each student creates a research proposal as the first step in their research project.

### **AT 528, Clinical Integration I, 3 Units**

In this, the first of five clinical education courses, each student focuses on developing proficiency in lower-extremity assessments and the application of therapeutic modalities. Each student is assigned to a preceptor who directly supervises them as they practice and refine their skills in an athletic training setting. As students display competence with/through the Clinical Integration Proficiencies in Athletic Training, they are given increased responsibility in directly working with patients.

### **AT 531, Examination, Diagnosis, and Interventions: Upper Extremity, 4 Units**

This course is part of a series of courses offering an in-depth inquiry into the pathophysiology of injuries to the physically active, and therapeutic interventions used to examine, diagnose, and manage those injuries. This course emphasizes injuries to the upper extremity, addressing mechanisms of injury and specific evaluation techniques and therapeutic interventions standard to the practice of athletic training.

### **AT 534, Biomechanics, 3 Units**

This course focuses on qualitative and quantitative analysis of human movement. Screenings and calculations will focus on skills common in sport and physical activity as well as gait analysis by the application of principles of anatomy, kinesiology, and physics.

### **AT 535, Data Analysis and Patient Outcomes, 2 Units**

This is the second of two courses in evidence-based practice. Students in this course explore current athletic training research and interpret the results of data analyses, with an emphasis on applying evidence to patient outcome collection and clinical decision making.

### **AT 539, Clinical Integration II, 3 Units**

In this, the second of five clinical education courses, each student focuses on developing proficiency in lower-extremity assessments, upper-extremity assessments, and the application of therapeutic modalities. Each student is assigned a preceptor who directly supervises them as they practice and refine their skills in an athletic training setting. As students display competence with/through the Clinical Integration Proficiencies in Athletic Training, they are given increased responsibility in directly working with patients.

### **AT 541, Nutrition for Active People, 2 Units**

This course focuses on nutrition related to exercise and physical performance. These aspects include the energy systems in exercise, nutritional aspects of substrate utilization (digestion, absorption, metabolism, etc.), assessment of nutritional needs, and diet modification. Dietary development for weight loss, body composition changes, and performance will be covered from a nutritional viewpoint.

### **AT 542, Examination, Diagnosis, and Interventions: Spine and Core, 4 Units**

This is one course in a series of courses offering an in-depth inquiry into the pathophysiology of injuries to the physically active, and therapeutic interventions used to examine, diagnose and manage those injuries. This course emphasizes injuries to the head and face, and the lumbar, thoracic, and cervical spine. Mechanisms of injury are addressed, as well as specific evaluation techniques and therapeutic interventions standard to the practice of athletic training.

### **AT 543, Strength and Conditioning, 3 Units**

This course uses a scientific and integrated approach to the assessment, development, implementation, and management of strengthening and conditioning. A laboratory component is included.

### **AT 545, Topics in Athletic Training, 3 Units**

Students in this course explore topics necessary to maintaining relevant competence and enabling future growth as an athletic training professional. Topics include the role of the Athletic Trainer in public health outcomes, healthcare delivery strategies, quality assessment and improvement of healthcare systems and practitioners, professional ethics, emerging evaluation and intervention strategies, and the use of technology in medicine.

### **AT 547, Clinical Integration III, 2 Units**

In this, the third of five clinical education courses, each student focuses on developing proficiency in movement assessment and continues to develop clinically in the areas of emergency management and patient outcomes collection. Each student is assigned to a preceptor who directly supervises them as they practice and refine their skills in an athletic training setting. As students display competence with/through the Clinical Integration Proficiencies in Athletic Training, they are given increased responsibility in directly working with patients.

### **AT 549, Applied Research I, 1 Unit**

In this course, students meet with their research team and mentor to identify a clinical question of interest, conduct a literature review, and plan the methods and data collection for their research project.

### **AT 552, Examination, Diagnosis, and Interventions: Medical Conditions, 4 Units**

This course covers the knowledge, skills, and values that entry-level certified athletic trainers must possess in order to recognize, treat, and refer, when appropriate, the general medical conditions and disabilities commonly seen in athletic training settings. This includes pharmacology as it relates to medical conditions and disabilities of the active, as well as ergogenic aids common to the population. The recognition of general medical conditions contains the skills needed in the diagnostic process. A laboratory component is included.

### **AT 554, Holistic Aspects of Athletic Training, 3 Units**

This course provides the necessary knowledge and skills for assessing and managing psychosocial issues in athletic training. The influences of culture and spirituality, including religions, are discussed in addition to psychosocial interventions, spiritual interventions, and referral strategies which are specific to the role of an athletic trainer. Eating disorders, anxiety issues, substance abuse, catastrophic injuries, peer pressure, depression, and responses to injury are some of the many issues discussed.

### **AT 555, Therapeutic Exercise, 3 Units**

This course focuses on the theory and operation of various contemporary methods of therapeutic exercise in the rehabilitation of injuries to the physically active. The student is introduced to manual as well as mechanical testing and other primary components of comprehensive rehabilitation designs and implementation, including determining therapeutic goals, progress, and ability to return to participation. A laboratory component is included.

### **AT 557, Clinical Integration IV, 2 Units**

In this, the fourth of five clinical education courses, each student continues their clinical development in the area of injury evaluation with the inclusion of movement assessment, and in the application of therapeutic modalities and therapeutic exercise. Each student is assigned to a preceptor who directly supervises them as they practice and refine their skills in an athletic training setting. As students display their competence with/through the Clinical Integration Proficiencies in Athletic Training, they are given increased responsibility in directly working with patients.

### **AT 559, Applied Research II, 1 Unit**

In this course, students meet with their research team and mentor to collect and synthesize data for their research project.

### **AT 562, Health Care Administration, 3 Units**

This course addresses the administrative aspects of health care across a variety of athletic training settings. Students study topics such as healthcare delivery models, multipayer insurance systems and classifications, quality assurance and improvement, healthcare information and informatics, facility and personnel management, and legal issues related to health care.

### **AT 564, Seminar in Athletic Training, 1 Unit**

This course provides an integration of prior coursework and expertise in athletic training preparation for the Board of Certification (BOC) exam, as well as a forum for discussion of current athletic training issues.

### **AT 566, Patient Populations in Emerging Settings, 1 Unit**

Students in this course are introduced to athletic trainers, other medical professionals, and patient representatives from emerging athletic training work settings. The format of guest speaker course meetings mirrors two-hour continuing education sessions with embedded workshops to apply patient-specific skills to simulated patients.

### **AT 568, Clinical Integration V, 2 Units**

This is the fifth of five clinical education courses. Each student will be assigned to a preceptor who directly supervises them as they practice and refine their skills in an athletic training setting. As students display competence with/through the Clinical Integration Proficiencies in Athletic Training, they will be given increased responsibility in directly working with patients.

### **AT 569, Research Capstone, 3 Units**

Students will work with their research team and mentor to complete their research project. The project will be presented in print and poster format following appropriate professional guidelines.

## **AT 570, Clinical Integration V, 5 Units**

In this, the fifth of five clinical education courses, students focus on completing graduation requirements and submitting capstone projects related to the development of their clinical practice. Each student is assigned to a preceptor who directly supervises them as they practice and refine their skills in an athletic training setting. As students display their competence with/through the Clinical Integration Proficiencies in Athletic Training, they are given increased responsibility in directly working with patients.

## **ATHL 301, Varsity Baseball: Men, 1-2 Units**

Students receive advanced preparation in baseball strategy, fundamentals, and techniques for intercollegiate competition (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **ATHL 302, Varsity Basketball: Men, 1-2 Units**

Students receive advanced instruction and intensive training in the fundamentals of basketball. Individual and team play, strategy, and offensive and defensive formations are utilized in men's intercollegiate basketball (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **ATHL 303, Varsity Track and Field: Men and Women, 1-2 Units**

Students train and work out two hours daily in various track and field events and compete in intercollegiate track and field meets (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **ATHL 304, Varsity Cross Country: Men and Women, 1-2 Units**

Students receive instruction, practice, and training in distance running for intercollegiate competition (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **ATHL 305, Varsity Tennis: Men and Women, 1-2 Units**

Students are instructed in the mechanics of the game to suit the individual. Supervised practice, lectures, and intercollegiate competition are included (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **ATHL 307, Varsity Football: Men, 1-2 Units**

Conditioning and training are practiced in all phases of modern football. Students view pictures, study plays, and participate in chalk talks, examination of team plays, and intercollegiate competition (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **ATHL 308, Varsity Basketball: Women, 1-2 Units**

Advanced instruction and intensive training in the fundamentals of basketball are offered. Individual and team play, strategy, and offensive and defensive formations are utilized in intercollegiate competition (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **ATHL 309, Varsity Volleyball: Women, 1-2 Units**

Students participate in intercollegiate competition with intense instruction in fundamentals, theory, and practice of the strategies of offensive and defensive play (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **ATHL 310, Varsity Soccer: Men, 1-2 Units**

Students receive advanced preparation in strategy, fundamentals, and techniques for intercollegiate competition (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **ATHL 311, Varsity Soccer: Women, 1-2 Units**

Students receive advanced preparation in strategy, fundamentals, and techniques for intercollegiate competition (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **ATHL 312, Varsity Softball: Women, 1-2 Units**

Students receive advanced preparation in strategy, fundamentals, and techniques for intercollegiate competition (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **ATHL 313, Varsity Swimming and Diving: Women, 1-2 Units**

Students receive instruction, practice, and training in swimming and diving for intercollegiate competition (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **ATHL 314, Varsity Water Polo: Women, 1-2 Units**

Advanced instruction and intensive training in the fundamentals of water polo are offered, including individual and team play, strategy, and offensive and defensive formations in preparation for intercollegiate competition (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **ATHL 315, Varsity Acrobatics and Tumbling, 1-2 Units**

Students receive advanced instruction and training in tumbling, stunting, and dance, including preparing for intercollegiate competition; may be repeated for credit (varsity athletes only). *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### **ATHL 316, Varsity Cheer, 1 Unit**

Students participate in intercollegiate activities with intense instruction in fundamentals, theory, and practice of the strategies for collegiate cheer. Varsity athletes only. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### **FFL 108, Fitness for Life: Walking/Jogging, 1 Unit**

This course teaches the 'fitness for life' concept through walking and jogging. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### **FFL 109, Fitness for Life: Cycling, 1 Unit**

This course emphasizes fitness through cycling. Students are instructed in bicycle care, repair, and safety rules, and much time is spent in practical travel lab experience. Students must provide their own bicycles. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### **FFL 110, Fitness for Life: Basketball, 1 Unit**

This course teaches the 'fitness for life' concept through basketball. This course is not open to students participating in intercollegiate basketball. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### **FFL 112, Fitness for Life: Beginning Swimming and Conditioning, 1 Unit**

This course teaches the 'fitness for life' concept through swimming. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### **FFL 113, Fitness for Life: Ultimate Frisbee, 1 Unit**

This course teaches the fitness-for-life concept through Ultimate Frisbee, emphasizing the development of skills specifically for the Ultimate Frisbee game. The rules, tactics, and various offensive and defensive strategies of the game are also covered. Specific conditioning drills are incorporated into each class to develop muscular endurance and strength, and the recruitment of fast-twitch muscle fibers needed to play Ultimate Frisbee. This course may be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### **FFL 114, Fitness for Life: Flag Football, 1 Unit**

This course teaches the fitness-for-life concept through flag football, emphasizing the development of skills specifically for the flag football game. The rules, tactics, and various offensive and defensive strategies of the game are also covered. Specific conditioning drills are incorporated into each class to develop muscular endurance and strength, and the recruitment of fast-twitch muscle fibers needed to play the game of flag football. This course may be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### **FFL 115, Fitness for Life: Recreational Games, 1 Unit**

This course teaches the fitness-for-life concept through recreational games such as cornhole, spikeball, bocce, etc., emphasizing the development of skills specifically for various recreational games. The rules, tactics, and offensive and defensive strategies of the games are also covered. Specific conditioning drills are incorporated into each class to develop muscular endurance and strength, and the recruitment of fast-twitch muscle fibers needed to play recreational games. This course may be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### **FFL 116, Fitness for Life: Weight Training, 1 Unit**

This course teaches the 'fitness for life' concept through weight training, with different sections offered for athletes and nonathletes. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### **FFL 117, Fitness for Life: Cardio Strength Fusion, 1 Unit**

This course teaches the concepts of 'fitness for life' through various styles of cardio and strength conditioning, blending cardio dance, strength training, and yoga. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### **FFL 118, Fitness for Life: Triathlon, 1 Unit**

This course emphasizes fitness through swimming, cycling, and running. The goal is that by the end of the course, students will be able to participate in minitriathlons, or simply have increased their fitness level. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### **FFL 121, Fitness for Life: Dance for the Theater, 2 Units**

This course teaches the skill of movement and dance as it relates to actors, including proficiency in various styles of dance that are most common in musical theater; learning dance terminology necessary for a working actor; gaining flexibility and dexterity to enhance stage performance; understanding what is required at a professional theater audition; and moral issues pertaining to presenting theater dance to an audience. It also teaches 'fitness for life' concepts through various dance and aerobic conditioning exercises. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

### **FFL 122, Fitness for Life: Hiking, 1 Unit**

This course teaches the 'fitness for life' concept through hiking local trails, and includes instruction in trail first aid and emergency preparedness. Students provide their own transportation to local hiking trails. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **FFL 125, Fitness for Life: Yoga, 1 Unit**

This course teaches the 'fitness for life' concept through yoga, and includes instruction in mind-body awareness, body-weight-bearing exercises, torso stability, and intermediate balance. Students learn strength, flexibility, and relaxation through a series of postures and breathing techniques. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **FFL 126, Fitness for Life: Sand Volleyball, 1 Unit**

This course teaches the 'fitness for life' concept through sand volleyball, emphasizing the development of sand volleyball skills specifically for the sand doubles game. The rules, tactics and various offensive and defensive strategies of the game are also covered. Specific sand conditioning drills are incorporated into each class to develop muscular endurance, muscular strength, and the recruitment of fast-twitch muscle fibers needed to play the game of sand volleyball. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **FFL 127, Fitness for Life: Soccer, 1 Unit**

This course teaches the 'fitness for life' concept through soccer, covering basic soccer skills and technique and providing opportunities for cardiovascular conditioning. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **FFL 128, Fitness for Life: 5K (Beginning), 1 Unit**

This course teaches the 'fitness for life' concept through training to run a 5k. The workouts in this course are designed to help students start from scratch and safely work their way up to running 3.1 miles without stopping. Using a run/walk approach, students gradually increase the distance they run while decreasing the distance they walk over the course of the semester. Students also receive a brief introduction to basic weight training at the end of the semester. May be repeated for credit. Students will be required to pay the entry fees for a 5k race. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **FFL 129, Fitness for Life: 5k (Intermediate), 1 Unit**

This course teaches the 'fitness for life' concept through training to run a 5k. The workouts in this course are designed for students who have running experience and are looking to improve their fitness by training for a 5k. Using an interval approach, students gradually increase their running distance and speed over the course of the semester. A brief introduction to basic weight training is covered at the end of the semester. May be repeated for credit. Students will be required to pay the entry fees for a 5k race. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **FFL 130, Fitness for Life: Zumba, 1 Unit**

This course is designed to increase fitness and stamina through participation in a cardio dance class called Zumba, which is a combination of Latin/international music and upbeat dance movements. May be repeated for credit. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **FFL 131, Fitness for Life: Kinesiology, 1 Unit**

This course gives kinesiology students the opportunity to experience structured exercise programming and develop the tools essential for adopting and maintaining healthy exercise behavior (e.g., goal setting, action planning, self-monitoring). Emphasis is on developing students' confidence in the performance of fundamental exercises that promote physical fitness, including flexibility, muscular endurance/strength/power, and cardiorespiratory endurance. *Meets the General Education Requirement: Fitness for Life/Varsity Sport.*

## **KIN 102, Foundations of Kinesiology, 2 Units**

This course introduces the student to the professions of kinesiology by reviewing the historical foundations of the profession and defining the roles and responsibilities of the exercise scientist. Students learn about relevant professional associations and career opportunities in the field of kinesiology. A discussion of the Azusa Pacific University kinesiology curriculum is included with the goals, objectives, and requirements of the program as well as the expectations of kinesiology students.

## **KIN 220, Emergency Care and Clinical Skills, 3 Units**

The course prepares students for American Red Cross CPR and First Aid certifications. In addition, students will learn and apply clinical skills including assessment of vitals, palpation, goniometry, and manual muscle testing.

**Prerequisite:** C- or higher in KIN 102

## **KIN 242, Fundamental Principles of Fitness, 3 Units**

This foundation course will investigate fitness principles for improving cardio-respiratory endurance, strength, flexibility, body composition and overall physical wellness. The course will prepare students with the knowledge, skills and abilities necessary to develop, implement and manage basic fitness programs for physical education students and health fitness clients.

Special Fee Applies

**Prerequisite:** C- or higher in BIOL 231 or BIOL 251

## **KIN 270, Human Motor Control, Learning, and Development, 3 Units**

This course focuses on the physiological and psychological mechanisms underlying the control and learning of human movement throughout the lifespan. Students apply theoretical concepts of learning to develop age-appropriate movement programs, and measure outcomes through performance examinations.

C- or higher in KIN 102; corequisite: BIOL 230 or BIOL 250

## **KIN 275, Biomechanics of Human Movement, 3 Units**

This course examines biomechanical principles applied to physical activity, sport, and rehabilitative settings. Students utilize quantitative and qualitative techniques using kinematic and kinetic methodologies to apply the physics of motion to the human body.

Special Fee Applies

**Prerequisite:** C- or higher in KIN 102; C- or higher in BIOL 230 or BIOL 250

## **KIN 290, Human Movement Science, 3 Units**

This course focuses on the physiological and psychological mechanisms underlying the control and learning of human movement throughout the lifespan. Students will apply theoretical concepts of learning to develop age-appropriate movement programs and measure outcomes through biomechanical examinations.

**Prerequisite:** C- or higher in KIN 220 and BIOL 230 or BIOL 250

## **KIN 306, Sociological and Psychological Aspects of Physical Activity and Sport, 3 Units**

Students explore the sociological and the psychological issues related to physical activity and sport. Special emphasis is on the study of sport in North America and its implications within American society. Topics of study include motivation, goal setting, burnout, anxiety and arousal, aggression and ethics as related to physical activity and sport.

**Prerequisite:** C- or higher in PSYC 110 or PSYC 290

## **KIN 360, Nutrition for Exercise and Sport Science, 3 Units**

This course focuses on optimal nutrition for exercise and training. Particular attention is given to energy nutrients, minerals, and fluid needs of the physically active. Clinical signs associated with nutrition deficiencies are explored, as are issues related to disordered eating problems among the physically active. The course reviews antioxidant supplementation for physically active people, as well as popular nutritional ergogenic aids. Students become proficient at using current nutrition education tools and evaluating their energy intake and physical activity output using a computerized diet analysis program. Special topics on eating while traveling are also covered.

**Prerequisite:** C- or higher in BIOL 231 or BIOL 251

## **KIN 363, Physiology of Exercise, 4 Units**

This course focuses on the effects of exercise on human physiology and bioenergetics. The physiological changes and adaptations that exercise causes in the cardiovascular, pulmonary, neuromuscular, and endocrine systems are investigated in detail, as is the relationship between nutrition, body composition, and exercise. The laboratory component explores the assessment of resting metabolic rate, energy expenditure, body composition, cardio-respiratory function, maximum oxygen uptake, lactate threshold, strength and flexibility, and other physiological responses to exercise.

Special Fee Applies

**Prerequisite:** C- or higher in BIOL 231 or BIOL 251; C- or higher in KIN 290 (or KIN 270 and KIN 275).

## **KIN 364, Kinesiology, 4 Units**

This course examines the structural and functional mechanics of human movement through an in-depth study of kinesiological principles. Techniques of posture and gait evaluation, as well as fundamentals of body mechanics, are covered, along with how to detect and correct basic musculoskeletal anomalies. A laboratory component is included.

**Prerequisite:** C- or higher in BIOL 231 or BIOL 251; C- or higher in KIN 290 (or KIN 270 and KIN 275)

## **KIN 366, Care and Prevention of Athletic Injuries, 3 Units**

This course presents the methods used in the recognition, evaluation, and care of athletic injuries. Techniques in taping, prevention, and rehabilitation of injuries are studied.

**Prerequisite:** C- or higher in BIOL 231 or BIOL 251

## **KIN 372, Corrective Exercise Strategies, 3 Units**

This course provides corrective exercise strategies to prevent or reduce injury and afford optimal tissue recovery in the physically active. Principles of tissue inhibition, lengthening, activation, and human movement integration are explored. Strategies in advanced kinetic chain assessment, flexibility, neuromuscular retraining, and balance and stability exercises are incorporated. In addition, scientific evidence supporting injury prevention programs are discussed. This course provides information to prepare students for professional certifications through the National Academy of Sports Medicine (NASM).

**Prerequisite:** C- or higher in KIN 363 and KIN 364

## **KIN 380, Concepts of Performance Enhancement, 3 Units**

This course will examine advanced methods for enhancing human performance. Students will gain a theoretical understanding of the acute and chronic adaptations that occur in response to various anaerobic and aerobic training techniques. Students will also be given the opportunity to gain practical experience developing, implementing, and supervising strength and condition programs for both teams and individual athletes. Areas of emphasis include periodization, movement-based programming, and experience with non-traditional implements. This course is designed to enhance students' current level of knowledge in preparation for the nationally accredited Certified Strength and Conditioning Specialist (CSCS) Exam.

**Prerequisite:** C- or higher in KIN 363 and KIN 364

### **KIN 395, Fitness Management, 3 Units**

This course addresses the organizational and administrative aspects of fitness instruction to the physically active. Students study issues such as record keeping, facility design and maintenance, public relations and marketing, and legal and ethical issues related to health care.

**Prerequisite:** C- or higher in BIOL 231 or BIOL 251, and KIN 242.

### **KIN 473, Fitness and Exercise Prescription, 4 Units**

This course covers the basic knowledge, skills, and abilities that fitness professionals must possess to work with medical and special populations. The course will focus on evaluating health behaviors and risk factors, conducting fitness assessments, constructing appropriate exercise prescriptions, and motivating individuals to modify negative health habits and maintain positive lifestyle behaviors for health promotion.

**Prerequisite:** C- or higher in KIN 363 and KIN 364

### **KIN 475, Current Topics in Kinesiology, 2 Units**

Students in this course examine advanced principles in exercise and sport science through participation in field and laboratory techniques culminating in a research presentation. Possible topics of exploration include physiological and biomechanical principles of sport performance and injury prevention, sports nutrition, exercise adaptations for various populations, modalities in exercise prescription, and/or corrective exercise strategies.

**Prerequisite:** KIN 363, KIN 364, and instructor approval.

### **KIN 478, Senior Preparation in Kinesiology, 2 Units**

This course is a culminating seminar for graduating seniors in kinesiology. Strategies for professional growth and development are examined, as well as current issues and future trends related to the variety of professional opportunities in the field of kinesiology.

**Corequisites:** KIN 490 and senior standing.

### **KIN 490, Writing 3: Research Methods in Kinesiology, 3 Units**

The focus of the course is on the critical reading of kinesiology literature, the interpretation of research, and the analysis of research methodology appropriate in the field. This course is designed to enhance students' abilities to be consumers of research information, participants in the research process, and communicators of research results. Students are required to conduct a research project and write a comprehensive research report, including introduction, literature review, methods, results, discussion, and conclusions. Discussions also focus on current knowledge and future trends in kinesiology, as seen in the literature. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

**Prerequisite:** C- or higher in KIN 363, KIN 364, Writing 2

### **KIN 495, Internship in Exercise Science, 1-4 Units**

This course helps students to apply their knowledge, skills, and abilities in a practical setting. Students use an integrated approach to the assessment, development, implementation, and management of exercise and fitness programs under the direction of an approved exercise science professional.

Each unit requires 50 clock hours of internship experience. This course may be repeated for credit (2 units are required for the major). *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** C- or higher in KIN 363 and KIN 364

### **KIN 497, Readings, 1-3 Units**

This course is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time faculty member. An independent study fee is assessed for each enrollment in this course.

**Prerequisite:** Instructor consent

### **KIN 498, Directed Research, 1-4 Units**

This course provides instruction in research design and technique, and gives students experience in the research process. Each 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill the preparatory readings requirement. An independent study fee is assessed for each enrollment in this course.

**Prerequisite:** Junior or senior standing and instructor consent.

### **KIN 499, Thesis/Project, 1-4 Units**

This is a senior-level capstone type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. Each 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in a formal thesis, a published article, or electronic media. No more than 1 unit may be used to fulfill the preparatory readings requirement. An independent study fee is assessed for each enrollment in this course.

**Prerequisite:** Junior or senior standing, Writing 3, and instructor consent.

### **PE 101, Leisure Time Preparation: Badminton, 1 Unit**

Students study the individual's physical fitness and recreational needs. Development of skills related to fitness through badminton is combined in the class plan. Does not meet Fitness for Life requirement.

### **PE 102, Leisure Time Preparation: Golf, 1 Unit**

Students study golf as a lifetime recreational activity. Does not meet Fitness for Life requirement.

### **PE 103, Leisure Time Preparation: Volleyball, 1 Unit**

Students study the individual's recreational needs through the development of skills related to volleyball. This class may also be taught on grass. Does not meet Fitness for Life requirement.

### **PE 104, Leisure Time Preparation: Tennis, 1 Unit**

Students study the individual's recreational needs through the development of skills related to tennis. Does not meet Fitness for Life requirement.

### **PE 105, Outdoor Experience: Camping, 1 Unit**

Students study the camping programs available to the public today and survey equipment, sites, and educational opportunities. Practical experience includes two weekend camping expeditions. Does not meet the Fitness for Life requirement.

### **PE 106, Outdoor Exp: Backpacking, 1 Unit**

This course teaches the fundamental principles of backpacking. Topics covered include: equipment selection, outdoor leadership, navigation, safety and emergency procedures, backcountry cooking, trip planning, and Leave No Trace. Practical experience includes one weekend backpacking expedition.

### **PE 107, Outdoor Experience: Rock Climbing, 1 Unit**

This course teaches the fundamental principles of rock climbing. Topics covered include: equipment selection, movement on rock, history of the sport, knots, belaying techniques, basic anchor construction, self-rescue techniques, rating systems and climbing topos, rappelling and Leave No Trace. Practical experience includes 3 day-long rock climbing trips. \*This course will NOT include lead climbing techniques.

### **PE 113, Lifeguard Training, 2 Units**

This is a certified, advanced life-saving course of the American Red Cross. This is not a Fitness for Life class. This class does not meet the General Education requirement for University Skills and Requirements.

### **PE 114, Water Safety Instructor (WSI) Course, 2 Units**

This is a certified WSI course of the American Red Cross. This is not a Fitness for Life class. This class does not meet the General Education requirement for University Skills and Requirements.

### **PE 138, Introduction to Physical Education, 2 Units**

This course introduces students interested in careers as physical education teachers to professional dimensions, roles, and responsibilities of physical educators in the 21st century. Students gain an understanding of the physical education profession through assignments, class discussions, on-site school observations, shadowing professionals and some service-learning activities.

### **PE 237, Methods of Teaching Rhythmic and Multicultural Activities, 3 Units**

This course focuses on skill development, teaching methodology, analysis and evaluation of fundamental rhythmic activities, social dance, and global and nontraditional games.

**Prerequisite:** For Kinesiology with PE Concentration and Liberal Studies with PE Concentration students only.

### **PE 240, Health Education, 2 Units**

This course focuses on the development of the whole-person concept which includes the mental, emotional, social, spiritual, and physical health practices. This integration includes study of such topics as stress, diet, nutrition, communicable and chronic diseases, alcohol and drug abuse, lifestyles, childbirth, physical fitness, and environmental health. To be taken concurrently with a Fitness for Life or varsity sport course.

### **PE 250, Methods of Teaching Individual Sports, 2 Units**

This course focuses on skill development, teaching methodology, analysis and evaluation of fundamental tennis, golf, badminton, and track and field skills.

**Prerequisite:** For Kinesiology with PE Concentration and Liberal Studies with PE Concentration students only.

### **PE 251, Methods of Teaching Contemporary Activities, 3 Units**

This course focuses on skill development, teaching methodology, analysis and evaluation of contemporary physical education activities, including combatives, cooperative games, outdoor education, swimming and water safety.

**Prerequisite:** For Kinesiology with PE Concentration and Liberal Studies with PE Concentration students only.

### **PE 252, Methods of Teaching Team Sports, 3 Units**

This course focuses on skill development, teaching methodology, analysis and evaluation of fundamental basketball, soccer, volleyball, softball, and football skills.

**Prerequisite:** For Kinesiology with PE Concentration and Liberal Studies with PE Concentration students only.

### **PE 320, History and Principles of Physical Education, 3 Units**

The historical and philosophical development of physical education and sport is studied. This course includes discussion of current theories, philosophies, and practices in the profession. The California Framework for Physical Education is examined.

## **PE 321, Organization and Administration of Physical Education, Athletics, and Recreation, 3 Units**

The basic principles of organization, administration, and supervision are stressed with emphasis on topics such as staffing, budget, program organization, purchasing, and management in the individual areas of physical education, athletics, and recreation.

## **PE 325, Motor Development and Learning, 3 Units**

This course is designed to teach motor learning theories and to provide the necessary skills to apply these theories when teaching motor skills. This course will also include the study of locomotor and non-locomotor patterns, manipulative, rhythmical movement patterns and skill development, as they relate to motor learning. These fundamental principles will be analyzed in terms of teaching elementary school children. Required for physical education majors and liberal studies majors with a physical education concentration.

**Prerequisite:** BIOL 115 or BIOL 250 and BIOL 251. PE or Liberal Studies PE Concentration majors only

## **PE 364, Kinesiology, 3 Units**

The structural and functional mechanics of movement through an in-depth study of kinesiological, corrective, and adaptive principles are analyzed. Techniques of postural evaluation, muscle testing, therapeutic exercises, and fundamentals of body mechanics are coupled with kinesiological principles for the detection and correction of basic neuromusculoskeletal anomalies.

**Prerequisite:** BIOL 115, or BIOL 250 and BIOL 251.

## **PE 423, School Health Education, 3 Units**

Health issues that the classroom teacher will face are studied. Proper cooperation with medical services, provision of healthful classroom environment, and methods of health instruction are explored.

## **PE 433, Techniques of Coaching Team Sports: Football, 2 Units**

The theory, fundamentals, strategies, and techniques of coaching football are studied.

## **PE 434, Techniques of Coaching Team Sports: Track and Field, 2 Units**

The theory, fundamentals, strategies, and techniques of coaching track and field are studied.

## **PE 435, Techniques of Coaching Team Sports: Basketball, 2 Units**

The theory, fundamentals, strategies, and techniques of coaching basketball are studied.

## **PE 436, Techniques of Coaching Team Sports: Baseball, 2 Units**

The theory, fundamentals, strategies, and techniques of coaching baseball are studied.

## **PE 437, Techniques of Coaching Team Sports: Volleyball, 2 Units**

The theory, fundamentals, strategies, and techniques of coaching volleyball are studied.

## **PE 438, Techniques of Coaching Team Sports: Soccer, 2 Units**

The theory, fundamentals, strategies, and techniques of coaching soccer are studied.

## **PE 440, Coaching Theory, 2 Units**

This course is designed to give students an introduction to the coaching profession, with the primary goal of developing and enhancing students' knowledge and understanding of concepts and techniques of coaching and their application to achieving important objectives in working with athletes. Coursework combines sport science theory and research with practical knowledge and methods of expert coaches. This course is a prerequisite for PE 474 Coaching Practicum.

**Prerequisite:** KIN 242, KIN 290, KIN 306, KIN 366, PE 321

## **PE 450, Physical Education in Elementary Schools, K-6, 3 Units**

This course prepares students to teach physical education to children in grades K-6. It uses a development approach and stresses exploratory methods of teaching young children a variety of games, dance, self-testing, movement exploration, lifetime fitness, and health-related fitness activities. The course emphasizes lesson plan development, writing clear objectives, and developing effective classroom management skills.

**Prerequisite:** EDLS 200 or EDLS 202 or EDLS 300 or EDLS 302, and JR/SR Standing

## **PE 451, Methods in Physical Education: 7-12, 3 Units**

This course provides a classroom and practical teaching experience for the prospective physical educator. Emphasis is on the development of viable unit plans utilizing National Content Standards and California State Content Standards, along with the development of a teaching style effective for the age group and effective in accomplishing stated daily objectives. *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** EDLS 200 or EDLS 202 or EDLS 300 or EDLS 302, PE 450, and junior/senior standing

## **PE 452, Adapted Physical Education, 3 Units**

This is an introductory course designed for prospective physical education teachers for the purpose of understanding public laws and developing and modifying programs for the developmentally disabled.

**Prerequisite:** EDLS 200 or EDLS 202 or EDLS 300 or EDLS 302, PE 450, and junior/senior standing

## **PE 474, Practicum in Coaching, 2 Units**

Students in this application course utilize principles, theories, and practices from PE 440 Coaching Theory. Students shadow, interview, and observe coaches, and apply and critically evaluate practices and procedures of coaching in relation to their own philosophy and understanding of the coaching profession.

**Prerequisite:** PE 440 (C- or higher)

## **PE 475, Tests and Measurements in Physical Education and Sports, 3 Units**

This course analyzes the measurements of motor behavior and evaluation of physical skills performance. Effectiveness of the program in physical education and exercise science is examined. Basic concepts of statistics are taught along with the introduction of computers as tools to be used in the professional arena.

## **PE 478, Senior Preparation in Physical Education, 2 Units**

This course is designed as a culminating seminar for graduating seniors to discuss, plan, and implement strategies for future professional advancement. Current professional issues, growth, and future trends are examined.

## **PE 490, Applied Physical Education, 1-3 Units**

The course helps prospective physical education teachers obtain a professionally guided experience benefiting them in primary and secondary schools. This course is open to physical education majors only with the program director's approval.

## **PE 496, Senior Seminar: Ethics in Physical Education and Sport, 3 Units**

This course is designed to facilitate the integration of Christian faith and values with careers in physical education and sport. Biblical and theological themes relating to education and sport will provide the basis for discussion of ethical dilemmas facing professionals in these, and related, professions. Students will be challenged to develop personal strategies and philosophies for responding to ethical issues in their chosen careers.

**Prerequisite:** Senior standing, completion of the majority of the units required for God's Word and the Christian Response, and upper-division writing intensive course

## **PE 509, Special Topics in Physical Education, 3 Units**

Students study specific current topics, trends, technologies, or innovative programs in the field of physical education and sport. The course covers theoretical and practical aspects of issues related to new problems or new possibilities for improving and enhancing teaching and learning within the field of physical education and sport.

## **PE 551, Curriculum Theory and Design in Physical Education, 3 Units**

This course offers a practical study of physical education and athletic programs in the K-12 and collegiate setting including the following: a) philosophy, principles, policies, and procedures, and; b) design, management, and implementation in relation to the State Frameworks and Standards. Special emphasis of the course is on the application of a variety of research and instructional strategies in designing a physical education/athletic curriculum at a chosen educational level.

## **PE 552, History and Philosophy of Physical Education, 3 Units**

This course is designed to explore both the historical and philosophical roots of the discipline. Particular attention is given to the time frame of the Antebellum Period to the present day structure of the profession. Philosophy fashions physical education and sport, thus a strong emphasis of different philosophies and their impact on the discipline are examined.

## **PE 555, Sociological and Ethical Issues in Sport, 3 Units**

This course pursues a study of the evolution of sports and its role in American culture. Course topics include sports as a social phenomenon in American culture and ethical issues within the sporting context, including moral reasoning, moral obligation, and fair play in sport. Class topics assist students in evaluating and reinforcing their personal morals, values, and principles as they relate to their professional field.

## **PE 556, Facility and Event Management, 3 Units**

This course will present students with an overview of the design, operations and management of sports facilities and associated special events (both traditional and non-traditional). This course will also provide students with an understanding of managing sports facilities for the community, high school, collegiate, Olympic, and professional levels. Traditional events, non-traditional events, and extreme sports events will be viewed and analyzed.

## **PE 557A, Field Studies/Internships in Sport Management, 2 Units**

This fieldwork course enables students to apply their knowledge, skills, and abilities in a practical setting. The sport industry is one that is a hands-on, applied industry. As such, one of the most crucial dimensions of any successful sport management degree program is its associated practical/experiential learning opportunities. The goal of the APU Sport Management internship course is to provide students with pre-professional, practical experience within a sport management setting. Students will learn under the direction and supervision of an approved sport management professional. Each unit requires 33.3 clock hours of internship experience. This course requires students to complete 100 internship hours in a managed sport setting.

**Prerequisite:** Completion of all other MS in Physical Education/sport management and integrated leadership coursework except for PE 584 and PE 589 which can be completed concurrently.

### **PE 557B, Field Studies/Internships in Sport Management, 1 Unit**

This fieldwork course enables students to apply their knowledge, skills, and abilities in a practical setting. The sport industry is one that is a hands-on, applied industry. As such, one of the most crucial dimensions of any successful sport management degree program is its associated practical/experiential learning opportunities. The goal of the APU Sport Management internship course is to provide students with pre-professional, practical experience within a sport management setting. Students will learn under the direction and supervision of an approved sport management professional. Each unit requires 33.3 clock hours of internship experience. This course requires students to complete 100 internship hours in a managed sport setting.

### **PE 558, Sport Finance, 3 Units**

This course is a survey examination of principles of economics, budgeting, and finance as it applies to the sport industry.

### **PE 560, Sports Medicine, 3 Units**

This course is designed for physical educators and coaches to examine sports injuries and accidents and become competent in prevention, assessment, treatment, and basic rehabilitation techniques.

### **PE 565, Athletics and the Law, 3 Units**

This course includes current legal issues confronting the sport industry and enables coaches, athletic directors, fitness experts, and physical educators to develop risk-management strategies that will assist them in setting guidelines, policies, plans, and procedures.

### **PE 570, Leadership and Administration of Physical Education and Athletic Programs, 3 Units**

This course includes a discussion of management theories, philosophy, program development, operations, budgeting, fundraising, personnel, and staff development for the administration of physical education and athletic programs. Students identify and analyze problems unique to the physical education and athletic professions and implement realistic, objective, and workable action plans.

### **PE 572, Foundations of Sport Management, 3 Units**

This course is an overview of multiple areas relating to sport management. This includes: 1) careers and professional perspective; 2) history of sport management; 3) concepts of communication, leadership and management; 4) athletic governance in the K-12, Jr College/ College and University setting; 5) community, youth and professional sport management; and, 6) marketing and sport tourism.

### **PE 575, Advanced Principles of Physical Conditioning, 3 Units**

This course is designed for physical educators, coaches, athletic trainers, and fitness experts to understand and apply the concepts of cardiovascular exercise, muscular strength, flexibility, nutrition, and body weight as it relates to physical education and athletics.

### **PE 578, Sport Psychology, 3 Units**

This course allows the student to examine psychological theories and research related to sport and exercise behavior. The student is introduced to a broad overview of the major topics in the area with opportunity for research, writing, application, and reflection.

### **PE 580, Wellness and Fitness for Life, 3 Units**

This course is designed for the candidate to understand, practice, and teach the physical, emotional, intellectual, occupational, environmental, social, and spiritual components of health and wellness.

### **PE 582, Seminar in Professional Literature in Physical Education and Sport, 3 Units**

This course pursues a study of literature in physical education and sport and includes various topics and current issues related to the changing profession. The student learns to access APU's online library to retrieve reputable sources in physical education and sport and to research and write using APA standards. The student also engages in critical thinking and reflection exercises with application to physical education and sport.

### **PE 584, Assessment, Technology, and Evaluation in Physical Education, 3 Units**

This course gives physical education and exercise science practitioners theoretical and practical knowledge in assessment, technology, and evaluation techniques. Assessment tools are introduced and practiced, including basic statistical concepts, computer/technology applications, and validity/reliability theories. This course allows each student to master and apply the essential content, principles, and concepts necessary to become an effective evaluator in physical education and exercise science. Students complete chapters 1-3 in PE 584, and chapters 4-5 and capstone defense in PE 589.

### **PE 589, Physical Education and Exercise Science Capstone, 3 Units**

This advanced course enables physical educators to become more informed consumers and designers of educational research with the planning and implementation of classroom or site-based inquiry. Through integrated research activities, educators, coaches, and exercise science professionals locate, value, select, and appropriately apply educational research. A variety of descriptive data, as well as qualitative and quantitative methods of data gathering, are analyzed resulting in an extensive research project.

**Prerequisite:** PE 584

### **PE 597, Structural Kinesiology, 3 Units**

This course introduces students to structural kinesiology through an explanation of human movement and human anatomy. Fundamentals of body mechanics are coupled with kinesiological principles for the detection and correction of basic neuromusculoskeletal anomalies.

### **PE 598, Motor Learning, Development, and Control, 3 Units**

This course includes discussion of the relationship between motor development and motor learning and provides a framework for establishing programs that facilitate skill acquisition for learners of all ages. It includes an examination of the development of movement skill in humans from infancy to older adulthood and how differing motor, cognitive, and social abilities affect the learning process of motor skills.

### **PE 599, Readings in Physical Education, 1-3 Units**

This course is an independent study, arranged with a faculty member of the physical education staff.

### **PE 600, Physical Education Teaching Methods for Individuals with Mild to Moderate Disabilities, 3 Units**

Students in this course learn techniques for the development and implementation of physical education programs for individuals with mild to moderate disabilities, which include minor to moderate health impairments, intellectual disabilities, and emotional disturbances. Observation of one mild/moderate adapted physical education class is included.

**Prerequisite:** PE 452

### **PE 602, Physical Education Teaching Methods for Individuals with Severe to Profound Disabilities, 3 Units**

Students in this course learn techniques for the development and implementation of physical education programs for individuals with severe to profound disabilities, which include severe to profound health impairments, intellectual disabilities, and emotional disturbances. Observation of one severe/profound adapted physical education class is included.

**Prerequisite:** PE 452

### **PE 604, Motor Assessment for Students Living with Disabilities, 3 Units**

Students in this course learn techniques for the evaluation and diagnosis of current motor ability levels of individuals with disabilities. Topics include assessment methods and the development and implementation of Individual Education Plans (IEPs) in accordance with state physical education standards.

**Prerequisite:** PE 600, PE 602, and anatomy and physiology

### **PE 605, Management of Adapted Physical Education Programs, 3 Units**

This course prepares adapted physical education specialists to manage adapted PE programs. Topics include modifying traditional PE curricula, performing in-services with the use of technology, understanding service delivery models, understanding the Individuals with Disabilities Education Act, and collaborating with other direct service providers.

**Prerequisite:** PE 452

### **PE 606A, Field Experience in Adapted Physical Education, 1 Unit**

This is the first fieldwork course for adapted physical education authorization candidates, and is for students who hold a current teaching credential. The course includes 35 hours of supervised practice in teaching individuals with disabilities in small to large groups in public or private agencies or schools.

**Prerequisite:** PE 600, PE 602, PE 604 and PE 605

### **PE 606B, Field Experience in Adapted Physical Education, 2 Units**

This is the second field experience course for adapted physical education authorization candidates, and is for students who hold a current teaching credential. The course includes 35 hours of supervised practice in teaching individuals with disabilities in small to large groups in public or private agencies or schools.

**Prerequisite:** PE 600, PE 602, PE 604 and PE 605

## **Faculty**

### **Department Chair; Director, Kinesiology Program**

Eric Sorenson (<http://www.apu.edu/faculty/esorenson/>), Ph.D., ATC

### **Director, M.S. in Athletic Training Program**

Jennifer Livingston (<http://www.apu.edu/faculty/jlivingston/>), Ph.D., ATC

### **Director, Physical Education Program**

# Adapted Physical Education Added Authorization

For more information: (626) 815-6176

The Adapted Physical Education Added Authorization (<https://www.apu.edu/bas/programs/adapted-physical-education-authorization/>) enables the physical education teacher to teach disabled students ranging from preschool through adult school, conduct assessments, and report findings through the Individual Education Plan (IEP) process. Upon completion of this program, candidates who enter it with a K-12 Single Subject Physical Education Credential are able to teach adapted physical education as well as general physical education. This 15-unit program includes 12 units of coursework and 3 units of fieldwork in adapted physical education.

Professionals who possess an Education Specialist Credential or a Multiple Subject Credential are also welcome to apply, but must first either complete 12 units of upper-division undergraduate or graduate physical education courses with specific criteria prior to entering the Adapted Physical Education Added Authorization program, or successfully complete the California Subject Examinations for Teachers (CSET) in Physical Education. The following courses are available to meet this prerequisite:

| Code   | Title  | Units |
|--------|--|-------|
| PE 452 | Adapted Physical Education                         | 3     |
| PE 551 | Curriculum Theory and Design in Physical Education | 3     |
| PE 597 | Structural Kinesiology                             | 3     |
| PE 598 | Motor Learning, Development, and Control           | 3     |

## Required Courses for the Adapted Physical Education Added Authorization

Adapted physical education students must maintain a cumulative GPA of 3.0 (*B*) or better, and may not earn lower than a 2.7 (*B-*) in any PE core or content course. Students who earn below a 2.7 (*B-*) in a PE core or content course must retake the course and achieve the minimum GPA requirement.

| Code   | Title  | Units |
|--|--|-------|
| <b>Core Courses</b>                                  |  |       |
| PE 600   | Physical Education Teaching Methods for Individuals with Mild to Moderate Disabilities   | 3     |
| PE 602   | Physical Education Teaching Methods for Individuals with Severe to Profound Disabilities | 3     |
| PE 604   | Motor Assessment for Students Living with Disabilities                                   | 3     |
| PE 605   | Management of Adapted Physical Education Programs  | 3     |
| <b>Fieldwork (all courses required) <sup>1</sup></b> |  |       |
| PE 606A  | Field Experience in Adapted Physical Education   | 1     |
| PE 606B  | Field Experience in Adapted Physical Education   | 2     |
| Total Units  |  | 15    |

<sup>1</sup> PE 606A and PE 606B must be completed consecutively after all other adapted physical education coursework is fulfilled.

# B.S. in Kinesiology

## Mission

“Shaping difference makers who care for the whole person.”

Our mission in the kinesiology major (<https://www.apu.edu/bas/programs/kinesiology-major/>) is to shape difference makers who care for the whole person—body, mind, and spirit. We believe that exercise, movement, and sport help people thrive by improving health, fitness, and quality of life across the lifespan. To achieve our goals, we equip lifelong learners who are academically engaged, relationally focused, vocationally aware, and wellness oriented using approaches that are discipline based and grounded within a Christian worldview.

## Concentrations

### Health Professions

The health professions concentration is designed for students interested in pursuing physical therapy, occupational therapy, athletic training, chiropractic, physician’s assistant, and other allied health graduate programs. Students are also prepared to enter academic graduate programs (master’s and doctoral) in exercise physiology, biomechanics, and other subdisciplines of kinesiology. Students gain practical, hands-on training in kinesiology, including 100 hours of supervised internships and a strong theoretical foundation in the sciences, which may fulfill graduate school prerequisites. See concentration requirements in the table below.

### Applied Exercise Science

The applied exercise science concentration prepares students to obtain positions as fitness professionals, strength and conditioning specialists, wellness directors, or exercise physiologists, and/or to pursue graduate education in cardiac rehabilitation, exercise physiology, kinesiology, nutrition, sports psychology, or allied health professions (additional prerequisite courses may be necessary). Through applied and hands-on coursework, students learn to assess, design, and implement evidence-based fitness programs for clients to achieve optimal health and performance. Students also are supervised during 150+ hours of internship experience at the university’s fitness center and in the community at one of our preapproved sites. Many students are successful at finding employment in the industry prior to graduation. See concentration requirements in the table below.

## Academic Standards

Students are required to complete 120 units in order to obtain an undergraduate degree at Azusa Pacific. For some students, the combination of units from the concentration and general education courses will not meet the minimum number of units for graduation, so students may need to complete additional coursework. This can be accomplished by completing a minor in a field of interest, or by taking elective courses within, or outside of, the department.

For students to progress through the curriculum, they must earn a grade of C- or higher in each required course in the kinesiology major. Students who do not earn a C- or higher in such a course after three attempts will be removed from the major. Students are also required to follow the proper course sequencing and meet all prerequisites prior to completing the succeeding courses in the curriculum. Visit the kinesiology major website (<https://www.apu.edu/bas/programs/kinesiology-major/>) to download an academic plan for your chosen concentration.

## Certifications

Students seeking certification in the exercise science profession are subject to each association’s guidelines and standards to be eligible for each certification. Students are encouraged to sit for the NASM (<https://www.nasm.org/>) Certified Personal Trainer (CPT) examination after completing KIN 242 in their sophomore year, and the NASM Corrective Exercise Specialist (CES) and/or NSCA (<https://www.nasca.com/>) Certified Strength and Conditioning Specialist (CSCS) examinations after completing the related 300-level coursework. Students are responsible for all the associated fees and costs for the desired certification(s).

## Additional Information

CPR and First Aid certifications must be current prior to beginning any department-supervised internships or service-learning experiences. First Aid certification must be completed through the American Red Cross. No completely online courses are permitted for CPR or First Aid. Students are also responsible for the transportation costs associated with required internship experiences in the major.

All students are subject to other policies and procedures related to the major as determined by the program director and the Department of Kinesiology.

## Requirements

For students to progress through the curriculum, they must earn a grade of C- or higher in each required course in the kinesiology major. Students who do not earn a C- or higher in such a course after three attempts will be removed from the major.

| CHEM 251                                  | Organic Chemistry: Theory I  |       |
| CHEM 252                                  | Organic Chemistry: Theory II   |       |
| PHYC 151                                  | Physics for Life Sciences I <sup>7</sup>   |       |
| PHYC 152                                  | Physics for Life Sciences II   |       |
| CHEM 123                                  | General, Organic, and Biological Chemistry for the Health Sciences <sup>7</sup>      |       |

Total Units

68-70

- <sup>1</sup> Meets the General Education Writing 3 requirement.
- <sup>2</sup> Meets the General Education Integrative and Applied Learning requirement.
- <sup>3</sup> Meets the General Education Physical Education requirement.
- <sup>4</sup> Meets the General Education Quantitative Literacy requirement.
- <sup>5</sup> Meets the General Education Social Sciences requirement.
- <sup>6</sup> Meets the General Education Writing 2 requirement.

- <sup>7</sup> Meets the General Education Natural Sciences requirement.
- <sup>8</sup> Either BIOL 230 and BIOL 231 OR BIOL 250 and BIOL 251 must be taken to complete the major's anatomy and physiology requirement.
- <sup>9</sup> Foundational science courses taken during the first year in our course sequence cannot be used for this category. A student can, however, take a higher-level course in the same area of study. Example #1: BIOL 101 in first year and BIOL 151 as elective. Example #2: BIOL 151 in first year and BIOL 152 as elective.

## Applied Exercise Science Concentration

| Code  | Title  | Units |
|---|--|-------|
| KIN 102   | Foundations of Kinesiology   | 2     |
| KIN 242   | Fundamental Principles of Fitness  | 3     |
| KIN 270   | Human Motor Control, Learning, and Development   | 3     |
| KIN 275   | Biomechanics of Human Movement   | 3     |
| KIN 306<br>or PSYC 330                            | Sociological and Psychological Aspects of Physical Activity and Sport<br>Sports Psychology   | 3     |
| KIN 360   | Nutrition for Exercise and Sport Science   | 3     |
| KIN 363   | Physiology of Exercise   | 4     |
| KIN 364   | Kinesiology  | 4     |
| KIN 366<br>or KIN 372<br>or KIN 380<br>or KIN 473 | Care and Prevention of Athletic Injuries<br>Corrective Exercise Strategies<br>Concepts of Performance Enhancement<br>Fitness and Exercise Prescription | 3 - 4 |
| KIN 395   | Fitness Management   | 3     |
| KIN 478   | Senior Preparation in Kinesiology  | 2     |
| KIN 490   | Writing 3: Research Methods in Kinesiology <sup>1</sup>  | 3     |
| KIN 495   | Internship in Exercise Science <sup>2</sup>  | 2     |
| PSYC 110<br>or PSYC 290                           | General Psychology <sup>3</sup><br>Human Growth and Development  | 3     |
| FFL 131   | Fitness for Life: Kinesiology <sup>4</sup>   | 1     |
| WRIT 241  | Writing 2: Physical Activity and Health Promotion <sup>5</sup>   | 3     |
| Select one of the following:                      |  | 8     |
| BIOL 230<br>& BIOL 231                            | Human Anatomy and Physiology I<br>and Human Anatomy and Physiology II <sup>6,7</sup>   |       |
| BIOL 250<br>& BIOL 251                            | Human Anatomy<br>and Human Physiology <sup>7</sup>   |       |
| Total Units                                       |  | 53-54 |

- <sup>1</sup> Meets the General Education Writing 3 requirement.
- <sup>2</sup> Meets the General Education Integrative and Applied Learning requirement.
- <sup>3</sup> Meets the General Education Social Sciences requirement.
- <sup>4</sup> Meets the General Education Physical Education requirement.
- <sup>5</sup> Meets the General Education Writing 2 requirement.
- <sup>6</sup> Meets the General Education Natural Sciences requirement.
- <sup>7</sup> Either BIOL 230 and BIOL 231 OR BIOL 250 and BIOL 251 must be taken to complete the major's anatomy and physiology requirement.

## Program Learning Outcomes

# Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Develop an understanding of our Biblical responsibility to care for the whole person - body, mind, and spirit.
2. Demonstrate proficiency in principles of kinesiology.
3. Design and implement exercise programs for a variety of populations and settings.

4. Evaluate movement patterns and physical fitness using effective assessment techniques.
5. Analyze issues in exercise science using an evidence-based approach
6. Explain how psycho-social factors influence personal health, wellness, and performance
7. Interact professionally with a variety of constituents, such as students, clients, patients and colleagues

# M.A. in Physical Education and Single Subject Teaching Credential

The Master of Arts in Physical Education and Single Subject Teaching Credential program (<https://www.apu.edu/bas/programs/masters-in-physical-education-single-subject/>) equips students with the skills and knowledge needed to teach physical education and coach at the K-12, junior college, and four-year university levels. The Single Subject Teaching Credential may be completed in the subject area of physical education. It includes comprehensive foundations courses emphasizing methods alongside specialization courses providing content required for the California Single Subject Preliminary Teaching Credential, as well as practical classroom and fieldwork experiences and advanced coursework in the emphasis area of physical education. The mode of delivery includes campus-based classes, field experiences, and online courses, but predominantly includes face-to-face courses.

The Master of Arts in Physical Education and Single Subject Teaching Credential is approved by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>) and the National Council for the Accreditation of Teacher Education (NCATE), which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP) (<http://www.ncate.org/>). All single-subject teachers receive certification to teach in a specific content area through their subject-matter competence, which is achieved either through completion of a CTC-approved subject-matter program in physical education or passage of appropriate California Subject Examination for Teachers (CSET) physical education subtests. Upon completion, the credential candidate will have earned a California Single Subject Preliminary Teaching Credential in Physical Education and a Master of Arts in Physical Education.

## Requirements

Graduate physical education students must maintain a cumulative GPA of 3.0 (*B*) or better, and may not earn lower than a 2.7 (*B-*) in any PE core or content course. Students who earn below a 2.7 (*B-*) in a PE core or content course must retake the course and achieve the minimum GPA requirement. This applies to the M.A. portion of this program only.

| Code  | Title   | Units |
|---|---|-------|
| <b>Foundation Courses</b>                   |   |       |

| <b>Final Capstone Courses</b>               |   |       |

|             |  |    |
|-------------|--|----|
| PE 584      | Assessment, Technology, and Evaluation in Physical Education <sup>2, 3</sup> | 3  |
| PE 589      | Physical Education and Exercise Science Capstone <sup>2, 3</sup>             | 3  |
| Total Units |  | 50 |

<sup>1</sup> All foundation courses must be completed prior to beginning clinical practice.

<sup>2</sup> Students must earn a “credit” (CR) score in PE 584 and a minimum 3.0 (B) in PE 589.

<sup>3</sup> PE 584 and PE 589 must be completed consecutively, during the final two terms of the program, after all other coursework is fulfilled.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# M.A. in Physical Education with an Added Authorization in Adapted Physical Education

For more information: (626) 815-6176

The Master of Arts in Physical Education with an Added Authorization in Adapted Physical Education program (<https://www.apu.edu/bas/programs/masters-in-physical-education-adapted-pe-authorization/>) is designed for candidates who possess a teaching credential in physical education and are seeking to teach adapted physical education in the pre-K–12 and/or community college systems. The program combines the curricula of the adapted physical education added authorization and master's degree program to deliver a unique, comprehensive education package. Upon completion, the graduate will earn an Added Authorization in Adapted Physical Education and a Master of Arts in Physical Education.

Professionals who possess an Education Specialist Credential or a Multiple Subject Teaching Credential are also welcome to apply, but must first complete either 12 units of upper-division undergraduate or graduate physical education courses with specific criteria prior to entering the Adapted Physical Education Added Authorization program, or successfully complete the California Subject Examinations for Teachers (CSET) in physical education. The following 3-unit classes are available to meet this prerequisite: PE 452, PE 551, PE 597, and PE 598.

## Requirements

The 15-unit added authorization portion of the program includes 12 units of coursework and 3 units of fieldwork in adapted physical education. The student may concurrently complete the two core and two content courses in physical education. Students may not enroll in more than 7 units per 8-week term. PE 584 and PE 589 are completed after all other adapted physical education and M.A. in Physical Education coursework is fulfilled.

Graduate physical education students must maintain a cumulative GPA of 3.0 (*B*) or better, and may not earn lower than a 2.7 (*B-*) in any PE core or content course. Students who earn below a 2.7 (*B-*) in a PE core or content course must retake the course and achieve the minimum GPA requirement.

| Code  | Title  | Units |
|---|--|-------|
| <b>Adapted Physical Education Core Courses</b>                          |  |       |
| PE 600  | Physical Education Teaching Methods for Individuals with Mild to Moderate Disabilities   | 3     |
| PE 602  | Physical Education Teaching Methods for Individuals with Severe to Profound Disabilities | 3     |
| PE 604  | Motor Assessment for Students Living with Disabilities                                   | 3     |

| PE 589  | Physical Education and Exercise Science Capstone <sup>2</sup>                            | 3     |
| Total Units   |  | 33    |

- <sup>1</sup> PE 606A and PE 606B must be completed consecutively after all other adapted physical education coursework is fulfilled. May be completed concurrently with PE 584 and PE 589.
- <sup>2</sup> Students must earn a "credit" (CR) grade in PE 584 and a minimum 3.0 (B) in PE 589. PE 584 and PE 589 must be completed consecutively, during the final two terms of the program.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# M.S. in Athletic Training

For more information: (626) 815-5086

The Master of Science in Athletic Training (MSAT) (<https://www.apu.edu/bas/programs/athletic-training-masters/>) is an intense, demanding, and rewarding program of study. The MSAT is a full-time residency program that prepares students for successful completion of the national Board of Certification, Inc. (BOC) (<http://www.bocatc.org>) examination and for careers in athletic training (<https://www.nata.org/about/athletic-training/>). Multiple clinical experiences (<https://www.apu.edu/bas/programs/athletic-training-masters/clinical/>) provide students with practical learning designed to strengthen professional preparation and career placement, and a Christian worldview is woven throughout the program, giving students a Christ-centered perspective of this service profession.

The MSAT is a 63-unit, two-year program including two 8-week summer terms and four traditional 16-week semesters. The final spring semester includes 8 weeks of clinical immersion. Through academic coursework and hands-on clinical experiences integrated with a Christian worldview, students learn to provide immediate and follow-up care to patients while under the direct supervision of a preceptor. Students observe, learn from, and interact with a variety of healthcare personnel and members of the public, including physicians, nurses, physical therapists, patients, athletes, coaches, and parents.

Students enrolled in this program complete coursework in the areas of acute care and emergency management of injuries, orthopedic assessment and diagnosis, therapeutic modalities, therapeutic exercise, biomechanics, pharmacology, general medical conditions, strength and conditioning, healthcare administration, psychological and spiritual aspects of injury and illness, and research methodology.

Program requirements are compliant with the current *Standards for Accreditation of Professional Athletic Training Programs* established by the Commission on Accreditation of Athletic Training Education (CAATE) (<http://www.caate.net>). Students who apply must successfully complete prerequisite courses and other admissions requirements prior to enrolling. Following completion of the program, students are eligible to sit for the BOC examination to become a certified athletic trainer.

## Mission Statement

The mission of the Master of Science in Athletic Training (MSAT) program is to fully equip athletic training students with a quality education that includes a Christian perspective to become lifelong learners. The program incorporates current research and scholarly instruction in both the clinical and didactic portions of the program, preparing athletic training students to enter the profession as entry-level athletic trainers upon successfully passing the BOC examination.

## Values and Beliefs

We value:

1. The use of Christian principles in teaching and athletic training.
2. Student-centered teaching and learning, and providing all the resources necessary to equip students to enter the athletic training profession.
3. Experiential and clinical learning with impact on the greater community.
4. Educating the whole student: spiritually, intellectually, and physically.

## Goals

1. To provide an accredited athletic training program in a Christian environment for athletic training students seeking Board of Certification, Inc. certification.
2. To offer diverse clinical education experiences that expose athletic training students to the variety of employment settings available in the field of athletic training.
3. To produce entry-level athletic training professionals who conduct themselves ethically and make decisions using a Christian worldview.

## Objectives

1. To provide athletic training students with the required knowledge and skills to become competent entry-level athletic trainers.
2. To assist athletic training students in becoming true servants of God as they minister to injured persons.
3. To provide athletic training students with the ability to critically analyze evaluation, treatment, and rehabilitation protocols to ensure efficient and high-quality care for every athlete/patient/client.
4. To help athletic training students learn how to effectively communicate and interact with others.
5. To foster an understanding of multiple perspectives to facilitate learning, particularly within the clinical setting.
6. To impart the ability to make informed decisions regarding the prescribed standards of practice and ethics in the profession of athletic training.
7. To equip athletic training students with the skills necessary to seek, assimilate, analyze, and interpret data and other information vital to continued growth and understanding of the ever-changing field of athletic training.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Prerequisite Courses

The following prerequisites must be completed before entry:

| Code   | Title                        | Units |
|--|------------------------------|-------|
| <b>Required Courses</b>                                  |                              |       |
|  | Human Anatomy with lab       |       |
|  | Human Physiology with lab    |       |
|  | General Biology              |       |
|  | General Chemistry            |       |
|  | General Physics              |       |
|  | General Psychology           |       |
|  | Exercise Physiology with lab |       |
| <b>Additional Course (Recommended, but Not Required)</b> |                              |       |
|  | Research Methods             |       |

Note: The application for the 2021 cohort will open in July 2020 and follows the 2020 CAATE Standards (<https://caate.net/wp-content/uploads/2019/02/2020-Standards-Final-2-20-2019.pdf>) requirements for prerequisite courses.

## Other Admission Criteria

- Application cycles begin in July for the following year's cohort. Application review begins in the fall, and students are accepted on a year-round, rolling admission basis. However, to ensure consideration for the summer start date, completed applications should be submitted early in the admission cycle (<https://www.apu.edu/bas/programs/athletic-training-masters/admission/#applicationdeadlines>).
- No more than 20 percent (13 units) of the total amount of units for this program may be transferred in from a comparable graduate program. Each request will be evaluated according to the established transfer credit requirements. Refer to the Transfer Credit (p. 1471) requirements listed in the Academic Policies and Procedures (p. 1421) section of the Graduate and Professional Catalog. Specific questions regarding eligibility for transfer credit can be directed to the Graduate and Professional Center (<http://www.apu.edu/graduateprofessionalcenter/>) at (626) 815-4570.
- Once a student is offered admission into the program, a nonrefundable deposit of \$500 for the program is due within 21 days of receipt of the acceptance letter. This will be applied to the first term's tuition fee. The deposit should be submitted to:

Azusa Pacific University  
Graduate and Professional Center Cashier  
901 East Alost Avenue  
PO Box 7000  
Azusa, CA 91702-7000

- In addition, accepted students must submit the following items to the program:
  - a. Documentation of the following up-to-date immunizations: HBV series, MMR, Tdap, chicken pox, and meningococcal.
  - b. Verification of a recent (within the last 12 months) negative TB test.
  - c. Copy (with instructor's signature or QR code) of current, valid certification card(s) for Adult, Child, and Infant CPR.
  - d. Copy (with instructor's signature or QR code) of current, valid certification card for Standard First Aid.
  - e. Documentation of ability to meet MSAT Technical Standards ([http://www.apu.edu/live\\_data/files/241/msat\\_technical\\_standards.pdf](http://www.apu.edu/live_data/files/241/msat_technical_standards.pdf)) (PDF) with or without reasonable accommodations.
  - f. A signed copy of the MSAT Oath of Confidentiality ([https://www.apu.edu/live\\_data/files/241/msat\\_oath\\_of\\_confidentiality.pdf](https://www.apu.edu/live_data/files/241/msat_oath_of_confidentiality.pdf)) (PDF) regarding all medical information.
  - g. A signed copy of the MSAT Communicable Disease Policy ([http://www.apu.edu/live\\_data/files/241/msat\\_communicable\\_disease\\_policy.pdf](http://www.apu.edu/live_data/files/241/msat_communicable_disease_policy.pdf)) (PDF).

### Postacceptance materials should be submitted to:

Azusa Pacific University

Department of Kinesiology  
 Master of Science in Athletic Training  
 PO Box 7000  
 Azusa, CA 91702-7000

International applicants send additional forms to:

International Center  
 Azusa Pacific University  
 PO Box 7000  
 Azusa, CA 91702-7000 USA  
 +1-626-812-3055  
 Fax: +1-626-815-3801  
 international@apu.edu  
 apu.edu/international (<http://www.apu.edu/international/>)

In addition to meeting the admission requirements, students whose first language is not English must meet the required English proficiency standard as demonstrated by passing the following minimum international iBT (internet-based TOEFL) scores:

| Code          | Title | Units |
|---------------|-------|-------|
| Reading: 25   |       |       |
| Speaking: 25  |       |       |
| Writing: 25   |       |       |
| Listening: 25 |       |       |

All international students must complete international student applications, which must be approved through APU's Office of International Enrollment Services (<http://www.apu.edu/international/enrollment/>).

## Requirements

| Code           | Title   | Units |
|----------------|---|-------|
| Year 1, Summer |   |       |
| AT 501         | Foundations of Athletic Training                              | 3     |
| AT 513         | Fundamental Skills in Athletic Training                       | 3     |
| AT 515         | Anatomical Basis of Athletic Training                         | 4     |
| Year 1, Fall   |   |       |
| AT 518         | Foundations of Examination and Diagnosis: Lower Extremity     | 3     |
| AT 522         | Foundations of Therapeutic Interventions: Lower Extremity     | 3     |
| AT 524         | Principles of Evidence-Based Practice                         | 2     |
| AT 528         | Clinical Integration I  | 3     |
| Year 1, Spring |   |       |
| AT 531         | Examination, Diagnosis, and Interventions: Upper Extremity    | 4     |
| AT 534         | Biomechanics  | 3     |
| AT 535         | Data Analysis and Patient Outcomes                            | 2     |
| AT 539         | Clinical Integration II                                       | 3     |
| Year 2, Summer |   |       |

| AT 570      | Clinical Integration V                   | 5  |
| Total Units |  | 63 |

## Clinical Education

Clinical education experiences provide students with the opportunity to practice and integrate their cognitive learning with the associated psychomotor skill requirements of the profession, and to develop entry-level clinical proficiency and the professional behavior required of an athletic trainer as defined in the 2020 Standards for Accreditation of Professional Athletic Training Programs (<https://caate.net/wp-content/uploads/2019/02/2020-Standards-Final-2-20-2019.pdf>). These clinical experiences are completed under the direct supervision of a qualified preceptor in an appropriate clinical setting. The primary settings for clinical experiences include athletic training and allied healthcare facilities, athletic practices, and competitive events. Ample opportunities are provided for students to gain clinical experience associated with a variety of populations including both genders, diverse age groups, and varying levels of risk, protective equipment, and medical experiences that address the continuum of care that would prepare students to function in a variety of settings and meet the domains of practice delineated for a certified athletic trainer.

Clinical experiences are accomplished through several clinical rotation assignments that expose students to a variety of athletic training settings, sports, and patient populations. Clinical rotations include a diversity of professional settings such as on-campus varsity athletics, high schools, colleges, professional sports, physician offices, and rehabilitative clinics. Students complete multiple rotations purposefully scheduled to complement coursework, introduce students to several types of employment settings, and provide perspectives from multiple professionals.

As required by CAATE, students complete two academic years of clinical experiences, including clinical immersive experiences.

## Graduation Requirements

Graduation requirements include successfully completing all coursework with at least a 3.0 GPA and a *B-* or better in all courses. See the current MSAT Student Handbook for details on academic probation and dismissal. See also Grading (p. 1446) in the Academic Policies and Procedures (p. 1421) section of this catalog.

Additional graduation requirements include:

1. Completion of a minimum of 1,000 clinical experience hours.
2. Completion of all Clinical Integration Proficiencies.
3. Completion of all required professional development units (attendance at and participation in regional and national athletic training conferences, in-services, community service events).

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Communicate with a variety of audiences including, but not limited to, peers, medical professionals, coaches, injured individuals, family members, and policy makers.
2. Demonstrate awareness of others' values and beliefs during professional interactions.
3. Use current evidence to help inform clinical decisions.
4. Exhibit mastery of contemporary athletic training content.
5. Conduct themselves as ethical professionals.
6. Understand how to apply Christian values to patient care.

# M.S. in Athletic Training (Summer 2020 Cohort)

The following information applies only to the Summer 2020 cohort of M.S. in Athletic Training students. Summer 2021 M.S. in Athletic Training students should review the primary M.S. in Athletic Training (p. 583) page in this catalog.

For more information: (626) 815-5086

The Master of Science in Athletic Training (MSAT) (<https://www.apu.edu/bas/programs/athletic-training-masters/>) is an intense, demanding, and rewarding program of study. The MSAT is a full-time residency program that prepares students for successful completion of the national Board of Certification, Inc. (BOC) (<http://www.bocac.org/>) examination and for careers in athletic training (<https://www.nata.org/about/athletic-training/>). Multiple clinical experiences (<https://www.apu.edu/bas/programs/athletic-training-masters/clinical/>) provide students with practical learning designed to strengthen professional preparation and career placement, and a Christian worldview is woven throughout the program, giving students a Christ-centered perspective of this service profession.

For the Summer 2020 cohort, the MSAT is a 62-unit, two-year program including two 8-week summer terms and four traditional 16-week semesters. The final spring semester of the program includes 8 weeks of clinical immersion. Through academic coursework and hands-on clinical experiences integrated with a Christian worldview, students learn to provide immediate and follow-up care to patients while under the direct supervision of a preceptor. Students observe, learn from, and interact with a variety of healthcare personnel and members of the public, including physicians, nurses, physical therapists, patients, athletes, coaches, and parents.

Students enrolled in this program complete coursework in the areas of acute care and emergency management of injuries, orthopedic assessment and diagnosis, therapeutic modalities, therapeutic exercise, biomechanics, pharmacology, general medical conditions, strength and conditioning, healthcare administration, psychological and spiritual aspects of injury and illness, and research methodology.

Program requirements are compliant with the current *Standards for the Accreditation of Professional Athletic Training Programs* established by the Commission on Accreditation of Athletic Training Education (CAATE) (<http://www.caate.net/>). Students who apply must successfully complete prerequisite courses and other admissions requirements prior to enrolling. Following completion of the program, students are eligible to sit for the BOC examination to become a certified athletic trainer.

## Mission Statement

The mission of the Master of Science in Athletic Training (MSAT) program is to fully equip athletic training students with a quality education that includes a Christian perspective to become lifelong learners. The program incorporates current research and scholarly instruction in both the clinical and didactic portions of the program, preparing athletic training students to enter the profession as entry-level athletic trainers upon successfully passing the BOC examination.

## Values and Beliefs

We value:

1. The use of Christian principles in teaching and athletic training.
2. Student-centered teaching and learning, and providing all the resources necessary to equip students to enter the athletic training profession.
3. Experiential and clinical learning with impact on the greater community.
4. Educating the whole student: spiritually, intellectually, and physically.

## Goals

1. To provide an accredited athletic training program in a Christian environment for athletic training students seeking Board of Certification, Inc. certification.
2. To offer diverse clinical education experiences that expose athletic training students to the variety of employment settings available in the field of athletic training.
3. To produce entry-level athletic training professionals who conduct themselves ethically and make decisions using a Christian worldview.

## Objectives

1. To provide athletic training students with the required knowledge and skills to become competent entry-level athletic trainers.
2. To assist athletic training students in becoming true servants of God as they minister to injured persons.
3. To provide athletic training students with the ability to critically analyze evaluation, treatment, and rehabilitation protocols to ensure efficient and high-quality care for every athlete/patient/client.
4. To help athletic training students learn how to effectively communicate and interact with others.

5. To foster an understanding of multiple perspectives to facilitate learning, particularly within the clinical setting.
6. To impart the ability to make informed decisions regarding the prescribed standards of practice and ethics in the profession of athletic training.
7. To equip athletic training students with the skills necessary to seek, assimilate, analyze, and interpret data and other information vital to continued growth and understanding of the ever-changing field of athletic training.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Prerequisite Courses

The following prerequisites must be completed before entry:

| Code   | Title                        | Units |
|--|------------------------------|-------|
| <b>Biology: Two Required Courses</b>                       |                              |       |
|  | Human Anatomy with lab       |       |
|  | Human Physiology with lab    |       |
| <b>Additional Courses (Recommended, but Not Required):</b> |                              |       |
|  | Exercise Physiology with lab |       |
|  | Research Methods             |       |

## Other Admission Criteria

- Application cycles begin in July for the following year's cohort. Application review begins in the fall, and students are accepted on a year-round, rolling admission basis. However, to ensure consideration for the summer start date, completed applications should be submitted early in the admission cycle (<https://www.apu.edu/bas/programs/athletic-training-masters/admission/#applicationdeadlines>).
- No more than 20 percent (13 units) of the total amount of units for this program may be transferred in from a comparable graduate program. Each request will be evaluated according to the established transfer credit requirements. Refer to the Transfer Credit (p. 1471) requirements listed in the Academic Policies and Procedures (p. 1421) section of the Graduate and Professional Catalog. Specific questions regarding eligibility for transfer credit can be directed to the Graduate and Professional Center (<http://www.apu.edu/graduateprofessionalcenter/>) at (626) 815-4570.
- Once a student is offered admission into the program, a nonrefundable deposit of \$500 for the program is due within 21 days of receipt of the acceptance letter. This will be applied to the first term's tuition fee. The deposit should be submitted to:

Azusa Pacific University  
 Graduate and Professional Center Cashier  
 901 East Alost Avenue  
 PO Box 7000  
 Azusa, CA 91702-7000

- In addition, accepted students must submit the following items to the program:
  1. Documentation of the following up-to-date immunizations: HBV series, MMR, Tdap, chicken pox, and meningococcal.
  2. Verification of a recent (within the last 12 months) negative TB test.
  3. Copy (with instructor's signature or QR code) of current, valid certification card(s) for Adult, Child, and Infant CPR.
  4. Copy (with instructor's signature or QR code) of current, valid certification card for Standard First Aid.
  5. Documentation of ability to meet MSAT Technical Standards ([http://www.apu.edu/live\\_data/files/241/msat\\_technical\\_standards.pdf](http://www.apu.edu/live_data/files/241/msat_technical_standards.pdf)) (PDF) with or without reasonable accommodations.
  6. A signed copy of the MSAT Oath of Confidentiality ([https://www.apu.edu/live\\_data/files/241/msat\\_oath\\_of\\_confidentiality.pdf](https://www.apu.edu/live_data/files/241/msat_oath_of_confidentiality.pdf)) (PDF) regarding all medical information.
  7. A signed copy of the MSAT Communicable Disease Policy ([http://www.apu.edu/live\\_data/files/241/msat\\_communicable\\_disease\\_policy.pdf](http://www.apu.edu/live_data/files/241/msat_communicable_disease_policy.pdf)) (PDF).

### Postacceptance materials should be submitted to:

Azusa Pacific University  
 Department of Kinesiology  
 Master of Science in Athletic Training

PO Box 7000  
Azusa, CA 91702-7000

International applicants send additional forms to:

International Center  
Azusa Pacific University  
PO Box 7000  
Azusa, CA 91702-7000 USA

+1-626-812-3055

Fax: +1-626-815-3801  
international@apu.edu  
apu.edu/international (<http://www.apu.edu/international/>)

In addition to meeting the admission requirements, students whose first language is not English must meet the required English proficiency standard as demonstrated by passing the following minimum international iBT (internet-based TOEFL) scores:

| Code          | Title | Units |
|---------------|-------|-------|
| Reading: 25   |       |       |
| Speaking: 25  |       |       |
| Writing: 25   |       |       |
| Listening: 25 |       |       |

All international students must complete international student applications, which must be approved through APU's International Enrollment Services (<http://www.apu.edu/international/enrollment/>).

# M.S. in Physical Education

For more information: (626) 815-5473

The Master of Science in Physical Education (<https://www.apu.edu/bas/programs/masters-in-physical-education/>) equips candidates with the knowledge and skills needed to instruct physical education, administrate athletic programs, and coach at the K-12, junior college, and four-year university levels. The goal of this academic program is to develop candidates' awareness of the process involved in effecting change in the lives of people they will serve. This is achieved through the mastery of professional skills and knowledge and the integration of teaching, coaching, and administrative techniques and strategies. This program is available at the main campus in Azusa and online.

## Mission Statement

The Master of Science in Physical Education program at Azusa Pacific University comprises a Christian community of scholarly believers who seek to advance the work of God in schools of all levels by effectively training physical educators, coaches, athletic administrators, and exercise science professionals in knowledge and skills through academic excellence and a Christian perspective of truth and life.

## Prerequisites

- Twelve semester units of undergraduate coursework in education, or a baccalaureate degree or concentration in physical education.
- For each year of verified, full-time teaching or coaching experience, 3 units of prerequisites may be waived.
- Students pursuing a teaching credential should refer to the Division of Teacher Education (p. 814) prior to applying to the physical education program.

## Requirements

- Master of Science in Physical Education (p. 591)
- Master of Science in Physical Education with an Emphasis in Sport Management (p. 592)

## Requirements for the Master of Science in Physical Education

Graduate physical education students must maintain a cumulative GPA of 3.0 (*B*) or better, and may not earn lower than a 2.7 (*B-*) in any PE core or content course. Students who earn below a 2.7 (*B-*) in a PE core or content course must retake the course and achieve the minimum GPA requirement.

| Code                              | Title   | Units     |
|-----------------------------------|---|-----------|
| <b>Core Courses</b>               |   | <b>12</b> |
| PE 551                            | Curriculum Theory and Design in Physical Education                          |           |
| PE 552                            | History and Philosophy of Physical Education                                |           |
| PE 582                            | Seminar in Professional Literature in Physical Education and Sport          |           |
| <b>Research Project Component</b> |   | <b>3</b>  |
| PE 584                            | Assessment, Technology, and Evaluation in Physical Education <sup>1,2</sup> |           |
| PE 589                            | Physical Education and Exercise Science Capstone <sup>1,2</sup>             |           |
| <b>Content Courses</b>            |   | <b>21</b> |
| PE 555                            | Sociological and Ethical Issues in Sport                                    |           |
| PE 560                            | Sports Medicine   |           |
| PE 565                            | Athletics and the Law   |           |
| PE 570                            | Leadership and Administration of Physical Education and Athletic Programs   |           |
| PE 575                            | Advanced Principles of Physical Conditioning                                |           |
| PE 578                            | Sport Psychology  |           |
| PE 580                            | Wellness and Fitness for Life   |           |
| Approved transfer units           |   | 3-6       |
| <b>Total Units</b>                |   | <b>36</b> |

<sup>1</sup> Students must earn a "credit" in PE 584 and 3.0 (*B*) or better in PE 589.

<sup>2</sup> PE 584 and PE 589 must be completed consecutively, during the final two terms of the program, after all other coursework is fulfilled.

## Requirements for the Master of Science in Physical Education with an Emphasis in Sport Management

| Code                              | Title  | Units     |
|-----------------------------------|--|-----------|
| <b>Core Courses</b> <sup>1</sup>  |  | <b>9</b>  |
| PE 551                            | Curriculum Theory and Design in Physical Education   |           |
| PE 552                            | History and Philosophy of Physical Education   |           |
| PE 582                            | Seminar in Professional Literature in Physical Education and Sport                                     |           |
| <b>Research Project Component</b> |  | <b>6</b>  |
| PE 584                            | Assessment, Technology, and Evaluation in Physical Education <sup>2, 3</sup>                           |           |
| PE 589                            | Physical Education and Exercise Science Capstone <sup>2, 3</sup>                                       |           |
| <b>Content Courses</b>            |  | <b>21</b> |
| PE 555                            | Sociological and Ethical Issues in Sport   |           |
| PE 556                            | Facility and Event Management  |           |
| PE 557A                           | Field Studies/Internships in Sport Management <sup>4</sup>   |           |
| PE 557B                           | Field Studies/Internships in Sport Management (Internship requires departmental approval) <sup>4</sup> |           |
| PE 558                            | Sport Finance  |           |
| PE 565                            | Athletics and the Law  |           |
| PE 570                            | Leadership and Administration of Physical Education and Athletic Programs                              |           |
| PE 572                            | Foundations of Sport Management  |           |
| Total Units                       |  | 36        |

<sup>1</sup> Graduate physical education students must maintain a cumulative GPA of 3.0 (*B*) or better, and may not earn lower than a 2.7 (*B-*) in any PE core or elective course. If a student earns below a 2.7 in a respective class, s/he will be required to retake the course to improve the GPA to a 2.7 or better.

<sup>2</sup> Students must earn a "credit" in PE 584 and 3.0 (*B*) or better in PE 589.

<sup>3</sup> PE 584 and PE 589 must be completed consecutively, after all other PE and sport management coursework is fulfilled.

<sup>4</sup> PE 557A and PE 557B must be completed consecutively, after all other sport management content coursework is fulfilled. May be completed concurrently with PE 584 and PE 589.

### Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

### Program Learning Outcomes

#### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. History and Philosophy of Physical Education: Synthesize the history and philosophy of Physical Education and how it interacts with the current discipline.
2. Integration of Faith: Integrate Christian perspectives and biblical truths to Physical Education and Sport.
3. Leadership and Administration in Physical Education and Sport: Apply the concepts of administration, organization, programming, evaluation, and leadership in Physical Education, Athletic Administration, and Sport management.
4. Psychology, Sociology, and Ethics in Physical Education, Administration, and Sport: Apply psychology, sociology, and ethical theories and practices in Physical Education, Athletic Administration, and Sport management.
5. Research and Writing: Demonstrate the ability to critically analyze research, develop a research proposal, and write according to APA standards.
6. Physical Education Fieldwork/Curriculum Assessment: Demonstrate proficiency in the development and evaluation of curriculum in Physical Education and Sport.

# Minor in Adapted Physical Activity

18 units

The adapted physical activity minor provides undergraduate students with education and experience working with individuals with disabilities. Students learn how to modify and adapt skills and activities to promote a lifetime of physical activity and wellness, and gain valuable experiences while preparing for a career in liberal studies, physical education, special education, or adapted physical education. This program also serves as excellent preparation for APU's teaching credential and Adapted Physical Education Added Authorization to gain a competitive advantage in the job market.

## Requirements

| Code        | Title  | Units |
|-------------|--|-------|
| PE 325      | Motor Development and Learning   | 3     |
| PE 451      | Methods in Physical Education: 7-12 <sup>1</sup>   | 3     |
| PE 452      | Adapted Physical Education   | 3     |
| PE 600      | Physical Education Teaching Methods for Individuals with Mild to Moderate Disabilities   | 3     |
| PE 602      | Physical Education Teaching Methods for Individuals with Severe to Profound Disabilities | 3     |
| PE 605      | Management of Adapted Physical Education Programs  | 3     |
| Total Units |  | 18    |

<sup>1</sup> Meets the General Education Integrative and Applied Learning requirement.

## Completing Graduate-level Courses as an Undergraduate Student

Coursework for the minor in adapted physical activity includes three graduate-level courses. In order for undergraduate students to enroll in these courses, the following conditions must be met:

- Must be a senior with a cumulative GPA of 3.0 or higher.
- Must obtain approval from the graduate program director or graduate department chair.
- Must obtain approval from the department chair of his/her undergraduate major.
- Must submit the Graduate/Professional Courses Taken by Undergraduate Students form provided by the Undergraduate Enrollment Services Center (<https://www.apu.edu/undergraduate-enrollment-services/academic/forms/>).
- No more than 9 units earned as an undergraduate may be counted toward an APU graduate degree.
- Must complete a Certificate of Clearance (COC) before completing the graduate courses.

# Department of Leadership and Organizational Psychology

## Department Overview

The Department of Leadership and Organizational Psychology (<http://www.apu.edu/bas/leadershippsych/>) offers a unique blend of academic and experiential learning that provides students with an effective type of learning experience for personal and professional growth.

The department offers an undergraduate leadership minor (p. 603) that assists students in identifying and developing personal and professional competencies that enable them to contribute more effectively to all areas of their lives, as well as two graduate degree programs, the Master of Arts in Leadership and the Master of Science in Organizational Psychology.

Learn more about the Department of Leadership and Organizational Psychology. (<http://www.apu.edu/bas/leadershippsych/>)

## Accreditation

- All Azusa Pacific University programs are accredited by the WASC Senior College and University Commission (WSCUC). (<http://www.wascsenior.org>)

## Programs

### Minor

- Leadership (p. 603)

### Master's

- Leadership (p. 601)
- Organizational Psychology (p. 602)

## Courses

### LDRS 103, Calling, Major, and Career Exploration: A Strengths-Based Approach to Life Planning, 3 Units

This course complements LDRS 100 by using a strengths-based approach to life planning in order to specifically help lower-division students make decisions regarding their individual calling, selection of a major, or exploration of a career. Emphasis is on identifying and developing strengths, gifts, and talents. This course is designed specifically for freshmen/sophomores. (Not recommended if you have completed LDRS303).

### LDRS 201, Foundations of Leadership, 3 Units

This course blazes the trail for understanding the concepts of good leadership and followership, identifying oneself as a leader, discovering one's sense of calling, establishing a commitment and plan for whole-person leadership development, seeing leadership through an interdisciplinary lens, and grounding one's 'leadership story' in an awareness of current history and the reality of the Kingdom of God. Through creative experiences, meaningful texts, and powerful assignments, students are prepared for further leadership education.

### LDRS 303, Career and Life Planning, 3 Units

For students entering the professional world, this course aids in understanding career development options, finance management, and coping with stress. Students gain a greater understanding of their strengths, values, interests, skills, and personality as they seek employment and/or apply to graduate school. Relevant guest presenters spend class time sharing important information that benefits students in planning for careers and life.

### LDRS 311, Leadership Values and Virtues, 3 Units

This course views leaders as authentic servants committed to transformation. Students study the leader's motivations, the dreams of followers, conflict resolution, as well as personal, intellectual, and civic virtue. Perspectives for steering clear of bad leadership and toward collaboration with those who share the leader's commitment to the common good are considered. The course focuses on the development of leaders who are responsible, good, humble, and who understand the diverse values of others.

**Prerequisite:** LDRS 201 (may also be taken concurrently) or junior standing or department consent.

## **LDRS 311H, Leadership Values & Virtues - Honors, 3 Units**

This course views leaders as authentic servants committed to transformation. Students study the leader's motivations, the dreams of followers, conflict resolution, as well as personal, intellectual, and civic virtue. Perspectives for steering clear of bad leadership and toward collaboration with those who share the leader's commitment to the common good are considered. The class focuses on the development of leaders who are responsible, good, humble, and who understand the diverse values of others.

**Prerequisite:** LDRS 201 (may also be taken concurrently), Junior standing, or departmental consent. Must also be a student admitted to the Honors College and be considered a member in 'active' status

## **LDRS 322, Leadership Strengths and Skills, 3 Units**

This course focuses on a strengths-based approach to leadership and leadership development, as well as the skills necessary for good leadership. Opportunities to understand and practice essential skills such as continual learning, powerful communication, problem solving, managing process, goal achievement, conflict resolution, win-win negotiating, and empowering stewardship are woven throughout the course. Training additional leaders is also a key topic. Effective leadership practice through emphasis on strengths development is the goal of this course.

**Prerequisite:** LDRS 201 (may also be taken concurrently) or junior standing or department consent.

## **LDRS 333, Leadership Influence and Impact, 3 Units**

This course looks at the leader as agent of change on three levels: personal change, influence on individuals and small groups, and impact on cities, organizations, and cultures. Through historical reflection and developing a systemic vision, students are equipped to make a difference in many social settings. By learning to work as mentors, facilitators, and ambassadors, emerging leaders can leave a dynamic legacy.

**Prerequisite:** LDRS 201 (may also be taken concurrently) or junior standing or department consent.

## **LDRS 335, Leadership Communication, 3 Units**

This course teaches students the theoretical, empirical, and practical aspects of leadership communication by taking a distinct communication approach to leadership studies. Topics covered include leadership and followership communication styles and practices; various leadership theories and perspectives; power and influence; team/group leadership; organizational, crisis, and public leadership; diversity; ethics in leadership; and leadership development.

## **LDRS 401, Leadership Studies Capstone, 3 Units**

This course deepens students' capacity for leadership based on wisdom, knowledge, and understanding. In addition to concluding the leadership minor by linking leadership practice to leadership theory, students dialogue about leadership issues such as gender, community, temptation, finding one's voice, mission, and the whole-person model. A thoughtful and thorough final project and a high-quality portfolio presentation are crafted to integrate students' learning about leadership and to provide a postgraduation plan for lifelong leadership development.

**Prerequisite:** LDRS 201, LDRS 311, LDRS 322, LDRS 333

## **LDRS 497, Readings, 1-3 Units**

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a professor approved by the Program Chair. The course allows the student to identify a specific leadership theme and investigate it further.

## **LDRS 501, Foundations of Leadership Theory, 3 Units**

This course provides a conceptual and practical survey of predominant leadership theories providing students with opportunities for critical reflection and application. A focus is given to transformational theories of leadership and application is made to the M.A. in Leadership core competencies.

## **LDRS 502, Cornerstones of Christian Leadership, 3 Units**

This course utilizes APU's Four Cornerstones to discuss leadership from the Christian tradition. Students look at the example of Jesus, the ultimate servant leader, and how His followers through history have both succeeded and failed in following His example. Through probing into how Christian scholars have written about and understood leadership, as well as seeking to show that the goal of Christian leadership is to serve God and the common good of humanity, students gain a faith-based benchmark for further studies in leadership.

## **LDRS 503, Organizational Behavior, 3 Units**

This course investigates the effective functioning of individuals and groups within organizational settings. Emphasis is placed on how leaders perceive organizations from strategic design, organizational culture, and political environment perspectives. This course applies theoretical concepts to major organizational challenges such as organizational effectiveness, motivation, conflict, job stress and satisfaction, and decision making. The focus of the course includes organizational communication, as well as the attitudinal and behavioral implications for leaders.

## **LDRS 510, Creative and Collaborative Leadership, 3 Units**

This course enables students to integrate the concepts of personality, leadership, and creativity; investigate collaborative leadership; identify and apply creativity and preferred leadership styles; and explore the effects leadership styles can have on given organizational communities.

## **LDRS 511, Exploration of Leadership Thought, 3 Units**

This foundational course provides an overview of the evolution of leadership thought, including a review of the fundamental theories and principles that led to the study of leadership as a discipline, as well as an examination of the story of leadership from a biblical perspective. Students are introduced to a holistic framework for leadership development informed by an understanding of the importance of ethics, values, and spirituality from a Christian worldview.

### **LDRS 512, EQ I: Self-Leadership, 3 Units**

This course focuses on the self-competence elements of emotional intelligence - leader self-awareness and leader self-management - from psychological, spiritual, emotional, and developmental perspectives. Students enhance their self-leadership through the improvement of self-competence and self-development.

### **LDRS 516, Leadership Development and Practice, 3 Units**

This course emphasizes the process of leadership development from a transformational perspective. Students consider both their personal growth and the dynamic mechanisms necessary for facilitating the development of others. Emphasis is on the issues and challenges of creating a lifelong learning mindset individually and organizationally, mentoring strategies, team building, developing effective followers, and designing career development systems. This course provides the opportunity for application through a practicum assignment.

### **LDRS 520, Understanding Vocation in a Changing World, 3 Units**

This course focuses on understanding one's true overarching vocation in life as it connects to the purposes of God in this world to steward the earth and its peoples. One's vocation then influences what one does with his or her life. The concepts of career are continually changing, but work/life planning continues to be important personally and professionally. Students have the opportunity to use various self-assessment tools and diagnostic instruments to evaluate their own working history, interests, skills, values, and career anchors. Students also learn to design career programs for organizational settings.

### **LDRS 523, EQ 2: Relational Leadership, 3 Units**

This course focuses on the social competence elements of emotional intelligence - leader/follower social awareness and leader/follower relationship management - from psychological, spiritual, emotional, and developmental perspectives. Students enhance their relational leadership acumen through the study of motivation, and social skills for leader/follower relational development.

**Prerequisite:** LDRS 512

### **LDRS 524, Principles and Practices of Design Thinking, 3 Units**

Students in this course explore the fundamental principles and practices of design thinking, in relation to the workplace and in the context of the person as leader. Concepts such as creativity, empathy, failure, risk, and creative confidence are explored. This course also provides the opportunity to practice design thinking on personal and organizational levels.

### **LDRS 532, Leadership Practicum, 3 Units**

This course creates a dialogue between previously explored concepts/theories of leadership and the practical experiences of exemplar practitioners. Students are involved in community service and exposed to community leaders for interaction, observation, and analysis. These encounters enable students to assess and activate their leadership journey based on spiritual, mental, educational, and emotional aspects of leadership development.

**Prerequisite:** LDRS 501, LDRS 502, and LDRS 503

### **LDRS 533, Systems and Strategic Planning for Leaders, 3 Units**

This course focuses on systems thinking from a leadership perspective. By working with stories, scenarios, and strategy, students learn to address complex problems, anticipate consequences, and leverage potential. Attention will be given to the use of narrative for influencing constituent participation. Finally, organizational design is considered as a key concern for leaders in organizations.

**Prerequisite:** LDRS 501, LDRS 502, and LDRS 503

### **LDRS 534, Leader as an Agent of Change, 3 Units**

This course looks at the leader as an agent of change through three lenses: self examination, change theory, and organizational culture. Each is assessed in light of implications for those involved in the change initiative. Special attention will be given to the transformational change that takes place for leaders and followers when the call for change occurs. Application is made to organizations, informal networks, temporary situations, and other social contexts.

### **LDRS 535, Leading Dynamic Change, 3 Units**

This course focuses on the practice of leading organizational change, as well as the importance of personal change within the life of the leader. Students engage in activities and projects to enhance understanding of the role of the leader as a change agent within the organization.

### **LDRS 536, Disruptors and Conflict, 3 Units**

This course prepares students to manage their responses to conflict in order to leverage disruptive issues in leadership with creative confidence. Through the study of personal and organizational conflict management skills, students become equipped to solve complex issues that are disruptive to personal, team, and organizational functioning.

### **LDRS 542, Leading Across Cultures, 3 Units**

In a pluralistic society, leaders are often tasked with the responsibility of bridging both domestic and international contexts in a convergence of global learning. This seminar will examine the historical, organizational, and interpersonal significance of leading across cultures, with particular emphasis on discerning the underlying values of community behaviors as well as the attitudes, beliefs, values, skills, knowledge, and self-awareness necessary for leaders to effectively serve in diverse contexts. A variety of theoretical, research and applied issues are addressed; in particular, the course aims to explore social location theory as a means of equipping graduates to advance equity and positive change through increased capacity for diversity engagement.

## **LDRS 547, Navigating Social Climates, 3 Units**

This course equips students as leaders in today's globalized organizations and societies who analyze, through multiple lenses, issues of inequity and injustice that exist locally, nationally, and globally. The course utilizes conceptual and experiential learning in which students encounter and reflect on realities of inequity and injustice in the social and natural worlds, in interpersonal, intergroup, and organizational relationships. Students are also expected to begin to develop habits and skills to promote shalom-oriented organizations and communities.

## **LDRS 548, Strategic Foresight, Thinking, and Planning, 3 Units**

This course focuses on engaging the full strategy cycle, which includes strategic foresight, thinking, and planning. Through an applied project, students engage in scanning for trends and developing stories and scenarios; develop strategic thinking skills; and engage in a strategic planning process.

## **LDRS 559, Curiosity to Inquiry, 3 Units**

This pass/fail course underscores curiosity as an innate human capacity and cultivates students' ability to use it toward human-centered inquiry and socially transformative innovations. Students engage in the ideation and inspiration phases of Design Thinking in solving a complex leadership challenge for an organization or a community. Through the process, students are expected to become familiar with traditional as well as innovative data collection techniques and become informed consumers of published research. Successful completion of this course results in a prototype for the leadership experiment, which the student implements in LDRS 560 Leadership Experiment.

**Prerequisite:** LDRS 511, LDRS 512, LDRS 523, LDRS 524, LDRS 535, LDRS 536, LDRS 547, and LDRS 548.

## **LDRS 560, Leadership Experiment, 3 Units**

As a completion of the M.A. in Leadership program's 4D model of Discover, Design, Develop, and Deliver, this final course helps students continue their leadership experiment started in LDRS 559 and culminates with a TEDx-style presentation. This is a pass/fail course.

**Prerequisite:** LDRS 559, and enrollment in the M.A. in Leadership program.

## **LDRS 561, Group and Conflict Issues in Leadership, 3 Units**

This course helps the student understand small-group behavior. It uses experience-based methods, case studies, reading material, and simulation. The course examines role behavior, group dynamics, conflict control, leadership, and group development. It also addresses motivation and problem solving as essential elements of organizational behavior.

## **LDRS 563, Ethical Decision Making, 3 Units**

This course investigates the intersection of ethics and effective decision making. Students will explore ethical implications of the decision making process, with particular emphasis on the ways that ethical decision making applies to individuals, groups, and organizational systems. This course applies theoretical concepts to significant organizational problems requiring effective decision making processes. Attention will be given to systematic rational approaches as well as the role of intuition and group dynamics in the decision making process. The course will utilize lecture, case study analysis, group exercises, review of current literature, classroom discussions, and simulations to create an effective learning environment.

## **LDRS 571, Leadership for a Learning Environment, 3 Units**

This course looks at the leader's role in designing and implementing effective learning strategies and effective methods for educating adults. Emphasis is given to the creation of programs that focus on learning styles, discussion-oriented teaching, inspiring presentation skills, and results-oriented outcomes. During the course, students are given opportunities to demonstrate competency in the principles and practices of materials development, teaching, training, and skill development.

## **LDRS 592, Research Methods and Design, 3 Units**

This course provides an introduction to basic concepts, principles, and methods of evaluation and research in the leadership setting, focusing on research traditions, procedures, theories, and methods. Emphasis is placed on identifying methods appropriate for particular research questions and conducting disciplined inquiry regardless of method selected. Particular emphasis will be placed on identifying a research question and conducting a comprehensive review of relevant literature.

## **LDRS 593, Applied Research, 3 Units**

This course provides an introduction to basic concepts, principles, and methods of evaluation and applied research in leadership settings, focusing on action research methodology. A faculty-student collaborative process, participatory action research allows students to engage in inquiry and action for change in response to organizational or community problems. During the course, students will identify a research question in their personal leadership contexts, review the current research literature, develop a plan to collect initial data, and present their project and findings to the class. At each stage of inquiry, the professor and peer research groups will provide feedback.

**Prerequisite:** LDRS 592 (May be taken concurrently)

## **LDRS 595, Capstone Project in Leadership, 3 Units**

The capstone course is an opportunity for students to demonstrate that they have achieved the goals for learning established through the M.A. in Leadership program competencies. The course assesses cognitive, affective, and applied learning in a student-centered and student-directed manner which requires the command, analysis, and synthesis of knowledge and skills. The capstone course integrates scholarship and praxis through the development of a literature review and 360-degree assessment and requires application of that learning to professional and personal contexts as evidenced through artifacts demonstrating competence. In culmination of their graduate studies, students will formulate a personal philosophy of leadership and develop a personalized growth plan that synthesizes their academic learning and outlines future professional and intellectual goals.

**Prerequisite:** Students enrolled in the M.A. in Leadership program

### **LDRS 597, Current Issues in Leadership, 3 Units**

Current topics are chosen for discussion, research, and decision making relevant to the Organizational Leadership emphasis.

### **LDRS 598, Special Topics, 3 Units**

In this course, a topic of current interest or need is examined in depth. Students analyze and evaluate topics/ issues to reach and express a position, provide training for a particular population, or enhance personal development. If students elect this course more than once during their program, each course must address a different topic.

### **LDRS 599, Readings in Leadership Studies, 1-3 Units**

The independent study vehicle allows students and their sponsoring faculty members to pursue approved investigations beyond regular course offerings.

### **OPSY 501, Introduction to Organizational Psychology, 3 Units**

This course is an introduction to the field of organizational psychology, providing an overview of the fundamentals of Industrial and Organizational Psychology. Students are introduced to the field along with the various sub-fields with the discipline. Special consideration is given to topics that integrate the application of psychology to organizational environments. Coursework will provide a history of I/O psychology, offer a comparative review of topics within both Industrial Psychology and Organizational Psychology, and help students gain a fundamental understanding of employee selection, training, motivation, job satisfaction, communication, group behavior, and stress management. The course will also include a review of the organizational psychology literature as well as ethical guidelines and professional standards governing the practice of organizational psychology.

**Prerequisite:** Acceptance into the MS, Organizational Psychology program.

### **OPSY 502, Organizational Ethics, 3 Units**

This course presents philosophical and ethical perspectives integral to understanding the moral context of leadership and decision-making within organizations. Students learn how virtues and values frame leadership development, gain an appreciation for ethical and moral reflection in decision-making, and understand the processes and rewards of character within organizational relationships.

**Prerequisite:** Acceptance into the MS, Organizational Psychology program.

### **OPSY 503, Group and Organizational Behavior, 3 Units**

This course offers a behavioral science approach to organizational life and enables students to investigate the effective functioning of individuals and groups within organizational settings. Emphasis is placed on the psychology of teams, team dysfunction, group conflict, and organizational culture. This course applies theoretical concepts to challenges such as team dynamics, conflict, decision making, and organizational behavior patterns.

**Prerequisite:** Acceptance into the M.S. in Organizational Psychology program; successful completion of OPSY 501 is recommended.

### **OPSY 505, Individual and Team Assessment, 3 Units**

Students receive instruction and training in individual assessment techniques for vocational and business applications including pre- and post-employment assessment for selection, onboarding training, advancement, developmental or remedial coaching, and succession planning. Students are introduced to qualitative and quantitative assessment methods as key tools for leadership assessment and will learn the importance of assessment in organizational and leadership dynamics, gain competency in the use of several key assessment methods and instruments, and learn to apply these instruments to leadership development within work team environments. Students will also be introduced to job analyses and use measurement tools relevant for assessing occupational interests, abilities, competency modeling, and work-related personality constructs. Students will complete several individual assessments as part of the experiential, outside-of-class portion of the course.

**Prerequisite:** Acceptance into the MS, Organizational Psychology program.

### **OPSY 510, Organizational Assessment and Interventions, 3 Units**

Students are introduced to interventional strategies that correspond to the primary issues related to organizational life: change management, organizational culture, and leadership and team dynamics. Students gain competency in focusing on these critical areas of assessment and intervention: qualitative method, conducting needs analysis, proposing consultation projects and employee assistance programs. Students become familiar with research methodologies related to existing programs and successful programs within companies.

**Prerequisite:** Successful completion of OPSY 501

### **OPSY 515, Qualitative Approaches for Coaching Application, 3 Units**

Students in this course examine theories and practices within the fields of psychology, organizational behavior, business, and other relevant fields as they relate to the practice of executive coaching. They also explore coaching competencies, professional ethics, and models of executive coaching, and are introduced to a repertoire of basic coaching skills applicable to most executive coaching situations (e.g., self-awareness, empathy, listening, questioning, giving and receiving feedback, confrontation, limit setting, demonstrating leadership, etc.).

**Prerequisite:** OPSY 501

## **OPSY 520, Consultative Applications of Organizational Psychology, 3 Units**

This course approaches the applied aspects of organizational psychology, providing an overview of the consulting process as it relates to external and internal consultation in industry. Students are introduced to the theoretical and practical aspects of providing organizational consultation. Special consideration is given to topics that integrate the competencies needed for applying psychology to organizational environments. Coursework provides an overview of organizational consulting models and frameworks, and focuses on the fundamental steps in the consulting process that lead to high-impact outcomes. The course also includes a review of the organizational psychology literature, as well as ethical guidelines and professional standards governing the practice of organizational psychology.

**Prerequisite:** Acceptance into the M.S. in Organizational Psychology program, and successful completion of OPSY 501.

## **OPSY 534, Organizational Systems: Theories of Change, 3 Units**

This course will engage the idea of organizational change from a systems perspective and approach content through analysis of theory, praxis, and story. Practical application will be explored as to how students can and will be equipped to serve as change agents in both an internal and external consultant role. Special attention will be given to the specific steps involved in identifying the need for change, engaging internal and external stakeholders in the change process, and implementing desired change initiatives.

**Prerequisite:** Successful completion of OPSY 501

## **OPSY 542, Organizational Implications of Diversity, 3 Units**

This course explores theoretical and practical ideas about diversity in organizations by equipping students to identify and engage individual, societal, and organizational dynamics related to 21st century workplace diversity and inclusion. The course will explore basic psychological processes-including attitudes toward marginalization, structural inequity, privilege, and prejudice-that affect how members of different social groups perceive and interact with one another in organizational settings. Providing critical perspectives on the historical, socio-cultural, and psychological factors of organizational diversity, students will explore the ethical implications of navigating complex organizational cultures and will discuss strategies for fostering and sustaining diversity.

**Prerequisite:** Acceptance into the MS, Organizational Psychology program.

## **OPSY 590, Statistics in Organizational Psychology, 3 Units**

This course provides an introduction to the basic concepts of statistical ideas and methods that aims to equip students to carry out common statistical procedures and to follow statistical reasoning in the practice of organizational psychology. Principles of measurement, data summarization, and univariate and bivariate statistics are examined. The course also addresses reliability, validity, and utility as criteria for evaluating the quality of any psychological measurement tool. Emphasis is placed on the application of fundamental concepts to real world situations. The course also offers an introduction to basic statistical analysis and use of SPSS program.

**Prerequisite:** Acceptance into the MS, Organizational Psychology program.

## **OPSY 592, Research Methodology and Survey Applications, 3 Units**

This course introduces and applies quantitative and qualitative research techniques of investigation to psychological activities in organizations. Methods of acquiring, analyzing, writing and presenting qualitative research are presented, and ways of linking quantitative and qualitative data are addressed. Students will learn methods of participant observation, data collection techniques (interviews and focus groups), along with development, administration and analysis of surveys. Related topics will include principles of survey design, item development, attitude and opinion measurement scale development, and reliability and validity of item scales. Students will learn how to design and apply effective research methods in organizational survey application arenas such as job analyses and competency-modeling projects, training, recruitment, customer satisfaction, employee engagement, and 360o performance rating activities. Final project includes developing and administering a small-scale survey. Students will analyze the results and provide deliverables. The course also provides opportunities to enhance statistical analysis skills through the use of the SPSS program.

**Prerequisite:** OPSY 590

## **OPSY 595, Introduction to Thesis in Organizational Psychology, 3 Units**

This course provides a student researcher with a directed study focused on preparing a master's thesis in leadership. Students identify a worthy research topic, write a comprehensive literature review, select an appropriate research method, and shape a compelling research proposal.

**Prerequisite:** Permission from the department chair and OPSY 501, OPSY 502, OPSY 503, OPSY 505, OPSY 510, OPSY 515, OPSY 520, OPSY 534, OPSY 542, OPSY 590, and OPSY 592

## **OPSY 596, Thesis in Organizational Psychology: Data Collection and Analysis, 3 Units**

This course provides a student researcher with a directed study focused on completing a master's thesis in organizational psychology. Building on the research proposal completed in OPSY 595, students collect and analyze data and present their findings in the form of a completed master's thesis and oral presentation to the thesis committee.

**Prerequisite:** OPSY 595

# M.A. in Leadership

The Master of Arts in Leadership (<https://www.apu.edu/bas/programs/masters-in-leadership/>) (available face to face and online) is an interdisciplinary degree that equips leaders with skills and tools that can be applied across a variety of vocations and fields. With a focus on character, creativity, curiosity, and innovation grounded in a framework of Christian values, you will explore what being a leader means to you, and how you can hone your skills to help others thrive.

Throughout the program, you will:

1. Discover various dimensions of leadership character as it pertains to the individual, team, and enterprise.
2. Design strategic leadership initiatives through curiosity, inquiry, and experimentation.
3. Develop relevant skills and tools needed to lead a changing leadership landscape with creativity and agility.
4. Deliver innovative solutions to complex leadership and organizational challenges.

## Requirements

Students pursuing the M.A. in Leadership must complete 30 units of coursework as well as a TEDx-style talk sharing learnings from their Leadership Experiment course. Up to 6 units of appropriate coursework may be transferred into the program by petition.

| Code                | Title                                       | Units |
|---------------------|---|-------|
| <b>Core Courses</b> |   |       |
| LDRS 511            | Exploration of Leadership Thought           | 3     |
| LDRS 512            | EQ I: Self-Leadership                       | 3     |
| LDRS 523            | EQ 2: Relational Leadership                 | 3     |
| LDRS 524            | Principles and Practices of Design Thinking | 3     |
| LDRS 535            | Leading Dynamic Change                      | 3     |
| LDRS 536            | Disruptors and Conflict                     | 3     |
| LDRS 547            | Navigating Social Climates                  | 3     |
| LDRS 548            | Strategic Foresight, Thinking, and Planning | 3     |
| LDRS 559            | Curiosity to Inquiry                        | 3     |
| LDRS 560            | Leadership Experiment                       | 3     |
| Total Units         |   | 30    |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Discover various dimensions of leadership character as it pertains to the individual, team, and enterprise.
2. Design strategic leadership initiatives through curiosity, inquiry, and experimentation.
3. Develop relevant skills and tools needed to lead a changing leadership landscape with creativity and agility.
4. Deliver innovative solutions to complex leadership and organizational challenges.

# M.S. in Organizational Psychology

## Requirements

The Master of Science in Organizational Psychology (<https://www.apu.edu/bas/programs/masters-in-organizational-psychology/>) program includes 13 courses (39 units), all of which are required for the degree. There are no electives.

| Code        | Title   | Units |
|-------------|---|-------|
| OPSY 501    | Introduction to Organizational Psychology                         | 3     |
| OPSY 502    | Organizational Ethics   | 3     |
| OPSY 503    | Group and Organizational Behavior                                 | 3     |
| OPSY 505    | Individual and Team Assessment                                    | 3     |
| OPSY 510    | Organizational Assessment and Interventions                       | 3     |
| OPSY 515    | Qualitative Approaches for Coaching Application                   | 3     |
| OPSY 520    | Consultative Applications of Organizational Psychology            | 3     |
| OPSY 534    | Organizational Systems: Theories of Change                        | 3     |
| OPSY 542    | Organizational Implications of Diversity                          | 3     |
| OPSY 590    | Statistics in Organizational Psychology                           | 3     |
| OPSY 592    | Research Methodology and Survey Applications                      | 3     |
| OPSY 595    | Introduction to Thesis in Organizational Psychology               | 3     |
| OPSY 596    | Thesis in Organizational Psychology: Data Collection and Analysis | 3     |
| Total Units |   | 39    |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Explain the theoretical constructs of organizations in relation to the attitudes, feelings, and behaviors of those who work in the organization.
2. Utilize research and diagnostic tools to develop the competencies needed as an organizational consultant.
3. Construct organization development interventions using experience-based models and simulations.
4. Approach individual and organizational wellness through a holistic perspective framed through a Christian worldview.

# Minor in Leadership

18 units

The undergraduate leadership minor capitalizes upon the university's intention to develop disciples and scholars who seek to advance the work of God in the world. This minor does so by encouraging students to pursue excellence in their chosen major while also seeking proficiency as strengths-driven leaders. Courses are thoughtful, challenging, and relationally focused while providing opportunities for reflection, conversation, and research. Students in the minor learn about whole-person development, leadership and virtue, the role of personal strengths and skills in good leadership, and how to lead as agents of change. Disciplined self-leadership, combined with the knowledge of how to facilitate effective collaboration, make leadership minor graduates an asset to any context in which they may serve. Even as they are encouraged toward lifelong development (both as persons and leaders), students have the opportunity to create, articulate, and practice their own philosophy of Christian leadership.

## Mission Statement

The leadership minor seeks to educate and inspire students to integrate their faith into their calling and, as people of integrity, live purposefully for the glory of God.

## Requirements

The minor in leadership comprises 18 units of leadership coursework.

*Note: Seniors may take one course in the M.A. in Leadership program. If a student is accepted into the M.A. in Leadership, the course will count toward that degree as well. For more information, call (626) 815-4674.*

| Code                | Title                                     | Units     |
|---------------------|---|-----------|
| <b>Core Courses</b> |   | <b>18</b> |
| LDRS 201            | Foundations of Leadership <sup>1, 2</sup> | 3         |
| LDRS 303            | Career and Life Planning                  | 3         |
| LDRS 311            | Leadership Values and Virtues             | 3         |
| LDRS 322            | Leadership Strengths and Skills           | 3         |
| LDRS 333            | Leadership Influence and Impact           | 3         |
| LDRS 401            | Leadership Studies Capstone               | 3         |
| Total Units         |   | 18        |

<sup>1</sup> ROTC students can receive credit for LDRS 201 and one of the 300-level courses following the completion of their program.

<sup>2</sup> LDRS 201 is the prerequisite for LDRS 311, LDRS 322, and LDRS 333, but this prerequisite is waived for students enrolling in the 200- and 300-level courses in the same semester.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Identify the foundational concepts in the field of leadership and their personal application.
2. Define virtuous leadership and articulate personal application.
3. Demonstrate personal leadership strengths.
4. Recognize the dynamics of change and practice in numerous contexts.
5. Articulate a personal leadership philosophy from a Christian perspective.
6. Model confidence while using leadership resources.

# Department of Marriage and Family Therapy

The Department of Marriage and Family Therapy (<https://www.apu.edu/bas/marriage-family-therapy/resources/>) offers the Master of Arts in Clinical Psychology with an emphasis in Marriage and Family Therapy (MFT) (p. 611) program, which is intended for individuals who seek to develop a solid foundation in the theoretical and applied practice of professional counseling with individuals, couples, and families. Also included in the program are interdisciplinary studies in theology, ethics, and psychotherapy. For those planning to practice at the master's level, this program meets the current education requirements for California licensure as a marriage and family therapist.

The Department of Marriage and Family Therapy also offers a Substance Use Disorders Certificate (p. 610) that is designed for students and alumni of the clinical psychology program but which is open to anyone interested in gaining competency in the substance use disorders field.

## Programs

- Master of Arts in Clinical Psychology: Marriage and Family Therapy (MFT) (p. 611)
- Substance Use Disorders Certificate (p. 610)

## Courses

### PPSY 510, Psychotherapy and Cultural Diversity, 3 Units

An awareness of divergent cultural values, assumptions, and family dynamics is essential to the contemporary practice of psychotherapy. Students are encouraged to begin the process of garnering multicultural competency by examining their own attitudes and biases, increasing their knowledge of diverse populations, and developing skills related to service provision. Through experiential exercises and assignments, this course examines the conceptual and theoretical foundations of cross-cultural psychotherapy and encourages students to evaluate their readiness to engage in a process of developing competency in this arena. An introduction to the distinctives of several cultural groups is provided.

### PPSY 511, Addictions, Assessment, and Interventions, 3 Units

This course provides an introduction to the field of addictions and compulsive behaviors, including substance abuse and substance abuse treatment, and emphasizes assessment and intervention skills and processes, and evidence-based research relevant to treatment. The nature and scope of addictions are defined, DSM-IV criteria for disorders are reviewed, and unique issues relative to faith, children/adolescents, persons with disabilities, and other issues of diversity are considered. If this course is used as a prerequisite course for the optional Substance Use Disorder concentration, a grade of B- or higher must be earned.

### PPSY 512, Legal, Ethical, and Moral Issues in Therapy, 3 Units

This course introduces and develops student competency in the legal, ethical, and moral issues related to the practice of marriage and family therapy in California. Consideration is given to the student practitioner's values, behaviors, and culture in relationship to becoming a licensed marriage and family therapist. Professional legal and ethical codes, as well as moral decisions, are studied and applied in clinical scenarios. Areas of focus include, but are not limited to, the requirements of mandated reporting, suicide assessment and interventions, and the limits of confidentiality. Additionally, students review statutory, regulatory, and decisional laws related to the MFT's scope of practice, including privilege, family law, and the treatment of minors.

### PPSY 513, Substance Use Disorders II: History, Support, and Promising Practices, 3 Units

This course reviews the history of addiction and drugs in society from prohibition to the 21st century, including America's war on drugs. Students study mutual support groups such as 12-step programs, Rational Recovery, and Celebrate Recovery. Also included is the study of psychopharmacology (illicit drugs, abuse of prescription drugs, and medication-assisted treatment). New and emerging trends and promising practices are considered.

**Prerequisite:** PPSY 511

### PPSY 514, Substance Use Disorders III: Co-Occurring Disorders, Co-Morbidity, and Integrated Treatment, 3 Units

This course introduces co-occurring disorders, co-morbidity, and integrated treatment including mental health treatment, substance abuse, and primary health. Students learn the distinction between mental health disorders and substance-induced disorders and how to differentiate between the two. Behavioral addictions such as gambling, nicotine, and gaming, and the physiological impact of such disorders, are studied.

**Prerequisite:** PPSY 511 and PPSY 513

## **PPSY 515, SUD IV: Families and Other Special Populations; Confidentiality and Evidence Based Practices, 3 Units**

This course focuses on substance abuse in the family system from adolescents to the elderly. Special populations are examined, such as high-risk groups, perspectives of women, and chronic pain. Special attention is paid to culturally and linguistically appropriate services. The ethical considerations of dual relationships and confidentiality are addressed. Evidence-based practices (motivational interviewing) and core concepts of relapse prevention techniques are major focuses.

**Prerequisite:** PPSY 511, PPSY 513 and PPSY 514

## **PPSY 516, Legal and Ethical Issues in Substance Use Disorders, 1 Unit**

This course is designed to enhance the substance use disorders concentration and certificate, giving students further education and an opportunity to review, discuss, and apply the legal and ethical issues specific to the field of substance use disorders.

**Corequisite:** PPSY 513

## **PPSY 517, Motivational Interviewing with the SUD Population, 1 Unit**

This course is designed to enhance the Substance Use Disorders concentration and certificate, equipping students with theories and techniques of motivational interviewing as it applies to the assessment and treatment of substance use disorders.

**Corequisite:** PPSY 514

## **PPSY 525, Crisis and Trauma in Community Mental Health, 3 Units**

This course prepares students in the understanding and treatment of child abuse, domestic violence, and trauma. Content includes detection, assessment, and intervention strategies. Awareness of resiliency factors and their application to client recovery is addressed. Target populations include survivors, perpetrators, and those experiencing co-morbid disorders. Attention is paid to understanding the issues of diversity and its impact on client welfare, including elder abuse, same-gender abuse, and ethnic differences. This course also presents the challenges of accessing resources in community mental health. Guest speakers/consumers are invited. This course meets the domestic violence and child abuse requirements for MFT and LCSW licensure in California.

## **PPSY 533, Christian Spiritual Formation and Psychotherapy, 3 Units**

This course will provide an historical overview of Christian Spirituality, which is understood as ways of expressing devotion to God. As background for discussion of Christian Spiritual Formation, a holistic philosophical/theological model of persons will be presented along with an overview of spiritual disciplines as methods utilized to actively engage the Christian formation process. Examples of psychotherapy models that integrate Christian theology, spirituality with existing psychology theoretical and clinical models will be presented and discussed. Opportunities for synthesis, application, and creative development of ideas are all part of the course content and process.

## **PPSY 551, Theories of Psychotherapy, 3 Units**

This course develops an understanding of the major theoretical orientations used by current practitioners, focusing on systemic approaches. Established schools of thought, the recovery model, evidence-based and promising practices and their immediate descendants are presented through lectures, videotapes, reflection, application via clinical case presentations, and experiential learning. The course also highlights cultural and spiritual diversity as it applies to the therapeutic process and awareness of the self, interpersonal issues, and spiritual values as they impact the use of theoretical frameworks.

## **PPSY 552, Human Sexuality and Sex Therapy, 3 Units**

This course reviews human sexuality as a basis for sex therapy. Students examine and evaluate biological, psychological, social, and moral perspectives of the theories of sexual development and functioning, including issues of heterosexuality, homosexuality, gender identity, and transgender. In addition, students survey literature on sexual dysfunction, develop diagnostic skills for assessing the nature and extent of sexual dysfunction, and learn treatment strategies utilized in the various systems of marriage and sex therapy.

## **PPSY 555, Career Development Theories and Techniques, 3 Units**

This course provides a comprehensive review of career development theory, as well as resources and techniques utilized in assisting individuals to make informed educational and career choices. An exploration of changing concepts of work and careers and their implications for career counseling is emphasized. A focus on the relationship of career to other issues in counseling is addressed.

## **PPSY 557, Couples Therapy, 3 Units**

This course provides instruction on current theories and methods of couples/marriage therapy. Students gain basic knowledge in the application, assessment, and interventions of several theoretical models and are introduced to psychological instruments used in couples therapy. Emphasis is placed on how couples therapy attends to diversity issues such as ethnicity, spirituality, and cultural considerations within the clinical setting. Legal and ethical issues pertaining to couples therapy are integrated into treatment considerations.

## **PPSY 558, Advanced Developmental Psychology, 3 Units**

The purpose of this course is to help students learn to utilize a lifespan perspective in their work as marriage and family therapists. The course focuses on the important developmental issues and milestones for each stage of the lifespan, paying particular attention to the aspects of context, culture, and environmental issues. Students are encouraged to consider how development occurs within a specific social context and learn how social stress, poverty, low educational attainment, abuse and neglect, and inadequate housing impact development. Biological, social, and psychological aspects of aging and long-term care are included in this course. Models of psychological development are presented and the processes of change and adaptation are examined, including clinical issues such as grief and loss. The clinical application of the material is highlighted through case examples, group discussion, and hands-on application during class activities.

**Prerequisite:** Human Development or equivalent

## **PPSY 561, Child and Adolescent Therapy, 3 Units**

This course provides an understanding of the broad range of childhood and adolescent problems and disorders. A variety of psychotherapeutic modalities are presented, providing the student with an opportunity to develop knowledge of basic child and adolescent therapy skills, assessments, and treatment strategies. The impact of the development aspects, family dynamics, social environments, and multicultural issues are addressed. In addition, legal and ethical issues and the role of hospitalization are considered.

## **PPSY 563, Psychopathology, 3 Units**

This course reviews the role and categories of psychopathology utilized in the assessment and treatment of individual, marriage, and family dysfunction. Students develop diagnostic skills through a master of the concepts in the Diagnostic and Statistical Manual of Mental Disorders (DSM 5), and review available community resources for those with severe mental disorders.

## **PPSY 571, Family Therapy, 3 Units**

This course is an overview of current theories and methods of family therapy interventions. There is an emphasis on how family therapy integrates diversity issues (e.g., ethnicity, socioeconomic status, spirituality, blended families) during the clinical hour. The major theories, their founding clinicians, and some of their contemporaries are reviewed. Clinical application of the material is emphasized in coursework.

## **PPSY 572, Research Methodology, 3 Units**

This course surveys the major social science research methods, preparing students to read, understand, and evaluate psychological research. This course provides students with the basic knowledge and experience of conducting psychological experiments and how and when to use statistical procedures. Students build skills in how to apply clinical outcome research to clinical treatment planning and interventions. Sensitivity to issues of diversity in psychological research is stressed.

## **PPSY 577, Psychological Assessment, 3 Units**

This course provides students with a broad understanding of the clinical use of psychological tests, including objective personality tests, intelligence tests, and projective testing techniques. Emphasis is on developing skills in administering tests, interpreting test findings, and applying test findings through report writing. Current research regarding psychological testing is also reviewed.

## **PPSY 580, Introduction to Clinical Practice: Basic Skills, 3 Units**

This course introduces the student to basic skills in attending behavior, clinical interviewing, and clinical intervention. It is designed to stimulate self-awareness as related to the therapeutic relationship, as well as the integration of spirituality and the interpersonal process. Coursework includes reading, observation, role-play, and student audio/ videotaped clinical practice. A grade of B or better must be achieved in order to advance to PPSY 581.

## **PPSY 581, Introduction to Clinical Practice: Advanced Skills, 3 Units**

This course is designed to further develop the psychotherapeutic skills of students prior to their entry into a clinical placement. Students focus on developing proficiency in the core interviewing qualities, deriving goals for a clinical session, and in making contracts with clients for change. Additionally, students are encouraged to begin developing a theoretical and conceptual understanding of cases, and trained to work with diverse populations. Students are also encouraged to address issues regarding the integration of their faith with the practice of psychotherapy. These goals are addressed through experiential learning, lecture, readings, discussion, and reflection.

**Prerequisite:** PPSY 580

## **PPSY 582, Group Skills, 3 Units**

This course introduces students to the theories and techniques utilized in group counseling. The course includes information about principles of group dynamics, group process, and developmental stages. Students explore the therapeutic factors of group work and group leadership style. Content also includes current research and literature, methods, and evaluation of effectiveness. Ethical, legal, and professional issues as well as special needs such as multiculturalism, life-span development concerns, and the therapist's personal leadership style are addressed.

**Prerequisite:** PPSY 580 and PPSY 581

## **PPSY 585, Psychobiology and Psychopharmacology, 3 Units**

This course introduces the biological and neurological bases of human behavior and use of psychotropic medications as an adjunctive therapy to psychotherapy. Current information on the use of medications in the treatment of psychological disorders is provided. Consideration is given to the special needs of certain populations (e.g., the elderly, substance abuse patients) when psychotropic medications are prescribed. Students develop skills in case management when referral to medical doctors or neuropsychologists is part of therapeutic practice.

## **PPSY 592, Introduction to Clinical Placement, 1 Unit**

This course is designed to support and equip students with entry-level practice management skills for clinical placement within community mental health and private practice settings. Students develop knowledge and gain practice in identifying diagnoses, presenting problems, documentation, and treatment planning. This course also provides program oversight of students' clinical placement experiences.

**Prerequisite:** PPSY 580 and PPSY 581

## **PPSY 593, Clinical Consultation, 1 Unit**

This course is designed as an adjunct to the advanced-level students' clinical placement and supervision experiences. The primary purpose of this course is to provide an opportunity for students to discuss their clinical caseload, and to provide program oversight of clinical placement experience.

**Prerequisite:** PPSY 597, PPSY 598, and current placement in a clinical site

## **PPSY 595, Special Topics, 1-6 Units**

Special topics courses offer graduate-level content that is typically scheduled in an intensive format. These courses include a range of specialized topics that are of interest to mental health professionals. The unit values of these courses range from 1-6 unit credits, depending upon the specific contact hours and workload involved in the course.

## **PPSY 597, Clinical Placement I, 3 Units**

This course provides oversight of students' clinical placement and supervision experiences. The course focuses on enhancing students' clinical skills and knowledge of the interpersonal process of psychotherapy. Special attention is given to case management issues, documentation, community-based resources, health promotion, legal and ethical issues, and treatment planning. Treatment planning, from the perspective of the recovery model and other theoretical approaches, includes instruction and practice in determining the presenting problem, diagnosis, prognosis, client goals, and clinical interventions. Clinical skills, the processes of psychotherapy and supervision are addressed through experiential learning, readings, discussion, reflection and assignments. This course also provides students with a forum for discussing their clinical caseload (individuals, children, couples, families, and groups) and their interaction with placement supervisors. Students must be serving at an approved training site to be enrolled in this course.

## **PPSY 598, Clinical Placement II, 3 Units**

This course is an adjunct to the student's clinical placement. It builds on PPSY 597 to provide oversight and consultation for the student's clinical placement, and the further development of clinical skills. The course focuses on management of crisis issues, legal/ethical practice, diagnosis, prognosis, multicultural treatment, treatment planning, application of theory to actual clients, integration, and case management services. Clinical work is discussed from a public mental health and private practice perspective. The final evaluative component of the MFT program, the clinical comprehensive exam, is taken at the conclusion of this course. Students must be serving at an APU-approved training site to be enrolled in this course.

**Prerequisite:** PPSY 597

## **PPSY 599, Readings in Psychology, 1-4 Units**

## **PPSY 786, Global Psychology, 2 Units**

This course provides a systematic overview of existing approaches to working globally. Theory, research, and intervention are highlighted, and the history of globalization, current trends, and common problems and issues are examined. Students are encouraged to develop their clinical skills in applying psychology to significant global concerns in diverse countries and cultures and practically apply their knowledge during an intensive, three-week practicum in Kenya, East Africa.

Summer Richards, M.A., LMFT

# Certificate in Substance Use Disorders

The Substance Use Disorders Certificate (<https://www.apu.edu/bas/programs/substance-use-disorders-certificate/>) is designed for students already enrolled in the MFT program, and for program alumni wishing to return and enhance their knowledge base. The certificate comprises 11 additional units taken over the course of a year, allowing students time to work in the field while gaining expertise. This program expands on the skills and knowledge needed to improve the health and wellness of individuals struggling with substance use, giving students access to a competency that historically has been afforded only to those working in the substance use disorder field.

Students who have not already taken PPSY 511 as part of the MFT program must complete it as part of their certificate.

## Requirements

| Code        | Title  | Units |
|-------------|--|-------|
| PPSY 511    | Addictions, Assessment, and Interventions  | 3     |
| PPSY 513    | Substance Use Disorders II: History, Support, and Promising Practices                        | 3     |
| PPSY 514    | Substance Use Disorders III: Co-Occurring Disorders, Co-Morbidity, and Integrated Treatment  | 3     |
| PPSY 515    | SUD IV: Families and Other Special Populations; Confidentiality and Evidence Based Practices | 3     |
| PPSY 516    | Legal and Ethical Issues in Substance Use Disorders  | 1     |
| PPSY 517    | Motivational Interviewing with the SUD Population  | 1     |
| Total Units |  | 14    |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# M.A. in Clinical Psychology: Marriage and Family Therapy (MFT)

## Mission Statement

The MFT program (<https://www.apu.edu/mft/>) is dedicated to the education and training of competent, self-aware, and culturally sensitive family therapists. Using a foundation in Christian faith, a systemic family psychology approach, and an integration of theories of psychotherapy, students explore personal, ethical, and social values as they prepare to serve the needs of their communities.

## Licensed Professional Clinical Counselor (LPCC) Option

The MFT program offers one additional course that provides for students interested in dual licensure as an LPCC and an MFT. Coursework meets California education requirements for both licenses.

## Gottman Couples Therapy Level 1 Certificate

The Couples Therapy course includes the completion of Gottman Level 1 training, which equips students with new insight into couples' struggles using research-based assessments and effective interventions based on the Gottman Sound Relationship House Theory. Students receive a certificate of completion and are then eligible to take the Level 2 training.

## Substance Use Disorders Certificate

Upon completion of the MFT program, students may choose to take 11 additional units that fulfill the requirements for a certificate in substance use disorders. This certificate allows students to establish a competency that historically has been afforded only to those working in the substance use disorders field. As primary care physicians, mental health providers, and substance use treatment providers coalesce into whole-person care, you will be a part of cutting-edge treatment.

## Program Goals

### Diversity

Students will recognize the importance of diversity and its impact on clinical practice. Students will be equipped with awareness of beliefs and customs of diverse cultural groups and how to implement this knowledge when treating clients and interacting with agency personnel.

### Identity Formation

Students will articulate their personal narrative inclusive of values, beliefs, behaviors, and traditions of faith that inform their worldview.

### Ethical Practice

Students will understand the ethical guidelines and legal requirements within the field of marriage and family therapy. Students gain knowledge of when to use resources and seek consultation if faced with ethical or legal dilemmas in the context of therapy.

### Competency

Students will be trained to become practitioners in marriage and family therapy with professional competencies in relationship, intervention, diversity, integration of faith and practice, and systemic family psychology.

## Admission

Admitted students typically begin in the fall semester. To be considered for fall enrollment, the deadline for submission of a completed application is March 1. Students who apply earlier will be given priority consideration for admission.

Applicants may also apply to begin in the spring semester. The deadline for submission of a completed application for spring enrollment is October 1. Applicants for the spring semester will be considered based on space available at the Azusa campus and the Orange County, San Diego, and Inland Empire regional campuses.

Admission to the program does not guarantee that students will obtain a license or credential in marriage and family therapy or as an LPCC. Licensure and credentialing requirements are set by agencies that are not controlled by or affiliated with Azusa Pacific University and requirements can change at any time. For example, licensure or credentialing requirements can include evidence of the right to work in the United States (e.g., Social Security number or taxpayer identification number) or successfully passing a criminal background check. Students are responsible for determining whether they can meet licensure or credentialing requirements. Azusa Pacific will not refund tuition, fees, or any associated costs to students who determine, subsequent to admission, that they cannot meet licensure or credentialing requirements.

## Application Requirements

- To be admitted into the program, students must hold a bachelor's degree from a regionally accredited university or college (or an equivalent degree from a college or university in another country) with a minimum 3.0 grade-point average on a 4.0 scale. At the discretion of the university, a higher professional degree such as an M.D. or D.C. may be accepted as a substitute for the bachelor's degree.
- Students who enter the program with a bachelor's degree in a major other than psychology will be required to take Abnormal Psychology with a grade of *B* or better before beginning the program. Prerequisites may be waived on an individual basis.
- International applicants whose first language is not English must submit an iBT (internet-based TOEFL) score of 90 minimum; the minimum subsets are: Reading 22, Speaking 22, Listening 22, and Writing 24. Students may also submit results of the Test of Written English (TWE) and the Test of Spoken English (TSE). Because written and verbal English language skills are crucial to the education, training, and practice of psychology, further testing for spoken and written English will be required for all international students upon entrance to the program or as deemed necessary at any point in the program. If applicants do not meet the minimum requirement, they must go through the American Language and Culture Institute (ALCI) (<http://www.apu.edu/international/alci/>) first to raise their proficiency. Students may be mandated to go to ALCI if they are not meeting the language and writing standards for the program.

## Personal and Group Psychotherapy

During the course of the program, students must complete 40 hours of individual psychotherapy. Students have the option of completing 20 sessions (40 hours) of group therapy in lieu of 20 of the 40 required individual psychotherapy hours.

## Clinical Placement

Students develop therapeutic skills through required hours of direct clinical experience. Clinical placements may range from 12-30 months depending upon course track sequences.

While students are responsible for securing a placement site, assistance is provided by the director of clinical training, site directors, and in the Introduction to Clinical Practice courses. In addition, students receive support from and opportunities to discuss clinical issues and problems with supervisors and faculty in clinical placement and supervision courses.

For students seeking licensure, the clinical placement sequence meets MFT and LPCC requirements in California. To ensure the highest quality in clinical placements, the director of clinical training maintains contact with offsite supervisors and evaluates the student's experience. Any violations of professional ethics codes may be grounds for dismissal from the degree program.

Students are required to obtain 300 hours of direct client experience for the MFT license, and 300 hours of direct client experience for the LPCC license. To meet graduation and licensure requirements, the student must receive one hour of individual or two hours of group supervision for every five hours of direct client experience. These hours count toward the 3,000 hours required for MFT licensure in California. Hours for the LPCC license begin postgraduation.

## Comprehensive Examination

As a final evaluative component of the MFT program, each student must pass the Comprehensive Examination, which includes two elements:

1. A law and ethics exam
2. A clinical exam

Failure to pass the Comprehensive Examination may prevent graduation from the program.

## Program Locations

The Department of Marriage and Family Therapy offers its master's degree program on APU's Azusa campus as well as at the Orange County, San Diego, and Inland Empire regional campuses. More information may be obtained by contacting the program director, the local site administrator, or a program representative.

### Azusa Campus

Program Administrator and Director: Vicki Ewing, M.A., MFT  
 vewing@apu.edu  
 Azusa Pacific University  
 PO Box 7000  
 Azusa, CA 91702-7000

hcatling@apu.edu  
375 W. Hospitality Lane  
San Bernardino, CA 92408  
(909) 888-9977

## Course Requirements

The degree must be completed in a minimum of two years and a maximum of six. Any extensions beyond six years must be requested as an exception to APU policy and must be submitted in writing on an Academic General Petition. A three-year course of study is recommended for most working students. The program is composed of 63 units of coursework. A maximum of 12 units of selected coursework, which meet the following criteria, may be transferred:

- Taken within the past eight years and completed with a grade of *B* or better
- Obtained at a regionally accredited institution
- Received from a graduate program in clinical psychology, counseling psychology, or marriage and family therapy
- Acceptable for California MFT licensing requirements
- Approval by the program director

Students in the program must maintain a 3.0 GPA with no course grade lower than a *C-*. Course resulting in grades lower than a *C-* will be retaken. In order to graduate, students may not have more than two instances of a *C+/-* on their transcript. If a student receives a third *C+/-*, the student will be required to retake one of the courses and receive a *B-* or better.

A student who receives two NO CREDIT grades in a CREDIT/NO CREDIT course (e.g., PPSY 593) will be referred to the Clinical Training Committee (CTC), which will meet to review the student's situation and issue a recommendation. The CTC recommendation may include: 1) academic and/or clinical probation, 2) postponing clinical placement, 3) a recommended leave of absence, or 4) dismissal from the program.

| Code                        | Title  | Units        |
|-----------------------------|--|--------------|
| <b>Program Requirements</b> |  | <b>63-66</b> |
| PPSY 510                    | Psychotherapy and Cultural Diversity                   | 3            |
| PPSY 511                    | Addictions, Assessment, and Interventions <sup>1</sup> | 3            |
| PPSY 512                    | Legal, Ethical, and Moral Issues in Therapy            | 3            |

<sup>1</sup> Students who elect to take the optional concentration in substance use disorders must complete the master's degree prior to enrolling in the concentration coursework. Additionally, PPSY 511 must have been completed with a grade of *B-* or better, and students must have completed their practicum at an APU-affiliated substance use disorder clinical placement site. Upon completion of the concentration, students receive a Substance Use Disorders Certificate.

<sup>2</sup> Students who have not completed their hours of experience must enroll in this course until their hours are completed. This course may be taken up to three times. Students who have already completed their hours of experience are not required to take this course.

<sup>3</sup> This course must be taken twice during a student's course of study, with different special topics.

<sup>4</sup> To participate in this course, students must apply and be accepted to it. Due to international requirements, other policies may be applicable.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Diversity: The program will produce graduates who can apply their knowledge of family therapy in a culturally appropriate manner to a wide range of demographic groups.
2. Identity Formation: The program will produce graduates who demonstrate an awareness of their personal narrative and how it impacts their contribution to the field of marriage and family therapy.
3. Ethical practice: The program will produce graduates who will become clinicians who are ethically grounded, demonstrate integrity, and operate within the laws of the profession.
4. Competency: The program will prepare graduates to effectively utilize a variety of theoretical approaches to marriage and family therapy.

# Department of Physical Therapy

## Accreditation

- All Azusa Pacific University programs are accredited by the WASC Senior College and University Commission (WSCUC). (<https://www.wascsenior.org/>)
- The Doctor of Physical Therapy program at Azusa Pacific University is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE) (<http://www.capteonline.org/>), 1111 North Fairfax Street, Alexandria, VA 22314-1488; telephone: (703) 684-2782; email: [accreditation@apta.org](mailto:accreditation@apta.org).

## Programs

### Doctoral Programs

- Doctor of Physical Therapy (DPT) (p. 623)
- Doctor of Philosophy (Ph.D.) in Rehabilitation and Movement Science (p. 627)

### Fellowship

- Physical Therapy Postprofessional Clinical Fellowship in Movement and Performance (p. 629)

## Courses

### PT 502, Professional Relationships, 2 Units

(30 contact hours) This course introduces the role of the physical therapist as a professional health educator. Emphasis is on developing interpersonal and communication skills in relation to the interaction between therapist and patient, other health professionals, and within groups.

### PT 506, Seminar I, 2 Units

(30 contact hours) This course introduces the student to the physical therapy profession. Historical and legal issues, as well as practice settings and health care trends are addressed. Emphasis is placed on professional development and responsibility of the physical therapist as a lifelong learner.

### PT 558, Research Methods in Physical Therapy, 3 Units

This course introduces the student to the concepts of Physical Therapy research. A survey of major research methods is conducted and statistical methods are examined.

### PT 572, Pharmacology, 3 Units

This is an introduction to pharmacology which includes pharmacokinetics and pharmacodynamics. Emphasis is on drugs commonly encountered during rehabilitation. Side effects that alter physical performance and drug effects influenced by exercise are studied.

### PT 701, Human Anatomy, 8 Units

This is a 16-week intensive course in clinically oriented human anatomy from a regional approach. Microscopic and gross human anatomy are explored utilizing lectures, classroom demonstrations, human cadaver dissections, dissection videos, and hands-on functional demonstrations. Biomechanics are studied from functional and clinical approaches. Emphasis is on histology, head, neck, upper extremity, and thorax during the first half of the term; emphasis in the second half is on the spine, pelvis, lower extremity, spinal cord, and internal organs.

**Corequisite:** PT 702

### PT 702, Clinical Skills I, 6 Units

First in a series of courses designed to examine basic evaluation and clinical skills of the physical therapist, this course focuses on objective techniques of assessment for the upper and lower extremity and spine through measurement of range of motion (ROM), muscle testing (MMT), general neurological screening, and palpation. Kinesiology of all joints is studied from functional and clinical approaches, concluding in the assessment of normal gait mechanics. An introduction to body mechanics and documentation is provided to prepare the student for safe clinical practice. Learning takes place through laboratory activities, homework, online videos, and practical examination using a problem-solving approach.

### PT 703, Clinical Neuroscience, 6 Units

This course covers in depth the anatomy and physiology of the central and peripheral nervous systems and neuromuscular function, serving as a foundation for PT 704. It includes correlation of pathology with neurological symptoms and diagnostic tests.

## **PT 704, Neurorehabilitation, 8 Units**

This course focuses on developing skills used for differential diagnosis, functional evaluation, treatment theory, and management of neurologically impaired adults. Students examine the neurophysiologic rationale for treatment approaches commonly used in physical therapy for neurologically impaired patients. Emphasis is placed on integration and development of hands-on skills in a laboratory setting. Major areas investigated include spinal cord injury, stroke, traumatic brain injury, Parkinson's disease, polyneuropathies, and common degenerative diseases.

## **PT 705, Orthopedics I, 8 Units**

This course emphasizes the general principles and methodology of rehabilitation of orthopedic patients. Examination of the spine and lower quarter is emphasized. Mobilization, therapeutic exercise programs, and complete evaluation, treatment, and documentation are addressed specifically per diagnosis.

## **PT 711, Wellness, 3 Units**

This course focuses on the promotion of optimal health, and disease and injury prevention, in the general adult and pediatric populations. It addresses screening techniques and risk assessment, as well as tests and measures related to aerobic capacity, balance, flexibility, strength and endurance, and posture. Findings are applied to exercise prescription.

## **PT 724, PT Clinical Skills II, 3 Units**

(60 contact hours) This is the second in a series of clinical skills courses and discusses the visual and electromagnetic spectrum instrumentation for the treatment of dysfunction. The focus is on physical agents in relation to treatment.

## **PT 726, PT Clinical Skills III, 2 Units**

This clinical skills laboratory course involves 45 contact hours and introduces students to assistive devices, bed mobility, and transfer training. Students perform measurement, selection, and adaptation of assistive devices, and implement bed mobility and transfer training based on patient diagnosis and need. Emphasis is on patient safety with handling, as well as body mechanics and safety of the therapist. Information is reiterated with laboratory activities, case studies, and a practical and written examination using a problem-solving approach.

## **PT 742, Prosthetics and Orthotics, 2 Units**

(60 contact hours) This course provides foundational knowledge of the types, uses, and fitting of prosthetic and orthotic devices. Rehabilitation intervention is addressed in regard to functional use, measurements, care, adjustments, precautions, and patient education for the appropriate device. Case studies, literature review, lecture, problem-solving models, videos, and laboratory practice are used.

## **PT 744, Professional Ethics, 2 Units**

Students in this course examine the major ethical issues affecting physical therapists and the healthcare profession. It involves an exploration of ethical decision making through examination of moral development, ethical theories and worldviews with specific instruction in ethical problem solving, application of the physical therapy code of ethics, as well as analysis of ethical dilemmas and case studies. Through class and small group discussions the student will examine his/her own moral values, be able to identify ethical problems and dilemmas and effectively evaluate and determine a moral course of action. It will include the ethical obligation for patient and professional advocacy as well as guidelines in spiritual care.

## **PT 748, Orthopedics II, 4 Units**

This course emphasizes the general principles and methodology of rehabilitation of orthopedic patients. Examination of the shoulder, elbow, wrist, hand, and temporomandibular joint is emphasized. Mobilization, therapeutic exercise programs, complete evaluation, disease processes, and documentation are addressed specifically per diagnosis.

## **PT 750, Comprehensive Exams, 1 Unit**

This course gives the student an opportunity to demonstrate their qualifications to enter the clinical section of their physical therapy education.

## **PT 752, Cardiopulmonary Patient Management, 3 Units**

This course presents basic cardiac and pulmonary pathology and theories leading to decision-making skills in cardiopulmonary rehabilitation. Presentation of case studies reinforces management of patients with cardiopulmonary dysfunction. Practical application of theoretical concepts is emphasized.

## **PT 754, General Medicine, 3 Units**

This course gives students experience in the management of general medicine patients with acute, chronic, and terminal diseases. The laboratory portion of the course assists in developing clinical skills and reasoning to determine appropriate and safe therapeutic procedures and protocols for this population.

## **PT 760, Pediatrics, 4 Units**

This course provides the background knowledge needed to assess functional status, evaluate, and develop appropriate treatment programs for infants and children from premature birth to adolescence. Lab sessions allow for observation and assessment of typical development and the opportunity to experience a variety of intervention strategies.

**PT 762, Seminar II, 2 Units**

(30 contact hours) The clinical performance instrument is reviewed in this course, and written and oral communication skills specific to the clinic are refined. Expectations of clinical professional behavior are also emphasized. The student presents an in-service on a specific evaluation or treatment approach to be used in the clinic, incorporating lecture and lab into instruction. The student's performance is self assessed, peer assessed, and evaluated by the instructor.

**PT 764, Current Concepts in Chronic Pain, 2 Units**

In this course students participate in evidence-based discussions incorporating critical appraisal of the evidence, as well as in critical problem solving discussions with case studies. Students also discuss and apply knowledge of abnormal pain mechanisms to common case scenarios incorporating lecture material with current evidence. Further, students evaluate their problem solving strategies through self reflective assignments, peer interaction and evaluation by the course instructor to facilitate self directed learning.

**PT 768, Administration, 3 Units**

(75 contact hours) This course presents the basic components of administration, financial and staff management, marketing strategies, and public relations for clinical directors and/or owners. Administrative and contractual legal issues and reimbursement mechanisms are explored.

**PT 771, Clinical Experience I, 9 Units**

PT 771, PT 773, and PT 775 are three clinical experiences which provide integration of prior didactic work with full time clinical exposure under the supervision of a licensed physical therapist. Courses may be taken in any order as offered in the curriculum.

**PT 773, Clinical Experience II, 9 Units**

PT 771, PT 773, and PT 775 are three clinical experiences which provide integration of prior didactic work with full time clinical exposure under the supervision of a licensed physical therapist. Courses may be taken in any order as offered in the curriculum.

**PT 774, Capstone I, 3 Units**

In the first of the capstone course series, students choose a clinical question of interest and conduct an extensive literature review.

**PT 775, Clinical Experience III, 9 Units**

PT 771, PT 773, and PT 775 are three clinical experiences which provide integration of prior didactic work with full time clinical exposure under the supervision of a licensed physical therapist. Courses may be taken in any order as offered in the curriculum.

**PT 775A, Clinical Experience III, 5 Units**

This is the third of three clinical rotations providing the opportunity for integration of prior didactic work with full-time clinical exposure (480 contact hours) under the supervision of a licensed physical therapist.

**PT 775B, Clinical Experience III, 5 Units**

This is the third of three clinical rotations providing the opportunity for integration of prior didactic work with full-time clinical exposure (480 contact hours) under the supervision of a licensed physical therapist.

**PT 776, Capstone II, 3 Units**

In this, the second course in the capstone series, research of the clinical question continues through faculty-supervised collection and synthesis of data.

**PT 778, Diagnostic Imaging, 3 Units**

(45 contact hours) This course familiarizes the Doctor of Physical Therapy student with the indications, instrumentation, and clinical interpretation of orthopedic imaging techniques including plane film X-ray, magnetic resonance, computerized tomography, and radioisotope imaging. Selection protocols for each are discussed to acquaint the student with advantages and disadvantages of each method and what type of information each technique best presents. This course focuses on the clinical interpretation and practical integration of imaging data into rehabilitation treatment regimen design and communication with other medical professionals.

**PT 779, Special Topics II, 2 Units**

This is the second of two courses that examine specialized topics/techniques of current interest for physical therapists. Material includes men's and women's health, performing artist dysfunction, sport-specific taping and rehabilitation, and on-field support for athletes. Lectures and hands-on lab sessions give students opportunities to evaluate and to develop and administer a plan of care in each of the specialty areas, under faculty supervision.

**PT 781, Integrated Clinical Education, 1 Unit**

This course allows students to integrate didactic learning with a part-time clinical experience under the supervision and mentorship of a licensed physical therapist.

**PT 783, Integrated Community Service, 0 Units**

In this course, students integrate didactic and clinical learning with clinical service to the global or local community under the mentorship and supervision of a licensed physical therapist.

## **PT 785, Advanced Patient Management, 2 Units**

This is the last in a series of patient management courses. Within a strong clinical reasoning framework, students evaluate and plan intervention strategies for more complex patient problems, as well as for patient impairments complicated by the involvement of multiple other factors/systems. Students integrate analysis skills, manual skills, motor control and motor learning concepts, therapeutic exercise, physical agents, and patient education into the management of the patient's movement. In addition to refining their existing skills, students are introduced to more advanced examination and intervention techniques. Students also employ clinical reasoning to formulate management plans that require prioritization and collaboration with the patient/client in order to accommodate environmental, financial, cultural, psychosocial, and time-restriction factors typical of current clinical practice. The patient problems encountered and analyzed throughout the course, and the clinical reasoning process applied to all components of these clinical problems, facilitate the development of clinical reasoning and clinical pattern recognition.

## **PT 790, Physical Diagnosis Screening, 4 Units**

This course prepares students to utilize various methods of physical examination to identify which pathologies are and are not amenable to physical therapy intervention. Students gain experience with EKG interpretation, heart and lung sounds, otoscopic and ophthalmic examination, basic hematological and serum chemistry analysis, HEENT exams, peripheral vascular exams, psychological screening, abdominal palpation, and dermatological examination.

## **PT 794, Fellowship I, 2 Units**

This course is an integration of key movement approaches advocated by Shirley Sahrman PT, Ph.D.; Vladimir Janda, MD, D.Sc.; and Pavel Kolar, PT, Ph.D., focusing on specific movement impairments in the spine and upper and lower quarters, including the interaction between the central nervous system and motor system in the production of movement, stability, and/or controlled mobility. This course also includes instruction in principles of biomechanics, ergonomics, and body proportions and their relationship to movement impairments that limit optimal performance of function.

## **PT 795, Fellowship II, 3 Units**

This course builds on clinical reasoning skills with instruction/problem-solving discussion on intervention strategies for patients with complex rehabilitation issues including chronic pain. Application of the movement approach and strength and conditioning are applied to athletes with focus on running, rotation and overhead sports, contact sports, and performing artists.

**Prerequisite:** PT 794

## **PT 796, Fellowship III, 3 Units**

This course builds on clinical reasoning skills with instruction/problem-solving discussion on intervention strategies for patients with complex rehabilitation issues, including rotation and overhead sports, contact sports, and performing artists. Application of the movement approach and strength and conditioning are applied to athletes.

## **PT 797, Fellowship IV, 2 Units**

This course builds on clinical reasoning skills with instruction/problem-solving discussion on intervention strategies for patients with complex rehabilitation issues including concussions and vestibular issues.

**Prerequisite:** PT 796

## **PT 798, Special Topics I, 2 Units**

This is the first of two courses which examine specialized topics/techniques of current interest for physical therapists. This course includes topics of movement science, basic taping techniques for the orthopedic and neurologic populations, ergonomics, wound care and lymphedema management. Lecture and hands on lab sessions will provide opportunities for the student to evaluate, develop and administer a plan of care in each of the specialty areas under faculty supervision.

## **PT 799, Independent Study, 1-6 Units**

Students enroll in this course to pursue independent study investigating subjects and interests that lie beyond regular course offerings. The student explores topics in greater depth than in other courses and/or initiates an individual project. Readings are pursued in accordance with a study plan, which is developed in consultation with a sponsoring faculty member and approved by the department chair.

## **RMS 701, Foundations of Rehabilitation and Movement Science, 3 Units**

This course provides the foundation for doctoral studies and careers in the field of rehabilitation and movement science, equipping students with fundamental knowledge, principles, and primary concepts underlying the field, historical perspectives and current models of health care, and new areas of study being explored. The course is divided into two parts: the first provides the framework necessary for understanding the field, and the second uses a mixture of lectures and independent learning to explore the subspecialties of each student.

## **RMS 702, Basic Biostatistics I, 4 Units**

This course focuses on introductory and advanced analysis of variance (ANOVA) methods and their relation to rehabilitation and movement science research. Advanced ANOVA methods covered in this course include repeated measure, mixed design, ANCOVA, and MANOVA. Specifically, students learn to implement, analyze, and report ANOVA findings for APA-style journal publications. Use of SPSS and R is emphasized.

**Corequisite:** RMS 702L

### **RMS 702L, Basic Biostatistics Lab, 1 Unit**

In this course, the lab component to RMS 702, students apply the statistical analysis knowledge from RMS 702 to computational procedures using SPSS and R.

**Corequisite:** RMS 702

### **RMS 703, Teaching, Learning, and Assessment Theory and Methods, 3 Units**

This course equips future academicians with knowledge and skills in teaching, learning, and assessment, preparing them to fulfill their roles as instructors in a way that promotes high levels of student engagement and growth. Students in this course develop a coherent personal philosophy of teaching and learning, and create a unit of study reflecting that philosophy that includes meaningful assessments of learning.

### **RMS 704, Research for the Rehabilitation and Movement Scientist, 3 Units**

This course introduces the concepts of research in rehabilitation and movement science: research design and statistical methods, critical evaluation of published research relevant to rehabilitation science, scientific writing, and preparation for conducting clinical research.

### **RMS 705, Instrumentation and Outcome Measures, 3 Units**

This course covers the basic principles of how to design and utilize outcome measures and instrumentation, and how to scrutinize their psychometric properties. In addition, students gain greater insight on how to select the outcome measure(s) and instrumentation they intend to use in their Ph.D. field of study.

### **RMS 706, Leadership Theories Applied to Rehabilitation Education and Administration, 3 Units**

Students in this course explore leadership theories related to organizational leadership and apply them to the context of higher education. In doing so, students discover and define their individual leadership philosophy and competency model.

### **RMS 707, Ethics in Education and Research, 3 Units**

This course provides a foundation for future educators and researchers to promote responsible conduct in education, health care, and research. Students become familiar with current issues and debates in healthcare education and research ethics, and prepare for the kinds of ethical issues and federal requirements they will encounter throughout their careers. The course starts with a review of the history of and debate over ethics and research, focusing on those involved in the healthcare field and analyzing the various ethical dimensions of different types of research and academia in health care, in particular informed consent, risk-benefit assessment, ethical review, and research with special populations. It then offers the opportunity to study, in more detail, subjects such as research with children and animals, ethics review committees, and research integrity.

### **RMS 708, Literature Appraisal: Systematic Reviews and Meta-analysis, 3 Units**

This course helps students develop important skills in engaging with the literature in the field. Students systematically extract the relevant literature in an area of interest, develop protocols, then critically appraise and succinctly summarize the main findings and relate them to the focus of their doctoral study.

### **RMS 709, Grant and Scientific Writing, 3 Units**

Students in this course develop valuable skills in designing research studies for grant applications. The course includes a step-by-step introduction to identifying gaps in research and potential funders in the area of interest, crafting research aims and objectives, developing protocols, and creating collaborative grant proposals worthy of funder consideration.

**Prerequisite:** RMS 701, RMS 704

### **RMS 710, Intermediate Biostatistics II, 4 Units**

This course focuses on introductory and advanced regression methods, the latter of which includes hierarchal regression, mediation, moderation, and logistic regression. Students learn to implement, analyze, and report regression findings for APA-style journal publications. Use of SPSS and R is emphasized.

**Prerequisite:** RMS 702;

**Corequisite:** RMS 710L

### **RMS 710L, Intermediate Biostatistics Lab, 1 Unit**

In this course, the lab component to RMS 710, students apply the statistical analysis knowledge from RMS 710 to computational procedures using SPSS and R.

**Corequisite:** RMS 710

### **RMS 711, Concentration Independent Inquiry I, 3 Units**

This independent inquiry course is designed by the Ph.D. student and approved by the instructor. The course covers an area of inquiry - via a research, reading, study, or learning activity - that contributes a dimension of knowledge or understanding to the student's doctoral focus in addition to that provided in the general program curriculum.

## **RMS 712, Mixed Methods, 4 Units**

This course provides an in-depth study of how to plan, conduct, and analyze studies that use mixed-methods research designs, including correlational, survey, and qualitative methods. Students identify core areas of mixed-methods research in behavioral and applied sciences research and begin building a strong research concept about those areas. This course also emphasizes scale development methods used in behavioral and applied sciences.

## **RMS 713, Teaching Practicum, 3 Units**

This is an independent inquiry course in which a student works with a faculty mentor to design and develop lecture content, learning outcomes, and assessment methods for either a preprofessional course or a professional or postprofessional curriculum including program outcomes.

**Prerequisite:** RMS 703

## **RMS 714, Interdisciplinary Topics Seminar I, 1 Unit**

This course introduces the science of motor control/motor learning, including the neuromotor processes that underlie normal and abnormal movement. Theories of motor learning and mechanisms for acquisition of skill are discussed. Neuromotor and neuropsychological research are investigated and clinical implications are considered.

## **RMS 715, Interdisciplinary Topics Seminar II, 1 Unit**

In this course focusing on chronic pain as a multidimensional experience, students examine the roles of physical therapists in the management of patients/clients with chronic pain conditions. Students apply knowledge of the neurophysiological basis of pain-and of the factors that differentiate acute, 'normal' pain from various chronic, 'abnormal' pain mechanisms-to evaluation and intervention strategies, including those incorporating a neuroplastic approach to chronic pain. Other topics addressed, within the context of treating the whole person, are biomedical, biopsychosocial, and environmental factors that predispose to development of chronic pain, and prevention strategies. Students engage in critical appraisal of the evidence and science underlying pain and its management, and utilize case studies in critical problem-solving discussions that incorporate lecture material with current evidence. Students evaluate their problem-solving strategies through self-reflective assignments, peer interaction, and evaluation by the course instructor to facilitate self-directed learning.

## **RMS 716, Interdisciplinary Topics Seminar III, 1 Unit**

This course focuses on the theoretical concepts and methodologies related to the study of biomechanics, and helps students develop a theoretical biomechanical research question informed by scientific evidence and knowledge gained throughout the course. Students review traditional and current biomechanical research methods, with a focus on interpretation of previous research and its application to future research questions, and also examine biomechanical demands on tendons, joints, and muscles, as well as whole-body movement patterns. Students participate in hands-on application using biomechanical assessment tools such as 3D motion capture, force-plates, EMG, dynamometer, and clinically relevant biomechanical tests. They also discuss and analyze a variety of available methods for biomechanical analysis, and design appropriate procedures to assess kinematic and kinetic outcomes.

**Prerequisite:** RMS 705

## **RMS 717, Interdisciplinary Topics Seminar IV, 1 Unit**

In this course, students gain valuable insight and skills in how to detect and manage mental health disorders. Students learn to use screening tools, and also learn about the pathophysiology of conditions, barriers to service delivery, and the roles of the mental health interdisciplinary team.

## **RMS 718, Concentration Independent Inquiry II, 3 Units**

This independent inquiry course is designed by the Ph.D. student and approved by the instructor. The course covers an area of inquiry - via a research, reading, study, or learning activity - that is part of the student's doctoral focus and not already covered in the program.

## **RMS 719, Qualifying Examination and Research Prospectus, 1 Unit**

In this course, students prepare for and complete a qualifying exam and write a research prospectus for a future study. The qualifying exam is composed of an oral presentation of the written research prospectus and a comprehensive written exam.

**Prerequisite:** RMS 701, RMS 702, RMS 702L, RMS 703, RMS 704, RMS 705, RMS 706, RMS 707, RMS 708, RMS 709, RMS 710, RMS 710L, RMS 711, RMS 712, RMS 713, RMS 714, RMS 715, RMS 716, RMS 717;

**Corequisite:** RMS 718

## **RMS 720, Dissertation I: Introduction and Systematic Review, 3 Units**

This course, the first in a series addressing the dissertation, supports students' development of the dissertation proposal, focusing on the preparation and critique of chapter one (the introduction) and chapter two (the literature review).

## **RMS 721, Dissertation II: Methods and Research Proposal, 3 Units**

This course, the second in a series addressing the dissertation, assists students with the continuing development of the first three dissertation chapters and with obtaining Institutional Review Board (IRB) approval, culminating in the proposal defense.

**Prerequisite:** RMS 720

## **RMS 722, Dissertation III: Data Collection, Results, and Analysis, 3 Units**

This course, the third in a series addressing the dissertation, supports students' continued writing of the first four chapters of the dissertation, including data collection, data entry, and analysis.

**Prerequisite:** RMS 720, RMS 721, and successful proposal defense.

## **RMS 723, Dissertation IV: Discussion and Research Defense, 3 Units**

This course, the fourth in a series addressing the dissertation, supports students' completion of the dissertation process, including discussion of the main findings in comparison to published literature, final conclusions, and preparation for the dissertation defense.

**Prerequisite:** RMS 720, RMS 721 and RMS 722

## **RMS 749, Dissertation Continuation I, 1 Unit**

This course is a self-directed continuation of the student's dissertation work on their methods and research proposal. Course may be repeated until the work is complete.

**Prerequisite:** RMS 721

## **RMS 750, Dissertation Continuation II, 1 Unit**

This course is a self-directed continuation of the student's dissertation work. Course may be repeated until the work is complete.

**Prerequisite:** RMS 723

## **Faculty**

### **Department Chair**

Susan Shore (<http://www.apu.edu/faculty/ssshore/>), PT, Ph.D.

### **Program Directors**

Annette Karim (<http://www.apu.edu/faculty/akarim/>), PT, DPT, Ph.D., OCS, FAAOMPT, Ph.D. and Postprofessional Programs

Derrick G. Sueki (<http://www.apu.edu/faculty/dsueki/>), PT, DPT, Ph.D., GCPT, OCS, FAAOMPT, DPT Program

### **Professors**

Kathryn Kumagai Shimamura (<http://www.apu.edu/faculty/kkumagai/>), PT, DPT, NCS, OCS, CSCS, FAAOMPT

Susan Shore (<http://www.apu.edu/faculty/ssshore/>), PT, Ph.D.

Abebaw Yohannes (<http://www.apu.edu/faculty/ayohannes/>), Ph.D.

### **Associate Professors**

Wendy Chung (<http://www.apu.edu/faculty/wchung/>), PT, D.Sc.

Tamara Eichelberger (<http://www.apu.edu/faculty/teichelberger/>), PT, CSCS, Ph.D., NCS

Daniel Farwell (<http://www.apu.edu/faculty/dfarwell/>), PT, DPT, SCS

Chris Patterson (<http://www.apu.edu/faculty/cpatterson/>), PT, DPT, OCS

# Doctor of Physical Therapy

For more information: (626) 815-5020

The Doctor of Physical Therapy program (<https://www.apu.edu/bas/programs/dpt/>) is a 3-year (including summers), entry-level professional program emphasizing the scientific basis of human structure and human movement, the spiritual basis of human worth, and the integration of these foundational elements into a comprehensive and problem-solving, evidence- and consensus-based approach to artful evaluation and skillful treatment.

## Mission Statement

The Doctor of Physical Therapy program prepares graduates to practice as competent generalist physical therapists who have a solid foundation for postprofessional specialization. These graduates are guided by Christian principles and ethical values. They are critical thinkers and lifelong learners, supporting the global community and the physical therapy profession by functioning as service-oriented practitioners. They promote excellence in patient care, are guided by a belief in human worth and dignity, and are dedicated to the optimization of human health and function.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Admission Requirements

University graduate and program admission requirements must be met before an application is complete (see Admission to the University (p. 1178)):

1. The applicant must have an officially posted bachelor's degree from a regionally accredited college or university by the time he or she matriculates to APU.
2. Prerequisite courses must be similar in value to courses offered by an accredited four-year college or university. Grades of C or better are required. Science courses must have laboratories. No prerequisite work may be taken on a pass/no pass basis. Hybrid online science courses that combine online lectures and in-person labs may be acceptable. Courses can be taken at any regionally accredited college or university. *All science prerequisite coursework more than seven years old is not accepted.*
3. A cumulative baccalaureate or master's degree GPA of at least 3.0.
4. A cumulative science GPA of at least 3.0 (a science GPA below 3.0 will not be considered for admission).

## Prerequisites

The following prerequisites must be completed by the end of the fall term before entry:

| Code   | Title   | Units |
|--|---|-------|
| BIOLOGY: Four courses  |   |       |
|  | Human Anatomy with lab (required)                   |       |
|  | Human Physiology with lab (required)                |       |
|  | Cell Biology or General Biology with lab (required) |       |
|  | Biology—any additional course (lab not required)    |       |
| CHEMISTRY: One year with lab   |   |       |
|  | General Chemistry or Organic Chemistry              |       |
| PHYSICS: One year with lab (must include electro, hydro, and magnetic physics) |   |       |
| EXERCISE PHYSIOLOGY: One course  |   |       |
| STATISTICS: One course   |   |       |
| PSYCHOLOGY: Two courses  |   |       |
|  | General Psychology (required)                       |       |
|  | Any other Psychology course                         |       |
| HUMANITIES AND ARTS: Three courses   |   |       |
|  | English Composition (required)                      |       |
|  | English Literature                                  |       |
|  | History/Political Science/Sociology                 |       |

Music/Art Appreciation

Philosophy/Ethics

Speech/Communication

#### ADDITIONAL COURSES

(recommended but not required):

Athletic Training

Exercise Science

Kinesiology/Biomechanics

Nutrition

Writing Course

### Other Admission Criteria

- The Department of Physical Therapy participates in the Physical Therapist Centralized Application Service (PTCAS). To apply to the APU DPT program, visit the PTCAS website (<http://www.ptcas.org/>) and follow all instructions. Early applications are encouraged. Final deadline is October 1.
- The DPT program reviews applications on a rolling basis, and acceptances are processed year-round. To ensure consideration for the January start date, completed applications should be submitted early in the admissions cycle.
- International students have a separate application procedure. Contact the International Center at +1-626-812-3055 or [international@apu.edu](mailto:international@apu.edu).
- Submit to PTCAS all supporting documents, including:
  - Official transcripts from all institutions leading to and awarding the applicant's baccalaureate degree and all postbaccalaureate study. Mail transcripts to APU's Graduate and Professional Center only if admitted into the program. (To be considered official, a transcript must be sent directly from the Office of the Registrar of the school attended to the Graduate and Professional Center: Admissions at Azusa Pacific University. Students' sealed copies will not be considered official.)
  - Three recommendation forms from persons well-suited to evaluate qualifications for graduate study and/or physical therapy: one must be from a registered/licensed physical therapist, and two from faculty members familiar with academic work in areas closely related to the proposed field of study or responsible persons well-informed about relevant work completed by the student.
  - 100 hours of clinical experience in a physical therapy setting.
  - GRE taken within the last five years; submit self-reported GRE scores with PTCAS application and follow up with official scores. Use APU Institution Code 4596 and Department Code 0619.
  - Essay

Students admitted into the DPT program will be required to provide a \$1,200 nonrefundable enrollment deposit to reserve a seat. Deposit is due within 10 days of receipt of the acceptance letter. This will be applied to the first term's tuition fee.

#### If applicable, any additional materials should be submitted to:

Graduate and Professional Center: Admissions  
 Azusa Pacific University  
 PO Box 7000  
 Azusa, CA 91702-7000

Located at:  
 Azusa Pacific University  
 568 E. Foothill Blvd.  
 Azusa, CA 91702  
 (626) 815-4570  
 Fax: (626) 815-4571  
[gpadmissions@apu.edu](mailto:gpadmissions@apu.edu)  
[apu.edu/gpc](http://www.apu.edu/gpc/) (<http://www.apu.edu/gpc/>)

#### International applicants should send additional forms to:

International Center  
 Azusa Pacific University  
 PO Box 7000  
 Azusa, CA 91702-7000 USA  
 +1-626-812-3055  
 Fax: +1-626-815-3801  
[international@apu.edu](mailto:international@apu.edu)  
[apu.edu/international](http://www.apu.edu/international/) (<http://www.apu.edu/international/>)

In addition to meeting the admission requirements, those students whose first language is not English must meet the required English proficiency standard as demonstrated by passing the following minimum international iBT (internet-based TOEFL) scores:

|             |               |
|-------------|---------------|
| Reading: 25 | Speaking: 25  |
| Writing: 25 | Listening: 25 |

All international students must complete international student applications, which must be approved through APU's Office of International Enrollment Services (<http://www.apu.edu/international/enrollment/>).

## Course Requirements

Graduation requirements include maintaining a minimum 3.0 program and cumulative grade-point average (GPA). The calculation is based upon courses taken in fall, spring, and summer semesters. See Grading (p. 1446) and Academic Probation and Dismissal (p. 1423) in the Academic Policies and Procedures (p. 1421) section of this catalog.

| Code          | Title                                | Units |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Deliver physical therapy as competent generalists in a variety of community settings to patients of diverse age, gender and cultural backgrounds.
2. Pursue lifelong learning through professional growth and specialization.
3. Incorporate knowledge of the Christian worldview into their understanding of current ethical, legal, and social issues in professional physical therapy practice.
4. Engage with faculty in clinical research to encourage critical thinking and evidence-based practice.
5. Provide for the medical and spiritual needs of the community as service-oriented practitioners who value human worth and seek to advance total patient care and the optimization of health and function.

# Ph.D. in Rehabilitation and Movement Science

## Mission Statement

The Doctor of Philosophy (Ph.D.) in Rehabilitation and Movement Science (<https://www.apu.edu/bas/programs/phd-rehabilitation-movement-science/>) program at Azusa Pacific University prepares graduates to practice as academic faculty and clinical researchers in the fields of rehabilitation and movement science. These graduates are guided by Christian principles and ethical values, and are critical thinkers and lifelong learners, supporting the global community and the rehabilitation and movement science profession as service-oriented practitioners. They promote excellence in patient care, are guided by a belief in human worth and dignity, and are dedicated to the optimization of human health and function.

## Requirements

| Code          | Title  | Units |
|---------------|--|-------|
| <b>YEAR 1</b> |  |       |
| <b>Fall</b>   |  |       |
| RMS 701       | Foundations of Rehabilitation and Movement Science                         | 3     |
| RMS 702       | Basic Biostatistics I  | 4     |
| RMS 702L      | Basic Biostatistics Lab  | 1     |
| RMS 714       | Interdisciplinary Topics Seminar I   | 1     |
| <b>Spring</b> |  |       |
| RMS 710       | Intermediate Biostatistics II  | 4     |
| RMS 704       | Research for the Rehabilitation and Movement Scientist                     | 3     |
| RMS 710L      | Intermediate Biostatistics Lab   | 1     |
| RMS 715       | Interdisciplinary Topics Seminar II  | 1     |
| <b>Summer</b> |  |       |
| RMS 705       | Instrumentation and Outcome Measures                                       | 3     |
| RMS 708       | Literature Appraisal: Systematic Reviews and Meta-analysis                 | 3     |
| <b>YEAR 2</b> |  |       |
| <b>Fall</b>   |  |       |
| RMS 707       | Ethics in Education and Research   | 3     |
| RMS 703       | Teaching, Learning, and Assessment Theory and Methods                      | 3     |
| RMS 716       | Interdisciplinary Topics Seminar III                                       | 1     |
| <b>Spring</b> |  |       |
| RMS 711       | Concentration Independent Inquiry I  | 3     |
| RMS 712       | Mixed Methods  | 4     |
| RMS 713       | Teaching Practicum   | 3     |
| RMS 717       | Interdisciplinary Topics Seminar IV  | 1     |
| <b>Summer</b> |  |       |
| RMS 718       | Concentration Independent Inquiry II                                       | 3     |
| RMS 706       | Leadership Theories Applied to Rehabilitation Education and Administration | 3     |
| <b>YEAR 3</b> |  |       |
| <b>Fall</b>   |  |       |
| RMS 709       | Grant and Scientific Writing   | 3     |
| RMS 719       | Qualifying Examination and Research Prospectus                             | 1     |
| <b>Spring</b> |  |       |
| RMS 720       | Dissertation I: Introduction and Systematic Review                         | 3     |
| <b>Summer</b> |  |       |
| RMS 721       | Dissertation II: Methods and Research Proposal                             | 3     |
| RMS 749       | Dissertation Continuation I <sup>1</sup>                                   | 1     |
| <b>YEAR 4</b> |  |       |
| <b>Fall</b>   |  |       |

|               |  |    |
|---------------|--|----|
| RMS 722       | Dissertation III: Data Collection, Results, and Analysis | 3  |
| <b>Spring</b> |  |    |
| RMS 723       | Dissertation IV: Discussion and Research Defense         | 3  |
| <b>Summer</b> |  |    |
| RMS 750       | Dissertation Continuation II <sup>2</sup>                | 1  |
| Total Units   |  | 64 |

- <sup>1</sup> If students do not successfully complete their research proposal at the end of RMS 721 Dissertation II, they must register for RMS 749 Dissertation Continuation I for 1 unit every term until it is successfully completed.
- <sup>2</sup> After enrolling in RMS 722 Dissertation III for one semester, and RMS 723 Dissertation IV for one semester, students must enroll in RMS 750 Dissertation Continuation II for 1 unit each semester from the time their research proposal is accepted until their dissertation is approved for ProQuest submission.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Evaluate literature in rehabilitation and movement science.
2. Disseminate research findings in appropriate venues to inform scholarship in the field.
3. Design and implement ethical research which is innovative and methodologically sound.
4. Provide servant leadership in their individual fields.
5. Examine and apply theories and principles of effective pedagogy to deliver and assess student learning in their discipline.
6. Apply principles of the Christian worldview to the science of education and research in their individual discipline.

# Physical Therapy Postprofessional Clinical Fellowship in Movement and Performance

The Physical Therapy Postprofessional Clinical Fellowship in Movement and Performance (<https://www.apu.edu/bas/programs/clinical-fellowship/>) aims to provide clinical training of physical therapists to accelerate their professional development in becoming a highly skilled patient-care provider, a resource, educator, and mentor to others in the community that they serve and competent consumer and contributor to the scientific literature.

The fellowship's mission is compatible with Azusa Pacific University's Doctor of Physical Therapy (<https://www.apu.edu/bas/programs/dpt/>) mission and vision statements by training physical therapists "to provide quality care to all customers through an open and dynamic learning community where the most advanced knowledge is shared and practiced freely" and by "encouraging critical thinking and evidence-based practice."

It is the intention of Azusa Pacific University:

- To provide highly skilled physical therapy for their student athletes and performing artists as well as for their students attending the university.
- To produce clinicians who demonstrate superior post-professional clinical skills, advanced knowledge in an area of clinical practice, and the ability to function as consultants, advocates, and educators of their peers and patients/clients.
- To increase the number of clinical educators/mentors for future physical therapy interns, fellows, and staff.

## Admission Requirements

Minimal eligibility requirements for acceptance into the program include:

Applications will be reviewed by a selection committee consisting of the fellowship director, clinical faculty, and clinic directors with consideration of the following:

- Current licensure as a physical therapist by the Physical Therapy Board of California
- Completion of a residency in orthopedic physical therapy from an APTA credentialed residency program (equivalent to a minimum of 2,000 hours)
- If not residency-trained, demonstrates an equivalent knowledge and skills in orthopedic physical therapy and has at least 4,000 hours or 2 years of experience

All applicants will be interviewed by the director and clinical mentors of the fellowship. Observation of a live patient clinical exam may be required. The following factors will be taken into consideration when reviewing applicants:

- Academic background
- Postgraduate training
- Clinical experience
- Teaching experience
- Research experience
- Community service

## Course Requirements

| Code   | Title          | Units |
|--------|----------------|-------|
| PT 794 | Fellowship I   | 2     |
| PT 795 | Fellowship II  | 3     |
| PT 796 | Fellowship III | 3     |
| PT 797 | Fellowship IV  | 2     |

Total Units 10

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## **Program Learning Outcomes**

### **Program Learning Outcomes**

Students who successfully complete this program shall be able to:

1. Demonstrate highly skilled patient care in the movement system.
2. Distinguish themselves as expert movement systems instructors and mentors in the field of physical therapy.
3. Function as competent consumers and contributors to the evidence-based practice of physical therapy.

The program provides clinical training of physical therapists that accelerates their professional development in becoming a:

1. Highly skilled patient-care provider in the area of movement science
2. Resource, educator, and mentor to physical therapy interns, residents, and fellows
3. Leader in the areas of physical therapy practice, education, and community service
4. Competent consumer of and contributor to the evidence-based practice of physical therapy

# Department of Psychology

The Department of Psychology (<https://www.apu.edu/bas/psychology/>) at Azusa Pacific University assists students in developing the skills necessary for the observation, understanding, and analysis of human behavior. In their study of psychology, students are trained to employ systematic methods of inquiry to explain normal and abnormal behavior, examining a number of factors including neural, cognitive, developmental, cultural, interpersonal, and individual differences. Students also engage in the development of their strengths and skills in personal, intellectual, and spiritual areas.

Each faculty member is a committed Christian with an interest in the individual student. As a department, the faculty are committed to preparing students for a wide range of postbaccalaureate work in psychology or related disciplines, and helping students reflect upon the relationship of psychology to the Christian faith. Programs and activities associated with psychology are planned by the faculty, the Psychology Club, and the Psi Chi honor society to create a spirit of community. These activities include graduate school forums in which students interact with Christian psychology professionals, as well as informal gatherings where psychology majors receive information to help them successfully navigate their program requirements, meet other students, and understand career opportunities.

The design of the undergraduate curriculum reflects the extensive breadth of psychology and provides internship experience in applied field or research settings. There are two undergraduate degrees offered: the Bachelor of Arts (B.A.) (p. 649) and the Bachelor of Science (B.S.) in Psychology (p. 655). While the degrees overlap in their core courses, the focuses in terms of elective courses are different—the B.A. program focuses on the applied areas of understanding the human condition, and the B.S. program focuses on the scientific methods used to study behavior, emphasizing research skills.

The department also offers undergraduates a psychology minor (p. 667) and an alcohol and drug counseling minor (p. 665).

At the graduate and professional level, the department comprises an energetic community of scholars equipping students to understand the field of psychology through academically rigorous coursework, hands-on laboratory research, internships with community agencies, and individual research projects. The department offers a Master of Science in Research Psychology and Data Analysis (p. 662), a Master of Science in Child Life (p. 658) (including an Advanced Standing (p. 660) option), a Master of Science in Counseling Psychology with Specialization in Children and Adolescents (p. 661), a bachelor's completion program in psychology (p. 652) for transfer students who have at least 30 units of college credit, and professional minors in psychology (p. 668) and alcohol and drug counseling. (p. 666)

## Mission Statement

The Department of Psychology at APU is a community of Christian scholars who, with their diverse backgrounds and expertise in understanding human behavior in society, are committed to enhancing the development of our students through intellectual challenge, experiential learning, personal growth, and spiritual discovery so that each student develops his or her potential and is prepared for where God is leading them to serve.

## Career Opportunities

Study in psychology provides a foundational background for a broad variety of careers in which the understanding of human behavior and social processes is useful. Graduates with a bachelor's degree in psychology have a foundational background for entry-level jobs in mental health or community service agencies, business, and human resources. For advanced positions requiring testing, counseling, or consulting, a master's degree is generally the minimum requirement, while psychologists with doctoral degrees qualify for more advanced counseling, research, and teaching positions. Psychology majors with advanced degrees may pursue careers in developmental, family, health, educational, sports, industrial/organizational, ministry, and experimental psychology, as well as neuropsychology. They may also pursue licensure as clinical, counseling, or school psychologists, or marriage and family therapists. Other areas in which students seek careers include social work, marketing, law, physical therapy, and medicine. In a recent alumni survey, 85% completed postgraduate study, with two-thirds of those in a discipline-related position, and half of the alumni surveyed achieved national licensure or certification in the field. All students planning to major in psychology are urged to make an appointment at the department office (Wynn 109) and to continue visiting the department for help with progressing in the major and beyond.

## Programs

### Majors

- Psychology Major (B.A.) (p. 649)
- Psychology Major (B.S.) (p. 655)

### Minors

- Alcohol and Drug Counseling (p. 665)
- Psychology (p. 667)

## Professional Programs

- Bachelor of Arts in Psychology (p. 652)
- Psychology Minor (p. 668)
- Alcohol and Drug Counseling Minor (p. 666)

## Graduate Programs

- Master of Science in Research Psychology and Data Analysis (p. 662)
- Master of Science in Child Life (p. 658)
  - Advanced Standing Master of Science in Child Life (p. 660)
- Master of Science in Counseling Psychology with Specialization in Children and Adolescents (p. 661)

## Courses

### PCLS 501, Advanced Child Development, 3 Units

This course is an in-depth examination of physical, cognitive, emotional, moral, and social development from infancy through adolescence. Content includes developmental theory and practice of early childhood education, as well as assessment of child development and impairments in developmental functioning.

### PCLS 502, Applied Child Development and Medical Terminology, 3 Units

This course reviews psychosocial and clinical aspects of disease and injury for the hospitalized and medically fragile child. Course content includes medical terminology, charting, complementary medicine, and physiological, cognitive, social, and emotional impacts of disease and injury on the patient and family.

### PCLS 511, Family Systems Theory and Applications, 3 Units

This course explores family systems and therapeutic models with a focus on family psychology. Emphasis is on family-centered care and the effects that terminal illnesses have on the family system. Course content covers parenting medically fragile children, parenting and family relationships with a seriously ill or terminal parent, diversity issues and children with special needs, therapeutic models in family psychology, and integration of Christian faith and theology with family psychology.

### PCLS 512, Theories and Practices of Grief and Loss, 3 Units

Students in this course develop understanding of the family-centered care model and explore therapeutic interventions and techniques aimed at benefitting patients and families affected by death and serious illness. Course content focuses on death, grief, and bereavement and their effects on the family system. Each student learns hands-on interventions to guide patients and families through death, grief, loss, and healing.

### PCLS 512L, From Grief to Healing: Strategies and Application Lab, 1 Unit

In this lab course, students apply understanding of grief theories and explore practical therapeutic interventions and approaches aimed at benefitting children and families effected by death or serious illness. Focus is on historical and current views on death, grief, bereavement, and the effects on family system. Each student learns hands-on interventions to guide children and families from grief to healing process.

**Prerequisite:** PCLS 521;

**Corequisite:** PCLS 512

### PCLS 520, Infants and Toddlers: Development and Interventions, 3 Units

This course offers an in-depth exploration of the growth and development of infants and toddlers. Content includes developmental theories and developmentally appropriate interventions, as well as assessment of development and impairments in developmental functioning.

### PCLS 521, Introduction to Child Life, 3 Units

This course aids students in gaining a broad understanding of the field of Child Life and equips students with the knowledge of the history and trends of the child life profession. Course content includes: Scope of practice in Child Life, the Official Child Life documents, clinical assessment, child life theoretical foundations, development and hospital stressors, and introduction to exceptional and medically challenged children.

### PCLS 522, Therapeutic Interventions and Play-Based Techniques, 3 Units

This course is designed for students to develop an understanding of the history and theories of play and play-based therapies. Students gain knowledge of therapeutic play techniques, and explore research and theories on the importance of psychosocial preparation for medical procedures. Post- and preprocedural coping techniques and therapeutic interventions are taught as well. Students create hands-on interventions to prepare patients of all developmental levels for a variety of procedures.

### PCLS 523, Coping Strategies for Children Experiencing Stress and Trauma, 3 Units

This course is designed for students to explore the best evidence-based practices in play therapy, with an emphasis on psychosocial and therapeutic interventions for children with special needs (cognitive intellectual and/or pervasive developmental disabilities). This course focuses on the effects traumatic situations have on the patient/client and their family. Students explore a variety of play therapy techniques and therapeutic interventions to help patients and families work through trauma and PTSD.

### **PCLS 524, Adolescent Development and Interventions, 3 Units**

This course is an in-depth examination of the physical, cognitive, emotional, moral, and social development of adolescents. Content includes developmental theory and interventions, as well as assessment of development and impairments in developmental functioning.

### **PCLS 525, Assessment, Preparation, and Documentation, 3 Units**

This course reviews historical and current perspectives on techniques and outcomes of preparing children for healthcare encounters and life-changing events. The emphasis is on students developing proficiency in setting goals during child life assessments to plan developmentally appropriate preparation interventions and gain competencies with documentation. This course also addresses coping strategies for pain management. Achievement of course objectives is addressed through experiential learning, lectures, readings, discussion, and reflection.

### **PCLS 531, Ethics, Diversity and Professional Issues, 3 Units**

This course covers legal, ethical, moral, cultural, religious and gender issues within a family-centered context. Theories and concepts of culture and cultural diversity are explored. This course also examines issues related to parenting medically fragile children, including legal and ethical considerations. An integration of Christian faith and theology is implemented in the course in regards to professional ethics and multicultural competence.

### **PCLS 532, Child Life Administration and Leadership, 3 Units**

Students gain understanding of child life program development and acquire the leadership skills to manage a child life program. Course content includes outreach and technology in the field of child life; child life administration, supervision, and mentoring; group facilitation skills; leadership skills; and program evaluation.

### **PCLS 541, Pre Practicum in Child Life, 3 Units**

This course is designed to further develop the therapeutic tools of students prior to child life practicum placement. Students focus on developing proficiency in the core goals during crisis assessment and interventions, gain competencies in therapeutic dynamics, gain competencies in communication and listening to be applied when working with a diverse population of patients, families, and members of the multidisciplinary team. Additionally, students are encouraged to begin developing a theoretical and conceptual understanding of working with hospitalized and medically fragile children. Students are also encouraged to address issues regarding the integration of their faith with the practice of child life. These goals are addressed through experiential learning, lecture, readings, discussion, and reflection.

### **PCLS 542, Practicum in Child Life, 3 Units**

This field experience course is taught by a certified child life specialist and is designed and evaluated according to the specific clinical and academic standards set forth by the Association of Child Life Professionals (ACLP). According to the ACLP, 'The Child Life Practicum is designed as an introductory experience for individuals interested in pursuing a career in child life. Through experiential learning and observation of Certified Child Life Specialists, child life practicum students begin to increase their knowledge of basic child life skills related to play, developmental assessment, and integration of child life theory into interventions with infants, children, youth and families.' All students are required to participate in weekly mentor meetings with the instructor throughout the semester.

### **PCLS 543, Internship in Child Life, 3 Units**

This field experience course is taught by a certified child life specialist and is designed and evaluated according to the specific clinical and academic standards set forth by the Association of Child Life Professionals (formerly the Child Life Council). According to the association, 'The Child Life Practicum is designed as an introductory experience for individuals interested in pursuing a career in child life. Through experiential learning and observation of Certified Child Life Specialists, child life practicum students begin to increase their knowledge of evidence-based, developmentally-appropriate interventions including therapeutic play, preparation and education that support and reduce fear, anxiety and pain for infants, children, youth and families as they cope with the stress and uncertainty of illness, injury and treatment.' All students are required to participate in a weekly on-campus mentor meeting with the instructor throughout the semester.

### **PCLS 551, Research Methods and Statistical Analysis, 3 Units**

This course surveys the major social science research methods, preparing students to read, understand, and evaluate psychological research. This course will provide students with the basic knowledge and experience of developing research proposals. Students will also learn to understand survey methods, data collection, and research analysis. This course is designed for students to identify his or her thesis topic and/or project and prepare students for PCLS 552.

### **PCLS 552, Thesis/Project Seminar, 3 Units**

This master's thesis seminar is intended to provide students with a theoretical and methodological foundation necessary for completing their MS thesis/project in Child Life Science within the Psychology Department. The main objective of this seminar course is to help students develop and implement the theoretical foundation and methodological procedures needed to complete a MS graduate thesis or clinical project. CR/NC grading.

### **PCLS 599, Readings in Child Life Psychology, 1-3 Units**

Students may enroll in an independent study for unit credit to investigate subjects and interests that lie beyond regular course offerings, explore topics in greater depth, and/or initiate individual projects. Such requests must be developed in consultation with a sponsoring faculty member and be approved by the graduate program chair and dean. Unit credit varies depending on the scope of the study plan.

### **PRPS 110, General Psychology, 3 Units**

This general survey course explores the field of psychology. It includes human development, social psychology, learning, perception, cognition, motivation, personality, psychological testing, and nervous system functioning. *Meets the General Education Requirement: Social Science.*

### **PRPS 250, Data Analysis in Psychology, 3 Units**

This course introduces students to statistical analyses that are common in psychological research. Students learn to identify the appropriate analysis, how to run the statistical analysis in SPSS, and how to interpret SPSS output. Students are also introduced to writing results in APA style.

**Prerequisite:** PRMA 130

### **PRPS 280, Introduction to Certified Alcohol Drug Counselor Credentialing, 3 Units**

Students in this course examine the effects of alcoholism and drug dependency, specifically as they relate to cultural/lifestyle considerations, human behavior, and family dynamics. Course material also considers the substance use system of care, including its programs, policies, and procedures for the treatment and recovery of individuals suffering from substance use disorders. This is the first course in a series designed to meet the educational requirements for California Consortium of Addiction Programs and Professionals (CCAPP) credentialing.

### **PRPS 290, Human Growth and Development, 3 Units**

This study of human development across the life span emphasizes a multidisciplinary perspective, including such areas as psychology and sociology, processes as social interaction, and the tools for applying developmental psychology to life situations. *Meets the General Education Requirement: Social Science.*

### **PRPS 292, Introduction to Brain and Behavior, 3 Units**

The purpose for this course is to provide a foundation of the physiological basis of human behavior. Topics include the structure and function of different brain regions, how neurons communicate, sensory and motor function, and complex brain functions such as speech and cognition. This course serves as an introduction to the neurobiology of various psychological and neurological diseases.

### **PRPS 305, Educational Psychology, 3 Units**

Educational psychology is a broad field of study focusing on the various factors that influence learning and human knowledge. This course provides an overview of the principles and theories used throughout other psychological fields, but in the context of educational psychology. Specifically, this course covers development, culture, motivation, learning, cognition, and learner differences.

### **PRPS 320, Social Psychology, 3 Units**

How are individuals' thoughts, feelings, and behaviors influenced by other people? In this course, students are encouraged to become careful observers of social influences on human behavior by learning the theories and methods employed by social psychologists in order to apply these perspectives in everyday social interactions.

### **PRPS 330, Sports Psychology, 3 Units**

Sports psychology is a survey course that explores the role of psychology as it is related to the enhancement of athletic performance. Students will spend time on areas related to sports and physical activity such as motivation, self-confidence, goal setting, burnout, anxiety, healthy attitudes toward sports participation, and other sports-related activity. Emphasis is on critically reviewing sports psychology literature and research in an attempt to separate effective and ineffective psychology-related approaches to sport activity.

### **PRPS 340, History of Psychology, 3 Units**

The historical growth of psychological science is surveyed here. This course focuses on major theorists and their ideas in relation to the historical context as well as current psychological issues.

### **PRPS 345, Psychology of Child and Adolescent Development, 3 Units**

This course is an advanced examination of emotional, cognitive, physical, and social development from infancy through adolescence. The process of human development as a complex interaction of biological and sociocultural factors is reviewed. Contemporary research topics focusing on genetics, fertility, attachment, communication, and cognitive and moral aspects of development are examined. *Meets the General Education Requirement: Social Science.*

### **PRPS 355, Psychology of Adult Development, 3 Units**

This course is an advanced examination of the emotional, cognitive, physical, and social development of individuals from young adulthood through the end of life. The process of adult development as an interplay of biological, psychological, cognitive, and psychosocial aspects is examined. Emphasis is on normal patterns in personal and emotional development in adulthood, as well as on contemporary research in areas of health, gender, marriage and relationships, family and parenting, ethnic/ecological systems, work, ethics, and morality.

### **PRPS 360, Abnormal Psychology, 3 Units**

The major focus of this course is mental illness and abnormal behavior, in light of modern theory and knowledge. Current trends and modern methods of diagnosis, understanding, treatment, and prevention are discussed.

### **PRPS 362, Research Methods in Psychology, 3 Units**

Students engage in a comprehensive overview of quantitative and qualitative research methods used in psychological research, and gain an understanding of the ethical considerations and other challenges involved in good research design. Students also complete a research project and learn to write utilizing the style adopted by the American Psychological Association.

**Prerequisite:** PRPS 250 and PRWR 260

### **PRPS 370, Industrial/Organizational Psychology, 3 Units**

Students survey the basic behavioral science research and thinking as they contribute to industrial and organizational psychology, including worker attitudes and theories of motivation, organizational structure and communication, theories of leadership and decision making, conflict resolution, and methods of personnel selection and appraisal.

### **PRPS 375, Psychology of Conflict Management and Mediation, 3 Units**

This class develops a psychological understanding of the dynamics of human conflict; the differences between constructive and destructive conflict; the different ways in which conflict can be managed, resolved and transformed, and develops the basic skills in the management and resolution of conflict.

### **PRPS 380, Psychology of Personality, 3 Units**

Students in this course become familiar with the various basic elements of personality and their integration, exploring concepts regarding the basic components of personality and the processes that undergird an individual's growth and behavior. Course material also covers current and traditional theories of personality.

### **PRPS 383, Psychology of Suicide, 3 Units**

This course gives students an overview of suicidal behavior, including terminology, statistics, theories, and interventions, that addresses this sensitive topic from a biopsychosocial-spiritual perspective. Students also have opportunities to learn fundamental skills in suicide assessment, safety planning, and interventions to reduce suicide.

### **PRPS 385, Health Psychology, 3 Units**

This is a survey course exploring the role of psychology as it is related to human physiology and the health field. Topics include basic neurology, stress management, nutrition, addictive substances, immunological disorders, and other relevant psychophysiological areas.

### **PRPS 386, Community Psychology, 3 Units**

This course is designed to give students an introduction to the field of community psychology. This area of psychology is concerned with the scientific study of social structures and their influence on individuals, groups, and organizations. The main focus will be on the development and application of community-based psychological theory and research to understanding, designing, implementing, and evaluating social change and empowerment. The roles of research and social action at multiple levels of analysis to facilitate social change will be examined.

### **PRPS 390, Cognition, 3 Units**

An overview of cognitive psychology is provided. Theories and research concerning sensation, perception, memory, and other higher-order mental processes include imagery, language, creativity, concept formation, and decision-making are discussed.

### **PRPS 400, Multicultural Psychology, 3 Units**

This course introduces students to cultural and multicultural psychology sub disciplines in psychology. Students develop knowledge of the history, major tenets, theories, research findings and behavioral practices in multicultural psychology. Students also gain understanding of the cultural bases for psychological processes. Students develop awareness, knowledge and skills for engaging in intercultural and multicultural contexts. Students are also asked to advance their cultural self-knowledge as well as knowledge of diverse others in order to develop multicultural competence in working with individuals from diverse backgrounds. *Meets the General Education Requirement: Intercultural Competence.*

### **PRPS 405, Psychology of Learning, 3 Units**

This course examines several major theories and research in the psychology of learning, as well as how learning theories have developed historically and how learning principles apply to psychological problems.

### **PRPS 410, Psychology of Exceptional Children, 3 Units**

Students examine and analyze the problems faced by the exceptional child. The study includes physical and emotional adjustment, speech and language disorders, various childhood disorders such as mental retardation and depression, and other childhood mental and physical disorders.

### **PRPS 415, Group Process, 3 Units**

Students survey the basic behavioral science research and thinking as applied to human interaction in groups. This includes such topics as group formation, phases, structure, types and uses of groups, group communication, group conflict resolution, and methods of group leadership. The course includes the observation and evaluation of group interaction.

### **PRPS 420, Political Psychology, 3 Units**

This course addresses political phenomena from a psychological perspective, and students are encouraged to develop civic knowledge, apply psychological theory within political contexts, and identify determinants of political behavior. Course content includes political attitudes and identity, leadership and group influence, voting behavior, nationalism, social movements, terrorism, and international conflict/resolution. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

### **PRPS 430, Intervention Strategies with Children, 3 Units**

This course provides an introduction to a broad range of assessment and intervention strategies designed to meet the developmental, psychomotor, language, behavioral, and education needs of children. Issues of normative and non-normative child and family functioning in child assessment and intervention planning are considered. Observational techniques, standardized tests, informal assessment measures, developmental assessments, and alternatives to current testing practices are discussed and reviewed from the multiple disciplines impacting child assessment and intervention. The broad range of modalities utilized in intervention with children is given strong emphasis with observation and student practice required at an intervention site.

### **PRPS 432, Psychosocial Interventions in Pediatric Health Care, 3 Units**

This is a core course in the child life specialist curriculum, covering a wide range of recreational and psychosocial interventions for children who are hospitalized, chronically ill, or have disabilities. Students learn various intervention techniques using developmental play, music, art, dance, and other forms of recreation, and gain understanding of the role of the child life specialist as a member of an interdisciplinary medical team.

### **PRPS 440, Psychology of Religion, 3 Units**

This course investigates the common ground between psychology and religion. Values, mature religion, the nature of humanity, and religious experience are all areas of study for this purpose.

### **PRPS 445, Psychology of the Family, 3 Units**

This course provides an overview of the field of family psychology. The three primary areas of study are: family systems theory, the family lifecycle, and several theoretical frameworks for the study of families. Students are given the opportunity to apply these concepts to their own family of origin.

### **PRPS 450, Counseling Theory, 3 Units**

This course is an introduction to counseling and psychotherapy, with students exploring the underlying assumptions and practices of traditional and contemporary counseling theories. Students also explore common ethical concerns that emerge in counseling relationships.

### **PRPS 451, Interventions in Counseling, 3 Units**

This course introduces counseling methods and practices; legal and ethical codes of conduct for counseling professionals; community prevention, education, and early intervention methods; interviewing; screening; and interventions in counseling. Students practice basic counseling assessment and intervention methods, including crisis management and safety practices. This course meets criteria for Domain IV of the CCAPP certification requirements.

### **PRPS 453, Bilingualism, Biculturalism, and Cognition, 3 Units**

This course provides students with an overview of issues in bilingualism and biculturalism from a cognitive perspective. Theories and research concerning knowledge representation, bilingual cognition (language acquisition, production, comprehension, and variations in executive functions), and bicultural cognition (cognitive consequences of culture-specific knowledge) are discussed. Students enrolled in this course may be required to share information regarding their personal life, family, or relationships.

### **PRPS 455, Field Experience, 3 Units**

This course is for students who have completed most of the psychology or sociology major requirements. Each student participates in one or more endeavors that offer an opportunity to apply prior training to a professional setting while acquiring new knowledge. This course can be repeated for a total of 6 units counted toward the major and 9 units toward the degree. *Meets the General Education Requirement: Integrative and Applied Learning.*

### **PRPS 463, Drugs, Behavior, and Society, 3 Units**

This course provides an overview of drug use historically and in contemporary society from community and bio-psychosocial perspectives. It provides an in-depth study of various psychoactive drugs of abuse, including physiological, psychosocial, health, legal and political aspects of drugs. This course explores drug-taking risk behaviors and issues related to dependence among high risk populations. Strategies for drug abuse prevention/education and intervention approaches are also examined in this course.

### **PRPS 464, Substance Use Assessment and Interventions, 3 Units**

Students in this course gain an in-depth understanding of empirically driven and theoretically grounded assessments and interventions for substance use issues, focusing on how to engage in effective screening and assessment protocols for substance use problem identification and service planning. Students participate in practical application of evidence-based interventions, including the use of case studies and a variety of practice exercises. Course material integrates foundational assessment and intervention models for addressing co-occurring mental health needs, family system issues, and patient-centeredness, including spirituality.

### **PRPS 466, Case Management in Mental Health and Substance Use Disorders, 3 Units**

This course offers an overview of the theory, structure, and practice of case management. Students gain an understanding of the professional practice of case management, including scope and responsibilities, multidisciplinary and ecological systems engagement, cultural and diversity factors, and ethical and legal issues. Students develop skills in effective communication, clinical documentation, case management facilitation, managing interpersonal and individual dynamics, case management interviewing, intervention planning, and implementation of services.

### **PRPS 470, Cognitive Neuroscience, 3 Units**

Cognitive neuroscience as a field studies the relationship between cognitive processes and the brain. Students will first learn about the major research methods in this field, such as lesion studies, brain imaging, and animal models. The majority of the course will then describe how these methods have been used to inform our understanding about the neural correlates of memory, decision-making, perception, and social cognition.

## **PRPS 472, Neurological and Behavioral Disorders, 3 Units**

This course examines the neurobiology of various psychological and neurological diseases. Neurological disorders covered include developmental, tumors, seizures, strokes, traumatic brain injury, neurodegenerative, and infectious disease. Behavioral disorders include schizophrenia, major affective disorders, anxiety disorders, autism, attention-deficit hyperactivity disorder, stress disorders, sleeping and eating disorders. The neurobiology of drug abuse will be analyzed based on common features of addiction, pathways affected by commonly abused drugs and heredity factors.

## **PRPS 475, Research Experience I, 3 Units**

This course helps students improve their research skills by providing an opportunity to integrate knowledge, skills, and interests in order to conduct a comprehensive research project. Successful completion of the course results in an APA-style paper or submission of a paper or poster presentation to a professional organization or in a professional setting. Concurrent enrollment in another research practicum course is permitted. 12 units of research experience (PSYC475, 476 combined) can be counted toward the bachelor degree requirements. *Meets the General Education Requirement: Integrative and Applied Learning.*

## **PRPS 480, Psychological Testing and Measurement, 3 Units**

Students gain a thorough background in objective tests and measurements. A brief survey is offered in intelligence, personality, organization, and industrial psychological measures. Terminology is developed, dangers and advantages of psychological instruments discussed, and each student is required to administer and interpret a number of instruments. Special materials fee applies. The course is offered to juniors, seniors, and graduate students only. A materials fee applies.

## **PRPS 485, Stress and Coping, 3 Units**

This course provides an overview of stress and coping theory as it has developed in the research literature in the last century. The interrelationships between stress and mental illness, medical diseases, and industrial-organizational factors are discussed. Students develop a basic understanding of stress as it relates to trauma and post-traumatic symptomology. Students gain an understanding of basic stress management and coping techniques and their clinical applications.

## **PRPS 494, Professional Studies in Child Life, 3 Units**

This course helps students gain a broad understanding of the field of child life and equips them with the knowledge of the history and trends of the child life profession, as required by the Association of Child Life Professionals. Course content includes: 1) Scope of practice in child life, 2) child life documents, 3) impact of illness/injury and health care on patients and families, 4) family-centered care, 5) therapeutic play, and 6) preparation. Additional topics include, but are not limited to, clinical assessment, child life theoretical foundations, development and hospital stressors, and introduction to exceptional and medically challenged children.

## **PRPS 495, Special Topics in Psychology, 3 Units**

This course engages students in focused study of particular topics of direct relevance or urgency in the field of psychology which are not already discussed in the curriculum. Topics vary from semester to semester and may reflect new practices, theories, or faculty research interests in the field. This course may be taken more than once as topics change.

## **PRPS 496, Writing 3: Senior Seminar in Psychology and Christian Integration, 3 Units**

Students in this course discuss and critically evaluate the core ideas in the integration of psychology and the Christian faith, exploring the 4-5 established approaches for how to integrate what is known from psychological science and what is known from biblical hermeneutics and theology. Upon completion of the course, students are able to define and communicate an awareness of the issues and various approaches for integration, as well as identify and communicate the application of the integration of psychology and the Christian faith in their own lives and practice of psychology. This writing-intensive course develops students' ability to think critically and construct complex arguments related to psychology and Christianity. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

**Prerequisite:** Junior standing and PRWR 260

## **PRPS 497, Readings, 1-4 Units**

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed, by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## **PRPS 498, Directed Research, 1-4 Units**

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

## **PRPS 499, Thesis/Project, 1-4 Units**

This is a senior-level 'capstone' type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, electronic media, or artistic creation of a material form. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

## **PSYC 110, General Psychology, 3 Units**

This general survey course explores the field of psychology. It includes human development, social psychology, learning, perception, cognition, motivation, personality, psychological testing, and nervous system functioning. *Meets the General Education Requirement: Social Science.*

## **PSYC 110H, General Psychology - Honors, 3 Units**

This general survey course explores the field of psychology. It includes human development, social psychology, learning, perception, cognition, motivation, personality, psychological testing, and nervous system functioning. *Meets the General Education Requirement: Social Science.*

**Prerequisite:** To enroll in the course, must be a student admitted to the Honors Program and be considered a member in 'active' status.

## **PSYC 250, Data Analysis in Psychology, 3 Units**

This course introduces students to statistical analyses that are common in psychological research. Students learn to identify the appropriate analysis, how to run the statistical analysis in SPSS, and how to interpret SPSS output. Students are also introduced to writing results in APA style.

**Prerequisite:** MATH 130

## **PSYC 280, Introduction to Certified Alcohol Drug Counselor Credentialing, 3 Units**

Students in this course examine the effects of alcoholism and drug dependency, specifically as they relate to cultural/lifestyle considerations, human behavior, and family dynamics. Course material also considers the substance use system of care, including its programs, policies, and procedures for the treatment and recovery of individuals suffering from substance use disorders. This is the first course in a series designed to meet the educational requirements for California Consortium of Addiction Programs and Professionals (CCAPP) credentialing.

## **PSYC 290, Human Growth and Development, 3 Units**

This study of human development across the life span emphasizes a multidisciplinary perspective, including such areas as psychology, sociology, processes as social interaction, and the tools for applying developmental psychology to life situations. *Meets the General Education Requirement: Social Science.*

## **PSYC 290H, Human Growth and Development - Honors, 3 Units**

This study of human development across the life span emphasizes a multidisciplinary perspective, including such areas as psychology, sociology, processes as social interaction, and the tools for applying developmental psychology to life situations. *Meets the General Education Requirement: Social Science.*

**Prerequisite:** To enroll in the course, must be a student admitted to the Honors Program and be considered a member in 'active' status.

## **PSYC 292, Introduction to Brain and Behavior, 3 Units**

The purpose for this course is to provide a foundation of the physiological basis of human behavior. Topics include the structure and function of different brain regions, how neurons communicate, sensory and motor function, and complex brain functions such as speech and cognition. This course serves as an introduction to the neurobiology of various psychological and neurological diseases.

## **PSYC 301, Global-Local Cultural Psychology Integration I, 1 Unit**

This course prepares students for their semester of study away, introducing them to the cultural, multicultural, social, and ecosystemic contexts of the local study-away culture, including the history, major cultural values, and cultural, sociopolitical, and interpersonal dynamics that inform and situate their study away. Students develop an understanding of the cultural bases for psychological processes of individuals they are likely to engage with during their time abroad, and also develop awareness, self-knowledge, and self-assessment of their skills for engaging in intercultural and multicultural contexts. Students are prepared to advance their cultural self-knowledge and knowledge of diverse others in the formation of cultural competence.

**Prerequisite:** Enrollment in the South Africa Semester and a psychology major.

## **PSYC 302, Global-Local Cultural Psychology Integration II, 2 Units**

This course facilitates student re-entry from a semester abroad. Students critically analyze their international study experience, synthesizing their gained awareness, knowledge of self and other, and skills in engaging with diverse others during their semester abroad. This course facilitates students translating their advanced knowledge and skills from the cross-cultural context into knowledge and skills that are effective for use in navigating their domestic multicultural context, facilitating their identity formation into ethical and responsible local citizens and emerging professionals.

**Prerequisite:** Students will have returned from study abroad South Africa the previous semester and are psychology majors

## **PSYC 305, Educational Psychology, 3 Units**

Educational psychology is a broad field of study focusing on the various factors that influence learning and human knowledge. This course provides an overview of the principles and theories used throughout other psychological fields, but in the context of educational psychology. Specifically, this course covers development, culture, motivation, learning, cognition, and learner differences.

## **PSYC 320, Social Psychology, 3 Units**

How are individuals' thoughts, feelings, and behaviors influenced by other people? In this course, students are encouraged to become careful observers of social influences on human behavior by learning the theories and methods employed by social psychologists in order to apply these perspectives in everyday social interactions.

### **PSYC 330, Sports Psychology, 3 Units**

Sports psychology is a survey course that explores the role of psychology as it is related to the enhancement of athletic performance. Students will spend time on areas related to sports and physical activity such as motivation, self-confidence, goal setting, burnout, anxiety, healthy attitudes toward sports participation, and other sports-related activity. Emphasis is on critically reviewing sports psychology literature and research in an attempt to separate effective and ineffective psychology-related approaches to sport activity.

### **PSYC 340, History of Psychology, 3 Units**

The historical growth of psychological science is surveyed here. This course focuses on major theorists and their ideas in relation to the historical context as well as current psychological issues.

### **PSYC 345, Psychology of Child and Adolescent Development, 3 Units**

This course is an advanced examination of emotional, cognitive, physical, and social development from infancy through adolescence. The process of human development as a complex interaction of biological and sociocultural factors is reviewed. Contemporary research topics focusing on genetics, fertility, attachment, communication, and cognitive and moral aspects of development are examined. *Meets the General Education Requirement: Social Science.*

### **PSYC 355, Psychology of Adult Development, 3 Units**

This course is an advanced examination of the emotional, cognitive, physical, and social development of individuals from young adulthood through the end of life. The process of adult development as an interplay of biological, psychological, cognitive, and psychosocial aspects is examined. Emphasis is on normal patterns in personal and emotional development in adulthood, as well as on contemporary research in areas of health, gender, marriage and relationships, family and parenting, ethnic/ecological systems, work, ethics, and morality.

### **PSYC 360, Abnormal Psychology, 3 Units**

The major focus of this course is mental illness and abnormal behavior, in light of modern theory and knowledge. Current trends and modern methods of diagnosis, understanding, treatment, and prevention are discussed.

### **PSYC 362, Research Methods in Psychology, 3 Units**

Students engage in a comprehensive overview of quantitative and qualitative research methods used in psychological research, and gain an understanding of the ethical considerations and other challenges involved in good research design. Students also complete a research project and learn to write utilizing the style adopted by the American Psychological Association.

**Prerequisite:** PSYC 250 and WRIT 260

### **PSYC 370, Industrial/Organizational Psychology, 3 Units**

Students survey the basic behavioral science research and thinking as they contribute to industrial and organizational psychology, including worker attitudes and theories of motivation, organizational structure and communication, theories of leadership and decision making, conflict resolution, and methods of personnel selection and appraisal.

### **PSYC 375, Psychology of Conflict Management and Mediation, 3 Units**

This class develops a psychological understanding of the dynamics of human conflict; the differences between constructive and destructive conflict; the different ways in which conflict can be managed, resolved and transformed, and develops the basic skills in the management and resolution of conflict.

### **PSYC 380, Psychology of Personality, 3 Units**

Students in this course become familiar with the various basic elements of personality and their integration, exploring concepts regarding the basic components of personality and the processes that undergird an individual's growth and behavior. Course material also covers current and traditional theories of personality.

### **PSYC 380H, Psychology of Personality - Honors, 3 Units**

This course acquaints students with the various basic elements of personality and their integration. Students explore concepts regarding the basic components of personality and the processes that undergird an individual's growth and behavior. The course also reviews current and traditional theories of personality.

**Prerequisite:** PSYC 110 and PSYC 290 or SOCW 310 + SOCW 311. Must also be a student admitted to the Honors College and be considered a member in 'active' status.

### **PSYC 383, Psychology of Suicide, 3 Units**

This course gives students an overview of suicidal behavior, including terminology, statistics, theories, and interventions, that addresses this sensitive topic from a biopsychosocial-spiritual perspective. Students also have opportunities to learn fundamental skills in suicide assessment, safety planning, and interventions to reduce suicide.

### **PSYC 385, Health Psychology, 3 Units**

This is a survey course exploring the role of psychology as it is related to human physiology and the health field. Topics include basic neurology, stress management, nutrition, addictive substances, immunological disorders, and other relevant psychophysiological areas.

## **PSYC 386, Community Psychology, 3 Units**

This course is designed to give students an introduction to the field of community psychology. This area of psychology is concerned with the scientific study of social structures and their influence on individuals, groups, and organizations. The main focus will be on the development and application of community-based psychological theory and research to understanding, designing, implementing, and evaluating social change and empowerment. The roles of research and social action at multiple levels of analysis to facilitate social change will be examined. May be repeated up to 6 units.

## **PSYC 390, Cognition, 3 Units**

An overview of cognitive psychology is provided. Theories and research concerning sensation, perception, memory, and other higher-order mental processes include imagery, language, creativity, concept formation, and decision-making are discussed.

## **PSYC 400, Multicultural Psychology, 3 Units**

This course introduces students to cultural and multicultural psychology sub disciplines in psychology. Students develop knowledge of the history, major tenets, theories, research findings and behavioral practices in multicultural psychology. Students also gain understanding of the cultural bases for psychological processes. Students develop awareness, knowledge and skills for engaging in intercultural and multicultural contexts. Students are also asked to advance their cultural self-knowledge as well as knowledge of diverse others in order to develop multicultural competence in working with individuals from diverse backgrounds. *Meets the General Education Requirement: Intercultural Competence.*

## **PSYC 400H, Cultural Psychology- Honors, 3 Units**

This course presents major psychological theories and practices from a multicultural perspective, emphasizing shared components across cultures. A historical overview of different minority groups in the United States and how these people groups have adjusted and adapted to new cultures is presented. Students explore major psychological theories and practices from a multicultural perspective, with an emphasis on the cultural sources of diversity in thinking, emotion, motivation, self, development, and psychopathology. This course is designed to help individuals begin to understand the need for issues of being culturally competent in working with individuals from diverse backgrounds. *Meets the General Education Requirement: Intercultural Competence.*

**Prerequisite:** PSYC 110. Must be an Honors Program student or non-honors student with a GPA > 3.4

## **PSYC 405, Psychology of Learning, 3 Units**

This course examines several major theories and research in the psychology of learning, as well as how learning theories have developed historically and how learning principles apply to psychological problems.

## **PSYC 410, Psychology of Exceptional Children, 3 Units**

Students in this course examine and analyze the problems faced by the exceptional child. Course material covers physical and emotional adjustment, speech and language disorders, as well as other physical and mental disorders.

## **PSYC 415, Group Process, 3 Units**

Students survey the basic behavioral science research and thinking as applied to human interaction in groups. This includes such topics as group formation, phases, structure, types and uses of groups, group communication, group conflict resolution, and methods of group leadership. The course includes the observation and evaluation of group interaction.

## **PSYC 420, Political Psychology, 3 Units**

This course addresses political phenomena from a psychological perspective, and students are encouraged to develop civic knowledge, apply psychological theory within political contexts, and identify determinants of political behavior. Course content includes political attitudes and identity, leadership and group influence, voting behavior, nationalism, social movements, terrorism, and international conflict/resolution. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## **PSYC 430, Intervention Strategies with Children, 3 Units**

This course provides an introduction to a broad range of assessment and intervention strategies designed to meet the developmental, psychomotor, language, behavioral, and education needs of children. Issues of normative and non-normative child and family functioning in child assessment and intervention planning are considered. Observational techniques, standardized tests, informal assessment measures, developmental assessments, and alternatives to current testing practices are discussed and reviewed from the multiple disciplines impacting child assessment and intervention. The broad range of modalities utilized in intervention with children is given strong emphasis with observation and student practice required at an intervention site.

## **PSYC 432, Psychosocial Interventions in Pediatric Health Care, 3 Units**

This is a core course in the child life specialist curriculum, covering a wide range of recreational and psychosocial interventions for children who are hospitalized, chronically ill, or have disabilities. Students learn various intervention techniques using developmental play, music, art, dance, and other forms of recreation, and gain understanding of the role of the child life specialist as a member of an interdisciplinary medical team.

## **PSYC 440, Psychology of Religion, 3 Units**

This course investigates the common ground between psychology and religion. Values, mature religion, the nature of humanity, and religious experience are all areas of study for this purpose.

## **PSYC 445, Psychology of the Family, 3 Units**

This course provides an overview of the field of family psychology. The three primary areas of study are: family systems theory, the family lifecycle, and several theoretical frameworks for the study of families. Students are given the opportunity to apply these concepts to their own family of origin.

## **PSYC 450, Counseling Theory, 3 Units**

This course is an introduction to counseling and psychotherapy, with students exploring the underlying assumptions and practices of traditional and contemporary counseling theories. Students also explore common ethical concerns that emerge in counseling relationships.

## **PSYC 451, Interventions in Counseling, 3 Units**

This course introduces counseling methods and practices; legal and ethical codes of conduct for counseling professionals; community prevention, education, and early intervention methods; interviewing; screening; and interventions in counseling. Students practice basic counseling assessment and intervention methods, including crisis management and safety practices. This course meets criteria for Domain IV of the CCAPP certification requirements.

## **PSYC 453, Bilingualism, Biculturalism, and Cognition, 3 Units**

This course provides students with an overview of issues in bilingualism and biculturalism from a cognitive perspective. Theories and research concerning knowledge representation, bilingual cognition (language acquisition, production, comprehension, and variations in executive functions), and bicultural cognition (cognitive consequences of culture-specific knowledge) are discussed. Students enrolled in this course may be required to share information regarding their personal life, family, or relationships.

## **PSYC 454, Counseling in the Christian Community, 3 Units**

Students in this course explore the practice of counseling in Christian and ministry settings, engaging in an interdisciplinary examination of the psychological, cultural, theological, and biblical understandings of mental health care and counseling. Course material also incorporates a survey of counseling theory and practices from an integrative perspective, with attention given to ministry and Christian culture and tradition-based issues.

## **PSYC 455, Field Experience, 3 Units**

This course is for students who have completed most of the psychology or sociology major requirements. Each student participates in one or more endeavors that offer an opportunity to apply former training in a professional setting while acquiring new knowledge, and students may be required to share information regarding their personal life, family, or relationships. This course can be repeated to a total of 6 units counted toward the major, 9 units toward the degree. *Meets the General Education Requirement: Integrative and Applied Learning.*

## **PSYC 462, Research Methods II, 3 Units**

The course is designed to further develop students' understanding of research design and the research process in the behavioral sciences. Students investigate at an advanced level the validity threats inherent in the research process and explore a variety of advanced research designs. Students have the opportunity to utilize various designs in their own research endeavors and learn to use SPSS for the analysis of their own research endeavors and data.

## **PSYC 463, Drugs, Behavior, and Society, 3 Units**

This course provides an overview of drug use historically and in contemporary society from community and biopsychosocial perspectives. It provides an in-depth study of various psychoactive drugs of abuse, considering the physiological, psychosocial, health, legal, and political aspects of drugs. This course explores drug-taking risk behaviors and issues related to dependence among high-risk populations. Strategies for drug abuse prevention/education and intervention approaches are also examined.

## **PSYC 464, Substance Use Assessment and Interventions, 3 Units**

Students in this course gain an in-depth understanding of empirically driven and theoretically grounded assessments and interventions for substance use issues, focusing on how to engage in effective screening and assessment protocols for substance use problem identification and service planning. Students participate in practical application of evidence-based interventions, including the use of case studies and a variety of practice exercises. Course material integrates foundational assessment and intervention models for addressing co-occurring mental health needs, family system issues, and patient-centeredness, including spirituality.

## **PSYC 466, Case Management in Mental Health and Substance Use Disorders, 3 Units**

This course offers an overview of the theory, structure, and practice of case management. Students gain an understanding of the professional practice of case management, including scope and responsibilities, multidisciplinary and ecological systems engagement, cultural and diversity factors, and ethical and legal issues. Students develop skills in effective communication, clinical documentation, case management facilitation, managing interpersonal and individual dynamics, case management interviewing, intervention planning, and implementation of services.

## **PSYC 470, Cognitive Neuroscience, 3 Units**

Cognitive neuroscience is the study of the relationship between cognitive processes and the brain. Students first learn about the major research methods in this field, such as lesion studies, brain imaging, and animal models, then learn how these methods have been used to inform our understanding of the neural correlates of memory, decision making, perception, and social cognition.

## **PSYC 472, Neurological and Behavioral Disorders, 3 Units**

This course examines the neurobiology of various psychological and neurological diseases. Neurological disorders covered include developmental, tumors, seizures, strokes, traumatic brain injury, neurodegenerative, and infectious disease. Behavioral disorders include schizophrenia, major affective disorders, anxiety disorders, autism, attention-deficit hyperactivity disorder, stress disorders, sleeping and eating disorders. The neurobiology of drug abuse will be analyzed based on common features of addiction, pathways affected by commonly abused drugs and heredity factors.

### **PSYC 475, Research Experience, 3 Units**

This course helps students improve their research skills by providing an opportunity to integrate knowledge, skills, and interests while conducting a comprehensive research project. Successful completion of the course results in an APA-style paper or submission of a paper or poster presentation to a professional organization or in a professional setting. Concurrent enrollment in another research practicum course is permitted. Twelve (12) units of research experience (PSYC 475) can be counted toward the bachelor's degree requirements. *Meets the General Education Requirement: Integrative and Applied Learning.*

### **PSYC 480, Psychological Testing and Measurement, 3 Units**

Students in this course gain a thorough background in objective tests and measurements. A brief survey is offered in intelligence, personality, organization, and industrial psychological measures. Terminology is explored, the dangers and advantages of psychological instruments are discussed, and each student is required to administer and interpret a number of instruments.

### **PSYC 485, Stress and Coping, 3 Units**

This course provides an overview of stress and coping theory as it has developed in the research literature in the last century. The interrelationships between stress and mental illness, medical diseases, and industrial-organizational factors are discussed. Students develop a basic understanding of stress as it relates to trauma and post-traumatic symptomology. Students gain an understanding of basic stress management and coping techniques and their clinical applications.

### **PSYC 494, Professional Studies in Child Life, 3 Units**

This course helps students gain a broad understanding of the field of child life and equips them with the knowledge of the history and trends of the child life profession, as required by the Association of Child Life Professionals. Course content includes: 1) Scope of practice in child life, 2) child life documents, 3) impact of illness/injury and health care on patients and families, 4) family-centered care, 5) therapeutic play, and 6) preparation. Additional topics include, but are not limited to, clinical assessment, child life theoretical foundations, development and hospital stressors, and introduction to exceptional and medically challenged children.

### **PSYC 495, Special Topics in Psychology, 3 Units**

This course engages students in focused study of particular topics of direct relevance or urgency in the field of psychology which are not already discussed in the curriculum. Topics vary from semester to semester and may reflect new practices, theories, or faculty research interests in the field. This course may be taken more than once as topics change.

### **PSYC 496, Writing 3: Senior Seminar in Psychology and Christian Integration, 3 Units**

Students in this course discuss and critically evaluate the core ideas in the integration of psychology and the Christian faith, exploring the 4-5 established approaches for how to integrate what is known from psychological science and what is known from biblical hermeneutics and theology. Upon completion of the course, students are able to define and communicate an awareness of the issues and various approaches for integration, as well as identify and communicate the application of the integration of psychology and the Christian faith in their own lives and practice of psychology. This writing-intensive course develops students' ability to think critically and construct complex arguments related to psychology and Christianity. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

**Prerequisite:** Senior standing and WRIT 260.

### **PSYC 496H, Senior Seminar: Psychology and Christian Integration - Honors, 3 Units**

This class discusses and critically evaluates the core ideas in the integration of psychology and the Christian faith by teaching the four to five established approaches for how to integrate what is known from psychological science and what is known from Biblical hermeneutics and theology. Upon completion of the course, students are able to define and communicate an awareness of the issues and various approaches for integration. Students are also able to identify and communicate the application of the integration of psychology and the Christian faith in their own lives and practice of psychology.

**Prerequisite:** Senior standing, PSYC 110, completion of the UDWI req (PSYC 362), and completion of the units required for God's Word and the Christian Response. Must be a student admitted to the Honors College and be considered a member in 'active' status

### **PSYC 497, Readings, 1-4 Units**

This course offers a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent-study fee is assessed for each enrollment in this course.

### **PSYC 498, Directed Research, 1-4 Units**

This course provides instruction in research design and technique and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent-study fee is assessed for each enrollment in this class.

### **PSYC 498H, Directed Research- Honors, 1-4 Units**

This course provides instruction in research design and technique, and gives students experience in the research process. The one-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than one unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

**Prerequisite:** Honors College, PSYC 110, and Junior or Senior standing

## **PSYC 499, Thesis/Project, 1-4 Units**

This is a senior-level 'capstone' type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, electronic media, or artistic creation of a material form. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

## **PSYC 501, Theory, Research and Practice in Psychology, 3 Units**

This course provides an intensive review of major historical and contemporary theories, research and practice approaches in the field of psychology. Emphasis is on examining the key questions, proposed models, methods, findings, ideological controversies, and issues within the field of psychology. The course covers the various grand and emergent theories to foster dialogue that evaluates the science across psychological sub-disciplines, spanning: general principles of human development, neurological bases of behavior, cognitive functioning, systemic socio-cultural factors, and individual health differences. Students engage in theoretical analyses of current trends in basic and applied theory, research, and practices of psychology across various sub-disciplines, as well as how individuals function with consideration of a Christian worldview.

**Prerequisite:** Must be first year student in the Master of Science in Research Psychology and Data Analysis program or instructor approval.

## **PSYC 511, Experimental Research Methods, 3 Units**

This course will build on your knowledge of the information learned in your undergraduate research methods course with an emphasis on experimental methodology. This course will cover a variety of topics including the basics of conducting experimental designs, ethical guidelines for conducting experimental psychological research, validity issues associated with different experimental research designs, and various methods of both collecting and analyzing data, including psychometric issues associated with different psychological measures. This will be accomplished by combining traditional lectures with application of principles through application and demonstration.

## **PSYC 512, Non-Experimental Research Methods, 3 Units**

This course provides an in-depth study of how to plan, conduct, and analyze studies that use non-experimental research designs, including correlational, survey, and qualitative methods. This course encourages students to identify core areas of descriptive psychological research and begin building a strong research concept about those areas-especially in regard to the application of non-experimental observational research designs.

## **PSYC 517, Program Evaluation, 3 Units**

This course provides students with foundational knowledge and skills in the basic methods of evaluation research. Course topics include common methods of evaluation, including systematic needs assessments, formative research, program performance, and outcome effectiveness, using mixed-methods research approaches. Students also engage in discussions about ethical considerations and other challenges involved in good evaluation design and methods. Through class lectures, reading, and interactive skill-building applications, students apply course material in group and individual assignments.

**Prerequisite:** PSYC 511, PSYC 512

## **PSYC 518, Analysis of Variance, 3 Units**

Analysis of variance (ANOVA) is a common statistical technique used by research psychologists to analyze differences in their data. This course focuses on introductory and advanced ANOVA methods and ANOVA's relation to psychological research; advanced ANOVA methods covered in this course include repeated measure, mixed design, ANCOVA, and MANOVA. Students learn to implement these methods, analyze findings, and report the findings for APA-style journal publications. Use of multiple popular statistical software programs is emphasized.

**Prerequisite:** MATH 110 or equivalent;

**Corequisite:** PSYC 518L

## **PSYC 518L, Analysis of Variance Lab, 1 Unit**

In this course, the lab component to PSYC 518, students apply the statistical analysis knowledge from PSYC 518 to computational procedures using popular social science statistical software. Additionally, this course can be used to fulfill requirements for the JMP/SAS certification.

**Corequisite:** PSYC 518

## **PSYC 519, Regression, 3 Units**

This advanced statistics course covers introductory and advanced regression analyses utilized throughout psychological research. Some of the topics covered are correlation, multiple regression, hierarchical regression, mediation/moderation, and logistic regression. Students learn to identify the appropriate regression analysis for different types of research questions, practice interpreting the results of the analyses in popular statistical software, and learn how to clearly report regression findings for APA-style journal publications. Use of multiple popular statistical software programs is emphasized.

**Prerequisite:** B- or better in PSYC 518;

**Corequisite:** PSYC 519L

## **PSYC 519L, Regression Lab, 1 Unit**

This is the lab component to PSYC 519. In this lab course, students apply the statistical analysis knowledge from PSYC 519 to computational procedures using popular social science statistical software. Additionally, this course can be used to fulfill requirements for the JMP/SAS certification.

**Corequisite:** PSYC 519

## **PSYC 520, Psychometrics: Assessment and Measurement, 3 Units**

Students in this course learn to apply classical and modern psychometric theories to develop and validate psychological tests and scales for data collection. Some of the topics included are instrument construction, reliability, validity, factor analysis, and item response theory. Students gain hands-on experience in developing a psychological instrument and analyzing the psychometric properties of previously created scales. Use of multiple popular statistical software programs is emphasized.

**Prerequisite:** B- or better in PSYC 518;

**Corequisite:** PSYC 520L

## **PSYC 520L, Psychometrics: Assessment and Measurement Lab, 1 Unit**

This is the lab component to PSYC 520. In this lab course, students apply the statistical analysis knowledge from PSYC 520 to computational procedures using popular social science statistical software. Additionally, this course can be used to fulfill requirements for the JMP/SAS certification.

**Corequisite:** PSYC 520

## **PSYC 521, Faith Integration and Research Seminar, 3 Units**

This course explores the nature of integrating psychology and religion/faith. It considers the functions and skills, as well as the theoretical modes of thought necessary for understanding the relationship between psychological research and religion. Focus is placed on the skills of research, constructive dialogue and writing. The course is intended to provide students with resources for developing their own approach to integration while also helping students clarify their own faith, morals and values that intersect with psychological research.

## **PSYC 522, Seminar in Ethical, Professional, and Diversity Issues, 3 Units**

This course introduces students to research and professional issues in psychology, with an emphasis on ethics and diversity. Students will learn to recognize the importance of ethical behavior in all aspects of science as well as how sociocultural factors and personal biases may shape the practice of psychology. Emphasis is given to the integration of the student's spiritual and sociocultural philosophy with professional ethics. Historical and contemporary issues in basic and applied psychological research and interventions are reviewed.

## **PSYC 523, Interventions for Trauma and Crisis, 3 Units**

This course helps students understand the neurobiological, cognitive, and emotional dynamics that underlie trauma-related mental health disorders. Students identify and apply effective interventions for the treatment of children and adolescents impacted by trauma, grief, and/or crisis, as well as the common co-occurring behavioral concerns. This course prepares students to effectively select appropriate evidence-based counseling interventions with diverse children and youth. The contextual dynamics of crises and trauma, family, social environments, and multicultural issues are addressed.

**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

## **PSYC 524, Counseling Adolescents, 3 Units**

This course helps students understand the broad range of adolescent problems and disorders. A variety of psychotherapeutic modalities is presented, providing students an opportunity to develop basic adolescent-therapy skills and effective treatment strategies. The impact of development, family dynamics, social environments, and multicultural issues is addressed, and legal and ethical issues unique to adolescent populations are considered.

**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

## **PSYC 525, Principles and Practice of Assessment and Evaluation, 3 Units**

Students in this course gain a broad understanding of the clinical use of psychological tests, assessment, and evaluation in the treatment of emotional, behavioral, and mental health concerns within the context of human diversity and social contexts and systems. Emphasis is on understanding the reliability, validity, and utility of psychological testing, developing skills in administering and interpreting appropriate assessment measures, and utilizing findings in treatment planning and report writing. Particular attention is given to the assessment of children and youth and to diversity issues, and the course meets BBS requirements for spousal or partner abuse assessment, detection, and intervention strategies; same-gender-abuse dynamics; and suicide risk assessment and intervention.

**Prerequisite:** PSYC 527

## **PSYC 526, Multicultural Counseling, 3 Units**

Students in this course learn multicultural counseling theories and techniques as they explore the counselor's role in developing cultural self-awareness, identity development, and promoting cultural social justice. Individual and community strategies for working with and advocating for diverse populations, and eliminating biases and intentional and unintentional oppression and discrimination, are discussed. Students develop an understanding of the effects of socioeconomic status on treatment and available resources, as well as cultural competency and sensitivity, and are introduced to the racial, cultural, linguistic, and ethnic backgrounds of people living in California.

## **PSYC 527, Diagnosis and Treatment Planning, 3 Units**

This course helps students understand the role and categories of psychopathology utilized in the assessment and treatment of individuals broadly and with an emphasis on children and adolescents. Students develop their diagnostic and analytical skills through a mastery of the concepts in the Diagnostic and Statistical Manual of Mental Disorders. Special consideration is given to co-occurring and comorbid disorders that are common in substance users and among children and youth. This course also introduces the basics of treatment planning, including diagnostic conceptualization, ecosystemic assessment, and the formulation of treatment goals and intervention strategies. Diversity issues in diagnosis and treatment planning are also considered.

## **PSYC 528, Treatment of Substance Use Disorders in Youth and Families, 3 Units**

This course prepares students to engage in counseling practices related to substance abuse recovery, addiction, and co-occurring disorders. Students learn the major approaches to identification, evaluation, treatment, and prevention of substance abuse and addiction, the legal and medical aspects of substance abuse, what populations are at risk, and the role of case management, including the involvement of support people and support systems and the utilization of community resources. Issues of substance use are considered within diverse communities and family dynamics.

**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

## **PSYC 529, Group Counseling, 3 Units**

This course helps students understand group counseling theories and techniques, including principles of group dynamics, group process components, group developmental stage theories, therapeutic factors of group work, group leadership styles and approaches, pertinent research and literature, group counseling methods, and evaluation of effectiveness. Students consider group counseling children and youth from a variety of clinical, cultural, community/milieu, and developmental contexts. Identifying, planning, and implementing best practices in group counseling is addressed.

**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

## **PSYC 530, Evidence-Based Practices in the Treatment of Children and Youth, 3 Units**

This course helps students understand the importance of utilizing evidence-based interventions and techniques that are consistent with current professional research and practice with children and adolescents. Evidence-based practice in psychology is the integration of the best available research with clinical expertise in the context of patient characteristics, culture, and preferences. This course prepares students to effectively select appropriate evidence-based counseling interventions with diverse children and youth, as a variety of psychotherapeutic intervention strategies are presented. The contextual dynamics of development, family, social environments, and multicultural issues are addressed.

**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

## **PSYC 531, Ethics and Professional Issues, 3 Units**

This course helps students understand professional, ethical, and legal issues in counseling and psychotherapy from ACA and APA professional lenses. Students are introduced to California laws and regulations governing the practice of counseling and licensing as a professional clinical counselor. Students learn to navigate common ethical and legal situations that arise in counseling generally, as well as those that emerge when counseling children and youth specifically. Clinical case management, professionalism, and professional self-care are also considered.

**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

## **PSYC 532, Theories of Counseling and Therapy, 3 Units**

This course helps students understand the broad range of counseling and psychotherapeutic theories and techniques that are consistent with current professional research and practice. Students learn to effectively engage counseling processes in a multicultural society, select appropriate counseling interventions, develop a personal model of counseling, effectively respond to crises, and promote human wellness and the prevention of emotional and behavioral disorders. A variety of psychotherapeutic modalities is presented. The contextual dynamics of development, family, social environments, and multicultural issues are addressed.

## **PSYC 533, Externalizing and Dysregulation Disorders, 3 Units**

This course helps students understand the neurodevelopmental basis of behavioral dysregulation, deficits of executive functioning, common comorbid disorders with neurodevelopmental issues, mental health disorders characterized by externalizing behavior, and disorders with primary behavioral symptoms. Students learn to identify and apply effective and appropriate evidence-based counseling interventions for the treatment of diverse children and adolescents with behavioral disorders. Various psychotherapeutic intervention strategies are presented, and the contextual dynamics of development, family, social environments, and multicultural issues are addressed.

**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

## **PSYC 534, Family Systems Theory and Counseling, 3 Units**

This course is an overview of current theories and methods of family therapy interventions, with an emphasis on how family therapy integrates diversity issues (e.g., ethnicity, socioeconomic status, spirituality, blended families) during the clinical hour. Coursework explores the major theories, their founding clinicians, and some of their contemporaries, and emphasizes clinical application of material through working with families with children and youth.

**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

## **PSYC 535, Therapies for Attachment and Internalizing Disorders, 3 Units**

This course helps students understand the developmental relational, social, and emotional dynamics that underlie internalizing mental health disorders. Students identify and apply effective interventions for the treatment of children and adolescents with anxiety, depressive, and attachment disorders, as well as the common co-occurring behavioral concerns. This course prepares students to effectively select appropriate evidence-based counseling interventions with diverse children and youth. Various psychotherapeutic intervention strategies are presented. The contextual dynamics of development, family, social environments, and multicultural issues are addressed.

**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

### **PSYC 536, Play-Based Therapies, 3 Units**

Students in this course learn the principles and practices of play therapy, and are prepared to effectively engage in developmentally and clinically appropriate play-based counseling with children, select appropriate interventions, develop a personal model of play therapy, and effectively respond to a variety of clinical concerns utilizing play-based assessment and treatments.

**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

### **PSYC 542, Practicum I, 3 Units**

This course gives counseling psychology graduate students an initial clinical counseling experience, requiring them to verify 140 hours of face-to-face clinical experience counseling individuals, families, or groups under the supervision of on-campus faculty and BBS-qualified site supervisors. This course provides oversight and consultation for students' clinical placement, and further development of clinical skills, focusing on management of crisis issues, legal/ethical practice, diagnosis, prognosis, multicultural treatment, treatment planning, application of theory to actual clients, integration, and case management services. Clinical work is discussed from public mental health and private practice perspectives. Students must be serving at an APU-approved training site to be enrolled in this course.

**Prerequisite:** Program director permission

### **PSYC 543, Practicum II, 3 Units**

As the final evaluative component of the M.S. in Counseling Psychology program, this course includes a capstone clinical project in which students formally present a clinical case including the following elements: case assessment and conceptualization, treatment plan and process, evidence-based support for treatment strategy, and outcomes and prognosis based on identified factors related to risk and resilience as specified by the literature base. This course also requires students to verify 140 hours of face-to-face clinical experience counseling individuals, families, or groups under the supervision of on-campus faculty and Board of Behavioral Sciences-qualified site supervisors, who also offer students consultation and the further development of clinical skills. Course emphases include management of crisis issues, legal/ethical practice, diagnosis, prognosis, multicultural treatment, treatment planning, application of theory to actual clients, integration, and case management services. Clinical work is discussed from public mental health and private practice perspectives.

**Prerequisite:** PSYC 542

### **PSYC 551, Research Methods in Counseling, 3 Units**

Students in this course survey the major social science research and statistical methods used in conducting research, needs assessments, and program evaluation. Course material equips students to read, understand, and evaluate psychological research, and prepares them to use research to inform evidence-based practice and understand the importance of research in advancing the profession of counseling.

### **PSYC 555, Career Development, 3 Units**

This course helps students understand the role of the professional counselor in facilitating career planning and development of youth and emerging adults. Students explore occupational and career education trends and career counseling theories and practices that promote equity and diversity. This course prepares students to facilitate individual education and career planning and implementation of plans. Students explore the relationship between general well-being, mental health, and education and career trajectories. Career counseling needs of special populations (e.g., mid- and late-life career changes, persons with disabilities) and at-risk populations are addressed.

**Prerequisite:** PSYC 527, PSYC 532, and PSYC 558

### **PSYC 558, Advanced Developmental Psychology, 3 Units**

This course helps students understand human growth and development across the lifespan, including normal and abnormal behavior, developmental crises, disability, psychopathology, and situational and environmental factors that affect normal and abnormal behavior. Students consider the impact of socioeconomic status and other contextual issues affecting social position and development, and explore the assessment and treatment of clinical concerns related to human sexuality and domestic violence across the lifespan and among diverse populations. Students also complete their Board of Behavioral Sciences-required study of aging and long-term care in this course.

### **PSYC 578, Research Practicum, 1-3 Units**

This course gives students the opportunity to apply their research and statistical skills in a professional research setting at a practicum site. These skills include, but are not limited to, data cleaning, data analysis, research preparation, and report writing.

**Prerequisite:** PSYC 518 and PSYC 518L

### **PSYC 585, Psychopharmacology and Psychobiology, 3 Units**

This course introduces students to the biological and neurological bases of human behavior, and to psychotropic medications as an adjunct to psychotherapy. Current information on the use of medications in the treatment of psychological disorders is provided, and consideration is given to the special needs of certain populations (e.g., the elderly and substance abuse patients) when prescribing psychotropic medications. Students develop skills in case management by gaining an understanding of psychotropic medication indications, dosage scheduling, effects, and side effects as part of the therapeutic practice.

### **PSYC 588, Research Internship, 3 Units**

Students in this course obtain an internship in which they apply knowledge acquired during their master's program, helping them develop their skills in the field of research and/or data analytics. All internship sites must be preapproved and satisfy the learning outcomes of this course.

**Prerequisite:** 6 units of PSYC 578

## **PSYC 595, Special Topics, 3 Units**

This course engages students in focused study of particular topics of direct relevance or urgency in the field of psychology which are not already discussed in the curriculum. Topics vary from semester to semester and may reflect new practices, theories, or faculty research interests in the field. This course may be taken more than once as topics change.

## **PSYC 597, Introduction to Grant and Professional Writing, 3 Units**

This seminar course helps students develop and implement the theoretical foundation and methodological procedures needed to complete a Master of Science thesis in the Department of Psychology by the end of the academic year. This course guides students through the planning and execution of a master's thesis, including topic selection/refinement, thesis planning, training in the responsible conduct in research and human subjects regulatory protocols, grant funding for student research, thesis-driven data collection, data analysis, and writeup/dissemination in an organized, coherent form. The course also helps students develop their theses into scholarly presentations and manuscripts suitable for publication. A thesis is completed when the student has successfully defended it to a two-person committee comprising the thesis faculty advisor and one full-time faculty second reader.

## **PSYC 598, Thesis Seminar, 1-3 Units**

The main objective of this seminar course is to help students develop and implement the theoretical foundation and methodological procedures needed to complete a master's thesis in the Department of Psychology by the end of the academic year.

## **PSYC 599, Independent Study: Psychology Research, 1-6 Units**

This course provides instruction in research and gives students experience in research processes related to their area of study. An independent study fee is assessed for each enrollment in this class.

# B.A. in Psychology

48 units

The B.A. in Psychology (<https://www.apu.edu/bas/programs/psychology-majors/>) program helps students learn about human behavior through the development of critical thinking skills, and gives them experience in methods of research and conducting scientific inquiries. Students who complete the program are well equipped to pursue graduate education and/or careers in clinical/counseling areas of psychology and child life, and in a variety of applied psychology and allied areas (e.g., organizational psychology, educational psychology, and social work).

## Requirements

The Bachelor of Arts in Psychology is ideal for students interested in clinical/counseling or other applied areas of psychology. The core requirements (Domain 1) give students grounding in the discipline and an understanding of the basics of human behavior. The career-focus electives (Domain 2) provide students with clear applications of psychology, clustered by common themes and areas of employment. And the applied-learning electives (Domain 3) provide students with internship and/or research experience.

| Code   | Title  | Units     |
|--|--|-----------|
| <b>Prerequisite Courses</b>  |  |           |

| PSYC 470                          | Cognitive Neuroscience   |
| PSYC 472                          | Neurological and Behavioral Disorders                                      |
| Restoring Wholeness Cluster       |  |
| PSYC 330                          | Sports Psychology  |
| PSYC 385                          | Health Psychology  |
| PSYC 440                          | Psychology of Religion   |
| PSYC 463                          | Drugs, Behavior, and Society <sup>11</sup>                                 |
| PSYC 485                          | Stress and Coping  |

PSYC 455

Field Experience <sup>10, 11, 12, 13</sup>

Total Units

48

- 1 **Meets the General Education Quantitative Literacy requirement.**
- 2 **Meets the General Education Natural Sciences requirement.**
- 3 An AP Psychology score of 3, 4, or 5 will be accepted for PSYC 110.
- 4 **Meets the General Education Social Sciences requirement.**
- 5 **Meets the General Education Writing 2 requirement.**
- 6 **Meets the General Education Writing 3 requirement.**
- 7 Meets the General Education Intercultural Competence requirement.
- 8 Meets the General Education Civic Knowledge and Engagement requirement.
- 9 Requires senior standing and departmental permission.
- 10 Meets the General Education Integrative and Applied Learning requirement.
- 11 Can be double-counted toward the alcohol and drug counseling minor.
- 12 Students may petition to take PSYC 475 instead of PSYC 455.
- 13 PADM 399 counts for 3 units of PSYC 455 and 3 units of nonmajor elective credit, and meets the General Education Civic Knowledge and Engagement requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. DISCIPLINARY KNOWLEDGE- Students demonstrate a working knowledge of psychology's content domains, key theories, concepts, principles, themes, and applications of psychology in society.
2. CRITICAL THINKING, SCIENTIFIC INQUIRY AND EFFECTIVE COMMUNICATION- Students demonstrate effective expression of critical thought and scientific inquiry in their engagement with (a) psychology literature, (b) conduct of psychological research, and (c) written, (d) oral, and interpersonal communication.
3. VALUES AND ETHICS- Students (a) demonstrate knowledge of the APA ethical (a.1) and multicultural ethical (a.2) standards for the practice of psychology and are able to utilize those standards in decision making and actions in scientific inquiry (a.3), sociocultural (a.4), and interpersonal contexts (a.5). Students (b) articulate and behaviorally express values that build and enhance interpersonal relationships and community engagement at local, multicultural, and cross cultural levels.
4. APPLICATION TO VOCATION- Students demonstrate the ability to utilize and apply psychological knowledge and professional skills to: (a) develop vocational post-baccalaureate goals, (b) work collaboratively with diverse others, (c) serve others needs, (d) self-regulate and manage projects successfully, and (e) solve increasingly complex problems.
5. FAITH INTEGRATION- Students demonstrate skill in the integration of Christian faith and theology with the science of psychology as it relates to the nature and content of: humanity (F1), knowledge (F2), values and ethics (F3), and vocational and spiritual formation (F4).

# B.A. in Psychology (Bachelor's Completion Program)

48 units

Azusa Pacific's bachelor's completion program in psychology (<https://www.apu.edu/bas/programs/psychology-bachelors-completion/>) is designed for transfer students who have at least 30 units and are interested in completing a Bachelor of Arts in Psychology at the High Desert, Inland Empire, Monrovia, Murrieta, Orange County, or San Diego regional location, or online. Students gain hands-on field experience as they learn about human behavior and how to analyze and solve problems in various settings, preparing them to make a difference in the lives of others.

Azusa Pacific's bachelor's completion programs allow students who began a program of study at another higher education institution to finish their degree at APU. In order to graduate, students must complete the required program units and General Education (p. 1147) units, for a total of 120 units.

## Requirements

The Bachelor of Arts in Psychology degree completion program is ideal for students interested in clinical/counseling or other applied areas of psychology. The core requirements (Domain 1) give students grounding in the discipline and an understanding of the basics of human behavior. The career-focus electives (Domain 2) provide students with clear applications of psychology, clustered by common themes and areas of employment. And the applied integrative learning electives (Domain 3) offer internships and/or research experience.

Total Units

48

<sup>1</sup> Meets the General Education Quantitative Literacy requirement.

<sup>2</sup> Meets the General Education Natural Sciences requirement.

- 3 Astronomy with lab, or geology with lab, may count for biology with lab requirement.
- 4 An AP Psychology score of 3, 4, or 5 will be accepted for PRPS 110.
- 5 Meets the General Education Social Sciences requirement.
- 6 Meets the General Education Writing 2 requirement.
- 7 Meets the General Education Writing 3 requirement.
- 8 Meets the General Education Intercultural Competence requirement.
- 9 Meets the General Education Civic Knowledge and Engagement requirement.
- 10 Requires senior standing and departmental permission.
- 11 Distance-learning course.
- 12 Meets the General Education Integrative and Applied Learning requirement.
- 13 Can be double-counted toward the alcohol and drug counseling minor.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. DISCIPLINARY KNOWLEDGE- Demonstrate a working knowledge of psychology's content domains, key theories, concepts, principles, themes, and applications of psychology in society.
2. CRITICAL THINKING, SCIENTIFIC INQUIRY AND EFFECTIVE COMMUNICATION- Demonstrate effective expression of critical thought and scientific inquiry in their engagement with (a) psychology literature, (b) conduct of psychological research, and (c) written, (d) oral, and interpersonal communication.
3. VALUES AND ETHICS- (a) demonstrate knowledge of the APA ethical (a.1) and multicultural ethical (a.2) standards for the practice of psychology and are able to utilize those standards in decision making and actions in scientific inquiry (a.3), sociocultural (a.4), and interpersonal contexts (a.5). Students (b) articulate and behaviorally express values that build and enhance interpersonal relationships and community engagement at local, multicultural, and cross cultural levels.
4. APPLICATION TO VOCATION- Demonstrate the ability to utilize and apply psychological knowledge and professional skills to: (a) develop vocational post-baccalaureate goals, (b) work collaboratively with diverse others, (c) serve others needs, (d) self-regulate and manage projects successfully, and (e) solve increasingly complex problems.
5. FAITH INTEGRATION- Demonstrate skill in the integration of Christian faith and theology with the science of psychology as it relates to the nature and content of: humanity (F1), knowledge (F2), values and ethics (F3), and vocational and spiritual formation (F4).

# B.S. in Psychology

48 units

The B.S. in Psychology (<https://www.apu.edu/bas/programs/psychology-majors/>) program helps students understand psychological science and the various statistical and research methodologies used to study human thought and behavior, equipping them with strong foundational knowledge in areas of applied psychological science, as well as a strong skill set in research. Students who complete the program are well equipped to pursue graduate education and/or careers in psychology and allied health fields (e.g., physician's assistant, physical therapy, occupational therapy, speech therapy, nutrition), as well as a variety of research-related careers.

## Requirements

The Bachelor of Science in Psychology is ideal for students interested in psychological research and related careers. The core requirements (Domain 1) give students grounding in the discipline and an understanding of the basics of human behavior. The career-focus electives (Domain 2) provide students with applications of psychology, clustered by common themes and areas of employment. And the applied-learning electives (Domain 3) provide students with internship and/or research experience.

| Code   | Title   | Units     |
|--|---|-----------|
| <b>Prerequisites</b>   |   |           |
| MATH 130   | Introduction to Statistics <sup>1</sup>   |           |
| Choose one of the following:   |   |           |
| BIOL 101   | Biology and Society ((recommended)) <sup>2</sup>  |           |
| BIOL 151   | General Biology I <sup>2</sup>  |           |

- 1 Meets the General Education Quantitative Literacy requirement.
- 2 Meets the General Education Natural Sciences requirement.
- 3 An AP Psychology score of 3, 4, or 5 will be accepted for PSYC 110.
- 4 Meets the General Education Social Sciences requirement.
- 5 Meets the General Education Writing 2 requirement.
- 6 Meets the General Education Writing 3 requirement.
- 7 Meets the General Education Intercultural Competence requirement.
- 8 Meets the General Education Civic Knowledge and Engagement requirement.
- 9 Requires senior standing and departmental permission.
- 10 Meets the General Education Integrative and Applied Learning requirement.
- 11 Students may petition to take PSYC 455 instead of PSYC 475.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. DISCIPLINARY KNOWLEDGE- Demonstrate a working knowledge of psychology's content domains, key theories, concepts, principles, themes, and applications of psychology in society.
2. CRITICAL THINKING, SCIENTIFIC INQUIRY AND EFFECTIVE COMMUNICATION- Demonstrate effective expression of critical thought and scientific inquiry in their engagement with (a) psychology literature, (b) conduct of psychological research, and (c) written, (d) oral, and interpersonal communication.
3. VALUES AND ETHICS- Students (a) demonstrate knowledge of the APA ethical (a.1) and multicultural ethical (a.2) standards for the practice of psychology and are able to utilize those standards in decision making and actions in scientific inquiry (a.3), sociocultural (a.4), and interpersonal contexts (a.5). Students (b) articulate and behaviorally express values that build and enhance interpersonal relationships and community engagement at local, multicultural, and cross cultural levels.
4. APPLICATION TO VOCATION- Demonstrate the ability to utilize and apply psychological knowledge and professional skills to: (a) develop vocational post-baccalaureate goals, (b) work collaboratively with diverse others, (c) serve others needs, (d) self-regulate and manage projects successfully, and (e) solve increasingly complex problems.
5. FAITH INTEGRATION- Demonstrate skill in the integration of Christian faith and theology with the science of psychology as it relates to the nature and content of: humanity (F1), knowledge (F2), values and ethics (F3), and vocational and spiritual formation (F4).

# M.S. in Child Life

The master's degree in child life (<https://www.apu.edu/bas/programs/masters-in-child-life/>) is designed to prepare graduates to successfully complete credentialing as child life specialists, who are allied health care professionals with expertise in helping children and their families navigate traumatic and challenging experiences, particularly health crises.

This is an applied/clinical program, with students required to complete a 120-hour practicum in child life followed by a 600-hour hospital internship, in addition to rigorous coursework. The program comprises 42 units and can be completed in 18 months, with available start times in spring and fall. Courses take place primarily in the evenings. There is also online synchronous learning for the Advanced Standing (p. 660) option.

## Requirements

| Code                                   | Title   | Units        |
|--|---|--------------|
| PCLS 501                               | Advanced Child Development                                    | 3            |
| PCLS 502                               | Applied Child Development and Medical Terminology             | 3            |
| PCLS 511                               | Family Systems Theory and Applications                        | 3            |
| PCLS 512                               | Theories and Practices of Grief and Loss                      | 3            |
| PCLS 521                               | Introduction to Child Life                                    | 3            |
| PCLS 522                               | Therapeutic Interventions and Play-Based Techniques           | 3            |
| PCLS 523                               | Coping Strategies for Children Experiencing Stress and Trauma | 3            |
| PCLS 525                               | Assessment, Preparation, and Documentation                    | 3            |
| PCLS 531                               | Ethics, Diversity and Professional Issues                     | 3            |
| PCLS 532                               | Child Life Administration and Leadership                      | 3            |
| PCLS 542                               | Practicum in Child Life                                       | 3            |
| PCLS 543                               | Internship in Child Life                                      | 3            |
| PCLS 551                               | Research Methods and Statistical Analysis                     | 3            |
| PCLS 552                               | Thesis/Project Seminar  | 3            |
| <b>Optional Electives <sup>1</sup></b> |   | <b>3-6</b>   |
| PCLS 520                               | Infants and Toddlers: Development and Interventions           |              |
| PCLS 524                               | Adolescent Development and Interventions                      |              |
| PCLS 545                               | Internship in Child Life II                                   |              |
| <b>Total Units</b>                     |   | <b>42-48</b> |

<sup>1</sup> These courses may serve as additional electives to the M.S. in Child Life program, or may be used as substitutes for required courses by students who enter the program with previous coursework that meets the Student Learning Outcomes for a required course. Departmental permission is required for such a substitution.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Disciplinary Knowledge – Demonstrates theoretical and conceptual knowledge to apply Child Life practices.
2. Critical Thinking, Scientific Inquiry, and Effective Communication – Able to examine and engage in scholarly inquiry and critical thinking, including evaluation and application of evidence based research relevant to child life practices and healthcare delivery system, as a basis to develop, implement and communicate effective interventions.
3. Values and Ethics – Apply knowledge of child life operating principles, code of ethical responsibilities, standards of practice, respect and value for diversity, and factors impacting infants, children, youth and families.

4. Application to Vocation – Develop professional identity demonstrating the ability to integrate and apply Child Life competencies learned in professional settings of practicum and internship.
5. Faith integration – Articulate the intersection of Christian traditions with the Child Life profession using a Christian worldview to integrate faith, beliefs, values, ethics, and service in personal and professional life.

# M.S. in Child Life (Advanced Standing)

The Advanced Standing option for the Master of Science in Child Life (<https://www.apu.edu/bas/programs/masters-in-child-life/>) program is available for Certified Child Life Specialists who have a B.A. or B.S. degree, as well as individuals who have successfully completed the 600 required child life internship hours. To pursue the Advanced Standing option, you must provide proof of a Child Life Certificate from the Child Life Certification Commission (part of the Association of Child Life Professionals), or complete the Child Life Clinical Experience Verification Form (PDF) ([https://www.apu.edu/live\\_data/files/210/clinicalexperienceverificationform.pdf](https://www.apu.edu/live_data/files/210/clinicalexperienceverificationform.pdf)).

## Requirements

| Code                                   | Title   | Units        |
|--|---|--------------|
| PCLS 501                               | Advanced Child Development                                      | 3            |
| PCLS 511                               | Family Systems Theory and Applications                          | 3            |
| PCLS 512                               | Theories and Practices of Grief and Loss                        | 3            |
| PCLS 523                               | Coping Strategies for Children Experiencing Stress and Trauma   | 3            |
| PCLS 531                               | Ethics, Diversity and Professional Issues                       | 3            |
| PCLS 532                               | Child Life Administration and Leadership                        | 3            |
| PCLS 551                               | Research Methods and Statistical Analysis                       | 3            |
| PCLS 552                               | Thesis/Project Seminar  | 3            |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate entry-level competence in the core domains of practice identified by the Board of Behavioral Sciences for licensure as an LPCC.
2. Demonstrate core competence in child/youth development, assessment, diagnosis, treatment, psychoeducation, and prevention interventions.
3. Analyze and synthesize disciplinary research and professional literature.
4. Demonstrate professional-level skills in written and oral communication.
5. Demonstrate skills in the integration of Christian faith with professional conceptualization and service delivery in counseling.

# M.S. in Research Psychology and Data Analysis

The Master of Science in Research Psychology and Data Analysis (<https://www.apu.edu/bas/programs/research-psychology-data-analysis/>) provides research and statistical experience needed to be competitive for doctoral programs and pursue, or advance within, careers related to psychological research. The program consists of a rigorous 36-unit curriculum that can be completed in one academic year, 18 months, or 2 academic years. Students in this program acquire skills in research methods and statistical analyses commonly used within psychological research, and complete a master's thesis. Courses feature lectures, seminars, and hands-on research labs that incorporate various popular statistical software used within psychology. All courses are offered in a distance learning format that consists of face-to-face and remote students. Face-to-face students attend courses at the Azusa campus, and remote students join the face-to-face course using video conferencing technology. Throughout the program, a faculty advisor works closely with individual students to provide guidance on completing the thesis, applying to doctoral programs, and pursuing a career in research. In addition, students have the opportunity to participate in professional events, including academic conferences.

## Coursework Schedule

**Fall (13 units):** Experimental Research Methods (3), Analysis of Variance (3), Analysis of Variance Lab (1), Theory, Research, and Practice in Psychology (3), Introduction to Grant and Professional Writing (3)

**Spring (14 units):** Thesis Seminar (3), Non-Experimental Research Methods (3), Regression (3), Regression Lab (1), Psychometrics: Assessment and Measurement (3), Psychometrics: Assessment and Measurement Lab (1),

**Summer I (6 units):** Thesis Seminar (3), Program Evaluation (3)

**Summer II (3 units):** Thesis Seminar (3)

## Requirements

| Code  | Title  | Units    |
|---|--|----------|
| <b>Core Courses</b>                               |  |          |
| PSYC 501  | Theory, Research and Practice in Psychology    | 3        |
| PSYC 511  | Experimental Research Methods                  | 3        |
| PSYC 512  | Non-Experimental Research Methods              | 3        |
| PSYC 518  | Analysis of Variance                           | 3        |
| PSYC 518L   | Analysis of Variance Lab                       | 1        |
| PSYC 519  | Regression                                     | 3        |
| PSYC 519L   | Regression Lab                                 | 1        |
| PSYC 520  | Psychometrics: Assessment and Measurement      | 3        |
| PSYC 520L   | Psychometrics: Assessment and Measurement Lab  | 1        |
| PSYC 517  | Program Evaluation                             | 3        |
| PSYC 597  | Introduction to Grant and Professional Writing | 3        |
| <b>Students must choose one of the following:</b> |  | <b>9</b> |
| <b>Thesis Track</b>                               |  |          |
| PSYC 598  | Thesis Seminar <sup>1</sup>                    |          |
| <b>Internship Track</b>                           |  |          |
| PSYC 578  | Research Practicum <sup>2</sup>                |          |
| PSYC 588  | Research Internship                            |          |

**Total Units** **36-39**

<sup>1</sup> Students on the thesis track are required to take 9 units of PSYC 598, but may take up to 12 units in order to complete their thesis.

<sup>2</sup> Students on the internship track are required to take 6 units of PSYC 578.

## Optional Concentrations <sup>1</sup>

### Data Analytics

This concentration equips students with statistical and data visualization techniques. It consists of courses that develop students' skill in statistical programming, including *R* and *SAS*, data visualization using Tableau, and data mining. Such training prepares students to pursue careers in business and/or data analytics.

### Marketing Research

This concentration equips students with conceptual and applied knowledge of marketing processes and the evaluation of products, services, and consumer behavior. It consists of courses that introduce marketing strategy and apply quantitative research methods and data analysis techniques within business and marketing contexts, using relevant marketing terminology and statistical software. Such skills are in high demand and prepare students to pursue applied psychology careers related to marketing.

### Industrial Organizational Psychology

Organizational psychology, often called industrial/organizational psychology, considers the attitudes, feelings, and behaviors of people in the workplace. At the intersection of business and psychology, courses in this concentration help you discover your ability to diagnose organizational health; develop and implement change initiatives; administer and create job satisfaction surveys; increase employee morale and expand retention strategies; advance performance management programs; hire, train, and develop talent; and advise, coach, and build successful teams.

### Counseling Psychology

This concentration is for students who are interested in getting a Ph.D. in clinical/counseling psychology and would like to take graduate courses that would expose them to this area of psychology. Students wishing to complete this concentration need to complete three courses from the M.S. in Counseling Psychology program (p. 661) as outlined in program requirements.

<sup>1</sup> The cost per unit for the concentration is based on the cost of the concentration courses, and may be different from per-unit cost for the M.S. in Research Psychology and Data Analysis.

## Graduation

In order to graduate, students must complete the required courses with an overall grade-point average (GPA) of at least 3.0 within five years of matriculation. This includes completing every required course with a *B-* or above. Students must also complete a master's thesis according to the guidelines outlined by the program and university.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Explain the knowledge and skills used in assessment/measurement, research design, and statistical methods in psychology.
2. Apply various theories of psychology used in assessment/measurement, research design, and statistical methods in psychology.
3. Examine the integration of psychological research with a Christian worldview.
4. Articulate the APA codes, standards, and ethics of psychological research and practice in various applied settings.
5. Demonstrate graduate level APA formatting skills for writing and presentations.

# Minor in Alcohol and Drug Counseling

24 units

The minor in alcohol and drug counseling prepares students to pursue alcohol and drug counselor credentialing with the California Consortium of Addiction Programs and Professionals (CCAPP). Students who finish this minor complete the educational requirements for certified alcohol and drug counselors, and have the foundational knowledge, understanding, and skills needed to join this ever-expanding field that allows for bachelor-level entry. *Note: There are other requirements, however, to qualify for the alcohol and drug counseling credential, as outlined and determined by CCAPP.*

For students interested in completing the Bachelor of Arts (B.A.) in Psychology (p. 649) or the Bachelor of Science (B.S.) in Psychology (p. 655), 6 units of the minor can be used to meet the requirements of the B.A. or B.S.; 15 units of the minor, including 3 units of PSYC 455, must be completed at Azusa Pacific University.

## Requirements

| Code                    | Title   | Units |
|-------------------------|---|-------|
| PSYC 280                | Introduction to Certified Alcohol Drug Counselor Credentialing              | 3     |
| PSYC 451<br>or PSYC 531 | Interventions in Counseling <sup>1</sup><br>Ethics and Professional Issues  | 3     |
| PSYC 455                | Field Experience (130 of 255 hours required) <sup>2</sup>                   | 3     |
| PSYC 463                | Drugs, Behavior, and Society <sup>3</sup>                                   | 3     |
| PSYC 464                | Substance Use Assessment and Interventions                                  | 3     |
| PSYC 466                | Case Management in Mental Health and Substance Use Disorders                | 3     |
| PSYC 485                | Stress and Coping   | 3     |
| PSYC 455<br>or PSYC 542 | Field Experience (130 of 255 hours required) <sup>1, 2</sup><br>Practicum I | 3     |
| Total Units             |   | 24    |

<sup>1</sup> Graduate courses (500-level and above) require senior standing and departmental permission.

<sup>2</sup> Three units of PSYC 455 can be used to meet requirements of the minor and the B.A. or B.S. in Psychology.

<sup>3</sup> Meets requirements of the minor and the B.A. or B.S. in Psychology.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Develop entry level mastery of knowledge of substance use, misuse, and effective treatment for substance use problems.
2. Demonstrate entry level skills in engagement and facilitation of substance use recovery strategies.
3. Apply knowledge and skill related to Alcohol and Drug counseling in field experiences.
4. Demonstrate the ability to integrate faith into a comprehensive conceptualization of substance use problems.

# Minor in Alcohol and Drug Counseling (Professional)

24 units

Substance use treatment is an ever-expanding career field, and the professional minor in alcohol and drug counseling gives individuals the foundational knowledge, understanding, and skills needed to enter the field as a bachelor-level staff member. This program prepares students to pursue alcohol and drug counselor credentialing with the California Consortium of Addiction Programs and Professionals (CCAPP), as students who complete this minor satisfy the educational requirements for certified alcohol and drug counselors—although, to qualify for the alcohol and drug counseling credential, additional efforts are required, as outlined and determined by CCAPP.

Note: 6 units of the alcohol and drug counseling professional minor can be used to meet requirements of the psychology bachelor's completion (B.A.) program (p. 652); 15 units of the minor, including 3 units of PRPS 455, must be completed at Azusa Pacific University.

## Requirements

| Code        | Title  | Units |
|-------------|--|-------|
| PRPS 280    | Introduction to Certified Alcohol Drug Counselor Credentialing | 3     |
| PRPS 450    | Counseling Theory <sup>1</sup>                                 | 3     |
| PRPS 455    | Field Experience   | 3     |
| PRPS 463    | Drugs, Behavior, and Society                                   | 3     |
| PRPS 464    | Substance Use Assessment and Interventions                     | 3     |
| PRPS 466    | Case Management in Mental Health and Substance Use Disorders   | 3     |
| PRPS 485    | Stress and Coping  | 3     |
| PRPS 455    | Field Experience <sup>2</sup>                                  | 3     |
| Total Units |  | 24    |

<sup>1</sup> Can count toward the professional minor and the psychology bachelor's completion program.

<sup>2</sup> Three units of PRPS 455 can count toward the professional minor and the psychology bachelor's completion program.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Develop entry level mastery of knowledge of substance use, misuse, and effective treatment for substance use problems.
2. Demonstrate entry level skills in engagement and facilitation of substance use recovery strategies.
3. Apply knowledge and skill related to Alcohol and Drug counseling in field experiences.
4. Demonstrate the ability to integrate faith into a comprehensive conceptualization of substance use problems.

# Minor in Psychology

18 units

The psychology minor introduces students to the study of human thought and behavior. Specifically, students minoring in psychology are exposed to disciplinary knowledge, critical thinking skills, scientific inquiry, and applications of psychology. This minor is ideal for students from a wide variety of education and career paths who wish to bolster their understanding of, and interactions with, people.

## Requirements

| Code   | Title                                     | Units |
|--|---|-------|
| PSYC 110   | General Psychology <sup>1</sup>           | 3     |
| PSYC 290   | Human Growth and Development <sup>1</sup> | 3     |
| Select 12 units from any psychology courses; WRIT 260 is included as a psychology course. <sup>2</sup> |   | 12    |
| Total Units  |   | 18    |

<sup>1</sup> Meets the General Education Social Sciences requirement.

<sup>2</sup> WRIT 260, PSYC 345, PSYC 400, PSYC 420, PSYC 455, PSYC 475, and PSYC 496 meet additional General Education requirements.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. PLO 1- DISCIPLINARY KNOWLEDGE- Students demonstrate a working knowledge of psychology's content domains, key theories, concepts, principles, themes, and applications of psychology in society
2. PLO 2- CRITICAL THINKING, SCIENTIFIC INQUIRY AND EFFECTIVE COMMUNICATION- Students demonstrate effective expression of critical thought and scientific inquiry in their engagement with (a) psychology literature, (b) conduct of psychological research, and (c) written, (d) oral, and interpersonal communication
3. PLO 3- VALUES AND ETHICS- Students (a) demonstrate knowledge of the APA ethical (a.1) and multicultural ethical (a.2) standards for the practice of psychology and are able to utilize those standards in decision making and actions in scientific inquiry (a.3), sociocultural (a.4), and interpersonal contexts (a.5). Students (b) articulate and behaviorally express values that build and enhance interpersonal relationships and community engagement at local, multicultural, and cross cultural levels.
4. PLO 4- APPLICATION TO VOCATION- Students demonstrate the ability to utilize and apply psychological knowledge and professional skills to: (a) develop vocational post-baccalaureate goals, (b) work collaboratively with diverse others, (c) serve others needs, (d) self-regulate and manage projects successfully, and (e) solve increasingly complex problems.
5. PLO 5- FAITH INTEGRATION- Students demonstrate skill in the integration of Christian faith and theology with the science of psychology as it relates to the nature and content of: humanity (F1), knowledge (F2), values and ethics (F3), and vocational and spiritual formation (F4).

# Department of Social Work

Social workers help people manage and overcome some of life's most difficult challenges, such as poverty, addiction, discrimination, physical and mental illness, and abuse. They provide individual, family, and group intervention; facilitate crisis prevention and intervention; advocate and participate in political action; provide management and leadership in social welfare and nonprofit agencies; and collaborate with communities to develop necessary social and economic resources. Social workers are especially committed to advancing social justice and increasing opportunities for vulnerable populations.

### Undergraduate Programs

- Bachelor of Social Work (BSW) (p. 681)
- Certificate of Distinction in Undergraduate Social Work Research (p. 690)

### Graduate Program

- Master of Social Work (p. 691)

### Credential

- Pupil Personnel Services Credential in School Social Work and Child Welfare and Attendance Services (p. 709)

## Courses

### PRSW 410, Family Violence, 3 Units

Family violence is an in-depth study from a system's perspective of violence that occurs in families. This course provides an overview of child abuse, spousal abuse, abuse between intimate partners, and elder abuse. The course explores the theory and research as to the causes of abuse, including individual and family factors, elder abuse, gender issues, community and societal influences, and cultural factors. This course explores the policy and programs developed to deal with these crises. Finally, methods of assessment and intervention are investigated as applicable to both professional and personal situations.

**Prerequisite:** Junior or Senior Standing or Instructor's consent

### SOCW 250, Introduction to Social Work, 3 Units

This course introduces students to the social work profession, social welfare system, and policies in the United States. The course examines the requirements for social work practice, articulates the identity of the profession, and discovers the various settings of social work practice. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

### SOCW 251, Social Welfare Policy and Service, 3 Units

This course examines social welfare policies and programs developed to meet human needs in American society. The course explores diversity of political, cultural, historical, economic, and ideological influences on social welfare policy. The course explores how critical thinking advances social and economic justice and delivery of effective social work services.

### SOCW 275, Social Justice Foundations for Human Rights, 3 Units

The Social Justice Foundations in Human Rights course will examine assumptions and biases in regards to race, age, social class, religion, gender, sexual orientation and ability. This course will evaluate causes of community concern in the areas of civil rights, immigration, poverty, human trafficking, disabilities and war. It will review issues of oppression and discrimination. This course will have students gain insight and self-awareness in their interactions with individuals of from different cultural backgrounds. Students will practice developing action plans to promote social justice in targeted groups. *Meets the General Education Requirement: Intercultural Competence.*

**Prerequisite:** Sophomore Standing

### SOCW 310, Human Behavior and the Social Environment I, 3 Units

This course is a study from a multi-theoretical perspective of the interaction of cultural, biological, psychological, social, spiritual, and environmental reciprocal interactions. This course focuses on human development from birth through adolescence. The knowledge of human behavior and the social environment will be applied utilizing bio-psycho-social-spiritual frameworks to guide the process of assessment, intervention, and evaluation.

**Prerequisite:** Sophomore standing, recommended SOC 120 and PSYC 110

## **SOCW 311, Human Behavior and the Social Environment II, 3 Units**

This course is a study from a multi-dimensional perspective of the interaction of cultural, biological, psychological, social, spiritual, and environmental influences that promote or deter the development of individuals from young adulthood through old age and death. This course builds upon the material presented in HBSE I, and further explores theoretical models for understanding and assessing macro systems.

**Prerequisite:** SOCW 310 and Sophomore standing

## **SOCW 332, Social Work Practice with Individuals and Families, 3 Units**

This is the first of a two-semester, three-course practice sequence wherein the student will identify professional generalist social work practice behaviors. The course will develop the student's ability to think critically and apply social work ethical principles to guide practice. The course uses evidence-based practice methods in practice which engage, assess, intervenes, and evaluates individuals and families.

Special Fee Applies

**Prerequisite:** Application and acceptance into the Social Work Major

## **SOCW 333, Social Work Practice with Communities and Organizations, 3 Units**

Social Work Practice with Communities and Organizations is another course in the generalist social work practice sequence. The Course will focus on macro social work practice, community organizing, and development. The course will provide students with the knowledge and skills needed for ever-changing contexts and the social service delivery systems used to respond to such contexts.

**Prerequisite:** SOCW 250, SOCW 332

## **SOCW 335, Community Transformation, 6 Units**

This course offers a formal and experiential study of the transformation of urban, multicultural communities with the goal of developing a service ethic through a semester-long internship. Involves directed reading, reflective papers, a service practicum, and group discussions-- aimed at both the transformation of the student community and the wider L.A. community. Course is available only through the L.A. Term Program.

## **SOCW 350, Aging: Implications for Policy and Practice, 3 Units**

This course offers an introduction to social work practice with older adults with attention given to current research, policies, and problems faced by the elderly, and the impact of the older adult population on society. Resources, programs, and services which focus on the well-being for the older adult population will be introduced.

**Prerequisite:** SOCW 251 or instructor consent

## **SOCW 351, Child Welfare, 3 Units**

Students explore programs and policies that have been developed to meet the well-being of children and families. The issues affecting these programs and policies are studied to determine how policy impacts the delivery of child welfare programs.

**Prerequisite:** SOCW 250, SOCW 251 or instructor consent

## **SOCW 360, Social Work Practice with Groups, 3 Units**

Social Work Practice with Groups is another course in the generalist social work practice sequence. This course introduces students to utilize group theories and leadership skills in social work practice. Students will demonstrate mezzo practice knowledge and skills by identifying, analyzing, and implementing evidence-based interventions designed to achieve client goals.

**Prerequisite:** SOCW 250, SOCW 332

## **SOCW 380, Understanding International Social Problems and Services through Study Abroad, 3 Units**

Through classroom instruction, time spent in an international setting, and debriefing sessions, students in this course learn about social problems and social welfare systems of service delivery outside of the United States. Emphasis is on a global perspective of social work practice, enriching cultural experiences, and a comparison of domestic and international methods of addressing human needs through social policies and programs.

**Prerequisite:** SOCW 333 and SOCW 360; or instructor approval.

## **SOCW 400, Fundraising, Grant Writing, and Fiscal Decision Making, 3 Units**

This course prepares students for potential fundraising, grant writing, program design and evaluation, and fiscal decision-making responsibilities in human services organizations. Students assess local agencies and analyze funding resources, strategies, skills, and decision-making processes. Assignments focus on grant writing, developing fundraising strategies, and applying knowledge of ethical management and fiscal practices.

**Prerequisite:** SOCW 333

## **SOCW 410, Family Violence, 3 Units**

Family violence is an in-depth study from a system's perspective of violence that occurs in families. This course provides an overview of child abuse, spousal abuse, abuse between intimate partners, and elder abuse. The course explores the theory and research as to the causes of abuse, including individual and family factors, elder abuse, gender issues, community and societal influences, and cultural factors. This course explores the policy and programs developed to deal with these crises. Finally, methods of assessment and intervention are investigated as applicable to both professional and personal situations.

**Prerequisite:** Junior or Senior standing or instructor consent

### **SOCW 411, Intimate Relationship Violence: Assessment and Intervention, 3 Units**

This course is an in-depth study of intimate relationship violence, exploring the theory and research as to the causes of violence, gender and sexuality issues, community and societal influences, and cultural factors. Methods of assessment are investigated, as are policies and programs developed to intervene within micro and macro contexts. Course, with additional fee, meets California domestic violence counselor certification.

**Prerequisite:** Junior or senior standing or instructor's consent.

### **SOCW 415, Substance Use Disorders: Assessment and Intervention, 3 Units**

This course provides an overview of substance use disorders from a bio-psycho-social-cultural-spiritual perspective. Unique issues relative to children/adolescents, women, people with disabilities, LGBT individuals, the elderly, and minorities are explored. The course focuses on a review of various types of substance use disorders; theory on the etiology and process of substance use disorders and their treatment; information on assessment, referral, and treatment resources; and exploration of the historical and current responses to substance use disorders in the community as well as in the Church.

**Prerequisite:** Junior or senior standing or instructor's consent

### **SOCW 420, Suffering: Theological and Practical Perspectives on Disabilities, 3 Units**

This course examines theological perspectives to understand the role of suffering in the human experience. Focusing on persons with disabilities, students explore their personal values, gain understanding of bio-psycho-social-spiritual components of disability, access available resources, and develop strategies to help churches/agencies develop inclusive programs.

**Prerequisite:** 3 units of UBBL and Junior standing

### **SOCW 425, Introduction to International Development, 3 Units**

This course provides students with an opportunity to consider the theories and 'on the ground' issues concerning international development. In addition, because non-governmental organizations are the primary organisms through which international development is conducted, students will familiarize themselves with the strengths and limitations these organisms bring to the development process.

**Prerequisite:** Junior or Senior Standing

### **SOCW 430, Introduction to Nonprofit Management, 3 Units**

Students go out into the world and work for nonprofit organizations. The goals of the course are to enrich student perspective regarding nonprofits, to give them opportunity to apply their knowledge to the analysis of nonprofit managerial situations and to provide them with an understanding of the opportunities and power of nonprofit management.

**Prerequisite:** Junior or Senior Standing

### **SOCW 440, Social Work and Law, 3 Units**

Students in this course gain an increased understanding of the United States legal system and learn how to apply this understanding within social work practice. Students engage with case law as it pertains to the field of social work and social services. Students also have opportunities for critical analysis, and for refining of advocacy and problem-solving skills.

**Prerequisite:** Junior or senior standing or instructor approval.

### **SOCW 466, Field Internship I, 4 Units**

This social work practicum provides a setting for the development of practice skills and an opportunity for the integration of knowledge, skills, and values in social work. Students complete a minimum of 400 hours in an approved agency.

**Prerequisite:** SOCW 310, SOCW 311, SOCW 333 or SOCW 335, SOCW 360,

**Corequisite:** SOCW 467

### **SOCW 467, Senior Practicum Seminar I, 3 Units**

This seminar course integrates the generalist practice knowledge and skills of a social work professional. Students learn how to identify and conduct themselves as professional social workers in their respective internship contexts. Evidence-based practice skills are developed to help students engage in research-informed practice and learn how practice shapes research. This course comprises the first semester of a two-semester course sequence.

*Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** SOCW 310 (C or above), SOCW 311 (C or above), SOCW 333 or SOCW 335, SOCW 360.

### **SOCW 468, Field Internship II, 4 Units**

This social work practicum provides a setting for the development of practice skills and an opportunity for the integration of knowledge, skills, and values in social work. Students complete a minimum of 400 hours in an approved agency.

**Prerequisite:** SOCW 466, SOCW 467

**Corequisite:** SOCW 469

### **SOCW 469, Senior Practicum Seminar II, 3 Units**

This final Social Work Seminar will focus on integration of learning and practice in preparation for beginning generalist social work practice for students currently in field placement. Students will identify, critique, and apply evidence based practice models in field practice. Emphasis will be placed on practice skills of engagement, assessment, intervention and evaluation according to the NASW Code of Ethics.

**Prerequisite:** SOCW 310 (C grade or above), SOCW 311 (C grade or above), SOCW 333 or SOCW 335, SOCW 360, SOCW 466

## **SOCW 478, Social Work Research Methods, 3 Units**

This course prepares students for evidence-informed practice and research by introducing a range of social science research methods, skills in research evaluation and critique, and development of a social science research proposal informed by their field internship practice experience.

**Prerequisite:** MATH 130.

**Corequisite:** SOCW 466, SOCW 467

## **SOCW 479, Writing 3: Social Work Research Project, 3 Units**

In this course, students prepare for evidence-informed practice and research by conducting an empirical study based on the research proposal completed in the Social Work Research Methods course (SOCW 478). Students learn to apply critical thinking to inform and communicate professional judgment through the process of data collection, data analysis, and writing a research report. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

**Prerequisite:** MATH 130, SOCW 478, Writing 2;

**Corequisites:** SOCW 468, SOCW 469

## **SOCW 497, Readings in Social Work, 1-4 Units**

This is a program of study concentrating on assigned readings, discussion, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## **SOCW 499, Special Topics, 1-6 Units**

Special topics courses offer undergraduate-level content that will augment the set social work curriculum. These courses include a wide range of specialized topics relevant to professional social workers. The unit value of these courses range from one to six unit credits, depending upon the specific contact hours and course workload.

**Prerequisite:** Junior or Senior Standing; Acceptance into the Social Work program

## **SOCW 511, Introduction to the Social Work Profession, 2 Units**

Content focuses on the history, identity, values, ethics, scope of practice, and knowledge base of the social work profession. Students explore ways their own backgrounds and beliefs are likely to influence professional activities, and examine the specific relationship of faith perspectives to social welfare policy and practice. Attention is given to developing professional writing and critical thinking skills.

**Prerequisite:** Admission to MSW program

## **SOCW 512, Social Welfare Policy and Policy Practice, 3 Units**

The course provides an introduction to American social welfare policies, offers a historical overview of political influences on social work practice, and presents different models for political advocacy. Content focuses on political and client advocacy with attention to the relevance of professional ethical standards and faith perspectives to policy practice.

**Prerequisite:** Admission to MSW program

## **SOCW 513, Micro-theory and Human Development, 3 Units**

Content will focus on theories that inform micro-level social work practice with individuals and families using a bio-psychosocial and spiritual framework. Human development across the life course is addressed with psychosocial theory's life stages to assist with the contextualization and integration of theories to meet the needs of diverse populations in practice.

**Prerequisite:** Admission to MSW program

## **SOCW 514, Practice I - Interviewing and Assessment, 3 Units**

This course begins a two-course sequence that provides the foundation for social work practice with individuals and families. Content includes legal and ethical practice, stages of the helping process, interviewing and assessment skills with adults, children, and families, clinical assessment and diagnosis using the DSM, and strategies for critically analyzing and sharing assessment information.

**Prerequisite:** Admission to MSW program

## **SOCW 515, Field Seminar I, 1 Unit**

Field seminars meet in conjunction with field coursework and provide students opportunities to discuss practice situations, professional development issues, the relationship of field to classroom learning, and skills necessary for effective practice. Foundation year field seminars (I and II) focus on beginning social work practice skills, understanding agency and community context, and professional ethics.

**Prerequisite:** Admission to the Social Work program;

**Corequisite:** SOCW 516

## **SOCW 516, Field I, 3 Units**

The purpose of field internship is to provide a professional setting for students to practice generalist foundation social work skills and to provide an opportunity for the integration of knowledge, skills, values, and ethical faith integration in practice. Students complete a minimum of 480 hours by the end of semester I and semester II at an approved and designated social welfare agency.

**Prerequisite:** Admission to the Social Work program;

**Corequisite:** SOCW 515

## **SOCW 521, Introductory Research Methods, 2 Units**

Content will introduce critical evaluation of social work research and evidence informed social work practice, along with how research can ethically be used to improve practice at individual and agency levels. Concepts include: problem identification, hypothesis formulation, measurement, sampling, qualitative and quantitative research designs, data collection methods, data analysis, and program evaluation. Students will explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.

**Prerequisite:** Statistics course

## **SOCW 522, Diversity and Social Justice, 3 Units**

Content will focus on diverse populations in American society and ways historical and contemporary patterns of oppression and discrimination may influence social work practice. Specific attention is given to self-awareness and to professional commitments to marginalized groups and processes of advocacy, coalition-building, and other ways of developing effective alliances to promote social justice.

**Prerequisite:** Admission to MSW program

## **SOCW 523, Macro-theory and Communities/Organizations, 3 Units**

Content will focus on macro-level theories and social work practice with organizations and communities. Models of practice that include comprehensive assessment, integrating an understanding of various forms and mechanisms of discrimination and oppression and their relevance to macro-level interventions, will be examined. Social work with organizations and communities embraces efforts to protect human and civil rights for the advancement of social and economic justice.

**Prerequisite:** SOCW 513

## **SOCW 524, Practice II - Intervention and Evaluation, 3 Units**

This course ends a two-course sequence that provides the foundation for social work practice with individuals and families. Content includes goal-setting and contracting, planning and implementing change strategies, utilizing evidence-based practice research, interdisciplinary collaboration, advocacy, resource development, and practice evaluation.

**Prerequisite:** SOCW 514

## **SOCW 525, Field Seminar II, 1 Unit**

Field seminars meet in conjunction with field coursework and provide students opportunities to discuss practice situations, professional development issues, the relationship of field to classroom learning, and skills necessary for effective practice. Foundation year field seminars (I and II) focus on beginning social work practice skills, knowledge and use of self, and professional ethics.

**Prerequisite:** SOCW 514, SOCW 515, and SOCW 516;

**Corequisite:** SOCW 526

## **SOCW 526, Field II, 3 Units**

The purpose of field internship is to provide a professional setting for students to practice generalist foundation practice skills and to provide an opportunity for the integration of knowledge, skills, values, and ethical faith integration in practice. Students complete a minimum of 480 hours by the end of semester I and semester II at an approved and designated social welfare agency.

**Prerequisite:** Admission to MSW program, SOCW 515, and SOCW 516;

**Corequisite:** SOCW 525

## **SOCW 527, Research for Evidence-Informed Practice, 2 Units**

The content of this course prepares students to critically evaluate social work research and evidence-informed social work practice, along with the ethical use of research methods to improve clinical practice. Concepts include problem identification, hypothesis formulation, measurement, sampling, qualitative and quantitative research designs, data collection methods, data analysis, and outcomes evaluation. Students explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.

**Prerequisite:** Statistics course

## **SOCW 528, Research for Data Driven Change, 2 Units**

This course will introduce critical evaluation of social work research and its ethical application towards data-driven decision-making within community practice settings. Concepts include: problem identification, hypothesis formulation, measurement, sampling, research design, data collection methods, data analysis, and program evaluation. Students will explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.

**Prerequisite:** Statistics course

## **SOCW 529, Human Rights and Sustainable Development Policy, 2 Units**

Content will focus on the relevance of human rights and sustainable development policy to macro-level social work practice in the U.S. and abroad. Topics will include advancement of human rights for social, economic and environmental justice and sustainable development strategies for poverty alleviation, universal education, public health, sanitation and housing, food security, access to clean water, population control and climate change. Analysis of existing global social policies will apply existing political, ideological, religious, cultural, age, and gender frameworks to explain current conditions and future trends. Secular and Christian perspectives will be explored.

**Prerequisite:** SOCW 522 and SOCW 523

## **SOCW 530, Organizing for Community Change, 3 Units**

This course expands foundation year macro-level practice content to enhance theoretical understanding and develop skills in the promotion of community, organizational, and policy change to enhance social well-being and advance social justice. Special attention is focused on collaborative efforts, coalition building and participatory methods to facilitate sustainable change. Additional topics include assessment of social service delivery systems, advocacy, and professional ethics in macro practice. The importance of engaging diverse communities, recognition of underrepresented and underserved populations, and utilizing cultural humility in practice are emphasized.

**Prerequisite:** SOCW 523

## **SOCW 531, Human Rights and Sustainable Development, 2 Units**

Content will focus on the relevance of human rights and sustainable development to macro-level social work practice in the U.S. and abroad. Topics will include advancement of human rights and economic justice, poverty alleviation, politics, religion, culture, age, gender, and public health conditions on human rights and development-related activities. Secular and Christian perspectives will be explored.

**Prerequisite:** SOCW 522 and SOCW 523

## **SOCW 532, Advanced Community Practice, 3 Units**

This course expands foundation year macro-level practice content to include community entrance, engagement, participatory action research, and collaborative strategies to advance policies and programs supporting community interests and desired resources. Additional topics include empowerment, development of cultural competence, identification of oppressive cultural structures, globalization, and professional ethics. Engaging diverse communities and cultural humility are emphasized.

**Prerequisite:** SOCW 523

## **SOCW 533, Organizational Behavior and Management, 3 Units**

This course provides an overview of organizational behavior and effective management practices within the social service sector. Topics include: human resource/legal/ethical issues; employee diversity; organizational culture; conflict resolution; group behavior; employee training/development; hiring practices; employee motivation; budgeting; and managing organizational change. Emphasis is placed on professional written and verbal communication.

**Prerequisite:** SOCW 523

## **SOCW 534, Field Seminar III, 1 Unit**

Field Seminar III focuses on presentation and discussion of student experiences in concentration field internships. Specific emphasis is placed on demonstration and evaluation of advanced practice skills, interventions, supervision use, cultural responsiveness, professional ethics, and faith integration issues addressed in coursework.

**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;

**Corequisite:** SOCW 535 or SOCW 539

## **SOCW 535, Field III - Community Leadership and Program Administration, 3 Units**

The purpose of field internship is to provide a setting for students to develop advanced community practice skills and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students complete a minimum of 480 hours (600 hours for Advanced Standing students) by the end of semester I and semester II at an approved and designated agency.

**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;

**Corequisite:** SOCW 534

## **SOCW 536, Adult Behavioral Health and Diagnosis, 3 Units**

This course begins a two-semester advanced clinical practice sequence focusing on adult behavioral health. Content includes advanced application of the Diagnostic and Statistical Manual for Mental Disorders (DSM-5); symptoms, diagnoses, and treatment strategies associated with psychiatric conditions; brain functioning and chemistry; psychotropic medications; and managed care expectations. Cultural and faith perspectives are integrated throughout the course using clinical best practices.

**Prerequisite:** SOCW 514 and SOCW 524

## **SOCW 537, Child and Adolescent Behavioral Health and Diagnosis, 3 Units**

This course focuses on behavioral health issues experienced by children and adolescents, and discussion of the effects of trauma on social and emotional development. Diagnostic issues affecting children and related treatment interventions are explored in the contexts of child welfare, school-based behavioral health, and healthcare settings. Research-informed approaches are taught, to improve functioning and well-being of children and adolescents. Laws impacting work with minors and families, as well as ethical issues for social work practitioners, are presented. Course content meets California education requirements in the area of child abuse assessment for LCSW licensure.

**Prerequisite:** SOCW 513, SOCW 514, and SOCW 524

## **SOCW 538, Clinical Practice with Groups, 2 Units**

This course presents different theoretical approaches and treatment strategies associated with clinical social work practice with groups. Topics include group development stages, professional ethics in practice with groups, leadership principles, diversity issues, and evaluation methods.

**Prerequisite:** SOCW 513

### **SOCW 539, Field III-Clinical Practice, 3 Units**

The purpose of field internship in the clinical specialization year is to provide a setting for students to develop advanced practice skills and an opportunity for the integration of knowledge, skills, and social work values as applied to clinical practice across the life span continuum. Students complete a minimum of 480 hours (or 600 hours for Advanced Standing students) by the end of fall and spring semesters at an approved and designated agency.

**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;

**Corequisite:** SOCW 534

### **SOCW 540, Educational Policy, 3 Units**

This course introduces policies and legislation that impact delivery of school social work services in the United States education system. Landmark local, state, and federal policies are presented for analysis and application to the public school setting, critical for gaining an understanding of the challenges for school social work practice. Historical and current perspectives including racism, equality, and access to public education are discussed.

**Prerequisite:** Completion of foundation-year curriculum; admission to the PPS program (required for students seeking the PPSC).

### **SOCW 541, Capstone Leadership Project, 3 Units**

This course prepares students for professional leadership roles in social work settings and supports completion of the capstone leadership project. Content integrates development of leadership skills, self reflection, professional use of self, interprofessional practice, use of research to inform practice, and knowledge of program context to implement sustainable change in organizations. Professional ethics and decision making, which influence the leadership role in social work, are examined.

**Prerequisite:** All foundation courses and completion of first semester of specialization courses

### **SOCW 542, International Social Work Policy and Practice, 2 Units**

Content will focus on international social work practice at multiple systems levels. Topics will include comparison of United States' and international social welfare policy, differing theoretical and religious perspectives, neo-liberal economic development policies, globalization, and issues immigrants and other marginalized groups. Practice content will address poverty alleviation, conflict and post-conflict reconstruction, displacement and forced migration concerns.

**Prerequisite:** SOCW 522, SOCW 523, SOCW 531, SOCW 532

### **SOCW 543, Fundraising, Grant Writing, and Fiscal Decision Making, 3 Units**

This course prepares students for potential fundraising, grant writing, program design and evaluation, and fiscal decision-making responsibilities in human services organizations. Students assess local agencies and analyze funding resources, strategies, skills, and decision-making processes. Assignments focus on grant writing, developing fundraising strategies, and applying knowledge of ethical management and fiscal practices.

### **SOCW 544, Field Seminar IV, 1 Unit**

Field Seminar IV focuses on presentation and discussion of students experiences in concentration year field internships and preparation for masters-level social work employment and licensure. Specific emphasis is placed on critical thinking and communication of professional judgments, integration of theory, assessment, intervention, and evaluation, as well as professional development issues.

**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 534, SOCW 535 or SOCW 539;

**Corequisite:** SOCW 545 or SOCW 548

### **SOCW 545, Field IV - Community Leadership and Program Administration, 3 Units**

Field internship provides a setting for students to utilize advanced community practice skills and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students complete a minimum of 480 hours (600 hours for Advanced Standing students) by the end of semester I and semester II at an approved and designated agency.

**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 534, and SOCW 535;

**Corequisite:** SOCW 544

### **SOCW 546, Family Therapy in Context, 3 Units**

This course focuses on family practice contexts and theories of child welfare and family therapy. Content includes social worker roles and scope of practice in child welfare practice, and current approaches to assisting families in the child welfare system. Also included is the demonstration and practice of family therapy, application of theory, and assessment and intervention on diverse family systems. Course material also addresses legal and ethical problem solving related to contemporary professional ethics and statutes and regulations related to family law.

**Prerequisite:** SOCW 513, SOCW 523

### **SOCW 547, Health and Behavioral Health Policy, 2 Units**

This course explores American social welfare policies relevant to health and behavioral health care. Course content includes the historical and social contexts of health and behavioral health care, and the roles of the public and private sectors in shaping contemporary trends and issues, particularly among vulnerable communities. Topics include healthcare reform, integrated care, access/treatment disparities, advocacy and policy reform, and the recovery model.

**Prerequisite:** SOCW 512

### **SOCW 548, Field IV - Clinical Practice, 3 Units**

Field internship provides a setting for students to develop advanced clinical practice skills and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students complete a minimum of 480 hours (600 hours for Advanced Standing students) by the end of semester I and semester II at an approved and designated agency.

**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 539;

**Corequisite:** SOCW 544

### **SOCW 550, Advanced Standing: Intermediate Praxis, 3 Units**

Content focuses on theory/practice integration in professional social work. Students apply different worldviews and micro- and macro-level theories to case examples drawn from professional social work, and identify implications for intervention and evaluation. Models of practice involving diverse communities and social welfare organizations are explored.

**Prerequisite:** Admission to advanced standing MSW program;

**Corequisite:** SOCW 551

### **SOCW 551, Advanced Standing: Social Work Ethics and Practice, 3 Units**

This advanced-standing course provides overviews of the legal and ethical practice standards in social work, and addresses the skills required for effective engagement, assessment, intervention, and evaluation with individuals, families and groups. Assignments focus on social work practice skill development, application of documentation standards, use of evidence-informed practice methods, and integration of legal and ethical issues impacting practice.

**Prerequisite:** Completion of BSW degree; statistics course with a grade of C or higher.

### **SOCW 552, Program Planning and Evaluation, 3 Units**

Systematic program planning with a focus on outcomes is a critical component in operating effective human service programs. Over the course of this semester, you will become familiar with program design and program evaluation methodologies, and the tools most commonly used to assess human service programs. Additional topics will include identification and use of performance measures, the roles of evaluators and stakeholders, the influence of the political environment, technology applications, and applicable ethics related to program design and evaluation. At the completion of this course you will be prepared to design and implement programs and conduct outcome evaluations to ensure program efficiency and effectiveness for clients, staff and external funding sources.

### **SOCW 560, Social Work Practice in Healthcare Settings, 3 Units**

This elective course offers an introduction to social work practice in healthcare settings, with a focus on the specific knowledge and skills essential for effective intervention. Students critically analyze the U.S. healthcare system as compared to international models, and apply clinical skills and relevant laws to interdisciplinary practice while understanding the context of the political, societal, and economic influences that impact service delivery and available resources. The course also articulates how a Christian worldview relates to ethical social work practice within the field of health care.

### **SOCW 561, Treatment of Substance Use Disorders, 3 Units**

This course describes substance use disorders from a bio-psycho-social-cultural-spiritual perspective, emphasizing assessment and intervention skills, processes, and evidence-informed research relevant to treatment using the recovery model. Diversity issues involving policy and practice are explored. Course content meets California Board of Behavioral Sciences prelicensure requirement in the area of alcohol and other substance abuse assessment.

### **SOCW 562, Urban Social Welfare, 3 Units**

Course integrates on-site experiential learning with classroom education focused on urban issues of homelessness, gang involvement, and immigration. Students engage in weekly on-site learning activities in high-need areas of Los Angeles and Orange County. Content includes theological and sociological perspectives on urban issues as well as urban social work practice. Elective

### **SOCW 563, School Social Work, 3 Units**

This course uses an ecological perspective in teaching the practice of social work in schools. Topics include the historical, theoretical, legal, research, policy, and practice issues relevant to the delivery of school social work services; the roles and tasks performed by social workers in public schools; school social work practice models; and the professional code of ethics. The purpose of this course is to develop the knowledge, skills, and abilities necessary for successful and competent practice with students, families, schools, and communities.

**Prerequisite:** Completion of foundation-year curriculum; admission to the PPS program (required for students seeking the PPSC).

### **SOCW 564, Social Work and the Bible: Christian Perspectives on Service and Professional Practice, 3 Units**

This course focuses on theological and social work perspectives on the relevance of the Bible to professional practice activities. Content addresses diverse Christian perspectives on social welfare policies and faith integration in different practice environments. Distinctions between professional social work, Christian counseling, and missionary activity are explored. Elective

## **SOCW 565, Clinical Spanish Practice in Social Work, 3 Units**

This course prepares students to utilize clinical social work skills in the Spanish language, including assessment, engagement, intervention, and evaluation of services with individuals, groups, and communities. Content covers diversity issues including cultural competence and understanding of the Latino culture and its intragroup differences, equipping students to confront myths and stereotypes regarding this population. Course is conducted primarily in Spanish.

**Prerequisite:** SOCW 514 and SOCW 524

## **SOCW 566, Social Work, Health, and Aging, 3 Units**

This course explores concepts, social policies, resources, and interventions related to social work practice with the older adult population. Content integrates themes of diversity, ageism, empowerment, and faith, as well as community-based and cross-cultural competence. Content includes a focus on biopsychosocial assessment, with emphasis on functional and cognitive status, integrated healthcare practice, interdisciplinary practice, and end-of-life care. This course meets California Board of Behavioral Sciences requirements for clinical social work licensure.

## **SOCW 567, Marital Therapy and Domestic Violence, 3 Units**

This course is an overview of current theories, methods, and psychological instruments used in marriage therapy interventions. Content includes detection, assessment, and intervention strategies for spousal or partner abuse, meeting California requirements for training in the area of domestic and family violence for MFT and LCSW licensure. Students apply course material to role-play scenarios during class time. Attention is given to issues of ethnic diversity, blended families, and faith integration.

## **SOCW 568, Military Social Work, 3 Units**

This course helps students understand the unique and complex needs of active-duty service members, veterans, and family members of military personnel, presenting knowledge and skills essential to effective clinical social work practice with these populations. Topics include military culture, ethical issues, diversity, faith integration, trauma, assessment, family issues, reintegration, domestic violence, substance use, homelessness, suicide, building resiliency, and evidence-informed interventions for use in interprofessional settings.

## **SOCW 569, Human Sexuality and Sex Therapy, 3 Units**

This course reviews human sexuality as a basis for sex therapy and clinical social work involving sexuality issues. Students examine and evaluate biological, psychological, social, moral, and faith perspectives on sexual development and functioning. In addition, students survey literature on sexual dysfunction, and learn treatment strategies utilized in various social work contexts and systems of marital and sex therapy. This course meets California Board of Behavioral Sciences requirements for clinical social work licensure.

## **SOCW 570, International Social Work Policy and Practice, 3 Units**

Content focuses on international social work practice at multiple systems levels. Topics include comparison of U.S. and international social welfare policies; different theoretical, economic, cultural, ideological, and religious perspectives; neoliberal economic development policies; issues involving immigrants and other marginalized groups; and the impact of globalization and climate change on rapid urbanization and population growth. Practice content addresses poverty alleviation, conflict and postconflict reconstruction, and displacement and forced migration concerns.

**Prerequisite:** SOCW 522 and SOCW 523

## **SOCW 595, Special Topics, 1-6 Units**

Special topics courses offer graduate-level content that is typically scheduled in an intensive format. These courses include a wide range of specialized topics relevant to professional social workers. The unit values of these courses range from 1-6 depending upon the specific contact hours and coursework load. Note: Elective offerings vary year to year.

## **SOCW 599, Readings in Social Work, 1-3 Units**

Students enroll in this course to pursue independent study of professional interests/activities. Students explore topics in greater depth than in regular course offerings and/or initiate individual projects. Readings and assignments are based on learning contracts developed in consultation with a sponsoring faculty member and approved by the MSW program director. Additional fees required.

## **Faculty**

### **Department Chair**

Mary Rawlings (<http://www.apu.edu/faculty/mrawlings/>), Ph.D., LCSW

### **Graduate Program Director**

Kimberly Setterlund (<http://www.apu.edu/faculty/ksetterlund/>), MSW, LCSW

### **Director, Inland Empire MSW Program**

Evelyn Castro-Guillen (<http://www.apu.edu/faculty/eguillen/>), Ph.D., LCSW

### **Director, BSW Program**

Amy Tauati (<http://www.apu.edu/faculty/atauati/>), MSW

## Director of Field Education

Jean Un (<http://www.apu.edu/faculty/jun/>), MSW, LCSW

## Director of Student Services

Karen Maynard (<http://www.apu.edu/faculty/kmaynard/>), M.A.

## L.A. DCFS Internship Coordinator

Virginia Olivas (<http://www.apu.edu/faculty/volivas/>), MSW

## Professor

Mary Rawlings (<http://www.apu.edu/faculty/mrawlings/>), Ph.D., LCSW

## Associate Professors

Anupama Jacob (<http://www.apu.edu/faculty/ajacob/>), Ph.D.

Adria Navarro (<http://www.apu.edu/faculty/anavarro/>), Ph.D., LCSW

Jennifer S. Payne (<http://www.apu.edu/faculty/jspayne/>), Ph.D., LCSW

Regina Trammel (<http://www.apu.edu/faculty/rtrammel/>), Ph.D., LCSW

## Assistant Professors

Christie Byrd, MSW, LCSW

Evelyn Castro-Guillen (<http://www.apu.edu/faculty/eguillen/>), Ph.D., LCSW

Shelly-Ann Dewsbury, MSW, LCSW

Donna Gallup (<http://www.apu.edu/faculty/dgallup/>), Ed.D., LSW

Daniel Guzman (<http://www.apu.edu/faculty/djguzman/>), LCSW, MBA

Froylana Heredia-Miller (<http://www.apu.edu/faculty/fmiller/>), MSW, LCSW

Margaret Lee (<http://www.apu.edu/faculty/mylee/>), Ph.D., MSW

Carol Leung (<http://www.apu.edu/faculty/cleung/>), MSW, Ph.D. (Cand.)

Josefina Sierra, MSW, LCSW, Lecturer

Richard Solano, M.A., LMFT, PPCI, PPSC, Lecturer

Kristyn Sutton, LCSW

Stephanie Taylor, MSW

Robin Thomas, MSW, LCSW, Lecturer

# Bachelor of Social Work

## Mission Statement

The Bachelor of Social Work program at Azusa Pacific University seeks to develop competent generalist social work practitioners who can apply knowledge, values, and skills of social work, integrating a Christian perspective, in order to enhance the well-being of diverse individuals, families, groups, organizations, and communities, advancing social justice locally and globally.

## Program Values

The undergraduate social work program is grounded in the profession's history and commitment to social justice and diversity and in the university's commitment to advancing God's work in the world by being of service, advancing human rights, and promoting the dignity and worth of all people. The program is committed to excellence in its teaching and scholarship based on scientific inquiry, to the integration of Christian faith in learning and practice, and to the facilitation of community within the department, with students, and within the greater environment.

## BSW Program Goals

1. To prepare students for professional social work practice with diverse individuals, families, groups, organizations, and communities, locally and globally
2. To provide knowledge based on scientific inquiry, built on a liberal arts foundation of human behavior and the interaction of person and environment
3. To prepare students for lifelong learning, critical thinking, and advanced study
4. To equip students for collaboration with the community, advocating for the development of policies, resources, and programs that seek to advance human well-being, promote social and economic justice, empower clients, and respect diversity
5. To educate students regarding the values and ethics of the profession, and to the integration of Christian values throughout their practice
6. To engage in ongoing scholarship reflecting the goals and needs of professional social work practice

In their courses, BSW students learn the knowledge, values, and skills to help them engage, assess, provide intervention, and evaluate their direct practice with individuals, groups, families, and communities. Additionally, students are encouraged to think critically, become aware of their affective reactions, exercise good judgment, and use self-reflection as part of their professional development. During their senior year, students complete a supervised 400<sup>+</sup>-hour internship at a community-based agency where they apply the knowledge and skills learned in the classroom to professional environments and client groups to gain experience.

## Career Opportunities

Social workers provide services to individuals, families, groups, organizations, and communities. Social workers can apply their training and experience in a variety of practice areas, including:

|                                     |   |
|-------------------------------------|---|
| Addictions Prevention and Treatment | Homeless Individual/Families Assistance |
| Adoption and Foster Care            | Hospice and Palliative Care             |
| Advocacy Consulting and Planning    | Housing Assistance                      |
| Charter/Alternative School Programs | In-home Services                        |
| Child Abuse and Neglect             | International Social Work               |
| Child Welfare Services              | Law/Courts/Community                    |
| Criminal Justice                    | Medical Social Work                     |
| Crisis Intervention                 | Mental Health Counseling                |
| Community Mental Health             | Military Social Work                    |
| Community Planning and Advocacy     | Parent Education                        |
| Delinquent/At-risk Youth            | Police Work                             |
| Developmental Disabilities          | Political Planning and Lobbying         |
| Disaster Relief                     | Prisons and Probation                   |
| Eating Disorders                    | Public Health                           |
| Employee Assistance Programs        | Rural/Tribal Social Work                |
| Genetics/Transplant                 | School Social Work                      |
| Gerontology/Older Adult Services    | Skilled Nursing Social Work             |

## Accreditation

The undergraduate program in the Department of Social Work has been nationally accredited since 1982 by the Council on Social Work Education (<http://www.cswe.org/>).

## Advising and Admission

### Advising

Any student interested in social work is encouraged to speak with someone from the BSW program for more information about the major. Students who wish to major in social work should declare "Social Work Interest" as their intended major as soon as possible through the Undergraduate Enrollment Services Center (<https://www.apu.edu/undergraduate-enrollment-services/academic/changemajor/>) in order to begin academic and professional planning. Upon declaring "Social Work Interest" as a major, students are assigned an academic success coach by the Academic Success Center (<https://www.apu.edu/academic-success/>). Students meet with their assigned coach to create an initial multiyear academic plan, and BSW faculty-mentor advisors are assigned by the BSW program. The role of the BSW faculty-mentor advisor is to provide additional academic advisement, in coordination with the academic success coach, and mentor students in their professional development. While the BSW faculty-mentor advisor is the primary contact person within the program, students are encouraged to utilize all BSW faculty office hours as needed for professional development. Students are strongly encouraged to meet with their academic success coach and/or BSW faculty-mentor advisor prior to registration each semester.

Students later apply to the major (see "Admission to the Program" section below). Upon full admission to the program, student status is changed from "Social Work Interest" to "Social Work" by the Undergraduate Enrollment Services Center (<https://www.apu.edu/undergraduate-enrollment-services/>).

### Procedure

1. Schedule an appointment, if necessary, to discuss social work as a choice of major.
2. Declare "Social Work Interest" as a major through the Undergraduate Enrollment Services Center (<https://www.apu.edu/undergraduate-enrollment-services/>).
3. Contact the BSW office to receive your advisor assignment and the BSW Student Handbook ([https://www.apu.edu/live\\_data/files/242/bswstudenthb1112.pdf](https://www.apu.edu/live_data/files/242/bswstudenthb1112.pdf)).
4. Read the BSW Student Handbook in its entirety.
5. Meet with assigned success coach to develop a multiyear academic plan and confirm choice of major.
6. Meet with your academic success coach and/or BSW faculty mentor advisor for academic advising prior to registration each semester.

Note: Advisors assist in planning, but students are responsible to come prepared for advising and be knowledgeable regarding university requirements.

## Admission to the Program

Students are considered "Social Work Interest" by the registrar until formally accepted into the program. Prior to formal acceptance into the program, students should begin advising within the BSW program and can begin taking entry-level social work courses and the General Education courses that apply to social work, as outlined in the university catalog.

The BSW program reviews applications in the fall and spring semesters for currently enrolled students. Application deadlines are March 7 (fall admission) and November 7 (spring admission). Late applications may be considered on a case-by-case basis depending on the number of accepted students.

Transfer social work applicants planning to enter APU at the junior level (45 or more units) must submit the BSW Application for Admission (<https://goo.gl/forms/nfjMEL9dGN77WF513/>) in order to be considered for full acceptance into the social work program. Submit your application to the BSW program at the same time you submit your university application. Students transferring in prior to their junior year (less than 45 units) begin the major as "Social Work Interest," and submit applications prior to their junior year after starting at the university. Transfer students should seek academic advising through the Academic Success Center (<https://www.apu.edu/academic-success/>) and within the BSW program as soon as possible to begin planning coursework.

Students may be admitted fully, or on provisional status, or denied admission. If a student is admitted on provisional status, a plan for attaining full admission is provided by the committee. If this plan is not met in full, the student is not allowed to continue in the program. If denied admission, the student may initiate an appeal procedure, as outlined in the BSW Student Handbook.

## University-Admitted APU Students

Students admitted to the university and interested in pursuing the social work major should submit their BSW Application for Admission (<https://goo.gl/forms/nfjMEL9dGN77WF513/>) directly to the BSW program. Applications are reviewed by the Social Work Advising and Admissions Committee, composed of social work faculty, and is considered based on academic and personal readiness for the program.

## Admission Requirements

1. A 2.5 overall GPA
2. Completion of or enrollment in SOCW 250 Introduction to Social Work (full acceptance requires completion of this course with a C or better).

3. Acknowledgment of the ability to adhere to the National Association of Social Workers Code of Ethics (<https://www.socialworkers.org/About/Ethics/Code-of-Ethics/>).
4. Acknowledgment of the ability to meet BSW Technical Standards and maintain professional behavior consistent with the Student Code of Conduct, both of which are outlined in the BSW Student Handbook ([https://www.apu.edu/live\\_data/files/242/bswstudenthb1112.pdf](https://www.apu.edu/live_data/files/242/bswstudenthb1112.pdf)).
5. Submission of a personal statement providing responses to the following:
  - a. What influenced your choice of social work as a profession? Include when and how you became interested in the field of social work.
  - b. What personal, volunteer, and/or employment experiences have you had, and/or what characteristics do you possess, that will contribute to your work as a professional in the field of social work?
  - c. Social workers practice with diverse people groups in diverse settings. What groups and/or settings may challenge you because of either your personal values, attitudes, and/or experiences? How will you handle this?
  - d. Social work often involves assisting individuals, families, groups, and communities in problem-solving. Give a brief description of a problem you have encountered in an employment or volunteer situation and how you resolved it. If you have neither employment nor volunteer experience, you may discuss a personal challenge that you faced.
  - e. The profession of social work has identified 12 Grand Challenges (<http://grandchallengesforsocialwork.org/grand-challenges-initiative/12-challenges/>) that reflect the purpose and mission of the social work field. Referencing the challenges, select one or more of them that align with your personal and professional interests. Utilizing the challenge(s) selected, respond to the following:
    - Discuss how your professional goals align with the efforts of the challenge(s) selected. Why is the challenge selected important and how does it connect to your interest in the social work profession?
    - Discuss the significance of the challenge(s) selected based on your personal faith beliefs or values. For example, why should people who identify as Christians be concerned with the challenge selected?

## Procedure

1. Completion of or enrollment in SOCW 250 Introduction to Social Work (full acceptance requires completion of the course with a C or better)
  - a. Note: transfer students with more than 45 units can apply prior to completing SOCW 250 Introduction to Social Work.
2. Complete all sections of the application, including complete responses to the personal statement questions.
3. Submit an unofficial APU transcript, or transcript of coursework completed elsewhere if a transfer.
4. Submit completed application to the BSW program for review by March 7 (fall admission) or November 7 (spring admission). Late applications and transfer students are evaluated on a case-by-case basis and as space allows.
5. Submit additional materials and/or interview with the BSW program director at the request of the Admissions Committee.
6. Students are notified in writing within three weeks of the Admissions Committee's decision.

## Evaluation Criteria for Personal Statements

Admission decisions for the BSW program are based upon a review of academic performance, completion of SOCW 250 as a prerequisite with a C or better (can be enrolled in the course for provisional admission), relevant work or volunteer experience, quality of written personal statement, and relevant experience as indicated in the résumé submission. If needed, a student may be asked to complete a formal interview with the BSW program director and/or submit letters of reference that can support the student's readiness for a career in social work. The Admissions Committee may seek additional information from the social work faculty, the applicant, or other formal sources. The committee focuses on academic achievement as well as criteria that demonstrate a commitment to social work values, beginning understanding of the social work profession, professional attitude and behavior, emotional maturity, and ability to express oneself clearly—orally and in writing.

Following review by the committee, the applicant is notified in writing of the committee's decision. Committee options include full admission, provisional admission with terms outlined, and denial of admission.

## Admissions Appeals Process

Any student who is dissatisfied with a decision for admission may request an in-person review with the Admissions Committee, in which they can supply further verbal and written evidence in regard to the committee's actions. The committee then provides a written response to the student within one week of the hearing. If the student is still in disagreement, he/she may appeal to the dean of the School of Behavioral and Applied Sciences.

## Requirements

Coursework for the social work major (<https://www.apu.edu/bas/programs/bsw/>) covers topics such as clinical interviewing and case management skills, human rights and social justice, community transformation and leadership, child welfare, group dynamics, and more.

A total of 69 units is required for the major, and a minimum 2.5 grade-point average (GPA) is required in all major courses, including specified General Education courses. Students must pass all required courses with a C or higher, and must maintain a 2.5 GPA to remain in the major.

| Code  | Title                           | Units    |
|---|---------------------------------|----------|
| <b>Specified General Education Requirements</b> |                                 | <b>9</b> |
| PSYC 110  | General Psychology <sup>1</sup> |          |

|   |  |          |

|----------|-----------------------|
| SOC 425  | Social Movements      |
| SOC 455  | Crime and Delinquency |
| SOC 464  | Social Stratification |
| PHIL 301 | Practical Ethics      |
| PHIL 330 | Ethics                |

---

Total Units 69

- 1 Meets the General Education Social Sciences requirement.
- 2 Meets the General Education Intercultural Competence requirement.
- 3 Students interested in meeting the social work major's biology requirement at another university must ensure that the course has been articulated by the biology department or obtain prior approval from their advisor to ensure that the course they plan to take covers the required content necessary to satisfy the social work curriculum.
- 4 Meets the General Education Natural Sciences requirement.
- 5 Meets the General Education Quantitative Literacy requirement.
- 6 Meets the General Education Civic Knowledge and Engagement requirement.
- 7 Only social work majors may register for these courses.
- 8 Meets the General Education Integrative and Applied Learning requirement.
- 9 Meets the General Education Writing 3 requirement.
- 10 Two electives (6 units) are required for completion of the social work major; one must be taken from courses offered within the department, and the second may be taken from either group of approved courses.

## Suggested Plan of Study

A minimum of 120 units is needed to graduate. This includes units toward General Education, major, and/or minor requirements.

| Course                          | Title   | Units |
|---------------------------------|---|-------|
| <b>Year I</b>                   |   |       |
| <b>Fall</b>                     |   |       |
| GE 100                          | First-Year Seminar (required first term)                    | 3     |
| MIN 108                         | Christian Life, Faith, and Ministry                         | 3     |
| WRIT 110                        | Writing 1: The Art and Craft of Writing                     | 3     |
| PSYC 110                        | General Psychology  | 3     |
| SOCW 250                        | Introduction to Social Work                                 | 3     |
|                                 | Units   | 15    |
| <b>Spring</b>                   |   |       |
| UBBL 100                        | Introduction to Biblical Literature: Exodus/<br>Deuteronomy | 3     |
| PHIL 100                        | Introduction to Philosophy                                  | 3     |
| Writing 2                       |   | 3     |
| BIOL 101                        | Biology and Society   | 4     |
| SOC 120                         | Introduction to Sociology                                   | 3     |
|                                 | Units   | 16    |
| <b>Year II</b>                  |   |       |
| <b>Fall</b>                     |   |       |
| UBBL 230                        | Luke/Acts   | 3     |
| Foreign Language 1 <sup>1</sup> |   | 3     |

<sup>1</sup> Foreign Language Proficiency Requirement may be met by APU proficiency test; SAT, AP, CLEP, FLATS, or OPIc test score; or completion of an APU language course numbered 102 or higher.

## Field Internships

Field education is a required component of the BSW curriculum. The field application and placement process occurs during the term prior to the onset of field internships. Students complete a 400<sup>+</sup>-hour internship with a focus on applying and integrating professional social work knowledge, values, and skills in a supervised community agency setting. Students are concurrently enrolled in field seminar during field internship terms. **Course credit is not given for life experiences or for previous or current work experience.** Students are required to obtain their own malpractice insurance prior to entering their field internship. Information regarding insurance is available through the BSW program. Students are responsible for ensuring they have reliable transportation to and from field internship agencies.

Field education faculty select field internship sites using strict criteria consistent with accreditation standards set forth by the Council on Social Work Education (<https://www.cswe.org/>), including the congruence of field agency mission and goals with professional social work ethics and standards. Field agencies must also provide student supervision consistent with accreditation requirements.

Additional information regarding field education can be found in the Field Education Manual (<https://www.apu.edu/bas/programs/bsw/fieldeducation/>).

## Transfer of Credits

Students transferring from CSWE-accredited undergraduate social work programs may submit to their advisor a list of social work courses completed within the last five years for evaluation for transfer of credits. Each course will be evaluated by the department on a case-by-case basis for compatibility with program requirements. General Education requirements for the major will be assessed by the Undergraduate Enrollment Services Center (<https://www.apu.edu/undergraduate-enrollment-services/>). Students who leave the BSW program must reapply for admission to the BSW program if the absence is two years or more. **Course credit is not given for life experiences or for previous or current work experience.**

## Social Work Student Conduct Code

In addition to maintaining academic standards, students must demonstrate professional expectations and adherence to the Department of Social Work conduct code. Violation of the code may result in probation or termination from the program. Refer to the BSW Student Handbook (PDF) ([https://www.apu.edu/live\\_data/files/242/bswstudenthb1112.pdf](https://www.apu.edu/live_data/files/242/bswstudenthb1112.pdf)) for the full description of the conduct code and appeals process.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate ethical and professional behavior.
2. Engage in diversity and differences in practice.
3. Advance human rights and social, economic and environmental justice.
4. Engage in practice-informed research and research-informed practice.
5. Engage in policy practice.
6. Engage with individuals, families, groups, organizations, and communities.
7. Assess individuals, families, groups, organizations, and communities.
8. Intervene with individuals, families, groups, organizations, and communities.
9. Evaluate practice with individuals, families, groups, organizations, and communities.
10. Critically analyze how Christian beliefs and values can be ethically integrated in professional social work practice.

## Program Competencies/Learning Outcomes

Students will demonstrate these competencies (CSWE, 2015):

### Competency 1: Demonstrate Ethical and Professional Behavior

Social workers understand the value base of the profession and its ethical standards, as well as relevant laws and regulations that may impact practice at the micro, mezzo, and macro levels. Social workers understand frameworks of ethical decision-making and how to apply principles of critical thinking to those frameworks in practice, research, and policy arenas. Social workers recognize personal values and the distinction between personal and professional values. They also understand how their personal experiences and affective reactions influence their professional judgment and behavior. Social workers understand the profession's history, its mission, and the roles and responsibilities of the profession. Social workers also understand the role of other professions when engaged in interprofessional teams. Social workers recognize the importance of lifelong learning and are committed to continually updating their skills to ensure they are relevant and effective. Social workers also understand emerging forms of technology and the ethical use of technology in social work practice. Social workers:

- make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulation, models for ethical decision-making, ethical conduct of research, and additional codes of ethics as appropriate to context;
- use reflection and self-regulation to manage personal values and maintain professionalism in practice situations;
- demonstrates professional demeanor in behavior; appearance; and oral, written, and electronic communication;
- use technology ethically and appropriately to facilitate practice outcomes; and
- use supervision and consultation to guide professional judgment and behavior.

### Competency 2: Engage Diversity and Difference in Practice

Social workers understand how diversity and difference characterize and shape the human experience and are critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that, as a consequence of difference, a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. Social workers also understand the forms and mechanisms of oppression and discrimination and recognize the extent to which a culture's structures and values, including social, economic, political, and cultural exclusions, may recognize the extent to which a culture's structures and values, including social, economic, political, and cultural exclusions, may oppress, marginalize, alienate or create privilege and power. Social workers:

- apply and communicate an understanding of the importance of diversity and difference in shaping the experiences in practice at the micro, mezzo, and macro levels;
- present themselves as learners and engage clients and constituencies as experts of their own experiences; and
- apply self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse clients and constituencies.

### **Competency 3: Advance Human Rights and Social, Economic, and Environmental Justice**

Social workers understand that every person regardless of position in society has fundamental rights such as freedom, safety, privacy, and an adequate standard of living, health care, and education. Social workers understand the global interconnections of oppression and human rights violations and are knowledgeable about theories of human need and social justice and strategies to promote social and economic justice and human rights. Social workers understand strategies designed to eliminate oppressive, environmental, economic, social and cultural human rights are protected. Social workers:

- apply their understanding of social, economic, and environmental justice to advocate for human rights at the individual and system levels; and
- engage in practices that advance social, economic, and environmental justice.

### **Competency 4: Engage in Practice-Informed Research and Research-Informed Practice**

Social workers understand quantitative and qualitative research methods and their respective roles in advancing a science of social work and in evaluating their practice. Social workers know the principles of logic, scientific inquiry, and culturally informed and ethical approaches to building knowledge. Social workers understand that evidence that informs practice derives from multidisciplinary sources and multiple ways of knowing. They also understand the process for translating research:

- use practice experience and theory to inform scientific inquiry and research;
- apply critical thinking to engage in analysis of quantitative and qualitative research methods and research findings; and
- use and translate research evidence to inform and improve practice, policy, and service delivery.

### **Competency 5: Engage in Policy Practice**

Social workers understand that human rights and social justice, as well as social welfare and services, are mediated by policy and its implementation at the federal, state, and local levels. Social workers understand the history and current structure of social policies and services, the role of policy in service delivery, and the role of practice in policy development. Social workers understand their role in policy development and implementation within their practice in practice settings at micro, mezzo, and macro levels and they actively engage in policy practice to effect change within those settings. Social workers recognize and understand the historical, social, cultural, economic, organizational, environmental, and global influences that affect social policy. They are also knowledgeable about policy formulation, analysis, implementation, and evaluation. Social workers:

- identify social policy at the local, state, and federal level that impacts well-being, service delivery, and access to social services;
- assess how social welfare and economic policies impact the delivery of and access to social services; and
- apply critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, economic, and environmental justice.

### **Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities**

Social workers understand that engagement is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers value the importance of human relationships. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge to facilitate engagement with clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand strategies to engage diverse clients and constituencies to advance practice effectiveness. Social workers understand how their personal experiences and affective reactions may impact their ability to effectively engage with diverse clients and constituencies. Social workers value principles of relationship-building and inter-professional collaboration to facilitate engagement with clients, constituencies and other professional as appropriate. Social workers:

- apply knowledge to human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks to engage with clients and constituencies; and
- use empathy, reflection, and interpersonal skills to effectively engage diverse clients and constituencies.

### **Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities**

Social workers understand that assessment is an ongoing component of the dynamic and interactive process of social work practice with and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in the assessment of diverse clients and constituencies, including families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in the assessment of diverse clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand methods of assessment with diverse clients and constituencies to advance practice effectiveness. Social workers recognize the implications of the larger practice context in the assessment process and value the importance of inter-professional collaboration in this process. Social workers understand how their personal experiences and affective reactions may affect their assessment and decision making. Social workers:

- collect and organize data, and apply critical thinking to interpret information from clients and constituencies;
- apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the analysis of assessment data from clients and constituencies;
- develop mutually agreed-on intervention goals and objectives based on the critical assessment of strengths, needs, and challenges within clients and constituencies; and
- select appropriate intervention strategies based on the assessment, research knowledge, and values and preferences of clients and constituencies.

## **Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities**

Social workers understand that intervention is an ongoing component of the dynamic and interactive process of social work practice with, and behalf of, diverse individuals, families, groups, organizations, and communities. Social workers are knowledgeable about evidence-informed interventions to achieve the goals of clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge to effectively intervene with clients and constituencies. Social workers understand methods of identifying, analyzing, and implementing evidence-informed interventions to achieve client and constituency goals. Social workers value the importance of interprofessional and interorganizational collaboration. Social workers:

- critically choose and implement interventions to achieve practice goals and enhance capacities of clients and constituencies;
- apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the interventions with clients and constituencies;
- use interprofessional collaboration as appropriate to achieve beneficial practice outcomes; and
- facilitate effective transitions and endings that advance mutually agreed-on goals.

## **Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities**

Social workers understand that evaluation is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations and communities. Social workers recognize the importance of evaluating processes and outcomes to advance practice, policy, and service delivery effectiveness. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in evaluating outcomes. Social workers understand qualitative and quantitative methods for evaluating outcomes and practice effectiveness. Social workers:

- select and use appropriate method for evaluation of outcomes;
- apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the evaluations of outcomes;
- critically analyze, monitor, and evaluate intervention and program processes and outcomes; and
- apply evaluation findings to improve practice effectiveness at the micro, mezzo, and macro levels.

## **Competency 10: Critically Analyze How Christian Beliefs and Values Can be Ethically Integrated in Professional Social Work Practice**

Social workers understand the role of spirituality and faith as part of a holistic approach to social practice and in understanding human behavior and the social environment. Social workers apply ethical principles in the integration of faith in practice, mindful of their own beliefs and impact on the helping relationship. Social workers recognize that faith communities are part of the cultural context of individuals, families, and communities, and provide protective as well as risk factors in the process of change. In this context, social workers articulate how Christian beliefs and values can be ethically integrated in professional social work practice. They:

- demonstrate self-awareness of their own worldview, as it relates to a Christian worldview;
- articulate how a Christian worldview is integrated into social work practice; and
- critically analyze how Christian, spiritual, or religious traditions assist or hinder the helping process.

# Certificate of Distinction in Undergraduate Social Work Research

The Certificate of Distinction in Undergraduate Social Work Research is available to seniors participating in the advanced research section of SOCW 478 and SOCW 479 of the BSW program.

## Requirements and Expectations

- Students must have a minimum cumulative GPA of 3.3 and have received a *B* or higher in statistics (MATH 130) or equivalent course in order to participate in the advanced research section. Students who have received less than a *B* in statistics but meet the GPA requirement may petition to be in the advanced research section. Petitions will be reviewed on a case-by-case basis.
- Students must have completed and received a *C* or higher in all other required BSW courses leading to their senior year.
- Students must complete an application that includes a brief essay noting why they wish to participate in the advanced research section.
- Students must receive a recommendation from one other BSW faculty member who can speak to the student's writing ability and professional readiness to participate in the advanced research section.
- Students must develop an original research project tied to their field internship in accordance with the course requirements.
- Students must complete the appropriate Institutional Review Board (IRB) application and receive approval for their projects from APU's IRB office (<https://www.apu.edu/researchandgrants/ethics/irb/>).
- Students must submit an abstract for presentation at an appropriate campus-wide research event.
- Students must submit an abstract for the student research poster competition at the national undergraduate social work conference (The Association of Baccalaureate Social Work Program Directors (BPD) conference) held every March. Students who are selected, through a review process, to present their research at the BPD conference must attend the conference and participate in the research poster competition. Students apply for travel grants from APU's Undergraduate Research Program (<https://www.apu.edu/undergraduate-research/>) to support travel and conference-related expenses.
- Students are invited to submit abstracts to participate in the annual, highly competitive Posters on the Hill interdisciplinary student conference in Washington, DC, sponsored by the Council on Undergraduate Research.
- Students coauthor with the instructor to submit an article based on their research to a peer-reviewed academic journal in social work for publication consideration by the end of the spring semester. Students are expected to remain in touch with the course instructor postgraduation to work on any revisions requested by the journal(s) in order to be accepted for publication.

| Code        | Title  | Units |
|-------------|--|-------|
| SOCW 478    | Social Work Research Methods                         | 3     |
| SOCW 479    | Writing 3: Social Work Research Project <sup>1</sup> | 3     |
| Total Units |  | 6     |

<sup>1</sup> Meets the General Education Writing 3 requirement.

# Master of Social Work

## MSW Program Mission and Goals

The following mission statement guides APU's Master of Social Work (MSW) program (<https://www.apu.edu/bas/programs/msw/>):

*The Master of Social Work (MSW) program develops competent advanced social work practitioners and leaders who can integrate the knowledge, values, and skills of social work to advance human well-being, promote social and environmental justice, and advocate equity for individuals, families, groups, organizations, and communities, informed by our Christian faith tradition.*

*We value:*

- *The Social Work Code of Ethics*
- *Diversity and inclusive excellence*
- *Innovative teaching and scholarship*
- *Integration of faith and learning*
- *Social work leadership development*
- *Strengthening communities in local, national, and global contexts*

## Accreditation

- All Azusa Pacific University programs are accredited by the WASC Senior College and University Commission (WSCUC). (<https://www.wascenior.org/>)
- The MSW program is accredited by the Council on Social Work Education (CSWE) (<http://www.cswe.org/>).

## Specializations

The Master of Social Work (MSW) program (<https://www.apu.edu/bas/programs/msw/>) offers two specializations:

### Clinical Practice with Individuals and Families

This specialization prepares students for clinically oriented practice with individuals, children, and families in contexts such as mental health clinics, veterans' services, managed care facilities, shelters, group homes, child welfare agencies, hospice, schools, correctional institutions, and other settings where personal helping relationships are developed. Specific emphasis is placed on advanced clinical practice skills with children, adolescents, adults, families, and older adults; group therapy skills; and policies specific to health and mental health concerns.

### Community Leadership and Program Administration

This specialization prepares students to provide leadership in nonprofit agencies, government programs, and policy and advocacy organizations in a variety of local and global contexts. Drawing on the significant cultural diversity characterizing the Los Angeles area, and the expertise of faculty, the curriculum prepares students to be proactive leaders and to collaborate with communities to improve upon the complex local, national, and international social problems they encounter. Curriculum content in this specialization includes organizational behavior and management, program planning and evaluation, organizing for community change, human rights and social policy with an optional emphasis in international social work, and research methods for data-driven change.

## Program Options

The **full-time** program (two years, 60 units) includes classes two days per week and approximately 16 hours per week of supervised internship. All students take the same first-year foundation courses. Specialization courses are taken in the second year of the program (Azusa Campus).

The **part-time** program (four years, 60 units) includes classes every Tuesday beginning at 4:20 p.m. (two classes per term, scheduled back-to-back). In addition, there are a total of four Saturday intensive courses required, which meet three to five times per term, in years one and three of the program. All students take the same foundation courses in the first and second years. Specialization courses are taken in the third and fourth years of the program. Supervised internships requiring approximately 16 hours per week occur in the second and fourth years (Azusa Campus).

The **part-time** program (three years, 60 units) at the Inland Empire Regional Campus meets every Thursday beginning at 4:20 p.m., and five Saturdays (all day), per semester. Supervised internships requiring approximately 16 hours per week occur in the second and third years at a field placement specific to the specialization; placements are available in San Bernardino, Riverside, Los Angeles, Orange, and Ventura counties. *Clinical Practice with Individuals and Families specialization only (Inland Regional Campus).*

The **full-time Advanced Standing** program (36 units) allows graduates of CSWE-accredited BSW programs to earn their MSW degree in 10 months. Students complete two 3-unit Advanced Standing bridge courses during a 6-week summer session (July-August, two evenings a week) prior to the

start of their specialization curriculum, in which they join existing full-time MSW students for the remaining two terms (30 units) of the MSW program. Advanced Standing student field internships require 20 hours per week for fall and spring terms (Azusa Campus).

The **part-time Advanced Standing** program allows graduates of CSWE-accredited BSW programs to earn their MSW degree over the course of two years. Students complete two 3-unit Advanced Standing bridge courses during a 6-week summer session (July-August, two evenings a week) prior to the start of their specialization curriculum, in which they join existing part-time MSW students for the remaining two years (30 units) of the part-time MSW program. Part-time Advanced Standing student field internships require 20 hours per week for fall and spring of the second year of the program.

The two bridge courses for advanced standing are:

| Code     | Title  | Units |
|----------|--|-------|
| SOCW 550 | Advanced Standing: Intermediate Praxis             | 3     |
| SOCW 551 | Advanced Standing: Social Work Ethics and Practice | 3     |

## Field Internships

Field education is a required component of the MSW curriculum. The field application and placement process occurs during the term prior to the onset of field internships. Over the course of the program, students complete two field internships, with a focus on applying and integrating professional social work knowledge, values, and skills in a supervised community agency setting. Field internships occur Monday–Friday during business hours. Successful completion of the field internship/seminar curriculum, with a grade of *B-* or higher, is required for field credit and to proceed to the next field course sequence. Students are concurrently enrolled in field seminar during field internship terms. Full-time students complete field internships during both years of the program, whereas part-time students complete field internships during the second and fourth years. Students in the two- and four-year options earn a total of 16 semester units for field education coursework. Advanced Standing students complete a total of eight field education units over two terms. **Course credit is not given for life experiences or for previous or current work experience.** Students are required to obtain their own malpractice insurance prior to entering their field internship. Information regarding insurance is available through the MSW program. Students are responsible for ensuring they have reliable transportation to and from field internship agencies.

Field education faculty select field internship sites using strict criteria consistent with accreditation standards set forth by the Council on Social Work Education, including the congruence of field agency mission and goals with those of professional social work ethics and standards. Field agencies must also provide student supervision consistent with accreditation requirements.

## Transfer of MSW Credits

Students formerly enrolled in CSWE-accredited MSW programs at other schools may submit a list of MSW foundation-level courses completed within five years prior to admission to APU, for evaluation regarding transfer of credits. Each course will be evaluated by the MSW program on a case-by-case basis for compatibility with program requirements. A maximum of 12 units may be transferred. No credit is given for prior field internship hours.

The MSW program takes responsibility for ensuring that transferred courses are congruent with the curriculum policy statement of CSWE and meet program objectives. For any course in question, the MSW program will request a copy of the syllabus and bibliography in order to evaluate course objectives and learning activities.

A petition for transfer credit must fulfill the conditions listed below:

1. The work must have been done while the student was enrolled in good standing as a graduate student; a letter from the MSW program director is required verifying that the student was in good standing.
2. The work must have been done within five years prior to starting the MSW program at Azusa Pacific University.
3. The school from which the credits are transferred must be accredited by a regional accreditation agency.
4. No transfer grade is lower than a *B*.
5. None of the transfer coursework consists of extension or workshop courses.
6. Petition for transfer of credit occurs after enrollment in APU's MSW program.

**Course credit is not given for life experiences or for previous or current work experience.**

## Transfer of Elective Credits

The MSW program has two elective courses (total of 6 units). Students transferring from another graduate program may petition to have up to 6 units evaluated for possible elective credit. The course(s) must be relevant to the MSW program and preferably have been taken within five years prior to admission. Petitions must be submitted to the MSW program for evaluation. Due to the importance of MSW program compliance with CSWE accreditation standards, students may be asked to provide course syllabi in order to assess the relevance and timeliness of course material. Once in the MSW program, students must take elective courses at Azusa Pacific University. Independent study may be taken in place of elective courses.

Advanced Standing students may not transfer in any elective credit.

## Social Work Student Conduct Code

In addition to maintaining academic standards, students must also demonstrate professional standards and adherence to the Department of Social Work conduct code. Violation of the code may result in probation or termination from the program. Refer to the MSW Student Handbook (<https://www.apu.edu/bas/programs/msw/students/>) for the full description of the conduct code and appeals process.

## Academic Probation and Disqualification

Continuation in the MSW program requires a demonstration of academic ability: Students must maintain a minimum 3.0 GPA to continue in the program, and if a student's GPA drops below the minimum, the student will be placed on academic probation and given one enrollment period to raise it to 3.0. A 3.0 GPA is also required for continued financial aid. Students must also pass all required social work courses with a *B-* or higher; if a student does not obtain a sufficient grade, the course must be repeated, but a course may be attempted only twice—if the second attempt results in an insufficient grade, the student will be dismissed from the program.

## Course Requirements

| Code  | Title   | Units     |
|---|---|-----------|
| <b>Foundation Coursework</b>  |   |           |
| SOCW 511  | Introduction to the Social Work Profession                  | 2         |
| SOCW 512  | Social Welfare Policy and Policy Practice                   | 3         |
| SOCW 513  | Micro-theory and Human Development                          | 3         |
| SOCW 514  | Practice I - Interviewing and Assessment                    | 3         |
| SOCW 515  | Field Seminar I   | 1         |
| SOCW 516  | Field I   | 3         |
| SOCW 522  | Diversity and Social Justice                                | 3         |
| SOCW 523  | Macro-theory and Communities/Organizations                  | 3         |
| SOCW 524  | Practice II - Intervention and Evaluation                   | 3         |
| SOCW 525  | Field Seminar II  | 1         |
| SOCW 526  | Field II  | 3         |
| SOCW 538  | Clinical Practice with Groups                               | 2         |
| <b>Coursework by Specialization</b>                                     |   | <b>30</b> |
| <b>Clinical Practice with Individuals and Families</b>                  |   |           |
| SOCW 527  | Research for Evidence-Informed Practice <sup>1</sup>        |           |
| SOCW 534  | Field Seminar III   |           |
| SOCW 536  | Adult Behavioral Health and Diagnosis                       |           |
| SOCW 537  | Child and Adolescent Behavioral Health and Diagnosis        |           |
| SOCW 539  | Field III-Clinical Practice                                 |           |
| SOCW 541  | Capstone Leadership Project                                 |           |
| SOCW 544  | Field Seminar IV  |           |
| SOCW 546  | Family Therapy in Context                                   |           |
| SOCW 547  | Health and Behavioral Health Policy                         |           |
| SOCW 548  | Field IV - Clinical Practice                                |           |
| XXX   | Elective (3 units)  |           |
| XXX   | Elective (3 units)  |           |
| <b>Optional Pupil Personnel Services Credential (PPSC) <sup>2</sup></b> |   |           |
| SOCW 540  | Educational Policy  |           |
| SOCW 563  | School Social Work  |           |
| <b>Community Leadership and Program Administration</b>                  |   |           |
| SOCW 528  | Research for Data Driven Change <sup>1</sup>                |           |
| SOCW 529  | Human Rights and Sustainable Development Policy             |           |
| SOCW 530  | Organizing for Community Change                             |           |
| SOCW 533  | Organizational Behavior and Management                      |           |
| SOCW 534  | Field Seminar III   |           |
| SOCW 535  | Field III - Community Leadership and Program Administration |           |
| SOCW 541  | Capstone Leadership Project                                 |           |

|                    |  |              |
|--------------------|--|--------------|
| SOCW 544           | Field Seminar IV   |              |
| SOCW 545           | Field IV - Community Leadership and Program Administration |              |
| SOCW 552           | Program Planning and Evaluation                            |              |
| XXX                | Elective (3 units)   |              |
| XXX                | Elective (3 units)   |              |
| <b>Total Units</b> |  | <b>60-66</b> |

- <sup>1</sup> Students may test out of SOCW 527 and SOCW 528 but still need to complete the required unit total for the program. Contact the Department of Social Work (<https://www.apu.edu/bas/socialwork/contact/>) for more details.
- <sup>2</sup> Students from either specialization can take one or both credential courses as part of the two-elective graduation requirement—or *in addition* to that requirement—so they could end up with 63 or even 66 units. But even if a community specialization student takes both courses, they DO NOT earn the credential, because only clinical specialization students can receive the credential.

## Requirements for Advanced Standing Program

| Code  | Title   | Units          |
|---|---|----------------|
| <b>Bridge Courses</b>   |   |                |
| SOCW 550  | Advanced Standing: Intermediate Praxis                          | 3              |
| SOCW 551  | Advanced Standing: Social Work Ethics and Practice              | 3              |
| <b>Specialization Coursework</b>  |   |                |
| Select one of the following   |   | 30             |
| <b>Clinical Practice with Individuals and Families</b>                  |   |                |
| SOCW 534  | Field Seminar III (1)   |                |
| SOCW 536  | Adult Behavioral Health and Diagnosis (3)                       |                |
| SOCW 537  | Child and Adolescent Behavioral Health and Diagnosis (3)        |                |
| SOCW 539  | Field III-Clinical Practice (3)                                 |                |
| SOCW 527  | Research for Evidence-Informed Practice (2) <sup>1</sup>        |                |
| SOCW 541  | Capstone Leadership Project (3)                                 |                |
| SOCW 544  | Field Seminar IV (1)  |                |
| SOCW 546  | Family Therapy in Context (3)                                   |                |
| SOCW 547  | Health and Behavioral Health Policy (2)                         |                |
| SOCW 548  | Field IV - Clinical Practice (3)                                |                |
| XXX Electives 3 units   |   |                |
| XXX Electives 3 units   |   |                |
| <b>Optional Pupil Personnel Services Credential (PPSC) <sup>2</sup></b> |   |                |
| SOCW 540  | Educational Policy  |                |
| SOCW 563  | School Social Work  |                |
| <b>Community Leadership and Program Administration</b>                  |   |                |
| SOCW 533  | Organizational Behavior and Management (3)                      |                |
| SOCW 552  | Program Planning and Evaluation (3)                             |                |
| SOCW 528  | Research for Data Driven Change (2) <sup>1</sup>                |                |
| SOCW 529  | Human Rights and Sustainable Development Policy (2)             |                |
| SOCW 530  | Organizing for Community Change (3)                             |                |
| SOCW 534  | Field Seminar III (1)   |                |
| SOCW 535  | Field III - Community Leadership and Program Administration (3) |                |
| SOCW 541  | Capstone Leadership Project (3)                                 |                |
| SOCW 544  | Field Seminar IV (1)  |                |
| SOCW 545  | Field IV - Community Leadership and Program Administration (3)  |                |
| XXX Electives 3 units   |   |                |
| XXX Electives 3 units   |   |                |
| <b>Total Units</b>  |   | <b>36 - 42</b> |

- <sup>1</sup> Students may test out of SOCW 527 and SOCW 528 but still need to complete the required unit total for the program. See department for more details.

<sup>2</sup> Students from either specialization can take one or both credential courses as part of the two-elective graduation requirement—or *in addition* to that requirement—so they could end up with 39 or even 42 units. But even if a community specialization student takes both courses, they **DO NOT** earn the credential, because only clinical specialization students can receive the credential.

## Electives

The following is a list of approved electives for the MSW program:

| Code   | Title  | Units |
|--|--|-------|
| <b>These electives may be taken for either specialization:</b>   |  |       |
| SOCW 540   | Educational Policy                                     | 3     |
| SOCW 543   | Fundraising, Grant Writing, and Fiscal Decision Making | 3     |
| SOCW 560   | Social Work Practice in Healthcare Settings            | 3     |
| SOCW 561   | Treatment of Substance Use Disorders                   | 3     |
| SOCW 563   | School Social Work                                     | 3     |
| SOCW 565   | Clinical Spanish Practice in Social Work               | 3     |
| SOCW 566   | Social Work, Health, and Aging                         | 3     |
| SOCW 567   | Marital Therapy and Domestic Violence                  | 3     |
| SOCW 568   | Military Social Work                                   | 3     |
| SOCW 569   | Human Sexuality and Sex Therapy                        | 3     |
| SOCW 570   | International Social Work Policy and Practice          | 3     |
| SOCW 595   | Special Topics   | 1-6   |
| <b>Clinical specialization students may take any of these required community courses as electives:</b> |  |       |
| SOCW 529   | Human Rights and Sustainable Development Policy        | 2     |
| SOCW 530   | Organizing for Community Change                        | 3     |
| SOCW 533   | Organizational Behavior and Management                 | 3     |
| SOCW 552   | Program Planning and Evaluation                        | 3     |
| <b>Community specialization students may take any of these required clinical courses as electives:</b> |  |       |
| SOCW 536   | Adult Behavioral Health and Diagnosis                  | 3     |
| SOCW 537   | Child and Adolescent Behavioral Health and Diagnosis   | 3     |
| SOCW 546   | Family Therapy in Context                              | 3     |
| SOCW 547   | Health and Behavioral Health Policy                    | 2     |

## Prelicensure Coursework Options

Course content approved by the BBS for meeting prelicensure requirements, as follows, is embedded in the foundation-year MSW curricula.

- Human Sexuality (10 hours)
- Alcohol and Other Chemical Substance Dependency (15 hours)
- Child Abuse Assessment (7 hours)
- Spousal or Partner Abuse (15 hours)
- Aging and Long-Term Care (10 hours)
- California Law/Professional Ethics (18 hours)
- Suicide Assessment and Intervention (6 hours)

Advanced Standing students, who enroll only in specialization coursework, may complete prelicensure requirements in MSW elective courses, as listed below, or may satisfy requirements through qualifying undergraduate coursework:

- SOCW 537 Child and Adolescent Behavioral Health and Diagnosis (Child Abuse Assessment Requirement)
- SOCW 561 Treatment of Substance Use Disorders (Alcoholism/Chemical Dependency Requirement)
- SOCW 566 Social Work, Health, and Aging (Aging and Long-Term Care Requirement)
- SOCW 567 Marital Therapy and Domestic Violence (Spousal or Partner Abuse Requirement)
- SOCW 569 Human Sexuality and Sex Therapy (Human Sexuality Requirement)

Students are responsible for meeting prelicensure requirements and should save relevant course syllabi as proof of hours and content completed. See the MSW Student Handbook (<https://www.apu.edu/bas/programs/msw/students/>) for more information.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Identify with the profession of social work, and conduct oneself accordingly.
2. Apply social work ethical principles to guide professional practice.
3. Apply critical thinking to inform and communicate professional judgments.
4. Engage diversity and difference in practice.
5. Advance human rights and social and economic justice.
6. Engage in research-informed practice and practice-informed research.
7. Apply knowledge of human behavior and the social environment.
8. Engage in policy practice to advance social and economic well-being and to deliver effective social work services.
9. Respond to contexts that shape practice.
10. Engage, assess, intervene and evaluate with individuals, families, groups, organizations, and communities.
11. Articulate how Christian beliefs and values can be ethically integrated in professional social work practice.

## Program Competencies/Program Learning Outcomes

### Foundation Competencies EPAS 2015

#### Competency 1: Demonstrate Ethical and Professional Behavior

Social workers understand the value base of the profession and its ethical standards, as well as relevant laws and regulations that may impact practice at the micro, mezzo, and macro levels. Social workers understand frameworks of ethical decision-making and how to apply principles of critical thinking to those frameworks in practice, research, and policy arenas. Social workers recognize personal values and the distinction between personal and professional values. They also understand how their personal experiences and affective reactions influence their professional judgment and behavior. Social workers understand the profession's history, its mission, and the roles and responsibilities of the profession. Social workers also understand the role of other professions when engaged in inter-professional teams. Social workers recognize the importance of life-long learning and are committed to continually updating their skills to ensure they are relevant and effective. Social workers also understand emerging forms of technology and the ethical use of technology in social work practice. Social workers:

- make ethical decisions by applying the standards of the National Association of Social Workers (NASW) (<http://www.naswdc.org/>) Code of Ethics, relevant laws and regulation, models for ethical decision-making, ethical conduct of research, and additional codes of ethics as appropriate to context;
- use reflection and self-regulation to manage personal values and maintain professionalism in practice situations;
- demonstrate professional demeanor in behavior, appearance, and oral, written, and electronic communication;
- use technology ethically and appropriately to facilitate practice outcomes; and
- use supervision and consultation to guide professional judgment and behavior.

#### Competency 2: Engage Diversity and Difference in Practice

Social workers understand how diversity and difference characterize and shape the human experience and are critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that, as a consequence of difference, a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. Social workers also understand the forms and mechanisms of oppression and discrimination and recognize the extent to which a culture's structures and values, including social, economic, political, and culture exclusions, may recognize the extent to which a culture's structures and values, including social, economic, political, and cultural exclusions, may oppress, marginalize, alienate or create privilege and power. Social workers:

- apply and communicate understanding of the importance of diversity and difference in shaping the experiences in practice at the micro, mezzo, and macro levels;

- present themselves as learners and engage clients and constituencies as experts of their own experiences; and
- apply self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse clients and constituencies.

### **Competency 3: Advance Human Rights and Social, Economic, and Environmental Justice**

Social workers understand that every person regardless of position in society has fundamental rights such as freedom, safety, privacy, and adequate standard of living, health care, and education. Social workers understand the global interconnections of oppression and human rights violations, and are knowledgeable about theories of human need and social justice and strategies to promote social and economic justice and human rights. Social workers understand strategies designed to eliminate oppressive, environmental, economic, social and cultural human rights are protected. Social workers:

- apply their understanding of social, economic, and environmental justice to advocate for human rights at the individual and system levels; and
- engage in practices that advance social, economic, and environmental justice.

### **Competency 4: Engage in Practice-Informed Research and Research-Informed Practice**

Social workers understand quantitative and qualitative research methods and their respective roles in advancing a science of social work and in evaluating their practice. Social workers know the principles of logic, scientific inquiry, and culturally informed and ethical approaches to building knowledge. Social workers understand that evidence that informs practice derives from multi disciplinary sources and multiple ways of knowing. They also understand the process for translating research:

- use practice experience and theory to inform scientific inquiry and research;
- apply critical thinking to engage in analysis of quantitative and qualitative research methods and research findings; and
- use and translate research evidence to inform and improve practice, policy, and service delivery.

### **Competency 5: Engage in Policy Practice**

Social workers understand that human rights and social justice, as well as social welfare and services, are mediated by policy and its implementation at the federal, state, and local levels. Social workers understand the history and current structure of social policies and services, the role of policy in service delivery, and the role of practice in policy development. Social workers understand their role in policy development and implementation within their practice in practice settings at micro, mezzo, and macro levels and they actively engage in policy practice to effect change within those settings. Social workers recognize and understand the historical, social, cultural, economic, organizational, environmental, and global influences that affect social policy. They are also knowledgeable about policy formulation, analysis, implementation, and evaluation. Social workers:

- identify social policy at the local, state, and federal level that impacts well-being, service delivery, and access to social services;
- assess how social welfare and economic policies impact the delivery of and access to social services; and
- apply critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, economic, and environmental justice.

### **Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities**

Social workers understand that engagement is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers value the importance of human relationships. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge to facilitate engagement with clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand strategies to engage diverse clients and constituencies to advance practice effectiveness. Social workers understand how their personal experiences and affective may impact their ability to effectively engage with diverse clients and constituencies. Social workers value principles of relationship-building and inter-professional collaboration to facilitate engagement with clients, constituencies and other professional as appropriate. Social workers:

- apply knowledge to human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks to engage with clients and constituencies; and
- use empathy, reflection, and interpersonal skills to effectively engage diverse clients and constituencies.

### **Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities**

Social workers understand that assessment is an ongoing component of the dynamic and interactive process of social work practice with and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in the assessment of diverse clients and constituencies, including families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in the assessment of diverse clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand methods of assessment with diverse clients and constituencies to advance practice effectiveness. Social workers recognize the implications of the larger practice context in the assessment process and value the importance of inter-professional collaboration in this process. Social workers understand how their personal experiences and affective reactions may affect their assessment and decision making. Social workers:

- collect and organize data, and apply critical thinking to interpret information from clients and constituencies;
- apply knowledgeable of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the analysis of assessment data from clients and constituencies;

- develop mutually agreed-on intervention goals and objectives based on the critical assessment of strengths, needs, and challenges within clients and constituencies; and
- select appropriate intervention strategies based on the assessment, research knowledge, and values and preferences of clients and constituencies.

### **Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities**

Social workers understand that intervention is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers are knowledgeable about evidence-informed interventions to achieve the goals of clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge to effectively intervene with clients and constituencies. Social workers understand methods of identifying, analyzing, and implementing evidence-informed interventions to achieve client and constituency goals. Social workers value the importance of interprofessional and interorganizational collaboration. Social workers:

- critically choose and implement interventions to achieve practice goals and enhance capacities of clients and constituencies;
- apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the interventions with clients and constituencies;
- use interprofessional collaboration as appropriate to achieve beneficial practice outcomes; and
- facilitate effective transitions and endings that advance mutually agreed-on goals.

### **Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities**

Social workers understand that evaluation is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations and communities. Social workers recognize the importance of evaluating processes and outcomes to advance practice, policy, and service delivery effectiveness. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in evaluating outcomes. Social workers understand qualitative and quantitative methods for evaluating outcomes and practice effectiveness. Social workers:

- select and use appropriate method for evaluation of outcomes;
- apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the evaluations of outcomes;
- critically analyze, monitor, and evaluate intervention and program processes and outcomes; and
- apply evaluation findings to improve practice effectiveness at the micro, mezzo, and macro levels.

### **Competency 10: Demonstrate Ethical Integration of Faith and Spirituality in Social Work Practice**

Social workers understand the role of spirituality and faith as part of a holistic approach to social work practice and in understanding human behavior and the social environment. Social workers apply ethical principles in the integration of faith in practice, mindful of their own beliefs and their impact on the helping relationship. Social workers recognize that faith communities are part of the cultural context of individuals, families, and communities, and provide protective as well as risk factors in the process of change. In this context, social workers articulate how Christian beliefs and values can be ethically integrated in professional social work practice. Social workers:

- demonstrate an understanding of a Christian worldview related to social work practice;
- critically analyze how Christian, spiritual, or religious traditions assist or hinder the helping process;
- demonstrate understanding of ethical integration of faith and spirituality in social work practice; and
- understand the contributions and capacity of faith-based organizations and churches as resources in the delivery of social services.

## **Clinical Practice with Individuals and Families Competencies EPAS 2015**

### **Competency 1: Demonstrate Ethical and Professional Behavior**

Social workers have a deep understanding and commitment to the value base of the profession, and can conceptualize and apply ethical standards and relevant laws and regulations to complex cases involving diverse populations and emerging technologies. Social workers demonstrate advanced critical thinking skills to examine and incorporate use of best-practice frameworks for decision making, including use of supervision. Social workers integrate the value base of the profession by reflecting on one's own biases and values while considering interconnected ethical implications of assessment, diagnosis, treatment planning, and intervention. Social workers demonstrate effective regulation in working with clients while using professional judgment and behaviors, and engage in reflective and reflexive practices. Social workers demonstrate the ability to work in interprofessional teams, engaging in activities within the role and scope of practice of diverse social work settings. Social workers are aware of the importance of lifelong learning and demonstrate the ability to adapt to, learn about, and apply emerging forms of practice. They:

- consistently apply and advance National Association of Social Workers (NASW) (<http://www.naswdc.org/>) principles and code of ethics in ambiguous and complex practice situations;
- recognize complex ethical considerations related to technology and practice; and
- recognize the role and appropriate use of supervision and consultation in ethical decision making.

## Competency 2: Engage Diversity and Difference in Practice

Social workers understand how diversity and difference characterize and shape the human experience as it applies to clinical practice with individuals, families, and groups. Social workers can identify the ways that practitioner and client cultural backgrounds and beliefs may affect clinical social work practice. Social workers are able to recognize and address stigma, access to care, and quality-of-care issues relating to diverse client groups by identifying structures and values that oppress and/or enhance privilege or power. Social workers are able to demonstrate advanced insight into personal biases and values and their influence on work with diverse clients, extending consistent dignity and respect to others. Social workers understand how cultural concepts of distress shape assessment, diagnosis, and treatment. They:

- demonstrate and express how cultural concepts of distress and identity, as well as intersectionality, shape assessment, diagnosis, and treatment;
- apply cultural humility and competence in adapting integrated services to meet diverse client needs; and
- collaborate with and advocate for vulnerable and disempowered individuals, families, and groups so that services and resources are equitably accessed.

## Competency 3: Advance Human Rights and Social, Economic, and Environmental Justice

Social workers understand the importance of protecting fundamental human rights to end all forms of oppression. Mindful of every person's fundamental right to self-determination, social workers help empower clients to navigate organizations and institutions in order to meet all their basic needs. Social workers are knowledgeable of best practices that help reduce and eradicate structural injustices within health, mental health, education, and community systems so that all individuals, particularly those who are vulnerable and oppressed, can lead healthy and thriving lives. They:

- identify and develop strategies that help reduce and eliminate systemic forms of oppression an individual may experience in his/her community or institution;
- integrate theories of human need and social justice in order to formulate policies that advance human rights for vulnerable populations; and
- use knowledge of the effects of oppression, discrimination, and historical trauma on clients and client systems to guide treatment planning and intervention.

## Competency 4: Engage in Practice-informed Research and Research-informed Practice

Social workers understand the evaluation methods of evidence-informed practice. They know how to consume and evaluate the quantitative and qualitative research literature on practice to remain informed of emerging practice trends. Social workers innovate new and effective intervention models, while identifying gaps in the research literature, particularly around disenfranchised, oppressed, and marginalized populations. They also recognize the philosophical limitations of current evidence-based research models. Social workers use best practices in research to design, analyze, and conduct their own research using quantitative or qualitative research methods. They:

- evaluate the social work profession research base to inform theory, scientific inquiry, and research;
- apply critical thinking to engage and develop a quantitative and qualitative research proposal question;
- identify practice implications determined by evidence-informed research; and
- use and translate research evidence to inform, improve, and innovate practice, policy, and service delivery.

## Competency 5: Engage in Policy Practice

Social workers understand the dynamic and political nature of clinical practice and apply interventions contextualized within a framework of advancing human rights within social welfare systems. Using a person-in-environment perspective, social workers understand how a client's experience is directly impacted by local, state, or federal policies. Social workers actively engage in policy practice through advocacy and by implementing strategies that help effect change at the organizational and governmental levels. They:

- identify how organizational and governmental policies impact the practice environment and the client's ability to access services;
- work alongside and on behalf of clients to influence service delivery through advocacy and legislative change; and
- use evidence-informed practice and research-based evidence to advocate for policies that advance social and economic well-being.

## Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities

Social workers understand engagement as an integral component of clinical social work practice, and understand the importance of relationship as instrumental in the facilitation of the helping process. Social workers utilize interpersonal skills, knowledge of human behavior, and multiple theoretical frameworks to facilitate engagement with individuals, families, groups, organizations, and communities. They:

- demonstrate the ability to attend to the interpersonal dynamics and contextual factors that strengthen and potentially threaten the therapeutic alliance;
- establish a relationally based process that encourages clients to be equal participants in the establishment of treatment goals and expected outcomes;
- develop, manage, and maintain therapeutic relationships with clients within the person-in-environment and strengths perspective; and
- utilize appropriate multidimensional assessment instruments.

## Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities

Social workers competently engage in detailed client assessment, recognizing that assessment is an ongoing, dynamic process. They engage in differential diagnosis, utilizing the DSM in a critical and responsible manner, and utilize the various aspects of a comprehensive assessment to accurately assess their clients. Social workers understand methods of assessment with diverse clients and constituencies to advance practice effectiveness, and are knowledgeable about interprofessional collaboration, utilization of collateral contacts, and appropriate referral to supplemental services for their clients as needed. Social workers recognize how agency setting, clinical bias, and cultural differences affect assessment and diagnosis. They:

- perform detailed client assessment and utilize critical thinking to arrive at accurate diagnoses and treatment plans;
- select appropriate intervention strategies and treatment modalities based on accurate cultural formulation and assessment of their client's presenting problems; and
- critically apply diagnostic classification systems in a process of continuous assessment.

## Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities

Social workers demonstrate advanced skills in assessment and diagnosis in order to determine appropriate application of human behavior and practice theories that inform intervention within family contexts. Social workers link interventions to problems, applying best-practice interventions throughout the dynamic and interactive process of social work practice with diverse family populations. Social workers apply critical thinking and trauma theory, and demonstrate the ability to respond to, assess, and intervene with crises and trauma at the individual, family, and community levels. Social workers engage in interprofessional and collaborative teams and within systems impacting mental health in order to advocate for, inform, and achieve client or community goals. They:

- critically select and apply best practices, evidence-based interventions, and appropriate clinical techniques for a range of presenting concerns identified in the assessment of individuals and families in diverse situations;
- demonstrate understanding of theories informing assessment of and interventions with families in diverse situations;
- demonstrate the ability to identify crises and the appropriate use of crisis intervention and prevention strategies as needed; and
- collaborate effectively with other professionals to coordinate treatment interventions and appropriate advocacy.

## Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

Social workers competently engage in an ongoing evaluation of the dynamic and interactive process of social work practice, recognizing the diversity that exists in serving individuals, families, groups, organizations, and communities. Understanding the integral relationship between processes and outcomes, social workers apply multidimensional methods of evaluation to advance practice, policy, and service delivery effectiveness, using qualitative and quantitative outcomes measures. In doing so, social workers incorporate a thorough understanding of human behavior and the social environment in evaluating the effectiveness of applied interventions. They:

- use clinical evaluation of the process and/or outcomes to develop best-practice interventions for a range of bio-psycho-social-spiritual conditions; and
- utilize outcomes data to evaluate effectiveness of applied interventions.

## Competency 10: Demonstrate Ethical Integration of Faith and Spirituality in Social Work Practice

Social workers deeply understand the role of spirituality and faith as part of a holistic approach to social work practice, particularly in understanding human behavior and the social environment. Social workers competently engage in assessing and diagnosing multifaceted needs by applying a bio-psycho-social-spiritual framework. Guided by ethics and cultural humility, social workers respect differences and professional boundaries while incorporating spirituality and faith in their clinical work with individuals, families, groups, and communities. They critically evaluate the role that Christian beliefs and values play in the helping process.

- Use critical thinking skills to apply Christian beliefs and values, as appropriate, to client needs, in an ethical manner.
- Apply bio-psycho-social-spiritual assessment skills as applicable to practice contexts.
- Integrate clients' religious, spiritual, and faith traditions and/or faith communities, as indicated, to enhance recovery.

## Community Leadership and Program Administration Competencies EPAS 2015

### Competency 1: Demonstrate Ethical and Professional Behavior

Social workers have a deep understanding and commitment to the value base of the profession, particularly the commitment to advance social justice. Social workers understand the person-in-environment perspective, and possess advanced understanding of how to apply ethical standards and relevant laws and regulations to micro, mezzo, and macro practice situations. Social workers apply critical thinking and ethical frameworks to complex decision making in community practice, including the research and policy arenas. Social workers demonstrate advanced awareness of personal biases and influences and maintain professional judgment when practicing with diverse organizations and communities. Macro social workers understand the roles and responsibilities of managers in social welfare organizations, community organizers in neighborhoods, and policy advocates in state, national, and international governance. Social workers also understand emerging forms of technology, including social media, data information systems, and analytics software, and take great ethical consideration in the application of such technology. They:

- demonstrate advanced insight in personal reflection and self-regulation to maintain professionalism;
- use reflection and self-regulation to manage personal values and maintain professionalism in practice situations;
- demonstrate ability to effectively communicate orally and in writing when assuming a leadership role and when collaborating with other professionals;
- use supervision and consultation to guide professional judgment and behavior;
- apply ethical decision-making skills to address complex and ambiguous practice situations; and
- utilize technology ethically and appropriately when conducting research, tracking quality of service delivery, and facilitating program outcomes.

## Competency 2: Engage Diversity and Difference in Practice

Social workers understand how diversity and difference characterize and shape the human experience as it applies to an individual's experience within their larger social and cultural environment. Social workers are committed to the promotion of equal social and economic rights across all dimensions of diversity and within local, organizational, and policy arenas, recognizing the roles that privilege and discrimination have in determining the access and allocation of societal resources. Social workers are knowledgeable about challenging and rectifying organizational and structural forms of oppression, and ensure that communities, organizations, and policies are sensitive to and knowledgeable of the unique and diverse needs of their clients and constituencies. They:

- ensure the cultural competencies of programs and policies by recognizing the similarities and differences between the values and norms of the dominant society and those of oppressed, underserved, and underrepresented populations;
- collaborate with and advocate for vulnerable and disempowered communities so that power and resources are equitably distributed; and
- apply cultural humility in the examination of personal biases and values and their influence on work with diverse clients and constituencies, extending consistent dignity and respect to others.

## Competency 3: Advance Human Rights and Social, Economic, and Environmental Justice

Social workers understand the foundational functions of the United Nations' universal human rights treaties for the protection of the civil, political, social, economic, educational, health, and ecological rights of individuals, communities, and sovereign nations. Social workers understand the role of cultural relativism as applied to diverse norms and values, exhibited across multicultural global populations. Social workers understand the impact of globalization on poverty, environmental resources, climate change, and the mechanisms for local and global governance as related to social policy development. They:

- integrate human rights principles for elimination of oppressive structures when developing social policies on community, state, federal, and global levels;
- apply theoretical, political, economic, and social sciences frameworks when analyzing human rights and social justice issues; and
- engage in research-informed advocacy for the rights of diverse population groups to establish social, economic, and environmental justice.

## Competency 4: Engage in Practice-Informed Research and Research-Informed Practice

Social workers recognize how multiple forms of knowing and their associated research methodologies help inform how evidence is developed and used to inform data-driven programmatic and policy development and implementation. Social workers understand the conceptual and operational links between program and policy design and its impact on the clients and constituencies they are designed to serve. They:

- use and translate research evidence to inform and improve practice, policy, and service delivery;
- create scientifically rigorous inquiries to create, plan, and evaluate programs and policies; and
- articulate the tensions between practice wisdom and research evidence when making practice decisions.

## Competency 5: Engage in Policy Practice

Social workers understand the operationalization of social policies into equitable and effective service delivery. Social workers understand the foundational functions of human rights and social justice principles as they apply to social welfare and social services policies. Social workers understand the fundamental strategies, including engagement of stakeholders, political advocacy, and policy creation and analysis, for the establishment of social, economic, and environmental justice. They:

- assess and analyze the formative effect of organizational, ideological, religious, economic, and political factors on domestic and global social policies;
- implement sustainable development principles in the analysis and development of domestic and global social policies and programs; and
- engage multiple stakeholders in social policy development and implementation on community, state, federal, and global levels.

## Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that engagement is a critical component of social work practice and specialize in connecting with groups, organizations, and communities utilizing theoretical practice models for engaging in the change process. Social workers establish relationships by analyzing relevant systems and identifying potential stakeholders. Social workers are committed to engagement with diverse clients and constituencies to enhance assessment and improve effectiveness of interventions. They:

- use interpersonal skills to engage constituents in the change process;
- pursue reciprocal relationships to develop desired outcomes and expectations; and
- collaborate effectively with constituents to facilitate sustainable change.

### **Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities**

Social workers understand that assessment is contextual and is an ongoing component of effective social work practice among groups, organizations, and communities. Social workers collect information through identified stakeholders within critical systems, and are committed to effective assessment among diverse clients and constituencies to enhance the effectiveness of interventions. Social workers apply relevant theoretical and evidence-informed practice models in assessment of groups, organizations, and communities. They:

- research, collect, analyze, and interpret system policy and community and organizational data to inform assessment and intervention strategies;
- select and modify appropriate intervention strategies based on evidence and continuous assessment;
- mutually develop agreed-upon goals and measurable objectives; and
- initiate strategies and/or actions to achieve goals and objectives within the context of the organization, community, and/or policy arenas.

### **Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities**

Social workers understand that intervention is an ongoing component of the dynamic and interactive process of social work practice and specialize in interventions relevant to groups, organizations, and communities. Social workers are knowledgeable of and apply evidence-informed interventions that are grounded in participatory methods. Social workers in macro practice understand the importance of acknowledging systems and power structures to best promote change and recognize the value of place-based initiative. Social workers are specifically skilled in advocacy, facilitation, policy practice, administration, and development of intervention strategies within groups, organizations, and communities. They:

- develop intervention goals and design and implement a plan of action in collaboration with individuals, groups, organizations, and communities;
- plan for the use of models, methods, and strategies that are appropriate to the local, regional, national, and international context; and
- identify power structures and use consensus building to enhance service implementation.

### **Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities**

Social workers understand that evaluation is an ongoing component of ensuring effective practice with groups, organizations, and communities. Social workers recognize stakeholders in the development of evaluation methods and ensure that a broad range of qualitative and quantitative measures are utilized. Social workers in macro practice understand data collection, analysis, interpretation, and application related to program and policy evaluation, and are committed to the dissemination of outcomes of intervention strategies to enhance evidence-informed practice. They:

- establish and/or ensure that measurable evaluation criteria and methods are being utilized within change efforts;
- collect, analyze, and interpret system, policy, community, and organizational data relevant to intervention evaluation; and
- utilize evaluation data in collaboration with constituents to select and modify appropriate intervention strategies for enhanced benefit to client systems.

### **Competency 10: Articulate How Christian Beliefs and Values Can be Ethically Integrated in Professional Social Work Practice**

Social workers understand how Christian beliefs and values can be ethically integrated into professional social work practice, and are knowledgeable about the capacity of faith-based organizations and churches as resources in the delivery of social services. Social workers understand the ethical integration of personal faith and core values as social workers, and recognize the contributions of the global Christian community in promoting social justice. They:

- critically evaluate the strengths and challenges of faith-based organizations and churches in the delivery of client services;
- demonstrate understanding of the ethical integration of personal faith and core values when working with organizations, communities, and policy arenas; and
- identify ways in which social justice is enhanced and supported by the global Christian community.

## **Courses**

### **SOCW 511, Introduction to the Social Work Profession, 2 Units**

Content focuses on the history, identity, values, ethics, scope of practice, and knowledge base of the social work profession. Students explore ways their own backgrounds and beliefs are likely to influence professional activities, and examine the specific relationship of faith perspectives to social welfare policy and practice. Attention is given to developing professional writing and critical thinking skills.

**Prerequisite:** Admission to MSW program

## **SOCW 512, Social Welfare Policy and Policy Practice, 3 Units**

The course provides an introduction to American social welfare policies, offers a historical overview of political influences on social work practice, and presents different models for political advocacy. Content focuses on political and client advocacy with attention to the relevance of professional ethical standards and faith perspectives to policy practice.

**Prerequisite:** Admission to MSW program

## **SOCW 513, Micro-theory and Human Development, 3 Units**

Content will focus on theories that inform micro-level social work practice with individuals and families using a bio-psychosocial and spiritual framework. Human development across the life course is addressed with psychosocial theory's life stages to assist with the contextualization and integration of theories to meet the needs of diverse populations in practice.

**Prerequisite:** Admission to MSW program

## **SOCW 514, Practice I - Interviewing and Assessment, 3 Units**

This course begins a two-course sequence that provides the foundation for social work practice with individuals and families. Content includes legal and ethical practice, stages of the helping process, interviewing and assessment skills with adults, children, and families, clinical assessment and diagnosis using the DSM, and strategies for critically analyzing and sharing assessment information.

**Prerequisite:** Admission to MSW program

## **SOCW 515, Field Seminar I, 1 Unit**

Field seminars meet in conjunction with field coursework and provide students opportunities to discuss practice situations, professional development issues, the relationship of field to classroom learning, and skills necessary for effective practice. Foundation year field seminars (I and II) focus on beginning social work practice skills, understanding agency and community context, and professional ethics.

**Prerequisite:** Admission to the Social Work program;

**Corequisite:** SOCW 516

## **SOCW 516, Field I, 3 Units**

The purpose of field internship is to provide a professional setting for students to practice generalist foundation social work skills and to provide an opportunity for the integration of knowledge, skills, values, and ethical faith integration in practice. Students complete a minimum of 480 hours by the end of semester I and semester II at an approved and designated social welfare agency.

**Prerequisite:** Admission to the Social Work program;

**Corequisite:** SOCW 515

## **SOCW 521, Introductory Research Methods, 2 Units**

Content will introduce critical evaluation of social work research and evidence informed social work practice, along with how research can ethically be used to improve practice at individual and agency levels. Concepts include: problem identification, hypothesis formulation, measurement, sampling, qualitative and quantitative research designs, data collection methods, data analysis, and program evaluation. Students will explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.

**Prerequisite:** Statistics course

## **SOCW 522, Diversity and Social Justice, 3 Units**

Content will focus on diverse populations in American society and ways historical and contemporary patterns of oppression and discrimination may influence social work practice. Specific attention is given to self-awareness and to professional commitments to marginalized groups and processes of advocacy, coalition-building, and other ways of developing effective alliances to promote social justice.

**Prerequisite:** Admission to MSW program

## **SOCW 523, Macro-theory and Communities/Organizations, 3 Units**

Content will focus on macro-level theories and social work practice with organizations and communities. Models of practice that include comprehensive assessment, integrating an understanding of various forms and mechanisms of discrimination and oppression and their relevance to macro-level interventions, will be examined. Social work with organizations and communities embraces efforts to protect human and civil rights for the advancement of social and economic justice.

**Prerequisite:** SOCW 513

## **SOCW 524, Practice II - Intervention and Evaluation, 3 Units**

This course ends a two-course sequence that provides the foundation for social work practice with individuals and families. Content includes goal-setting and contracting, planning and implementing change strategies, utilizing evidence-based practice research, interdisciplinary collaboration, advocacy, resource development, and practice evaluation.

**Prerequisite:** SOCW 514

## **SOCW 525, Field Seminar II, 1 Unit**

Field seminars meet in conjunction with field coursework and provide students opportunities to discuss practice situations, professional development issues, the relationship of field to classroom learning, and skills necessary for effective practice. Foundation year field seminars (I and II) focus on beginning social work practice skills, knowledge and use of self, and professional ethics.

**Prerequisite:** SOCW 514, SOCW 515, and SOCW 516;

**Corequisite:** SOCW 526

## **SOCW 526, Field II, 3 Units**

The purpose of field internship is to provide a professional setting for students to practice generalist foundation practice skills and to provide an opportunity for the integration of knowledge, skills, values, and ethical faith integration in practice. Students complete a minimum of 480 hours by the end of semester I and semester II at an approved and designated social welfare agency.

**Prerequisite:** Admission to MSW program, SOCW 515, and SOCW 516;

**Corequisite:** SOCW 525

## **SOCW 527, Research for Evidence-Informed Practice, 2 Units**

The content of this course prepares students to critically evaluate social work research and evidence-informed social work practice, along with the ethical use of research methods to improve clinical practice. Concepts include problem identification, hypothesis formulation, measurement, sampling, qualitative and quantitative research designs, data collection methods, data analysis, and outcomes evaluation. Students explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.

**Prerequisite:** Statistics course

## **SOCW 528, Research for Data Driven Change, 2 Units**

This course will introduce critical evaluation of social work research and its ethical application towards data-driven decision-making within community practice settings. Concepts include: problem identification, hypothesis formulation, measurement, sampling, research design, data collection methods, data analysis, and program evaluation. Students will explore how science, scholarship, and the politics of knowledge development can facilitate the mission of social work.

**Prerequisite:** Statistics course

## **SOCW 529, Human Rights and Sustainable Development Policy, 2 Units**

Content will focus on the relevance of human rights and sustainable development policy to macro-level social work practice in the U.S. and abroad. Topics will include advancement of human rights for social, economic and environmental justice and sustainable development strategies for poverty alleviation, universal education, public health, sanitation and housing, food security, access to clean water, population control and climate change. Analysis of existing global social policies will apply existing political, ideological, religious, cultural, age, and gender frameworks to explain current conditions and future trends. Secular and Christian perspectives will be explored.

**Prerequisite:** SOCW 522 and SOCW 523

## **SOCW 530, Organizing for Community Change, 3 Units**

This course expands foundation year macro-level practice content to enhance theoretical understanding and develop skills in the promotion of community, organizational, and policy change to enhance social well-being and advance social justice. Special attention is focused on collaborative efforts, coalition building and participatory methods to facilitate sustainable change. Additional topics include assessment of social service delivery systems, advocacy, and professional ethics in macro practice. The importance of engaging diverse communities, recognition of underrepresented and underserved populations, and utilizing cultural humility in practice are emphasized.

**Prerequisite:** SOCW 523

## **SOCW 531, Human Rights and Sustainable Development, 2 Units**

Content will focus on the relevance of human rights and sustainable development to macro-level social work practice in the U.S. and abroad. Topics will include advancement of human rights and economic justice, poverty alleviation, politics, religion, culture, age, gender, and public health conditions on human rights and development-related activities. Secular and Christian perspectives will be explored.

**Prerequisite:** SOCW 522 and SOCW 523

## **SOCW 532, Advanced Community Practice, 3 Units**

This course expands foundation year macro-level practice content to include community entrance, engagement, participatory action research, and collaborative strategies to advance policies and programs supporting community interests and desired resources. Additional topics include empowerment, development of cultural competence, identification of oppressive cultural structures, globalization, and professional ethics. Engaging diverse communities and cultural humility are emphasized.

**Prerequisite:** SOCW 523

## **SOCW 533, Organizational Behavior and Management, 3 Units**

This course provides an overview of organizational behavior and effective management practices within the social service sector. Topics include: human resource/legal/ethical issues; employee diversity; organizational culture; conflict resolution; group behavior; employee training/development; hiring practices; employee motivation; budgeting; and managing organizational change. Emphasis is placed on professional written and verbal communication.

**Prerequisite:** SOCW 523

### **SOCW 534, Field Seminar III, 1 Unit**

Field Seminar III focuses on presentation and discussion of student experiences in concentration field internships. Specific emphasis is placed on demonstration and evaluation of advanced practice skills, interventions, supervision use, cultural responsiveness, professional ethics, and faith integration issues addressed in coursework.

**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;

**Corequisite:** SOCW 535 or SOCW 539

### **SOCW 535, Field III - Community Leadership and Program Administration, 3 Units**

The purpose of field internship is to provide a setting for students to develop advanced community practice skills and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students complete a minimum of 480 hours (600 hours for Advanced Standing students) by the end of semester I and semester II at an approved and designated agency.

**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;

**Corequisite:** SOCW 534

### **SOCW 536, Adult Behavioral Health and Diagnosis, 3 Units**

This course begins a two-semester advanced clinical practice sequence focusing on adult behavioral health. Content includes advanced application of the Diagnostic and Statistical Manual for Mental Disorders (DSM-5); symptoms, diagnoses, and treatment strategies associated with psychiatric conditions; brain functioning and chemistry; psychotropic medications; and managed care expectations. Cultural and faith perspectives are integrated throughout the course using clinical best practices.

**Prerequisite:** SOCW 514 and SOCW 524

### **SOCW 537, Child and Adolescent Behavioral Health and Diagnosis, 3 Units**

This course focuses on behavioral health issues experienced by children and adolescents, and discussion of the effects of trauma on social and emotional development. Diagnostic issues affecting children and related treatment interventions are explored in the contexts of child welfare, school-based behavioral health, and healthcare settings. Research-informed approaches are taught, to improve functioning and well-being of children and adolescents. Laws impacting work with minors and families, as well as ethical issues for social work practitioners, are presented. Course content meets California education requirements in the area of child abuse assessment for LCSW licensure.

**Prerequisite:** SOCW 513, SOCW 514, and SOCW 524

### **SOCW 538, Clinical Practice with Groups, 2 Units**

This course presents different theoretical approaches and treatment strategies associated with clinical social work practice with groups. Topics include group development stages, professional ethics in practice with groups, leadership principles, diversity issues, and evaluation methods.

**Prerequisite:** SOCW 513

### **SOCW 539, Field III-Clinical Practice, 3 Units**

The purpose of field internship in the clinical specialization year is to provide a setting for students to develop advanced practice skills and an opportunity for the integration of knowledge, skills, and social work values as applied to clinical practice across the life span continuum. Students complete a minimum of 480 hours (or 600 hours for Advanced Standing students) by the end of fall and spring semesters at an approved and designated agency.

**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526;

**Corequisite:** SOCW 534

### **SOCW 540, Educational Policy, 3 Units**

This course introduces policies and legislation that impact delivery of school social work services in the United States education system. Landmark local, state, and federal policies are presented for analysis and application to the public school setting, critical for gaining an understanding of the challenges for school social work practice. Historical and current perspectives including racism, equality, and access to public education are discussed.

**Prerequisite:** Completion of foundation-year curriculum; admission to the PPS program (required for students seeking the PPSC).

### **SOCW 541, Capstone Leadership Project, 3 Units**

This course prepares students for professional leadership roles in social work settings and supports completion of the capstone leadership project. Content integrates development of leadership skills, self reflection, professional use of self, interprofessional practice, use of research to inform practice, and knowledge of program context to implement sustainable change in organizations. Professional ethics and decision making, which influence the leadership role in social work, are examined.

**Prerequisite:** All foundation courses and completion of first semester of specialization courses

### **SOCW 542, International Social Work Policy and Practice, 2 Units**

Content will focus on international social work practice at multiple systems levels. Topics will include comparison of United States' and international social welfare policy, differing theoretical and religious perspectives, neo-liberal economic development policies, globalization, and issues immigrants and other marginalized groups. Practice content will address poverty alleviation, conflict and post-conflict reconstruction, displacement and forced migration concerns.

**Prerequisite:** SOCW 522, SOCW 523, SOCW 531, SOCW 532

### **SOCW 543, Fundraising, Grant Writing, and Fiscal Decision Making, 3 Units**

This course prepares students for potential fundraising, grant writing, program design and evaluation, and fiscal decision-making responsibilities in human services organizations. Students assess local agencies and analyze funding resources, strategies, skills, and decision-making processes. Assignments focus on grant writing, developing fundraising strategies, and applying knowledge of ethical management and fiscal practices.

### **SOCW 544, Field Seminar IV, 1 Unit**

Field Seminar IV focuses on presentation and discussion of students' experiences in concentration year field internships and preparation for masters-level social work employment and licensure. Specific emphasis is placed on critical thinking and communication of professional judgments, integration of theory, assessment, intervention, and evaluation, as well as professional development issues.

**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 534, SOCW 535 or SOCW 539;

**Corequisite:** SOCW 545 or SOCW 548

### **SOCW 545, Field IV - Community Leadership and Program Administration, 3 Units**

Field internship provides a setting for students to utilize advanced community practice skills and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students complete a minimum of 480 hours (600 hours for Advanced Standing students) by the end of semester I and semester II at an approved and designated agency.

**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 534, and SOCW 535;

**Corequisite:** SOCW 544

### **SOCW 546, Family Therapy in Context, 3 Units**

This course focuses on family practice contexts and theories of child welfare and family therapy. Content includes social worker roles and scope of practice in child welfare practice, and current approaches to assisting families in the child welfare system. Also included is the demonstration and practice of family therapy, application of theory, and assessment and intervention on diverse family systems. Course material also addresses legal and ethical problem solving related to contemporary professional ethics and statutes and regulations related to family law.

**Prerequisite:** SOCW 513, SOCW 523

### **SOCW 547, Health and Behavioral Health Policy, 2 Units**

This course explores American social welfare policies relevant to health and behavioral health care. Course content includes the historical and social contexts of health and behavioral health care, and the roles of the public and private sectors in shaping contemporary trends and issues, particularly among vulnerable communities. Topics include healthcare reform, integrated care, access/treatment disparities, advocacy and policy reform, and the recovery model.

**Prerequisite:** SOCW 512

### **SOCW 548, Field IV - Clinical Practice, 3 Units**

Field internship provides a setting for students to develop advanced clinical practice skills and an opportunity for the ethical integration of knowledge, skills, values, and faith in social work. Students complete a minimum of 480 hours (600 hours for Advanced Standing students) by the end of semester I and semester II at an approved and designated agency.

**Prerequisite:** SOCW 514, SOCW 515, SOCW 516, SOCW 524, SOCW 525, SOCW 526, SOCW 539;

**Corequisite:** SOCW 544

### **SOCW 550, Advanced Standing: Intermediate Praxis, 3 Units**

Content focuses on theory/practice integration in professional social work. Students apply different worldviews and micro- and macro-level theories to case examples drawn from professional social work, and identify implications for intervention and evaluation. Models of practice involving diverse communities and social welfare organizations are explored.

**Prerequisite:** Admission to advanced standing MSW program;

**Corequisite:** SOCW 551

### **SOCW 551, Advanced Standing: Social Work Ethics and Practice, 3 Units**

This advanced-standing course provides overviews of the legal and ethical practice standards in social work, and addresses the skills required for effective engagement, assessment, intervention, and evaluation with individuals, families and groups. Assignments focus on social work practice skill development, application of documentation standards, use of evidence-informed practice methods, and integration of legal and ethical issues impacting practice.

**Prerequisite:** Completion of BSW degree; statistics course with a grade of C or higher.

### **SOCW 552, Program Planning and Evaluation, 3 Units**

Systematic program planning with a focus on outcomes is a critical component in operating effective human service programs. Over the course of this semester, you will become familiar with program design and program evaluation methodologies, and the tools most commonly used to assess human service programs. Additional topics will include identification and use of performance measures, the roles of evaluators and stakeholders, the influence of the political environment, technology applications, and applicable ethics related to program design and evaluation. At the completion of this course you will be prepared to design and implement programs and conduct outcome evaluations to ensure program efficiency and effectiveness for clients, staff and external funding sources.

### **SOCW 560, Social Work Practice in Healthcare Settings, 3 Units**

This elective course offers an introduction to social work practice in healthcare settings, with a focus on the specific knowledge and skills essential for effective intervention. Students critically analyze the U.S. healthcare system as compared to international models, and apply clinical skills and relevant laws to interdisciplinary practice while understanding the context of the political, societal, and economic influences that impact service delivery and available resources. The course also articulates how a Christian worldview relates to ethical social work practice within the field of health care.

### **SOCW 561, Treatment of Substance Use Disorders, 3 Units**

This course describes substance use disorders from a bio-psycho-social-cultural-spiritual perspective, emphasizing assessment and intervention skills, processes, and evidence-informed research relevant to treatment using the recovery model. Diversity issues involving policy and practice are explored. Course content meets California Board of Behavioral Sciences prelicensure requirement in the area of alcohol and other substance abuse assessment.

### **SOCW 562, Urban Social Welfare, 3 Units**

Course integrates on-site experiential learning with classroom education focused on urban issues of homelessness, gang involvement, and immigration. Students engage in weekly on-site learning activities in high-need areas of Los Angeles and Orange County. Content includes theological and sociological perspectives on urban issues as well as urban social work practice. Elective

### **SOCW 563, School Social Work, 3 Units**

This course uses an ecological perspective in teaching the practice of social work in schools. Topics include the historical, theoretical, legal, research, policy, and practice issues relevant to the delivery of school social work services; the roles and tasks performed by social workers in public schools; school social work practice models; and the professional code of ethics. The purpose of this course is to develop the knowledge, skills, and abilities necessary for successful and competent practice with students, families, schools, and communities.

**Prerequisite:** Completion of foundation-year curriculum; admission to the PPS program (required for students seeking the PPSC).

### **SOCW 564, Social Work and the Bible: Christian Perspectives on Service and Professional Practice, 3 Units**

This course focuses on theological and social work perspectives on the relevance of the Bible to professional practice activities. Content addresses diverse Christian perspectives on social welfare policies and faith integration in different practice environments. Distinctions between professional social work, Christian counseling, and missionary activity are explored. Elective

### **SOCW 565, Clinical Spanish Practice in Social Work, 3 Units**

This course prepares students to utilize clinical social work skills in the Spanish language, including assessment, engagement, intervention, and evaluation of services with individuals, groups, and communities. Content covers diversity issues including cultural competence and understanding of the Latino culture and its intragroup differences, equipping students to confront myths and stereotypes regarding this population. Course is conducted primarily in Spanish.

**Prerequisite:** SOCW 514 and SOCW 524

### **SOCW 566, Social Work, Health, and Aging, 3 Units**

This course explores concepts, social policies, resources, and interventions related to social work practice with the older adult population. Content integrates themes of diversity, ageism, empowerment, and faith, as well as community-based and cross-cultural competence. Content includes a focus on biopsychosocial assessment, with emphasis on functional and cognitive status, integrated healthcare practice, interdisciplinary practice, and end-of-life care. This course meets California Board of Behavioral Sciences requirements for clinical social work licensure.

### **SOCW 567, Marital Therapy and Domestic Violence, 3 Units**

This course is an overview of current theories, methods, and psychological instruments used in marriage therapy interventions. Content includes detection, assessment, and intervention strategies for spousal or partner abuse, meeting California requirements for training in the area of domestic and family violence for MFT and LCSW licensure. Students apply course material to role-play scenarios during class time. Attention is given to issues of ethnic diversity, blended families, and faith integration.

### **SOCW 568, Military Social Work, 3 Units**

This course helps students understand the unique and complex needs of active-duty service members, veterans, and family members of military personnel, presenting knowledge and skills essential to effective clinical social work practice with these populations. Topics include military culture, ethical issues, diversity, faith integration, trauma, assessment, family issues, reintegration, domestic violence, substance use, homelessness, suicide, building resiliency, and evidence-informed interventions for use in interprofessional settings.

### **SOCW 569, Human Sexuality and Sex Therapy, 3 Units**

This course reviews human sexuality as a basis for sex therapy and clinical social work involving sexuality issues. Students examine and evaluate biological, psychological, social, moral, and faith perspectives on sexual development and functioning. In addition, students survey literature on sexual dysfunction, and learn treatment strategies utilized in various social work contexts and systems of marital and sex therapy. This course meets California Board of Behavioral Sciences requirements for clinical social work licensure.

### **SOCW 570, International Social Work Policy and Practice, 3 Units**

Content focuses on international social work practice at multiple systems levels. Topics include comparison of U.S. and international social welfare policies; different theoretical, economic, cultural, ideological, and religious perspectives; neoliberal economic development policies; issues involving immigrants and other marginalized groups; and the impact of globalization and climate change on rapid urbanization and population growth. Practice content addresses poverty alleviation, conflict and postconflict reconstruction, and displacement and forced migration concerns.

**Prerequisite:** SOCW 522 and SOCW 523

### **SOCW 595, Special Topics, 1-6 Units**

Special topics courses offer graduate-level content that is typically scheduled in an intensive format. These courses include a wide range of specialized topics relevant to professional social workers. The unit values of these courses range from 1-6 depending upon the specific contact hours and coursework load. Note: Elective offerings vary year to year.

### **SOCW 599, Readings in Social Work, 1-3 Units**

Students enroll in this course to pursue independent study of professional interests/activities. Students explore topics in greater depth than in regular course offerings and/or initiate individual projects. Readings and assignments are based on learning contracts developed in consultation with a sponsoring faculty member and approved by the MSW program director. Additional fees required.

# Pupil Personnel Services Credential in School Social Work and Child Welfare and Attendance Services

Help meet the need for professional social workers equipped to serve children and adolescents in schools. Azusa Pacific's Pupil Personnel Services Credential (PPSC) in School Social Work and Child Welfare and Attendance program (<https://www.apu.edu/bas/programs/pps-credential/>) will advance your skills with a practice specialization that provides a competitive edge for employment in social work services within P-12 school settings.

Designed as a complement to the MSW degree program (<https://www.apu.edu/bas/programs/msw/>), this credential combines a solid theoretical base and evidence-informed practice models related to school social work and child welfare and attendance. Through relevant coursework and fieldwork opportunities, you will learn how to support children, parents, and school personnel while shaping a responsive environment to help children succeed academically and thrive emotionally.

- MSW Students: This credential option is available for APU MSW students pursuing the clinical practice specialization.
- MSW Degree Holders: Individuals who already hold an MSW degree and have appropriate experience may also qualify for the credential program.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

To apply for the PPSC program, you must be enrolled in or planning to enroll in APU's Master of Social Work program, or have already completed an MSW degree.

## Current MSW Student Admission Requirements

The PPSC program is open to all students enrolled in the 60-unit APU MSW program who have successfully completed foundation-level curriculum, are enrolled in the Clinical Practice with Individuals and Families specialization, and complete the PPSC program requirements as outlined below:

- Attend PPSC orientation prior to applying to a specialization field internship
- Complete the PPSC application (<https://www.apu.edu/graduateprofessionalcenter/apply/>)
- Provide a personal statement as outlined in the PPSC General Program Requirements (PDF) ([https://www.apu.edu/live\\_data/files/242/msw\\_ppsc\\_general\\_program\\_requirements.pdf](https://www.apu.edu/live_data/files/242/msw_ppsc_general_program_requirements.pdf))
- Obtain a Certificate of Clearance through the California Commission on Teacher Credentialing (CTC) website (<https://www.ctc.ca.gov/credentials/submit-online/>)
- Provide evidence of meeting basic skills requirements (as outlined by the CTC)

For more information, refer to the PPSC Auxiliary Student Handbook (PDF) ([https://www.apu.edu/live\\_data/files/242/msw\\_ppsc\\_auxiliary\\_student\\_handbook.pdf](https://www.apu.edu/live_data/files/242/msw_ppsc_auxiliary_student_handbook.pdf)) and the PPSC General Program Requirements (PDF) ([https://www.apu.edu/live\\_data/files/242/msw\\_ppsc\\_general\\_program\\_requirements.pdf](https://www.apu.edu/live_data/files/242/msw_ppsc_general_program_requirements.pdf)).

To learn more about registering, contact Karen Maynard, director of student services, at [kmaynard@apu.edu](mailto:kmaynard@apu.edu) or (626) 857-2400.

## Post-MSW Admission Requirements

Post-MSW PPSC applicants must meet the following admissions requirements:

- Hold an MSW degree from a CSWE-accredited program, with advanced coursework focused on clinical or direct practice; or have two years of post-MSW practice experience with children, youth, and families
- Provide verification of completion of a course with child psychopathology content, or evidence of 2 years of work experience with children and families
- Complete the PPSC application (<https://www.apu.edu/graduateprofessionalcenter/apply/>)
- Provide official transcripts, along with syllabi and course descriptions as needed, to provide proof of prerequisite coursework completed

- Obtain a Certificate of Clearance through the California Commission on Teacher Credentialing (CTC) website (<https://www.ctc.ca.gov/credentials/submit-online/>)
- Provide evidence of meeting basic skills requirements (as outlined by the CTC)

Note: The Certificate of Clearance and basic skills requirements are program requirements, but not conditions for admission.

Note: Applicants who have already completed the required fieldwork hours can apply to have hours verified for the credential and completed coursework only. Applicants who still need the required hours will also need to complete field internship requirements.

## Course Requirements

| Code                                 | Title                        | Units |
|--------------------------------------|------------------------------|-------|
| SOCW 540                             | Educational Policy           | 3     |
| SOCW 563                             | School Social Work           | 3     |
| <b>Field Internship <sup>1</sup></b> |                              |       |
| SOCW 534                             | Field Seminar III            | 1     |
| SOCW 539                             | Field III-Clinical Practice  | 3     |
| SOCW 544                             | Field Seminar IV             | 1     |
| SOCW 548                             | Field IV - Clinical Practice | 3     |
| Total Units                          |                              | 14    |

<sup>1</sup> Candidates can apply to have prior fieldwork hours verified by the program.

## Equipping School Social Work Leaders

Coming from a Christian-based perspective, the PPS credential faculty are committed to preparing a workforce that can advocate for and meet needs within the community and school system. During the credential program, you will:

- Learn to conduct biopsychosocial assessments, intervene in crises, identify community resources and linkages, and participate in interprofessional collaboration and consultation.
- Study alongside faculty who are active practitioners of school social work.
- For those completing the credential with the MSW, participate in fieldwork opportunities in diverse school settings to put learning into practice.
- Benefit from potential opportunities to disseminate research at local, regional, or national conferences with faculty.

This credential option builds on the MSW program's mission to develop competent advanced social work practitioners who integrate the knowledge, values, and skills of social work to advance social justice and provide services to assist individuals, families, groups, organizations, and communities within the school setting.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Understand factors that contribute to successful learning.
2. Understand and apply ways in which pupil development, well being, and learning can be enhanced by family school collaboration.
3. Apply knowledge and models of systematic and collaborative school safety planning to support a safe and secure learning environment for pupils.
4. Apply knowledge and skills of best practices to assess and reduce school violence.
5. Identify methods of addressing the needs of witnesses, victims and perpetrators of violence as related to improved behavior and enhanced teaching and learning.
6. Apply knowledge of learning theories, as well as factors that influence learning and teaching such as cognition, memory, attention skills, perceptual-sensory processes, emotional state, motivation, organizational skills, gender, cultural differences, and linguistic differences.
7. Evaluate the appropriateness of instructional strategies and activities used to teach concepts to pupils, which create positive learning environments and take into account learning assets and deficits.
8. Identify and apply models of supervision used to mentor candidates in field placements to promote professional growth and skill development.
9. Recognize the important role that supervisors play in pre-professional training of future PPSC school social workers.
10. Understand the collaborative goal of pupil success and well-being, and the role of the school social worker to work in partnerships to fully develop pupils, schools, family resources and community linkages.
11. Apply knowledge and understanding of the history, philosophy and trends in Child Welfare and Attendance (CWA) Programs and the role of school social worker.

12. Apply knowledge the professional role of the CWA Supervisor as a student advocate in relation to Child Welfare and Attendance (CWA) Programs.
13. Demonstrate knowledge and application of laws related to child welfare and attendance.
14. Apply knowledge and understanding of leadership and management of child welfare and attendance programs.
15. Gain knowledge of skill in establishing communication system for child welfare and attendance programs.
16. Gain knowledge of funding sources for child welfare and attendance programs.
17. Will be knowledgeable of case management strategies to improve attendance and CWA compliance.
18. Demonstrate knowledge and skill to develop, utilize, and maintain inter- and intra-agency collaboration and partnerships.
19. Understand the organizational culture and politics of public school and related systems particularly as they relate to the role of student advocate and the professional role of the child welfare and attendance supervisor.
20. Skills pertaining to the assessment and amelioration of barriers to learning.
21. Skills to apply alternative education pathways to improve and reduce barriers to learning.

# Support Services

## The Community Counseling Center

The Community Counseling Center (<http://www.apu.edu/ccc/>), a Christian-based counseling center, provides high-quality counseling and consulting services at a low cost to the community. Families use the center's resources to resolve life-transition dilemmas and find harmony between their values and actions. The center also enables students in APU's clinical psychology programs to develop the necessary skills to become effective therapists and/or psychologists. For more information, call (626) 815-5421.

# School of Business and Management

## Mission

The School of Business and Management (<https://www.apu.edu/business/>) is a Christ-centered community of scholars and professionals pursuing academic excellence to advance the work of God in the world, developing students of character and competence as difference makers in business and society.

## Tenets

The School of Business and Management is committed to the following core principles:

### Academic Excellence

Learning and producing scholarship in a community of excellence by:

1. Viewing students as the first priority.
2. Maintaining a dynamic teaching environment where relevant business and management theories and practical tools are imparted.
3. Engaging in scholarship that advances the thinking in related fields, informs teaching, involves students, and serves communities in practical ways.
4. Investing in campus infrastructure, technology, and alliances to enhance capabilities to learn and produce scholarship.
5. Sustaining a learning environment that fosters critical analysis and creative thinking.

### Students of Character

Learning and producing scholarship in a community of faith by:

1. Modeling and infusing a Christian perspective of truth and life throughout SBM programs.
2. Enlivening the mind and transforming the heart by developing important links between faith, learning, and application.
3. Facilitating nurturing, caring, and mentoring relationships among faculty, staff, students, and alumni.
4. Practicing God-honoring diversity.

### Advance the Work of God in the World

Learning and producing scholarship to impact the world by:

1. Helping students identify their strengths and providing mentoring to ensure those strengths are developed and utilized to benefit business and society.
2. Using experiential, real-world, and service learning to create value for students and the community.
3. Developing programs, alumni, and students that have an impact around the world.
4. Preparing students academically, professionally, and spiritually to engage their field and community in God-honoring ways.
5. Actively advancing the work of God through research, teaching, and community service.
6. Teaching the ethical conduct of business throughout all SBM programs.

## LP and Timothy Leung School of Accounting

Housed within Azusa Pacific's School of Business and Management, the LP and Timothy Leung School of Accounting (<http://www.apu.edu/business/accounting/>) focuses on developing graduates with the Christian character and competence demanded by the public accounting profession. The school offers a B.S. in Accounting (p. 740), an accounting minor (p. 764), and a Master of Professional Accountancy (MAcc) (p. 755).

## Vision Statement

To be a premier Christian accounting school, recognized as a thought leader on accounting character and competence to reflect the life of Christ and shine the light of Truth.

## Accreditation

- All Azusa Pacific University programs are accredited by the WASC Senior College and University Commission (WSCUC). (<https://www.wascsenior.org/>)
- The School of Business and Management (SBM) is accredited by the International Accreditation Council for Business Education (IACBE) (<http://iacbe.org/>).

## Undergraduate Business Programs

The School of Business and Management (SBM) provides professional career preparation in accordance with the university's Christian heritage and mission. To this end, the school has built a reputation for pragmatic and ethically based education. The curriculum blends with the liberal studies foundation provided by other schools or departments of the university.

The school encompasses diverse programs in business, management, and economics, and within these programs are multiple options for majors and minors. The school offers a Bachelor of Arts in Business Management (p. 736) and a Bachelor of Science in Business with six majors: accounting (p. 740), economics (p. 742), entrepreneurship (p. 744), finance (p. 746), international business (p. 748), and marketing (p. 750). The B.A. degree requires students to complete the common professional component (the business core) and then select elective courses deemed most appropriate for their career objectives. The B.S. degrees require students to complete the business core and courses in an area of specialization. The school also offers a Bachelor of Arts in Economics (p. 738), which requires the completion of the economics core and additional economics electives.

At the professional level, the school offers a Bachelor of Business Administration (BBA) degree completion program (p. 752) and a business administration minor (p. 765), both of which feature learning that is immediately applicable in the workplace. The relevant coursework addresses current issues in business and encourages the integration of real-world work experiences and hands-on projects. Combine these experiences with internships or international study opportunities to further expand your portfolio and network. Optional concentrations provide students the opportunities to dive deeper into the specific business areas of supply chain management, human resource development, and leading teams and people.

Curriculum content in the undergraduate business program is aligned with graduate school requirements for those who wish to pursue a Master of Business Administration (MBA) (p. 757), Master of Business Management (MBM) (p. 761), or Master of Professional Accountancy (MAcc) (p. 755).

## Graduate Business Programs

The School of Business and Management offers a Master of Business Administration (MBA) (p. 757), Master of Business Management (MBM) (p. 761), and Master of Professional Accountancy (MAcc) (p. 755). These comprehensive and intensive graduate accounting, business, and management programs develop exceptional business management professionals with outstanding moral character, strong analytical and innovative decision-making skills, and a worldview that understands and appreciates the global diversity in cultures, markets, and economies. SBM graduate programs provide advanced professional education and academic studies leading to successful careers in business firms, government agencies, and nonprofit organizations.

The graduate business and management programs are an integral part of the university's vision of scholastic leadership through excellence in academic programs, a community service focus, and deep commitment to faith that reaches across the globe. The programs further reflect the commitment of the School of Business and Management to continuously advance the university's core principles of transformational scholarship, faith integration, God-honoring diversity, and intentional internationalization.

## Programs

### Majors

- Accounting (B.S.) (p. 740)
- Business Economics (B.S.) (p. 742)
- Business Management (B.A.) (p. 736)
- Economics (B.A.) (p. 738)
- Entrepreneurship (B.S.) (p. 744)
- Finance (B.S.) (p. 746)
- International Business (B.S.) (p. 748)
- Marketing (B.S.) (p. 750)

### Minors

- Accounting (p. 764)
- Business Management (p. 766)
- Economics (p. 767)
- Entrepreneurship (p. 768)
- Finance (p. 769)
- Marketing (p. 770)

### Professional

- Bachelor of Business Administration (BBA) (p. 752)
- Business Administration Minor (Professional) (p. 765)

## Graduate

- Master of Business Administration (MBA) (p. 757)
- Master of Business Management (MBM) (p. 761)
- Master of Professional Accountancy (MAcc) (p. 755)

## Courses

### ACCT 120, Principles of Accounting I, 4 Units

This course introduces the financial accounting model and application of fundamental accounting principles. The corporate form of business serves as the primary model to demonstrate accounting principles for cash, accounts receivable, inventories, operational assets, liabilities and stockholders' equity. Students complete a computer simulation which introduces computer application in accounting.

### ACCT 121, Principles of Accounting II, 3 Units

This course introduces basic managerial accounting concepts and emphasizes the use of accounting data in decision making. Topics covered include cost accumulation models, cost behavior, break-even analysis, variable costing, budgeting, differential analysis, product pricing, capital expenditure analysis, and financial statement analysis.

**Prerequisite:** ACCT 120

### ACCT 122, Accounting Perspectives, 1 Unit

This course introduces students pursuing an accounting degree to a broad overview of the various career paths available to successful accounting graduates.

### ACCT 320, Intermediate Accounting I, 3 Units

This course offers an intensive study of the accounting theory and principles underlying financial accounting. Emphasis is placed on the theoretical and conceptual framework of the financial reporting process including the role and authority of official accounting pronouncements and the responsibilities of professional accountants. This course begins with a review of the accounting model and covers accounting theory as it relates to revenue recognition, current assets including cash, accounts receivable, inventories, and current liabilities.

**Prerequisite:** ACCT 121

### ACCT 321, Intermediate Accounting II, 3 Units

This course continues the study begun in ACCT 320, covering operational assets, intangible assets, investments, long-term liabilities, leases, income taxes, corporate capital transactions, and statement of cash flows. Emphasis is placed on the theoretical and conceptual framework of the financial reporting process including the role and authority of official accounting pronouncements and the responsibilities of professional accountants.

**Prerequisite:** ACCT 320

### ACCT 325, Cost Accounting, 3 Units

This course explores managerial accounting concepts used in planning and controlling operations, determining cost of production, inventory control and evaluation, budgeting, and long-range planning. Emphasis is placed on cost determination, cost accumulation, cost-volume-profit relationships, standard costs, variances analysis and reporting, and the relationship between controlling costs and controlling operations.

**Prerequisite:** ACCT 321

### ACCT 331, Federal Taxes I, 3 Units

This course offers an intensive study of the theory and principles of federal income tax law as it applies to individuals. Emphasis is placed on the theoretical framework and philosophy of the federal tax system as well as practical application and planning. This course covers basic concepts in the determination of income, classes of deductions, allowable credits, and property transactions. The importance of appropriate tax planning is stressed.

**Prerequisite:** ACCT 121

### ACCT 332, Federal Taxes II, 3 Units

This course offers an intensive study of the theory and principles of federal income tax law as it applies to business entities - corporations, partnerships, estates, and trusts. Emphasis is placed on the theoretical framework as well as practical application and planning. This course covers basic concepts of taxation in corporate formation and operation, partnership and S corporation formation and operation, and fundamentals of estate, gift, and trust taxation. The course also covers the tax audit process and professional tax preparer responsibilities.

**Prerequisite:** ACCT 331

### ACCT 336, Advanced Accounting, 3 Units

This course provides an in-depth study of accounting theory and principles. Topics include business combinations, consolidations, insolvency, foreign currency transactions, segment reporting, partnerships, fund accounting, and accounting for state and local governmental units and other non-business organizations.

**Prerequisite:** ACCT 321

### **ACCT 425, Writing 3: Accounting Ethics, 3 Units**

Students in this course are introduced to issues of accounting ethics that professionals encounter in practice, moral reasoning to resolve ethical dilemmas, and accountants' professional codes of conduct. Topics include major philosophical schools of thought, biblical perspectives on accountability, ethical reasoning strategies, earnings management, fraud, and corporate governance. Credit is not given for both ACCT 425 and ACCT 525. ACCT 425 does not satisfy the requirements of the Master of Professional Accounting (MAcc) program. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

**Prerequisite:** Writing 2 and ACCT 321.

### **ACCT 426, Auditing Principles I, 3 Units**

This course is an overview of auditing concepts, with special attention to auditing standards, professional ethics, the legal ability inherent in the attest function, the study and evaluation of internal control, the nature of evidence, statistical sampling, and the impact of electronic data processing. The basic approach to planning an audit is also addressed, as are the audit objectives and procedures applied to the elements in a financial statement.

### **ACCT 427, Auditing Principles II, 3 Units**

This course takes the concepts and procedures learned in ACCT 426 and applies them in a comprehensive audit case study. Students prepare audit work papers that demonstrate application of audit theory and objectives for various classes of financial statement accounts. Students are exposed to the planning, control, and review procedures used by many public accounting firms. The use of computerized audit software is covered.

**Prerequisite:** ACCT 426

### **ACCT 502, Financial Accounting, 3 Units**

This course introduces the financial accounting model and application of fundamental accounting principles. The corporate form of business serves as the primary model to demonstrate accounting principles for cash, accounts receivable, inventories, operational assets, liabilities and stockholders' equity. Students will interpret company performance by analyzing accounting statements and complete a computer simulation which demonstrates computer applications in accounting.

### **ACCT 505, Accounting Internship, 3 Units**

This course provides a practical application of principles and theory in an actual business setting through an accounting internship with a CPA firm. Students without prior public accounting internships or work experience are required to take the course.

**Prerequisite:** Acceptance into the Accountancy Program

### **ACCT 510, Accounting and Tax Research Methods, 3 Units**

In preparation for professional practice, students explore accounting research methods and tax issues utilizing professional online research databases to properly identify and focus research questions, interpret data, develop opinions, and effectively communicate the results.

**Prerequisite:** Acceptance into the Accountancy Program

### **ACCT 512, Management Accounting, 3 Units**

Students investigate the various ways management uses accounting information to make critical strategic and operational decisions such as product pricing, line extensions, and activity-based costing and to evaluate operating performance including EVA and balanced scorecard. Students discuss methods of distilling key financial and managerial accounting information, as well as motivating and aligning management to act in the firm's best interests. Case based

### **ACCT 515, Accounting Information Systems, 3 Units**

This course emphasizes the application of accounting information systems. Students gain experience in auditing data within the computer environment and learn the controls necessary to ensure the accuracy and reliability of the accounting system.

**Prerequisite:** Acceptance into the Accountancy Program

### **ACCT 520, Global Financial Accounting Standards, 3 Units**

This course compares global accounting standards of the International Financial Reporting Standards to Generally Accepted Accounting Principles standards in the United States. Topics include statements of operations, financial position, stockholders' equity, and cash flow, as well as research and development, inventories, pensions, stock options, intangibles, leases, and taxes. Students learn through in-depth analysis of contemporary financial reporting requirements promulgated by the national and international accounting standards boards.

**Prerequisite:** Acceptance into the Accountancy Program

### **ACCT 525, Accounting Ethics, 3 Units**

Students explore accounting ethics encountered in practice such as, moral reasoning to resolve ethical dilemmas and accountants' professional codes of conduct. Topics include major philosophical schools of thought, biblical perspective on accountability, ethical reasoning strategies, earnings management, fraud, and corporate governance.

**Prerequisite:** Acceptance into the Accountancy Program

### **ACCT 530, Advanced Business Law, 3 Units**

Focusing on advanced legal issues encountered in financial and commercial business transactions, this course offers an in-depth study of business law, mergers and acquisitions, sales, commercial paper, secured transactions, documents of title, bankruptcy, securities regulations, and the legal liability of accountants.

**Prerequisite:** Acceptance into the Accountancy Program

### **ACCT 535, Advanced Managerial Accounting, 3 Units**

Students investigate the various ways management uses accounting information to make critical strategic and operational decisions such as product pricing, line extensions, and activity-based costing, and to evaluate operating performance including EVA and balanced scorecard. Students discuss methods of distilling key financial and managerial accounting information, as well as motivating and aligning management to act in the firm's best interests. Case based.

**Prerequisite:** Acceptance into the Accountancy Program

### **ACCT 540, Forensic Accounting and Fraud Investigation, 3 Units**

Discussion focuses on the principles and methodology of forensic accounting, including fraud detection and prevention. Students examine consumer, management, employee, and financial statement fraud. Prevention through internal controls and evidence gathering techniques are also addressed.

**Prerequisite:** Acceptance into the Accountancy Program

### **ACCT 545, Advanced Auditing, 3 Units**

This course covers advanced auditing topics and helps students develop an understanding of auditing standards and practice through in-depth analysis of contemporary auditing theory as promulgated by the accounting profession. The course emphasizes pronouncements by the Auditing Standards Board and the Public Company Accounting Oversight Board.

**Prerequisite:** Acceptance into the Accountancy Program

### **ACCT 550, Accounting for Governmental and Nonprofit Entities, 3 Units**

Students review theory and principles applicable to nonprofit accounting and accounting for government units. Topics include financial performance measurement and the accounting requirements and reporting practices of specific types of nonprofit organizations. Government topics include objectives and principles of government accounting and budgetary, revenue, and expenditure accounting.

**Prerequisite:** Acceptance into the Accountancy Program

### **ACCT 590, Integrative Accounting Review, 3 Units**

In this course, students integrate the learning experience by completing modules related directly to CPA exam preparation.

**Prerequisite:** Acceptance into the Accountancy Program

### **BUSI 100, Personal Finance, 3 Units**

An overview of personal financial planning offers students power over financial resources, freedom to give generously, and insight for better citizenship. The course emphasizes concepts such as goal setting, budgeting, debt management, investing, major purchases, insurance, and retirement/estate planning.

### **BUSI 110, Business and Entrepreneurship, 3 Units**

This course introduces students to the role of business in society and the impact of the social environment on the firm. It acquaints students with the basic functional areas of business, including management, human resources, marketing, finance, and production.

### **BUSI 240, Introduction to Information Systems, 3 Units**

This class offers a study of the fundamentals of information systems methods and equipment, computer characteristics and concepts, and elements of programming. Business applications of computers are discussed and demonstrated. A working knowledge of personal computer productivity tools such as Web browsers, Microsoft operating systems, and Microsoft Office is provided.

### **BUSI 244, Spreadsheets and Information Technology, 3 Units**

This course introduces information technology and its application to business, emphasizing the use of spreadsheets to solve common business problems. Students learn how the components of information technology (hardware, software, databases, networks, etc.) work together to build intraorganizational information systems such as those for supply chain management, enterprise resource planning, and customer relationship management.

**Prerequisite:** BUSI 240

### **BUSI 296, Business Law, 3 Units**

The course introduces the laws affecting business transactions. Included is an overview of the legal system as it relates to business and in-depth study of contracts, sales and commercial transactions, and secured transactions.

### **BUSI 311, Quantitative Analysis for Management, 3 Units**

This course equips students with analytical and mathematical models for business decision making. Included are statistical analysis, project management, simulation, and linear programming.

**Prerequisite:** B- or better in MATH 110

### **BUSI 313, Negotiation Strategies and Skills, 3 Units**

Students in this course learn the basics of negotiation, then research and explore additional techniques that help them establish alternative criteria to expand and build upon their bargaining style. Each student is assessed on negotiating style, role playing, principled negotiation, and information gathering. Emphasis is on topics related to negotiations in a business context.

### **BUSI 350, Business Internship, 1-3 Units**

This course gives students the opportunity for practical application of principle and theory in an actual business setting through an internship. Students learn to set objectives and measure performance against those objectives in the business setting through a structured reporting process with the instructor.

**Prerequisite:** Completion of 60 units and instructor's permission.

### **BUSI 370, International Business, 3 Units**

This course presents a survey of issues in international business, with a focus on managing in an international environment, understanding the global monetary system, and developing an international perspective on business operations including production, marketing, finance, and human resources.

*Meets the General Education Requirement: Intercultural Competence.*

**Prerequisite:** MGMT 210 and MKTG 260

### **BUSI 405, Business Report Writing, 3 Units**

Students practice writing clear, well-organized, effective formal and informal reports. Evaluation and preparation of business reports, utilizing business research methods and communication techniques are emphasized. Management of data and the use of graphics also are included.

### **BUSI 430, Money and Banking, 3 Units**

This course includes a study of monetary theories and banking principles, with special reference to contemporary developments in money and banking in the United States, the Federal Reserve System, and financial investment.

**Prerequisite:** ACCT 121, ECON 250, and ECON 251

### **BUSI 495, Writing 3: Business Ethics, 3 Units**

This course focuses on the integration of Christian faith, ethical issues, and professional concerns that confront business professionals in the workplace. Students explore biblical and moral principles for ethical analysis and reflection and utilize the case method to research and write managerial responses to current ethical dilemmas in the workplace. This course fulfills the General Education Writing 3 requirement and is recommended for all business majors. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

**Prerequisite:** Writing 2

### **BUSI 496, Senior Seminar: Business Ethics, 3 Units**

This course focuses on the integration of Christian faith, ethical issues and professional concerns, which confront business professionals in the workplace with particular concern for leadership and transitions. The course will explore biblical and moral principles as related to real life case studies. In addition, the course offers the student the opportunity to complete in-depth study in a business related area to further prepare them as effective participants and leaders in the workplace. *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** Senior standing and upper-division writing intensive course, majority of God's Word and the Christian Response

### **BUSI 496H, Senior Seminar: Business Ethics - Honors, 3 Units**

This course focuses on the integration of Christian faith, ethical issues and professional concerns, which confront business professionals in the workplace with particular concern for leadership and transitions. The course will explore biblical and moral principles as related to real life case studies. In addition, the course offers the student the opportunity to complete in-depth study in a business related area to further prepare them as effective participants and leaders in the workplace. *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** Senior Standing and upper-division writing intensive course. Must also be a student admitted to the Honors College and be considered a member in 'active' status.

### **BUSI 497, Readings, 1-4 Units**

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

### **BUSI 497H, Readings - Honors, 1-4 Units**

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

**Prerequisite:** To enroll in the course, must be a student admitted to the Honors Program and be considered a member in 'active' status.

### **BUSI 511, Quantitative Analysis and Research, 3 Units**

Decision making in the business enterprise is becoming increasingly complex. This course introduces students to the research process including literature review, hypothesis development, research design, data collection, sampling, hypothesis testing, regression analysis, qualitative data analysis, and report writing. Upon completion of the course, students should be able to design, execute and present a quantitative business research project from start to finish. Laptop computers are required in each class, and students should have already mastered basic statistical analysis prior to taking this class.

### **BUSI 514, Operations Management, 3 Units**

Different business strategies require different processes, and each strategy utilizes unique capabilities to gain competitive advantage. Students in this case-based course use a process view of operations to analyze key dimensions such as capacity planning, cycle time management, role of technology, logistics and supply chain management, and quality management. Students also connect to recent developments such as lean or world-class manufacturing, just-in-time operations, time-based competition, and business reengineering.

### **BUSI 516, Organizational Behavior, 3 Units**

This course provides students with the social science tools needed to solve organizational problems and influence the actions of individuals, groups, and organizations. It prepares managers to organize and motivate the human capital of the firm, manage social networks and alliances, and execute strategic change through knowledge of competitive decision making, reward system design, team building, strategic negotiation, political dynamics, corporate culture, and strategic organizational design. Case based.

### **BUSI 519, Research Design and Program Evaluation for Nonprofits, 3 Units**

This practical methods course focuses on the available literature and research studies in the public and nonprofit sectors. In addition, it prepares students in such areas as setting research objectives, respondent selection/sample size, questionnaire development, evaluation, and the merits of conducting research in-house versus using an outside consultant or research firm. The course also covers qualitative research techniques, including depth interviews and focus groups. It includes a unit on copy testing (of brochures, direct mail, print, and video) to evaluate message communication before or after production.

### **BUSI 522, Private Enterprise and Public Policy, 3 Units**

This course provides an introduction to political economy, the role of government in a mixed economy, business-government relations, the public policy process, regulation of business, corporate political activity, and the creation of businesses to capitalize on opportunities driven by legislative or regulatory action. Case based.

### **BUSI 523, Manufacturing Operations, 3 Units**

This course provides an understanding of the concepts, methodologies, and applications of production operations management. Focus is on analysis and study of production methods and procedures available to line and staff management in various-sized U.S. and global business operations. Significant attention is given to decision-making processes appropriate for manufacturing or service organizations, including tactical and operational considerations. Coursework stresses the need and reasons for input, involvement, and interaction of operations personnel with all other disciplines and areas of a business organization.

### **BUSI 528, Consulting for Organizations, 3 Units**

This course provides an overview of the consulting and advisory process as it relates to external and internal consultation in industry. The course focuses on various aspects of the consulting process life cycle such as gaining and retaining clients, developing proposals and engagement letters, defining client needs and diagnosing problems, utilizing effective data collection and analysis methodologies, documenting information gathered, developing solutions, presenting recommendations, and managing project requirements. Several types of consulting services and related issues are addressed. Students gain experience in basic consulting skills by completing a real-life consulting project and presenting their findings orally and in writing.

**Prerequisite:** MGMT 521

### **BUSI 530, Capstone Project: Entrepreneurial Emphasis, 3 Units**

The project integrates the learning experience with a plan for development and implementation of a new, untried venture. The completed project describes the product or service offered, including necessary financing, proposed staffing, market size and niche, and the timetable associated with each element. Oral defense before a faculty panel completes the experience.

### **BUSI 532, Ethical Issues in Nonprofit Management, 3 Units**

Following introductory class sessions on moral philosophy and democratic capitalism, students explore a variety of issues/decisions confronting leaders/managers. Case study situations include such areas as stewardship, truth in advertising, social (behavior change) marketing, marketing research (privacy and confidentiality); corporate responsibility, board/staff relations (accountability), individual responsibility (limits of welfare), and global issues (government corruption, labor practices, etc.).

### **BUSI 542, Managing Cultural Differences, 3 Units**

Students learn how to identify, analyze, and plan for those elements within the cultural, economic, and political environments of international business that require specialized understanding and strategy for successful management or organized enterprise.

### **BUSI 543, International Trade and Finance, 3 Units**

Students learn about the financial-monetary-economic environment of international business. Topics include the balance of payments, foreign exchange markets and risk, trade finance, direct foreign investment, capital budgeting in the multinational firm, and the international money and capital markets. Emphasis is placed on decision making with regard to international investment and financing.

### **BUSI 548, International Business, 3 Units**

This course covers the various strategies businesses use in worldwide operations. Students explore the development of business strategies, the motivations for firms to expand operations globally, organizational challenges, and managerial implications. Students also examine political, economic, and social factors that shape the international business environment. The course focuses on competitive responses to these external pressures and identifies strategic models or approaches. Organizational capabilities, structures, and systems are examined to deliver optimal results. The necessary processes to acquire cross-border knowledge for creating joint ventures and alliances are examined. Finally, the future role of Multi-National Enterprises (MNE's) for the global economy is explored. Case and simulation based.

## **BUSI 550, Capstone Project: International Emphasis, 3 Units**

Students submit a business plan that summarizes the major areas within international business from organization to quantitative methods. Methodology and underlying theories are presented through an exploration of the present international business environment. Oral defense of the completed project before a faculty panel is required.

## **BUSI 551, Situation Analysis and Diagnosis, 3 Units**

This course introduces the purpose, methods, and skills of situation analysis and diagnosis in carefully selected case studies. Students benefit from a focused approach to interpreting, understanding, and developing skills to discover appropriate conclusions in differing business environments and situations.

## **BUSI 552, Comparative Management, 3 Units**

The course enables the international business student to understand how management objectives, goals, practices, and business-government interaction are related to the cultural settings in which they take place. The course includes: analysis of international similarities and differences in managerial functions, structure and process, etc., in light of environmental factors; identification of the impact and results of different management practices; and an inquiry into the 'universals' of management.

**Corequisite:** BUSI 551

## **BUSI 555, Integrated Decision Making in Nonprofits, 3 Units**

This course, taken in the student's final semester, develops the students' ability to understand the decision-making process and execute the steps involved in identifying, evaluating, and implementing an effective business strategy for a nonprofit organization. The purpose is achieved as students identify their organization's mission, primary customers, and specific goals by integrating the functional knowledge acquired in previous nonprofit courses (i.e., management, marketing, finance, research, ethics, etc.) and by developing a comprehensive strategic plan for a new organization, an existing organization, or from the perspective of an organization that wants to review its current offerings. As such, the course also examines factors unique to a nonprofit (e.g., involvement of the board and lay members, government funders, communication with various customer groups, and assuring congruence between organizational mission and the strategic plan).

## **BUSI 561, Fund Development: Planning, Implementing, and Evaluation, 3 Units**

This course examines the principles and methods of fundraising that respond to one's understanding of what donors, funders, and volunteers value, that is, what inspires their giving and how to develop and nurture these relationships. It uses case studies to demonstrate successful/unsuccessful promotional techniques, including advertising campaigns, direct mail, and special events. It also explores such areas as if/when to use consultants and special forms of planned giving. Finally, the course includes units on philanthropy/corporate giving and foundations, as well as a unit on grant writing.

## **BUSI 562, Effective Nonprofit Leadership and Management, 3 Units**

This course addresses the questions: What are the characteristics of effective leadership and management? How can one organize for success and evaluate/strengthen the work already done? It explores the fundamental challenges to effective leadership including defining and articulating the organization's mission, identifying and understanding the multiple 'customers' served, and identifying and prioritizing the critical managerial tasks that must be successfully executed. As such, it examines the roles of the executive director, the board, staff, and volunteers. Finally, this course introduces students to the Drucker Formulation Self-Assessment Tool for Nonprofit Organizations based on management expert Peter F. Drucker's principles of management.

## **BUSI 563, Public Accounting: Legal and Financial Issues in Nonprofit Management, 3 Units**

This course introduces the legal and financial issues relevant to managing a 501 (c)(3) nonprofit organization. Issues addressed include organizing the entity, qualifying for and maintaining nonprofit status, fundraising, and nonprofit enterprise. Financial areas covered include the principles of fiscal responsibility for nonprofits as well as cost accounting, budgeting, the presentation of financial statements, proposed development, and in-kind resources.

## **BUSI 564, Strategic Marketing for Nonprofits, 3 Units**

This course provides an introduction to the field of strategic marketing of nonprofit organizations (e.g., educational institutions, churches, the public and social sectors, health services, and the arts). The course texts, outside readings, videos, case studies, and class exercises focus on understanding three areas of effectiveness: 1) what makes an organization effective or not; 2) how individuals can improve their own effectiveness as managers, staff, or volunteers; and 3) how promotional strategies can be used to enhance the organization's effectiveness.

## **BUSI 569, Nonprofits in America: History, Philosophy, and Tradition, 3 Units**

This introductory course traces the history, philosophy, and societal role of nonprofits in the United States and how the independent sector today compares organizationally to business and government. As such, it examines the roles of government (at the state and federal levels), religion and churches (including constitutional issues), business (corporate philanthropy), and the rights/responsibilities of individuals (e.g., natural law and contemporary public policy).

### **BUSI 576, Business Internship, 3 Units**

This course gives students an opportunity to apply educational principles, theory, and disciplinary skills to a position with an organization, either for-profit or not-for-profit. Students are responsible for obtaining employment, and must submit the application for appropriate internship approvals. They also learn to set objectives and measure performance against those objectives in a business or related setting through a structured reporting process with the instructor. Projects and assignments are due throughout the term.

**Prerequisite:** Appropriate employment for internship, completion of 30 units of coursework, and instructor's permission.

### **BUSI 577, Global Field Study, 3 Units**

This course provides the framework for graduate students to register for and complete a global field study in various countries around the world. During the course, students conduct corporate visits to business firms locally and around the globe to discuss how they apply and practice the business management principles, concepts and theories covered in the graduate curriculum.

### **BUSI 581, Strategic Leadership, 2 Units**

Students learn to set an organization's strategic direction, align corporate organizational structure to implement strategy, and lead individuals. Students explore the power and strategic importance of their own formation and identity as a leader in creating value, mobilizing resources around opportunities, and influencing others through their corporate role. Class discussions serve as a framework for exploring high-performance impact, corporate culture, reputation, leading strategic change, and leadership theories and styles, with particular attention to servant leadership as an extension of a Christian worldview. Students further explore informal and formal authority and the strategic connection between personal leadership and organizational effectiveness.

### **BUSI 583, Integrated Decision Making, 3 Units**

Students seek to develop the capability to appreciate and carry out the decision-making processes involved in identifying, evaluating, selecting, and implementing strategy in a company. This purpose is achieved by requiring the student to set goals, analyze business problems, develop a framework for making decisions to reach these goals, integrate the functional knowledge acquired in previous courses, and experience, through computer simulation business cases, the processes and functions performed by executive officers in meeting goals, and coping with an uncertain business environment.

### **BUSI 590, Capstone Project, 3 Units**

Intended for students with extensive workplace experience, this comprehensive capstone provides an opportunity for students to integrate their learning through the formulation of a corporate report providing strategic direction to a national, international, or global business. The completed strategic plan describes the general economic process applied to a business selected by the student: seasonal sales cycle, inflation/recession tendencies, and product life cycle. Emphasis is placed on the development of strategies, economic analysis, and flexibility of strategic alternatives within the plan.

### **BUSI 591, Marketing Strategy for Competitive Advantage, 3 Units**

This course concentrates on the strategic issues encountered in marketing, in terms of total corporate and business strategy. Emphasis centers on matching internal strengths with outside opportunities, giving attention to weaknesses of the firm and threats from the environment. The goal is attainment of a sustainable competitive advantage.

**Prerequisite:** MGMT 578

### **BUSI 592, Financial Strategy for Competitive Advantage, 3 Units**

This seminar stresses the enterprise-wide view of the strategic management of financial resources. Lectures and case studies present the tools and perspective necessary to gain a competitive advantage through financial management.

**Prerequisite:** FIN 513 and MGMT 578

### **BUSI 593, Manufacturing Strategy for Competitive Advantage, 3 Units**

This course concentrates on the strategic issues encountered in the manufacturing processes. Manufacturing is recognized as an important strategic resource which can provide major competitive strengths for a business. Today's manufacturing managers must look to the future to plan, set objectives, initiate strategy, establish policies, and commit resources. The goal is attainment of a sustainable competitive advantage.

**Prerequisite:** MGMT 578

### **BUSI 594, Emerging Trends in Information Technology, 3 Units**

This course, intended for students without a background in information technology (IT), surveys current topics in IT and their impact on business, management, organizations, and society. Course topics include business intelligence, cybersecurity, business analytics, social networks, data visualization, agile software development, and business process management. Students develop a sufficient understanding of how organizations can utilize technologies, get hands-on skill development using real-world tools and deliverables, and explore management and organizational issues associated with technological change.

### **BUSI 595, Capability Design and Management of Strategic Change, 3 Units**

Management capabilities and components, strategic diagnosis, and capability design are addressed. The course introduces state-of-the-art, real-time planning systems, including crisis management. Evaluation of organizational dynamics during discontinuous strategic changes is addressed. Strategic diagnosis and capability design are applied to a successful operation of a corporate firm.

## **BUSI 597, Field Experience, 2 Units**

This program of study exposes students to the inner workings of several different organizations, research and development, and manufacturing facilities. The commonalities and differences students observe stimulates their thinking with regard to what matters and what works. The course consists of an intensive fieldwork experience as well as assigned readings that focus on firsthand experiences of business leaders. Grading is Pass/Fail.

## **BUSI 598, Executive Seminar, 1 Unit**

This seminar introduces contemporary issues within business, human resources, and/or organizational development, and their impact on organizational effectiveness. Seminars focus on skill development to improve working environments and interactions among employees, leaders, organizations, and communities. May be taken three times with different topics.

## **BUSI 599, Readings in Business, 1-3 Units**

Students may enroll in an independent study for unit credit to investigate subjects and interests that lie beyond regular course offerings, explore topics in greater depth, and/or initiate individual projects. Such requests must be developed in consultation with a sponsoring faculty member and be approved by the graduate program chair and dean. Unit credit varies depending on the scope of the study plan.

## **ECON 250, Principles of Macroeconomics, 3 Units**

This course provides an introduction to concepts and tools of economic analysis for macroeconomics. Students study national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. *Meets the General Education Requirement: Social Science.*

**Prerequisite:** C- or better in MATH 110 or MATH 151 or MATH 165, or 60 or higher on the ALEKS math placement assessment.

## **ECON 251, Principles of Microeconomics, 3 Units**

This course provides an introduction to concepts and tools of economic analysis for microeconomics. Students study the interactions of firms and consumers: consumer demands, firm costs, price determination under various market structures, and the role of government in a market economy.

**Prerequisite:** C- or better in MATH 110 or MATH 151 or MATH 165, or 60 or higher on the ALEKS math placement assessment.

## **ECON 350, Intermediate Macroeconomics, 3 Units**

This course develops more complex economic models applicable to the study of such topics as economic growth; the effects of monetary policy on business cycles, prices and interest rates; government spending and debt; and the macroeconomy with trade.

**Prerequisite:** ECON 250; MATH 151 or MATH 165

## **ECON 351, Intermediate Microeconomics, 3 Units**

This course expands the concepts and tools of economic analysis developed in the Principles of Microeconomics course. The course develops more in-depth models of interactions in society: consumer choice, firm decisions, perfect and imperfect competition. Issues of uncertainty and strategic interaction are addressed as well as extensions to multiple markets.

**Prerequisite:** ECON 251; MATH 151 or MATH 165

## **ECON 355, Environmental Economics, 3 Units**

This course applies economic perspectives and analytical tools to the study of environmental problems. It focuses on decisions that have environmental impacts and on the economic impact of environmental policies. The effect of business activities on the environment and the effects of policy on business are of specific concern.

**Prerequisite:** ECON 251

## **ECON 356, Labor Economics, 3 Units**

This course examines the allocation of labor in a society among its various possible uses. Students consider the role of markets in allocating this labor, issues of market power, and the role of government policy in accomplishing social objectives. Wage determination, job search, and labor productivity are also discussed.

**Prerequisite:** ECON 251

## **ECON 357, Economics of the Developing World, 3 Units**

This course introduces students to the economic and social issues confronting the majority of people in the world. Students survey the current conditions of people in the developing world and build ways of understanding the complex issues that they face. Using these tools, students examine economic and financial infrastructure, political conditions, levels and trends in poverty and income distribution, job creation and economic growth, health and education, and environmental conditions which all affect the state of 'development' of a people.

**Prerequisite:** ECON 250 and ECON 251

## **ECON 359, Urban and Regional Economics, 3 Units**

This course combines the disciplines of economics and geography. Economic interactions among individuals, firms, and governmental units are analyzed geographically by focusing on central cities, suburbs, and outlying regions. Within this urban and regional context, this course places particular emphasis on market forces, land use, transportation, crime, housing, and local government. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

**Prerequisite:** ECON 250 and ECON 251

## **ECON 371, Comparative Economics, 3 Units**

Students are offered an integrated treatment of policy, institutions, business, and international trade theory within the different types of economic systems. The values that societies hold are examined as reasons for why different systems are chosen in different countries. The course studies the economics of both market economies and socialist economies, examining their domestic and international policies toward economic interactions.

**Prerequisite:** ECON 250

## **ECON 452, Econometrics, 3 Units**

This course introduces students to econometric analysis to better understand the economic environment. Cross-sectional regression analysis and time series methods are covered, and serial correlation and heteroskedasticity are addressed. Panel data methods are introduced, as well as such topics as instrumental variables and simultaneous equation estimation.

**Prerequisite:** ECON 350; ECON 351 (may be taken concurrently); MATH 130 or MATH 361

## **ECON 453, Microfinance and Microenterprise, 3 Units**

Microfinance and microenterprise development are strategies for strengthening the economic opportunities of poorer households to enable families to build assets, provide income, and plan for a better future. This course examines these approaches in depth and evaluates the effectiveness of various projects at accomplishing their stated goals.

**Prerequisite:** ECON 250, ECON 251, and Junior Standing

## **ECON 454, Industrial Organization and Regulation, 3 Units**

This course investigates the importance of market structure for firm and consumer outcomes beyond the standard perfect competition and monopoly models. Students will learn to incorporate real world attributes into their understanding of market activity through case studies and advanced market models. Topics to be addressed include cartels, entry and exit, oligopoly, price discrimination, and research and development.

**Prerequisite:** ECON 351; ECON 350 (may be taken concurrently)

## **ECON 458, Economics and Religion, 3 Units**

This course provides students an opportunity to examine the relationship between religion and economic life in terms of individuals' actions and the elements of the economic system. In particular, students examine the relationship between economic behavior/institutions and Islam, Confucianism, and Christianity.

**Prerequisite:** ECON 350, ECON 351 (may be taken concurrently), Junior Standing.

## **ECON 497, Readings, 1-4 Units**

This program of study concentrates on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time faculty member.

## **ECON 502, Business Economics, 3 Units**

This course provides a survey of the concepts and tools of economic analysis of both microeconomics and macroeconomics. Students study the basics of interactions between firms and consumers: consumer demands, firm costs, production decisions, resources utilization and price determination under various market structures, market entry and exit decisions, and the role of government in the markets of an economy. Students learn the basic mathematical models needed to begin analyzing business decisions. Students also develop basic tools to analyzing the fundamentals of national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. A number of current national and international issues will be analyzed using these tools.

## **ECON 521, Managerial Economics, 3 Units**

Students learn to think strategically about the economic environment in which a firm operates. The first half of the course covers the foundations of microeconomics (supply and demand, market price and output, production, cost, and simple competitive market equilibrium). The second half deals with applying microeconomic theory to economic strategy, including more sophisticated pricing and competitive strategies. Case based.

## **ECON 575, Global Business Economics, 3 Units**

This course covers the concepts of global economics, measurement of economic performance, macroeconomic indicators affecting the global business environment, sources of country-specific economic data and data evaluation, microeconomic analysis of decisions in multinational firms, and economic performance forecasting. It also explores the global economic environment of business, including socioeconomic goals and policies that impact multinational business performance and global business strategies, as well as international economic forces influencing business decisions and the firm. It further explores global business economic cases featuring methodology and research perspectives of economics and the contribution of the economics paradigm to business decisions and processes.

**Prerequisite:** ECON 521

## **ENTR 210, Small Business Ventures, 3 Units**

Students in this course apply their leadership, problem-solving, and strategy skills to consider how winning entrepreneurs think, act, and perform, then establish goals to practice emulating those actions, attitudes, and strategies. New venture creation is about the process of getting a new venture started, growing the venture, successfully harvesting it, and starting again.

**Prerequisite:** BUSI 110

### **ENTR 312, Creativity and Innovation, 3 Units**

Students in this course investigate innovation in the corporate setting and the personal creative process, with an emphasis on understanding the role innovation plays in corporate success. Via lectures and personal exercises designed to build information content and a repertoire of specific techniques, students learn and apply the practical toolkit for sharpening and implementing their innovative and creative skills.

**Prerequisite:** BUSI 110

### **ENTR 314, Entrepreneurial Management, 3 Units**

Students apply their creative and innovative talents while sharpening their analytical abilities. Students will develop a new business idea and craft it into a comprehensive business plan that details the qualitative (e.g. business modeling and milestone planning) and quantitative (financial forecasts and valuation) process of bringing a new venture idea to fruition. The business plan that each team develops is an operating plan for a start-up company or a new venture within a larger corporation.

**Prerequisite:** ENTR 310

### **ENTR 315, Social Entrepreneurship, 3 Units**

Social entrepreneurship is an emerging and rapidly changing field dedicated to the starting and growing of social mission-driven ventures - organizations that strive to advance social change through innovative solutions. This course exposes students to viable business models in social enterprise, focusing on the ideas, process, steps, and strategies required for creating new social ventures. Through lectures, case studies, and classroom dialogue, students will learn to think strategically and to act opportunistically with balanced social and financial perspective.

**Prerequisite:** BUSI 110

### **ENTR 420, Entrepreneurship and Innovation Practicum, 3 Units**

This course gives students practical experience through guest speakers and company visits, and through work in an entrepreneurial or innovative organization, with students translating those experiences into academic learning. With close guidance from practicum faculty, students identify and work with a business or a public or nonprofit organization. Working individually or in small teams, students complete a defined project of approximately 100 hours that has practical value and academic rigor. Students provide regular status reports and receive faculty coaching during the practicum.

**Prerequisite:** Junior standing

### **ENTR 520, Entrepreneurial Decision Making, 3 Units**

This course covers the tactical and strategic decisions that are essential for successfully starting and managing a new business. The course provides the framework for students to learn the application of practical business knowledge and tactics in transforming entrepreneurial vision into winning business strategies and thriving entrepreneurial ventures. Students learn the techniques for successful entrepreneurial decisions, including modeling successful business and strategic plans; effectively targeting, evaluating, and identifying alternate financing sources; competitive pricing, product differentiation, and market targeting as key drivers for sales growth and profitability; and effective competitive and risk assessment, analysis, and management.

### **ENTR 524, New Venture Creation, 3 Units**

Students review the experiences entrepreneurs encounter in conceiving and launching a business. The course combines personal assessment and involvement exercises with an emphasis on group interactions, personal planning, and contemplating an entrepreneurial career. Team activities, personal planning exercises, new venture simulation, and case studies are utilized. Students analyze factors affecting purchase decisions in the marketplace, apply behavioral and social science concepts to the study of buyer behavior, and study methods that organizations use for personal selling, sales promotion, public relations, the art of negotiating, and other forms of promotion to communicate with customers and prospects.

### **ENTR 525, Entrepreneurial Venture Analysis, 3 Units**

This course covers case studies and analysis of entrepreneurial ventures and the identification of the different ways management concepts and techniques are applied in developing innovative businesses, standardizing products, designing processes, and operating tools. The course explores the identification of the systems and analytical decision models applied in various entrepreneurial operating functions and the techniques for setting performance standards and designing the activities required to drastically upgrade the yield from resources in order to create new markets and new customers. It evaluates the complex dynamics of entrepreneurial challenges in modern theory and practice through the use of case studies of entrepreneurial ventures.

### **FIN 300, Business Finance for Managers, 3 Units**

This course introduces concepts and tools of business finance for managers. Students study financial statements and their interpretation, business performance measures, the management of cash and the short-term financial needs of the organization, and how to make good capital budgeting decisions. Credit is not given for both FIN 300 and FIN 320. FIN 300 does not satisfy the prerequisites of any course requiring FIN 320 as a prerequisite.

**Prerequisite:** ACCT 120, MATH 110; business management majors only.

### **FIN 320, Principles of Corporate Finance, 3 Units**

Students in this course explore the principles and practices of financial management. Sources and methods of raising capital, allocation of funds within the firm, cash flow and financial statement analysis, financial markets, and capital budgeting techniques are addressed. Additional concepts covered include present-value analysis, long-term financial planning, risk and return, and basic derivatives.

**Prerequisite:** ACCT 120 and BUSI 311 or MATH 151 or MATH 165 (May be taken concurrently)

### **FIN 330, Financial Analysis, 3 Units**

This course equips students with the necessary tools of financial statement analysis for business valuation and strategic considerations. Students explore the ideas of ratio analysis and time value of money in discounted cash flows in order to analyze the financial conditions of a business organization. Course material also covers credit analysis and corporate finance issues such as merger and acquisition and debt financing. Case studies are used extensively.

**Prerequisite:** ACCT 121 and FIN 320

### **FIN 331, Managerial Finance, 3 Units**

This course extends the concepts and methodologies introduced in Principles of Finance to incorporate the practical uses as a manager in an organization. The course places emphasis on managerial decisions using spreadsheet applications. Topics include: financial statement analysis, project analysis, long-term financial planning, risk and return, and basic derivatives.

**Prerequisite:** FIN 320 or Instructor's consent

### **FIN 338, Applied Portfolio Management, 3 Units**

Students in this course engage in practical application of financial investment principles and theory through a portfolio management opportunity in a business setting. Students learn to set portfolio objectives and measure performance against specific metrics in the business setting through a structured reporting process with the instructor.

**Prerequisite:** FIN 320 and MATH 130

### **FIN 352, Financial Markets and Institutions, 3 Units**

This course covers financial markets, instruments, and institutions, with students examining the roles of depository institutions, insurance companies, and others in the process of intermediation. The structure of financial markets, recent developments in financial instruments, interest rate determination, and the regulatory environment are discussed.

**Prerequisite:** ECON 250 or instructor consent; B- or higher in MATH 110

### **FIN 372, International Trade and Finance, 3 Units**

Students study the theory and practice of international trade and international finance. The course addresses questions of why countries trade, what they trade, and national and global trade policies. Also, foreign exchange markets, exchange rate determination, foreign direct investment, and international capital markets are studied.

**Prerequisite:** ECON 250 and ECON 251

### **FIN 432, Investment Analysis, 3 Units**

This course introduces the student to the basic tools of investment analysis and integrates these with the actual operations of investments and portfolio construction. The emphasis is on providing analyses of asset selection with an experience of real market activities.

**Prerequisite:** FIN 320; MATH 151 or MATH 165, FIN 352 (may be taken concurrently) or Instructor's consent

### **FIN 434, Derivatives, 3 Units**

This course prepares students with a basic understanding of derivatives of financial assets and commodities (such as futures, options, swaps, etc.). Pricing of these derivatives and their function in hedging and speculation is discussed. Recent innovations of pricing models for instruments such as interest rate derivatives, exotic options, and assessment of market risk based on the market prices of derivatives are also covered.

**Prerequisite:** FIN 432, MATH 130

### **FIN 436, Financial Risk Management, 3 Units**

The course introduces students to the theory and management tools of risk management and financial innovation, including the use of different combinations of financial assets and derivatives to immunize an organization's market risk. Topics include dynamic hedging using derivatives such as futures and options, and possibly the development of new products (or combinations) to protect a business or portfolio from exposure to financial risk.

**Prerequisite:** FIN 320, FIN 338 (may be taken concurrently), and FIN 432 or instructor's consent

### **FIN 439, Seminar in Finance, 3 Units**

This course covers case studies in corporate finance, such as corporate strategy and structure, capital structure and payout policy, raising capital, corporate restructuring, and corporate governance. The course provides students with an understanding of the strategic issues of corporate financial management. In particular, advanced topics such as assessment and analysis of market volatility, evolution of financial structures, and strategies are also covered.

**Prerequisite:** FIN 330, FIN 432 or instructor consent

### **FIN 502, Business Finance for Managers, 3 Units**

This course provides an introduction to concepts and tools of business finance for managers. Students study financial statements and their interpretation, business performance measures, the management of cash and the short term financial needs of the organization, and how to make good capital budgeting decisions. Students will analyze company performance and make recommendations by applying class content to financial issues.

### **FIN 513, Corporate Finance, 3 Units**

Students in this course examine how financial decisions can affect the value and health of firms. Topics include cash flow and ratio analysis, discounted cash flow analysis, stock and bond valuation, investment criteria and decisions, capital budgeting, capital structure decisions, risk-return analysis, and long-term and short-term financing decisions. In addition, students read and discuss articles related to God's financial principles.

**Prerequisite:** ACCT 512

### **FIN 526, Capital Formation, 3 Units**

Students study the market processes by which resources are allocated, from the capital formation of economic activities of the economy's various sectors to the financial activities in the money and capital markets. Specifically, the course includes the use of flow of funds analysis as applied to capital markets and various financial chronicles as sources for explaining and predicting economic behavior; the theory and reality of the interest rate structure; the nature of various capital markets and their securities; knowledge of corporate debt and equity instruments; federal, state, and local government securities; and mortgages. This course leads to a basic knowledge and understanding of the sources and uses of funds and the role of financial intermediation in the growth and development of economies.

**Prerequisite:** FIN 513

### **FIN 536, Entrepreneurial Finance, 3 Units**

This course examines the financial decisions of entrepreneurs and venture capital investors based on the stages of a venture development. Topics include financial options for entrepreneurs and investors, preparations for and analysis of a new business' financial statements, and the valuation of the venture.

**Prerequisite:** FIN 513

### **FIN 546, Investments, 3 Units**

This course provides students with the study of financial instruments. Along with the knowledge of investment principles, students focus on the decision process for evaluating various investment opportunities. In addition, students discuss their stewardship responsibilities to God as individual Christian investors and Christian financial managers in a corporation.

**Prerequisite:** FIN 513

### **FIN 567, Advanced Financial Analysis, 3 Units**

Students explore the practical applications of financial management based on case studies. Major topics include financial statement analysis, financial forecasting, cost of capital estimation, capital budgeting decisions, capital structure decisions, equity financing, and mergers and acquisitions.

**Prerequisite:** FIN 513

### **HROD 500, Foundations of Human Resource Development, 3 Units**

The course provides an introduction to and overview of the field of human resource development with emphasis upon its historical and philosophical foundations. Theories and concepts relevant to the field are analyzed. Special emphasis is placed on the roles and functions of OD professionals within organizations and understanding the basic competencies of professional practice.

### **HROD 501, Organizational Design and the Psychology of Work Behavior, 3 Units**

This course examines the fundamental theories and viewpoints on the nature of work, its role in adult life, and the function of employment organizations. Included is discussion of forces impacting individual, group, and system performance and productivity within complex sociotechnical systems. Particular emphasis is placed on examining the role of work in the growth and functioning of humans and in identifying the characteristics of organizations in which both the human needs of the people who compose the organization and the organization as a productive, adaptive entity are satisfied.

### **HROD 512, Employee Development, 3 Units**

This course introduces theories of human growth and development as a foundation for understanding the developmental challenges facing individuals during their lifespans. Specific implications and applications are made related to how human growth and development is effected by and affects organizational life.

### **HROD 520, Career Development Systems, 3 Units**

Students study the emerging field of career planning and development related to initial and ongoing professional development. Current literature, relevant theories, and major approaches to career planning and development are examined in accordance with career planning and development approaches in organizations. Students use various self-assessment tools and diagnostic instruments to evaluate data on their own work histories, interests, skills, and values.

### **HROD 530, Labor Law and Negotiations for Human Resource Professionals, 3 Units**

This course provides a brief introduction to the pervasiveness and importance of labor law and negotiations. All human resources professionals must understand labor law and the rights given to employees pursuant to those laws, regardless of whether the employees are members of a union. Professionals must also be thoroughly versed in collective bargaining and the labor relations process in order to be prepared to work for companies whose employees are either represented by a union or are seeking to join a union. Course material equips students for these tasks, as well as for involvement in negotiating agreements and resolving conflicts, such as collective bargaining agreements, agreements with benefit plan providers, individual employee claims, and the terms of employment for new employees.

**Prerequisite:** MGMT 517

## **HROD 531, Designing and Managing Compensation and Benefit Systems, 3 Units**

This course provides a solid understanding of the art of compensation practice and its role in promoting companies' competitive advantages. Compensation systems in organizations must be linked to organizational objectives and strategies. Scholars and managers agree that the way compensation is allocated among employees sends a message about what management believes is important and the types of activities it encourages. With the responsibility of administering compensation expenditures wisely, HR professionals must balance the interests and costs of employers with the needs and expectations of employees.

**Prerequisite:** MGMT 517

## **HROD 532, Human Resource Law, 3 Units**

Human resources professionals are routinely called upon to navigate a number of legal issues. This course introduces the major laws governing human resource management in the work place beginning with the core skills it takes to safely interview job candidates, counsel employees, and mediate disputes. Students gain a thorough understanding of EEOC and ADA regulations and learn how to comply with the Family and Medical Leave Act. Emphasis is on the laws about unlawful discrimination, recruiting, hiring, promotions, harassment, and reasonable accommodation.

**Prerequisite:** MGMT 517

## **HROD 550, Instructional Design and Training Methods, 3 Units**

This course focuses on methods to assess an organization's training and development needs, and designing and implementing training programs to address those needs. Analysis and application of adult-learning theories in relation to program design are explored. Methods of instructional design and course development are emphasized.

## **HROD 575, Leveraging Diverse Community Partnerships, 3 Units**

Students gain an in-depth understanding of the recruitment and retention of diverse workforces. This course gives students practical methods for recruiting employees from diverse backgrounds through the development of culturally sensitive marketing and recruiting materials. It also addresses issues regarding the management, retention, and advancement of employees from diverse backgrounds.

## **HROD 576, Managing in a Multicultural Context, 3 Units**

This course focuses on developing an understanding of diversity and cultural difference. Students examine effective and ineffective management techniques and learn helpful approaches to conflict resolution in multicultural work environments.

## **HROD 577, Cultural Explorations in Global Business, 3 Units**

Future business leaders engage their own and others' cultures in the context of a global marketplace while understanding how those cultures may impact the bottom line. Students also investigate the complexities of company demands to increase compliance with international business standards.

## **HROD 578, Recruiting and Retaining a Diverse Workforce, 3 Units**

In leveraging diverse community partnerships, students learn practical methods for developing culturally sensitive marketing campaigns for the purpose of recruiting diverse employees into multiple areas of industry. Also, issues regarding management and retention of employees from diverse backgrounds are examined, including glass ceiling issues.

## **HROD 599, Readings in Human and Organizational Development, 1-3 Units**

Students may enroll in an independent study for unit credit. In this course, students investigate subjects and interests that lie beyond regular course offerings, explore topics in greater depth, and/or initiate individual projects. It provides an opportunity to identify and develop an area of study of particular concern to the individual learner. Readings are pursued in accordance with a study plan developed in consultation with a sponsoring faculty member and approved by the graduate programs chair and dean. Course requirements typically involve a literature review and submission of a paper. Unit credit varies depending on the scope of the study plan.

## **IBUS 374, Topics in International Management and Strategy, 3 Units**

Students in this course analyze operational management issues encountered in international and culturally diverse enterprises. Course material may focus on human resource management, production management, cross-cultural issues, or strategic planning and implications for the firm.

**Prerequisite:** BUSI 370

## **IBUS 479, Import/Export Practicum, 3 Units**

In this project-based class, students gain practical knowledge of the business of imports and exports. Students are expected to start a one-semester small business importing a product from abroad and selling it domestically. Key assignments may include a market analysis, sourcing analysis, business plan, importing a sample, and selling the sample. Students have freedom of scope and scale when deciding which product(s) should comprise the project.

**Prerequisite:** BUSI 370 or instructor consent

## **MGMT 210, Principles of Management, 3 Units**

In this course, elements of planning, organizing, leading, and control are covered. Particular emphasis is given to organizing and actuating responsibility and authority, delegation, decentralization, the role of staff, line-staff relationship committees, boards of directors, organization charting, formal and informal organization, communication, and reaction to change.

## **MGMT 311, Leadership In Management, 3 Units**

This course covers contemporary theories, principles, and practices of leadership within the context of managing businesses and organizations, introducing leadership topics such as change management, developing leaders and followers, and organizational communication. Significant attention is given to students' personal assessment and evaluation of their personality, strengths, leadership styles, and work, in order to establish a leadership and management identity.

**Prerequisite:** MGMT 210

## **MGMT 312, Managing Teams and Groups, 3 Units**

This course introduces students to essential theories and concepts for analyzing, understanding, and managing groups and teams in the workplace. The course examines components that comprise teams, helps students develop skills in diagnosing opportunities and threats that face teams, and enhances teamwork expertise. Significant time is spent exploring interpersonal processes, conflict resolution, and characteristics that influence the effectiveness of a team. This course also provides an understanding of principles and processes necessary for leading teams effectively in a wide variety of situations.

**Prerequisite:** MGMT 210

## **MGMT 335, Real Estate Management, 3 Units**

This course offers an introduction to real estate principles and practices, essential real estate law, practices incidental to ownership, real estate brokerage, and property evaluation.

## **MGMT 350, Business Management Internship, 3 Units**

This course gives students the opportunity to apply their knowledge of principle and theory, and practice their skills and abilities, in an actual business setting through an internship. Course format is similar to that of an independent study, combining in-class meetings, online lesson plans, and real-life work experience. *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** Completion of 60 units, and instructor consent.

## **MGMT 410, Production Management, 3 Units**

This course focuses on decision making and allocation control regarding personnel, materials, and machine utilization in a manufacturing environment. Handling and control of materials, inventory, purchasing, and quality control are addressed. Students also learn about setting standards and developing skills in estimating, forecasting, and scheduling.

**Prerequisite:** MGMT 210, MATH 110

## **MGMT 440, Business Process Management, 3 Units**

Business processes are the core of organizations, providing service to customers, impacting operations and cost structures, and defining enterprise software requirements. In this course, students explore what business processes are-how they are defined, documented, and managed. The course introduces the role of business architect as the initial developer of an enterprise software solution, and features real-world software tools, since software develops (and demands) a deeper understanding of the complexity and nuances associated with business process management. The course is suitable for all business students, since technology has become such a critical component of business.

**Prerequisite:** BUSI 240

## **MGMT 445, Human Resource Management, 3 Units**

Students in this course study the human factors in modern business, particularly how they affect and are influenced by labor-management interactions and personnel relations, techniques, and procedures.

**Prerequisite:** MGMT 210

## **MGMT 448, Organizational and Administrative Behavior, 3 Units**

Organizational behavior is an interdisciplinary field drawing from psychology, sociology, economics, organization theory, statistics, and other areas. In this course, students gain an understanding of the field and the various research strategies involved as they examine human behavior in organizations, as well as individual, group, and organization-level processes that impact workplace behavior and organizational life. Students are exposed to organizational behavioral science theories and their applications in different management settings and types of organizations, and have an opportunity to engage in experiential and skill-building activities, applying conceptual frameworks in community settings and developing strategies for increasing stakeholder and civic participation. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

**Prerequisite:** MGMT 210

## **MGMT 450, Strategic Management, 3 Units**

This course focuses on fundamental decisions in the life of a business: What is the business, and what should it be? What are the objectives? How are priorities set? How are strategic, long-range decisions to be handled? To grow or not to grow--and what is the right size for the business? *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** MGMT 210; FIN 300 or FIN 320; MKTG 260; junior standing.

## **MGMT 501, Managerial Communication, 3 Units**

Management, by definition, is achieving results with and through other people. Therefore, all of the technical and analytical skills in the world are useless unless you can communicate- that is, explain, persuade, and collaborate with others either by writing, interacting one-on-one, or presenting to a group. This course is aimed at equipping students with the necessary techniques and skills of research and communication used to inform others, inspire them and enlist their activity and willing cooperation.

## **MGMT 502, Developing Management Skills, 3 Units**

This course provides an introduction to management skills necessary for the twenty-first century characterized by chaotic, transformational, and rapid-fire change. Scientific evidence demonstrates how management skills are associated with personal and organizational successes. Although management skills are applicable in most areas of your life, this course will focus on work setting management skills to help students improve their own competency in a managerial role.

## **MGMT 503, Business Strategy: Theory and Practice, 3 Units**

This course provides a review of management as an area of theoretical development as well as a field of practice. It comprises classical management theories and modern approaches to organization and business. Main blocks of the course are functions of management, managerial processes and interaction between organizations and their environment. This course includes elements of organizational behavior. Business cases are used as application of theoretical concepts.

## **MGMT 510, Current Issues in Business and Management, 3 Units**

This course examines organizational and behavioral problems facing managers. Students develop an awareness of modern concepts, strategies, and techniques that can enhance organizational effectiveness. Among these subjects are organizational design, personal leadership and delegation, communication, conflict management, and interpersonal perception group dynamics.

## **MGMT 515, Applied Research and Analysis, 3 Units**

Students study research methodology as it relates to needs for research-derived information, with emphasis on the research process in the development of primary and secondary research information, conducting research related to given products or services, and the analysis and evaluation of actual business organizations.

## **MGMT 516, High Performance People Management, 3 Units**

This course provides students with the social science tools needed to solve organizational problems and influence the actions of individuals, groups, and organizations. It prepares managers to understand how to best organize and motivate the human capital of the firm, manage social networks and alliances, and execute strategic change. Case based

## **MGMT 517, Managing Human Capital, 3 Units**

Students study the establishment of human resource objectives and requirements in an organization. Emphasis is on executive decision making in dealing with formal employee-employer relationships. Collective bargaining, organization of employees, negotiation, and administration of collective bargaining agreements are covered.

**Prerequisite:** HROD 500 or GNRS 560

## **MGMT 521, Organizational Development and Change, 3 Units**

Students investigate the emerging field of organizational development (OD) - major theories, basic concepts, and primary intervention strategies. Emphasis is placed on diagnosing the relationship between an organization's mission and culture, and facilitating system-wide, planned changes to improve organizational effectiveness.

**Prerequisite:** MGMT 515 and MGMT 516

## **MGMT 529, Ethical Decision Making, 3 Units**

This course raises students' moral recognition level, provides them with the apparatus to make moral decisions in a business context, and considers ethical problems in business according to Christian principles. Emphasis is placed on the role of the leader in organizations.

## **MGMT 540, Diversity for Strategic Advantage, 3 Units**

This course introduces the major goals, principles, and concepts of multiculturalism with particular emphasis on its impact on organizational effectiveness. It explores the cultural, linguistic, and socioeconomic factors influencing the workplace. This course offers concepts to improve learning and working environments and interaction among employees, businesses, and communities.

## **MGMT 541, Global Business Management, 3 Units**

This course focuses on the environmental and functional differences between U.S. and international business, including exporting, balance payments, strategic planning, organization of multinational firms, international financial planning and cash management, foreign exchange planning, comparative management philosophies, international marketing strategies, incorporation for international operations and external relations of the multinational corporation.

## **MGMT 551, Leadership in Organizations, 3 Units**

This course introduces current literature and theories of leadership. Leadership within organizational settings is examined. Leadership dilemmas and issues are analyzed (e.g., ethics, decision making, power and authority, conflict management). Emphasis is placed on identifying and enhancing leadership in organizational settings.

## **MGMT 561, Managing Teams and Conflict, 3 Units**

This course helps the student understand small-group behavior. It uses experience-based methods, cases, reading material, and simulation, and examines role behavior, group dynamics, conflict control, leadership, and group development. It also addresses motivation and problem solving as essential elements of organizational behavior.

## **MGMT 570, Organizational Performance Improvement, 3 Units**

This course provides an introduction to fundamental concepts and methods of quality and productivity improvement and examination of the OD professional's role in designing and implementing programs to improve quality of products and services. Particular emphasis is placed on understanding the forces that make quality and productivity critical organizational issues.

**Prerequisite:** MGMT 521

## **MGMT 577, Global Field Study, 0 Units**

This course provides the framework for graduate students to register for and complete a global field study in various countries around the world. During the course, students conduct corporate visits to business firms locally and around the globe to discuss how they apply and practice the business management principles, concepts and theories covered in the graduate curriculum.

## **MGMT 578, Strategic Management, 3 Units**

Taken in the last semester, this course explores how to convert executive vision into definitive plans that can be operationally implemented, and provides opportunity for practice and experimentation in strategy formulation and change management. Students use strategy support systems to transition from a change-resistant operational approach to a future-oriented approach characteristic of strategic thinking. Case and project based.

**Prerequisite:** FIN 513, ACCT 512, BUSI 511, and MKTG 527

## **MGMT 581, Ethical Leadership, 3 Units**

This course provides a foundation for two integrative themes - leadership and ethics. Leadership is examined from both a theoretical and practical perspective, with an emphasis on servant leadership. An ethical framework for management decision-making is established and used. Students will learn about their spiritual gifts, strengths themes, personality types, and leadership styles, and will explore how to effectively apply them in leadership settings.

## **MGMT 582, Strategic Management in Not-for-Profit, 3 Units**

This course offers a study of the strategic management issues which are unique to government and other not-for-profit organizations. Included are: defining characteristics of different types of not-for-profit organizations; convergence of environmental demands on not-for-profit organizations and business firms; power in not-for-profit organizations; multiple stakeholder and stakeholder power; formulation of legitimacy strategy; and success measurement in not-for-profit organizations.

**Prerequisite:** BUSI 450 or equivalent

## **MGMT 583, Global Strategic Management, 3 Units**

The course explores the main issues that companies and their managers confront when they 'go global' or 'manage globally'. Students gain both theoretical and practical insight into the management of a global organization to appreciate the opportunities, problems (both worldwide and local), and alternative strategies for globalization or localization.

## **MGMT 597, Master's Project in Management, 3 Units**

This capstone course involves the implementation and application of management theory. Students participate in a service-learning project for a community-based organization, applying management methodology. Students are expected to complete a master's level research project demonstrating competency in management theory, the individual area of emphasis, as well as faith integration.

**Prerequisite:** MGMT 521; final semester of MAM program

## **MKTG 260, Principles of Marketing, 3 Units**

The movement of goods from producers to consumers is analyzed in this course, which includes discussion of the channels of distribution, marketing functions, management considerations, and problems in marketing practice. Marketing trends in current economic systems are reviewed.

## **MKTG 350, Marketing Internship, 1-3 Units**

This course integrates marketing principles and theory into a working environment related to marketing. Includes research, setting objectives, general marketing decision making, and reflection.

**Prerequisite:** MKTG 260, completion of 60 units, and instructor consent.

## **MKTG 361, Integrated Marketing Communications, 3 Units**

The marketing communication function is introduced. Topics include advertising theory and measurement, communication theory, promotional strategies, the IMC mix, public relations and publicity, consumer education, creative strategy, and promotional ethics.

**Prerequisite:** MKTG 260

## **MKTG 362, Consumer Behavior, 3 Units**

This course involves a comprehensive examination of the nature of markets and the factors influencing market development and change. Students study individual consumer behavior in relation to the buying-selling process, with emphasis on understanding the consumer in order to facilitate the development of an effective marketing strategy.

**Prerequisite:** MKTG 260

### **MKTG 363, Marketing Research, 3 Units**

This course is an overview and practical application of contemporary methods for gathering, analyzing, and preparing market research for use in management decision making. Research methodology includes specific topic areas as the research process, primary and secondary data, qualitative and quantitative research methods, statistical analysis, and utilization of technology.

**Prerequisite:** MKTG 260 and MATH 130

### **MKTG 364, Sales and Sales Management, 3 Units**

In this course, consideration is given to personal sales strategies and practices, including relationship management, negotiation, consultative selling, and key account management. The sales management function, including recruiting and selecting salespeople, motivation and training, compensation plans and quotas, supervising, sales forecasting and budgeting, salesforce evaluation, and the ethics in selling and sales management is covered.

**Prerequisite:** MKTG 260 or instructor consent

### **MKTG 368, Retail Management, 3 Units**

Students learn the principles of retail marketing of products and services. The course emphasizes the unique issues and problems of store managers, merchandising executives, and service company managers. Location, sales promotion, organization, human resources management, procurement, inventory, product mix and profitability, traditional and online retail methods are considered.

**Prerequisite:** MKTG 260

### **MKTG 369, Global Industrial Marketing, 3 Units**

Students learn the marketing of business goods by manufacturers to other businesses, government agencies, and social institutions. The course consists of market analysis, sales forecasting, product strategy, effective use of sales force, and industrial promotional planning and implementation. Extensive quantitative techniques are utilized.

**Prerequisite:** MKTG 362, MKTG 363

### **MKTG 373, Global Marketing Management, 3 Units**

This course is an overview of international marketing and considers the powerful economic, technological, industrial, political, and demographic forces that are converging to build the foundation of a global marketplace in a dynamic and ever-changing world. Students conduct projects involving international marketing.

**Prerequisite:** MKTG 260 and BUSI 370

### **MKTG 465, Strategic Marketing Management, 3 Units**

This course offers a strategic approach to the management of the marketing function. As the capstone course for marketing majors, students utilize marketing case analysis to examine and evaluate the entire marketing decision-making process. Course content focuses on the strategic analysis of market opportunities and the development of the marketing mix through project coursework.

**Prerequisite:** MKTG 361, MKTG 362

### **MKTG 466, Digital Marketing, 3 Units**

Within an organization's strategic and business objectives, digital marketing leverages traditional marketing, utilizing essential digital marketing tools such as online branding, display advertising, social media marketing and Search Engine Optimization. Course content will emphasize the development of digital marketing strategies and programs for an organization.

**Prerequisite:** MKTG 260

### **MKTG 502, Marketing Principles, 3 Units**

This course focuses on understanding marketing management, formulating and implementing marketing strategies, and provides a systematic framework for marketing planning, analysis and evaluation. The characteristics and management of markets are described in topics that include the marketing environment, components of the marketing mix, market segmentation, positioning and targeting.

### **MKTG 515, Marketing Research, 3 Units**

This course prepares students to approach marketing research from a management perspective. The role of marketing research process, the human side of marketing research, and organizational and ethical issues are discussed. Students utilize comprehensive cases and analysis, along with a marketing research project.

**Prerequisite:** MKTG 527 and BUSI 511

### **MKTG 527, Marketing Strategy, 3 Units**

This course offers in-depth management, analysis, and decision making resources related to marketing strategy, including environmental turbulence, competitive analysis, customer and market analysis, product life cycle analysis and marketing mix management. Issues will be discussed from a Christian worldview. It is primarily case-based.

### **MKTG 545, International Marketing, 3 Units**

International marketing is the performance of business activities that direct the flow of a company's goods and services to consumers or users in more than one nation. The elements of the marketing mix (product, price, promotion, and place-channels of distribution) first studied in domestic marketing are analyzed in global terms, thus adding the elements of geography, cultural forces, and the structure of distribution to the uncontrollables with which the marketer must contend.

## **MKTG 565, Integrated Marketing Communications, 3 Units**

In this course, the marketing communication function is introduced and analyzed. Topics include advertising theory, planning and measurement, communication theory, the IMC mix, promotional strategies, public relations and publicity, consumer education, collateral materials planning, and promotional ethics.

**Prerequisite:** MKTG 527

## **MKTG 580, Strategic Digital Marketing, 3 Units**

This course discusses the differences between E-commerce and E-business in relation to the firm, emphasizing the correlation between business, technology, and society. An advanced marketing course, it builds on the firm's business model, which guides its traditional and dynamic online marketing presence. Emphasis is placed on the importance of the Christian worldview and community citizenship, and on developing a positive long-term relationship with customers and stakeholders, thereby creating a distinct competitive advantage for the firm. Student projects integrate learning activities with business organizations.

**Prerequisite:** MKTG 527

## **PRBA 120, Financial Accounting, 3 Units**

This course introduces the financial accounting model and application of fundamental accounting principles. The corporate form of business serves as the primary model to demonstrate accounting principles for cash, accounts receivable, inventories, operational assets, liabilities and stockholders' equity. Students complete a computer simulation which introduces computer application in accounting.

## **PRBA 121, Managerial Accounting, 3 Units**

This course introduces basic managerial accounting concepts and emphasizes the use of accounting data in decision making. Topics covered include cost accumulation models, cost behavior, break-even analysis, variable costing, budgeting, differential analysis, product pricing, capital expenditure analysis, and financial statement analysis.

**Prerequisite:** PRBA 120

## **PRBA 210, Principles of Management, 3 Units**

Elements of planning, organizing, leading, and control are covered. Particular emphasis is given to organizing and actuating responsibility and authority, delegation, decentralization, the role of staff, line-staff relationship committees, board of directors, organization charting, formal and informal organization, communication, and reaction to change.

## **PRBA 240, Spreadsheets and Information Technology, 3 Units**

This course provides an introduction to information technology and its application to business, placing a special emphasis on developing spreadsheets to solve common business problems. The course builds a functional level of understanding for how components of information technology (hardware, software, databases, networks, etc.) work together to build interorganizational information systems such as supply chain management, enterprise resource planning, and customer relationship management.

## **PRBA 250, Principles of Macroeconomics, 3 Units**

This course introduces concepts and tools of economic analysis for macroeconomics. Students study national income and economic growth, interest rates, unemployment, and government fiscal and monetary policies. *Meets the General Education Requirement: Social Science.*

**Prerequisite:** C- or better in PRMA 110 or 60 or higher on ALEKS math placement assessment.

## **PRBA 251, Principles of Microeconomics, 3 Units**

This course provides an introduction to concepts and tools of economic analysis for microeconomics. Students study the interactions of firms and consumers: consumer demands, firm costs, price determination under various market structures, and the role of government in a market economy.

**Prerequisite:** C- or better in PRMA 110

## **PRBA 260, Marketing Principles, 3 Units**

This course provides an introduction to the theory and practical application of marketing principles by examining concepts related to understanding, reaching, and responding to customers.

## **PRBA 296, Business Law, 3 Units**

The course introduces the laws affecting business transactions. Included is an overview of the legal system as it relates to business and in-depth study of contracts, sales and commercial transactions, and secured transactions.

## **PRBA 300, Business Finance for Managers, 3 Units**

This course provides an introduction to concepts and tools of business finance for managers. Students study financial statements and their interpretation, business performance measures, the management of cash and the short term financial needs of the organization, and how to make good capital budgeting decisions.

**Prerequisite:** PRBA 120, BBA Majors only

### **PRBA 305, Operations Management, 3 Units**

In this course, students learn about operations and productivity, operations strategy in a global environment, project management, forecasting, design of goods and services, quality management, process strategy, location strategies, layout strategies, job design and work management, supply chain management, inventory management, aggregate planning, materials requirements planning, scheduling, lean operations, and maintenance and reliability.

**Prerequisite:** PRMA 110

### **PRBA 313, Introduction to Supply Chain Management and Logistics, 3 Units**

This course covers the formulation and implementation of logistics and supply chain strategy for competitive advantage, including analysis of logistics capabilities, enhancement of strategy-supportive capabilities, and integration with strategically chosen supply chain partners.

### **PRBA 315, Business System Analytics, 3 Units**

This course introduces fundamental concepts and methods of business analysis (or analytics) and examines the role of managers in qualitative and quantitative analysis designed to foster efficient and effective operations of an organization. Emphasis is on understanding the tools and techniques needed for a successful manager in a global organization in the 21st century.

### **PRBA 317, Quality Management, 3 Units**

This course introduces fundamental concepts and methods of quality management and productivity improvement, and examines the role of managers in designing and implementing programs to improve quality of products and services. Emphasis is on understanding the forces that make quality and productivity critical organizational issues. Student ability to implement quality-management tools, techniques, and processes is demonstrated.

### **PRBA 370, International Business, 3 Units**

This course presents a survey of issues in international business, with focus on managing in an international environment, understanding the global monetary system, and developing an international perspective on business operations including production, marketing, finance, and human resources.

*Meets the General Education Requirement: Intercultural Competence.*

**Prerequisite:** PRBA 250

### **PRBA 445, Human Resource Management, 3 Units**

Students study the human factors in modern business as they are influenced by and effect labor-management interactions, personnel relations, techniques, and procedures.

**Prerequisite:** Acceptance into the School of Business and Management.

### **PRBA 448, Organization and Administrative Behavior, 3 Units**

Organizational behavior is an interdisciplinary field drawing from numerous disciplines including psychology, sociology, economics, organization theory, statistics, and many others. The purpose of this course is to provide students with an understanding of the field of organizational behavior and the various research strategies that it employs. This course will examine human behavior in organizations: individual, group and organizational level processes that impact workplace behavior and organizational life. Students will be exposed to organizational behavioral science theories and their applications in different management setting and a variety of organizations. Students will have an opportunity to engage in experiential and skill-building activities and apply conceptual frameworks in community settings and develop strategies for engaging stakeholder participation and increasing civic participation.

**Prerequisite:** PRBA 210

### **PRBA 450, Strategic Management, 3 Units**

This course focuses on fundamental decisions in the life of a business: What is the business, and what should it be? What are the objectives? How are priorities set? How are strategic, long-range decisions to be handled? To grow or not to grow-and what is the right size for the business? *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** PRBA 210, PRBA 300, and Senior Status.

### **PRBA 495, Writing 3: Business Ethics, 3 Units**

This course focuses on the integration of Christian faith, ethical issues, and professional concerns that confront business professionals in the workplace, with particular regard to leadership and transitions. Students in this course explore biblical and moral principles as related to real-life case studies, and have the opportunity to complete in-depth study in a business-related area to further prepare them as effective participants and leaders in the workplace.

*Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

**Prerequisite:** PRWR 261 and senior Standing

### **WEB 571, Web Site Design and Development, 3 Units**

This course examines fundamental principles of website design, emphasizing considerations of functionality, information architecture, and usability. The course also introduces the students to prototyping tools used to develop and communicate website designs.

### **WEB 572, Emergent Information Technologies, 3 Units**

This course involves the study of technological change, especially the effects of technological change on society and commerce and how these changes and effects transpire. The course also entails a study of key technologies that are having, or may have, significant effects on society and commerce.

## **WEB 573, Relational Database Technology, 3 Units**

This course presents the relational database model and explains a process for relational database design, and covers the fundamentals of relational database creation and maintenance. It also explains the use of an application development environment, such as Allaire's Cold Fusion, to develop Web database applications.

## **WEB 575, Internet Business and Strategic Management, 3 Units**

This course describes how the Internet has created demand for e-business, and how this new economic and technological shift has transformed the way in which business models are created. Major trends driving e-business are identified. E-business application architecture is reviewed. The importance of creating a customer relationship management (CRM) is emphasized. The significance of strategic management is paramount to a sustainable competitive advantage, where enterprise resource planning is being utilized. In this quickly changing environment, knowledge management becomes important to integrate technologies and solutions for organizations. Clarifying strategic objectives with the process improvement, strategic improvement, and business transformation are considered, along with elements of tactical execution options and e-project management.

## **Faculty**

### **Interim Dean**

Roxanne Helm-Stevens (<http://www.apu.edu/faculty/rhelmstevens/>), DBA

Thomas Cairns (<http://www.apu.edu/business/faculty/tcairns/>), DBA

Stuart Strother (<http://www.apu.edu/business/faculty/sstrother/>), Ph.D.

# B.A. in Business Management

61 units

Preparation for a business career requires a deep appreciation for, and a sound understanding of, the marketplace. Thus the business management (<https://www.apu.edu/business/programs/business-management-major/>) major program is designed for those who seek a broad spectrum of business courses or wish to combine several fields. This program develops competence in conceptual, human, and technical skills, and these skills—developed through a well-chosen sequence of electives—make those completing the program well prepared for employment in public- and private-sector organizations.

## Career Opportunities

Coursework in general business management includes a fundamental system of values that serves as the basis for decision making. Students are prepared upon graduation for first-line management positions such as supervisor and team or shift leader. This degree also prepares and equips students for staff specialist or general administration positions. Students may enter into a wide range of industries, including retail and sales, commercial banking, real estate, savings and loan associations, entertainment, and more. Some graduates begin new ventures, operate small businesses, develop new products, or return to the family business.

## Requirements

The Bachelor of Arts in Business Management comprises 61 units. Students must achieve an average GPA of 2.5 or higher in their major courses (including the Business Core).

| Code                                 | Title  | Units |

- 1 Meets the General Education Quantitative Literacy requirement.
- 2 Meets the General Education Social Sciences requirement.
- 3 Meets the General Education Intercultural Competence requirement.
- 4 Meets the General Education Civic Knowledge and Engagement requirement.
- 5 Meets the General Education Integrative and Applied Learning requirement.

## **Program Learning Outcomes**

### **Program Learning Outcomes**

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Written Communication: Convey ideas clearly through professional written communication.
5. Oral Communication: Express ideas effectively through professional oral presentations.
6. Collaborative Teamwork: Demonstrate the ability to function as an effective business team member.
7. Comprehensive Global Awareness: Identify cultural, economic and political aspects of business in a global environment.
8. Discipline Knowledge: Demonstrate knowledge of business management concepts.
9. Discipline Problem Solving/Strategy: Solve core management problems, or analyze management situations and provide strategy for effectiveness.

# B.A. in Economics

Economists study how society creates and allocates value among its members, including the supply and demand decisions of individuals and firms, the market structure and competitive conditions of particular industries, and the effects of policy changes on business and social decisions. National economic growth, the structure of domestic and international economic systems, employment and wage conditions, and the availability of financial resources are also significant issues. Economics also examines how social and economic conditions are changing in the developing world, and how small- and large-scale efforts can improve the living conditions of people. At APU, students may choose from among a broad range of economics course offerings.

## Career Opportunities

Economics teaches students to think critically and analytically and prepares them to address complex problems in a wide variety of settings. Graduates may work as business or policy analysts, or in such diverse fields as law, journalism, education, nongovernmental and mission organizations, and international affairs. Students interested in graduate study in economics will benefit from taking additional mathematics courses.

## Economics Core

The core requirements of the economics major (<https://www.apu.edu/business/programs/economics-major/>) provide students with grounding in the primary areas of the discipline and an understanding of the basics of economic behavior. All students with an economics major must complete the common economics core in the table below.

## Requirements

The economics major comprises 42 units. Students must attain a minimum C- grade in all courses required for the major, and an average GPA of 2.5 in all courses counted for the major (this includes the Economics Core).

| Code                       | Title   | Units |
|----------------------------|---|-------|
| <b>Economics Core</b>      |   |       |
| ECON 250                   | Principles of Macroeconomics <sup>1</sup>           | 3     |
| ECON 251                   | Principles of Microeconomics                        | 3     |
| ECON 350                   | Intermediate Macroeconomics <sup>F</sup>            | 3     |
| ECON 351                   | Intermediate Microeconomics <sup>S</sup>            | 3     |
| ECON 458                   | Economics and Religion <sup>S</sup>                 | 3     |
| MATH 130                   | Introduction to Statistics <sup>2</sup>             | 3     |
| MATH 151                   | Applied Calculus I                                  | 3     |
| <b>Economics Electives</b> |   |       |
| Select 7 of the following: |   | 21    |
| FIN 352                    | Financial Markets and Institutions                  |       |
| ECON 355                   | Environmental Economics <sup>OF</sup>               |       |
| ECON 356                   | Labor Economics <sup>EF</sup>                       |       |
| ECON 357                   | Economics of the Developing World <sup>ES</sup>     |       |
| ECON 359                   | Urban and Regional Economics <sup>3</sup>           |       |
| ECON 371                   | Comparative Economics <sup>F</sup>                  |       |
| FIN 372                    | International Trade and Finance <sup>S</sup>        |       |
| ECON 452                   | Econometrics <sup>S</sup>                           |       |
| ECON 453                   | Microfinance and Microenterprise <sup>OS</sup>      |       |
| ECON 454                   | Industrial Organization and Regulation <sup>F</sup> |       |
| PADM 350                   | Theory and Practice of Public Administration        |       |
| PADM 399                   | Public Administration Practicum <sup>3, 4</sup>     |       |
| Total Units                |   | 42    |

<sup>1</sup> Meets the General Education Social Sciences requirement.

<sup>2</sup> Meets the General Education Quantitative Literacy requirement.

<sup>3</sup> Meets the General Education Civic Knowledge and Engagement requirement.

<sup>4</sup> PADM 399 counts for 3 units of major elective credit and 3 units of nonmajor elective credit.

|     |                                       |
|-----|---------------------------------------|
| F   | Offered in Fall only                  |
| S   | Offered in Spring only                |
| F/S | Offered in both Fall and Spring terms |
| EF  | Offered in Fall in even years         |
| ES  | Offered in Spring in even years       |
| OF  | Offered in Fall in odd years          |
| OS  | Offered in Spring in odd years        |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Students will be able to demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Students will be able to identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Students will be able to demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Written Communication: Students will be able to convey ideas clearly through professional written communication.
5. Oral Communication: Students will be able to express ideas effectively through professional oral presentations.
6. Collaborative Teamwork: Students will be able to demonstrate the ability to function as an effective business team member.
7. Comprehensive Global Awareness: Students will be able to identify cultural, economic and political aspects of business in a global environment.
8. Discipline Knowledge: Students will be able to demonstrate knowledge of economics concepts.
9. Discipline Problem Solving/Strategy: Students will be able a) solve core economics problems or b) analyze economics situations and provide strategy for effectiveness.

# B.S. in Accounting

The accounting major (<https://www.apu.edu/business/programs/accounting-major/>) surveys the principles, theories, and concepts of the accounting profession while providing an intense review of the economic, quantitative, and managerial aspects of business. Its practical component leads to work assignments in local certified public accountant (CPA) firms in students' junior and senior years. The combination of classroom theory and real-world experience also prepares candidates for the CPA examination administered by the various state boards of accountancy in the United States.

## Career Opportunities

Opportunities available to graduates include professional careers in accounting services, auditing, management advising services, and accounting departments in private firms and government bodies.

## Requirements

The accounting major comprises 67-69 units. Students must achieve an average GPA of 2.5 or higher in their major courses (this includes the Business Core).

| Code                         | Title   | Units |
|------------------------------|---|-------|
| <b>Business Core Courses</b> |   |       |

Total Units 67-69

- <sup>1</sup> Meets the General Education Quantitative Literacy requirement.
- <sup>2</sup> Meets the General Education Social Sciences requirement.
- <sup>3</sup> Meets the General Education Intercultural Competence requirement.
- <sup>4</sup> Meets the General Education Civic Knowledge and Engagement requirement.
- <sup>5</sup> Meets the General Education Integrative and Applied Learning requirement.

|     |                                       |
|-----|---------------------------------------|
| F   | Offered in Fall only                  |
| S   | Offered in Spring only                |
| F/S | Offered in both Fall and Spring terms |

|    |                                 |
|----|---------------------------------|
| EF | Offered in Fall in even years   |
| ES | Offered in Spring in even years |
| OF | Offered in Fall in odd years    |
| OS | Offered in Spring in odd years  |

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Students will be able to demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Students will be able to identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Students will be able to demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Written Communication: Students will be able to convey ideas clearly through professional written communication.
5. Oral Communication: Students will be able to express ideas effectively through professional oral presentations.
6. Collaborative Teamwork: Students will be able to demonstrate the ability to function as an effective business team member.
7. Comprehensive Global Awareness: Students will be able to identify cultural, economic and political aspects of business in a global environment.
8. Discipline Knowledge: Students will be able to demonstrate knowledge of accounting concepts.
9. Discipline Problem Solving/Strategy: Students will be able a) solve core accounting problems or b) analyze accounting situations and provide strategy for effectiveness.

# B.S. in Business: Economics

64-66 units

The business economics major (<https://www.apu.edu/business/programs/business-economics-major/>) equips students with analytical skills built on a strong general business foundation. This major focuses on business management responsibilities and the improvement in business decision making that comes from a deeper understanding of the economic environment of business, including labor, environmental, and international issues. Students become grounded in economic theory and practical applications.

## Career Opportunities

Business economics careers may be found throughout the field of business, including business and financial analysis and forecasting, banking, labor organizations, and international trade. Individuals in possession of strong analytical skills are in high demand.

## Requirements

The Bachelor of Science in Business: Economics comprises 64-66 units. Students must achieve an average GPA of 2.5 or higher in their major courses (this includes the Business Core). To ensure that all ECON prerequisites are satisfied, economics students should choose MATH 151 or MATH 165 in the Business Core.

| Code                         | Title   | Units |
|------------------------------|---|-------|
| <b>Business Core Courses</b> |   |       |
| ACCT 120                     | Principles of Accounting I                              | 4     |
| ACCT 121                     | Principles of Accounting II                             | 3     |
| MATH 130                     | Introduction to Statistics <sup>1</sup>                 | 3     |

8. Discipline Knowledge: Demonstrate knowledge of economic concepts.
9. Discipline Problem Solving/Strategy: Solve core economic problems, or analyze economic situations and provide strategy for effectiveness.

# B.S. in Entrepreneurship

The entrepreneurship major (<https://www.apu.edu/business/programs/entrepreneurship-major/>) focuses on the creation of social and economic value and is designed to prepare students for the intricacies of planning, launching, and leading a new business, with a focus on creativity and innovation, new venture planning, entrepreneurial finance, and managing and growing a new business. Entrepreneurship students learn how to shape entrepreneurial opportunities and assess financial and market feasibility. The entrepreneurship major includes working in teams, constructing business models, communicating with partners and customers, and assessing feasibility while launching a new venture or initiative. Entrepreneurship majors apply their knowledge and skills in academic and real-world settings.

## Career Opportunities

The skills and competencies gained in this program are vital for the success of any business or organization, including early-stage startups, corporations, family businesses, nonprofits, franchises, and other settings. Graduates can start new businesses, buy existing ventures, or go into entrepreneurial positions in profit or not-for-profit ventures. Other career options include intrapreneurship (innovation in large organizations), venture capital, and social entrepreneurship.

## Requirements

The entrepreneurship major comprises 61 units. Students must achieve an average GPA of 2.5 or higher in their major courses (this includes the Business Core).

- <sup>4</sup> Meets the General Education Civic Knowledge and Engagement requirement.
- <sup>5</sup> Meets the General Education Integrative and Applied Learning requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Written Communication: Students will be able to convey ideas clearly through professional written communication.
5. Oral Communication: Express ideas effectively through professional oral presentations.
6. Collaborative Teamwork: Demonstrate the ability to function as an effective business team member.
7. Comprehensive Global Awareness: Identify cultural, economic and political aspects of business in a global environment.
8. Discipline Knowledge: Demonstrate knowledge of entrepreneurship concepts.
9. Discipline Problem Solving/Strategy: Solve core entrepreneurship problems, or analyze entrepreneurship situations and provide strategy for effectiveness.

# B.S. in Finance

64 units

The finance major (<https://www.apu.edu/business/programs/finance-major/>) is designed for students interested in the stewardship of the financial resources of individuals, corporations, or financial institutions. As future managers, students learn the principles and applications of financial analysis, management, and strategy, and gain experience in portfolio construction; applications of derivatives in financial management, asset management, and international financial management; and case studies in corporate finance. The program equips students with the theoretical understanding and practical skills necessary to evaluate and direct decisions regarding the allocation of financial resources among a variety of competing opportunities, with the goal of maximizing the value of the resources managed. To ensure that all finance (FIN) prerequisites are satisfied, business finance students should choose MATH 151 or MATH 165 in the Business Core. *To complete the finance major in four years, students must complete FIN 320 and MATH 151 or MATH 165 by the end of their sophomore year.*

## Career Opportunities

This program prepares students for employment in a variety of fields, such as corporate financial management, investment analysis and planning, financial institution management, and risk management. According to the *Occupational Outlook Handbook*, such occupations are expected to experience strong rates of growth. Moreover, these occupations generally offer attractive starting salaries and working conditions.

## Requirements

The finance major comprises 64 units. Students must achieve an average GPA of 2.5 or higher in their major courses (this includes the Business Core).

| Code                         | Title   | Units |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Written Communication: Convey ideas clearly through professional written communication.
5. Oral Communication: Express ideas effectively through professional oral presentations.
6. Collaborative Teamwork: Demonstrate the ability to function as an effective business team member.
7. Comprehensive Global Awareness: Identify cultural, economic and political aspects of business in a global environment.
8. Discipline Knowledge: Demonstrate knowledge of finance concepts.
9. Discipline Problem Solving/Strategy: Solve core finance problems, or analyze finance situations and provide strategy for effectiveness.

# B.S. in International Business

61 units

The international business major (<https://www.apu.edu/business/programs/international-business-major/>) provides students a strong general business foundation followed by courses preparing them for careers in global business. The program incorporates a liberal arts approach to the study of culture, history, economics, and politics as it prepares students to work in a dynamic and interdependent global business environment. Students also acquire practical skills and experience through study-away opportunities, internships, foreign language study, and the import/export practicum project.

## Career Opportunities

International business careers may be found with multinational corporations, foreign companies, banks, international investments, export/import trade, international law, international nonprofit organizations, world missions, and public/foreign service. Individuals graduate from this program with significant international experience, as well as proficiency in a foreign language, and are in high demand in today's job market.

## Requirements

The international business major comprises 61 units. Students must achieve an average GPA of 2.5 or higher in their major courses (including the Business Core).

| Code                                  | Title   | Units |
|---------------------------------------|---|-------|
| <b>Business Core Courses</b>          |   |       |
| ACCT 120                              | Principles of Accounting I                              | 4     |

# B.S. in Marketing

The marketing major (<https://www.apu.edu/business/programs/marketing-major/>) provides students with a strong business foundation and solid skills in the functional areas of marketing. Further, coursework in digital and social media marketing equips students with the skills to take advantage of current trends in marketing. The program emphasizes academic preparation, as well as skill-building practice with the integration of class projects and marketing case studies. Many students are able to secure internships during their time at APU to give them work experience and build their résumés.

## Career Opportunities

Career paths open to marketing majors include marketing coordinator/specialist, marketing project manager, account coordinator/executive manager, product/brand manager, digital marketing specialist/manager, social media marketing manager, creative assistant, web content writer/manager, sales representative/manager, marketing researcher/analyst, marketing manager, advertising and promotion manager, media planner/buyer, retail marketer, marketing analytics specialist, and marketing communications coordinator. Income potential and personal fulfillment are high. Marketing professionals who excel can become top executives.

## Requirements

The marketing major comprises 64-66 units. Students must achieve an average GPA of 2.5 or higher in their major courses (this includes the Business Core).

8. Discipline Knowledge: Demonstrate knowledge of marketing concepts.
9. Discipline Problem Solving/Strategy: Solve core marketing problems, or analyze marketing situations and provide strategy for effectiveness.

# Bachelor of Business Administration (BBA)

51-60 units

Today's business leaders must be agile and able to adapt to a rapidly changing business world while leading employees by modeling character, integrity, and compassion. Azusa Pacific's Bachelor of Business Administration (BBA) (<https://www.apu.edu/business/programs/bba-degree/>) bachelor's completion program equips students with the leadership and analytical skills needed to advance their career, achieve their goals, and help shape the future of business.

Designed for working professionals with at least 15 units of transferable college credit, the BBA program is designed to allow immediate application of learning in the workplace. Relevant coursework addresses current issues in business and encourages the integration of real-world work experiences and hands-on projects. Students combine these experiences with internships or international study opportunities to further expand their portfolio and network. Throughout the program, students build on existing experience while gaining a strong foundation in strategic management, finance, marketing, accounting, and more.

## Requirements

The Bachelor of Business Administration bachelor's completion program requires 120 total units, including General Education units and 51 units of core business courses (BBA students may also choose an optional 9-unit concentration).

| Code                              | Title   | Units        |

<sup>1</sup> Meets the General Education Quantitative Literacy requirement.

<sup>2</sup> Meets the General Education Social Sciences requirement.

- 3 Meets the General Education Writing 2 requirement.
- 4 Meets the General Education Integrative and Applied Learning requirement.
- 5 Meets the General Education Writing 3 requirement.

## **Program Learning Outcomes**

### **Program Learning Outcomes**

Students who successfully complete this program shall be able to:

1. Business Knowledge: Apply business knowledge from multiple business disciplines to plan, design, and execute business strategies.
2. Critical Thinking: Identify and solve business problems using analytical and critical thinking skills.
3. Quantitative Reasoning: Analyze quantitative data to address real-world or discipline-specific business problems.
4. Christian Business Ethics: Use biblically-based ethics to make moral and virtuous ethical and socially responsible business decisions.
5. Written Communication: Convey ideas clearly and effectively through professional written communication.
6. Oral Communication: Communicate in informative or persuasive ways using the appropriate genre, channel, structure, and style.
7. Collaborative Teamwork: Effectively participate in business-focused teams as members and leaders in diverse environments.
8. Global/Multicultural Awareness: Identify and respond to cultural, economic, and political aspects of business in multicultural and global environments, informed by biblically based ethics.
9. Discipline Knowledge: Demonstrate knowledge of business concepts.
10. Discipline Problem Solving: Solve core business problems and effectively analyze and address business situations.

# LP and Timothy Leung School of Accounting

Housed within Azusa Pacific's School of Business and Management (<http://www.apu.edu/business/>), the LP and Timothy Leung School of Accounting (<http://www.apu.edu/business/accounting/>) focuses on developing graduates with the Christian character and competence demanded by the public accounting profession.

## Vision Statement

To be a premier Christian accounting school, recognized as a thought leader on accounting character and competence to reflect the life of Christ and shine the light of Truth.

## Graduate Program

- Master of Professional Accountancy (MAcc) (p. 755)

## Faculty

### Chair and Professor

John Thornton (<http://www.apu.edu/faculty/jthornton/>), Ph.D., CPA

### Associate Professor

Paul Anderson (<http://www.apu.edu/faculty/pvanderson/>), MBA, CPA

### Assistant Professor

Ken Kederian (<http://www.apu.edu/faculty/vkederian/>), MBA, CPA, CGMA

# Master of Professional Accountancy (MAcc)

For more information: (626) 815-3085

The Master of Professional Accountancy (MAcc) (<https://www.apu.edu/business/programs/macc/>) is a 30-unit degree program that prepares students for careers as certified public accountants (CPAs). The program's curriculum combines coursework and an internship with a public accounting firm to prepare students to pass the CPA exam and meet the 150-semester-credit-hour rule required for certification by 49 of 50 states. The program focuses on developing students' character and competence consistent with the LP and Timothy Leung School of Accounting's vision (p. 754). Ideal candidates will have recently completed an undergraduate degree in accounting or a related field with a concentration in accounting, with plans to enter the public accounting profession.

## Application Deadline

Applications are accepted year-round, but to ensure full consideration for scholarships and internships, completed applications should be received at least six weeks prior to the start of the term.

## Requirements

Program curriculum requires 30 units of specific core courses. If a student has already successfully completed an approved internship, ACCT 505 should be replaced with an elective. If a student has passed the CPA exam in full or in part, ACCT 590 should be replaced with an elective.

| Code                | Title  | Units |
|---------------------|--|-------|
| <b>Core Courses</b> |  |       |
| ACCT 505            | Accounting Internship <sup>1</sup>                 | 3     |
| ACCT 510            | Accounting and Tax Research Methods                | 3     |
| ACCT 515            | Accounting Information Systems                     | 3     |
| ACCT 520            | Global Financial Accounting Standards              | 3     |
| ACCT 525            | Accounting Ethics                                  | 3     |
| ACCT 530            | Advanced Business Law                              | 3     |
| ACCT 535            | Advanced Managerial Accounting                     | 3     |
| ACCT 540            | Forensic Accounting and Fraud Investigation        | 3     |
| ACCT 545            | Advanced Auditing                                  | 3     |
| ACCT 590            | Integrative Accounting Review <sup>2</sup>         | 3     |
| <b>Electives</b>    |  |       |
| ACCT 550            | Accounting for Governmental and Nonprofit Entities |       |
| FIN 513             | Corporate Finance                                  |       |
| BUSI 514            | Operations Management                              |       |
| ECON 521            | Managerial Economics                               |       |
| FIN 567             | Advanced Financial Analysis                        |       |
| MGMT 578            | Strategic Management                               |       |
| Total Units         |  | 30    |

<sup>1</sup> If a student has already successfully completed an approved internship, an elective should be chosen to replace ACCT 505.

<sup>2</sup> If a student has passed the CPA exam in full or in part, an elective should be chosen to replace ACCT 590.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Additional Admission Information

Admission to the program is based on a review of each applicant's academic achievements, GMAT score, personal statement, and references. Each applicant must also interview with the chair of the accounting programs. A bachelor's degree in accounting or the equivalent or dean's permission is required for admission. While the entirety of an applicant's package is considered, accepted applicants generally fit into one of the following two categories:

- *Regular Program Acceptance* — Students admitted to the program in this group hold undergraduate degrees in accounting or the equivalent or dean's approval, GPAs of 3.3 or higher, and GMAT scores of 550 or higher. Most students are admitted under this category.
- *Conditional Program Acceptance* — Students admitted to the program conditionally typically have undergraduate GPAs of 3.0-3.29 or GMAT scores of 500-549. Only a limited number of applicants in this group are accepted into the program. Students in this group should take special care in writing their personal statements. If admitted, conditional students must maintain a *B* or better overall GPA in the first 12 units of coursework, with no course grade below a *B-*, in order to continue in the program.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate mastery of key accounting content areas, such as, financial reporting, business and economic concepts, auditing and regulation.
2. Identify and solve accounting or business problems using analytical and critical thinking skills.
3. Compose responses to accounting or business decisions that demonstrate a Christian worldview.
4. Express themselves clearly and effectively through professional written and oral communications.

# Master of Business Administration (MBA)

For more information: (626) 815-3085

The Master of Business Administration (MBA) (<https://www.apu.edu/business/programs/mba/>) program offers working professionals an accessible yet rigorous graduate business program that can be completed in 12-30 months. The program teaches students the key concepts and equips them with the analytical and relational skills to make sound recommendations and decisions. The curriculum is designed to strike a balance between theory and practice, combining scholarship with practical experience and actual corporate case studies of business decision making. Students also select an area of concentration based on specific interests and career aspirations.

The program provides the opportunity for students to develop sound analytical abilities, establish collaborative and team-building skills, and become aware of social responsibility as a factor in decision making. The curriculum also allows students to acquire an understanding of the global business environment and how it is affected by cultural and market diversities. Faculty lectures are combined with case studies and discussions, student presentations, and team projects. The accelerated and interactive classroom environment includes applied learning activities, use of new technologies in solving business problems, and independent field research and studies. National and international travel opportunities provide students with intensive boardroom field experience, where students get to dialogue with industry executives and government leaders.

To accommodate busy schedules, classes are offered during the evening, online, and at select regional campuses, and students may take advantage of the multiple delivery formats to customize their education experience. Students are admitted to and can start the MBA program in any of the six terms during the academic year.

## Requirements

The MBA program curriculum comprises 42 units: 30 units of core courses and 12+ units of concentration courses. Concentration options include accounting, entrepreneurship, finance, institutional research, international business, marketing, organizational science, and sport management. Students may request approval to take a second concentration.

| Code  | Title                              | Units        |
|---|------------------------------------|--------------|
| <b>Core Courses</b>                                       |                                    | <b>30</b>    |
| ACCT 512  | Management Accounting              |              |
| BUSI 514  | Operations Management              |              |

| PE 570  | Leadership and Administration of Physical Education and Athletic Programs |
| PE 565  | Athletics and the Law   |

Total Units

42-47

- <sup>1</sup> Any student with a bachelor's degree in accounting or its equivalent may choose the accounting concentration, which consists of 12 units of regularly offered Master of Professional Accountancy (MAcc) courses.
- <sup>2</sup> This concentration is 17 units.
- <sup>3</sup> Students who choose a concentration in international business are required to take at least one international study course, typically BUSI 577 Global Field Study. BUSI 577 may be repeated once and substituted for one of the other required concentration courses with approval.
- <sup>4</sup> This concentration is designed for students who for personal and/or career reasons need to create an individualized concentration. The final course of the concentration is a capstone project or global field study; the other three courses are typically chosen from existing concentration courses offered by the School of Business and Management, but students with unique needs may propose concentrations that include up to 12 units of graduate study offered by other schools or colleges within Azusa Pacific University. All concentrations must be approved in advance by the SBM Graduate Business Admissions Committee. Concentration courses must also be approved by the other college(s)/school(s) in which the courses will be taken.
- <sup>5</sup> PE 557A and PE 557B must be completed consecutively after all other sport management coursework is completed.

## MBA Preparatory Courses

The School of Business and Management offers foundational courses specifically designed to assist students without a previous business education and/or students who do not meet the entrance requirements for full admission. Courses in accounting, economics, finance, marketing, and statistics provide students the necessary prerequisite knowledge and skills needed to study the field of business at the graduate level. If any of these prerequisite courses are required, a determination will be based on a review of each student's unique combination of undergraduate coursework at Azusa Pacific University (or another accredited institution of higher learning) and any relevant work experience.

| Code     | Title                | Units |
|----------|----------------------|-------|
| ACCT 502 | Financial Accounting | 3     |
| ECON 502 | Business Economics   | 3     |

|          |                               |   |
|----------|-------------------------------|---|
| FIN 502  | Business Finance for Managers | 3 |
| MKTG 502 | Marketing Principles          | 3 |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Changes

If a student wishes to change programs, the School of Business and Management requires students to file a Change of Program form and comply with all program admission requirements.

## Course Attendance and Schedule

The collaborative learning process that characterizes the MBA program requires that students are prepared to contribute value to class discussions and to the broader learning community based on their experiences. As such, class attendance is an important aspect of commitment to the MBA program, and absences from class are not appropriate except in cases of emergency.

Students should make note of the start and end of the term as they determine their schedules. Because program coursework is offered in accelerated seven-week sessions, students generally cannot miss more than one class without retaking the course. Students should notify instructors of planned absences as soon as possible and make arrangements with other students to get notes and assignments. Also, since every instructor considers participation in grading, absences and tardiness may significantly affect final grades.

## Academic Honors

### Outstanding Graduate

At each commissioning ceremony, graduate faculty may honor a single graduate with the distinction of Outstanding Graduate. The award is primarily based on academic achievement and is secondarily given to the outstanding candidate who contributed most to the APU MBA learning community.

### Commissioning Ceremony

Preceding each commencement, the School of Business and Management holds a commissioning ceremony for graduating students and their families. This event includes an achievement awards ceremony, words to live by, student remarks, and a time of prayer and commissioning for each graduate.

## Graduation

In order to graduate, students must complete the required courses with an overall grade-point average (GPA) of at least 3.0 within five years of matriculation. This includes completing every required course with a C- or above. All courses taken within the SBM and applied toward the MBA degree must be taken for a letter grade, except for courses offered only on a pass/fail (P/F) basis.

## Field Study Fees

Mandatory and elected international field study, global field study, and field experience trips incur appropriate required fees. Students who switch programs, withdraw, or are otherwise unable to participate in international field study, global field study, or field experience trips that are either required or elected for their program may be responsible for fees up to the full cost of the trip. View the most up-to-date fees. (<http://www.apu.edu/graduateprofessionalcenter/sfs/costs/fees/>)

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Cross-Disciplinary Integration: Demonstrate knowledge of multiple business disciplines, including, accounting, finance, marketing, management, and strategic integration.
2. Global Perspective: Demonstrate the ability to frame management decisions, recommendations, and implementation actions in the context of accurately identified global opportunities and challenges.
3. Critical Thinking: Quickly and accurately identify and anticipate valid business problems/opportunities using analytical, quantitative, and critical thinking skills.

4. Character: Demonstrate the ability to give voice to and defend personal values.
5. Communication: Create and deliver professional oral business presentations.
6. Collaboration: Develop the skills necessary to successfully lead and contribute to a team in a dynamic competitive environment.

# Master of Business Management (MBM)

For more information: (626) 815-3085

The Master of Business Management (MBM) program (<https://www.apu.edu/business/programs/masters-in-management/>) offers working professionals an accessible yet rigorous graduate business program that can be completed in 12-30 months. Program coursework provides students with the fundamental tools and functional knowledge necessary for successful business management and leadership, as well as the scholastic and professional applications framework to acquire state-of-the-art global leadership and management perspectives. Focus is placed on creating value within organizations, and making continuous positive contributions in a rapidly changing, highly diversified, and increasingly integrated business environment. Coursework also builds a foundation for successful executive leadership, development of a collaborative work ethic, expansion of management vision with global perspectives, ethical decision-making skills, and the ongoing quest for innovative value creation.

The 39-unit MBM program develops exceptional business management professionals with outstanding moral character and strong analytical and innovative decision-making skills. The ethical leadership development vision that forms the core of the program is reflected in coursework designs, which combine classroom learning with hands-on experience. Real-life case studies provide students with résumé experience and allow students to build impressive portfolios. Previous real-life cases have included companies such as Pepsi, Target, and Kaiser Permanente, along with numerous nonprofits and startups. International and national travel opportunities give students intensive boardroom field experience, where students get to dialogue with industry executives and government leaders.

To accommodate busy schedules, classes are offered during the evening, afternoon, online, and at select regional campuses. Afternoon classes give students the opportunity to participate in real-life business strategy case studies with profit, nonprofit, and governmental organizations, and students may take advantage of the multiple delivery formats to customize their education experience. Students are admitted to and can start the MBM program in any of the six terms during the academic year.

## Requirements

To graduate, students must complete the required 39 units with a grade-point average of at least 3.0 within five years of matriculation. This includes completing all required courses with a C- or above. All courses taken within the SBM and used for a student's MBM candidacy must be taken for a letter grade, except courses offered only on a pass-fail basis.

| Code  | Title   | Units       |
|---|---|-------------|
| HROD 500                                    | Foundations of Human Resource Development                   | 3           |
| MGMT 510                                    | Current Issues in Business and Management                   | 3           |
| MGMT 515                                    | Applied Research and Analysis                               | 3           |
| MGMT 516                                    | High Performance People Management                          | 3           |
| MGMT 517                                    | Managing Human Capital                                      | 3           |
| MGMT 521                                    | Organizational Development and Change                       | 3           |
| MGMT 541                                    | Global Business Management                                  | 3           |

| PSYC 519                                    | Regression  |             |
| PSYC 519L                                   | Regression Lab  |             |

## International Business

|          |                                 |
|----------|---------------------------------|
| BUSI 577 | Global Field Study <sup>2</sup> |
| MGMT 583 | Global Strategic Management     |
| MKTG 545 | International Marketing         |

## Marketing

Choose three of the following:

|          |                                     |
|----------|-------------------------------------|
| MKTG 527 | Marketing Strategy                  |
| MKTG 545 | International Marketing             |
| MKTG 565 | Integrated Marketing Communications |
| MKTG 580 | Strategic Digital Marketing         |

## Organizational Development and Change

|          |   |
|----------|---|
| BUSI 528 | Consulting for Organizations              |
| HROD 512 | Employee Development                      |
| HROD 550 | Instructional Design and Training Methods |

## Sport Management

|         |   |
|---------|---|
| PE 556  | Facility and Event Management                 |
| PE 572  | Foundations of Sport Management               |
| PE 557A | Field Studies/Internships in Sport Management |
| PE 557B | Field Studies/Internships in Sport Management |

Organizational Science <sup>3</sup>

Total Units

39-44

<sup>1</sup> This concentration is 14 units due to the course and lab requirements.

<sup>2</sup> BUSI 577 may be repeated once and substituted for one of the other required concentration courses with approval.

<sup>3</sup> The organizational science concentration is designed for students who, for personal and/or career reasons, need to create an individualized concentration. The three courses are typically chosen from existing concentration courses offered by the School of Business and Management, but students with unique needs may propose concentrations that include up to 9 units of graduate study offered by other schools or colleges within Azusa Pacific University. All concentrations must be approved in advance by the Graduate Business Admissions Committee. Concentration courses from other college(s)/school(s) must also be approved by those college(s)/school(s).

## MBM Preparatory Courses

The School of Business and Management offers foundational courses specifically designed to assist students without a previous business education and/or students who do not meet the entrance requirements for full admission. Courses in accounting, economics, finance, marketing, and statistics provide students the necessary prerequisite knowledge and skills needed to study the field of business at the graduate level. If any of these prerequisite courses are required, a determination will be based on a review of each student's unique combination of undergraduate coursework at Azusa Pacific University (or another accredited institution of higher learning) and any relevant work experience.

| Code                        | Title                                  | Units |
|-----------------------------|--|-------|
| <b>Prerequisite Courses</b> |  |       |
| MGMT 501                    | Managerial Communication               | 3     |
| MGMT 502                    | Developing Management Skills           | 3     |
| MGMT 503                    | Business Strategy: Theory and Practice | 3     |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Changes

If a student wishes to change programs, the School of Business and Management requires students to file a Change of Program form and comply with all program admission requirements.

## Course Attendance and Schedule

The collaborative learning process that characterizes the MBM program requires that students be prepared to contribute value to class discussions and to the broader learning community based on their experiences. As such, class attendance is an important aspect of commitment to the MBM program. Absences from class are not appropriate except in cases of emergency.

Students should make note of the start and end of the term as they determine their schedules. Because the program coursework is offered in accelerated eight-week sessions, students generally cannot miss more than one class without retaking the course. Students should notify instructors of planned absences as soon as possible and make arrangements with other students to get notes/assignments. Also, since every instructor considers participation in grading, absences and tardiness may significantly affect final grades.

## Academic Honors

### Outstanding Graduate

At each commissioning, the graduate faculty may honor a single graduate with the distinction of Outstanding Graduate. The award is primarily based on academic achievement, but when a secondary factor is needed to make a selection, the committee determines which of the outstanding candidates contributed most to the learning community.

### Sigma Iota Epsilon National Honorary and Professional Management Fraternity

The MBM program holds a prestigious membership in the Sigma Iota Epsilon (SIE) National Honorary and Professional Management Fraternity. Membership in SIE highlights the academic standards of the program and the qualifications of the faculty. Approval from the national chapter also affirms the contribution and value of scholastic achievement in APU's management programs.

APU's MBM fraternity, designated Sigma Iota Epsilon, Theta Kappa Chapter, extends individual membership to students who demonstrate high academic standing in the field of management. The vision of the Theta Kappa Chapter is to connect SIE's mission with APU's Four Cornerstones, creating a synergy that helps develop holistic and dynamic professionals in the business world. APU's programs aim at bridging the gap between theory and practice and helping prepare students to enter the management field and advance as leaders.

## Commissioning Ceremony

Preceding each commencement, APU holds a commissioning ceremony for graduating students and their families. This event includes an awards ceremony, words to live by, student remarks, and a time of prayer and commissioning for each graduate.

## Field Study Fees

Mandatory and elected international field study and field experience trips that are available on a program-by-program basis incur appropriate required fees. Students who switch programs, withdraw, or are otherwise unable to participate in international field study or field experience trips that are either required or elected for their program may be responsible for fees up to the full cost of the trip. View the most up-to-date list of fees (<http://www.apu.edu/graduateprofessionalcenter/sfs/costs/fees/>).

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Cross-Disciplinary Competence: Demonstrate knowledge and application of management theories, concepts and practices.
2. Analytical and Critical Thinking/Deciding: Recommend strategic solutions to ambiguous business problems using analytical and critical thinking skills.
3. Character: Exhibit an understanding of leadership and ethics based on a Christian worldview.
4. Communication: Compose professional written business communications that are clear, concise, and compelling, and create and deliver professional oral business presentations.
5. Collaboration: Exhibit the ability to engage in a collaborative effort.

# Minor in Accounting

22 units

## Requirements

No more than three courses in a student's major may count toward this minor.

| Code                    | Title                                    | Units |
|-------------------------|--|-------|
| ACCT 120                | Principles of Accounting I               | 4     |
| ACCT 121                | Principles of Accounting II              | 3     |
| ACCT 320                | Intermediate Accounting I                | 3     |
| ACCT 321                | Intermediate Accounting II               | 3     |
| ACCT 325<br>or ACCT 426 | Cost Accounting<br>Auditing Principles I | 3     |
| ACCT 331<br>or ACCT 332 | Federal Taxes I<br>Federal Taxes II      | 3     |
| ACCT 336                | Advanced Accounting                      | 3     |
| Total Units             |  | 22    |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate mastery of key accounting content areas, such as financial reporting, business and economic concepts, auditing, and regulation.
2. Identify and solve accounting or business problems using analytical and critical thinking skills.
3. Compose responses to business decisions that demonstrate a Christian worldview.
4. Express themselves clearly and effectively through professional written and oral communications.
5. Demonstrate the ability to function as an effective business team member.

# Minor in Business Administration (Professional)

21 units

## Requirements

| Code        | Title                                    | Units |
|-------------|--|-------|
| PRBA 120    | Financial Accounting                     | 3     |
| PRBA 210    | Principles of Management                 | 3     |
| PRBA 260    | Marketing Principles                     | 3     |
| PRBA 370    | International Business                   | 3     |
| PRBA 448    | Organization and Administrative Behavior | 3     |
| PRBA 305    | Operations Management                    | 3     |
| PRBA 445    | Human Resource Management                | 3     |
| Total Units |  | 21    |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Critical Thinking: Identify and solve business problems using analytical and critical thinking skills.
2. Quantitative Reasoning: Analyze quantitative data to address real-world or discipline-specific business problems.
3. Information Technology: Apply current information technologies to business issues.
4. Christian Business Ethics: Use biblically-based ethics to make moral and virtuous ethical and socially responsible business decisions.
5. Written Communication: Convey ideas clearly and effectively through professional written communication.
6. Oral Communication: Communicate in informative or persuasive ways using the appropriate genre, channel, structure, and style.
7. Global/Multicultural Awareness: Informed by biblically-based ethics, students will identify and respond to cultural, economic, and political aspects of business in multicultural and global environments.

# Minor in Business Management

21 units

## Requirements

No more than three courses in a student's major may count toward the business management minor.

| Code                         | Title   | Units |
|------------------------------|---|-------|
| BUSI 110                     | Business and Entrepreneurship                           | 3     |
| MGMT 210                     | Principles of Management                                | 3     |
| MKTG 260                     | Principles of Marketing                                 | 3     |
| MGMT 445                     | Human Resource Management                               | 3     |
| MGMT 448                     | Organizational and Administrative Behavior <sup>1</sup> | 3     |
| Select two of the following: |   | 6     |
| MGMT 311                     | Leadership In Management                                |       |
| MGMT 312                     | Managing Teams and Groups                               |       |
| MGMT 335                     | Real Estate Management                                  |       |
| MGMT 350                     | Business Management Internship <sup>2</sup>             |       |
| MKTG 364                     | Sales and Sales Management                              |       |
| MKTG 368                     | Retail Management                                       |       |
| MKTG 373                     | Global Marketing Management                             |       |
| MGMT 410                     | Production Management                                   |       |
| Total Units                  |   | 21    |

<sup>1</sup> Meets the General Education Civic Knowledge and Engagement requirement.

<sup>2</sup> Meets the General Education Integrative and Applied Learning requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Students will be able to demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Students will be able to identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Students will be able to demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Written Communication: Students will be able to convey ideas clearly through professional written communication.
5. Oral Communication: Students will be able to express ideas effectively through professional oral presentations.
6. Collaborative Teamwork: Students will be able to demonstrate the ability to function as an effective business team member.
7. Comprehensive Global Awareness: Students will be able to identify cultural, economic and political aspects of business in a global environment.
8. Discipline Knowledge: Students will be able to demonstrate knowledge of management concepts.
9. Discipline Problem Solving/Strategy: Students will be able to a) solve core management problems or b) analyze management situations and provide strategy for effectiveness.

# Minor in Economics

21 units

## Requirements

The economics minor allows no more than three courses in the student's major to count toward this minor.

| Code                       | Title   | Units |
|----------------------------|---|-------|
| ECON 250                   | Principles of Macroeconomics <sup>1</sup>       | 3     |
| ECON 251                   | Principles of Microeconomics                    | 3     |
| ECON 350                   | Intermediate Macroeconomics                     | 3     |
| ECON 351                   | Intermediate Microeconomics                     | 3     |
| Select 3 of the following: |   | 9     |
| ECON 355                   | Environmental Economics                         |       |
| ECON 356                   | Labor Economics                                 |       |
| ECON 357                   | Economics of the Developing World               |       |
| ECON 359                   | Urban and Regional Economics <sup>2</sup>       |       |
| ECON 371                   | Comparative Economics                           |       |
| FIN 372                    | International Trade and Finance                 |       |
| ECON 452                   | Econometrics                                    |       |
| ECON 453                   | Microfinance and Microenterprise                |       |
| ECON 454                   | Industrial Organization and Regulation          |       |
| ECON 458                   | Economics and Religion                          |       |
| FIN 352                    | Financial Markets and Institutions              |       |
| PADM 350                   | Theory and Practice of Public Administration    |       |
| PADM 399                   | Public Administration Practicum <sup>2, 3</sup> |       |
| Total Units                |   | 21    |

<sup>1</sup> Meets the General Education Social Sciences requirement.

<sup>2</sup> Meets the General Education Civic Knowledge and Engagement requirement.

<sup>3</sup> PADM 399 counts for 3 units of minor elective credit and 3 units of nonminor elective credit.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Written Communication: Convey ideas clearly through professional written communication.
5. Oral Communication: Express ideas effectively through professional oral presentations.
6. Collaborative Teamwork: Demonstrate the ability to function as an effective business team member.
7. Comprehensive Global Awareness: Identify cultural, economic and political aspects of business in a global environment.
8. Discipline Knowledge: Demonstrate knowledge of economics concepts.
9. Discipline Problem Solving/Strategy: Solve core economics problems, or analyze economics situations and provide strategy for effectiveness.

# Minor in Entrepreneurship

18 units

## Requirements

No more than three courses in a student's major may count toward this minor.

| Code        | Title                             | Units |
|-------------|-----------------------------------|-------|
| BUSI 110    | Business and Entrepreneurship     | 3     |
| ENTR 312    | Creativity and Innovation         | 3     |
| BUSI 313    | Negotiation Strategies and Skills | 3     |
| ENTR 315    | Social Entrepreneurship           | 3     |
| MKTG 466    | Digital Marketing                 | 3     |
| MGMT 350    | Business Management Internship    | 3     |
| Total Units |                                   | 18    |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Competent Business Knowledge: Students will be able to demonstrate knowledge in multiple business disciplines, including management, finance, marketing, accounting and economics.
2. Critical Thinking: Students will be able to identify and solve business problems using analytical and critical thinking skills.
3. Christian Business Ethics: Students will be able to demonstrate the ability to evaluate business decisions based on a Christian perspective.
4. Written Communication: Students will be able to convey ideas clearly through professional written communication.
5. Oral Communication: Students will be able to express ideas effectively through professional oral presentations.
6. Collaborative Teamwork: Students will be able to demonstrate the ability to function as an effective business team member.
7. Comprehensive Global Awareness: Students will be able to identify cultural, economic and political aspects of business in a global environment.
8. Discipline Knowledge: Students will be able to demonstrate knowledge of entrepreneurship concepts.
9. Discipline Problem Solving/Strategy: Students will be able a) solve core entrepreneurship problems or b) analyze entrepreneurship situations and provide strategy for effectiveness.

# Minor in Finance

24 units

## Requirements

No more than three courses in the student's major may count toward this minor.

| Code                    | Title                              | Units |
|-------------------------|------------------------------------|-------|
| <b>Required Courses</b> |                                    |       |
| FIN 320                 | Principles of Corporate Finance    | 3     |
| FIN 330                 | Financial Analysis                 | 3     |
| FIN 338                 | Applied Portfolio Management       | 3     |
| FIN 352                 | Financial Markets and Institutions | 3     |
| FIN 372                 | International Trade and Finance    | 3     |
| FIN 432                 | Investment Analysis                | 3     |
| FIN 436                 | Financial Risk Management          | 3     |
| FIN 439                 | Seminar in Finance                 | 3     |
| Total Units             |                                    | 24    |

9. Discipline Problem Solving/Strategy: Solve core marketing problems, or analyze marketing situations and provide strategy for effectiveness.

# School of Education

The School of Education (<https://www.apu.edu/education/>) at Azusa Pacific University equips teachers, counselors, school psychologists, and administrators for excellence and leadership in educational settings. The school provides an Ed.D. program in Educational Leadership, Ed.S. degrees in School Psychology, master's programs, teaching credentials, and specialist credentials in educational technology, special education, school counseling, school psychology, and teaching. The school also offers an undergraduate major and minor in liberal studies.

For a full listing of programs and affiliated faculty, visit the appropriate department or division pages: Educational Leadership (p. 777), School Counseling and School Psychology (p. 785), and Teacher Education (p. 814). (p. 814)

## Mission Statement

Based upon Christian values and principles, the APU School of Education prepares educators to be creative, collaborative, critical thinkers and scholars for diverse educational settings.

## Learner Goals

The School of Education seeks to prepare:

1. Ethical professionals who understand and articulate the integration of a Christian worldview in their communities of practice.
2. Responsive educators who practice reflective, creative, critical thinking in their engagement with diverse communities of learners.
3. Informed scholarly professionals who are dedicated to collaboration, professional growth, and lifelong learning.

## Affiliated Programs

APU offers a number of California Commission on Teacher Credentialing (CTC)-approved subject-matter programs for candidates completing their bachelor's degrees. The following programs can be used to meet the subject matter authorization requirement for a preliminary teaching credential:

- English Approved Subject-Matter Program (p. 123)
- Mathematics Approved Subject-Matter Program (p. 207)
- Music Approved Subject-Matter Program (p. 414)
- Social Science Approved Subject-Matter Program (p. 177)

In collaboration with the College of Liberal Arts and Sciences, the School of Education offers the Integrated Bachelor's/Credential Program (p. 875) to undergraduate students seeking to earn a preliminary teaching credential during their undergraduate degree program.

## Graduate Physical Education Programs

APU offers programs in graduate physical education. The Master of Arts in Physical Education and Single Subject Teaching Credential (p. 579), Master of Arts in Physical Education with an Added Authorization in Adapted Physical Education (p. 581), and the Adapted Physical Education Added Authorization (p. 574) programs are accredited by the National Council for Accreditation of Teacher Education (NCATE, transitioning to CAEP) and are approved by the California Commission on Teacher Credentialing (CTC). For more information, visit the School of Behavioral and Applied Sciences (p. 508).

## School Librarianship Programs

APU offers programs in school librarianship. These programs are accredited by the National Council for Accreditation of Teacher Education (NCATE, transitioning to CAEP) and are approved by the California Commission on Teacher Credentialing (CTC). For more information, visit University Libraries (p. 1141). (p. 1141)

## School Nurse Services Credential

APU offers a program in school nursing services. The School Nurse Services Credential (SNSC) is approved by the California Commission on Teacher Credentialing (CTC). For more information, visit the School of Nursing (p. 890).

## School Social Work and Child Welfare and Attendance PPS Credential

APU offers a Pupil Personnel Services credential program in school social work and child welfare and attendance, which is approved by the California Commission on Teacher Credentialing (CTC). For more information, visit the Department of Social Work section of this catalog (p. 670).

## Professional School-Level Dispositions

The School of Education has adopted a set of professional dispositions that represent the attitudes and behaviors expected of all education professionals, and reflect the values that are central to the School of Education mission. In addition to maintaining satisfactory academic progress,

candidates are expected to demonstrate these dispositions throughout all education programs. Candidates who fail to meet the dispositional requirements will be evaluated for fitness to practice in the profession.

## Minimum Requirements for Credential Students

Certain designated courses within the School of Education (e.g., fieldwork, clinical practice, etc.) are graded on a Credit (*CR*)/No Credit (*NC*) basis. A grade of *NC* is interpreted as a failing grade, which can have implications for a student's continued satisfactory progress and academic standing.

Students who earn an *NC* grade are required to meet with their program director or chair to identify knowledge, skills, and/or dispositions that may need strengthening and to develop a performance improvement plan. Students who earn an *NC* grade will be placed on probation and given one enrollment period to demonstrate satisfactory progress according to the terms of the improvement plan. Students who do not meet the standards for satisfactory progress after a period of probation may be dismissed from the program.

Students are expected to successfully complete their culminating clinical practice on their first attempt. On rare occasions, students with unsuccessful first attempts will be eligible to petition the appropriate academic department to repeat the course. A successful petition is required for a student to repeat. A culminating clinical practice, fieldwork, or internship course can be repeated only once.

Students who earn an *NC* grade in a culminating clinical practice as a result of a lapse in professional responsibility, integrity, or ethical conduct may not be eligible to petition to repeat the course for which they received the nonpassing grade.

## Credit Hour

The School of Education follows the University credit hour policy, except when clinical experience expectations from our professional accrediting bodies have expectations for more clock hours. Clinical experience expectations are guided by our professional accrediting bodies.

Department of School Counseling and School Psychology

- School Counseling – The California Commission on Teacher Credentialing (CTC) requires a minimum of six hundred clock hours of supervised fieldwork/internship. This equates to six units of fieldwork/internship within the program.
- School Psychology – The CTC requires a minimum of four hundred and fifty clock hours of practicum experience. This equates to three units of practicum within the program. Additionally, the CTC requires a minimum of twelve hundred clock hours of supervised fieldwork/internship. This equates to ten units of fieldwork/internship within the program.
- Applied Behavioral Analysis Specialization – The Behavior Analyst Certification Board (BACB) requires a minimum of 1,500 clinical hours for individuals applying for Certification before 1/1/2022 and 2,000 clinical hours for individuals apply for Certification 1/1/2022 and after. The ABA program includes two fieldwork courses that have assignments that must be completed in the field under the supervision of a Board Certified Behavior Analyst (BCBA) or School Psychologist. The time necessary to complete the assignments equates to approximately two hundred hours of fieldwork clock hours. These fieldwork courses support students toward meeting their clinical requirements for the BACB, and these courses equate to two units of fieldwork within the program.

Division of Teacher Education

- Preliminary Teaching Credential Programs – The CTC requires six hundred clock hours of clinical experiences. A minimum of sixty hours of early field experiences are embedded in foundations courses while a minimum five hundred and forty hours of clinical practice is completed at student teaching or internship. This equates to four units of clinical practice within the program.

## Faculty

### Dean

Anita Fitzgerald Henck (<http://www.apu.edu/faculty/ahenck/>), Ph.D.

### Associate Dean for External Partnerships

Kent Bechler (<http://www.apu.edu/faculty/kbechler/>), Ph.D.

### Assistant Dean for Academic Planning and Accreditation

Rebekah Harris (<http://www.apu.edu/faculty/rharris/>), M.S.

### Assistant Dean for Outreach and Engagement

Nori Conner (<http://www.apu.edu/faculty/nconner/>), M.A.

### Professors

Kathleen Fletcher Bacer (<http://www.apu.edu/faculty/kbacer/>), Ed.D.

# Accreditation

Azusa Pacific University (APU) is accredited by the WASC Senior College and University Commission (WSCUC) (<http://www.wscuc.org>).

Additionally, APU has a number of professional accreditations and approvals related to its educator preparation programs:

- All programs that result in an educator credential are accredited by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>) and the National Council for Accreditation of Teacher Education (NCATE), which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP) (<http://caepnet.org/>).
- The Educational Specialist (Ed.S.) in School Psychology (<http://catalog.apu.edu/graduateprofessional/education/school-counseling-psychology/#graduateprogramstext>) programs are accredited by the National Association of School Psychologists (NASP) (<https://www.nasponline.org/>).

# Academic Policies

## Normal Progress Toward a Degree or Credential and Time Limit for Degree or Credential

School of Education students have a maximum of five years to complete all program requirements for the degree and/or credential, with the exception of doctoral students, who have six years to complete all program requirements. In rare instances, extensions may be requested by petition. Granting of such a petition may entail additional degree requirements, credential requirements, and/or repeating courses that have expired.

## Good Academic Standing

To maintain good academic standing, School of Education students are expected to make satisfactory progress toward completion of their program. There are three criteria to the Good Academic Standing policy, in keeping with university academic quality standards and eligibility requirements for federal financial aid:

1. **Minimum GPA Requirement:** Students must maintain a minimum cumulative grade-point average (GPA) of 3.0 in their program of study.
2. **Time to Degree Completion:** School of Education students have a maximum of five years to complete all program requirements, with the exception of doctoral students, who have six years to complete all program requirements.
3. **Successful Completion of Attempted Units:**
  - Students enrolled in a graduate program must complete 50 percent of all units in which they originally enroll from the beginning of their program. The policy applies to cumulative units in their program of study.
  - Students enrolled in a teaching certificate/credential-only program are expected to complete a minimum of 67 percent of units in which they enroll from the beginning of their program. The policy applies to cumulative units in their program of study.
4. **Successful Completion of Credit (CR)/No Credit (NC) Courses:** School of Education students must earn a grade of *CR* for Credit/No Credit courses in which they enroll.

## Academic Probation and Dismissal

Students who do not meet the definition of good academic standing outlined above are subject to academic probation and will be given one enrollment period to demonstrate satisfactory progress toward good academic standing. Certain designated courses within the School of Education (e.g., fieldwork, supervised teaching, dissertation courses, etc.) are graded on a Credit (*CR*)/No Credit (*NC*) basis. A grade of *NC* is interpreted as a failing grade, which can have implications for a student's continued satisfactory progress and academic standing.

## Minimum Requirements for Certificate, Credential, Master's, and Combined Master's Degree and Credential Students

Students in master's and/or credential coursework must maintain a minimum cumulative GPA of 3.0. Courses with a grade lower than *B-* (including *NC* grades) are not applied to master's or educational specialist (Ed.S.) degree requirements or to credential/certificate requirements and must be repeated. Students who earn an *NC* grade are required to meet with their program director or chair to identify knowledge, skills, and/or dispositions that may need strengthening and to develop a performance improvement plan. Students who earn an *NC* grade will be placed on probation and given one enrollment period to demonstrate satisfactory progress according to the terms of the improvement plan. Students who do not meet the standards for satisfactory progress after a period of probation may be dismissed from the program.

Students are expected to successfully complete their culminating clinical practice, fieldwork, and internship courses at first attempt. On rare occasions, students with unsuccessful first attempts will be eligible to petition to the appropriate academic department to repeat the course. A successful petition is required for a student to repeat. A culminating clinical practice, fieldwork, or internship course can be repeated only once.

Students who earn an *NC* grade in a culminating clinical practice, fieldwork, or internship experience as a result of a lapse in professional responsibility, integrity, or ethical conduct may not be eligible to petition to repeat the course for which they received the nonpassing grade.

## Minimum Requirements for Doctoral Students

A doctoral student must maintain a minimum cumulative GPA of 3.0. Courses with a grade lower than *B-* (including *NC* grades) are not applied toward doctoral degree requirements and must be repeated.

In order to ensure satisfactory academic progress, a doctoral student who receives an *NC* grade or grade lower than *B-* in 700-level courses, or whose grade-point average falls below 3.2, is required to meet with his/her advisor to identify academic skills that may need strengthening and to develop a performance improvement plan.

Doctoral students with a cumulative GPA lower than 3.0, or those who have earned two or more *NC* grades, will be placed on probation and given one enrollment period to demonstrate satisfactory progress according to the terms of the performance improvement plan. Students who do not demonstrate satisfactory progress according to the terms of the performance improvement plan after a period of probation may be dismissed from the program.

# Program Expectations

- APU School of Education candidates prepare to work in schools as educators, including teachers, school and district leaders, school counselors and psychologists, and other specialty personnel. They must demonstrate the content, pedagogy, and writing skills and dispositions required of the profession. Therefore, the School of Education assesses candidates from admission through recommendation of credentials in both academic and dispositional standards.
- Candidates are expected to maintain a high level of professional and ethical behavior throughout the program. Failure to do so may result in discipline up to and including program dismissal.
- All candidates must have access to technology (i.e., computer and internet connectivity). Additional technology requirements are necessary for some programs. Check the program descriptions in this catalog for more information.
- Candidates who live in, work at, or relocate to a location more than 50 miles from the nearest Azusa campus (including regional campuses) must receive approval from the department to participate in fieldwork and/or clinical experience at a distance and will be assessed charges to cover the costs (travel, lodging, etc.) for fieldwork and/or clinical experience supervision.
- All credential standards and requirements for special education and teacher education are subject to CTC, NCATE (transitioning to CAEP), and federal policy changes, as well as graduate education policy, and these supersede catalog descriptions of prior programs and requirements.
- Candidates participating in credential programs or master's or education specialist degree programs with credential embedded must be covered by professional liability insurance in their capacity as credential candidates.
- Candidates participating in fieldwork and/or clinical experience must have proof of auto insurance.

## Certificate of Clearance

Azusa Pacific University requires candidates who are admitted to any program within the School of Education, or to credential programs housed within other schools in the university, to have and maintain a Certificate of Clearance or a valid and current credential for teaching, administration, counseling, school psychology, or nursing from the California Commission on Teacher Credentialing. Candidates who allow their Certificate of Clearance or other clearance document from the California Commission on Teacher Credentialing to expire will be prevented from enrolling in future terms. For more information, contact the Office of Credentials (<http://www.apu.edu/education/resources/credentials/>) at [soecredentials@apu.edu](mailto:soecredentials@apu.edu) or (626) 815-5346.

## Assessment System (Taskstream by Watermark™)

The School of Education uses Taskstream by Watermark™ to support the collection and analysis of student outcomes in all degree and credential programs. Taskstream offers candidates a personalized space to submit signature assignments and other documentation of performance as they progress through their program.

All School of Education degree, credential, and nondegree candidates are required to have a Taskstream account and maintain their subscription throughout their time of enrollment in the School of Education. Candidates are required to submit particular assignments and other forms in Taskstream by the deadline specified in the course syllabus. Successful evaluation of necessary submissions is required for degree completion and/or recommendation for a credential to the California Commission on Teacher Credentialing (CTC). It is the responsibility of the candidate to ensure access to an active Taskstream account, enroll in the correct Directed Response Folio(s), and submit assignments to the correct evaluator.

At the start of a candidate's first term in the School of Education, a Taskstream key code and instructions on how to create a Taskstream subscription will be provided by email. All Taskstream-related inquiries may be sent to [soetaskstream@apu.edu](mailto:soetaskstream@apu.edu).

## Office of Credentials

The Office of Credentials (<http://www.apu.edu/education/resources/credentials/>) provides a centralized location in which prospective and current School of Education candidates, faculty, staff, and the community can receive accurate, comprehensive, and complete information and advisement regarding the requirements involved in obtaining California credentials and certificates authorizing service in California schools. It is the candidate's responsibility to submit a credential application through the Office of Credentials upon completion of a credential program in order to receive their California educator's credential. The Office of Credentials also provides credential-related services to subject-matter preparation programs and credential programs offered through the College of Liberal Arts and Sciences (<https://www.apu.edu/clas/>), the College of the Arts (<https://www.apu.edu/arts/>), the School of Behavioral and Applied Sciences (<https://www.apu.edu/bas/>), the School of Nursing (<https://www.apu.edu/nursing/>), and University Libraries (<https://www.apu.edu/library/>). For more information, call (626) 815-5346 or email [soecredentials@apu.edu](mailto:soecredentials@apu.edu).

# Department of Educational Leadership

The Department of Educational Leadership (<https://www.apu.edu/education/leadership/>) offers an Ed.D. in Educational Leadership that prepares scholar-practitioners with the knowledge and skills to make a transformative impact on schools and districts and in the lives of students in them.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Graduate Program

### Doctoral Degree:

- Doctor of Education (Ed.D.) in Educational Leadership (p. 781)

## Courses

### EDUC 702, Proseminar in Educational Leadership, 1 Unit

As a required course for all incoming doctoral students in the Educational Leadership program, the proseminar has three primary goals: 1) to orient students to the intellectual life of doctoral study; 2) to provide opportunities for students to become familiar with steps and procedures required for successful completion of the doctoral program, including a plan and timeline for accomplishing major academic and professional milestones; and 3) to introduce students to the technology, tools, and academic resources needed for doctoral study, including use of the Azusa Pacific University library catalog and databases. The proseminar provides an early opportunity for students to prepare for the rigors of doctoral work and to become familiar with the culture and expectations of the Educational Leadership program. All proseminar activities are designed to help students develop connections with each other and with the faculty to create a community of learners and scholars.

### EDUC 710, Developing the Leader Within, 2 Units

Leadership impact and influence - positive or negative - are greatly related to the skills, values, and principles of the leader. This course will focus on the mental, ethical, psychological, spiritual, and emotional aspects of leadership, both in the context of the literature, as well as through use of various assessments. These will include guided self-reflection and a 360-degree assessment by those within the leader's span of influence. Patterns of leadership failure will also be explored.

### EDUC 712, Leading Change in Education: Theory to Practice, 3 Units

This course examines leadership, organizational development, and change theories, with particular application to contemporary public K-12 environments - classroom, school, district, state, and national arenas. The emphasis is on the role of leader as change agent within systems and/or organizations, as well as on the impact of change on individuals and communities. Theoretical as well as practical perspectives relative to the nature of leadership are balanced in the context of discussion of the implications for practice. Leadership in the context of organizational culture, communication, motivation, integrity, and change is incorporated throughout the course.

### EDUC 713, Diversity and Equity in Education, 3 Units

Students examine diversity and equity issues impacting P-12 students, schools, and communities. Relevant theoretical perspectives are explored to help students deepen their knowledge, skills, and dispositions in order to perpetuate or to change cross cultural patterns in schools. The course raises issues related to justice, excellence, and other topics that call for reflection and the student's ability to intervene as needed.

### EDUC 716, Educational Policy: Analysis, Praxis, and Reform, 3 Units

The purpose of this course is to prepare students to critically analyze, formulate, and implement educational policies and practices that advance the achievement of P-12 students. Theory and praxis aligned to federal, state, local, and district policies will be examined. The impact of historical and current legislative trends, (such as school funding policies, accountability, and certification processes), will be appraised, interpreted, and critiqued. Implications for various student populations will be considered.

### EDUC 718, Group Dynamics and Conflict, 2 Units

This course is focused on group dynamics and conflict that arise in all work groups. The roles of all individuals within the group, with focus on leadership styles, healthy group conflict, resolving conflict, and techniques for improving group decision making are explored, and ethical and legal issues related to group interventions are discussed.

## **EDUC 719, Special Topics in Educational Leadership, 3 Units**

This course will serve as a 'contemporary issues' course for the EdD in Educational Leadership, providing an opportunity to focus in depth on issue(s) in the ever-changing field of public K-12 education, incorporating a fieldwork component to enhance integrated learning, drawing from themes of earlier classes in the program. It will take one of two forms: 1) traditional classroom-based course, with a lead faculty and special speakers who provide 'real-time' expertise to the particular specialty topic; 2) travel course to look at K-12 educational issues at a state, national, or international level.

## **EDUC 722, Strategic Planning for Educational Systems, 3 Units**

This course focuses on the theory and practice of strategic planning in education systems, introducing various approaches to designing and conducting strategic planning processes, including specific techniques for conducting environmental scans, SWOT analyses, strategic issue identification, and strategy formulation. This course includes an embedded fieldwork component.

**Prerequisite:** EDUC 716

## **EDUC 723, Legal Issues and Crisis Management in Schools, 3 Units**

This course is designed to prepare students to function as school leaders in the areas of legal issues and crisis management. During this course, students will be introduced to a number of critical legal issues in schools, including suspension and expulsion, manifestation determination, student records, school safety, and privacy, including internet privacy. Students will also explore issues related to school crisis, including crisis planning, crisis teams, crisis response, and district-level and school-level issues. Each student will critique several districts' crisis plans, and will develop a crisis plan. This course includes an embedded fieldwork component.

## **EDUC 724, Ethical Leadership in Education, 3 Units**

Students examine ethical dilemmas of leadership within contemporary educational institutions and the context of the communities they serve. The role and function of integrity, justice, fairness, and courage in leadership are examined within public and nonpublic school settings. Ethical dilemmas encountered by students in their leadership roles are explored using case study research methodologies, and evaluated in terms of value claims, propositions, and beliefs of contemporary philosophies and a Christian perspective of truth and life. Personal ethics are studied in terms of integrity in pursuing one's own sense of destiny and 'calling' in the leadership roles assumed.

## **EDUC 760, Dissertation Milestone: Proposal A - Nature of Inquiry and Chapter 1, 2 Units**

This course offers students an opportunity to begin exploring key aspects of the research process: question formulation, literature search and review, research design, data collection and analysis, drawing conclusions, and identifying implications. Students are given the opportunity to enhance their skills in locating and evaluating the literature of the field, exploring scholarly writing and identifying possible dissertation topics. Upon successful completion of the course, students have an initial draft of the introduction (Chapter 1) of the proposal.

## **EDUC 761, Introduction to Educational Research, 2 Units**

This course introduces quantitative and qualitative research designs. Students examine the role of theory and research, and their applications to practice in education. Statistical concepts, such as hypothesis testing, and basic descriptive and inferential statistics, are presented in relation to quantitative research designs. Students experience hands-on computer applications with SPSS software. Qualitative approaches to research are also explored, through reading and evaluating empirical research.

## **EDUC 762, Quantitative Inquiry in Education, 3 Units**

This course introduces students to quantitative inquiry methods and applications of statistical procedures to practical educational research problems. Emphasis is placed on inferential and univariate statistics and various multivariate analysis techniques such as multiple regression, factorial ANOVA, multivariate ANOVA, and repeated measures. Students develop an understanding of the relationship between statistics and research design and learn to choose and apply the most appropriate statistical procedures in correlational and experimental studies.

**Prerequisite:** EDUC 761

## **EDUC 767, Qualitative Inquiry in Education, 2 Units**

This course introduces the perspectives, purposes, designs, analysis, interpretation, and reporting of qualitative research in the field of education through reading and discussion of exemplifying articles. Ethnography, phenomenology, narrative inquiry, case study, grounded theory, and qualitative evaluation studies are among the designs examined. The data collection methods of observation, interviewing, and document analysis are studied and practiced.

**Prerequisite:** EDUC 761

## **EDUC 768, Methods of Data Collection and Analysis, 2 Units**

The course addresses methods of data collection and analysis procedures for quantitative and qualitative research. Probability and non-probability samplings and purposive sampling, instrument designs will be discussed. Data analysis methods will be practiced.

**Prerequisite:** EDUC 762, EDUC 767

## **EDUC 769, Program Evaluation in Education: Assessment for Decision Making, 3 Units**

This course introduces the skills and knowledge of the field of program evaluation, and their application to educational programs. In addition to understanding and identifying the issues and problems that threaten validity and reliability in program evaluations, students learn to be thoughtful consumers of evaluations and produce their own evaluation design. While theory guides the discussion of issues, emphasis is placed on application to good practice. Students produce a brief literature review, design and execute a program evaluation, and report the decision(s) based on the findings. This course includes an embedded fieldwork component.

**Prerequisite:** EDUC 762, EDUC 767

## **EDUC 770, Dissertation Milestone: Proposal B, 1 Unit**

This course helps students continue to formulate research concepts while conferring with their dissertation chairs to develop the initial chapters of the proposals.

**Prerequisite:** EDUC 761

## **EDUC 771, Dissertation Milestone: Proposal C, 2 Units**

This course facilitates the completion of the literature review for students' dissertation topics, building on academic writing skills and higher-level critical thinking skills required for educational research, including analysis, synthesis, and evaluation of existing scholarly literature. Upon successful completion of this course, students have an initial draft of the dissertation literature review (Chapter Two).

**Prerequisite:** EDUC 770

## **EDUC 772, Dissertation Milestone: Finalizing the Proposal, 2 Units**

This course serves as a checkpoint assessment of student readiness to complete the dissertation. Emphasis is on finalizing a well-designed dissertation proposal draft that establishes the conceptual and methodological basis for their research, with clear alignment between the research questions, scholarly literature, and methodology. A draft of the IRB application is also developed within this course.

**Prerequisite:** EDUC 771

## **EDUC 773, Dissertation Milestone: Data Collection, 1 Unit**

The purpose of this course is to assist students in collecting research data with tests, self-report measures, questionnaires, interviews, observations, documents, or audio-visual materials. Emphasis is placed on enhancing the quality and credibility of the qualitative data and building the validity and reliability of the quantitative data. Upon successful completion of EDUC 773 students will have collected the data that they proposed. This course can be repeated in the following semester if data collection is not completed.

**Prerequisite:** EDUC 772

## **EDUC 774, Dissertation Milestone: Data Analysis, 1 Unit**

This course is designed to guide and enable students to engage in data analysis processes for their dissertation. During the course students will work with their dissertation committee and meaningfully analyze the qualitative and quantitative data collected. Upon completion of EDUC 774 students will have prepared and analyzed the data they have collected using appropriate measures and techniques.

**Prerequisite:** EDUC 773

## **EDUC 776, Dissertation Milestone: Results, Discussion, and Conclusion, 2 Units**

The purpose of this course is to guide students in providing an in-depth interpretation, analysis, and synthesis of the dissertation results. During this course students will work with their committee members to explore their dissertation findings in light of the study's research questions, literature review, and conceptual framework. Emphasis will be placed on providing students an opportunity to reflect thoroughly on the study's findings and the practical and theoretical implications. Upon completion of EDUC 776 students will have developed their Findings (Chapter 4), Discussion of Findings (Chapter 5), and Conclusion (Chapter 6) toward completion of the dissertation.

**Prerequisite:** EDUC 774

## **EDUC 777, Dissertation, 2 Units**

After completing all other program coursework requirements, Ed.D. students work with their dissertation committee in conducting a doctoral-level research project in educational leadership. Students enroll for two units of dissertation credit and must reenroll each semester until the dissertation is completed and successfully defended, APA edits are completed, and the dissertation is submitted for library review and publication.

**Prerequisite:** EDUC 776

## **Faculty**

### **Program Director, Ed.D. in Educational Leadership**

Stacy Kula (<http://www.apu.edu/faculty/skula/>), Ph.D.

### **Professors**

Ying Hong Jiang (<http://www.apu.edu/faculty/yjiang/>), Ph.D.

Calvin Roso (<http://www.apu.edu/faculty/croso/>), Ed.D.

## **Associate Professor**

Stacy Kula (<http://www.apu.edu/faculty/skula/>), Ph.D.

## **Assistant Professors and Superintendents-in-Residence**

Kent Bechler (<http://www.apu.edu/education/faculty/kbechler/>), Ph.D.

Maureen Latham (<http://www.apu.edu/education/faculty/mlatham/>), Ed.D.

Greg Plutko (<http://www.apu.edu/faculty/gplutko/>), Ed.D.

Robert Taylor (<http://www.apu.edu/faculty/rtaylor/>), Ed.D.

# Ed.D. in Educational Leadership

For more information: (626) 815-5374

Azusa Pacific University's Ed.D. in Educational Leadership (<https://www.apu.edu/education/programs/doctor-in-educational-leadership/>) is a practitioner-based program that places emphasis on applied research that results in direct, positive change in K-12 settings. The program prepares scholar-practitioners who are equipped with the knowledge and skills to make a transformative impact on schools and districts and the lives of students in them.

## Mission Statement

The Ed.D. in Educational Leadership program at APU, a Christ-centered university, enables culturally aware K-12 leaders to implement research-based practices as change agents.

## Program Requirements

Students must complete 51 units of coursework, and successfully complete the written dissertation, oral defense, and required corrections as well as a public dissertation presentation.

## Coursework Requirements

| Code                                   | Title  | Units |
|--|--|-------|
| <b>Required Courses</b>                |  |       |
| <b>Orientation</b>                     |  |       |
| EDUC 702                               | Proseminar in Educational Leadership                                 | 1     |
| <b>Leadership Content</b>              |  |       |
| EDUC 710                               | Developing the Leader Within   | 2     |
| EDUC 712                               | Leading Change in Education: Theory to Practice                      | 3     |
| EDUC 713                               | Diversity and Equity in Education                                    | 3     |
| EDUC 716                               | Educational Policy: Analysis, Praxis, and Reform                     | 3     |
| EDUC 718                               | Group Dynamics and Conflict  | 2     |
| EDUC 719                               | Special Topics in Educational Leadership                             | 3     |
| EDUC 722                               | Strategic Planning for Educational Systems                           | 3     |
| EDUC 723                               | Legal Issues and Crisis Management in Schools                        | 3     |
| EDUC 724                               | Ethical Leadership in Education                                      | 3     |
| <b>Research Methodology and Design</b> |  |       |
| EDUC 760                               | Dissertation Milestone: Proposal A - Nature of Inquiry and Chapter 1 | 2     |
| EDUC 761                               | Introduction to Educational Research                                 | 2     |
| EDUC 762                               | Quantitative Inquiry in Education                                    | 3     |
| EDUC 767                               | Qualitative Inquiry in Education                                     | 2     |
| EDUC 768                               | Methods of Data Collection and Analysis                              | 2     |
| EDUC 769                               | Program Evaluation in Education: Assessment for Decision Making      | 3     |
| <b>Dissertation Milestones</b>         |  |       |
| EDUC 770                               | Dissertation Milestone: Proposal B                                   | 1     |
| EDUC 771                               | Dissertation Milestone: Proposal C                                   | 2     |
| EDUC 772                               | Dissertation Milestone: Finalizing the Proposal                      | 2     |
| EDUC 773                               | Dissertation Milestone: Data Collection                              | 1     |
| EDUC 774                               | Dissertation Milestone: Data Analysis                                | 1     |
| EDUC 776                               | Dissertation Milestone: Results, Discussion, and Conclusion          | 2     |
| EDUC 777                               | Dissertation   | 2     |
| Total Units                            |  | 51    |

## Grading and Grade-Point Average (GPA)

Throughout higher education, and particularly at the doctoral level, commitment to learning should outweigh the pursuit of grades. Nonetheless, grading and grade point average continue to play a crucial role in students' studies. For doctoral students, the grade of *B-* is considered minimally acceptable. Courses graded lower than *B-* are not applied toward doctoral degree requirements and must be repeated.

A doctoral student must maintain a minimum cumulative GPA of 3.0 in 700-level courses and receive no grade lower than *B-* in 700-level courses. Courses graded lower than *B-* are not applied toward doctoral degree requirements and must be repeated. A cumulative GPA lower than 3.0 or the receipt of a grade lower than *B-* in 700-level courses will result in the student being placed on probation. A doctoral student who is on probation for more than a total of two terms throughout his or her doctoral study may be dismissed from the program. Probation and dismissal actions are posted on a student's transcript.

A doctoral student whose grade point average falls in the range of 3.0-3.2 is required to meet with his/her advisor to identify academic skills that may need strengthening and to take appropriate action.

## Other Degree Requirements

### Advancement to Candidacy

Following approval of the dissertation proposal and recommendation by appropriate advisors, doctoral students are advanced to candidacy status.

### Dissertation

Doctoral students are required to complete a dissertation, the standards and procedures for which are defined by program faculty in keeping with the APU Standards and Dissertation Handbook. To be approved for a dissertation defense date, students must complete all requisite coursework, including EDUC 776, and have the approval of their dissertation committee. Continuous enrollment in EDUC 777 is required until the dissertation is successfully defended and submitted to APU's APA reader.

After candidates successfully defend their dissertation in a meeting with their faculty committee, they must complete required corrections and submit the approved changes to the APA reader. The final step of the dissertation requirement is to participate in a scheduled public presentation of the research to the department.

Doctoral students who have completed all program requirements, successfully defended their dissertation, and fulfilled all obligations of the university will have their doctoral degree posted and will be entitled to use the term "doctor."

### Continuous Progress

In addition to maintaining continuous enrollment in EDUC 777, doctoral candidates are expected to make continuous progress toward completion of the dissertation. Continuous progress of doctoral candidates is assessed each term on all of the following expectations:

- maintaining regular contact with the dissertation chair;
- conducting research as described in the dissertation proposal; and
- submitting high-quality drafts in a timely manner, consistent with the timeline established with the dissertation committee.

Candidates who receive *NC* for EDUC 777 will need to submit a report on their progress in candidacy and will enter into a probationary period for one term. Candidates who fail to maintain progress after a probationary period may be recommended for termination from the program.

### Leaves of Absence

Students in good standing and making satisfactory progress toward their degrees who must interrupt their studies for a compelling reason (e.g., illness, study away, family conditions, or crises) may petition for a leave of absence for a stated period of time not to exceed two years. Requests for a leave must be in writing and state the reasons for the leave and the term in which the student will reenroll. Leaves of absence must be approved by the chair of the Department of Educational Leadership and the dean of the School of Education in advance of the term for which the leave is requested.

Students who fail to return to enrolled status at the end of an approved period of leave, or after two consecutive terms of nonenrollment, will be considered no longer in pursuit of an advanced degree and must reapply for admission. If readmitted at a later date, students must meet any new program requirements.

### Degree Completion Time

Doctoral students are permitted six years from the date of initial enrollment to complete all requirements for the Ed.D. degree. Extensions beyond the six-year limit may be granted at the discretion of the department chair and the dean of the School of Education. Students needing an extension due to unusual circumstances must make their request in writing, stating the reason(s) for the extension, a timetable for completion of requirements, and the expected date of degree completion.

### Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Application Deadlines

Completed applications with all supporting documentation must be received by one of the following deadlines:

- Priority deadline: May 1 (apply by this date to receive full consideration for scholarships)
- Regular deadline: June 1

## Interview

Upon invitation, doctoral applicants interview with at least two members of the doctoral faculty. The purpose of the interview is to meet the applicant, discuss education and career goals, evaluate the match of the program to the applicant, and determine the applicant's potential for success in the program.

## Admission Decisions

Program applicants must meet department and university criteria for admission. Admission to the university is the first step in the process, but does not guarantee admission to the program.

The department reserves the right to offer provisional admission to students who do not meet all the admission criteria. In such cases, the requirements necessary for full admission and the time limit for completing them will be stated in writing. Failure to meet these requirements may result in dismissal from the program.

## Computer Requirement

Students must own or have ready access to a computer during their tenure in the program. The SPSS statistical software package is required of students in their research courses throughout the program. The University Bookstore makes arrangements to enable students to purchase computers and software at economical rates on convenient terms. Often, the required purchase of the laptop and software can be budgeted into student loans. For more information, contact the Student Financial Services office (<http://www.apu.edu/graduateprofessionalcenter/sfs/>) at (626) 815-4570.

## Study Load

The three-year, dissertation-embedded Ed.D. program is a full-time commitment requiring continuous full-time enrollment. To maintain the appropriate course sequence, doctoral students must enroll in all courses designated for each academic term. Requests to enroll for fewer units than designated are approved only in specific circumstances. Any leave of absence will be in a one-year increment and will require stopping out until the following year, when the next course sequence is offered.

## Residence Requirement

Doctoral students must meet a residency requirement by completing a minimum of 41 units toward the doctoral degree at APU.

## Transfer Units

Doctoral students may transfer up to 10 units of coursework with a grade of *B* or higher from another regionally accredited doctoral program. Official transcripts and syllabi must be submitted to the program director, who will determine the courses that successfully transfer.

## Schedule

The program requires a full-time, year-round commitment (fall, spring, and summer). Face-to-face classes are held six Saturdays per 16-week term in both fall and spring, and four Saturdays during the 8-week summer term, with additional instruction provided online. Check with the program office to determine meeting dates and times.

## Advisement

During the first semester of the doctoral program, students enroll in a 1-unit proseminar course that serves as an orientation and initial advising into the program. The proseminar has three primary goals: 1) to orient students to the intellectual life of doctoral study; 2) to provide opportunities for students to become familiar with steps and procedures required for successful completion of the doctoral program, including a plan and timeline for accomplishing major academic and professional milestones; and 3) to introduce students to the technology, tools, and academic resources needed for doctoral study, including use of the Azusa Pacific University library catalog and databases. All proseminar activities are designed to help students develop connections with each other and with the faculty to create a community of learners and scholars.

Upon successful completion of the first semester, and once a student begins dissertation work, the dissertation chair serves as the primary academic advisor for the remainder of the student's time in the program.

## Financial Aid

Federal Stafford loans and personal bank loans are available to all eligible graduate students through the student financial services office in the Graduate and Professional Center. Students are advised to contact that office early in the admissions process.

## Lillian B. Wehmeyer Scholarship Endowment

This scholarship is in memory of the late Lillian B. Wehmeyer, Ph.D., former faculty in the School of Education doctoral program, who lived with a passion for assisting doctoral students in successful research. This scholarship assists doctoral program students in the School of Education who demonstrate satisfactory academic progress, commitment to service, and financial need. Download the Lillian B. Wehmeyer Scholarship Application ([http://www.apu.edu/live\\_data/files/313/scholarship\\_application\\_lillian\\_b\\_wehmeyer.pdf](http://www.apu.edu/live_data/files/313/scholarship_application_lillian_b_wehmeyer.pdf)) (PDF).

## Ed.D. Program Scholarship

Azusa Pacific University offers competitive scholarship support to newly admitted doctoral students who demonstrate outstanding leadership qualities or leadership potential in K-12 education and who are committed to serving under-resourced schools and districts. Priority is given to current practitioners who are leading their schools and districts toward improved performance. Admitted applicants are considered for these awards based on an overall assessment of their admission application. No separate application required. This scholarship is renewable and may be received for a total of three years. Continuous enrollment, good academic standing (minimum 3.5 GPA), and employment in K-12 education are required for annual award renewal.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Values-Driven Leader: Exemplify professional ethics and personal integrity, articulate core values for self and organization, and lead with Christian values and principles that honor the worth of all individuals.
2. Change Agent: Set clear goals and direction, analyze current practices, and make sound decisions about what to change, and appropriately monitor change efforts.
3. Effective Communication: Write accurately and coherently, following APA format, and present data in user-friendly format to various constituent groups.
4. Problem Identification: Formulate a research question and identify significant questions and impact.
5. Data Collection and Analysis: Conduct literature searches, evaluate research literature, and synthesize existing information; design research, select appropriate research tools, collect and analyze data, and communicate findings.
6. Apply Research to Practice: Critically evaluate research and use research evidence to inform practice.

# Department of School Counseling and School Psychology

The Department of School Counseling and School Psychology (<https://www.apu.edu/education/counselingspsych/>) offers adult learners academic and practical preparation for careers in school counseling and school psychology. The department provides coursework and supervises fieldwork leading to the Master of Arts in Education: Educational Counseling; the Master of Arts in Education: Educational and Clinical Counseling; and the Educational Specialist in School Psychology with the Master of Arts in Education: Educational Psychology embedded. In addition, the department offers a credential-only program for those who hold a master's degree and PPS Credential in School Counseling and wish to seek an additional PPS Credential in School Psychology, or vice versa. The department also offers an Applied Behavioral Analysis Specialization (BCBA Certificate) and a Clinical Counseling Certificate.

## Student Dispositional Expectations

All candidates in the Department of School Counseling and School Psychology will be evaluated on their professional attitudes, values, and beliefs demonstrated through both verbal and nonverbal behaviors as educators interact with students, families, colleagues, and communities. These positive behaviors support student learning and development. All candidates will be evaluated by faculty with regards to student dispositions three times throughout their program. The School of Education Candidate Disposition Rubric will be utilized to assess each candidate. Any candidate who does not meet minimal expectations on the Candidate Disposition Rubric will be required to meet with the department chair or his designee to develop an improvement plan. Students who fail to meet the remedial dispositional requirements will be evaluated for fitness to practice in the profession.

## Taskstream by Watermark™

Candidates in the School Counseling and School Psychology programs are required to sign up for a Taskstream account at the onset of their program and maintain their subscription throughout their time of enrollment in the School of Education. All courses, including field experiences, have required Signature Assignments that will be evaluated by faculty.

## Programs

### School Counseling

- Master of Arts in Education: Educational Counseling with Embedded Pupil Personnel Services Credential in School Counseling (p. 792)
- Master of Arts in Education: Educational and Clinical Counseling with Embedded Pupil Personnel Services Credential in School Counseling (p. 794)
- PPS: School Counseling Credential (p. 797)

### School Psychology

- Educational Specialist in School Psychology with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 798)
- Educational Specialist in School Psychology: Clinical and Educationally Related Mental Health Counseling with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 806)
- Educational Specialist in School Psychology: Applied Behavior Analysis with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 802)
- PPS: School Psychology Credential (p. 810)

## Certificates

- Applied Behavioral Analysis Specialization (BCBA Certificate) (p. 811)
- Clinical Counseling Certificate (p. 813)

## Courses

### ABA 500, ABA Fieldwork I, 1 Unit

This course is a companion to the first four courses in the seven-course sequence that fulfills the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course includes 200 hours of supervised fieldwork. Students must find a mentor willing to supervise their fieldwork hours. While a BCBA mentor is preferred, for the purpose of this class students may also be supervised by a behavior intervention case manager (BICM), behavior specialist, or a school psychologist with at least five years of experience of designing behavior intervention plans (BIPs) and/or behavior support plans (BSPs) and completing functional behavioral assessments (FBAs).

**Prerequisite:** ABA 503

### **ABA 503, Behavior Analysis in Applied Settings I, 3 Units**

This is the first of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). It is also the first of two courses that focus on the philosophical underpinnings and concepts/principles from the field of applied behavior analysis (ABA). Topics include assumptions of ABA, basic principles of behavior, positive and negative reinforcement, positive and negative punishment, and extinction.

### **ABA 504, Single-Case Designs: Measurement and Experimental Evaluation of Behavior, 3 Units**

This is the second of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). Students are introduced to single-subject design and learn how to collect, display, analyze, and interpret data using continuous and discontinuous measures.

**Prerequisite:** ABA 503 (may be taken concurrently)

### **ABA 505, Behavior Analysis in Applied Settings II, 3 Units**

This is the third of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). It is also the second of two courses that focus on the philosophical underpinnings and concepts/principles from the field of Applied Behavior Analysis (ABA). Topics include functions of behavior, motivating operations, stimulus control, generalization, and verbal behavior.

**Prerequisite:** ABA 503

### **ABA 510, ABA Fieldwork II, 1 Unit**

This is a companion to the last three courses in the seven-course sequence that fulfills the coursework requirement to become a Board Certified Behavior Analyst (BCBA), and includes 200 hours of supervised fieldwork. Students must find a mentor willing to supervise their fieldwork hours; while a BCBA mentor is preferred, for the purpose of this course students may also be supervised by a behavior intervention case manager (BICM), behavior specialist, or a school psychologist with at least five years of experience designing behavior intervention plans (BIPs) and/or behavior support plans (BSPs) and completing functional behavioral assessments (FBAs).

**Prerequisite:** ABA 500

### **ABA 514, Functional Behavior Assessment in Applied Settings, 3 Units**

This is the last of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course focuses on the functional behavior assessment process, which includes descriptive assessment (review of records, interview, observation, interpretation), functional analysis, and developing intervention plans.

**Prerequisite:** ABA 503, ABA 504, ABA 505, ABA 515, ABA 524, ABA 534

### **ABA 515, Behavior Change Procedures in Applied Settings I, 3 Units**

This is the fourth of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). It is also the first of two courses that focus on the procedures, systems, and considerations of behavior change from the perspective of applied behavior analysis (ABA). Additionally, students learn about conducting personnel supervision that is behavior-analytic in nature.

**Prerequisite:** ABA 503 and ABA 504; ABA 505 (may be taken concurrently)

### **ABA 524, Ethics in Applied Behavior Analysis, 3 Units**

This course is the fifth of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course focuses on ethical considerations inherent to the field of applied behavior analysis (ABA) and covers the professional and ethical compliance code for behavior analysts.

### **ABA 534, Behavior Change Procedures in Applied Settings II, 3 Units**

This is the sixth of seven courses that fulfill the coursework requirement to become a Board Certified Behavior Analyst (BCBA). This course focuses on the selection and implementation of the procedures, systems, and considerations of behavior change covered in ABA 515. Additionally, students learn about conducting personnel supervision that is behavior-analytic in nature.

**Prerequisite:** ABA 515

### **EDCO 528, Community, Family, and School Collaboration, 3 Units**

Students become aware of comprehensive models for forming partnerships or collaborations between schools/districts and community stakeholders to strengthen school improvement and reform efforts. The course investigates the importance of parent and community involvement in children's education from birth through high school including an overview of exemplary parent involvement programs; resources for family involvement activities and programs; and knowledge of existing and possible partnerships between school/districts and public/private community representatives including mental health, government, advocacy and law enforcement agencies; knowledge of district/school programs that support student achievement through academics and mental health, and grant writing to support school/community collaborations.

### **EDCO 533, Counseling Theories and Techniques, 3 Units**

This course provides an examination of the varied counseling theories and techniques needed by school counselors for a variety of counseling roles and functions. The focus is on the application of basic skills in the domains of academic, career, personal and social development. Each student demonstrates knowledge of how school counseling programs and services promote student development, learning and achievement in diverse populations with the context of professional ethics. Concepts, attitudes, and values held by the counselor which most influence the counseling relationship and outcome are explored. A holistic, ecosystemic model for viewing counseling issues, the school community and the understanding of family processes are studied. It focuses on acquiring knowledge and practicing skills related to individual and group counseling within a multicultural context. A prerequisite for EDCO 550 and EDCO 583

### **EDCO 534, Assessment, Measurements, and Testing of Individuals, 3 Units**

This course helps students understand and interpret measurement techniques, and state- and nation-wide assessments used in public schools at all grade levels. Course content includes the role of measurement and assessment in pupil personnel services, test validity and reliability, portfolios, assessment procedures, special education testing, interpreting test data, and elementary statistics. Emphasis is on helping school counselors and other educators use measurement and assessment data to promote positive programs and outcomes for students.

### **EDCO 535, Professionalism, Ethics, and Law, 3 Units**

This course provides an ethical and legal background for use by school counselors and school psychologists as they assume their duties in the public school system. Candidates gain familiarity with state and federal laws and regulations pertaining to children and their families. The implications and legal applications of due process and legal requirements that determine and protect pupil rights are emphasized.

### **EDCO 545, Positive Behavior Supports and Classroom Intervention, 3 Units**

This course focuses on the implementation of positive behavior supports based on principles of applied behavioral analysis. The student learns the process of implementing a functional behavioral analysis in order to promote academic success, socialization, and development of life skills. Consultation and collaboration within the educational environment is emphasized.

### **EDCO 549, Career Development Theories and Techniques, 3 Units**

This course is an orientation to occupational and career education trends, theories and practices which ensure that all pupils receive equitable guidance which transcends cultural and gender stereotypes and is reflective of the national standards. This includes computer-based technology, data management systems and data-based research which support career development services.

### **EDCO 550, Crisis/Trauma Response and Interventions, 3 Units**

Culturally appropriate counseling, classroom, and school related techniques and methods for developing and maintaining a peaceable school, and for the prevention, intervention, and postvention of such factors as crisis, trauma, violence, gang activity, bullying, conflict, depression, suicide, alcohol and substance abuse, and sexual harassment are examined within an ecosystemic context.

### **EDCO 555, Group Counseling Skills, 3 Units**

This course provides a combination of history, theory, techniques, and applications pertaining to group counseling processes. Training requirements include the practice and demonstration of group techniques. Candidates observe, participate in, and conduct a personal-growth group composed of class members and observed by an experienced group supervisor.

### **EDCO 557, Human Growth, Development, and Learning, 3 Units**

Taking an ecosystemic perspective, this course exposes the student to the transactions between biological, psychosocial, cultural, and environmental factors affecting human growth, development, and learning from conception through adolescence. The focus is on the student's achievement of the integrated, holistic, and multicultural understanding, and emphasizes the application of theory to real life situations and problems.

### **EDCO 564, School Counseling Fieldwork I, 3 Units**

This course provides each student with firsthand, supervised pupil personnel experience. Each student is involved in on-site experiences that include application of theory to counseling and consultation practice with individuals, groups, families, children, adolescents, and exceptional and nonexceptional pupils.

**Prerequisite:** EDCO 528, EDCO 533, EDCO 535, EDCO 545, EDCO 550, EDCO 555, EDCO 575, EDCO 592

### **EDCO 568, School Counseling Fieldwork II, 3 Units**

This course provides each student with firsthand, supervised pupil personnel experience. Each student is involved in on-site experiences that include application of theory to counseling and consultation practice with individuals, groups, families, children, adolescents, and exceptional and nonexceptional pupils.

**Prerequisite:** EDCO 528, EDCO 533, EDCO 535, EDCO 545, EDCO 550, EDCO 555, EDCO 575, EDCO 592

### **EDCO 571, Introduction to Clinical Practice: Basic Skills, 3 Units**

This course introduces the student to basic skills in attending behavior, clinical interviewing, and clinical intervention. It is designed to stimulate self-awareness as related to the therapeutic relationship, as well as the integration of spirituality and the interpersonal process. Coursework includes reading, observation, and role-play, and student audio/videotaped clinical practice explores differential diagnosis and the use of current diagnostic tools, such as the DSM-IV-R and the treatment modalities and placement criteria within the continuum of care.

**Prerequisite:** EDCO 575

### **EDCO 572, Psychobiology and Psychopharmacology, 3 Units**

This course introduces the biological and neurological bases of human behavior, as well as psychotropic medications, as an adjunct to psychotherapy. Current information on the use of medications in the treatment of psychological disorders is provided, and consideration is given to the special needs of certain populations (e.g., the elderly and substance abuse patients) when psychotropic medications are prescribed. Students develop skills in case management by gaining an understanding of psychotropic medication indications, dosage scheduling, effects, and side effects as part of therapeutic practice.

### **EDCO 573, Addictions, Assessment, and Interventions, 3 Units**

This course provides an introduction to the field of addictions and compulsive behaviors, including substance abuse and substance abuse treatment. The course emphasizes assessment and intervention skills, processes, evidence-based research relevant to treatment, and available resources. The nature and scope of addictions are defined, DSM-IV criteria for disorders are reviewed, and unique issues relative to faith, children/adolescents, persons with disabilities, and other issues of diversity are considered.

### **EDCO 574, Introduction to Clinical Practice: Advanced Skills, 3 Units**

This course is designed to further develop the psychotherapeutic tools of students prior to their entry into a clinical placement. Students focus on developing proficiency in the core interviewing qualities, deriving goals for a clinical session, and making contracts with clients for change. Additionally, students are trained to work with diverse populations and encouraged to begin developing a theoretical and conceptual understanding of cases. Students are also encouraged to address issues regarding the integration of their faith with the practice of psychotherapy. These goals are addressed through experiential learning, lecture, readings, discussion, and reflection.

**Prerequisite:** EDCO 571

### **EDCO 575, Clinical Practica, 3 Units**

This course provides counseling graduates with an in-the-field counseling experience prior to fieldwork or internship. Students obtain educational and clinical experience in psychotherapeutic techniques, assessment, and maladjustment, health and wellness promotion, and other recognized counseling interventions. A total of 100 hours must be documented in various education and community settings under supervision of faculty and site supervisors.

**Prerequisite:** EDCO 533

### **EDCO 579, Sociocultural Competence, 3 Units**

School counselors require awareness of, and sensitivity to, the social and cultural diversity of the various ethnic groups represented in the districts and communities in which they serve. Everyday issues from levels of family-school involvement to communication to body language can take on new meaning when cultural origins are considered. This course helps students to develop a multicultural perspective by becoming aware of their own cultures, the nuances of other cultures, and counseling considerations and perspective when working with individuals from diverse social and cultural backgrounds.

### **EDCO 587, PPS Leadership, Ethics, and Professionalism, 3 Units**

This course is an orientation to the concepts and procedures which define and encompass pupil personnel management systems. This includes the ethics which guide the coordination and supervision of comprehensive counseling and guidance in a multicultural school setting. Standards of professionalism which support successful leadership are incorporated into the instruction.

### **EDCO 592, Foundations and Ethics in Research, 3 Units**

This is the capstone research course for school counseling candidates and the first of three research courses for school psychology candidates. Candidates prepare a scholarly literature review. For counseling candidates, the major assignment for the course serves as a graduate research project. For school psychology candidates, the major assignment guides construction of the methods section of a research project for the following research courses.

### **EDCO 593, Historical Development of School Counseling and School Psychology, 3 Units**

This course provides an historical overview of the professions of school psychology and counseling, and their philosophical and practical contributions to the field of education.

### **EDCO 594, School Counseling Internship 1, 3 Units**

(300 hours) Students enrolled in this fieldwork course are under a paid internship with their school district. In this course students will receive exposure to individual differences, involvement with testing and case studies, participation in parent conferences and IEP/E and P meetings, and provision of counseling and/or consultation as appropriate to students, staff, and parents.

### **EDCO 595, School Counseling Internship 2, 3 Units**

(300 hours) Students enrolled in this fieldwork course are under a paid internship with their school district. This course provides each student with firsthand, supervised pupil personnel experience. Each student is involved in on-site experiences that include application of theory to counseling and consultation practice with individuals, groups, families, children, adolescents, and exceptional and nonexceptional pupils.

### **EDCO 599, Readings in Educational Counseling, 1-3 Units**

Consists of a program of study concentrating on assigned readings, discussions, field experiences, and/or writing arranged between, and designed by, a student and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## **EDPY 556, Academic Assessment and Intervention, 2 Units**

This course covers the foundations of curriculum-based measurement, evidenced-based interventions, progress monitoring, and response to intervention. Students learn problem-solving skills in the identification and prevention of skill deficits, development of goals based on assessment data, progress monitoring, and determining the responsiveness to intervention.

## **EDPY 599, Readings in Educational Psychology, 1-3 Units**

Consists of a program of study concentrating on assigned readings, discussions, field experiences, and/or writing arranged between, and designed by, a student and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## **EDPY 624, Disabilities in Children (Mild, Moderate, and Severe), 2 Units**

School psychologists are required to have an understanding of the spectrum of individual differences among potential students, particularly individuals with exceptional needs. This course introduces students to individuals defined by cultural differences, socioeconomic disadvantages, sexual biases, and developmental psychopathology in order to achieve sensitivity to the needs and feelings of persons with differing experiences. There is an introduction to the legal requirements of educating learners in the least restrictive environments and consideration of current issues and future trends in special education.

## **EDPY 633, Multicultural and Bilingual Assessment and Intervention, 3 Units**

This course focuses on the assessment of multicultural and bilingual students, including assessment models and practices, test bias, and social and psychological aspects associated with the differences and similarities of ethnic and cultural groups.

## **EDPY 635A, Role and Function of a School Psychologist: Positive Behavior Supports, 1 Unit**

This is a supervised practicum in data-driven behavioral consultation/collaboration and socialization/life skills. This course emphasizes Functional Behavior Assessments (FBA) and Behavior Intervention Plans. Students meet with a university instructor for seminar discussion and group supervision each semester. A minimum of 150 hours is applied toward the total 450 required practicum hours.

**Corequisites:** EDPY 624 and EDPY 681

## **EDPY 635B, Role and Function of a School Psychologist: Individual/Group Counseling, 1 Unit**

This course offers a supervised practicum in the development of life skills, mental health, and home/school/community collaboration. Students gain supervised skills in individual/group counseling and meet with a university instructor for seminar discussion and group supervision each semester. A minimum of 150 hours is applied toward the total 450 required practicum hours.

**Corequisites:** EDPY 637 and EDPY 682

## **EDPY 635C, Role and Function of a School Psychologist: Assessment, 1 Unit**

This is a supervised practicum in data-based intervention development and collaboration. Students gain supervised experience in administration, scoring, and interpretation of cognitive/processing/social emotional assessments. Students also conduct Curriculum-Based Assessments (CBA) within a Response to Intervention (RTI) model. Students meet with a university instructor for seminar discussion and group supervision each semester. A minimum of 150 hours is applied toward the total 450 required practicum hours.

**Corequisites:** EDPY 633 and EDPY 683

## **EDPY 636, Research and Evaluation in School Psychology, 3 Units**

Students gain advanced skills in understanding and applying statistical techniques to the analysis of educational research data related to school psychology. Strategies for conducting effective evaluations are considered as students plan an evaluation using appropriate statistical analysis as related to educational psychological research. Students gain additional experience in the use of computers for statistical analysis.

## **EDPY 637, Child Psychopathology Assessment and Treatment, 3 Units**

This course provides a systematic approach to the description and assessment of and planning for children with emotional and behavioral problems. The emphasis is on the psychological disorders of children most commonly encountered in the delivery of school psychological services.

## **EDPY 655, School Psychology Internship I, 5 Units**

(600 hours) Students are provided with on-site experience leading to the acquisition of skills and knowledge of school counselors and psychologists involving special and regular education students. Such experience includes working with IDEA regulations and procedures, assessing and counseling exception students, consulting with teachers, parents, and community agencies, and supervising counseling services. Further skills include conducting student assessment, writing reports, consulting with staff and parents, designing prevention, interventions, and postvention strategies, and completing progress evaluations.

## **EDPY 656, School Psychology Internship II, 5 Units**

(600 hours) With continued on-site supervision, field-experience students become increasingly independent in planning, implementing, and reporting psychoeducational assessments of pupils. Students continue to gain experience collaborating with multidisciplinary colleagues. Students participate in planning prevention, intervention, and evaluation activities related to the responsibilities of a school psychologist. In addition, students take independent responsibility for initiating and collaborating with multidisciplinary colleagues in prevention, intervention, and evaluation activities related to the responsibilities of a school psychologist.

### **EDPY 681, Psychoeducational Assessment I, 3 Units**

This course is the first in a series of three courses structured to develop competence in the assessment of preschool and school-age children and adults. Students become aware of the multifaceted and culturally defined nature of human intelligence, of research and theory regarding the development and measurement of human intellectual ability, and of the construction, uses, and limitations of assessment tools and methods. Upon completion of this series of courses, the students should have attained competence in a wide range of assessment techniques in the assessment of intelligence, processing abilities, adaptive behavior, socialemotional functioning, and achievement. Students gain experience in developing interventions and recommendations based on assessment data, and in communicating the results of assessments to diverse audiences.

### **EDPY 682, Psychoeducational Assessment II, 3 Units**

This course is the second in a series of three courses structured to develop competence in the assessment of preschool and school-age children and adults. Students become aware of the multifaceted and culturally defined nature of human intelligence, of research and theory regarding the development and measurement of human intellectual ability, and of the construction, uses, and limitations of assessment tools and methods. Upon completion of this series of courses, the students should have attained competence in a wide range of scales in assessing intelligence, processing abilities, adaptive behavior, social-emotional functioning, and achievement. Students gain experience in developing interventions and recommendations based on assessment data, and in communicating the results of assessments to diverse audiences.

### **EDPY 683, Psychoeducational Assessment III, 3 Units**

This course is the third in a series of three courses structured to develop competence in the assessment of preschool and school-age children and adults. Students become aware of the multifaceted and culturally defined nature of human intelligence, of research and theory regarding the development and measurement of human intellectual ability, and of the construction, uses, and limitations of assessment tools and methods. Upon completion of this series of courses, the students should have attained competence in a wide range of assessment techniques in the assessment of intelligence, processing abilities, adaptive behavior, social-emotional functioning, and achievement. Students gain experience in developing interventions and recommendations based on assessment data, and in communicating the results of assessments to diverse audiences.

### **EDPY 690, Advanced Individual Research, 3 Units**

In this course, the professor and students work closely to advance research into a form that will be appropriate for presentation at a national conference or publication in a peer-reviewed journal. Examples of activities within this course include: development of literature reviews, data collection, statistical analysis, manuscript editing and revising, presenting research at conferences, and submission for publication in scholarly journals.

### **EDPY 695, School Psychology Fieldwork I, 5 Units**

(600 hours) Students are provided with on-site experience leading to the acquisition of skills and knowledge of school counselors and psychologists involving special and regular education students. Such experience includes working with IDEA regulations and procedures, assessing and counseling exception students, consulting with teachers, parents, and community agencies, and supervising counseling services. Further skills include conducting student assessment, writing reports, consulting with staff and parents, designing prevention, interventions, and postvention strategies, and completing progress evaluations.

### **EDPY 696, School Psychology Fieldwork II, 5 Units**

(600 hours) With continued on-site supervision, field experience students become increasingly independent with regard to planning, implementing, and reporting psychoeducational assessments of pupils. Students continue to gain experience collaborating with multidisciplinary colleagues. Students participate in planning prevention, intervention, and evaluation activities related to the responsibilities of a school psychologist. In addition, students take independent responsibility for initiating and collaborating with multidisciplinary colleagues in prevention, intervention, and evaluation activities related to the responsibilities of a school psychologist.

### **EDPY 697, Readings in School Psychology, 1 Unit**

This course assists the student in research of current literature in the field of school psychology. Literature is one of the vehicles that bridges the gap between theory and practice. Thus, this intensive course in current professional literature allows the student to remain on the cutting edge of the profession.

**Prerequisite:** Completion of program requirements and approval of program director

## **Faculty**

### **Department Chair**

David Morrison (<http://www.apu.edu/faculty/drmorrison/>), Ed.D.

### **Program Director, School Counseling**

Michelle Cox (<http://www.apu.edu/faculty/mcox/>), Ph.D.

### **Program Director, School Psychology**

Michael Salce (<http://www.apu.edu/faculty/msalce/>), Ed.D.

## **Fieldwork and Internship Coordinator**

Robert Martin (<http://www.apu.edu/faculty/rhmartin/>), Ph.D.

## **Program Coordinator, Board Certified Behavior Analyst Certificate**

Heather Maguire (<http://www.apu.edu/faculty/hmaguire/>), Psy.D.

## **Program Coordinator, Clinical Counseling Certificate**

Julia Johnson (<http://www.apu.edu/faculty/jmjohnson/>), Ed.D.

## **Professors**

Lewis Bonney (<http://www.apu.edu/faculty/lbonney/>), Ph.D.

Michelle Cox (<http://www.apu.edu/faculty/mcox/>), Ph.D.

Randy Fall (<http://www.apu.edu/faculty/rfall/>), Ph.D.

# M.A. in Education: Educational Counseling with an Embedded Pupil Personnel Services Credential in School Counseling

For more information: (626) 815-5424

APU's Master of Arts in Education: Educational Counseling (<https://www.apu.edu/education/programs/masters-in-school-counseling/>) offers candidates an efficient path to a school counseling career by embedding within the program all requirements for the Pupil Personnel Services Credential in School Counseling.

A requirement in completing the program is the completion of fieldwork or an internship, both of which provide candidates with hands-on experience in school counseling. An internship credential is appropriate for students who have secured a paid internship position at a public school in the field of school counseling. Students applying for an internship credential may submit their application for it upon successful completion of 10 prerequisite courses and prior to the start of the fieldwork/internship experience.

## Course Sequence

Obtain academic advising prior to initial registration.

| Code  | Title  | Units |
|---|--|-------|
| <b>Term 1</b>   |  |       |
| EDCO 533  | Counseling Theories and Techniques <sup>1</sup>                                  | 3     |
| EDCO 550  | Crisis/Trauma Response and Interventions <sup>1</sup>                            | 3     |
| EDCO 557  | Human Growth, Development, and Learning <sup>1</sup>                             | 3     |
| EDCO 593  | Historical Development of School Counseling and School Psychology <sup>1</sup>   | 3     |
| <b>Term 2</b>   |  |       |
| EDCO 545  | Positive Behavior Supports and Classroom Intervention <sup>1</sup>               | 3     |

Total Units

48

<sup>1</sup> Prerequisites for fieldwork/internship

## Additional Requirements

1. Candidates must pass a Praxis exam to demonstrate their competence in school counseling prior to completion of the program.
2. Candidates prepare a graduate research project required in EDCO 592, which includes a formal research paper. This project's content summarizes a topic that the student chooses to study in depth.

3. All candidates admitted to the Master of Arts in Education: Educational Counseling program are required to submit a copy of their California Certificate of Clearance (COC) or another form of clearance, such as a valid and current credential for teaching, counseling, school psychology, and/or nursing. The law requires Azusa Pacific University to keep these records on file while candidates are in attendance at APU.
4. Candidates must pass the California Basic Educational Skills Test (CBEST) or equivalency as indicated by the Commission on Teacher Credentialing (<https://www.ctc.ca.gov/docs/default-source/leaflets/cl606c.pdf?sfvrsn=0>), prior to admission to the educational counseling program with an embedded school counseling credential. Students can register to take the test online (<http://www.cbest.nesinc.com>).

## Advisory Notes

- Educational psychology can be pursued as an educational specialist (Ed.S.) degree with a second master's degree embedded after completing the requirements for the Master of Arts in Education: Educational Counseling. Because these programs are unique, students must be admitted to each program separately. Candidates intending to pursue two Master of Arts in Education degrees should review the university requirements for additional master's degrees as stated in the Academic Policies and Procedures (p. 1315) section of the catalog.
- The practicum experience included in the educational counseling program is required by the California Commission on Teacher Credentialing (<https://www.ctc.ca.gov/>) and consists of 100 hours completed in a K-12 setting or approved clinical setting. These hours will be verified in the EDCO 575 course, which must be taken prior to fieldwork or internship. This course provides candidates the educational and clinical experience in applied psychotherapeutic techniques, assessment, diagnosis, prognosis, treatment, issues of development, adjustment, and maladjustment, health and wellness promotion, and other recognized counseling interventions.
- At some sites, candidates may need to delay enrollment until there are a sufficient number of beginning candidates to provide the appropriate adult learning opportunities. Applicants can obtain detailed information about dates for beginning coursework by requesting an advisement appointment at the Azusa campus or any of the regional centers.
- Candidates must maintain a minimum cumulative grade-point average (GPA) of 3.0 in their program of study, and receive a grade of *B-* or higher in each course (a grade of *CR* in fieldwork/internship).
- Candidates approaching program completion must obtain a credential application from the Office of Credentials (<http://www.apu.edu/education/resources/credentials/>). Candidates must complete all credential requirements to apply for the credential.
- Notify the Office of the Graduate and Professional Registrar (<https://www.apu.edu/graduateprofessionalcenter/registrar/>) of intent to graduate 90 days before intended graduation. Candidates approaching graduation must obtain an Intent to Commence and/or Graduate form (<http://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) from the registrar, and the registrar will determine whether the student has met all requirements.
- Candidates have a maximum of five years to complete all coursework and assessments, including waivers and transfer of units, beginning the first date of enrollment for coursework in the degree program.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in foundations of School Counseling Professional Standards.
2. Demonstrate competency in professionalism, ethics, and legal mandates.
3. Demonstrate competency in student academic development.
4. Demonstrate competency in student college and career development.
5. Demonstrate competency in social/emotional development.
6. Demonstrate competency in educational foundations: growth and development, learning theory, academic achievement.
7. Demonstrate competency in leadership and advocacy in social justice, equity, and access.
8. Demonstrate competency in program development.
9. Demonstrate competency in research, program evaluation, and technology.

# M.A. in Education: Educational and Clinical Counseling with an Embedded Pupil Personnel Services Credential in School Counseling

For more information: (626) 815-5424

The Master of Arts in Education: Educational and Clinical Counseling (<https://www.apu.edu/education/programs/masters-in-school-clinical-counseling/>) degree is a 60-unit program that encompasses the 48-unit M.A.Ed. in Educational Counseling degree (p. 792) and 12 additional units of coursework required by the California Board of Behavioral Sciences for Licensed Professional Clinical Counselor (LPCC) eligibility. The program prepares candidates to obtain a Pupil Personnel Services Credential necessary to work in K-12 school settings, provides a clinical emphasis, and satisfies the coursework requirements set forth for California licensure as an LPCC. Contact the department (<http://www.apu.edu/education/counselingspsych/contact/>) for specific information pertaining to the benefits of this degree option.

## Course Sequence

Obtain academic advising prior to initial registration.

| Code   | Title  | Units |
|--|--|-------|
| <b>Term 1</b>  |  |       |
| EDCO 533   | Counseling Theories and Techniques <sup>1</sup>                                  | 3     |
| EDCO 550   | Crisis/Trauma Response and Interventions <sup>1</sup>                            | 3     |
| EDCO 557   | Human Growth, Development, and Learning <sup>1</sup>                             | 3     |
| EDCO 593   | Historical Development of School Counseling and School Psychology <sup>1</sup>   | 3     |
| <b>Term 2</b>  |  |       |
| EDCO 545   | Positive Behavior Supports and Classroom Intervention <sup>1</sup>               | 3     |
| EDCO 555   | Group Counseling Skills <sup>1</sup>   | 3     |
| EDCO 575   | Clinical Practica <sup>1</sup>   | 3     |
| EDCO 592   | Foundations and Ethics in Research <sup>1</sup>                                  | 3     |
| <b>Term 3</b>  |  |       |
| EDCO 528   | Community, Family, and School Collaboration <sup>1</sup>                         | 3     |
| EDCO 535   | Professionalism, Ethics, and Law <sup>1</sup>                                    | 3     |
| <b>Term 4</b>  |  |       |
| EDCO 534   | Assessment, Measurements, and Testing of Individuals                             | 3     |
| EDCO 549   | Career Development Theories and Techniques                                       | 3     |
| EDCO 579   | Sociocultural Competence   | 3     |
| EDCO 587   | PPS Leadership, Ethics, and Professionalism                                      | 3     |
| <b>Term 5</b>  |  |       |
| Select one of the following:   |  | 6     |
| EDCO 564<br>& EDCO 568   | School Counseling Fieldwork I<br>and School Counseling Fieldwork II (300 hours)  |       |
| EDCO 594<br>& EDCO 595   | School Counseling Internship 1<br>and School Counseling Internship 2 (300 hours) |       |
| Students completing the Master of Arts in Educational and Clinical Counseling must complete the following prior to receiving degree: |  |       |
| <b>Term 1</b>  |  |       |
| EDCO 571   | Introduction to Clinical Practice: Basic Skills                                  | 3     |
| EDCO 572   | Psychobiology and Psychopharmacology   | 3     |
| <b>Term 2</b>  |  |       |
| EDCO 573   | Addictions, Assessment, and Interventions  | 3     |
| EDCO 574   | Introduction to Clinical Practice: Advanced Skills                               | 3     |
| Total Units  |  | 60    |

<sup>1</sup> Prerequisites for fieldwork/internship

## Additional Requirements

1. Candidates must pass a Praxis exam to demonstrate their competence in school counseling prior to completion of the program.
2. Candidates prepare a graduate research project (EDCO 592), which includes a formal research paper. This project's content summarizes a topic that the student chooses to study in depth.
3. All candidates admitted to the Master of Arts in Education: Educational and Clinical Counseling program are required to submit a copy of their California Certificate of Clearance (COC) or another form of clearance, such as a valid and current credential for teaching, counseling, school psychology, and/or nursing. The law requires Azusa Pacific University to keep these records on file while candidates are in attendance at APU.
4. Candidates must pass the California Basic Educational Skills Test (CBEST) or equivalency as indicated by the Commission on Teacher Credentialing (<https://www.ctc.ca.gov/docs/default-source/leaflets/cl606c.pdf?sfvrsn=0>), prior to admission to the educational counseling program with an embedded school counseling credential. Students can register to take the test online (<http://www.cbest.nesinc.com>).

## Advisory Notes

- Educational psychology (p. 798) can be pursued as an educational specialist (Ed.S.) degree with a second master's degree embedded after completing the requirements for the Master of Arts in Education: Educational and Clinical Counseling. Because these programs are unique, candidates must be admitted to each program separately. Candidates intending to pursue two Master of Arts in Education degrees should review the university requirements for additional master's degrees as stated in the Academic Policies and Procedures (p. 1450) section of the catalog.
- The practicum experience included in the educational counseling program is required by the California Commission on Teacher Credentialing (<https://www.ctc.ca.gov/>) and consists of 100 hours completed in a K-12 setting or approved clinical setting. These hours will be verified in the EDCO 575 course, which must be taken prior to fieldwork or internship. This course provides candidates the educational and clinical experience in applied psychotherapeutic techniques, assessment, diagnosis, prognosis, treatment, issues of development, adjustment, and maladjustment, health and wellness promotion, and other recognized counseling interventions.
- At some sites, candidates may need to delay enrollment until there are a sufficient number of beginning candidates to provide the appropriate adult learning opportunities. Applicants can obtain detailed information about dates for beginning coursework by requesting an advisement appointment at the Azusa campus or any of the regional centers.
- Candidates must receive a grade of *B-* or higher in each course (a grade of *CR* in fieldwork/internship) and maintain a 3.0 grade-point average (GPA) throughout the program.
- Candidates approaching program completion must obtain a credential application from the Office of Credentials (<http://www.apu.edu/education/resources/credentials/>). Candidates must complete all credential requirements to apply for the credential.
- Notify the Office of the Graduate and Professional Registrar (<https://www.apu.edu/graduateprofessionalcenter/registrar/>) of intent to graduate 90 days before intended graduation. Candidates approaching graduation must obtain an Intent to Commence and/or Graduate form (<http://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) from the registrar, and the registrar will determine whether the student has met all requirements.
- A candidate has a maximum of five years to complete all coursework and assessments, including waivers and transfer of units, beginning the first date of enrollment for coursework in the degree program.
- Upon completion of the educational and clinical counseling program, graduates should contact the Bureau of Behavioral Sciences (<https://bbs.ca.gov/applicants/lpcc.html>) for additional requirements for LPCC Licensure.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in foundations of School Counseling Professional Standards.
2. Demonstrate competency in professionalism, ethics, and legal mandates.
3. Demonstrate competency in student academic development.
4. Demonstrate competency in student college and career development.
5. Demonstrate competency in social/emotional development.

6. Demonstrate competency in educational foundations: growth and development, learning theory, academic achievement.
7. Demonstrate competency in leadership and advocacy in social justice, equity, and access.
8. Demonstrate competency in program development.
9. Demonstrate competency in research, program evaluation, and technology.

# Pupil Personnel Services: School Counseling Credential

For more information: (626) 815-5424

**Prerequisite:** Educational Specialist in School Psychology with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 798)

A required transcript evaluation of students' current PPS school psychology courses will determine which courses will count toward the PPS: School Counseling Credential.

Requirements are the same as for Azusa Pacific University's Master of Arts in Education: Educational Counseling with Embedded Pupil Personnel Services Credential in School Counseling program (p. 792).

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# Educational Specialist (Ed.S.) in School Psychology with Embedded M.A. in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology

For more information: (626) 815-5424

Azusa Pacific University's Educational Specialist (Ed.S.) in School Psychology with embedded Master of Arts in Education (M.A.Ed.): Educational Psychology and Pupil Personnel Services Credential in School Psychology (<https://www.apu.edu/education/programs/school-psychology-specialist-degree/>) program equips school psychology candidates with distinctive and marketable skills and competencies. The school psychology program is approved by the National Association of School Psychologists (NASP) (<https://www.nasponline.org/>) and accredited by the National Council for Accreditation of Teacher Education (NCATE)—which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP) (<http://www.ncate.org/>)—and the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>). The two degrees are completed in three years and comprise 66 graduate semester units, 450 hours of practicum, and 1,200 hours of fieldwork/internship. Upon successful completion of this program, candidates can apply to become Nationally Certified School Psychologists (NCSPs) pending passing of the PRAXIS II Exam (School Psychology) with a score of 147 or greater.

## Competencies and Skills

This program equips candidates for career advancement opportunities and give them a highly marketable specialty. All coursework is taught by expert faculty who are recognized leaders in the profession with years of clinical and school-based experience. Graduates of APU develop a comprehensive set of competencies to effectively work with students and families of all cultures, SES levels, and learning abilities. In addition, the school psychology program develops compassionate practitioners who apply the following skills and competencies in school systems:

- Research and evaluation skills
- Commitment to social justice and advocacy
- Legal and ethical decision making
- Psychoeducational assessment for the purposes of intervention
- Evidenced-based interventions (behavior and academic)
- Nondiscriminatory assessment procedures
- Social-emotional/behavioral assessment and intervention through positive behavior supports
- Knowledge of psychobiology and psychopharmacology
- Academic assessment and intervention (curriculum-based measurement and response to intervention)
- Individual and systemic collaboration (homeschool partnerships)
- Educational and clinically related mental health counseling (individual and group)
- Crisis prevention and intervention (individual and school-wide)
- Promotion of safe and nurturing school environments
- Human development and learning

## Program Structure

### Years 1 and 2 (M.A.Ed.)

Candidates complete a total of 49 units and 450 hours of practicum during the first two years of the program. Upon completion of all coursework, practicum hours, and the Graduate Research Project (GRP), the candidate is granted the Master of Arts in Education: Educational Psychology and may participate in commencement.

### Year 3 (Post-master's Year, Ed.S.)

During the Spring II session of the second year and the post-master's year, candidates complete an additional 17 units of special focus coursework, including 10 units of fieldwork/internship (1,200 hours). Candidates applying for an internship credential may submit their application once a paid internship at a public school in the field of school psychology has been secured. Prior to starting fieldwork/internship, students are required to provide an updated TB clearance.

Upon successful completion of post-master's coursework and fieldwork/internship, and passing of the PRAXIS II (School Psychology) exam, the candidate is granted the Educational Specialist (Ed.S.) degree and may file for the PPS Credential in School Psychology. Once these requirements are fulfilled, the student may apply to become a Nationally Certified School Psychologist (NCSP) through the National Association of School Psychologists (NASP); students are advised to review specific NCSP requirements online (<http://www.nasponline.org>).

## Additional Admission Requirements for School Psychology Applicants

1. Submit Graduate Record Exam (GRE) scores. The GRE must have been taken within 12 months of the date of application for admission. All three scores, with an emphasis on the writing score, are used as one consideration for approving an application. Although a minimum score is not required, the GRE is one element in the application process. Admission is competitive and not all students who meet the minimum requirements will be admitted. Information on the administration of this test is available online (<http://www.ets.org>) and in the Department of School Counseling and School Psychology (<http://www.apu.edu/education/counselingpsych/>).
2. After all above materials have been submitted to the Office of Graduate and Professional Admissions (<http://www.apu.edu/graduateprofessionalcenter/admissions/>), the school psychology program reviews the file and notifies the applicant to schedule an admission interview with the department. The prospective candidate should come prepared to be interviewed by program faculty. The purpose of the interview is to meet the candidate, discuss career goals, evaluate match of the program to the student, and make an initial assessment of the applicant's potential for success as a school psychologist.
3. All candidates who are admitted to the program are required to submit a copy of their California Certificate of Clearance (COC) or another form of clearance, such as a valid and current credential for teaching or counseling and/or nursing. The law requires Azusa Pacific University to keep these records on file while candidates are in attendance at APU.

## Course Requirements

### Scope and Sequence

Students take courses in the following sequence (students are required to seek academic advisement prior to initial registration).

| Code  | Title  | Units |
|---|--|-------|
| <b>Year 1</b>   |  |       |
| <b>Coursework for Master of Arts in Education: Educational Psychology</b> |  |       |
| <b>Term 1</b>   |  |       |
| EDCO 533  | Counseling Theories and Techniques <sup>1</sup>                                      | 3     |
| EDCO 557  | Human Growth, Development, and Learning <sup>1</sup>                                 | 3     |
| EDPY 624  | Disabilities in Children (Mild, Moderate, and Severe) <sup>1</sup>                   | 2     |
| EDCO 593  | Historical Development of School Counseling and School Psychology <sup>1</sup>       | 3     |
| <b>Term 2</b>   |  |       |
| EDCO 545  | Positive Behavior Supports and Classroom Intervention <sup>1</sup>                   | 3     |
| EDCO 572  | Psychobiology and Psychopharmacology   | 3     |
| EDPY 556  | Academic Assessment and Intervention <sup>1</sup>                                    | 2     |
| EDCO 592  | Foundations and Ethics in Research <sup>1</sup>                                      | 3     |
| <b>Term 3</b>   |  |       |
| EDCO 535  | Professionalism, Ethics, and Law <sup>1</sup>  | 3     |
| EDCO 528  | Community, Family, and School Collaboration <sup>1</sup>                             | 3     |
| Students will have located a practicum site.                              |  |       |
| <b>Year 2</b>   |  |       |
| <b>Term 1</b>   |  |       |
| EDPY 681  | Psychoeducational Assessment I <sup>1</sup>  | 3     |
| EDPY 690  | Advanced Individual Research <sup>1</sup>  | 3     |
| EDPY 682  | Psychoeducational Assessment II <sup>1</sup>   | 3     |
| EDPY 636  | Research and Evaluation in School Psychology <sup>1</sup>                            | 3     |
| EDPY 635A   | Role and Function of a School Psychologist: Positive Behavior Supports <sup>1</sup>  | 1     |
| <b>Term 2</b>   |  |       |
| EDPY 683  | Psychoeducational Assessment III <sup>1</sup>  | 3     |
| EDPY 637  | Child Psychopathology Assessment and Treatment <sup>1</sup>                          | 3     |
| EDCO 550  | Crisis/Trauma Response and Interventions <sup>1,2</sup>                              | 3     |
| EDPY 633  | Multicultural and Bilingual Assessment and Intervention <sup>2</sup>                 | 3     |
| EDPY 635B   | Role and Function of a School Psychologist: Individual/Group Counseling <sup>1</sup> | 1     |

**Term 3**

|             |   |    |
|-------------|---|----|
| EDPY 635C   | Role and Function of a School Psychologist: Assessment <sup>1</sup> | 1  |
| Total Units |   | 55 |

<sup>1</sup> Prerequisites must be completed prior to internship/fieldwork.

<sup>2</sup> Part of the Ed.S. degree.

Students will complete the following in order to earn the Master of Arts in Education: Educational Psychology (M.A.Ed.):

- Designated M.A.Ed. coursework (49 units)
- Graduate Research Project
- 450 hours of practicum

*Students may participate in commencement.*

| Code  | Title                                       | Units |
|---|---|-------|
| <b>Year 3</b>                                       |   |       |
| <b>Coursework for Educational Specialist Degree</b> |   |       |
| <b>Semester 4</b>                                   |   |       |
| EDPY 697  | Readings in School Psychology               | 1     |
| Select one of the following:                        |   | 5     |
| EDPY 655  | School Psychology Internship I (600 hours)  |       |
| EDPY 656  | School Psychology Internship II (600 hours) |       |
| <b>Semester 5</b>                                   |   |       |
| Select one of the following:                        |   | 5     |
| EDPY 695  | School Psychology Fieldwork I (600 hours)   |       |
| EDPY 696  | School Psychology Fieldwork II (600 hours)  |       |
| Total Units   |   | 11    |

Students will complete the following in order to earn the Educational Specialist (Ed.S.) with an embedded Pupil Personnel Services Credential in School Psychology:

- Designated Ed.S. coursework (17 units)
- 1,200 hours of fieldwork/internship (primary and secondary settings)
- Passing the PRAXIS II (School Psychology) with a 147 or higher

**Additional Requirements**

1. Students must earn a passing score of 147 or greater on the PRAXIS II exam to demonstrate their competence in school psychology prior to completion of the program. Upon passing the PRAXIS II with a score of 147 or greater, the student is eligible to apply to become a Nationally Certified School Psychologist (NCSP).
2. Students prepare a Graduate Research Project (GRP), which includes a formal research paper or program evaluation and must be approved by APU's Institutional Review Board (IRB). The GRP content should be related to a topic that the student chooses to study in depth and has relevance to the field of school psychology. The research portion of the project is completed through the following courses: EDCO 592, EDPY 690, and EDPY 636. In addition to the GRP, students are required to present their research findings and paper to a faculty and peer panel.
3. Students complete a performance-based portfolio during practicum and internship/fieldwork that will be evaluated by program faculty and field experience mentors for evidence of skills competency.

**Advisory Notes**

- Students intending to pursue two Master of Arts in Education degrees should review the university requirements for additional master's degrees as stated in the Academic Policies and Procedures (p. 1315) section of the catalog.
- Students cannot pursue the Master of Arts in Education: Educational Counseling (<https://www.apu.edu/education/programs/masters-in-school-counseling/>) as a second master's degree after completing the requirements for the Master of Arts in Education: Educational Psychology and Educational Specialist in School Psychology.
- The practicum experience at APU consists of 450 hours (required by the California Commission on Teacher Credentialing). A minimum of 300 hours must be completed in a pre-K-12 public school setting. Up to 150 hours may be completed through on-campus agencies (e.g., child study centers, psychology clinics) or community-based agencies (e.g., private schools, community-based mental health clinics). These hours are to be completed

prior to beginning fieldwork/internship. The required hours are to be completed under the direct supervision of a credentialed school psychologist with no fewer than three years of experience.

- At some sites, students may need to delay enrollment until there is a sufficient number of beginning students to provide the appropriate adult learning opportunities. Applicants can obtain detailed information about dates for beginning coursework by requesting an advisement appointment at the Azusa campus or any of the regional campuses.
- Students in an educational counseling or educational psychology program may request to waive a course (see Waivers (p. 1472)), provided that the student can document completion of an equivalent course at another institution in the five-year period prior to requesting the waiver. Department approval of the request is required. If the course accepted for waiver also meets all of the university standards for transfer credit (see Transfer Credit (p. 1471)), it may be transferred to meet requirements (up to 20 percent of the total program units may be transferred to meet requirements). If the course accepted for waiver does not meet the university standards for transfer credit (i.e., not applicable to a master's degree at the university where it was taken, not taken from a regionally accredited institution, etc.), then the student must choose alternative elective courses to satisfy the unit requirements of the degree program.
- A student has a maximum of five years to complete all coursework, including waivers and transfer of units, beginning the first date of enrollment for coursework in the degree program.
- Students approaching program completion must obtain a credential application from the credential analyst office in the School of Education. Students must complete all credential requirements to apply for the credential.
- Students approaching graduation must obtain an Intent to Commence and/or Graduate Form (<http://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) from the Office of the Graduate and Professional Registrar (<https://www.apu.edu/graduateprofessionalcenter/registrar/>) at least 90 days before intended graduation. The registrar will determine whether the student has met all requirements.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in data-based decision making and accountability.
2. Demonstrate competency in consultation and collaboration.
3. Demonstrate competency in interventions and instructional support to develop academic skills.
4. Demonstrate competency in behavior interventions and mental health services to develop social and life skills.
5. Demonstrate competency in direct and indirect services – school wide practices to promote learning.
6. Demonstrate competency in school-wide practices to promote behavioral and mental health.
7. Demonstrate competency in family-school collaboration.
8. Demonstrate competency in human diversity.
9. Demonstrate competency in research and program evaluation.
10. Demonstrate competency in legal, ethical, and professional practice disposition.

# Educational Specialist (Ed.S.) in School Psychology: Applied Behavior Analysis with Embedded M.A. in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology

For more information: (626) 815-5424

Azusa Pacific University's Educational Specialist (Ed.S.) in School Psychology: Applied Behavior Analysis with embedded Master of Arts in Education (M.A.Ed.): Educational Psychology and Pupil Personnel Services Credential in School Psychology (<https://www.apu.edu/education/programs/school-psychology-specialist-degree/>) program equips school psychology candidates with distinctive and marketable skills and competencies. Candidates acquire knowledge needed to provide intensive behavioral treatment and intervention services for students diagnosed with autism and related disabilities.

This program is a Verified Course Sequence (VCS) approved by the Behavior Analyst Certification Board (BACB) and meets the educational requirements for eligibility as a Board Certified Behavior Analyst (BCBA). Additional requirements (<http://www.bacb.com/?page=158>) to achieve certification include successful completion of supervised clinical experience, as well as the certification exam administered by the BACB (<http://www.bacb.com/>).

The school psychology program is approved by the National Association of School Psychologists (NASP) (<https://www.nasponline.org/>) and accredited by the National Council for Accreditation of Teacher Education (NCATE)—which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP) (<http://www.ncate.org/>)—and the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>). The two degrees are completed in three years and comprise 89 graduate semester units, 450 hours of practicum, and 1,200 hours of fieldwork/internship. Upon successful completion of this program, candidates can apply to become Nationally Certified School Psychologists (NCSPs) pending passing of the PRAXIS II Exam (School Psychology) with a score of 147 or greater.

## Competencies and Skills

This program equips candidates for career advancement opportunities and give them a highly marketable specialty. All coursework is taught by expert faculty who are recognized leaders in the profession with years of clinical and school-based experience. Graduates of APU develop a comprehensive set of competencies to effectively work with students and families of all cultures, SES levels, and learning abilities. In addition, the school psychology program develops compassionate practitioners who apply the following skills and competencies in school systems:

- Research and evaluation skills
- Commitment to social justice and advocacy
- Legal and ethical decision making
- Psychoeducational assessment for the purposes of intervention
- Evidenced-based interventions (behavior and academic)
- Nondiscriminatory assessment procedures
- Social-emotional/behavioral assessment and intervention through positive behavior supports
- Knowledge of psychobiology and psychopharmacology
- Academic assessment and intervention (curriculum-based measurement and response to intervention)
- Individual and systemic collaboration (homeschool partnerships)
- Educational and clinically related mental health counseling (individual and group)
- Crisis prevention and intervention (individual and school-wide)
- Promotion of safe and nurturing school environments
- Human development and learning

## Requirements

### Scope and Sequence

Students take courses in the following sequence (students are required to seek academic advisement prior to initial registration).

| Code  | Title  | Units |
|---|--|-------|
| <b>Year 1</b>   |  |       |
| <b>Coursework for Master of Arts in Education: Educational Psychology</b> |  |       |
| <b>Semester 1</b>   |  |       |
| EDCO 533  | Counseling Theories and Techniques <sup>1</sup>                                      | 3     |
| EDCO 557  | Human Growth, Development, and Learning <sup>1</sup>                                 | 3     |
| EDPY 624  | Disabilities in Children (Mild, Moderate, and Severe) <sup>1</sup>                   | 2     |
| EDCO 593  | Historical Development of School Counseling and School Psychology <sup>1</sup>       | 3     |
| <b>Semester 2</b>   |  |       |
| EDCO 545  | Positive Behavior Supports and Classroom Intervention <sup>1</sup>                   | 3     |
| EDCO 572  | Psychobiology and Psychopharmacology   | 3     |
| EDPY 556  | Academic Assessment and Intervention <sup>1</sup>                                    | 2     |
| EDCO 592  | Foundations and Ethics in Research <sup>1</sup>                                      | 3     |
| <b>Semester 3</b>   |  |       |
| EDCO 535  | Professionalism, Ethics, and Law <sup>1</sup>  | 3     |
| EDCO 528  | Community, Family, and School Collaboration <sup>1</sup>                             | 3     |
| Students will have located a practicum site.                              |  |       |
| <b>Year 2</b>   |  |       |
| <b>Semester 1</b>   |  |       |
| EDPY 681  | Psychoeducational Assessment I <sup>1</sup>  | 3     |
| EDPY 690  | Advanced Individual Research <sup>1</sup>  | 3     |
| EDPY 682  | Psychoeducational Assessment II <sup>1</sup>   | 3     |
| EDPY 636  | Research and Evaluation in School Psychology <sup>1</sup>                            | 3     |
| EDPY 635A   | Role and Function of a School Psychologist: Positive Behavior Supports <sup>1</sup>  | 1     |
| <b>Semester 2</b>   |  |       |
| EDPY 683  | Psychoeducational Assessment III <sup>1</sup>  | 3     |
| EDPY 637  | Child Psychopathology Assessment and Treatment <sup>1</sup>                          | 3     |
| EDCO 550  | Crisis/Trauma Response and Interventions <sup>1, 2</sup>                             | 3     |
| EDPY 633  | Multicultural and Bilingual Assessment and Intervention <sup>2</sup>                 | 3     |
| EDPY 635B   | Role and Function of a School Psychologist: Individual/Group Counseling <sup>1</sup> | 1     |
| <b>Semester 3</b>   |  |       |
| EDPY 635C   | Role and Function of a School Psychologist: Assessment <sup>1</sup>                  | 1     |
| Total Units   |  | 55    |

<sup>1</sup> Prerequisites must be completed prior to internship/fieldwork.

<sup>2</sup> Part of the Ed.S. degree.

Students will complete the following in order to earn the Master of Arts in Education: Educational Psychology (M.A.Ed.):

- Designated M.A.Ed. coursework (49 units)
- Graduate Research Project
- 450 hours of practicum

*Students may participate in commencement.*

| Code  | Title                         | Units |
|---|-------------------------------|-------|
| <b>Year 3</b>                                       |                               |       |
| <b>Coursework for Educational Specialist Degree</b> |                               |       |
| <b>Semester 4</b>                                   |                               |       |
| EDPY 697  | Readings in School Psychology | 1     |

|                              |   |
|------------------------------|---|
| Select one of the following: | 5   |
| EDPY 655                     | School Psychology Internship I (600 hours)  |
| EDPY 656                     | School Psychology Internship II (600 hours) |
| <b>Semester 5</b>            |   |
| Select one of the following: | 5   |
| EDPY 695                     | School Psychology Fieldwork I (600 hours)   |
| EDPY 696                     | School Psychology Fieldwork II (600 hours)  |
| Total Units                  | 11  |

Students will complete the following in order to earn the Educational Specialist (Ed.S.) with an embedded Pupil Personnel Services Credential in School Psychology:

- Designated Ed.S. coursework (17 units)
- 1,200 hours of fieldwork/internship (primary and secondary settings)
- Passing the PRAXIS II (School Psychology) with a 147 or higher

| Code                             | Title  | Units     |
|----------------------------------|--|-----------|
| <b>Applied Behavior Analysis</b> |  |           |
| ABA 503                          | Behavior Analysis in Applied Settings I                                  | 3         |
| ABA 504                          | Single-Case Designs: Measurement and Experimental Evaluation of Behavior | 3         |
| ABA 505                          | Behavior Analysis in Applied Settings II                                 | 3         |
| ABA 515                          | Behavior Change Procedures in Applied Settings I                         | 3         |
| ABA 500                          | ABA Fieldwork I  | 1         |
| ABA 524                          | Ethics in Applied Behavior Analysis                                      | 3         |
| ABA 534                          | Behavior Change Procedures in Applied Settings II                        | 3         |
| ABA 514                          | Functional Behavior Assessment in Applied Settings                       | 3         |
| ABA 510                          | ABA Fieldwork II   | 1         |
| <b>Total Units</b>               |  | <b>23</b> |

## Additional Requirements

1. Students must earn a passing score of 147 or greater on the PRAXIS II exam to demonstrate their competence in school psychology prior to completion of the program. Upon passing the PRAXIS II with a score of 147 or greater, the student is eligible to apply to become a Nationally Certified School Psychologist (NCSP).
2. Students prepare a Graduate Research Project (GRP), which includes a formal research paper or program evaluation and must be approved by APU's Institutional Review Board (IRB). The GRP content should be related to a topic that the student chooses to study in depth and has relevance to the field of school psychology. The research portion of the project is completed through the following courses: EDCO 592, EDPY 690, and EDPY 636. In addition to the GRP, students are required to present their research findings and paper to a faculty and peer panel.
3. Students complete a performance-based portfolio during practicum and internship/fieldwork that is evaluated by program faculty and field experience mentors for evidence of skills competency.

## Advisory Notes

- Students intending to pursue two Master of Arts in Education degrees should review the university requirements for additional master's degrees as stated in the Academic Policies and Procedures (p. 1315) section of the catalog.
- Students cannot pursue the Master of Arts in Education: Educational Counseling (<https://www.apu.edu/education/programs/masters-in-school-counseling/>) as a second master's degree after completing the requirements for the Master of Arts in Education: Educational Psychology and Educational Specialist in School Psychology.
- The practicum experience at APU consists of 450 hours (required by the California Commission on Teacher Credentialing). A minimum of 300 hours must be completed in a pre-K-12 public school setting. Up to 150 hours may be completed through on-campus agencies (e.g., child study centers, psychology clinics) or community-based agencies (e.g., private schools, community-based mental health clinics). These hours are to be completed prior to beginning fieldwork/internship. The required hours are to be completed under the direct supervision of a credentialed school psychologist with no fewer than three years of experience.
- At some sites, students may need to delay enrollment until there is a sufficient number of beginning students to provide the appropriate adult learning opportunities. Applicants can obtain detailed information about dates for beginning coursework by requesting an advisement appointment at the Azusa campus or any of the regional campuses.
- Students in an educational counseling or educational psychology program may request to waive a course (see Waivers (p. 1472)), provided that the student can document completion of an equivalent course at another institution in the five-year period prior to requesting the waiver. Department

approval of the request is required. If the course accepted for waiver also meets all of the university standards for transfer credit (see Transfer Credit (p. 1471)), it may be transferred to meet requirements (up to 20 percent of the total program units may be transferred to meet requirements). If the course accepted for waiver does not meet the university standards for transfer credit (i.e., not applicable to a master's degree at the university where it was taken, not taken from a regionally accredited institution, etc.), then the student must choose alternative elective courses to satisfy the unit requirements of the degree program.

- A student has a maximum of five years to complete all coursework, including waivers and transfer of units, beginning the first date of enrollment for coursework in the degree program.
- Students approaching program completion must obtain a credential application from the credential analyst office in the School of Education. Students must complete all credential requirements to apply for the credential.
- Students approaching graduation must obtain an Intent to Commence and/or Graduate Form (<http://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) from the Office of the Graduate and Professional Registrar (<https://www.apu.edu/graduateprofessionalcenter/registrar/>) at least 90 days before intended graduation. The registrar will determine whether the student has met all requirements.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate competency in data-based decision making and accountability.
2. Demonstrate competency in consultation and collaboration.
3. Demonstrate competency in interventions and instructional support to develop academic skills.
4. Demonstrate competency in behavior interventions and mental health services to develop social and life skills.
5. Demonstrate competency in direct and indirect services – school wide practices to promote learning.
6. Demonstrate competency in school-wide practices to promote behavioral and mental health.
7. Demonstrate competency in family-school collaboration.
8. Demonstrate competency in human diversity.
9. Demonstrate competency in research and program evaluation.
10. Demonstrate competency in legal, ethical, and professional practice and disposition.
11. Demonstrate an understanding of basic concepts and principles from the field of Applied Behavior Analysis (ABA).
12. Learn single-subject design and how to collect, display, analyze, and interpret data using continuous and discontinuous measures.
13. Implement procedures and systems related to behavior change from the perspective of applied behavior analysis (ABA).
14. Conduct personnel supervision that is behavior analytic in nature.
15. Apply the industry's ethical guidelines to their practice in the field of applied behavior analysis (ABA).
16. Conduct functional behavior assessment. This includes descriptive assessment (review of records, interview, observation, interpretation), functional analysis, and developing intervention plans.
17. Apply coursework in a fieldwork setting, supervised by a qualified professional.

# Educational Specialist (Ed.S.) in School Psychology: Clinical and Educationally Related Mental Health Counseling with Embedded M.A. in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology

For more information: (626) 815-5424

Azusa Pacific University's Educational Specialist (Ed.S.) in School Psychology: Clinical and Educationally Related Mental Health Counseling with embedded Master of Arts in Education (M.A.Ed.): Educational Psychology and Pupil Personnel Services Credential in School Psychology (<https://www.apu.edu/education/programs/school-psychology-specialist-degree/>) program equips school psychology candidates with distinctive and marketable skills and competencies. Candidates gain advanced skills to effectively meet the needs of students with emotional and behavioral challenges, and are equipped to provide educationally related mental health services or designated instructional services. Through supervised field experiences and classroom curriculum, candidates gain exposure to group and individual clinical counseling, addictions or substance abuse counseling and intervention, psychobiology/psychopharmacology, DSM-V diagnosis, and case conceptualization and treatment for school-based mental health services.

The school psychology program is approved by the National Association of School Psychologists (NASP) (<https://www.nasponline.org/>) and accredited by the National Council for Accreditation of Teacher Education (NCATE)—which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP) (<http://www.ncate.org/>)—and the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>). The two degrees are completed in three years and comprise 81 graduate semester units, 450 hours of practicum, and 1,200 hours of fieldwork/internship. Upon successful completion of this program, candidates can apply to become Nationally Certified School Psychologists (NCSPs) pending passing of the PRAXIS II Exam (School Psychology) with a score of 147 or greater.

## Competencies and Skills

This program equips candidates for career advancement opportunities and give them a highly marketable specialty. All coursework is taught by expert faculty who are recognized leaders in the profession with years of clinical and school-based experience. Graduates of APU develop a comprehensive set of competencies to effectively work with students and families of all cultures, SES levels, and learning abilities. In addition, the school psychology program develops compassionate practitioners who apply the following skills and competencies in school systems:

- Research and evaluation skills
- Commitment to social justice and advocacy
- Legal and ethical decision making
- Psychoeducational assessment for the purposes of intervention
- Evidenced-based interventions (behavior and academic)
- Nondiscriminatory assessment procedures
- Social-emotional/behavioral assessment and intervention through positive behavior supports
- Knowledge of psychobiology and psychopharmacology
- Academic assessment and intervention (curriculum-based measurement and response to intervention)
- Individual and systemic collaboration (homeschool partnerships)
- Educational and clinically related mental health counseling (individual and group)
- Crisis prevention and intervention (individual and school-wide)
- Promotion of safe and nurturing school environments
- Human development and learning

## Requirements

### Scope and Sequence

Students take courses in the following sequence (students are required to seek academic advising prior to initial registration).

| Code  | Title  | Units |
|---|--|-------|
| <b>Year 1</b>   |  |       |
| <b>Semester 1</b>   |  |       |
| EDCO 533  | Counseling Theories and Techniques <sup>1</sup>                                      | 3     |
| EDCO 557  | Human Growth, Development, and Learning <sup>1</sup>                                 | 3     |
| EDPY 624  | Disabilities in Children (Mild, Moderate, and Severe) <sup>1</sup>                   | 2     |
| EDCO 593  | Historical Development of School Counseling and School Psychology <sup>1</sup>       | 3     |
| <b>Semester 2</b>   |  |       |
| EDCO 545  | Positive Behavior Supports and Classroom Intervention <sup>1</sup>                   | 3     |
| EDCO 549  | Career Development Theories and Techniques   | 3     |
| EDCO 572  | Psychobiology and Psychopharmacology   | 3     |
| EDPY 556  | Academic Assessment and Intervention <sup>1</sup>                                    | 2     |
| EDCO 592  | Foundations and Ethics in Research <sup>1</sup>                                      | 3     |
| <b>Semester 3</b>   |  |       |
| EDCO 535  | Professionalism, Ethics, and Law <sup>1</sup>  | 3     |
| EDCO 528  | Community, Family, and School Collaboration <sup>1</sup>                             | 3     |
| Students must have located a practicum site for approval by the department. |  |       |
| <b>Year 2</b>   |  |       |
| <b>Semester 1</b>   |  |       |
| EDPY 681  | Psychoeducational Assessment I <sup>1</sup>  | 3     |
| EDPY 690  | Advanced Individual Research <sup>1</sup>  | 3     |
| EDPY 682  | Psychoeducational Assessment II <sup>1</sup>   | 3     |
| EDPY 636  | Research and Evaluation in School Psychology <sup>1</sup>                            | 3     |
| EDPY 635A   | Role and Function of a School Psychologist: Positive Behavior Supports <sup>1</sup>  | 1     |
| <b>Semester 2</b>   |  |       |
| EDPY 683  | Psychoeducational Assessment III <sup>1</sup>  | 3     |
| EDPY 637  | Child Psychopathology Assessment and Treatment <sup>1</sup>                          | 3     |
| EDCO 550  | Crisis/Trauma Response and Interventions <sup>1</sup>                                | 3     |
| EDPY 633  | Multicultural and Bilingual Assessment and Intervention                              | 3     |
| EDPY 635B   | Role and Function of a School Psychologist: Individual/Group Counseling <sup>1</sup> | 1     |
| EDCO 575  | Clinical Practica  | 3     |
| <b>Semester 3</b>   |  |       |
| EDPY 635C   | Role and Function of a School Psychologist: Assessment <sup>1</sup>                  | 1     |
| <b>Year 3</b>   |  |       |
| <b>Semester 1</b>   |  |       |
| EDCO 555  | Group Counseling Skills  | 3     |
| EDCO 573  | Addictions, Assessment, and Interventions  | 3     |
| EDPY 697  | Readings in School Psychology  | 1     |
| Select one of the following:  |  | 5     |
| EDPY 655  | School Psychology Internship I   |       |
| EDPY 695  | School Psychology Fieldwork I  |       |
| <b>Semester 2</b>   |  |       |
| EDCO 571  | Introduction to Clinical Practice: Basic Skills                                      | 3     |
| EDCO 574  | Introduction to Clinical Practice: Advanced Skills                                   | 3     |
| Select one of the following:  |  | 5     |
| EDPY 656  | School Psychology Internship II  |       |
| EDPY 696  | School Psychology Fieldwork II   |       |
| Total Units   |  | 84    |

<sup>1</sup> Prerequisites must be completed prior to internship/fieldwork.

Students complete the following in order to earn the Master of Arts in Education: Educational Psychology (M.A.Ed.) and Educational Specialist (Ed.S.) with an embedded Pupil Personnel Services Credential in School Psychology:

- Designated M.A.Ed and Ed.S. coursework (84 units)
- 550 hours of practicum
- 1,200 hours of fieldwork/internship (primary and secondary settings)
- Graduate research project
- Passing the PRAXIS II (School Psychology) with a 147 or higher

## Additional Requirements

1. Students must earn a passing score of 147 or greater on the PRAXIS II exam to demonstrate their competence in school psychology prior to completion of the program. Upon passing the PRAXIS II with a score of 147 or greater, the student is eligible to apply to become a Nationally Certified School Psychologist (NCSP).
2. Students prepare a Graduate Research Project (GRP), which includes a formal research paper or program evaluation and must be approved by APU's Institutional Review Board (IRB). The GRP content should be related to a topic that the student chooses to study in depth and has relevance to the field of school psychology. The research portion of the project is completed through the following courses: EDCO 592, EDPY 690, and EDPY 636. In addition to the GRP, students are required to present their research findings and paper to a faculty and peer panel.
3. Students complete a performance-based portfolio during practicum and internship/fieldwork that will be evaluated by program faculty and field experience mentors for evidence of skills competency.

## Advisory Notes

- Students intending to pursue two Master of Arts in Education degrees should review the university requirements for additional master's degrees as stated in the Academic Policies and Procedures section of the catalog.
- Students cannot pursue the Master of Arts in Education: Educational Counseling as a second master's degree after completing the requirements for the Master of Arts in Education: Educational Psychology and Educational Specialist in School Psychology.
- For LPCC licensure, EDCO 549 must also be taken.
- The practicum experience at APU consists of 450 hours (required by the California Commission on Teacher Credentialing). A minimum of 300 hours must be completed in a pre-K-12 public school setting. Up to 150 hours may be completed through on-campus agencies (e.g., child study centers, psychology clinics) or community-based agencies (e.g., private schools, community-based mental health clinics). These hours are to be completed prior to beginning fieldwork/internship. The required hours are to be completed under the direct supervision of a credentialed school psychologist with no fewer than three years of experience.
- At some sites, students may need to delay enrollment until there is a sufficient number of beginning students to provide the appropriate adult learning opportunities. Applicants can obtain detailed information about dates for beginning coursework by requesting an advisement appointment at the Azusa campus or any of the regional campuses.
- Students in an educational counseling or educational psychology program may request to waive a course (see Waivers), provided that the student can document completion of an equivalent course at another institution in the five-year period prior to requesting the waiver. Department approval of the request is required. If the course accepted for waiver also meets all of the university standards for transfer credit (see Transfer Credit), it may be transferred to meet requirements (up to 20 percent of the total program units may be transferred to meet requirements). If the course accepted for waiver does not meet the university standards for transfer credit (i.e., not applicable to a master's degree at the university where it was taken, not taken from a regionally accredited institution, etc.), then the student must choose alternative elective courses to satisfy the unit requirements of the degree program.
- A student has a maximum of five years to complete all coursework, including waivers and transfer of units, beginning the first date of enrollment for coursework in the degree program.
- Students approaching program completion must obtain a credential application from the credential analyst office in the School of Education. Students must complete all credential requirements to apply for the credential.
- Students approaching graduation must obtain an Intent to Commence and/or Graduate Form from the Office of the Graduate and Professional Registrar (<https://www.apu.edu/graduateprofessionalcenter/registrar/>) at least 90 days before intended graduation. The registrar will determine whether the student has met all requirements.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## **Program Learning Outcomes**

### **Program Learning Outcomes**

Students who successfully complete this program shall be able to:

1. Demonstrate competency in data-based decision making and accountability.
2. Demonstrate competency in consultation and collaboration.
3. Demonstrate competency in interventions and instructional support to develop academic skills.
4. Demonstrate competency in behavior interventions and mental health services to develop social and life skills.
5. Demonstrate competency in direct and indirect services and school practices to promote learning.
6. Demonstrate competency in school-wide practices to promote behavioral and mental health.
7. Demonstrate competency in family-school collaboration.
8. Demonstrate competency in human diversity.
9. Demonstrate competency in research and program evaluation.
10. Demonstrate competency in legal, ethical, and professional practice disposition.

# Pupil Personnel Services: School Psychology Credential

**For more information: (626) 815-5424**

**Prerequisite:** Master of Arts in Education: Educational Counseling with Embedded Pupil Personnel Services Credential in School Counseling (p. 792)

A required transcript evaluation of students' courses will determine which courses will count toward the PPS: School Psychology Credential.

Requirements are the same as for Azusa Pacific University's Educational Specialist in School Psychology with Embedded Master of Arts in Education: Educational Psychology and Pupil Personnel Services Credential in School Psychology (p. 798) program, with the exception that no graduate research project is required.

Students must pass the PRAXIS II (School Psychology) Exam with a score of 147 or greater. Credential-only candidates **may be eligible** to become a Nationally Certified School Psychologist (NCSP); candidates are advised to contact the National Association of School Psychologists (NASP) certification board (<http://www.nasponline.org/CERTIFICATION/>) to determine if their degrees meet NCSP requirements.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# Applied Behavioral Analysis Specialization

## BCBA Certificate

23 units

For more information: (626) 815-5424

**NOTE:** A Board Certified Behavior Analyst® (BCBA) coordinator must approve admission to this emphasis. Admission to the BCBA program course sequence requires a separate application with the Graduate and Professional Center (<http://www.apu.edu/graduateprofessionalcenter/>) and interview with the BCBA committee.

The following nine-course sequence in applied behavior analysis, in its entirety, meets the 315 classroom hours of graduate-level instruction in the specified content areas established by the Behavior Analyst Certification Board® (BACB). Graduate students in the program must successfully complete all of the courses listed below to qualify to sit for the BCBA examination. Individual courses taken with a non-BCBA instructor or outside of APU's BCBA nine-course sequence may not meet BCBA requirements. Contact the BACB (<http://bacb.com/>) for additional information.

## Requirements

| Code        | Title  | Units |
|-------------|--|-------|
| ABA 503     | Behavior Analysis in Applied Settings I                                  | 3     |
| ABA 504     | Single-Case Designs: Measurement and Experimental Evaluation of Behavior | 3     |
| ABA 505     | Behavior Analysis in Applied Settings II                                 | 3     |
| ABA 515     | Behavior Change Procedures in Applied Settings I                         | 3     |
| ABA 500     | ABA Fieldwork I  | 1     |
| ABA 524     | Ethics in Applied Behavior Analysis                                      | 3     |
| ABA 534     | Behavior Change Procedures in Applied Settings II                        | 3     |
| ABA 514     | Functional Behavior Assessment in Applied Settings                       | 3     |
| ABA 510     | ABA Fieldwork II   | 1     |
| Total Units |  | 23    |

**Special Note:** A behavior analyst is certified by the BACB after passing the BCBA certification exam. To sit for the exam, a candidate must apply directly to the BACB and provide evidence of the following: a master's degree in behavior analysis, education, or psychology from a qualifying institution; a passing grade in each course (i.e., C or better in each graded course), comprising a total of at least 315 classroom hours of graduate-level instruction from an approved university in the specified content areas established by the BACB; and completion of 1,500 hours of supervised independent fieldwork in behavior analysis supervised by a qualified BCBA. Azusa Pacific University does not provide this supervision. For more specific information regarding the certification process, visit the BACB website (<http://www.bacb.com>).

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Demonstrate an understanding of basic concepts and principles from the field of Applied Behavior Analysis (ABA).
2. Learn single-subject design and how to collect, display, analyze, and interpret data using continuous and discontinuous measures.
3. Implement procedures and systems related to behavior change from the perspective of applied behavior analysis (ABA).
4. Conduct personnel supervision that is behavior analytic in nature.
5. Apply the industry's ethical guidelines to their practice in the field of applied behavior analysis (ABA).

6. Conduct functional behavior assessment. This includes descriptive assessment (review of records, interview, observation, interpretation), functional analysis, and developing intervention plans.
7. Apply coursework in a fieldwork setting, supervised by a qualified professional.

# Clinical Counseling Certificate

For more information: (626) 815-5424

The Department of School Counseling and School Psychology offers the Clinical Counseling Certificate (<https://www.apu.edu/education/programs/clinical-counseling-certificate/>), which equips candidates with an in-depth understanding of the numerous issues and pressures facing students and their families today.

## Requirements

The Clinical Counseling Certificate is offered as a four-course elective sequence:

| Code              | Title  | Units |
|-------------------|--|-------|
| <b>Semester 1</b> |  |       |
| EDCO 571          | Introduction to Clinical Practice: Basic Skills    | 3     |
| EDCO 572          | Psychobiology and Psychopharmacology               | 3     |
| <b>Semester 2</b> |  |       |
| EDCO 573          | Addictions, Assessment, and Interventions          | 3     |
| EDCO 574          | Introduction to Clinical Practice: Advanced Skills | 3     |

Admission requirements for the Clinical Counseling Certificate's four-course sequence require students to have a master's degree in counseling, clinical psychology, or a related field (also see the Admission section below). These four courses do NOT lead to meeting eligibility requirements for the LPCC designation in the state of California, but are considered advanced education to add more mental health tools to a practitioner's repertoire. It is recommended that students visit the California Association for Licensed Professional Clinical Counselors (CALPCC) website (<http://calpcc.org/>) for the most current and accurate information about LPCC licensure requirements. Contact the Department of School Counseling and School Psychology (<http://www.apu.edu/education/counselingspsych/>) for more information about the Clinical Counseling Certificate program.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# Division of Teacher Education

The Division of Teacher Education (<http://www.apu.edu/education/teacher/>) prepares candidates to become public school teachers who demonstrate the content, pedagogical, and professional knowledge, skills, and dispositions necessary to help all K-12 students grow and learn. In keeping with a commitment to enhance teacher candidates' understanding of the continuum of K-12 education, all programs emphasize a growing knowledge across the breadth of the program from theory to practice. Master's degree programs with credentials embedded and credential-only programs provide the training and experience needed to qualify for California's Multiple Subject and Single Subject Teaching Credentials, as well as Mild/Moderate and Moderate/Severe Education Specialist Credentials.

The Division of Teacher Education offers a B.A. in Liberal Studies (p. 839) with an optional integrated Mild/Moderate or Moderate/Severe Disabilities Education Specialist Credential, as well as a liberal studies minor (p. 846). Additionally, the Integrated Bachelor's/Credential Program (p. 875) offers several options in other fields of study, including allied health and mathematics.

The division also offers an online Master of Arts in Educational Technology (p. 831), an advanced degree program available to credentialed educators seeking to become leaders in technology-embedded instruction; and two master's degrees with a Multiple Subject or Single Subject Preliminary Teaching Credential embedded: the Master of Arts in Education: Learning and Technology (p. 833) and Master of Arts in Education: Teaching (p. 833). The division also offers two master's degrees with a Mild/Moderate or Moderate/Severe Disabilities Education Specialist Credential embedded: the Masters of Arts in Education: Learning and Technology (p. 859) and Master of Arts in Education: Special Education (p. 859). Additionally, the School of Behavioral and Applied Sciences offers the Master of Arts in Physical Education and Single Subject Teaching Credential (p. 579). (p. 579)

Learn more about the division below:

- Mission Statement (p. 814)
- Professional Standards for Credential Candidates (p. 814)
- Intern Credential Option and Eligibility Requirements (p. 814)

## Mission Statement

The Division of Teacher Education produces teachers who are ethical, responsive, and informed practitioners who are faithful stewards of their time, talents, and resources. They model servanthood as a means to clarify and practice their faith and knowledge.

## Professional Standards for Credential Candidates

APU credential candidates are highly desired because of the School of Education's strong reputation for preparing highly qualified teachers who have been held to high professional standards. The Division of Teacher Education assesses candidates from admission through credential recommendation in credential standards and dispositions, including the following:

- All credential candidates are expected to maintain a high level of professional and ethical behavior throughout the program. Failure to do so may result in expulsion from the program.
- All credential standards and requirements for Multiple Subject and Single Subject Teaching Credentials, as well as the Mild/Moderate and Moderate/Severe Education Specialist Credentials, are subject to California Commission on Teacher Credentialing (CTC), National Council for Accreditation of Teacher Education (NCATE, transitioning to the Council for the Accreditation of Educator Preparation or CAEP), and federal policy changes, as well as graduate education policies. These standards, requirements, and policies supersede catalog descriptions of prior programs and requirements.
- The division reserves the right to change the admission process and requirements as needed, withhold credential recommendation due to a candidate's failure to meet and/or maintain APU professional and ethical behavior standards and dispositions, and/or expel a candidate at any time in the program due to a candidate's failure to meet and/or maintain APU professional and ethical standards and dispositions.
- Please refer to published general application requirements for credential programs.

## Intern Credential Option and Eligibility Requirements

The Multiple Subject and Single Subject Credential programs, and the Mild/Moderate and Moderate/Severe Disabilities Education Specialist programs, offer an Intern Credential option specifically designed for the candidate who is teaching full time in an appropriate setting in a public K-12 school. Candidates planning to complete their clinical experience via an Intern Credential should communicate with a credential analyst in the Office of Credentials (<http://www.apu.edu/education/resources/credentials/>) prior to beginning the eligibility process. To become eligible for an Intern Credential, a candidate must meet the following requirements:

1. Hold a baccalaureate or higher degree from a regionally accredited institution of higher education.
2. Gain admittance to a School of Education preliminary teaching credential program and be a candidate in good standing.
3. Successfully complete (grade of B- or higher in each course) at least 6 units of coursework in the School of Education preliminary teaching credential program. Candidates who already hold a California Multiple Subject, Single Subject, or Education Specialist Teaching Credential may check with the Office of Credentials for possible exemption from this requirement.

4. Verify successful completion of the California Basic Skills Requirement (<http://www.ctc.ca.gov/credentials/leaflets/cl667.pdf>) via one of the options approved by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>).
5. Verify successful completion of U.S. Constitution requirement (course or exam).
6. Verify successful completion of subject-matter competence via one of the following options:
  - Multiple Subject and Single Subject Teaching Credential candidates: Pass CSET or provide evidence of having completed a CTC-approved subject-matter preparation program (subject-matter waiver).
  - Mild/Moderate and Moderate/Severe Disabilities Education Specialist Credential candidates: Individuals who hold a Professional Clear, Clear, or Life Teaching Credential that required a bachelor's degree and completion of a program that included student teaching are exempt from this requirement. Others must pass the CSET for multiple subject, art, English, world languages, mathematics (including foundational-level mathematics), music, social science, or science (including foundational-level general science); or provide evidence of having completed a CTC-approved subject-matter preparation program (subject-matter waiver) for multiple subject, art, English, world languages, mathematics, music, social science, or science.
7. Verify successful completion of the School of Education's approved intern pre-service.
  - Multiple Subject Preservice: TESP 501 Art of Teaching I: Foundations of Teaching, TESP 502 Science of Teaching I: How Students Learn, TESP 511 Art of Teaching II: Pedagogy and Instructional Design, and TEP 521 Methods of Teaching Reading and Writing (K-8)
  - Single Subject Preservice: TESP 501 Art of Teaching I: Foundations of Teaching, TESP 502 Science of Teaching I: How Students Learn, TESP 511 Art of Teaching II: Pedagogy and Instructional Design, and TEP 531 Methods of Teaching Reading and Writing (7-12)
  - Mild/Moderate or Moderate/Severe Preservice: TESP 501 Art of Teaching I: Foundations of Teaching, TESP 502 Science of Teaching I: How Students Learn, TESP 511 Art of Teaching II: Pedagogy and Instructional Design, and SPED 525 Methods of Teaching Reading and Writing
 Candidates may also meet intern preservice requirements via completion of Alternative Certification Training (ACT) through the Kern County Superintendent of Schools. Candidates are required to work with their credential analyst for completion of preservice requirements through ACT or documented evidence of completing another CTC-approved preservice certification program.
8. Verify successful completion of 30 hours of early fieldwork experience via one of the following options:
  - APU fieldwork that is embedded in courses.
  - Current California Multiple Subject, Single Subject, or Education Specialist Teaching Credential.
  - Life Ryan Credentials, out-of-state credentials, and previous teaching experience will be evaluated on a case-by-case basis.
9. Demonstrate competence in reading instruction via completion of the School of Education Methods of Teaching Reading and Writing course relevant to the candidate's preliminary credential program AND proof of registration for the Reading Instruction Competence Assessment (RICA) exam OR proof of a passing score on the RICA exam. Candidates who already hold a California Multiple Subject or Education Specialist Teaching Credential may check with the Office of Credentials for possible exemption from this requirement.
10. Gain employment under a full-time public school contract at a school site located within 50 miles of Azusa or an APU regional campus offering School of Education preliminary teacher credential programs.
11. Verify employment as evidenced by a letter from school or district administration on school or district letterhead fully describing the teaching assignment.
12. Submit the credential application and Intern Credential Application Request through the Office of Credentials.

Completion of the above requirements does not guarantee recommendation for an Intern Credential; such recommendation is contingent upon the availability of university mentors. The School of Education must also have a valid Memorandum of Understanding (MOU) in place with the employing Local Education Agency (LEA) extending the offer of employment. Additionally, the intern coordinator and program director for the relevant preliminary teacher credential program will review the candidate's file to determine if the candidate demonstrates appropriate academic progress and dispositions for recommendation for an Intern Credential.

Note: The School of Education at Azusa Pacific University is not approved to offer the Bilingual Crosscultural Language and Academic Development Certificate (BCLAD). At this time, the intern programs are not designed to support individuals employed in bilingual classrooms. We are unable to recommend a candidate for an intern credential if their intern placement is in a bilingual classroom.

Once a candidate has been recommended for an Intern Credential, he/she must comply with the following requirements to maintain eligibility for the Intern Credential:

- Be continuously employed in a teaching assignment that requires the Intern Credential
- Be an APU School of Education candidate in good standing
- Be making satisfactory progress toward program completion for the duration of the Intern Credential
- Follow his/her signed advising plan
- Enroll in an intern support course (SPED 500 or TEP 590) or clinical practice course each term he/she holds an Intern Credential

**Note:** Once a candidate has progressed to the start of the second 8 weeks of clinical practice, the candidate has passed the point where he/she can be recommended for an Intern Credential. Upon completion of 16 weeks of clinical practice, a candidate with an Intern Credential has one 8-week session in which to complete the preliminary credential requirements and application and move to the preliminary credential. This includes passing the RICA for those candidates working toward a preliminary credential requiring RICA. **Failure to either maintain eligibility for the Intern Credential or to**

complete the preliminary credential requirements and application within the one 8-week session immediately following completion of clinical practice will result in withdrawal of the Intern Credential, which could impact the candidate's employment.

## Programs

### Programs Offered

#### Department of Advanced Studies

- Master of Arts in Educational Technology (p. 831)
- Emphasis coursework for the:
  - Master of Arts in Education: Learning and Technology
  - Master of Arts in Education: Special Education
  - Master of Arts in Education: Teaching

#### Department of Elementary and Secondary Education

- B.A. in Liberal Studies/Undergraduate Education K-8 Program (p. 839)
- Liberal Studies Minor (p. 846)
- Elementary and Secondary Education: Master's Degree Programs in Learning and Technology with Preliminary Teaching Credential
  - Master of Arts in Education: Learning and Technology and Multiple Subject Teaching Credential (p. 847)
  - Master of Arts in Education: Learning and Technology and Single Subject Teaching Credential (p. 849)
- Elementary and Secondary Education: Master's Degree Programs in Teaching with Preliminary Teaching Credential
  - Master of Arts in Education: Teaching and Multiple Subject Teaching Credential (p. 851)
  - Master of Arts in Education: Teaching and Single Subject Teaching Credential (p. 853)
- Elementary and Secondary Education: Credential-only Programs
  - Multiple Subject Teaching Credential (p. 855)
  - Single Subject Teaching Credential (p. 857)

#### Department of Special Education

- Special Education: Master's Degree Programs in Learning and Technology with Education Specialist Preliminary Credential
  - Master of Arts in Education: Learning and Technology and Mild/Moderate Disabilities Education Specialist Credential (p. 863)
  - Master of Arts in Education: Learning and Technology and Moderate/Severe Disabilities Education Specialist Credential (p. 865)
- Special Education: Master's Degree Programs in Special Education with Education Specialist Preliminary Credential
  - Master of Arts in Education: Special Education and Mild/Moderate Disabilities Education Specialist Credential (p. 867)
  - Master of Arts in Education: Special Education and Moderate/Severe Disabilities Education Specialist Credential (p. 869)
- Special Education: Credential-only Programs
  - Mild/Moderate Disabilities Education Specialist Credential (p. 871)
  - Moderate/Severe Disabilities Education Specialist Credential (p. 873)

#### Integrated Bachelor's/Credential Program

- Bachelor of Science in Allied Health with Single Subject (Science) Teaching Credential (p. 77)
- Bachelor of Arts in Liberal Studies with Mild to Moderate Disabilities Education Specialist Credential (p. 878)
- Bachelor of Arts in Liberal Studies with Moderate to Severe Disabilities Education Specialist Credential (p. 878)
- Bachelor of Arts in Mathematics with Single Subject (Math) Teaching Credential (p. 209)

## Courses

### EDLS 200, Introduction to Teaching as a Profession K-12, 4 Units

This course provides an overview to the teaching profession, focusing on the art of teaching at the K-12 level. Issues addressed surround the Common Core standards, the California State Standards for the Teaching Profession, and the California Content Standards, including school organization, curriculum and pedagogical practices, classroom management, and assessment. The service-learning lab requires 45 hours in a K-12 school. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

**Prerequisite:** Sophomore Standing

## EDLS 202, Introduction to Teaching as a Profession (7-12), 4 Units

This course provides an overview to the teaching profession, focusing on the art of teaching at the 7-12 level. Issues addressed surround the Common Core standards, the California State Standards for the Teaching Profession, and the California Content Standards, including school organization, curriculum and pedagogical practices, classroom management, and assessment. The service-learning lab requires 45 hours in a 7-12 school. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

**Prerequisite:** Sophomore Standing

## EDLS 300, Introduction to Teaching as a Profession, 4 Units

Lecture, 3 hours; Lab, 1 hour and 15 minutes per week: This course provides an overview to the teaching profession, focusing on the art of teaching at the K-12 level. Issues addressed surround the California State Standards for the Teaching Profession and Content Standards including school organization, curriculum and pedagogical practices, classroom management, and assessment. The service-learning lab requires 15 hours in a K-12 school.

**Prerequisite:** Sophomore Standing

## EDLS 302, Introduction to Teaching as a Profession: 7-12, 4 Units

Lecture, 3 hours; Lab, 1 hour 15 minutes per week: The course provides an overview to the art and profession of teaching at the 7-12 level. Issues addressed surround the California State Standards for Content and the Teaching Profession, including school organization, curriculum and pedagogical practices, classroom management, and assessment. The service-learning lab requires 15 hours in 7-12 classrooms.

**Prerequisite:** Sophomore Standing

## EDLS 303, Introduction to Special Populations, 3 Units

This course will provide an overview of educational practices that influence the identification, placement, and teaching of students with mild to moderate disabilities. The basic principles of special education, including its history, legal mandates, and descriptions of various types of disabling conditions will be examined. Learning problems will be addressed in terms of the specific categories related to mild to moderate disabilities.

**Prerequisite:** Sophomore Standing

## EDLS 304, Introduction to Teaching Special Populations, 3 Units

This course will provide an overview of instructional practices and procedures for assisting the prospective teacher in his role as educator of students with mild to moderate disabilities. It will raise awareness of the exceptional child first and foremost as an individual who is influenced by and must cope with the broad contexts or environments of family, peers, school, and society.

**Prerequisite:** Sophomore Standing

## EDLS 405, Diversity in the Classroom, 3 Units

This course focuses on the examination of the interaction of the student's cultural background with ethics, racial, religious, and gender issues, the educational setting, and wider social forces that affect traditional success and failure for students who are linguistically and culturally different. The course evaluates the role that administrators and teachers play in nurturing a spirit of multiculturalism in schools. Includes service-learning hours in educational settings. *Meets the General Education Requirement: Intercultural Competence.*

**Prerequisite:** Junior standing

## EDLS 495, Foundations of Education Capstone, 3 Units

This is the capstone course for seniors in the Liberal Studies program. In this course, students integrate the concepts and skills they have learned throughout their various Liberal Studies courses, apply their knowledge in a classroom service learning experience, and prepare to transition from college to their teaching careers. Students utilize the California State Common Core Standards for the Teaching Profession to reflect on their growth as educators, synthesize their knowledge and service learning experiences from across multiple courses to develop their personal philosophy of education, and generate cross-disciplinary projects that showcase their skills in curriculum development and pedagogy while preparing for the CSET (California Subject Examination for Teachers). In addition, students develop essential job searching and interviewing skills. *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** EDLS 496, EDLS 200 or EDLS 202, EDLS 405, and senior standing

## EDLS 496, Writing 3: Education and Professional Ethics, 3 Units

This writing 3 course prepares students to develop a written thesis which offers a cogent analysis of a complex topic while defending a clear thesis. Students will understand and express a Christian perspective on issues critical to the education profession through a written thesis. Biblical and theological themes relating to education provide a base, while historical biographies and examples supply a context in which students generate a distinctively Christian response to a contemporary problem facing education. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

**Prerequisite:** Junior standing, Writing 2

## EDLS 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

### **EDTC 511, Foundations in Educational Technology, 3 Units**

This course focuses on developing proficiency with the foundational skills necessary for the Online Master of Arts in Educational Technology. Working in synchronous and asynchronous environments, students utilize a variety of applications and skills necessary for competency in the program.

### **EDTC 515, Emerging Trends in Technology, 3 Units**

This class looks at the historical development of educational technology and the social issues influencing its growth and implementation. Attention is also given to a synthesis of research related to the field, professional organizations serving the discipline and emerging innovative uses of educational technology.

### **EDTC 517, Digital Communications, 3 Units**

This course engages students in collaborative, investigative, and reflective learning opportunities through the exploration of relevant digital communication tools. Attention is given to current modes of communication that utilize a digital platform and effective strategies for implementation within teaching/learning environments.

### **EDTC 518, Global Learning/Cross-cultural Classroom, 3 Units**

This course focuses on the use of technology to develop global, cultural, geographical, environmental, and sociopolitical understanding. Students engage their own classrooms in global learning projects as a vehicle to promote cross-cultural literacy, a necessary skill for the global workforce and the 21st century.

### **EDTC 520, Managing Tech-Supported Curricular Tools, 3 Units**

This course explores managing various technology-supported curricular tools applicable to leadership and instruction in the educational environment. Topics include leadership roles in technology, technology planning, computer applications, and designing a technology implementation plan.

### **EDTC 521, Digital Imagery for Learning Environments, 3 Units**

This course covers a variety of digital imaging and audio applications and their operating tools utilized for teaching/learning environments. Students develop the skills necessary to create, design, and manipulate images along with editing video and audio for digital and/or interactive media.

### **EDTC 523, Educational Applications of Information Design and Hypermedia, 3 Units**

The basics of information design and hypermedia are studied. Topics include the definition and application of information design and hypermedia, the development of hypermedia, the impact of information design on hypermedia, and the impact of hypermedia on society. Students incorporate principles of information design into their hypermedia/global learning projects.

### **EDTC 524, Instructional Design and Development, 3 Units**

This course focuses on the utilization of design principles to effectively communicate instructional and professional materials prepared for the classroom, school/district, and professional development use. Implications on the educational experience of teachers, students, and administrators are also explored. Working in collaboration with other class members, students design an educational presentation/product for professional use.

### **EDTC 526, Practicum in Educational Applications of Technology, 3 Units**

The primary focus of this practicum is a research-designed multimedia portfolio that showcases skills the student has acquired in the Online Educational Technology program. This practicum covers research, use of applied software and educational technologies, a growth assessment, comprehensive e-portfolio, and final presentation to conclude the requirements for the master's degree. This course must be taken at the end of the coursework.

**Prerequisite:** All coursework in educational technology completed

### **EDTC 527, Special Topics in Educational Technology, 3 Units**

The current technologies, trends, and a variety of special topics in educational technology are explored. The course covers practical and theoretical aspects, effectiveness, and problems related to the implementation of the topic into relevant teaching/learning environments. Different topics may be taken and repeated for credit.

### **EDTC 599, Readings in Educational Technology, 1-3 Units**

Consists of a program of study concentrating on assigned readings, discussions, and/or writing arranged between, and designed by, a student and a full-time professor. An independent study fee is assessed for each enrollment in this class.

### **EDUC 530, Introduction to Research for Practitioners, 1 Unit**

This introductory course enables master's degree candidates to develop an understanding of the research process, introducing the basic principles of research and academic writing. Candidates learn to identify the elements of high-quality empirical work, compare qualitative and quantitative methods, and understand research design issues. Through activities integrating theory with practice, students learn how to locate, value, and synthesize other relevant research, identify ethical usage, and utilize appropriate formatting.

**Prerequisite:** Admission to one of the following M.A. in Education programs: Teaching and Multiple Subject Teaching Credential or Teaching and Single Subject Teaching Credential

## **EDUC 536, Family, Community, and School Connections, 3 Units**

This course focuses on community dynamics, community building, and parental involvement as essential components in education. Successful school reform models of parental involvement are examined, along with their connection to higher student achievement. Master's degree candidates discuss and define their role in building strong partnerships with all families, especially those in underserved communities. They utilize asset-based community-building strategies in educational practice as they explore their school communities and conduct capacity inventories. Candidates develop an ethnography representing their deepening understanding of who their students are, how the families and communities in which they are embedded help shape them, and how they can utilize this knowledge to enhance holistic development of students through their practice.

**Prerequisite:** EDUC 530

## **EDUC 537, Curriculum Development, Revision, and Evaluation Process, 3 Units**

This course applies a systems approach to curriculum design through examining the phases of the process, including analysis, design, development, and evaluation. Master's degree candidates are introduced to keys of effective curriculum design, including setting goals and developing clear and measurable objectives; determining related learning activities and resources to promote learning and accomplish objectives; designing and/or selecting appropriate forms of assessment (formative and summative) to chart student progress; and using multiple forms of feedback for assessing instructional effectiveness, to inform future modifications and revisions. Students learn the purpose of and approach to each phase of the instructional design process and create products for each phase in completing a curriculum design project.

**Prerequisite:** EDUC 530

## **EDUC 538, Current Issues in Education, 3 Units**

In this course, master's degree candidates investigate, analyze, discuss, and propose solutions for the most significant problems, concerns, and challenges in education today. The course includes four areas of concentration: curriculum, with a focus on instructional design; teaching practice; school organization; and the politics of education. Candidates study current research relevant to course topics, analyze varying perspectives, and evaluate them in terms of teaching and learning effectiveness as well as the quality of life in the school community. Through compilation and synthesis of empirical work on a specific topic area, candidates craft a literature review to demonstrate expertise in current trends and future directions of research.

**Prerequisite:** EDUC 530

## **EDUC 539, Capstone Seminar, 2 Units**

Culminating the M.A. completer courses, the capstone seminar builds on the coursework representing students' repertoire of academic preparation throughout the credential and master's programs. Master's candidates create and compile assignments in an efolio profiling their professional identities (personal philosophy, identity and dispositions narrative), their scholarly work (ethnography, curriculum assessment, literature review), and their practical applications (lesson and unit plans, classroom management) in the classroom. This seminar refines and contributes further to a body of work representing the teacher candidate's accomplishments and professional identity. Finally, candidates enhance their understanding and experience of a community's connection to the school environment.

**Prerequisite:** EDUC 530, EDUC 536, EDUC 537, and EDUC 538; may be taken concurrently: TEP 552 or TEP 562

## **EDUC 540, Essentials in Learning and Technology, 1 Unit**

This course focuses on introducing and developing proficiency with the essential skills necessary for the Master of Arts in Education: Learning and Technology emphasis. Students utilize a variety of applications and skills necessary for competency in the program. This course must be taken in the first term of the program.

**Prerequisite:** Admission into a M.A. in Education: Learning and Technology program: Mild/Moderate Disabilities Education Specialist Credential, Moderate/Severe Disabilities Education Specialist Credential, Multiple Subject Teaching or Single Subject Teaching Credential

## **EDUC 546, Digital Communications, 3 Units**

This course engages students in collaborative, investigative, and reflective learning opportunities through the exploration of relevant digital communication tools. Attention is given to current modes of communication that utilize a digital platform, and effective strategies for implementation within teaching/learning environments.

**Prerequisite:** EDUC 540

## **EDUC 547, Special Topics in Educational Technology, 3 Units**

Current technologies, trends, and a variety of special topics in educational technology are explored. This course covers practical and theoretical aspects, effectiveness, and problems related to the implementation of the topic into relevant teaching/learning environments. Different topics may be taken and repeated for credit.

**Prerequisite:** EDUC 540, or permission of program to take course as elective

## **EDUC 548, Emerging Trends in Technology, 3 Units**

This course covers the historical development of educational technology and the social issues influencing its growth and implementation. Attention is also given to a synthesis of research related to the field, professional organizations serving the discipline, and emerging innovative uses of educational technology.

**Prerequisite:** EDUC 540

## **EDUC 549, Capstone Experience in Learning and Technology, 2 Units**

The primary focus of this capstone experience is a research-designed multimedia eportfolio that showcases skills and concepts the student has acquired in the Master of Arts in Education: Learning and Technology program. This course incorporates each student's research, use of applied technologies in learning and technology, a growth assessment, a comprehensive eportfolio, and defense. The course must be taken at the end of the program, and passed in order to meet the final requirements for the master's degree.

**Prerequisite:** EDUC 540, EDUC 546, EDUC 547, and EDUC 548; may be taken concurrently: TEP 552, TEP 562, SPED 552, or SPED 572

## **EDUC 550, Introduction to Research for Practitioners, 1 Unit**

This introductory course enables master's degree candidates to develop an understanding of the research process, introducing the basic principles of research and academic writing. Candidates identify the elements of high-quality empirical work, compare qualitative and quantitative methods, and come to understand research design issues. Through activities integrating theory with practice, students learn how to locate, value, and synthesize other relevant research, identify ethical usage, and utilize appropriate formatting.

**Prerequisite:** Admission to one of the following Master of Arts in Education programs: Special Education and Mild/Moderate Disabilities Specialist Credential, or Special Education and Moderate/Severe Disabilities Specialist Credential.

## **EDUC 556, Historical and Philosophical Perspectives of Disability Studies, 3 Units**

This course explores and analyzes the historically key definitions of disability in light of the major theories, methodological approaches, and proposed public policy uses that have shaped them. It also considers how civil rights, human rights, self-determination, social policy, and participative action research have influenced disability studies. A diverse set of current and historical research articles on disability studies is analyzed to model the ways in which different research topics have been addressed and introduce how current research can stimulate future studies. Emphasis is given to the formulation of important research questions and the development of testable hypotheses based on previous theory, literature, and experience, as master's candidates begin to develop initial sections of their capstone research project.

**Prerequisite:** EDUC 550

## **EDUC 557, Current Trends in Curriculum and Disability Studies, 3 Units**

This course equips candidates with practical and theoretical understanding of curriculum in schooling, with an emphasis on the role performed by the special education teacher or 'Differentiation Expert.' Course material covers the various approaches to curriculum construction and organization in schools by examining the principles of curriculum improvement, change, and evaluation. Focus is on the theories, research, and best practices related to planning and developing curriculum and its implementation in schools and classrooms in order to address the needs of students in diverse communities.

**Prerequisite:** EDUC 550

## **EDUC 558, Guided Research Project, 3 Units**

This advanced course enables master's degree candidates in special education to become informed users and designers of educational research. Building upon earlier courses, candidates continue to examine educational research within the special education framework, with an emphasis on consumption, design, and application. Through activities integrated with their own inquiry processes, candidates refine their ability to locate, value, and synthesize relevant research, as well as select and employ appropriate research approaches, procedures, data sources, and analytical methods. Using these skills, candidates incorporate the sections drafted in previous research core courses to develop and implement a cohesive, data-driven research plan for their own classroom or school-based inquiry, using qualitative, quantitative, or mixed-methods approaches, as appropriate. Standards for writing research papers are also highlighted. Candidates complete the capstone project and submit findings in the Procedures and Findings section.

**Prerequisite:** EDUC 550, EDUC 556, EDUC 557

## **EDUC 559, Procedures and Findings, 2 Units**

This course is a sequel to the Guided Research Project section, and is designed to help researcher-educators develop the capstone reporting processes and procedures sections, as well as to refine and submit the completed project. Candidates continue to examine educational research within the special education framework. Through quantitative, qualitative, and mixed methods, candidates incorporate all pieces developed in previous research core courses and implement, analyze, and report findings for their data-driven research plan. Candidates work independently, provide feedback to and receive feedback from peers, and hold conference with their instructor to review their data analyses and results and to effectively revise and edit their completed project. This course enables candidates to complete their own research inquiry process and submit a final research report.

**Prerequisite:** EDUC 558; may be taken concurrently: SPED 552 or SPED 572

## **SPED 500, Candidate Support and Supervision, 1-3 Units**

This course allows Special Education Teacher Candidates to complete unit requirements for their credential or degree program. Current educational practices and a variety of special topics in the field of special education are explored, and course material covers practical and theoretical aspects relevant to the teaching/learning environment. Special Education Intern Candidates may be required to take this course during their program in an effort to meet program requirements while receiving mandated supervision and support. This course may be repeated four (4) times for credit for a total of 4-12 units.

## **SPED 525, Methods of Teaching Reading and Writing, 3 Units**

This course prepares teacher candidates to implement a comprehensive literacy program of systematic instruction in reading, writing, listening, speaking, and language aligned with the California Common Core State Standards for English Language Arts and the English Language Arts/English Language Development Framework. Through application of research-based instructional practices, candidates learn specific ways to address the diverse needs of all students.

## **SPED 526, Specialized Academic Instruction: Reading, Writing, and Math, 3 Units**

This course introduces candidates to multifaceted and multitiered methodologies and strategies necessary for teaching and engaging diverse students with disabilities in mathematics and language arts. Candidates become proficient in making explicit connections between ongoing assessment, student characteristics and strengths, instruction, and curriculum. They learn to analyze data to plan effective and differentiated instruction and interventions, and also how to collaboratively design effective IEP goals while considering the role of technology in those goals.

## **SPED 527, Teaching Students with Moderate to Severe Disabilities, 3 Units**

This course provides teacher candidates with a systems perspective for understanding and supporting individuals with moderate to severe disabilities and their families who come from culturally and linguistically diverse backgrounds. Using a person-centered planning approach, candidates examine effective collaborative strategies for team building, IEP development, joint problem solving, and transition planning. This course covers evidence-based strategies, adaptations, modifications, and technologies that provide access to Common Core standards, functional academics, and life skills. Various models are reviewed, including co-teaching, inclusion, community-based instruction, and vocational training.

## **SPED 528, Assessment and IEP Development, 3 Units**

This course examines current assessment mandates for students with mild to moderate to severe disabilities. Teacher candidates study test development and learn to evaluate assessment tools based on current research-based policies and mandates. Candidates also learn to administer and interpret norm-criterion reference assessment instruments and informal surveys or assessment instruments, and come to understand the influence of cultural and linguistic factors in the development of Individual Education Program (IEP) goals and Individual Transition Plans (ITPs).

**Corequisite:** SPED 551 or SPED 571

## **SPED 529, Positive Behavior Supports for Students with Exceptional Needs, 3 Units**

This course equips teacher candidates with the skills and legal framework essential to the development of positive behavior supports and self-management outcomes for students with disabilities. Candidates examine foundations of behavior disorders, appropriate communication, and behavioral support strategies that align with best practices. The foundations of functional analysis of behavior that leads to the development of positive behavior intervention plans are examined. Models of collaborative practices that lead to positive relationships and critical partnerships with students, families, educators, and agencies are investigated through skill development and self-analysis.

**Corequisite:** SPED 552 or SPED 572

## **SPED 551, Clinical Practice I: Mild to Moderate Disabilities, 2 Units**

Students with mild/moderate disabilities require specialized support to address unique learning needs resulting from a range of specific learning disabilities, mild intellectual disabilities, autism, other health impairments, or other identified disabilities for which placement in a classroom for students with mild/moderate disabilities is deemed appropriate. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with mild/moderate disabilities, conducting formal and informal assessments in order to determine students' current levels of performance, planning for students' grade and instructional levels, and capturing data to support progress on annual goals and short-term objectives that are aligned with California Content Standards. Candidates also monitor students' progress toward instructional goals and state-adopted standards, and, if necessary, identify behaviors impeding learning, and remediate by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English language learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

## **SPED 552, Clinical Practice II: Mild to Moderate Disabilities, 2 Units**

Students with mild/moderate disabilities require specialized support to address unique learning needs resulting from a range of specific learning disabilities, mild intellectual disabilities, autism, other health impairments, or other identified disabilities for which placement in a classroom for students with mild/moderate disabilities is deemed appropriate. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with mild/moderate disabilities, conducting formal and informal assessments in order to determine students' current levels of performance, planning for students' grade and instructional levels, and capturing data to support progress on annual goals and short-term objectives that are aligned with California Content Standards. Candidates also monitor students' progress toward instructional goals and state-adopted standards, and, if necessary, identify behaviors impeding learning, and remediate by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English language learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** SPED 551

## **SPED 571, Clinical Practice I: Moderate to Severe Disabilities, 2 Units**

Students with moderate/severe disabilities require specialized support to address unique learning needs resulting from a range of intellectual, behavioral, emotional, communication, sensory, autism spectrum disorder, and/or motor impairments. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in the students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with moderate/severe disabilities, conducting formal and informal assessments in order to determine students' current levels of performance, planning instructional-level annual goals and short-term objectives that are aligned with California Content Standards, monitoring students' progress toward instructional goals and short-term objectives, and identifying behaviors impeding learning and then remediating by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English language learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

## **SPED 572, Clinical Practice II: Moderate to Severe Disabilities, 2 Units**

Students with moderate/severe disabilities require specialized support to address unique learning needs resulting from a range of intellectual, behavioral, emotional, communication, sensory, autism spectrum disorder, and/or motor impairments. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in the students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with moderate/severe disabilities, conducting formal and informal assessments in order to determine students' current levels of performance, planning instructional-level annual goals and short-term objectives that are aligned with California Content Standards, monitoring students' progress toward instructional goals and short-term objectives, and identifying behaviors impeding learning and then remediating by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English language learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** SPED 571

## **SPED 599, Readings in Special Education, 1-3 Units**

Consists of a program of study concentrating on assigned readings, discussions, field experiences, and/or writing arranged between, and designed by, a student and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## **TEP 521, Methods of Teaching Reading and Writing (K-8), 3 Units**

This course prepares teacher candidates to implement a comprehensive literacy program of systematic instruction in reading, writing, listening, speaking, and language aligned with the California Common Core State Standards for English Language Arts and the English Language Arts/English Language Development Framework. Through application of research-based instructional practices, candidates learn specific ways to address the diverse needs of all students.

## **TEP 522, Methods of Teaching Mathematics (K-8), 3 Units**

This course engages candidates who are in clinical practice (student teaching or intern placements) in discussion of common challenges faced by teacher candidates in secondary classrooms, and also focuses on content-specific pedagogical strategies by subject matter. Issues addressed include, but are not limited to, teacher beliefs and their effect on student performance; classroom management; effective curriculum and lesson development; culturally appropriate pedagogical practices; the 'plan, teach, assess, reflect, and apply' cycle; content-specific strategies for teaching and assessing; and preparation for the workforce. Individual concerns and issues raised during student teaching or during the internship are also addressed.

## **TEP 523, Methods of Teaching Science (K-8), 2 Units**

This course introduces credential candidates to state-adopted K-8 Next Generation Science Standards and the 2016 Science Framework for California Public Schools: Kindergarten Through Grade Twelve, as well as science concepts and principles, scientific investigation, experimentation, and student assessment. Emphasis is on balanced instruction between Disciplinary Core Ideas, Crosscutting Concepts, and Scientific and Engineering Practices as described in the Next Generation Science Standards. This course also focuses on facilitating K-8 students' ability to independently read and comprehend instructional materials and graphic/media representations, integrate mathematical concepts and practices in scientific investigations, develop academic language, engage in disciplinary discourse practices, and understand the connections between science, society, technology, and the environment. The teaching of physical education and health education in grades K-8 is also covered.

**Corequisite:** TEP 551

## **TEP 524, Methods of Integrating the Humanities (K-8), 2 Units**

This course, intended for students in clinical practice (student teaching or intern placements), introduces methods of connecting moral and civic education with the social sciences and the arts through thematic teaching, in ways that comply with state frameworks and academic content standards, specifically focusing on the California Common Core State Standards. Course material utilizes a wide range of high-quality children's literature and performing and visual arts strategies. Emphasis is on a meaning-centered, diverse humanities curriculum designed to promote critical thinking skills and meet the needs of all students, including those with special needs and those from culturally and linguistically diverse backgrounds.

**Corequisite:** TEP 552

### **TEP 531, Methods of Teaching Reading and Writing (7-12), 3 Units**

This course includes intensive instruction in reading and language arts methods grounded in methodically sound research, to be incorporated in all subject areas. The study of secondary reading and language arts methods includes effective strategies and methods for guiding and developing the content-based reading and writing abilities of all students, including students with varied reading levels and language backgrounds. Teacher candidates examine well-designed systematic instructional programs, and the implementation of California Common Core State Standards (CCSS) for reading and writing in an integrated fashion with the standards for their subject area.

### **TEP 532, Secondary Pedagogy I: Teaching in Secondary Schools (7-12), 2 Units**

This course is designed for individuals who are teaching in middle or high school subject areas, such as math, ELA, social studies, science, art, physical education, music, etc. Teacher candidates in this course explore the teacher's and the students' roles in middle and high school classrooms. This course focuses on the history, development, and reform measures of middle and high schools to create positive environments that foster inquiry and promote a meaningful learning setting, including trends addressing cultural diversity. Aspects of middle and high school covered in this course include student-centered learning; critical teaching skills for making lessons relevant to students (including culturally relevant practices); cognitive and behavioral development as it affects curriculum design; lesson planning; differentiated instruction; use of technology; assessment; and intentional, reflective teaching practices. All assignments are completed in the subject area for which the individual is seeking the Single Subject Teaching Credential.

**Corequisite:** TEP 561

### **TEP 533, The Differentiated Classroom: Maximizing Capacity of Each Learner (7-12), 3 Units**

This course explores the philosophical and practical aspects of differentiation as defined by the entirety of classroom practice by the interdependence of the key aspects of curriculum, instruction, assessment, the learner, and the learning environment. Teacher candidates engage in activities that support the development of a teaching philosophy and practice that cultivates the K-12 learner as an active participant with a shared understanding of an investment in a differentiated classroom. Teacher candidates develop competence in analyzing and applying knowledge of K-12 students' achievement, instructional needs, social-emotional needs, cultural and language factors, and other relevant data necessary to improve teaching and learning for all students. Candidates also begin the development of an Individualized Learning Plan to gain competence as a reflective practitioner and further develop the professional knowledge, skills, and dispositions necessary to meet the expectations for beginning teachers as outlined in the California Teaching Performance Expectations.

### **TEP 534, Secondary Pedagogy II: Content-Specific Strategies, Teaching, and Assessment (7-12), 2 Units**

This course engages candidates who are in clinical practice (student teaching or intern placements) in discussion of common challenges faced by teacher candidates in secondary classrooms, and also focuses on content-specific pedagogical strategies by subject matter. Issues addressed in the course include, but are not limited to, teacher beliefs and their effect on student performance; classroom management; effective curriculum and lesson development; culturally appropriate pedagogical practices; the 'plan, teach, assess, reflect, and apply' cycle; content-specific strategies for teaching and assessing; and preparation for the workforce. Individual concerns and issues raised during student teaching or the internship are addressed.

**Prerequisite:** TEP 532;

**Corequisite:** TEP 562

### **TEP 551, Clinical Practice I: Multiple Subject Credential, 2 Units**

Clinical practice provides teacher candidates with a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and by the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a University Mentor. Focus is given to many areas of background learning and coordinates those areas into a meaningful set of experiences. These experiences include, but are not limited to, creating a positive environment for students with diverse needs, designing and implementing instruction for their multiple subject grade level and learners, promoting and supporting rigorous and appropriate content in their lessons, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English-language learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

### **TEP 552, Clinical Practice II: Multiple Subject Credential, 2 Units**

Clinical Practice provides teacher candidates with a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the Clinical Practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and by the Council for the Accreditation of Educator Preparation (CAEP). Clinical Practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a University Mentor. Focus is given to many areas of background learning and coordinates those areas into a meaningful set of experiences. These experiences include, but are not limited to, creating a positive environment for students with diverse needs, designing and implementing instruction for their Multiple Subject grade level and learners, promoting and supporting rigorous and appropriate content in their lessons, and reflecting in order to monitor student learning and adjust instruction. Clinical Practice also provides teaching experiences with English-language learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** TEP 551

## **TEP 561, Clinical Practice I: Single Subject Credential, 2 Units**

Clinical Practice provides teacher candidates with a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the Clinical Practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and by the Council for the Accreditation of Educator Preparation (CAEP). Clinical Practice provides a full-time, experience-based program in which Teacher Candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a University Mentor. Focus is given to many areas of background learning and coordinates those areas into a meaningful set of experiences. These experiences include, but are not limited to, creating a positive environment for students with diverse needs, designing and implementing instruction for their Single Subject content area and learners, promoting and supporting rigorous and appropriate content in their lessons, and reflecting in order to monitor student learning and adjust instruction. Clinical Practice also provides teaching experiences with English language learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

## **TEP 562, Clinical Practice II: Single Subject Credential, 2 Units**

Clinical Practice provides teacher candidates with a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the Clinical Practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and by the Council for the Accreditation of Educator Preparation (CAEP). Clinical Practice provides a full-time, experience-based program in which Teacher Candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a University Mentor. Focus is given to many areas of background learning and coordinates those areas into a meaningful set of experiences. These experiences include, but are not limited to, creating a positive environment for students with diverse needs, designing and implementing instruction for their Single Subject content area and learners, promoting and supporting rigorous and appropriate content in their lessons, and reflecting in order to monitor student learning and adjust instruction. Clinical Practice also provides teaching experiences with English language learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** TEP 561

## **TEP 590, Candidate Support and Supervision, 1-3 Units**

This course is required for General Education Teacher Candidates to complete unit requirements for their credential or degree program. Current educational practices and a variety of special topics in the field of general education are explored, and course material covers practical and theoretical aspects relevant to the teaching/learning environment. General Education Intern Candidates may be required to take this course during their program in an effort to meet program requirements while receiving mandated supervision and support. This course may be repeated four (4) times for credit for a total of 4-12 units.

## **TEP 599, Readings in Teacher Education, 1-3 Units**

Consists of a program of study concentrating on assigned readings, discussions, field experiences, and/or writing arranged between, and designed by, a student and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## **TESP 501, Art of Teaching I: Foundations of Teaching, 3 Units**

This course provides an introduction to basic pedagogy, including classroom management, lesson planning and teaching, standards-based instruction, teaching strategies for students with diverse identities and needs, and the application of technology to support teaching and learning. Teacher candidates consider strategies, models, and processes for meeting the needs of a broad range of K-12 students, including special needs students, gifted students, English language learners, speakers of nondominant varieties of English, and students of all cultural or ethnic identities. This course is designed for direct application of classroom learning by candidates in a collaborative context that implements inclusion. Candidates examine Christian character and develop an understanding of grace in the Christian worldview as applied in classroom contexts, in consideration of meeting the needs of students and building community within the classroom. This course includes 15 hours of required field experience in a K-12 school.

## **TESP 502, Science of Teaching I: How Students Learn, 3 Units**

This course comprises a basic overview of human growth and development for all students in the K-12 environment. Teacher candidates identify how research on the neuroscience of learning, theories of learning, and student motivation affect current understanding of student development through the K-12 education experience. They then creatively and collaboratively investigate how this knowledge can enable them to meet the needs of all students, including underserved populations, English language learners, and individuals with diverse learning needs (from gifted learners to individuals with mild to severe disabilities). Candidates also examine their own cultural beliefs, attitudes toward diversity, and related assumptions, identifying how these might affect student learning and achievement in their classrooms. Candidates demonstrate applied knowledge of communication styles and strategies for fostering positive cross-cultural interactions among students who are diverse in terms of culture, language, and ability. Finally, candidates reflect on the need to support the development of all students from a Christian worldview. This course includes 15 hours of required field experience in a K-12 school. *Meets the General Education Requirement: Social Science.*

## **TESP 503, The Soul of Teaching: Tapestry of American Education, 3 Units**

This course introduces teacher candidates to the history of American education and a sampling of modern philosophies of education, examined through the lens of a Christian worldview. Specific consideration is given to the ways in which historical trends have contributed to today's education system, including how social and philosophical movements, as well as policy changes, have shaped the growth and inclusiveness of education in the U.S. Candidates reflect on the continued need for education equity for all students in U.S. schools, and explore inclusive practices for diverse populations, professional dispositions, teacher resiliency, and their role in perpetuating social justice in education. They engage culturally appropriate response strategies that enhance learning opportunities in a cross-cultural context, and identify how a Christian worldview enables and directs a commitment to principles of equity and justice in their practice. *Meets the General Education Requirement: Intercultural Competence.*

## **TESP 504, Schools and Educational Systems, 3 Units**

This course explores the legal, ethical, and organizational systems (federal, state, district, and school) within which teachers conduct their work. Teacher candidates engage in an examination of school and community cultures and their impact on learning, by focusing on the ways teachers communicate and collaborate with external and internal stakeholders to provide equitable access to all students. Additionally, contractual responsibilities and professional expectations are addressed. Candidates also consider the ways in which educators, from a Christian worldview, can advocate to transform social problems impacting school culture. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## **TESP 511, Art of Teaching II: Pedagogy and Instructional Design, 3 Units**

This course explores pedagogy as the combination of teachers' professional knowledge, skills, and abilities, which are directed to create effective learning opportunities and outcomes for all students in a range of contexts. Building on broad themes from TESP 501 Art of Teaching I, teacher candidates explore pedagogical methods and specific models for meeting individual student needs, utilizing universal and individualized strategies. Attention is given to culturally responsive teaching practices for learners with diverse cultural and ethnic identities, as well as differentiation practices for students with various learning needs. Candidates further analyze the relationship between curriculum, pedagogy, and assessment. Finally, candidates examine and reflect on the Christian worldview in relation to student diversity and developing a climate of equity and collaboration within classrooms. This course includes 15 hours of required field experience in a K-12 school.

**Prerequisite:** TESP 501

## **TESP 512, Science of Teaching II: Effective Assessment Strategies for All Learners, 3 Units**

This course explores strategies for designing standards and data-driven curricular plans and units to serve diverse student populations (e.g., culturally, linguistically, and/or ability-diverse learners). Teacher candidates engage in the administration and analysis of formative, summative, diagnostic assessment to inform the ongoing development of differentiated instruction that serves the unique academic needs of students from diverse, intersecting backgrounds and identities. In view of the academic achievement gap that exists in California K-12 schools, candidates utilize assessment results, alongside state frameworks and current standards specific to their specialization, in development of further curriculum/planning, instruction, and assessment cycles; these will demonstrate the use of instructional strategies, materials, technologies, and other resources to make content connected, contextualized, and accessible to all students. Candidates consider how a Christian worldview catalyzes their commitment to engage fully in the work of creating classrooms that meet the needs of all their students. This course includes 15 hours of required field experience in a K-12 school.

**Prerequisite:** TESP 502

## **Faculty**

### **Department Chair, Advanced Studies; Program Director, M.A. in Educational Technology**

Kathleen Fletcher Bacer (<http://www.apu.edu/faculty/kbacer/>), Ed.D.

### **Department Chair, Elementary and Secondary Education; Program Director, Multiple Subject Teaching Credential**

Catherine Hahs Brinkley (<http://www.apu.edu/faculty/cbrinkley/>), Ed.D.

# Department of Advanced Studies

The Department of Advanced Studies offers master's degree programs for candidates seeking to expand their knowledge and further their education. They may pursue a Master of Arts in Educational Technology (p. 831) or a Master of Arts in Education with an emphasis in Learning and Technology, Special Education, or Teaching with an embedded California preliminary teaching credential or preliminary education specialist credential.

The Master of Arts in Educational Technology and the emphasis coursework for the Master of Arts in Education are delivered completely online to provide flexibility and convenience to candidates within their professional practice.

## Master of Arts in Education Emphases

Candidates complete foundations and specialization coursework for the M.A.Ed. in the Department of Elementary and Secondary Education (p. 833) or the Department of Special Education (p. 859) alongside emphasis coursework in the Department of Advanced Studies in one of the following areas:

### Master of Arts in Education: Learning and Technology

- The Learning and Technology emphasis focuses on foundational tools necessary to design and implement instructional experiences that integrate technology throughout the curriculum.

### Master of Arts in Education: Special Education

- The Special Education emphasis develops the advanced knowledge needed to serve students with special needs.

### Master of Arts in Education: Teaching

- The Teaching emphasis blends advanced coursework in curriculum and instruction with graduate work in practitioner research to provide candidates with a depth of knowledge within the field of education.

## Graduate Program

- Master of Arts in Educational Technology (p. 831)

## Courses

### EDTC 511, Foundations in Educational Technology, 3 Units

This course focuses on developing proficiency with the foundational skills necessary for the Online Master of Arts in Educational Technology. Working in synchronous and asynchronous environments, students utilize a variety of applications and skills necessary for competency in the program.

### EDTC 515, Emerging Trends in Technology, 3 Units

This class looks at the historical development of educational technology and the social issues influencing its growth and implementation. Attention is also given to a synthesis of research related to the field, professional organizations serving the discipline and emerging innovative uses of educational technology.

### EDTC 517, Digital Communications, 3 Units

This course engages students in collaborative, investigative, and reflective learning opportunities through the exploration of relevant digital communication tools. Attention is given to current modes of communication that utilize a digital platform and effective strategies for implementation within teaching/learning environments.

### EDTC 518, Global Learning/Cross-cultural Classroom, 3 Units

This course focuses on the use of technology to develop global, cultural, geographical, environmental, and sociopolitical understanding. Students engage their own classrooms in global learning projects as a vehicle to promote cross-cultural literacy, a necessary skill for the global workforce and the 21st century.

### EDTC 520, Managing Tech-Supported Curricular Tools, 3 Units

This course explores managing various technology-supported curricular tools applicable to leadership and instruction in the educational environment. Topics include leadership roles in technology, technology planning, computer applications, and designing a technology implementation plan.

### EDTC 521, Digital Imagery for Learning Environments, 3 Units

This course covers a variety of digital imaging and audio applications and their operating tools utilized for teaching/learning environments. Students develop the skills necessary to create, design, and manipulate images along with editing video and audio for digital and/or interactive media.

### **EDTC 523, Educational Applications of Information Design and Hypermedia, 3 Units**

The basics of information design and hypermedia are studied. Topics include the definition and application of information design and hypermedia, the development of hypermedia, the impact of information design on hypermedia, and the impact of hypermedia on society. Students incorporate principles of information design into their hypermedia/global learning projects.

### **EDTC 524, Instructional Design and Development, 3 Units**

This course focuses on the utilization of design principles to effectively communicate instructional and professional materials prepared for the classroom, school/district, and professional development use. Implications on the educational experience of teachers, students, and administrators are also explored. Working in collaboration with other class members, students design an educational presentation/product for professional use.

### **EDTC 526, Practicum in Educational Applications of Technology, 3 Units**

The primary focus of this practicum is a research-designed multimedia portfolio that showcases skills the student has acquired in the Online Educational Technology program. This practicum covers research, use of applied software and educational technologies, a growth assessment, comprehensive e-portfolio, and final presentation to conclude the requirements for the master's degree. This course must be taken at the end of the coursework.

**Prerequisite:** All coursework in educational technology completed

### **EDTC 527, Special Topics in Educational Technology, 3 Units**

The current technologies, trends, and a variety of special topics in educational technology are explored. The course covers practical and theoretical aspects, effectiveness, and problems related to the implementation of the topic into relevant teaching/learning environments. Different topics may be taken and repeated for credit.

### **EDUC 530, Introduction to Research for Practitioners, 1 Unit**

This introductory course enables master's degree candidates to develop an understanding of the research process, introducing the basic principles of research and academic writing. Candidates learn to identify the elements of high-quality empirical work, compare qualitative and quantitative methods, and understand research design issues. Through activities integrating theory with practice, students learn how to locate, value, and synthesize other relevant research, identify ethical usage, and utilize appropriate formatting.

**Prerequisite:** Admission to one of the following M.A. in Education programs: Teaching and Multiple Subject Teaching Credential or Teaching and Single Subject Teaching Credential

### **EDUC 536, Family, Community, and School Connections, 3 Units**

This course focuses on community dynamics, community building, and parental involvement as essential components in education. Successful school reform models of parental involvement are examined, along with their connection to higher student achievement. Master's degree candidates discuss and define their role in building strong partnerships with all families, especially those in underserved communities. They utilize asset-based community-building strategies in educational practice as they explore their school communities and conduct capacity inventories. Candidates develop an ethnography representing their deepening understanding of who their students are, how the families and communities in which they are embedded help shape them, and how they can utilize this knowledge to enhance holistic development of students through their practice.

**Prerequisite:** EDUC 530

### **EDUC 537, Curriculum Development, Revision, and Evaluation Process, 3 Units**

This course applies a systems approach to curriculum design through examining the phases of the process, including analysis, design, development, and evaluation. Master's degree candidates are introduced to keys of effective curriculum design, including setting goals and developing clear and measurable objectives; determining related learning activities and resources to promote learning and accomplish objectives; designing and/or selecting appropriate forms of assessment (formative and summative) to chart student progress; and using multiple forms of feedback for assessing instructional effectiveness, to inform future modifications and revisions. Students learn the purpose of and approach to each phase of the instructional design process and create products for each phase in completing a curriculum design project.

**Prerequisite:** EDUC 530

### **EDUC 538, Current Issues in Education, 3 Units**

In this course, master's degree candidates investigate, analyze, discuss, and propose solutions for the most significant problems, concerns, and challenges in education today. The course includes four areas of concentration: curriculum, with a focus on instructional design; teaching practice; school organization; and the politics of education. Candidates study current research relevant to course topics, analyze varying perspectives, and evaluate them in terms of teaching and learning effectiveness as well as the quality of life in the school community. Through compilation and synthesis of empirical work on a specific topic area, candidates craft a literature review to demonstrate expertise in current trends and future directions of research.

**Prerequisite:** EDUC 530

### **EDUC 539, Capstone Seminar, 2 Units**

Culminating the M.A. completer courses, the capstone seminar builds on the coursework representing students' repertoire of academic preparation throughout the credential and master's programs. Master's candidates create and compile assignments in an efolio profiling their professional identities (personal philosophy, identity and dispositions narrative), their scholarly work (ethnography, curriculum assessment, literature review), and their practical applications (lesson and unit plans, classroom management) in the classroom. This seminar refines and contributes further to a body of work representing the teacher candidate's accomplishments and professional identity. Finally, candidates enhance their understanding and experience of a community's connection to the school environment.

**Prerequisite:** EDUC 530, EDUC 536, EDUC 537, and EDUC 538; may be taken concurrently: TEP 552 or TEP 562

## **EDUC 540, Essentials in Learning and Technology, 1 Unit**

This course focuses on introducing and developing proficiency with the essential skills necessary for the Master of Arts in Education: Learning and Technology emphasis. Students utilize a variety of applications and skills necessary for competency in the program. This course must be taken in the first term of the program.

**Prerequisite:** Admission into a M.A. in Education: Learning and Technology program: Mild/Moderate Disabilities Education Specialist Credential, Moderate/Severe Disabilities Education Specialist Credential, Multiple Subject Teaching or Single Subject Teaching Credential

## **EDUC 546, Digital Communications, 3 Units**

This course engages students in collaborative, investigative, and reflective learning opportunities through the exploration of relevant digital communication tools. Attention is given to current modes of communication that utilize a digital platform, and effective strategies for implementation within teaching/learning environments.

**Prerequisite:** EDUC 540

## **EDUC 547, Special Topics in Educational Technology, 3 Units**

Current technologies, trends, and a variety of special topics in educational technology are explored. This course covers practical and theoretical aspects, effectiveness, and problems related to the implementation of the topic into relevant teaching/learning environments. Different topics may be taken and repeated for credit.

**Prerequisite:** EDUC 540, or permission of program to take course as elective

## **EDUC 548, Emerging Trends in Technology, 3 Units**

This course covers the historical development of educational technology and the social issues influencing its growth and implementation. Attention is also given to a synthesis of research related to the field, professional organizations serving the discipline, and emerging innovative uses of educational technology.

**Prerequisite:** EDUC 540

## **EDUC 549, Capstone Experience in Learning and Technology, 2 Units**

The primary focus of this capstone experience is a research-designed multimedia eportfolio that showcases skills and concepts the student has acquired in the Master of Arts in Education: Learning and Technology program. This course incorporates each student's research, use of applied technologies in learning and technology, a growth assessment, a comprehensive eportfolio, and defense. The course must be taken at the end of the program, and passed in order to meet the final requirements for the master's degree.

**Prerequisite:** EDUC 540, EDUC 546, EDUC 547, and EDUC 548; may be taken concurrently: TEP 552, TEP 562, SPED 552, or SPED 572

## **EDUC 550, Introduction to Research for Practitioners, 1 Unit**

This introductory course enables master's degree candidates to develop an understanding of the research process, introducing the basic principles of research and academic writing. Candidates identify the elements of high-quality empirical work, compare qualitative and quantitative methods, and come to understand research design issues. Through activities integrating theory with practice, students learn how to locate, value, and synthesize other relevant research, identify ethical usage, and utilize appropriate formatting.

**Prerequisite:** Admission to one of the following Master of Arts in Education programs: Special Education and Mild/Moderate Disabilities Specialist Credential, or Special Education and Moderate/Severe Disabilities Specialist Credential.

## **EDUC 556, Historical and Philosophical Perspectives of Disability Studies, 3 Units**

This course explores and analyzes the historically key definitions of disability in light of the major theories, methodological approaches, and proposed public policy uses that have shaped them. It also considers how civil rights, human rights, self-determination, social policy, and participative action research have influenced disability studies. A diverse set of current and historical research articles on disability studies is analyzed to model the ways in which different research topics have been addressed and introduce how current research can stimulate future studies. Emphasis is given to the formulation of important research questions and the development of testable hypotheses based on previous theory, literature, and experience, as master's candidates begin to develop initial sections of their capstone research project.

**Prerequisite:** EDUC 550

## **EDUC 557, Current Trends in Curriculum and Disability Studies, 3 Units**

This course equips candidates with practical and theoretical understanding of curriculum in schooling, with an emphasis on the role performed by the special education teacher or 'Differentiation Expert.' Course material covers the various approaches to curriculum construction and organization in schools by examining the principles of curriculum improvement, change, and evaluation. Focus is on the theories, research, and best practices related to planning and developing curriculum and its implementation in schools and classrooms in order to address the needs of students in diverse communities.

**Prerequisite:** EDUC 550

### **EDUC 558, Guided Research Project, 3 Units**

This advanced course enables master's degree candidates in special education to become informed users and designers of educational research. Building upon earlier courses, candidates continue to examine educational research within the special education framework, with an emphasis on consumption, design, and application. Through activities integrated with their own inquiry processes, candidates refine their ability to locate, value, and synthesize relevant research, as well as select and employ appropriate research approaches, procedures, data sources, and analytical methods. Using these skills, candidates incorporate the sections drafted in previous research core courses to develop and implement a cohesive, data-driven research plan for their own classroom or school-based inquiry, using qualitative, quantitative, or mixed-methods approaches, as appropriate. Standards for writing research papers are also highlighted. Candidates complete the capstone project and submit findings in the Procedures and Findings section.

**Prerequisite:** EDUC 550, EDUC 556, EDUC 557

### **EDUC 559, Procedures and Findings, 2 Units**

This course is a sequel to the Guided Research Project section, and is designed to help researcher-educators develop the capstone reporting processes and procedures sections, as well as to refine and submit the completed project. Candidates continue to examine educational research within the special education framework. Through quantitative, qualitative, and mixed methods, candidates incorporate all pieces developed in previous research core courses and implement, analyze, and report findings for their data-driven research plan. Candidates work independently, provide feedback to and receive feedback from peers, and hold conference with their instructor to review their data analyses and results and to effectively revise and edit their completed project. This course enables candidates to complete their own research inquiry process and submit a final research report.

**Prerequisite:** EDUC 558; may be taken concurrently: SPED 552 or SPED 572

# M.A. in Educational Technology

The online Master of Arts in Educational Technology (<https://www.apu.edu/education/programs/masters-in-educational-technology/>) is an advanced degree program available to credentialed educators seeking to become leaders of new and innovative methods for the 21<sup>st</sup> century, equipped to infuse technology-embedded instruction effectively into K-14 teaching/learning environments and online learning communities.

Candidates gain expertise in digital teaching and e-learning, managing tech-supported curricular tools, global learning and cross-cultural literacy, applications of information and instructional design, internet technologies, digital imagery and digital communications for learning environments, and emerging trends in technologies. The program encompasses a scholarly and constructivist online learning environment that capitalizes on the most relevant pedagogy on technology-infused teaching.

The coursework is sequenced and integrated to progressively develop content, professional and pedagogical knowledge, and dispositions in the field. Students admitted into the online program must complete all coursework online.

## Prerequisites

- Applicants must possess 12 semester units of undergraduate or graduate coursework in education.
- For each year of verified full-time teaching, 3 units of prerequisites may be waived.

## Requirements

| Code            | Title   | Units |
|-----------------|---|-------|
| <b>Term I</b>   |   |       |
| EDTC 511        | Foundations in Educational Technology                         | 3     |
| EDTC 527        | Special Topics in Educational Technology                      | 3     |
| <b>Term II</b>  |   |       |
| EDTC 517        | Digital Communications  | 3     |
| EDTC 518        | Global Learning/Cross-cultural Classroom                      | 3     |
| <b>Term III</b> |   |       |
| EDTC 523        | Educational Applications of Information Design and Hypermedia | 3     |
| EDTC 521        | Digital Imagery for Learning Environments                     | 3     |
| <b>Term IV</b>  |   |       |
| EDTC 524        | Instructional Design and Development                          | 3     |
| EDTC 520        | Managing Tech-Supported Curricular Tools                      | 3     |
| <b>Term V</b>   |   |       |
| EDTC 515        | Emerging Trends in Technology                                 | 3     |
| EDTC 526        | Practicum in Educational Applications of Technology           | 3     |
| Total Units     |   | 30    |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Additional Admission Requirements

- Email the program director, Kathleen Bacer, Ed.D. (<http://www.apu.edu/education/faculty/kbacer/>), at [kbacer@apu.edu](mailto:kbacer@apu.edu) describing technology proficiencies, technology goals, and learning styles that may be suitable to the online learning environment and educational technology degree. Also include the model and brand of the computer you will be using for the program, along with your internet service provider.
- A résumé or statement of experience
- Students may not enroll in more than eight units per eight-week session.

## **Computer and Software Requirements**

- A Mac or PC computer running the latest operating system and latest versions of Firefox, Safari, and Chrome.
- Adobe Acrobat Pro DC, Microsoft Office Suite, Adobe Photoshop Elements, and Adobe Premiere Elements 10

## **Program Learning Outcomes**

### **Program Learning Outcomes**

Students who successfully complete this program shall be able to:

1. Demonstrate a functional analysis of educational technology and online learning that infuses technology-embedded instruction into K-14 learning environments.
2. Implement multiple digital communication tools and web-based resources within a teaching-learning environment.
3. Create and implement a global learning project that demonstrates cross-cultural competency.
4. Research emerging trends in educational technology that result in an applied digital presentation.
5. Utilize instructional design principles to create effective learning environments.
6. Design a comprehensive website (e-portfolio) that exhibits acquired skills in the educational applications of technology.
7. Articulate professional and technological growth attained from the MA in Educational Technology degree program.

# Department of Elementary and Secondary Education

The Department of Elementary and Secondary Education offers a Bachelor of Arts in Liberal Studies to prepare undergraduate students seeking careers as elementary school teachers with the breadth of content knowledge needed to teach in an elementary setting. The department also offers master's degree and credential programs for candidates seeking a California Preliminary Teaching Credential authorizing them to teach in a public elementary, middle, or high school setting. APU's Multiple Subject Teaching Credential programs prepare teachers for positions at the elementary level, providing a breadth of knowledge over the K-8 continuum for self-contained classrooms. The Single Subject Teaching Credential programs prepare teachers for positions at the middle and high school levels (6-12), with focus in their specific subject area. The department assesses all candidates at admission, throughout their program, and up to the recommendation of credentials. Assessments are used to evaluate and inform candidate learning and include the following assessment areas: California Commission on Teacher Credentialing (CTC) teacher performance expectations, APU student learning outcomes, and teacher candidate dispositions.

## Programs

### Undergraduate

- Bachelor of Arts in Liberal Studies/Undergraduate Education K-8 Program (p. 839)
- Minor in Liberal Studies (p. 846)

### Graduate

- Master of Arts in Education: Learning and Technology and Multiple Subject Teaching Credential (p. 847)
- Master of Arts in Education: Learning and Technology and Single Subject Teaching Credential (p. 849)
- Master of Arts in Education: Teaching and Multiple Subject Teaching Credential (p. 851)
- Master of Arts in Education: Teaching and Single Subject Teaching Credential (p. 853)

## Credentials

- Multiple Subject Teaching Credential (p. 855)
- Single Subject Teaching Credential (p. 857)

## Courses

### EDLS 200, Introduction to Teaching as a Profession K-12, 4 Units

This course provides an overview to the teaching profession, focusing on the art of teaching at the K-12 level. Issues addressed surround the Common Core standards, the California State Standards for the Teaching Profession, and the California Content Standards, including school organization, curriculum and pedagogical practices, classroom management, and assessment. The service-learning lab requires 45 hours in a K-12 school. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

**Prerequisite:** Sophomore Standing

### EDLS 202, Introduction to Teaching as a Profession (7-12), 4 Units

This course provides an overview to the teaching profession, focusing on the art of teaching at the 7-12 level. Issues addressed surround the Common Core standards, the California State Standards for the Teaching Profession, and the California Content Standards, including school organization, curriculum and pedagogical practices, classroom management, and assessment. The service-learning lab requires 45 hours in a 7-12 school. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

**Prerequisite:** Sophomore Standing

### EDLS 300, Introduction to Teaching as a Profession, 4 Units

Lecture, 3 hours; Lab, 1 hour and 15 minutes per week: This course provides an overview to the teaching profession, focusing on the art of teaching at the K-12 level. Issues addressed surround the California State Standards for the Teaching Profession and Content Standards including school organization, curriculum and pedagogical practices, classroom management, and assessment. The service-learning lab requires 15 hours in a K-12 school.

**Prerequisite:** Sophomore Standing

### EDLS 302, Introduction to Teaching as a Profession: 7-12, 4 Units

Lecture, 3 hours; Lab, 1 hour 15 minutes per week: The course provides an overview to the art and profession of teaching at the 7-12 level. Issues addressed surround the California State Standards for Content and the Teaching Profession, including school organization, curriculum and pedagogical practices, classroom management, and assessment. The service-learning lab requires 15 hours in 7-12 classrooms.

**Prerequisite:** Sophomore Standing

### **EDLS 303, Introduction to Special Populations, 3 Units**

This course will provide an overview of educational practices that influence the identification, placement, and teaching of students with mild to moderate disabilities. The basic principles of special education, including its history, legal mandates, and descriptions of various types of disabling conditions will be examined. Learning problems will be addressed in terms of the specific categories related to mild to moderate disabilities.

**Prerequisite:** Sophomore Standing

### **EDLS 304, Introduction to Teaching Special Populations, 3 Units**

This course will provide an overview of instructional practices and procedures for assisting the prospective teacher in his role as educator of students with mild to moderate disabilities. It will raise awareness of the exceptional child first and foremost as an individual who is influenced by and must cope with the broad contexts or environments of family, peers, school, and society.

**Prerequisite:** Sophomore Standing

### **EDLS 405, Diversity in the Classroom, 3 Units**

This course focuses on the examination of the interaction of the student's cultural background with ethics, racial, religious, and gender issues, the educational setting, and wider social forces that affect traditional success and failure for students who are linguistically and culturally different. The course evaluates the role that administrators and teachers play in nurturing a spirit of multiculturalism in schools. Includes service-learning hours in educational settings. *Meets the General Education Requirement: Intercultural Competence.*

**Prerequisite:** Junior standing

### **EDLS 495, Foundations of Education Capstone, 3 Units**

This is the capstone course for seniors in the Liberal Studies program. In this course, students integrate the concepts and skills they have learned throughout their various Liberal Studies courses, apply their knowledge in a classroom service learning experience, and prepare to transition from college to their teaching careers. Students utilize the California State Common Core Standards for the Teaching Profession to reflect on their growth as educators, synthesize their knowledge and service learning experiences from across multiple courses to develop their personal philosophy of education, and generate cross-disciplinary projects that showcase their skills in curriculum development and pedagogy while preparing for the CSET (California Subject Examination for Teachers). In addition, students develop essential job searching and interviewing skills. *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** EDLS 496, EDLS 200 or EDLS 202, EDLS 405, and senior standing

### **EDLS 496, Writing 3: Education and Professional Ethics, 3 Units**

This writing 3 course prepares students to develop a written thesis which offers a cogent analysis of a complex topic while defending a clear thesis. Students will understand and express a Christian perspective on issues critical to the education profession through a written thesis. Biblical and theological themes relating to education provide a base, while historical biographies and examples supply a context in which students generate a distinctively Christian response to a contemporary problem facing education. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

**Prerequisite:** Junior standing, Writing 2

### **EDLS 497, Readings, 1-4 Units**

This is a program of study concentrating on assigned readings, discussions, and writing arranged between, and designed by, a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

### **EDUC 530, Introduction to Research for Practitioners, 1 Unit**

This introductory course enables master's degree candidates to develop an understanding of the research process, introducing the basic principles of research and academic writing. Candidates learn to identify the elements of high-quality empirical work, compare qualitative and quantitative methods, and understand research design issues. Through activities integrating theory with practice, students learn how to locate, value, and synthesize other relevant research, identify ethical usage, and utilize appropriate formatting.

**Prerequisite:** Admission to one of the following M.A. in Education programs: Teaching and Multiple Subject Teaching Credential or Teaching and Single Subject Teaching Credential

### **EDUC 536, Family, Community, and School Connections, 3 Units**

This course focuses on community dynamics, community building, and parental involvement as essential components in education. Successful school reform models of parental involvement are examined, along with their connection to higher student achievement. Master's degree candidates discuss and define their role in building strong partnerships with all families, especially those in underserved communities. They utilize asset-based community-building strategies in educational practice as they explore their school communities and conduct capacity inventories. Candidates develop an ethnography representing their deepening understanding of who their students are, how the families and communities in which they are embedded help shape them, and how they can utilize this knowledge to enhance holistic development of students through their practice.

**Prerequisite:** EDUC 530

## **EDUC 537, Curriculum Development, Revision, and Evaluation Process, 3 Units**

This course applies a systems approach to curriculum design through examining the phases of the process, including analysis, design, development, and evaluation. Master's degree candidates are introduced to keys of effective curriculum design, including setting goals and developing clear and measurable objectives; determining related learning activities and resources to promote learning and accomplish objectives; designing and/or selecting appropriate forms of assessment (formative and summative) to chart student progress; and using multiple forms of feedback for assessing instructional effectiveness, to inform future modifications and revisions. Students learn the purpose of and approach to each phase of the instructional design process and create products for each phase in completing a curriculum design project.

**Prerequisite:** EDUC 530

## **EDUC 538, Current Issues in Education, 3 Units**

In this course, master's degree candidates investigate, analyze, discuss, and propose solutions for the most significant problems, concerns, and challenges in education today. The course includes four areas of concentration: curriculum, with a focus on instructional design; teaching practice; school organization; and the politics of education. Candidates study current research relevant to course topics, analyze varying perspectives, and evaluate them in terms of teaching and learning effectiveness as well as the quality of life in the school community. Through compilation and synthesis of empirical work on a specific topic area, candidates craft a literature review to demonstrate expertise in current trends and future directions of research.

**Prerequisite:** EDUC 530

## **EDUC 539, Capstone Seminar, 2 Units**

Culminating the M.A. completer courses, the capstone seminar builds on the coursework representing students' repertoire of academic preparation throughout the credential and master's programs. Master's candidates create and compile assignments in an efolio profiling their professional identities (personal philosophy, identity and dispositions narrative), their scholarly work (ethnography, curriculum assessment, literature review), and their practical applications (lesson and unit plans, classroom management) in the classroom. This seminar refines and contributes further to a body of work representing the teacher candidate's accomplishments and professional identity. Finally, candidates enhance their understanding and experience of a community's connection to the school environment.

**Prerequisite:** EDUC 530, EDUC 536, EDUC 537, and EDUC 538; may be taken concurrently: TEP 552 or TEP 562

## **EDUC 540, Essentials in Learning and Technology, 1 Unit**

This course focuses on introducing and developing proficiency with the essential skills necessary for the Master of Arts in Education: Learning and Technology emphasis. Students utilize a variety of applications and skills necessary for competency in the program. This course must be taken in the first term of the program.

**Prerequisite:** Admission into a M.A. in Education: Learning and Technology program: Mild/Moderate Disabilities Education Specialist Credential, Moderate/Severe Disabilities Education Specialist Credential, Multiple Subject Teaching or Single Subject Teaching Credential

## **EDUC 546, Digital Communications, 3 Units**

This course engages students in collaborative, investigative, and reflective learning opportunities through the exploration of relevant digital communication tools. Attention is given to current modes of communication that utilize a digital platform, and effective strategies for implementation within teaching/learning environments.

**Prerequisite:** EDUC 540

## **EDUC 547, Special Topics in Educational Technology, 3 Units**

Current technologies, trends, and a variety of special topics in educational technology are explored. This course covers practical and theoretical aspects, effectiveness, and problems related to the implementation of the topic into relevant teaching/learning environments. Different topics may be taken and repeated for credit.

**Prerequisite:** EDUC 540, or permission of program to take course as elective

## **EDUC 548, Emerging Trends in Technology, 3 Units**

This course covers the historical development of educational technology and the social issues influencing its growth and implementation. Attention is also given to a synthesis of research related to the field, professional organizations serving the discipline, and emerging innovative uses of educational technology.

**Prerequisite:** EDUC 540

## **EDUC 549, Capstone Experience in Learning and Technology, 2 Units**

The primary focus of this capstone experience is a research-designed multimedia eportfolio that showcases skills and concepts the student has acquired in the Master of Arts in Education: Learning and Technology program. This course incorporates each student's research, use of applied technologies in learning and technology, a growth assessment, a comprehensive eportfolio, and defense. The course must be taken at the end of the program, and passed in order to meet the final requirements for the master's degree.

**Prerequisite:** EDUC 540, EDUC 546, EDUC 547, and EDUC 548; may be taken concurrently: TEP 552, TEP 562, SPED 552, or SPED 572

## **TEP 521, Methods of Teaching Reading and Writing (K-8), 3 Units**

This course prepares teacher candidates to implement a comprehensive literacy program of systematic instruction in reading, writing, listening, speaking, and language aligned with the California Common Core State Standards for English Language Arts and the English Language Arts/English Language Development Framework. Through application of research-based instructional practices, candidates learn specific ways to address the diverse needs of all students.

## **TEP 522, Methods of Teaching Mathematics (K-8), 3 Units**

This course engages candidates who are in clinical practice (student teaching or intern placements) in discussion of common challenges faced by teacher candidates in secondary classrooms, and also focuses on content-specific pedagogical strategies by subject matter. Issues addressed include, but are not limited to, teacher beliefs and their effect on student performance; classroom management; effective curriculum and lesson development; culturally appropriate pedagogical practices; the 'plan, teach, assess, reflect, and apply' cycle; content-specific strategies for teaching and assessing; and preparation for the workforce. Individual concerns and issues raised during student teaching or during the internship are also addressed.

## **TEP 523, Methods of Teaching Science (K-8), 2 Units**

This course introduces credential candidates to state-adopted K-8 Next Generation Science Standards and the 2016 Science Framework for California Public Schools: Kindergarten Through Grade Twelve, as well as science concepts and principles, scientific investigation, experimentation, and student assessment. Emphasis is on balanced instruction between Disciplinary Core Ideas, Crosscutting Concepts, and Scientific and Engineering Practices as described in the Next Generation Science Standards. This course also focuses on facilitating K-8 students' ability to independently read and comprehend instructional materials and graphic/media representations, integrate mathematical concepts and practices in scientific investigations, develop academic language, engage in disciplinary discourse practices, and understand the connections between science, society, technology, and the environment. The teaching of physical education and health education in grades K-8 is also covered.

**Corequisite:** TEP 551

## **TEP 524, Methods of Integrating the Humanities (K-8), 2 Units**

This course, intended for students in clinical practice (student teaching or intern placements), introduces methods of connecting moral and civic education with the social sciences and the arts through thematic teaching, in ways that comply with state frameworks and academic content standards, specifically focusing on the California Common Core State Standards. Course material utilizes a wide range of high-quality children's literature and performing and visual arts strategies. Emphasis is on a meaning-centered, diverse humanities curriculum designed to promote critical thinking skills and meet the needs of all students, including those with special needs and those from culturally and linguistically diverse backgrounds.

**Corequisite:** TEP 552

## **TEP 531, Methods of Teaching Reading and Writing (7-12), 3 Units**

This course includes intensive instruction in reading and language arts methods grounded in methodically sound research, to be incorporated in all subject areas. The study of secondary reading and language arts methods includes effective strategies and methods for guiding and developing the content-based reading and writing abilities of all students, including students with varied reading levels and language backgrounds. Teacher candidates examine well-designed systematic instructional programs, and the implementation of California Common Core State Standards (CCSS) for reading and writing in an integrated fashion with the standards for their subject area.

## **TEP 532, Secondary Pedagogy I: Teaching in Secondary Schools (7-12), 2 Units**

This course is designed for individuals who are teaching in middle or high school subject areas, such as math, ELA, social studies, science, art, physical education, music, etc. Teacher candidates in this course explore the teacher's and the students' roles in middle and high school classrooms. This course focuses on the history, development, and reform measures of middle and high schools to create positive environments that foster inquiry and promote a meaningful learning setting, including trends addressing cultural diversity. Aspects of middle and high school covered in this course include student-centered learning; critical teaching skills for making lessons relevant to students (including culturally relevant practices); cognitive and behavioral development as it affects curriculum design; lesson planning; differentiated instruction; use of technology; assessment; and intentional, reflective teaching practices. All assignments are completed in the subject area for which the individual is seeking the Single Subject Teaching Credential.

**Corequisite:** TEP 561

## **TEP 533, The Differentiated Classroom: Maximizing Capacity of Each Learner (7-12), 3 Units**

This course explores the philosophical and practical aspects of differentiation as defined by the entirety of classroom practice by the interdependence of the key aspects of curriculum, instruction, assessment, the learner, and the learning environment. Teacher candidates engage in activities that support the development of a teaching philosophy and practice that cultivates the K-12 learner as an active participant with a shared understanding of an investment in a differentiated classroom. Teacher candidates develop competence in analyzing and applying knowledge of K-12 students' achievement, instructional needs, social-emotional needs, cultural and language factors, and other relevant data necessary to improve teaching and learning for all students. Candidates also begin the development of an Individualized Learning Plan to gain competence as a reflective practitioner and further develop the professional knowledge, skills, and dispositions necessary to meet the expectations for beginning teachers as outlined in the California Teaching Performance Expectations.

## **TEP 534, Secondary Pedagogy II: Content-Specific Strategies, Teaching, and Assessment (7-12), 2 Units**

This course engages candidates who are in clinical practice (student teaching or intern placements) in discussion of common challenges faced by teacher candidates in secondary classrooms, and also focuses on content-specific pedagogical strategies by subject matter. Issues addressed in the course include, but are not limited to, teacher beliefs and their effect on student performance; classroom management; effective curriculum and lesson development; culturally appropriate pedagogical practices; the 'plan, teach, assess, reflect, and apply' cycle; content-specific strategies for teaching and assessing; and preparation for the workforce. Individual concerns and issues raised during student teaching or the internship are addressed.

**Prerequisite:** TEP 532;

**Corequisite:** TEP 562

## **TEP 551, Clinical Practice I: Multiple Subject Credential, 2 Units**

Clinical practice provides teacher candidates with a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the clinical practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and by the Council for the Accreditation of Educator Preparation (CAEP). Clinical practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a University Mentor. Focus is given to many areas of background learning and coordinates those areas into a meaningful set of experiences. These experiences include, but are not limited to, creating a positive environment for students with diverse needs, designing and implementing instruction for their multiple subject grade level and learners, promoting and supporting rigorous and appropriate content in their lessons, and reflecting in order to monitor student learning and adjust instruction. Clinical practice also provides teaching experiences with English-language learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

## **TEP 552, Clinical Practice II: Multiple Subject Credential, 2 Units**

Clinical Practice provides teacher candidates with a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the Clinical Practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and by the Council for the Accreditation of Educator Preparation (CAEP). Clinical Practice provides a full-time, experience-based program in which teacher candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a University Mentor. Focus is given to many areas of background learning and coordinates those areas into a meaningful set of experiences. These experiences include, but are not limited to, creating a positive environment for students with diverse needs, designing and implementing instruction for their Multiple Subject grade level and learners, promoting and supporting rigorous and appropriate content in their lessons, and reflecting in order to monitor student learning and adjust instruction. Clinical Practice also provides teaching experiences with English-language learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** TEP 551

## **TEP 561, Clinical Practice I: Single Subject Credential, 2 Units**

Clinical Practice provides teacher candidates with a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the Clinical Practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and by the Council for the Accreditation of Educator Preparation (CAEP). Clinical Practice provides a full-time, experience-based program in which Teacher Candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a University Mentor. Focus is given to many areas of background learning and coordinates those areas into a meaningful set of experiences. These experiences include, but are not limited to, creating a positive environment for students with diverse needs, designing and implementing instruction for their Single Subject content area and learners, promoting and supporting rigorous and appropriate content in their lessons, and reflecting in order to monitor student learning and adjust instruction. Clinical Practice also provides teaching experiences with English language learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

## **TEP 562, Clinical Practice II: Single Subject Credential, 2 Units**

Clinical Practice provides teacher candidates with a culminating preparatory experience toward which the teacher candidate's entire teacher education program has been planned. The purpose is to develop and verify beginning-level teaching competency in candidates by the end of the Clinical Practice semester, according to standards set by the California Commission on Teacher Credentialing (CTC) and by the Council for the Accreditation of Educator Preparation (CAEP). Clinical Practice provides a full-time, experience-based program in which Teacher Candidates (contracted and noncontracted) have opportunities to participate as classroom teachers in schools while supervised by a University Mentor. Focus is given to many areas of background learning and coordinates those areas into a meaningful set of experiences. These experiences include, but are not limited to, creating a positive environment for students with diverse needs, designing and implementing instruction for their Single Subject content area and learners, promoting and supporting rigorous and appropriate content in their lessons, and reflecting in order to monitor student learning and adjust instruction. Clinical Practice also provides teaching experiences with English language learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** TEP 561

## **TEP 590, Candidate Support and Supervision, 1-3 Units**

This course is required for General Education Teacher Candidates to complete unit requirements for their credential or degree program. Current educational practices and a variety of special topics in the field of general education are explored, and course material covers practical and theoretical aspects relevant to the teaching/learning environment. General Education Intern Candidates may be required to take this course during their program in an effort to meet program requirements while receiving mandated supervision and support. This course may be repeated four (4) times for credit for a total of 4-12 units.

## **TESP 501, Art of Teaching I: Foundations of Teaching, 3 Units**

This course provides an introduction to basic pedagogy, including classroom management, lesson planning and teaching, standards-based instruction, teaching strategies for students with diverse identities and needs, and the application of technology to support teaching and learning. Teacher candidates consider strategies, models, and processes for meeting the needs of a broad range of K-12 students, including special needs students, gifted students, English language learners, speakers of nondominant varieties of English, and students of all cultural or ethnic identities. This course is designed for direct application of classroom learning by candidates in a collaborative context that implements inclusion. Candidates examine Christian character and develop an understanding of grace in the Christian worldview as applied in classroom contexts, in consideration of meeting the needs of students and building community within the classroom. This course includes 15 hours of required field experience in a K-12 school.

## **TESP 502, Science of Teaching I: How Students Learn, 3 Units**

This course comprises a basic overview of human growth and development for all students in the K-12 environment. Teacher candidates identify how research on the neuroscience of learning, theories of learning, and student motivation affect current understanding of student development through the K-12 education experience. They then creatively and collaboratively investigate how this knowledge can enable them to meet the needs of all students, including underserved populations, English language learners, and individuals with diverse learning needs (from gifted learners to individuals with mild to severe disabilities). Candidates also examine their own cultural beliefs, attitudes toward diversity, and related assumptions, identifying how these might affect student learning and achievement in their classrooms. Candidates demonstrate applied knowledge of communication styles and strategies for fostering positive cross-cultural interactions among students who are diverse in terms of culture, language, and ability. Finally, candidates reflect on the need to support the development of all students from a Christian worldview. This course includes 15 hours of required field experience in a K-12 school. *Meets the General Education Requirement: Social Science.*

## **TESP 503, The Soul of Teaching: Tapestry of American Education, 3 Units**

This course introduces teacher candidates to the history of American education and a sampling of modern philosophies of education, examined through the lens of a Christian worldview. Specific consideration is given to the ways in which historical trends have contributed to today's education system, including how social and philosophical movements, as well as policy changes, have shaped the growth and inclusiveness of education in the U.S. Candidates reflect on the continued need for education equity for all students in U.S. schools, and explore inclusive practices for diverse populations, professional dispositions, teacher resiliency, and their role in perpetuating social justice in education. They engage culturally appropriate response strategies that enhance learning opportunities in a cross-cultural context, and identify how a Christian worldview enables and directs a commitment to principles of equity and justice in their practice. *Meets the General Education Requirement: Intercultural Competence.*

## **TESP 504, Schools and Educational Systems, 3 Units**

This course explores the legal, ethical, and organizational systems (federal, state, district, and school) within which teachers conduct their work. Teacher candidates engage in an examination of school and community cultures and their impact on learning, by focusing on the ways teachers communicate and collaborate with external and internal stakeholders to provide equitable access to all students. Additionally, contractual responsibilities and professional expectations are addressed. Candidates also consider the ways in which educators, from a Christian worldview, can advocate to transform social problems impacting school culture. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## **TESP 511, Art of Teaching II: Pedagogy and Instructional Design, 3 Units**

This course explores pedagogy as the combination of teachers' professional knowledge, skills, and abilities, which are directed to create effective learning opportunities and outcomes for all students in a range of contexts. Building on broad themes from TESP 501 Art of Teaching I, teacher candidates explore pedagogical methods and specific models for meeting individual student needs, utilizing universal and individualized strategies. Attention is given to culturally responsive teaching practices for learners with diverse cultural and ethnic identities, as well as differentiation practices for students with various learning needs. Candidates further analyze the relationship between curriculum, pedagogy, and assessment. Finally, candidates examine and reflect on the Christian worldview in relation to student diversity and developing a climate of equity and collaboration within classrooms. This course includes 15 hours of required field experience in a K-12 school.

**Prerequisite:** TESP 501

## **TESP 512, Science of Teaching II: Effective Assessment Strategies for All Learners, 3 Units**

This course explores strategies for designing standards and data-driven curricular plans and units to serve diverse student populations (e.g., culturally, linguistically, and/or ability-diverse learners). Teacher candidates engage in the administration and analysis of formative, summative, diagnostic assessment to inform the ongoing development of differentiated instruction that serves the unique academic needs of students from diverse, intersecting backgrounds and identities. In view of the academic achievement gap that exists in California K-12 schools, candidates utilize assessment results, alongside state frameworks and current standards specific to their specialization, in development of further curriculum/planning, instruction, and assessment cycles; these will demonstrate the use of instructional strategies, materials, technologies, and other resources to make content connected, contextualized, and accessible to all students. Candidates consider how a Christian worldview catalyzes their commitment to engage fully in the work of creating classrooms that meet the needs of all their students. This course includes 15 hours of required field experience in a K-12 school.

**Prerequisite:** TESP 502

# B.A. in Liberal Studies/Undergraduate Education K-8 Program

86-94 units

## Mission

The liberal studies major (<https://www.apu.edu/clas/programs/liberal-studies-major/>) equips future teachers and other professionals by integrating coursework and service-learning experiences with the application of a Christian worldview as it relates to life vocation. It promotes awareness of cultural diversity issues and studies multiple curricula with an emphasis in specific subject areas aligned with Common Core standards for subject matter while fostering a holistic understanding of knowledge.

## Program Overview

The Liberal Studies/Undergraduate Education K-8 program offers a Bachelor of Arts in Liberal Studies aligned with California Common Core subject-matter standards in order to prepare undergraduate students seeking careers as elementary school teachers with the breadth of content knowledge needed to teach in a K-8 setting.

The liberal studies degree provides future elementary school teachers with opportunities to teach in a self-contained classroom environment. Opportunities are available to take additional units toward a Supplementary/Subject Matter Authorization (SMA) if the student desires to teach content up to a ninth-grade level. Consult the Liberal Studies/Undergraduate Education K-8 program in the Division of Teacher Education for complete information.

During the first two years of college, it is suggested that undergraduate liberal studies majors complete university General Education requirements and prerequisites to upper-division coursework, which is embedded in the program's four-year plan. Students may want to explore the teaching field by taking EDLS 200 or EDLS 202 as sophomores, juniors, or seniors, along with EDLS 405, EDLS 495, and EDLS 496. Students in this program participate in a minimum of 75 hours of teacher-oriented, service-learning field experience and observation through several core liberal studies/undergraduate education K-8 courses.

APU candidates prepare to work in schools as teachers, and they must know and demonstrate the content, pedagogical, and professional knowledge, skills, and dispositions necessary to help all students learn. Therefore, the Division of Teacher Education assesses candidates in these standards from admissions through recommendation of credentials, making APU graduates highly sought-after professionals.

## Career Opportunities

Though most liberal studies graduates find teaching positions in public and private schools locally, nationally, and abroad, demands exist in the business and communication fields as well because of the increasing need for college graduates with broad and diverse academic backgrounds. Potential teaching careers exist in multiple subject, single subject, and special education.

## Additional Preparation

Multiple subject credential candidates seeking admission into the teacher education program (p. 814) must take the CBEST and CSET. **Undergraduate students should plan for successful passage of the CBEST during their sophomore year, and of the CSET during their junior or senior year (after most core courses are taken), prior to applying to the credential program.** Those who pass these tests by graduation may be hired on paid contracts with a school district while completing their fifth-year Multiple Subject Teaching Credential. This fulfills one of the requirements for eligibility for an intern credential.

## Requirements

| Code                                      | Title  | Units |
|---|--|-------|
| <b>Liberal Studies Major Requirements</b> |  |       |
| COMM 111                                  | Public Communication <sup>1</sup>                    | 3     |
| FFL 121                                   | Fitness for Life: Dance for the Theater <sup>2</sup> | 2     |
| MATH 110                                  | College Algebra <sup>3</sup>                         | 3     |
| BIOL 101                                  | Biology and Society <sup>4</sup>                     | 4     |

| ENGL 434                              | Children's Literature  | 3 |
| MUS 432                               | Music in the Elementary Schools                              | 3 |
| PE 450                                | Physical Education in Elementary Schools, K-6                | 3 |

**Concentrations**

|   |       |
|---|-------|
| Select one concentration from the list below. | 12-20 |
| Total Units                                   | 86-94 |

- 1 Meets the General Education Oral Communication requirement.
  - 2 Meets the General Education Fitness for Life requirement.
  - 3 Meets the General Education Quantitative Literacy requirement.
  - 4 Meets the General Education Natural Sciences requirement.
  - 5 Meets the General Education Humanities: Literature requirement.
  - 6 Meets the General Education Humanities: History requirement.
  - 7 Meets the General Education Humanities: Fine Arts requirement.
  - 8 The 38 units of core coursework must be completed with a grade of C or higher and an overall GPA of 3.0 or higher.
  - 9 Meets the General Education Civic Knowledge and Engagement requirement.
  - 10 California Education Code Section 44335 requires all candidates for a Teaching Credential to demonstrate knowledge of the United States Constitution by completing a college-level course or a college-level examination in the subject; successful completion of either with a grade of C or higher meets this California Education Code requirement.
  - 11 Meets the General Education Social Sciences requirement.
  - 12 Meets the General Education Intercultural Competence requirement.
  - 13 Meets the General Education Integrative and Applied Learning requirement.
  - 14 Meets the General Education Writing 3 requirement.
- F Offered in fall semester only.  
S Offered in spring semester only.

**Art Concentration**

| Code                         | Title   | Units |
|------------------------------|---|-------|
| <b>Required Courses</b>      |   |       |
| ART 145                      | Drawing I   | 3     |
| ART 146                      | Painting I  | 3     |
| Select one of the following: |   | 3     |
| ART 354                      | History of Ancient Art and Architecture (Fall Semester Only) <sup>1, F</sup>                      |       |
| ART 356                      | Writing 3: History of Modern Art and Architecture <sup>2</sup>                                    |       |
| ART 357                      | History of Contemporary Art and Architecture (Spring Semester Only) <sup>1, S</sup>               |       |
| ART 361                      | History of Early Christian and Medieval Art and Architecture (Fall Semester Only) <sup>1, F</sup> |       |
| ART 362                      | History of Renaissance to Rococo Art and Architecture (Spring Semester Only) <sup>1, S</sup>      |       |
| Select one of the following: |   | 3     |
| ART 105                      | Ceramics I <sup>1</sup>   |       |

|         |  |  |

| ENGL 244                     | American Literature to 1865 (Fall Semester Only) <sup>2, F</sup>                     |       |
| Select one of the following: |  | 3     |
| ENGL 254                     | American Literature Since 1865 (Spring Semester Only) <sup>2, S</sup>                |       |
| ENGL 377                     | Shakespeare (Fall Semester Only) <sup>2, F</sup>                                     |       |
| ENGL 410                     | American Novel (Even Fall Semester Only) <sup>EF</sup>                               |       |
| ENGL 435                     | Social and Psychological Aspects of Language (Even Fall Semester Only) <sup>EF</sup> |       |
| Total Units                  |  | 12    |

- <sup>1</sup> Meets the General Education Writing 3 requirement.  
<sup>2</sup> Meets the General Education Humanities: Literature requirement.  
F Offered in fall semester only.  
EF Offered every even-year fall semester only.

**Math Concentration**

See the Department of Mathematics, Physics, and Statistics (p. 195) for updated schedules.

Note: Students must begin their mathematics coursework at the level for which they qualify as determined by their SAT/ACT score, previous university coursework, or the APU mathematics placement assessment. Some students will require one or more courses prior to calculus.

| Code                         | Title   | Units |
|------------------------------|---|-------|
| <b>Required Courses</b>      |   |       |
| MATH 110                     | College Algebra <sup>1, 2</sup>   | 3     |
| MATH 165                     | Calculus I  | 3     |
| MATH 280                     | Discrete Mathematics and Proof (Prerequisite of MATH 165) <sup>F</sup>                          | 3     |
| MATH 340                     | Geometry (Prerequisite of MATH 166; ask dept. for prereq code) <sup>S</sup>                     | 3     |
| Choose one of the following: |   | 3     |
| MATH 130                     | Introduction to Statistics <sup>2</sup>   |       |
| MATH 361                     | Probability and Statistics I (Prerequisite of MATH 166; ask dept. for prereq code) <sup>S</sup> |       |
| Choose one of the following: |   | 3     |
| MATH 166                     | Calculus II   |       |
| MATH 250                     | Data Analysis <sup>F</sup>  |       |
| MATH 268                     | Multivariable Calculus  |       |
| MATH 270                     | Ordinary Differential Equations <sup>S</sup>  |       |
| MATH 290                     | Linear Algebra <sup>3, S</sup>  |       |

|             |  |    |
|-------------|--|----|
| MATH 295    | Applied Linear Algebra <sup>3, F</sup> |    |
| MATH 390    | Number Theory <sup>OF</sup>            |    |
| Total Units |  | 18 |

<sup>1</sup> Students who waive MATH 110 and do not receive the units must make up the 3 units with an extra elective.

<sup>2</sup> Meets the General Education Quantitative Literacy requirement.

<sup>3</sup> It is not permitted to count both MATH 290 and MATH 295 toward the math concentration.

F Offered in fall semester only.

S Offered in spring semester only.

OF Offered every odd-year fall semester only.

## Music Concentration

| Code                           | Title  | Units |
|--------------------------------|--|-------|
| <b>Required Courses</b>        |  |       |
| MUS 101                        | Beginning Voice Class  | 1     |
| MUS 103                        | Beginning Piano Class <sup>1</sup>                                 | 1     |
| MUS 104                        | Elementary Piano Class <sup>1</sup>                                | 1     |
| MUS 110                        | Elementary Guitar Methods  | 1     |
| MUS 121                        | Music Theory I <sup>2</sup>  | 3     |
| MUS 122                        | Music Theory II  | 3     |
| MUS 133                        | Practical Musicianship I   | 1     |
| MUS 134                        | Practical Musicianship II  | 1     |
| MUS 201                        | Introduction to World Music <sup>3</sup>                           | 3     |
| Choose one from the following: |  | 3     |
| MUS 350                        | History and Literature of Commercial Music <sup>F</sup>            |       |
| MUS 351                        | Ancient, Renaissance, and World Music Literature                   |       |
| MUS 352                        | Writing 3: Baroque, Classical, and Early Romantic Music Literature |       |
| MUS 455                        | Late Romantic and 20th-Century Music Literature                    |       |

Total Units 18

<sup>1</sup> Or 1 unit for each Applied Piano (permission by audition only).

<sup>2</sup> Meets the General Education Humanities: Fine Arts requirement.

<sup>3</sup> Meets the General Education Intercultural Competence requirement.

F Offered in fall semester only.

## Physical Education Concentration Option I<sup>1</sup>

| Code    | Title  | Units |
|---------|--|-------|
| KIN 242 | Fundamental Principles of Fitness                                      | 3     |
| KIN 290 | Human Movement Science   | 3     |
| KIN 306 | Sociological and Psychological Aspects of Physical Activity and Sport  | 3     |
| PE 237  | Methods of Teaching Rhythmic and Multicultural Activities <sup>S</sup> | 3     |
| PE 250  | Methods of Teaching Individual Sports <sup>F</sup>                     | 2     |
| PE 252  | Methods of Teaching Team Sports <sup>S</sup>                           | 3     |
| PE 452  | Adapted Physical Education (prerequisite of KIN 290 and PE 450)        | 3     |

Total Units 20

<sup>1</sup> Courses must be taken in sequence (200 before 300, 300 before 400).

S Offered in spring semester only.

F Offered in fall semester only.

**Physical Education Concentration Option II <sup>1</sup>**

| Code                         | Title  | Units |
|------------------------------|--|-------|
| Select one of the following: |  | 3     |
| PE 325                       | Motor Development and Learning   |       |
| KIN 290                      | Human Movement Science   |       |
| PE 451                       | Methods in Physical Education: 7-12 <sup>2</sup>   | 3     |
| PE 452                       | Adapted Physical Education   | 3     |
| PE 600                       | Physical Education Teaching Methods for Individuals with Mild to Moderate Disabilities   | 3     |
| PE 602                       | Physical Education Teaching Methods for Individuals with Severe to Profound Disabilities | 3     |
| PE 605                       | Management of Adapted Physical Education Programs  | 3     |
| Total Units                  |  | 18    |

<sup>1</sup> Courses must be taken in sequence (200 before 300, 300 before 400).

<sup>2</sup> Meets the General Education Integrative and Applied Learning requirement.

**Psychology Concentration (School Psychology)**

PSYC 290 and MATH 130 are prerequisite courses for the upper-division courses in this concentration.

| Code        | Title  | Units |
|-------------|--|-------|
| MATH 130    | Introduction to Statistics <sup>1</sup>                              | 3     |
| PSYC 305    | Educational Psychology (Fall Semester Only) <sup>F</sup>             | 3     |
| PSYC 345    | Psychology of Child and Adolescent Development <sup>2</sup>          | 3     |
| PSYC 360    | Abnormal Psychology  | 3     |
| PSYC 410    | Psychology of Exceptional Children (Fall Semester Only) <sup>F</sup> | 3     |
| Total Units |  | 15    |

<sup>1</sup> Meets the General Education Quantitative Literacy requirement.

<sup>2</sup> Meets the General Education Social Sciences requirement.

F Offered in fall semester only.

S Offered in spring semester only.

**Science Concentration Option I**

| Code        | Title   | Units |
|-------------|---|-------|
| BIOL 151    | General Biology I <sup>1</sup>  | 4     |
| BIOL 152    | General Biology II  | 4     |
| CHEM 123    | General, Organic, and Biological Chemistry for the Health Sciences <sup>1</sup> | 4     |
| PHYC 140    | Introduction to Astronomy <sup>1</sup>  | 4     |
| PHYC 151    | Physics for Life Sciences I <sup>1</sup>  | 4     |
| Total Units |   | 20    |

<sup>1</sup> Meets the General Education Natural Sciences requirement.

**Science Concentration Option II**

| Code        | Title   | Units |
|-------------|---|-------|
| BIOL 250    | Human Anatomy   | 4     |
| BIOL 251    | Human Physiology  | 4     |
| CHEM 123    | General, Organic, and Biological Chemistry for the Health Sciences <sup>1</sup> | 4     |
| PHYC 151    | Physics for Life Sciences I <sup>1</sup>  | 4     |
| Total Units |   | 16    |

<sup>1</sup> Meets the General Education Natural Sciences requirement.

## Social Science Concentration

| Code                         | Title  | Units |
|------------------------------|--|-------|
| POLI 150                     | American Government <sup>1, 2</sup>              | 3     |
| Select one of the following: |  | 3     |
| HIST 320                     | Modern Africa                                    |       |
| HIST 392                     | Colonial Latin America                           |       |
| HIST 393                     | Ritual and Re-enactment in Modern Latin America  |       |
| POLI 320                     | Comparative Politics                             |       |
| Select two of the following: |  | 6     |
| HIST 334                     | History of American Foreign Affairs <sup>S</sup> |       |
| HIST 350                     | Medieval Europe <sup>F</sup>                     |       |
| HIST 352                     | Renaissance and Reformation                      |       |
| HIST 357                     | Enlightenment Europe                             |       |
| HIST 358                     | Europe 1789-1914                                 |       |
| HIST 359                     | Europe 1914-1992                                 |       |
| HIST 374                     | Colonial Era                                     |       |
| HIST 380                     | Civil War and Reconstruction                     |       |
| HIST 386                     | Modern America                                   |       |
| HIST 389                     | Modern American Intellectual History             |       |
| Total Units                  |  | 12    |

<sup>1</sup> Meets the General Education Civic Knowledge and Engagement requirement.

<sup>2</sup> California Education Code Section 44335 requires all candidates for a Teaching Credential to demonstrate knowledge of the United States Constitution by completing a college-level course or a college-level examination in the subject; successful completion of either with a grade of C or higher meets this California Education Code requirement.

<sup>S</sup> Offered in spring semester only.

<sup>F</sup> Offered in fall semester only.

## Spanish Concentration

| Code                         | Title   | Units |
|------------------------------|---|-------|
| SPAN 201                     | Intermediate Spanish I (Fall Semester Only) <sup>F</sup>  | 3     |
| SPAN 202                     | Intermediate Spanish II (Spring Semester Only) <sup>S</sup>   | 3     |
| SPAN 301                     | Spanish Conversation and Community <sup>1, 2, F</sup>   | 3     |
| WRIT 204                     | Writing 2: Writing for the Humanities in Spanish (Spring Semester Only) <sup>3, S</sup>               | 3     |
| Select one of the following: |   | 3     |
| SPAN 432                     | Literary Masters (Fall Semester Only) <sup>4 &amp; F</sup>  |       |
| SPAN 460                     | Writing 3: Survey of the Literature of the Spanish-speaking World (Spring Semester Only) <sup>5</sup> |       |
| Total Units                  |   | 15    |

<sup>1</sup> SPAN 101, SPAN 102, SPAN 201, and SPAN 202 are prerequisites for 300-level SPAN courses.

<sup>2</sup> Meets the General Education Intercultural Competence requirement.

<sup>3</sup> Meets the General Education Writing 2 requirement.

<sup>4</sup> Meets the General Education Humanities: Literature requirement.

<sup>5</sup> Meets the General Education Writing 3 requirement.

<sup>F</sup> Offered in fall semester only.

<sup>S</sup> Offered in spring semester only.

## Human Development (Special Education) Concentration

| Code     | Title   | Units |
|----------|---|-------|
| EDLS 303 | Introduction to Special Populations <sup>F</sup>          | 3     |
| EDLS 304 | Introduction to Teaching Special Populations <sup>S</sup> | 3     |
| PSYC 410 | Psychology of Exceptional Children                        | 3     |

|             |                                       |    |
|-------------|---------------------------------------|----|
| PSYC 430    | Intervention Strategies with Children | 3  |
| Total Units |                                       | 12 |

F Offered in fall semester only.

S Offered in spring semester only.

## Program Learning Outcomes

## Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Analyze and demonstrate proficiency in subject matter required of K--8 teachers by the State of California.
2. Integrate K--8 curriculum concepts and disciplines.
3. Define teaching methods of instruction using best practices with a Christian perspective.
4. Understand aspects of cultural diversity within the context of the classroom.
5. Identify a distinctive Christian perspective compared to a secular perspective as it pertains to current education issues.

# Minor in Liberal Studies

22-23 units

The liberal studies minor is a multidisciplinary program that adds foundational elements of K-8 subject-matter preparation and practical field experience to any student's major course of study. The program provides students with the opportunity to develop a teaching philosophy and acquire basic subject-matter knowledge in five to seven content areas with an understanding of diversity and culture in a classroom setting; this may provide some preparation for substitute teaching and lesson planning. Students work closely with an advisor in major and minor fields in order to create an organized on-campus study.

*NOTE: The minor does not prepare the student for the subject-matter exam, currently CSET. Additional studying is required to pass the exam and move forward with obtaining a Multiple Subject Teaching Credential. Liberal studies minors must maintain a **C** or higher in all courses credited toward the minor.*

## Requirements

| Code                            | Title   | Units |
|---------------------------------|---|-------|
| <b>Core Courses</b>             |   |       |
| EDLS 200<br>or EDLS 202         | Introduction to Teaching as a Profession K-12 <sup>1</sup><br>Introduction to Teaching as a Profession (7-12) | 4     |
| EDLS 405                        | Diversity in the Classroom <sup>2</sup>   | 3     |
| <b>Subject-matter Electives</b> |   |       |
| Select five of the following:   |   | 15-16 |
| ART 310                         | Fundamental Art Experiences <sup>3</sup>  |       |
| BIOL 400                        | Science and Children  |       |
| ENGL 434                        | Children's Literature   |       |

| EDLS 495                        | Foundations of Education Capstone <sup>4</sup>  |       |
| Total Units                     |   | 22-23 |

<sup>1</sup> Meets the General Education Civic Knowledge and Engagement requirement.

<sup>2</sup> Meets the General Education Intercultural Competence requirement.

<sup>3</sup> Meets the General Education Humanities: Fine Arts requirement.

<sup>4</sup> Meets the General Education Integrative and Applied Learning requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

- Analyze and demonstrate proficiency in subject matter required of K6 teachers by the State of California
- Integrate K8 curriculum concepts and disciplines through the application of lesson plans, papers, and projects in Children's Literature, Mathematical Concepts for Elementary Teachers, Science and Children, Fundamental Art Experiences, Music in the Elementary Schools, Physical Education in the Elementary Schools
- Define teaching methods of instruction using best practices with a Christian perspective while integrating K8 curriculum concepts and disciplines through the application of lesson plans, papers, and projects
- Understand cultural diversity issues within the context of the classroom through service-learning experiences and in class discussion
- Identify a distinctive Christian perspective compared to a secular perspective as it pertains to different education issues

# M.A. in Education: Learning and Technology and Multiple Subject Teaching Credential

Azusa Pacific University's Master of Arts in Education: Learning and Technology and Multiple Subject Teaching Credential program (<https://www.apu.edu/education/programs/masters-in-learning-technology-multiple-subject/>) prepares candidates to earn a Master of Arts in Education: Learning and Technology degree along with an embedded California Multiple Subject Preliminary Teaching Credential. This program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the multiple subject credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Advanced coursework in the emphasis area of learning and technology provides candidates with the knowledge to effectively design and infuse technology-embedded curriculum into K-8 teaching and learning environments. The mode of delivery includes face-to-face instruction, campus-based classes, distance learning, online courses, and clinical experiences.

Approved by the California Commission on Teacher Credentialing (CTC) and the National Council for the Accreditation of Teacher Education (NCATE), which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP), Azusa Pacific University's Multiple Subject Teaching Credential program comprises specific methods courses that are accompanied by practical classroom applications and field experiences in both primary and upper-elementary school assignments.

Upon completion, the candidate will have earned both a Preliminary Multiple Subject Teaching Credential and a Master of Arts in Education: Learning and Technology degree.

Check with the Division of Teacher Education (<http://www.apu.edu/education/teacher/>) for locations in which this program is offered.

## Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

| <b>Total Units <sup>4</sup></b>      |   | <b>44-47</b> |

- 1 These courses must be completed prior to beginning clinical practice.
- 2 May be taken for credit up to three times as an additional elective as long as topics are not repeated.
- 3 Elective courses can be used toward the master's degree only for individuals needing additional units to complete the degree. Elective courses cannot be used to replace foundation, specialization, or emphasis course requirements.
- 4 This program is designed to be completed with 44 units; the use of elective units to complete the degree may increase the unit total.

**NOTE:** A maximum of 8 units may be taken per 8-week session. Completion of all credential requirements—including all examinations, coursework, and other requirements—must be met before the master's degree will be posted. An Intent to Commence and/or Graduate form (<http://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) must be completed and fees paid by the deadlines set by the registrar.

**NOTE:** Candidates who hold an intern credential must enroll in an intern support course (TEP 590) during each 8-week session (fall or spring) in which they are not enrolled in a clinical practice course.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

# M.A. in Education: Learning and Technology and Single Subject Teaching Credential

Azusa Pacific University's Master of Arts in Education: Learning and Technology and Single Subject Teaching Credential program (<https://www.apu.edu/education/programs/masters-in-learning-technology-single-subject/>) prepares candidates to earn a Master of Arts in Education: Learning and Technology degree along with an embedded California Single Subject Preliminary Teaching Credential. This program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the single subject credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Advanced coursework in the emphasis area of learning and technology provides candidates with the knowledge to effectively design and infuse technology-embedded curriculum into 7-12 grade teaching and learning environments. The mode of delivery includes face-to-face instruction, campus-based classes, distance learning, blended and online courses, and clinical experiences.

The Master of Arts in Education: Learning and Technology is approved by the California Commission on Teacher Credentialing (CTC) and the National Council for the Accreditation of Teacher Education (NCATE), which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP).

Upon completion, the candidate will have earned both a Preliminary Single Subject Teaching Credential and a Master of Arts in Education: Learning and Technology degree.

Check with the Division of Teacher Education (<http://www.apu.edu/education/teacher/>) for locations in which this program is offered.

## Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

| TEP 562                              | Clinical Practice II: Single Subject Credential                                       | 2            |
| <b>Emphasis Courses</b>              |   |              |
| EDUC 530                             | Introduction to Research for Practitioners  | 1            |
| EDUC 536                             | Family, Community, and School Connections   | 3            |
| EDUC 537                             | Curriculum Development, Revision, and Evaluation Process                              | 3            |
| EDUC 538                             | Current Issues in Education   | 3            |
| EDUC 539                             | Capstone Seminar  | 2            |
| <b>Elective Courses <sup>2</sup></b> |   |              |
| EDUC 547                             | Special Topics in Educational Technology <sup>3</sup>                                 | 3            |
| <b>Total Units <sup>4</sup></b>      |   | <b>44-47</b> |

<sup>1</sup> These courses must be completed prior to beginning clinical practice.

<sup>2</sup> Electives can be used towards the master's degree only for individuals needing additional units to complete the degree. Elective courses cannot be used to replace foundation, specialization, or emphasis course requirements.

<sup>3</sup> May be taken for credit up to three times as an additional elective as long as topics are not repeated.

<sup>4</sup> This program is designed to be completed with 44 units; the use of elective units to complete the degree may increase the unit total.

**NOTE:** A maximum of 8 units may be taken per 8-week session. Completion of all credential requirements—including all examinations, coursework, and other requirements—must be met before the master’s degree will be posted. An Intent to Commence and/or Graduate form (<http://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) must be completed and fees paid by the deadlines set by the registrar.

**NOTE:** Candidates who hold an intern credential must enroll in an intern support course (TEP 590) during each 8-week session (fall or spring) in which they are not enrolled in a clinical practice course.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

# Multiple Subject Teaching Credential

Azusa Pacific University's Multiple Subject Teaching Credential (<https://www.apu.edu/education/programs/multiple-subject-teaching-credential/>) program prepares candidates to earn a California Multiple Subject Preliminary Teaching Credential. This rigorous program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the multiple subject credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Available modes of delivery include face-to-face instruction, campus-based classes, distance learning, and clinical experiences.

## Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

## Requirements

| Code                          | Title   | Units |
|-------------------------------|---|-------|
| <b>Foundation Courses</b>     |   |       |
| TESP 501                      | Art of Teaching I: Foundations of Teaching <sup>1</sup>                               | 3     |
| TESP 511                      | Art of Teaching II: Pedagogy and Instructional Design <sup>1</sup>                    | 3     |
| TESP 502                      | Science of Teaching I: How Students Learn <sup>1</sup>                                | 3     |
| TESP 512                      | Science of Teaching II: Effective Assessment Strategies for All Learners <sup>1</sup> | 3     |
| TESP 503                      | The Soul of Teaching: Tapestry of American Education                                  | 3     |
| TESP 504                      | Schools and Educational Systems   | 3     |
| <b>Specialization Courses</b> |   |       |
| TEP 521                       | Methods of Teaching Reading and Writing (K-8)   | 3     |
| TEP 522                       | Methods of Teaching Mathematics (K-8)   | 3     |
| TEP 523                       | Methods of Teaching Science (K-8)   | 2     |
| TEP 524                       | Methods of Integrating the Humanities (K-8)   | 2     |
| TEP 551                       | Clinical Practice I: Multiple Subject Credential                                      | 2     |
| TEP 552                       | Clinical Practice II: Multiple Subject Credential                                     | 2     |
| Total Units                   |   | 32    |

<sup>1</sup> Must be completed prior to beginning clinical practice.

**NOTE:** A maximum of 9 units may be taken per 8-week session. Completion of all credential requirements—including all examinations, coursework, and other requirements—must be met before the candidate will be recommended for a teaching credential. Candidates should meet with their credential analyst (<http://www.apu.edu/education/resources/credentials/>) for information regarding the credential application process.

**NOTE:** Candidates who hold an Intern Credential must enroll in an intern support course (TEP 590) during each 8-week session (fall or spring) in which they are not enrolled in a clinical practice course.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.

5. Assess student learning.
6. Develop as a professional educator.

# Single Subject Teaching Credential

Azusa Pacific University's Single Subject Teaching Credential (<https://www.apu.edu/education/programs/single-subject-teaching-credential/>) program prepares candidates to earn a California Single Subject Preliminary Teaching Credential. This rigorous program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the single subject credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Available modes of delivery include face-to-face instruction, campus-based classes, distance learning, blended learning, and clinical experiences.

## Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

## Course Requirements

| Code                          | Title   | Units |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.

5. Assess student learning.
6. Develop as a professional educator.

# Department of Special Education

The Department of Special Education offers master's degree and credential programs for candidates seeking a California Preliminary Education Specialist Credential with either a mild/moderate or moderate/severe disabilities specialization authorizing them to teach in the public K-12 environment. All Preliminary Education Specialist Credential programs are approved by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>).

APU candidates are prepared to work in schools as education specialists. Candidates must demonstrate the content knowledge, pedagogical and professional knowledge, writing skills, and dispositions necessary to help all children learn. APU candidates are highly regarded in fulfilling these high professional standards. The department assesses all candidates from admission, throughout their program, and up to the recommendation of credentials. Assessments are used to evaluate and inform candidate learning and include the following assessment areas: CTC teacher performance expectations, APU student learning outcomes, and teacher candidate dispositions.

## Programs

### Master's

- Master of Arts in Education: Learning and Technology and Mild/Moderate Disabilities Education Specialist Credential (p. 863)
- Master of Arts in Education: Learning and Technology and Moderate/Severe Disabilities Education Specialist Credential (p. 865)
- Master of Arts in Education: Special Education and Mild/Moderate Disabilities Education Specialist Credential (p. 867)
- Master of Arts in Education: Special Education and Moderate/Severe Disabilities Education Specialist Credential (p. 869)

### Credentials

- Mild/Moderate Disabilities Education Specialist Credential (p. 871)
- Moderate/Severe Disabilities Education Specialist Credential (p. 873)

## Courses

### EDUC 540, Essentials in Learning and Technology, 1 Unit

This course focuses on introducing and developing proficiency with the essential skills necessary for the Master of Arts in Education: Learning and Technology emphasis. Students utilize a variety of applications and skills necessary for competency in the program. This course must be taken in the first term of the program.

**Prerequisite:** Admission into a M.A. in Education: Learning and Technology program: Mild/Moderate Disabilities Education Specialist Credential, Moderate/Severe Disabilities Education Specialist Credential, Multiple Subject Teaching or Single Subject Teaching Credential

### EDUC 546, Digital Communications, 3 Units

This course engages students in collaborative, investigative, and reflective learning opportunities through the exploration of relevant digital communication tools. Attention is given to current modes of communication that utilize a digital platform, and effective strategies for implementation within teaching/learning environments.

**Prerequisite:** EDUC 540

### EDUC 547, Special Topics in Educational Technology, 3 Units

Current technologies, trends, and a variety of special topics in educational technology are explored. This course covers practical and theoretical aspects, effectiveness, and problems related to the implementation of the topic into relevant teaching/learning environments. Different topics may be taken and repeated for credit.

**Prerequisite:** EDUC 540, or permission of program to take course as elective

### EDUC 548, Emerging Trends in Technology, 3 Units

This course covers the historical development of educational technology and the social issues influencing its growth and implementation. Attention is also given to a synthesis of research related to the field, professional organizations serving the discipline, and emerging innovative uses of educational technology.

**Prerequisite:** EDUC 540

### EDUC 549, Capstone Experience in Learning and Technology, 2 Units

The primary focus of this capstone experience is a research-designed multimedia eportfolio that showcases skills and concepts the student has acquired in the Master of Arts in Education: Learning and Technology program. This course incorporates each student's research, use of applied technologies in learning and technology, a growth assessment, a comprehensive eportfolio, and defense. The course must be taken at the end of the program, and passed in order to meet the final requirements for the master's degree.

**Prerequisite:** EDUC 540, EDUC 546, EDUC 547, and EDUC 548; may be taken concurrently: TEP 552, TEP 562, SPED 552, or SPED 572

## **SPED 500, Candidate Support and Supervision, 1-3 Units**

This course allows Special Education Teacher Candidates to complete unit requirements for their credential or degree program. Current educational practices and a variety of special topics in the field of special education are explored, and course material covers practical and theoretical aspects relevant to the teaching/learning environment. Special Education Intern Candidates may be required to take this course during their program in an effort to meet program requirements while receiving mandated supervision and support. This course may be repeated four (4) times for credit for a total of 4-12 units.

## **SPED 525, Methods of Teaching Reading and Writing, 3 Units**

This course prepares teacher candidates to implement a comprehensive literacy program of systematic instruction in reading, writing, listening, speaking, and language aligned with the California Common Core State Standards for English Language Arts and the English Language Arts/English Language Development Framework. Through application of research-based instructional practices, candidates learn specific ways to address the diverse needs of all students.

## **SPED 526, Specialized Academic Instruction: Reading, Writing, and Math, 3 Units**

This course introduces candidates to multifaceted and multitiered methodologies and strategies necessary for teaching and engaging diverse students with disabilities in mathematics and language arts. Candidates become proficient in making explicit connections between ongoing assessment, student characteristics and strengths, instruction, and curriculum. They learn to analyze data to plan effective and differentiated instruction and interventions, and also how to collaboratively design effective IEP goals while considering the role of technology in those goals.

## **SPED 528, Assessment and IEP Development, 3 Units**

This course examines current assessment mandates for students with mild to moderate to severe disabilities. Teacher candidates study test development and learn to evaluate assessment tools based on current research-based policies and mandates. Candidates also learn to administer and interpret norm-criterion reference assessment instruments and informal surveys or assessment instruments, and come to understand the influence of cultural and linguistic factors in the development of Individual Education Program (IEP) goals and Individual Transition Plans (ITPs).

**Corequisite:** SPED 551 or SPED 571

## **SPED 529, Positive Behavior Supports for Students with Exceptional Needs, 3 Units**

This course equips teacher candidates with the skills and legal framework essential to the development of positive behavior supports and self-management outcomes for students with disabilities. Candidates examine foundations of behavior disorders, appropriate communication, and behavioral support strategies that align with best practices. The foundations of functional analysis of behavior that leads to the development of positive behavior intervention plans are examined. Models of collaborative practices that lead to positive relationships and critical partnerships with students, families, educators, and agencies are investigated through skill development and self-analysis.

**Corequisite:** SPED 552 or SPED 572

## **SPED 551, Clinical Practice I: Mild to Moderate Disabilities, 2 Units**

Students with mild/moderate disabilities require specialized support to address unique learning needs resulting from a range of specific learning disabilities, mild intellectual disabilities, autism, other health impairments, or other identified disabilities for which placement in a classroom for students with mild/moderate disabilities is deemed appropriate. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with mild/moderate disabilities, conducting formal and informal assessments in order to determine students' current levels of performance, planning for students' grade and instructional levels, and capturing data to support progress on annual goals and short-term objectives that are aligned with California Content Standards. Candidates also monitor students' progress toward instructional goals and state-adopted standards, and, if necessary, identify behaviors impeding learning, and remediate by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English language learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

## **SPED 552, Clinical Practice II: Mild to Moderate Disabilities, 2 Units**

Students with mild/moderate disabilities require specialized support to address unique learning needs resulting from a range of specific learning disabilities, mild intellectual disabilities, autism, other health impairments, or other identified disabilities for which placement in a classroom for students with mild/moderate disabilities is deemed appropriate. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with mild/moderate disabilities, conducting formal and informal assessments in order to determine students' current levels of performance, planning for students' grade and instructional levels, and capturing data to support progress on annual goals and short-term objectives that are aligned with California Content Standards. Candidates also monitor students' progress toward instructional goals and state-adopted standards, and, if necessary, identify behaviors impeding learning, and remediate by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English language learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** SPED 551

## **SPED 571, Clinical Practice I: Moderate to Severe Disabilities, 2 Units**

Students with moderate/severe disabilities require specialized support to address unique learning needs resulting from a range of intellectual, behavioral, emotional, communication, sensory, autism spectrum disorder, and/or motor impairments. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in the students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with moderate/severe disabilities, conducting formal and informal assessments in order to determine students' current levels of performance, planning instructional-level annual goals and short-term objectives that are aligned with California Content Standards, monitoring students' progress toward instructional goals and short-term objectives, and identifying behaviors impeding learning and then remediating by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English language learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

## **SPED 572, Clinical Practice II: Moderate to Severe Disabilities, 2 Units**

Students with moderate/severe disabilities require specialized support to address unique learning needs resulting from a range of intellectual, behavioral, emotional, communication, sensory, autism spectrum disorder, and/or motor impairments. Teacher candidates, as part of their clinical practice, get on-site experience providing the support described in the students' Individualized Education Programs (IEPs). These experiences include, but are not limited to, creating an appropriate classroom physical environment for students with moderate/severe disabilities, conducting formal and informal assessments in order to determine students' current levels of performance, planning instructional-level annual goals and short-term objectives that are aligned with California Content Standards, monitoring students' progress toward instructional goals and short-term objectives, and identifying behaviors impeding learning and then remediating by implementing positive behavior supports. Candidates complete a semester of full-time, supervised student teaching in appropriate public school classrooms, with assignments in classroom grade levels K-12. Each placement provides teaching experiences with English language learners and ethnically diverse students. *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** SPED 571

## **TESP 501, Art of Teaching I: Foundations of Teaching, 3 Units**

This course provides an introduction to basic pedagogy, including classroom management, lesson planning and teaching, standards-based instruction, teaching strategies for students with diverse identities and needs, and the application of technology to support teaching and learning. Teacher candidates consider strategies, models, and processes for meeting the needs of a broad range of K-12 students, including special needs students, gifted students, English language learners, speakers of nondominant varieties of English, and students of all cultural or ethnic identities. This course is designed for direct application of classroom learning by candidates in a collaborative context that implements inclusion. Candidates examine Christian character and develop an understanding of grace in the Christian worldview as applied in classroom contexts, in consideration of meeting the needs of students and building community within the classroom. This course includes 15 hours of required field experience in a K-12 school.

## **TESP 502, Science of Teaching I: How Students Learn, 3 Units**

This course comprises a basic overview of human growth and development for all students in the K-12 environment. Teacher candidates identify how research on the neuroscience of learning, theories of learning, and student motivation affect current understanding of student development through the K-12 education experience. They then creatively and collaboratively investigate how this knowledge can enable them to meet the needs of all students, including underserved populations, English language learners, and individuals with diverse learning needs (from gifted learners to individuals with mild to severe disabilities). Candidates also examine their own cultural beliefs, attitudes toward diversity, and related assumptions, identifying how these might affect student learning and achievement in their classrooms. Candidates demonstrate applied knowledge of communication styles and strategies for fostering positive cross-cultural interactions among students who are diverse in terms of culture, language, and ability. Finally, candidates reflect on the need to support the development of all students from a Christian worldview. This course includes 15 hours of required field experience in a K-12 school. *Meets the General Education Requirement: Social Science.*

## **TESP 503, The Soul of Teaching: Tapestry of American Education, 3 Units**

This course introduces teacher candidates to the history of American education and a sampling of modern philosophies of education, examined through the lens of a Christian worldview. Specific consideration is given to the ways in which historical trends have contributed to today's education system, including how social and philosophical movements, as well as policy changes, have shaped the growth and inclusiveness of education in the U.S. Candidates reflect on the continued need for education equity for all students in U.S. schools, and explore inclusive practices for diverse populations, professional dispositions, teacher resiliency, and their role in perpetuating social justice in education. They engage culturally appropriate response strategies that enhance learning opportunities in a cross-cultural context, and identify how a Christian worldview enables and directs a commitment to principles of equity and justice in their practice. *Meets the General Education Requirement: Intercultural Competence.*

## **TESP 504, Schools and Educational Systems, 3 Units**

This course explores the legal, ethical, and organizational systems (federal, state, district, and school) within which teachers conduct their work. Teacher candidates engage in an examination of school and community cultures and their impact on learning, by focusing on the ways teachers communicate and collaborate with external and internal stakeholders to provide equitable access to all students. Additionally, contractual responsibilities and professional expectations are addressed. Candidates also consider the ways in which educators, from a Christian worldview, can advocate to transform social problems impacting school culture. *Meets the General Education Requirement: Civic Knowledge and Engagement.*

## **TESP 511, Art of Teaching II: Pedagogy and Instructional Design, 3 Units**

This course explores pedagogy as the combination of teachers' professional knowledge, skills, and abilities, which are directed to create effective learning opportunities and outcomes for all students in a range of contexts. Building on broad themes from TESP 501 Art of Teaching I, teacher candidates explore pedagogical methods and specific models for meeting individual student needs, utilizing universal and individualized strategies. Attention is given to culturally responsive teaching practices for learners with diverse cultural and ethnic identities, as well as differentiation practices for students with various learning needs. Candidates further analyze the relationship between curriculum, pedagogy, and assessment. Finally, candidates examine and reflect on the Christian worldview in relation to student diversity and developing a climate of equity and collaboration within classrooms. This course includes 15 hours of required field experience in a K-12 school.

**Prerequisite:** TESP 501

## **TESP 512, Science of Teaching II: Effective Assessment Strategies for All Learners, 3 Units**

This course explores strategies for designing standards and data-driven curricular plans and units to serve diverse student populations (e.g., culturally, linguistically, and/or ability-diverse learners). Teacher candidates engage in the administration and analysis of formative, summative, diagnostic assessment to inform the ongoing development of differentiated instruction that serves the unique academic needs of students from diverse, intersecting backgrounds and identities. In view of the academic achievement gap that exists in California K-12 schools, candidates utilize assessment results, alongside state frameworks and current standards specific to their specialization, in development of further curriculum/planning, instruction, and assessment cycles; these will demonstrate the use of instructional strategies, materials, technologies, and other resources to make content connected, contextualized, and accessible to all students. Candidates consider how a Christian worldview catalyzes their commitment to engage fully in the work of creating classrooms that meet the needs of all their students. This course includes 15 hours of required field experience in a K-12 school.

**Prerequisite:** TESP 502

# M.A. in Education: Learning and Technology and Mild/Moderate Disabilities Education Specialist Credential

Azusa Pacific University's Master of Arts in Education: Learning and Technology and Mild/Moderate Disabilities Education Specialist Credential program (<https://www.apu.edu/education/programs/masters-in-learning-technology-mild-moderate/>) prepares candidates to earn a Master of Arts in Education: Learning and Technology degree along with an embedded Mild/Moderate Disabilities Specialist Preliminary Credential. This program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the disabilities specialist credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Advanced coursework in the emphasis area of learning and technology provides candidates with the knowledge to effectively design and infuse technology-embedded curriculum into K-12 teaching and learning environments. The mode of delivery includes face-to-face instruction, campus-based classes, distance learning, online courses, and clinical experiences.

Approved by the California Commission on Teacher Credentialing (CTC) and the National Council for the Accreditation of Teacher Education (NCATE), which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP), Azusa Pacific University's Mild/Moderate Disabilities Education Specialist Credential program comprises specific methods courses that are accompanied by practical classroom applications and field experiences in public school assignments.

Upon completion, the candidate will have earned both a Mild/Moderate Disabilities Specialist Preliminary Credential and a Master of Arts in Education: Learning and Technology degree.

Check with the Division of Teacher Education (<http://www.apu.edu/education/teacher/>) for locations in which this program is offered.

## Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

| <b>Elective Courses <sup>3</sup></b> |   |              |
| EDTC 521                             | Digital Imagery for Learning Environments   | 3            |
| <b>Total Units <sup>4</sup></b>      |   | <b>46-49</b> |

- 1 These courses must be completed prior to beginning clinical practice.
- 2 May be taken for credit up to three times as an additional elective as long as topics are not repeated.
- 3 Elective courses can be used toward the master's degree only for the individual needing additional units to complete the degree. Elective courses cannot be used to replace foundation, specialization, or emphasis course requirements.
- 4 The program is designed to be completed with 46 units; the use of elective units to complete the degree may increase the unit total.

**NOTE:** A maximum of 8 units may be taken per 8-week session. Teacher candidates in master's degree programs who have opted to waive coursework must take additional units to fulfill the unit requirement. Completion of all credential requirements—including all examinations, coursework, and other requirements—must be met before the master's degree will be posted. An Intent to Commence and/or Graduate form (<http://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) must be completed and fees paid by the deadlines set by the registrar.

**NOTE:** Candidates who hold an intern credential must enroll in an intern support course (SPED 500) during each 8-week session (fall or spring) in which they are not enrolled in a clinical practice course.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

# M.A. in Education: Learning and Technology and Moderate/Severe Disabilities Education Specialist Credential

Azusa Pacific University's Master of Arts in Education: Learning and Technology and Moderate/Severe Disabilities Education Specialist Credential program (<https://www.apu.edu/education/programs/masters-in-learning-technology-moderate-severe/>) prepares candidates to earn a Master of Arts in Education: Learning and Technology degree along with an embedded Moderate/Severe Disabilities Specialist Preliminary Credential. This program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the disabilities specialist credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Advanced coursework in the emphasis area of learning and technology provides candidates with the knowledge to effectively design and infuse technology-embedded curriculum into K-12 teaching and learning environments. The mode of delivery includes face-to-face instruction, campus-based classes, distance learning, online courses, and field experiences.

Approved by the California Commission on Teacher Credentialing (CTC) and the National Council for the Accreditation of Teacher Education (NCATE), which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP), Azusa Pacific University's Moderate/Severe Disabilities Education Specialist Credential program comprises specific methods courses that are accompanied by practical classroom applications and clinical experiences in public school assignments.

Upon completion, the candidate will have earned both a Moderate/Severe Disabilities Specialist Preliminary Credential and a Master of Arts in Education: Learning and Technology degree.

Check with the Division of Teacher Education (<http://www.apu.edu/education/teacher/>) for locations in which this program is offered.

## Computer and Software Requirements

Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. Advanced coursework in the emphasis area of special education provides candidates with knowledge needed to serve students with disabilities in K-12 public schools. The mode of delivery includes face-to-face instruction, campus-based classes, distance learning, online courses, and clinical experiences.

Approved by the California Commission on Teacher Credentialing (CTC) and the National Council for the Accreditation of Teacher Education (NCATE), which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP), Azusa Pacific University's Moderate/Severe Disabilities Education Specialist Credential program comprises specific methods courses that are accompanied by practical classroom applications and field experiences in public school assignments.

Upon completion, the candidate will have earned a Moderate/Severe Disabilities Education Specialist Preliminary Credential and a Master of Arts in Education: Special Education degree.

Check with the Division of Teacher Education (<http://www.apu.edu/education/teacher/>) for locations in which this program is offered.

## Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

## Course Requirements

| Code                                 | Title   | Units        |
|--------------------------------------|---|--------------|
| <b>Foundation Courses</b>            |   |              |
| TESP 501                             | Art of Teaching I: Foundations of Teaching <sup>1</sup>                               | 3            |
| TESP 511                             | Art of Teaching II: Pedagogy and Instructional Design <sup>1</sup>                    | 3            |
| TESP 502                             | Science of Teaching I: How Students Learn <sup>1</sup>                                | 3            |
| TESP 512                             | Science of Teaching II: Effective Assessment Strategies for All Learners <sup>1</sup> | 3            |
| TESP 503                             | The Soul of Teaching: Tapestry of American Education                                  | 3            |

| SPED 528                             | Assessment and IEP Development  | 3            |
| SPED 529                             | Positive Behavior Supports for Students with Exceptional Needs                        | 3            |
| SPED 571                             | Clinical Practice I: Moderate to Severe Disabilities                                  | 2            |
| SPED 572                             | Clinical Practice II: Moderate to Severe Disabilities                                 | 2            |
| <b>Emphasis Courses</b>              |   |              |
| EDUC 550                             | Introduction to Research for Practitioners  | 1            |
| EDUC 556                             | Historical and Philosophical Perspectives of Disability Studies                       | 3            |
| EDUC 557                             | Current Trends in Curriculum and Disability Studies                                   | 3            |
| EDUC 558                             | Guided Research Project   | 3            |
| EDUC 559                             | Procedures and Findings   | 2            |
| <b>Elective Courses <sup>2</sup></b> |   |              |
| EDUC 547                             | Special Topics in Educational Technology <sup>3</sup>                                 | 3            |
| <b>Total Units <sup>4</sup></b>      |   | <b>46-49</b> |

- 1 These courses must be completed prior to beginning clinical practice.
- 2 Elective courses can be used toward the master's degree only for the individual needing additional units to complete the degree. Elective courses cannot be used to replace foundation, specialization, or emphasis course requirements.
- 3 May be taken for credit up to three times as an additional elective as long as topics are not repeated.
- 4 The program is designed to be completed with 46 units; the use of elective units to complete the degree may increase the unit total.

**NOTE:** A maximum of 8 units may be taken per 8-week session. Teacher candidates in master's degree programs who have opted to waive coursework must take additional units to fulfill the unit requirement. Completion of all credential requirements—including all examinations, coursework, and other requirements—must be met before the master's degree will be posted. An Intent to Commence and/or Graduate form (<http://www.apu.edu/graduateprofessionalcenter/registrar/forms/>) must be completed and fees paid by the deadlines set by the registrar.

**NOTE:** Candidates who hold an intern credential must enroll in an intern support course (SPED 500) during each 8-week session (fall or spring) in which they are not enrolled in a clinical practice course.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

# Mild/Moderate Disabilities Education Specialist Credential

Azusa Pacific University's Mild/Moderate Disabilities Education Specialist Credential (<https://www.apu.edu/education/programs/special-education-mild-moderate-credential/>) program prepares candidates to earn a California Mild/Moderate Disabilities Specialist Preliminary Credential. This rigorous program includes comprehensive foundation courses emphasizing teaching and educational methods, as well as specialization courses providing content required for the disabilities specialist credential. Practical classroom and fieldwork experiences provide application to theory, preparing candidates to teach in diverse settings. The mode of delivery includes face-to-face instruction, campus-based classes, distance learning, and clinical experiences.

## Computer and Software Requirements

Each student must have a Mac or PC laptop or notebook running the latest operating system with a word processing program and a stable internet connection.

## Course Requirements

| Code                          | Title   | Units |
|-------------------------------|---|-------|
| <b>Foundation Courses</b>     |   |       |
| TESP 501                      | Art of Teaching I: Foundations of Teaching <sup>1</sup>                               | 3     |
| TESP 511                      | Art of Teaching II: Pedagogy and Instructional Design <sup>1</sup>                    | 3     |
| TESP 502                      | Science of Teaching I: How Students Learn <sup>1</sup>                                | 3     |
| TESP 512                      | Science of Teaching II: Effective Assessment Strategies for All Learners <sup>1</sup> | 3     |
| TESP 503                      | The Soul of Teaching: Tapestry of American Education                                  | 3     |
| TESP 504                      | Schools and Educational Systems   | 3     |
| <b>Specialization Courses</b> |   |       |
| SPED 525                      | Methods of Teaching Reading and Writing   | 3     |
| SPED 526                      | Specialized Academic Instruction: Reading, Writing, and Math                          | 3     |
| SPED 528                      | Assessment and IEP Development  | 3     |
| SPED 529                      | Positive Behavior Supports for Students with Exceptional Needs                        | 3     |
| SPED 551                      | Clinical Practice I: Mild to Moderate Disabilities                                    | 2     |
| SPED 552                      | Clinical Practice II: Mild to Moderate Disabilities                                   | 2     |
| Total Units                   |   | 34    |

<sup>1</sup> These courses must be completed prior to beginning clinical practice.

**NOTE:** A maximum of 9 units may be taken per 8-week session. Completion of all credential requirements—including all examinations, coursework, and other requirements—must be met before the candidate will be recommended for a credential. Candidates should meet with their credential analyst (<http://www.apu.edu/education/resources/credentials/>) for information regarding the credential application process.

**NOTE:** Candidates who hold an Intern Credential must enroll in an intern support course (SPED 500) during each 8-week session (fall or spring) in which they are not enrolled in a clinical practice course.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

# Integrated Bachelor's/Credential Program

The Integrated Bachelor's/Credential (APU IBC) program provides an accelerated, rigorous education leading to a bachelor's degree and a preliminary California teaching credential. As part of this unique 3+1 model, students complete credential courses as undergraduates and work in the field alongside mentor-teachers throughout the credential portion of the program. At this time the APU IBC program is available only to the majors of allied health and math with a Single Subject Teaching Credential and the major of liberal studies with an Education Specialist (Special Education) Credential. The credential portion of the program is approved by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>) and accredited by the National Council for Accreditation of Teacher Education (NCATE), which is transitioning to the Council for the Accreditation of Educator Preparation (CAEP) (<http://www.caepnet.org/>).

The programs available are:

1. Bachelor of Science in Allied Health with Single Subject (Science) Teaching Credential (p. 77)
2. Bachelor of Arts in Liberal Studies with Mild/Moderate Disabilities Education Specialist Credential (p. 878)
3. Bachelor of Arts in Liberal Studies with Moderate/Severe Disabilities Education Specialist Credential (p. 878)
4. Bachelor of Arts in Mathematics with Single Subject (Math) Teaching Credential (p. 209)

## Program Details

During the first three years, students complete most of the requirements for their major and participate in undergraduate field experiences in public school classrooms. Students formally apply for admission to the School of Education during their junior year. In the summer between their junior and senior years, students begin taking graduate-level courses offered through the School of Education. Throughout the program, students participate in service-learning projects, field experiences, and clinical practice (student teaching) in area K-12 public schools. The clinical practice component requires 16 weeks of full-time student teaching. All field experiences and clinical practice experiences must take place in a K-12 public school located within 50 miles of Azusa or an APU regional campus. Students must have access to reliable transportation.

## Application to the Integrated Bachelor's/Credential Program

Admission to the School of Education is required for all students before they begin credential courses offered through the School of Education. Applications are available in the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>) in Room 168 of Building One on West Campus. Students may apply to the APU IBC program once they have completed at least 32 semester hours of undergraduate credit and before they complete at 96 hours of undergraduate credit. Students who wish to enroll in the APU IBC program and want to begin School of Education credential courses in the summer must submit the application and accompanying requirements (see list below) to the Office of Credentials by April 1; students who wish to begin credential courses in the fall must submit the application and accompanying requirements by July 1; students who wish to begin credential courses in the spring must submit the application and accompanying requirements by November 1.

In addition to completing the application form for admission to the School of Education, a student must submit the following items to the School of Education:

- A one- to two-page personal statement addressing the following topics: experiences from the applicant's background that enhance the teaching experience; the most rewarding and challenging aspects of working with youth; why the applicant wants to teach; preferred grade level and content areas and why; and how the applicant envisions supporting the success of all students and contributing to the profession.
- Proof of Certificate of Clearance (COC) (review instructions on Obtaining a Certificate of Clearance ([https://www.apu.edu/apply/pdfs/ed\\_certificate\\_clearance.pdf](https://www.apu.edu/apply/pdfs/ed_certificate_clearance.pdf))). Applicants are encouraged to begin this step early in their second year to allow time for processing by the California Commission on Teacher Credentialing.
- Proof that the Basic Skills Requirement has been satisfied.
- Two letters of recommendation.
- An interview with the credential program director or his/her designee.
- Admission to the APU IBC program is selective; among those accepted, the mean undergraduate GPA at time of application is 3.0+ with an SAT score of 993+ (2016 or earlier version) or 1490+ (2017 version), a composite ACT score of 20+, or a CBEST Reading subtest score of 50+ and Math subtest score of 52+.

International students must meet the following additional requirements:

- The admission requirement for international students with English as a second language (ESL) is a minimum TOEFL iBT score of 90 (22 on Reading, 22 on Listening, 22 on Speaking, and 24 on Writing) or IELTS score of 7.

During the first three years of the program, APU undergraduate students planning to participate in the APU IBC program are completing General Education requirements and degree major requirements for liberal studies, allied health, or math. Advising is coordinated by the degree major department. Once undergraduate students are admitted to the APU IBC program, the Office of Credentials advises them in regard to the California preliminary teaching credential and credential requirements.

## Credential Tracks

Program graduates earn a Preliminary California Teaching credential in one of the following:

### Special Education Track

This track prepares students to effectively teach individuals with special needs. Preliminary Education Specialist credentials are offered in the areas of:

- Mild/Moderate Disabilities which includes specific learning disabilities, mild to moderate intellectual disabilities, autism, other health impairment, and emotional disturbance
- Moderate/Severe Disabilities which includes autism, deaf-blindness, moderate to severe intellectual disabilities, multiple disabilities, and emotional disturbance

### Single Subject Track

This track prepares students to teach at the middle/high school level (6-12). Preliminary Single Subject credentials that can currently be completed via the APU IBC program are Math and Science. The School of Education offers the graduate Single Subject Credential program in additional subject areas. Please visit the Division of Teacher Education section of the Graduate Catalog for additional information.

## Clinical Practice Clearance

The following requirements must be met before undergraduate students may progress to clinical practice (student teaching).

Applications for clinical practice must be submitted to the Office of Student Placements by April 10 for the fall semester and September 10 for the spring semester. Students must also submit the following to the Office of Student Placements by April 30 for fall semester and September 30 for spring semester:

- Transcript(s) demonstrating successful completion of at least 110 undergraduate units and an undergraduate GPA of 3.0 or higher
- Recommendation letter from the undergraduate major advisor confirming student is on track to graduate at the conclusion of the clinical practice semester
- Verification of successful completion of the Basic Skills Requirement
- TB test that will be current throughout clinical practice
- Certificate of Clearance or other appropriate CTC-issued document that will be valid throughout the clinical practice semester
- Proof of U.S. Constitution coursework or exam
- Original, passing CSET exams or official verification of completion of four-fifths of a CTC-approved subject-matter program confirmed by a credential analyst (note: CSET subtest exams expire 10 years from their administration date unless the score is used for recommendation of an intern credential or above)

Clinical practice courses are taken as Credit (*CR*)/No Credit (*NC*). Students who earn an *NC* grade are required to meet with their program director to identify knowledge, skills, and/or dispositions that may need strengthening and develop a performance improvement plan. Students will not receive another placement for clinical practice until after they have met with their program director and received their performance improvement plan. Students who earn an *NC* grade will be placed on probation and given one enrollment period to demonstrate satisfactory progress according to the terms of the improvement plan. Students who do not meet the standards for satisfactory progress after a probation period may be dismissed from the credential program.

Students are expected to successfully complete their culminating clinical practice courses at first attempt. On rare occasions, students with unsuccessful first attempts will be eligible to petition the Division of Teacher Education to repeat the course, but a successful petition is required for a student to repeat. A culminating clinical practice course can be repeated only once.

Students who earn an *NC* grade in a culminating clinical practice, fieldwork, or internship experience as a result of a lapse in professional responsibility, integrity, or ethical conduct may not be eligible to petition to repeat the course for which they received the nonpassing grade.

## Credential Application

To be eligible for a credential, students must demonstrate the following:

- Conferral of a bachelor's degree in allied health, liberal studies, or math
- Successful completion of credential coursework (i.e., competency on each student learning outcome and a course grade of *B-* or better)
- Evaluation of Taskstream assignments
- Proficiency in the Teaching Performance Expectations (TPEs)
- Passage of all state-required examinations (RICA is required for students who wish to become certified for teaching special education; CalTPA is required for students who wish to become certified for teaching a single subject [math or science])
- Successful completion of CPR for infants, children, and adults

- Successful completion of an Induction Individual Development Plan approved by the program director
- Completion of all other credential requirements

It is the student's responsibility to submit a credential application through the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>) upon completion of a credential program to receive their California preliminary teaching credential. This request may be submitted to the office up to one month before completion of all credential requirements.

## Program Expectations

- Students in the APU IBC program prepare to work in schools as educators. They must demonstrate the content, pedagogy, and writing skills and dispositions required for the profession. Therefore, the School of Education assesses students, in academic and dispositional standards, from the time of admission to the program through recommendation of credential.
- Students are expected to maintain a high level of professional and ethical behavior throughout the program; failure to do so may result in discipline up to and including dismissal from the program.
- Students must be covered by professional liability insurance during the semesters in which they are participating in field experience and clinical practice.
- Students participating in field experience and clinical practice who are driving onto K-12 school sites must have proof of auto insurance.
- Students are required to have and maintain a valid Certificate of Clearance (COC) from their time of admission to the program through recommendation of credential. Students who allow their COC to expire will be prevented from enrolling in future terms until they once again have a valid COC.
- Students are required to ensure access to an active Taskstream account, enrollment in the correct Directed Response Folio for the APU IBC program, and submission of assignments and other required documents to the correct evaluator by published deadlines in Taskstream. Students failing to submit the signature assignment for courses in Taskstream by the last day of the session will receive a nonpassing grade in the course. Successful submission of Taskstream items is required for recommendation for a credential to the California Commission on Teacher Credentialing (CTC).
- Students must earn a *B-* or better in all credential coursework. Students who earn a *C+* or below must retake the course for the course to be used toward credential requirements, and must meet with their academic advisor for a revised course sequence plan before progressing in the program.
- All standards and requirements for the credential portion of the program are subject to CTC, NCATE (transitioning to CAEP), and federal policy changes, and these supersede catalog descriptions of prior programs and requirements.

An integrated bachelor's/credential is granted based on the completion of all requirements. If a student does not complete all requirements, as indicated in the Graduation Clearance Pending letter, within two years of filing their graduation application, he or she will be subject to automatically having their stand-alone degree posted. If the remaining requirements for the stand-alone degree are not completed by the deadline, the student will be subject to policies governing reentering students, and a new catalog year will apply.

# B.A. in Liberal Studies with Integrated Credential

In this program, students earn a Bachelor of Arts in Liberal Studies and a mild/moderate or moderate/severe disabilities education specialist credential in a total of four years. Full program details and requirements are available on the Integrated Bachelor's/Credential Program (p. 875) page of this catalog.

## Requirements

| Code  | Title  | Units |
|---|--|-------|
| <b>Liberal Studies Major Requirements</b>     |  |       |
| COMM 111                                      | Public Communication <sup>1</sup>                            | 3     |
| FFL 121                                       | Fitness for Life: Dance for the Theater <sup>2</sup>         | 2     |
| MATH 110                                      | College Algebra <sup>3</sup>                                 | 3     |
| BIOL 101                                      | Biology and Society <sup>4</sup>                             | 4     |
| ENGL 111                                      | Studies in Literature <sup>5</sup>                           | 3     |
| HIST 121                                      | World Civilizations Since 1648 <sup>6</sup>                  | 3     |
| PHYC 115                                      | Physical Science for Teachers                                | 3     |
| PHYC 125                                      | Earth Science Concepts and Applications                      | 3     |
| THTR 115                                      | Introduction to Theater <sup>7, F</sup>                      | 3     |
| HIST 201                                      | World Civilizations and Geography to 1648                    | 3     |
| HIST 338                                      | History of California  | 3     |
| ENGL 402                                      | Principles of Language                                       | 3     |
| <b>Core Requirements <sup>8</sup></b>         |  |       |
| Select one of the following:                  |  | 4     |
| EDLS 200                                      | Introduction to Teaching as a Profession K-12 <sup>9</sup>   |       |
| EDLS 202                                      | Introduction to Teaching as a Profession (7-12) <sup>9</sup> |       |
| HIST 202                                      | United States History to 1930 <sup>10</sup>                  | 3     |
| MATH 201                                      | Mathematics Concepts for Elementary Teachers                 | 3     |
| PSYC 290                                      | Human Growth and Development <sup>11</sup>                   | 3     |
| ART 310                                       | Fundamental Art Experiences <sup>7</sup>                     | 3     |
| BIOL 400                                      | Science and Children   | 4     |
| EDLS 405                                      | Diversity in the Classroom <sup>12</sup>                     | 3     |
| EDLS 495                                      | Foundations of Education Capstone <sup>13</sup>              | 3     |
| EDLS 496                                      | Writing 3: Education and Professional Ethics <sup>14</sup>   | 3     |
| ENGL 434                                      | Children's Literature  | 3     |
| MUS 432                                       | Music in the Elementary Schools                              | 3     |
| PE 450  | Physical Education in Elementary Schools, K-6                | 3     |
| <b>Concentrations</b>                         |  |       |
| Select one concentration from the list below. |  | 12-20 |
| Total Units                                   |  | 86-94 |

<sup>1</sup> Meets the General Education Oral Communication requirement.

<sup>2</sup> Meets the General Education Fitness for Life requirement.

<sup>3</sup> Meets the General Education Quantitative Literacy requirement.

<sup>4</sup> Meets the General Education Natural Sciences requirement.

<sup>5</sup> Meets the General Education Humanities: Literature requirement.

<sup>6</sup> Meets the General Education Humanities: History requirement.

<sup>7</sup> Meets the General Education Humanities: Fine Arts requirement.

<sup>8</sup> The 38 units of core coursework must be completed with a grade of C or higher and an overall GPA of 3.0 or higher.

<sup>9</sup> Meets the General Education Civic Knowledge and Engagement requirement.

- <sup>10</sup> California Education Code Section 44335 requires all candidates for a Teaching Credential to demonstrate knowledge of the United States Constitution by completing a college-level course or a college-level examination in the subject; successful completion of either with a grade of C or higher meets this California Education Code requirement.
- <sup>11</sup> Meets the General Education Social Sciences requirement.
- <sup>12</sup> Meets the General Education Intercultural Competence requirement.
- <sup>13</sup> Meets the General Education Integrative and Applied Learning requirement.
- <sup>14</sup> Meets the General Education Writing 3 requirement.
- F Offered in fall semester only.
- S Offered in spring semester only.

## Art Concentration

| Code                             | Title   | Units |
|----------------------------------|---|-------|
| <b>Required Courses</b>          |   |       |
| ART 145                          | Drawing I   | 3     |
| ART 146                          | Painting I  | 3     |
| Select one of the following:     |   | 3     |
| ART 354                          | History of Ancient Art and Architecture (Fall Semester Only) <sup>1, F</sup>                      |       |
| ART 356                          | Writing 3: History of Modern Art and Architecture <sup>2</sup>                                    |       |
| ART 357                          | History of Contemporary Art and Architecture (Spring Semester Only) <sup>1, S</sup>               |       |
| ART 361                          | History of Early Christian and Medieval Art and Architecture (Fall Semester Only) <sup>1, F</sup> |       |
| ART 362                          | History of Renaissance to Rococo Art and Architecture (Spring Semester Only) <sup>1, S</sup>      |       |
| Select one of the following:     |   | 3     |
| ART 105                          | Ceramics I <sup>1</sup>   |       |
| ART 403                          | Multicultural Art (Fall Semester Only) <sup>1, F</sup>  |       |
| <b>Upper-division Elective</b>   |   |       |
| DGSN 430                         | Applied Design (Spring Semester Only) <sup>3, S</sup>   | 1-4   |
| or any upper-division ART course |   |       |
| Total Units                      |   | 13-16 |

- <sup>1</sup> Meets the General Education Humanities: Fine Arts requirement.
- <sup>2</sup> Meets the General Education Writing 3 requirement.
- <sup>3</sup> Students who take ART 105 will need 4 units of an upper-division art elective.
- F Offered in fall semester only.
- S Offered in spring semester only.

## English Concentration

| Code                         | Title  | Units |
|------------------------------|--|-------|
| <b>Required Courses</b>      |  |       |
| ENGL 404                     | Approaches to Grammar (prerequisite of ENGL 402) <sup>F</sup>                        | 3     |
| ENGL 406                     | Writing 3: Advanced Composition <sup>1</sup>   | 3     |
| Select one of the following: |  | 3     |
| ENGL 224                     | World Literature to the Renaissance (Fall Semester Only) <sup>2, F</sup>             |       |
| ENGL 234                     | World Literature Since the Renaissance (Spring Semester Only) <sup>2, S</sup>        |       |
| ENGL 244                     | American Literature to 1865 (Fall Semester Only) <sup>2, F</sup>                     |       |
| Select one of the following: |  | 3     |
| ENGL 254                     | American Literature Since 1865 (Spring Semester Only) <sup>2, S</sup>                |       |
| ENGL 377                     | Shakespeare (Fall Semester Only) <sup>2, F</sup>                                     |       |
| ENGL 410                     | American Novel (Even Fall Semester Only) <sup>EF</sup>                               |       |
| ENGL 435                     | Social and Psychological Aspects of Language (Even Fall Semester Only) <sup>EF</sup> |       |
| Total Units                  |  | 12    |

- <sup>1</sup> Meets the General Education Writing 3 requirement.
- <sup>2</sup> Meets the General Education Humanities: Literature requirement.

F Offered in fall semester only.

EF Offered every even-year fall semester only.

## Math Concentration

See the Department of Mathematics, Physics, and Statistics (p. 195) for updated schedules.

Note: Students must begin their mathematics coursework at the level for which they qualify as determined by their SAT/ACT score, previous university coursework, or the APU mathematics placement assessment. Some students will require one or more courses prior to calculus.

| Code                         | Title   | Units |
|------------------------------|---|-------|
| <b>Required Courses</b>      |   |       |
| MATH 110                     | College Algebra <sup>1,2</sup>  | 3     |
| MATH 165                     | Calculus I  | 3     |
| MATH 280                     | Discrete Mathematics and Proof (Prerequisite of MATH 165) <sup>F</sup>                          | 3     |
| MATH 340                     | Geometry (Prerequisite of MATH 166; ask dept. for prereq code) <sup>S</sup>                     | 3     |
| Choose one of the following: |   | 3     |
| MATH 130                     | Introduction to Statistics <sup>2</sup>   |       |
| MATH 361                     | Probability and Statistics I (Prerequisite of MATH 166; ask dept. for prereq code) <sup>S</sup> |       |
| Choose one of the following: |   | 3     |
| MATH 166                     | Calculus II   |       |
| MATH 250                     | Data Analysis <sup>F</sup>  |       |
| MATH 268                     | Multivariable Calculus  |       |
| MATH 270                     | Ordinary Differential Equations <sup>S</sup>  |       |
| MATH 290                     | Linear Algebra <sup>3, S</sup>  |       |
| MATH 295                     | Applied Linear Algebra <sup>3, F</sup>  |       |
| MATH 390                     | Number Theory <sup>OF</sup>   |       |
| Total Units                  |   | 18    |

<sup>1</sup> Students who waive MATH 110 and do not receive the units must make up the 3 units with an extra elective.

<sup>2</sup> Meets the General Education Quantitative Literacy requirement.

<sup>3</sup> It is not permitted to count both MATH 290 and MATH 295 toward the math concentration.

F Offered in fall semester only.

S Offered in spring semester only.

OF Offered every odd-year fall semester only.

## Music Concentration

| Code                           | Title  | Units |
|--------------------------------|--|-------|
| <b>Required Courses</b>        |  |       |
| MUS 101                        | Beginning Voice Class  | 1     |
| MUS 103                        | Beginning Piano Class <sup>1</sup>                                 | 1     |
| MUS 104                        | Elementary Piano Class <sup>1</sup>                                | 1     |
| MUS 110                        | Elementary Guitar Methods  | 1     |
| MUS 121                        | Music Theory I <sup>2</sup>  | 3     |
| MUS 122                        | Music Theory II  | 3     |
| MUS 133                        | Practical Musicianship I   | 1     |
| MUS 134                        | Practical Musicianship II  | 1     |
| MUS 201                        | Introduction to World Music <sup>3</sup>                           | 3     |
| Choose one from the following: |  | 3     |
| MUS 350                        | History and Literature of Commercial Music <sup>F</sup>            |       |
| MUS 351                        | Ancient, Renaissance, and World Music Literature                   |       |
| MUS 352                        | Writing 3: Baroque, Classical, and Early Romantic Music Literature |       |
| MUS 455                        | Late Romantic and 20th-Century Music Literature                    |       |
| Total Units                    |  | 18    |

- <sup>1</sup> Or 1 unit for each Applied Piano (permission by audition only).  
<sup>2</sup> Meets the General Education Humanities: Fine Arts requirement.  
<sup>3</sup> Meets the General Education Intercultural Competence requirement.  
F Offered in fall semester only.

### Physical Education Concentration Option I <sup>1</sup>

| Code        | Title  | Units |
|-------------|--|-------|
| KIN 242     | Fundamental Principles of Fitness                                      | 3     |
| KIN 290     | Human Movement Science   | 3     |
| KIN 306     | Sociological and Psychological Aspects of Physical Activity and Sport  | 3     |
| PE 237      | Methods of Teaching Rhythmic and Multicultural Activities <sup>S</sup> | 3     |
| PE 250      | Methods of Teaching Individual Sports <sup>F</sup>                     | 2     |
| PE 252      | Methods of Teaching Team Sports <sup>S</sup>                           | 3     |
| PE 452      | Adapted Physical Education (prerequisite of KIN 290 and PE 450)        | 3     |
| Total Units |  | 20    |

- <sup>1</sup> Courses must be taken in sequence (200 before 300, 300 before 400).  
S Offered in spring semester only.  
F Offered in fall semester only.

### Physical Education Concentration Option II <sup>1</sup>

| Code                         | Title  | Units |
|------------------------------|--|-------|
| Select one of the following: |  | 3     |
| PE 325                       | Motor Development and Learning   |       |
| KIN 290                      | Human Movement Science   |       |
| PE 451                       | Methods in Physical Education: 7-12 <sup>2</sup>   | 3     |
| PE 452                       | Adapted Physical Education   | 3     |
| PE 600                       | Physical Education Teaching Methods for Individuals with Mild to Moderate Disabilities   | 3     |
| PE 602                       | Physical Education Teaching Methods for Individuals with Severe to Profound Disabilities | 3     |
| PE 605                       | Management of Adapted Physical Education Programs  | 3     |
| Total Units                  |  | 18    |

- <sup>1</sup> Courses must be taken in sequence (200 before 300, 300 before 400).  
<sup>2</sup> Meets the General Education Integrative and Applied Learning requirement.

### Psychology Concentration (School Psychology)

PSYC 290 and MATH 130 are prerequisite courses for the upper-division courses in this concentration.

| Code        | Title  | Units |
|-------------|--|-------|
| MATH 130    | Introduction to Statistics <sup>1</sup>                              | 3     |
| PSYC 305    | Educational Psychology (Fall Semester Only) <sup>F</sup>             | 3     |
| PSYC 345    | Psychology of Child and Adolescent Development <sup>2</sup>          | 3     |
| PSYC 360    | Abnormal Psychology  | 3     |
| PSYC 410    | Psychology of Exceptional Children (Fall Semester Only) <sup>F</sup> | 3     |
| Total Units |  | 15    |

- <sup>1</sup> Meets the General Education Quantitative Literacy requirement.  
<sup>2</sup> Meets the General Education Social Sciences requirement.  
F Offered in fall semester only.  
S Offered in spring semester only.

## Science Concentration Option I

| Code        | Title   | Units |
|-------------|---|-------|
| BIOL 151    | General Biology I <sup>1</sup>  | 4     |
| BIOL 152    | General Biology II  | 4     |
| CHEM 123    | General, Organic, and Biological Chemistry for the Health Sciences <sup>1</sup> | 4     |
| PHYC 140    | Introduction to Astronomy <sup>1</sup>  | 4     |
| PHYC 151    | Physics for Life Sciences I <sup>1</sup>  | 4     |
| Total Units |   | 20    |

<sup>1</sup> Meets the General Education Natural Sciences requirement.

## Science Concentration Option II

| Code        | Title   | Units |
|-------------|---|-------|
| BIOL 250    | Human Anatomy   | 4     |
| BIOL 251    | Human Physiology  | 4     |
| CHEM 123    | General, Organic, and Biological Chemistry for the Health Sciences <sup>1</sup> | 4     |
| PHYC 151    | Physics for Life Sciences I <sup>1</sup>  | 4     |
| Total Units |   | 16    |

<sup>1</sup> Meets the General Education Natural Sciences requirement.

## Social Science Concentration

| Code                         | Title  | Units |
|------------------------------|--|-------|
| POLI 150                     | American Government <sup>1, 2</sup>              | 3     |
| Select one of the following: |  | 3     |
| HIST 320                     | Modern Africa                                    |       |
| HIST 392                     | Colonial Latin America                           |       |
| HIST 393                     | Ritual and Re-enactment in Modern Latin America  |       |
| POLI 320                     | Comparative Politics                             |       |
| Select two of the following: |  | 6     |
| HIST 334                     | History of American Foreign Affairs <sup>S</sup> |       |
| HIST 350                     | Medieval Europe <sup>F</sup>                     |       |
| HIST 352                     | Renaissance and Reformation                      |       |
| HIST 357                     | Enlightenment Europe                             |       |
| HIST 358                     | Europe 1789-1914                                 |       |
| HIST 359                     | Europe 1914-1992                                 |       |
| HIST 374                     | Colonial Era                                     |       |
| HIST 380                     | Civil War and Reconstruction                     |       |
| HIST 386                     | Modern America                                   |       |
| HIST 389                     | Modern American Intellectual History             |       |
| Total Units                  |  | 12    |

<sup>1</sup> Meets the General Education Civic Knowledge and Engagement requirement.

<sup>2</sup> California Education Code Section 44335 requires all candidates for a Teaching Credential to demonstrate knowledge of the United States Constitution by completing a college-level course or a college-level examination in the subject; successful completion of either with a grade of C or higher meets this California Education Code requirement.

<sup>S</sup> Offered in spring semester only.

<sup>F</sup> Offered in fall semester only.

## Spanish Concentration

| Code     | Title   | Units |
|----------|---|-------|
| SPAN 201 | Intermediate Spanish I (Fall Semester Only) <sup>F</sup>    | 3     |
| SPAN 202 | Intermediate Spanish II (Spring Semester Only) <sup>S</sup> | 3     |

|                              |   |    |
|------------------------------|---|----|
| SPAN 301                     | Spanish Conversation and Community <sup>1, 2, F</sup>   | 3  |
| WRIT 204                     | Writing 2: Writing for the Humanities in Spanish (Spring Semester Only) <sup>3, S</sup>               | 3  |
| Select one of the following: |   | 3  |
| SPAN 432                     | Literary Masters (Fall Semester Only) <sup>4 &amp; F</sup>  |    |
| SPAN 460                     | Writing 3: Survey of the Literature of the Spanish-speaking World (Spring Semester Only) <sup>5</sup> |    |
| Total Units                  |   | 15 |

<sup>1</sup> SPAN 101, SPAN 102, SPAN 201, and SPAN 202 are prerequisites for 300-level SPAN courses.

<sup>2</sup> Meets the General Education Intercultural Competence requirement.

<sup>3</sup> Meets the General Education Writing 2 requirement.

<sup>4</sup> Meets the General Education Humanities: Literature requirement.

<sup>5</sup> Meets the General Education Writing 3 requirement.

F Offered in fall semester only.

S Offered in spring semester only.

## Human Development (Special Education) Concentration

| Code        | Title   | Units |
|-------------|---|-------|
| EDLS 303    | Introduction to Special Populations <sup>F</sup>          | 3     |
| EDLS 304    | Introduction to Teaching Special Populations <sup>S</sup> | 3     |
| PSYC 410    | Psychology of Exceptional Children                        | 3     |
| PSYC 430    | Intervention Strategies with Children                     | 3     |
| Total Units |   | 12    |

F Offered in fall semester only.

S Offered in spring semester only.

## Mild/Moderate Credential Requirements

The only concentration offered with the Integrated Bachelor's/Credential Program is Special Education.

| Code                          | Title   | Units |
|-------------------------------|---|-------|
| <b>Foundation Courses</b>     |   |       |
| TESP 501                      | Art of Teaching I: Foundations of Teaching <sup>1</sup>                               | 3     |
| TESP 511                      | Art of Teaching II: Pedagogy and Instructional Design <sup>1</sup>                    | 3     |
| TESP 502                      | Science of Teaching I: How Students Learn <sup>1</sup>                                | 3     |
| TESP 512                      | Science of Teaching II: Effective Assessment Strategies for All Learners <sup>1</sup> | 3     |
| TESP 503                      | The Soul of Teaching: Tapestry of American Education                                  | 3     |
| TESP 504                      | Schools and Educational Systems   | 3     |
| <b>Specialization Courses</b> |   |       |
| SPED 525                      | Methods of Teaching Reading and Writing   | 3     |
| SPED 526                      | Specialized Academic Instruction: Reading, Writing, and Math                          | 3     |
| SPED 528                      | Assessment and IEP Development  | 3     |
| SPED 529                      | Positive Behavior Supports for Students with Exceptional Needs                        | 3     |
| SPED 551                      | Clinical Practice I: Mild to Moderate Disabilities                                    | 2     |
| SPED 552                      | Clinical Practice II: Mild to Moderate Disabilities                                   | 2     |
| Total Units                   |   | 34    |

<sup>1</sup> These courses must be completed prior to beginning clinical practice.

## Moderate/Severe Credential Requirements

The only concentration offered with the Integrated Bachelor's/Credential Program is Special Education.

| Code                      | Title   | Units |
|---------------------------|---|-------|
| <b>Foundation Courses</b> |   |       |
| TESP 501                  | Art of Teaching I: Foundations of Teaching <sup>1</sup> | 3     |

|                               |   |    |
|-------------------------------|---|----|
| TESP 511                      | Art of Teaching II: Pedagogy and Instructional Design <sup>1</sup>                    | 3  |
| TESP 502                      | Science of Teaching I: How Students Learn <sup>1</sup>                                | 3  |
| TESP 512                      | Science of Teaching II: Effective Assessment Strategies for All Learners <sup>1</sup> | 3  |
| TESP 503                      | The Soul of Teaching: Tapestry of American Education                                  | 3  |
| TESP 504                      | Schools and Educational Systems   | 3  |
| <b>Specialization Courses</b> |   |    |
| SPED 525                      | Methods of Teaching Reading and Writing   | 3  |
| SPED 527                      | Teaching Students with Moderate to Severe Disabilities                                | 3  |
| SPED 528                      | Assessment and IEP Development  | 3  |
| SPED 529                      | Positive Behavior Supports for Students with Exceptional Needs                        | 3  |
| SPED 571                      | Clinical Practice I: Moderate to Severe Disabilities                                  | 2  |
| SPED 572                      | Clinical Practice II: Moderate to Severe Disabilities                                 | 2  |
| Total Units                   |   | 34 |

<sup>1</sup> These courses must be completed prior to beginning clinical practice.

## Program Learning Outcomes

### Liberal Studies Major

#### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Analyze and demonstrate proficiency in subject matter required of K--8 teachers by the State of California.
2. Integrate K--8 curriculum concepts and disciplines.
3. Define teaching methods of instruction using best practices with a Christian perspective.
4. Understand aspects of cultural diversity within the context of the classroom.
5. Identify a distinctive Christian perspective compared to a secular perspective as it pertains to current education issues.

## Integrated Credential

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Engage and support all students in learning.
2. Create and maintain effective environments for student learning.
3. Understand and organize subject matter for student learning.
4. Plan instruction and design learning experiences for all students.
5. Assess student learning.
6. Develop as a professional educator.

# Steps to a Credential

The three major steps to completing a Preliminary Teaching Credential through APU's teacher preparation programs are described as follows. Credential candidates should refer to the DTE Teacher Candidate Handbook for further details.

- Step 1: Admission (p. 886)
- Step 2: Clinical Practice Clearance (p. 888)
- Step 3: Credential Application (p. 889)

## Credential Requirements

All candidates must meet the following requirements to be considered for a Multiple Subject or Single Subject Preliminary Teaching Credential or a Mild/Moderate or Moderate/Severe Disabilities Education Specialist Preliminary Credential:

1. Successful completion of all coursework (note: all candidates must earn a *B-* or better in all coursework. Candidates who earn below a *B-* must retake the course and meet with their academic advisor for a revised course sequence plan before progressing in the program. All admitted candidates must maintain a cumulative GPA of 3.0. Candidates who do not meet the above requirements will be reviewed for dismissal from the program).
2. Completion of each of the following program requirements:
  - U.S. Constitution requirement (course or exam)
  - Verification of subject-matter competency (CSET exam or completion of a state-approved subject-matter program; note: once students pass a subtest of the CSET, they do not have to take that subtest again as long as they use the score to earn certification within 10 years of the test date on which it was achieved)
  - Verification of tuberculosis clearance
  - Continuing verification from instructors of positive dispositions characteristic of the teaching profession (emotional stability, strong interpersonal relations, good mental and physical health, and other character standards listed on the application)
  - Receipt of favorable results of Certificate of Clearance (**note: candidates must report any changes in character standings, including unresolved issues with the law and/or CTC, to their credential analyst; failure to do so may result in expulsion from the program**)
3. Successful completion of fieldwork and clinical practice. Traditionally, clinical practice is met through student teaching with a master teacher, but candidates who hold a contracted teaching position may request approval to complete clinical practice in their own classrooms.
4. Prior to applying for a preliminary credential, candidates must:
  - Verify successful completion of CPR for infants, children, and adults.
  - Verify successful completion of all assessments and forms required in the Division of Teacher Education's assessment system (Taskstream by Watermark).
  - Multiple Subject and Single Subject Credential candidates must submit and pass Instructional Cycle 1 and Instructional Cycle 2 of the California Teaching Performance Assessment (CalTPA) as required by CTC.
  - Mild/Moderate and Moderate/Severe Credential candidates must submit and successfully remediate any nonpassing or no-score results of the CalTPA Instructional Cycle 1 and Instructional Cycle 2
  - Multiple Subject and Special Education Credential candidates must show proof of passage of the Reading Instruction Competence Assessment (RICA).
  - All candidates must complete an Individual Development Plan (IDP) that is approved by the program director.

Contact a credential analyst (<http://www.apu.edu/education/resources/credentials/>) for information on applying for a preliminary credential after the above requirements have been completed. Your credential analyst will provide information needed to complete your credential application. Preliminary credentials are valid for five years and are nonrenewable. A Clear Credential is obtained through a CTC-approved induction program with either a California local education agency (e.g., public school district, county office of education) or California institution of higher education.

# Step 1: Admission

## General Requirements

All programs within the Division of Teacher Education require the following:

- A completed graduate application for admission
- A \$45 nonrefundable application fee (not required of students previously admitted to a graduate program at Azusa Pacific University)
- Official transcripts from all institutions leading to, and awarding, the applicant's baccalaureate degree and all postbaccalaureate study
- A minimum baccalaureate or master's grade-point average of 3.0 on a 4.0 scale. Provisional admittance may be granted to individuals with a grade-point average between 2.5 and 2.9.
- Two letters of recommendation
- A personal statement or essay
- A valid California Certificate of Clearance (COC) or other appropriate and valid document from CTC

Note: University graduate admission and program acceptance requirements must be met before an application is complete (see Admission to the University (p. 1229)). (<http://catalog.apu.edu/graduateprofessional/admission-policies/graduate-admission-university/>)

## Program-Specific Requirements

In addition to the general requirements listed above, each program has specific requirements. See program descriptions listed within this catalog for additional information.

Departments reserve the right to change the admission process and requirements. Students who are in continuous enrollment status are subject to the requirements in effect at the time of their initial enrollment.

## Teaching Credential Programs

- Verification of successful completion of the California Basic Skills Requirement via one of the following options:
  - Pass the California Basic Educational Skills Test (CBEST)
  - Pass the CSET: Multiple Subjects plus the CSET: Writing Skills Examination (CSET 101, 103, 142, and 214 [previously 102]). This option is useful for students in Multiple Subject and Special Education programs.
  - Demonstrate proficiency on the California State University (CSU) Early Assessment Program
  - Demonstrate proficiency on the CSU Placement Examinations
  - Pass a Basic Skills Examination from another state
  - Achieve the minimum acceptable scores on the College Board SAT examination
  - Achieve the minimum acceptable scores on the ACT examination
  - Achieve the minimum acceptable scores on selected College Board Advanced Placement (AP) examinations
- Programs admit only candidates who meet one of the following subject-matter admission requirement options:
  - Candidates must provide evidence of having passed the appropriate CSET subject-matter examination(s).
  - Candidates must provide evidence of registration for at least one of the next scheduled CSET examinations. (This option is only available to applicants to a master's degree program with credential embedded.)
  - Candidates must provide evidence of having completed a CTC-approved subject-matter preparation program (subject-matter waiver).
  - Note for Single Subject Teaching Credential candidates: The Single Subject Teaching Credential program is offered in the subject areas of Art, Business, English, Mathematics, Music, Physical Education, Science, Social Science, and World Languages. Subject matter must be met for one of these subject areas.
  - Note for Special Education Credential candidates: Subject matter must be met in Art, English, Mathematics, Multiple Subjects, Music, Science, Social Science, or World Languages.
- A percentage of candidates will also be required to interview with the program director or his/her designee prior to an admission decision.

Questions about successful completion of the Basic Skills Requirement or subject-matter requirement should be directed to the Office of Credentials. (<https://www.apu.edu/education/resources/credentials/>) Candidates must be advised by a designated faculty member as part of an admission interview prior to enrollment in the program. This occurs after the admission application has been completed and reviewed by the Office of Credentials for any missing program-required documentation and verification of the Certificate of Clearance. Candidates will be notified by the department when an interview appointment may be scheduled.

## **International Students**

International students have a separate application procedure. Contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# Step 2: Clinical Practice Clearance

The following requirements must be met before any clinical practice experiences can take place:

- Applications for clinical practice must be submitted to the Office of Student Placements by April 10 for fall term and September 10 for spring term. A candidate's Academic Plan indicates the term for clinical practice.
- In addition to the application for clinical practice, candidates must submit the following to the Office of Student Placements by April 30 for fall term and September 30 for spring term to clear for clinical practice for the advised term:
  - Posted bachelor's degree.
  - Verification of successful completion of the Basic Skills Requirement.
  - Successful completion (*B-* or better) of all coursework from Modules 1 through 5 of the Academic Plan, in accordance with program advising.
  - Tuberculosis (TB) clearance, which must be valid for a two-year time period that runs through the end date of the assigned clinical practice term. Negative TB test requirements must be provided to the Office of Student Placements.
  - Valid Certificate of Clearance or other appropriate CTC-issued document throughout clinical practice.
  - Proof of successful completion of U.S. Constitution coursework or exam.
  - Original, passing scores of CSET exams **or** official verification of completion of a CTC-approved subject-matter program signed by the credential analyst at the California institution of higher education at which the courses were successfully completed. Note: CSET subtest exams must be used for credential purposes within 10 years of the individual passing date of each subtest or they expire.
  - Candidates seeking to use a contracted teaching position, either intern or nonintern, for clinical practice must submit all required documents by December 15 for spring term and August 15 for fall term, including but not limited to a copy of their teaching contract for the appropriate school year and a principal's letter on school letterhead. Templates with the requirements for the principal letter can be obtained from the Office of Student Placements. **All contracted teaching positions must be approved as part of the clinical practice clearing process prior to placement to ensure they meet all placement requirements.** Candidates should contact the Office of Student Placements prior to accepting a contracted teaching position if they intend to use the position for completion of clinical practice. **All candidates seeking intern positions must work with their credential analyst regarding any proposed teaching position.**

# Step 3: Credential Application

To be eligible for a credential, candidates must demonstrate the following:

- Successful completion of coursework (competency on each student learning outcome, a grade of *B-* or better on each course, earned credit in clinical practice coursework).
- Evaluation of Taskstream assignments.
- Proficiency in the Teaching Performance Expectations (TPEs).
- Passage of all state-required examinations, as follows:
  - Passage of the RICA examination is required for candidates who wish to become credentialed for teaching multiple subjects or special education.
  - Passage of CalTPA (Instructional Cycle 1 and Instructional Cycle 2) is required for candidates who wish to become credentialed for teaching multiple subjects or a single subject.
- Successful submission of CalTPA Instructional Cycle 1 and Instructional Cycle 2 resulting in receipt of official scores is required for candidates who wish to become credentialed as mild/moderate or moderate/severe disabilities education specialists. If a submission results in a condition code and scores of *NS* (not scored), the mild/moderate or moderate/severe candidate is responsible for successfully remediating those scores through the Division of Teacher Education.
- Completion of all other credential requirements.

It is the candidate's responsibility to submit a credential application through the Office of Credentials (<https://www.apu.edu/education/resources/credentials/>) upon completion of a credential program to receive their California educator credential. This request may be submitted to the credentials office up to one month before completion of all credential requirements.

**NOTE:** Teacher candidates in combined master's and credential programs who have opted to waive coursework will need to take additional units to fulfill the unit requirement. Contact the department for a course elective listing.

# School of Nursing

## School of Nursing Mission Statement

To serve God through excellence in professional nursing education, scholarship, and practice.

## Degrees, Certifications, and Credentials Offered

The School of Nursing (<https://www.apu.edu/nursing/>) offers traditional undergraduate and professional programs, as well as various pathways to the Master of Science in Nursing, post-master's certificates, a Doctor of Philosophy in Nursing, and a Doctor of Nursing Practice.

### Traditional BSN (p. 942)

### RN to BSN (p. 926)

The RN to BSN degree completion program offers an alternative to the traditional method of pursuing a college nursing degree.

### Upper-Division BSN Transfer Program (p. 929)

### LVN to BSN and LVN to RN (p. 929)

### Entry-Level Master of Science in Nursing (ELM) (p. 967)

*For those who have completed a B.A. or B.S. in another field.*

1. Total prelicensure units is 70. Specific courses required.
2. Postlicensure units to complete the MSN depend on the specialty chosen by the student.

### Master of Public Health (p. 1035)

### Master of Science in Nursing with Specialties Programs (p. 1005)

*For those who have completed a bachelor's degree in nursing.*

- Adult-Gerontology or Pediatric Clinical Nurse Specialist (CNS)
- Adult-Gerontology Primary Care Nurse Practitioner (AGNP) Specialty
- Family Nurse Practitioner (FNP) Specialty
- Pediatric Nurse Practitioner–Primary Care (PNP-PC) Specialty
- Psychiatric Mental Health Nurse Practitioner (PMHNP) Specialty

### MSN with Credentials (p. 999)

- School Nurse Services Credential (SNSC)
- School Nurses Services Credential (SNSC) and Pediatric Nurse Practitioner-Primary Care (PNP) Specialty
- School Nurses Services Credential (SNSC) and Family Nurse Practitioner (FNP) Specialty

### MSN in Nursing Education (p. 1029)

### MSN in Healthcare Administration and Leadership (p. 1027)

### Post-Bachelor's Credential (p. 1012)

- School Nurse Services Credential (SNSC) (a nondegree post-bachelor's program)

### Post-Master's Nursing Certificates (p. 1014)

- Adult-Gerontology Clinical Nurse Specialist (AG-CNS)
- Adult-Gerontology Primary Care Nurse Practitioner (AGNP)
- Family Nurse Practitioner (FNP)
- Healthcare Administration and Leadership
- Nursing Education
- Oncology Nurse Practitioner
- Pediatric Clinical Nurse Specialist (P-CNS)

- Pediatric Nurse Practitioner–Primary Care (PNP-PC)
- Psychiatric Mental Health Nurse Practitioner (PMHNP)

## Doctor of Philosophy in Nursing (p. 1057)

The PhD in Nursing, with emphasis in either health of the family and the community or international health, is a research-based program designed to prepare graduates for a life of scholarship and teaching. The coursework for the PhD in Nursing consists of 46 units beyond the master's degree, with an additional 9 units for dissertation research.

## Doctor of Nursing Practice (p. 1054)

Based on a strong scientific foundation, evidence-based practice, leadership, and organizational analysis, the Doctor of Nursing Practice (DNP) program is designed to prepare nurses at the highest level of practice for the current, complex healthcare environment. An evidence-based clinical approach emphasizes the prevention, assessment, and treatment of complex health issues. The coursework for the Doctor of Nursing Practice consists of 39 units including residency beyond the Master of Science in Nursing. This program is also available online.

## Graduate Status

In the School of Nursing, graduate full-time status is considered to be 6 units per semester or 12 units per 12-month academic year. A student has a maximum of eight years to complete a graduate program, beginning from the date of initial enrollment in the specific degree program.

## Accreditation

- All Azusa Pacific University programs are accredited by the WASC Senior College and University Commission (WSCUC). (<https://www.wascsenior.org/>)
- School of Nursing programs are approved by the California Board of Registered Nursing (BRN) (<http://www.rn.ca.gov/>). Graduates are qualified to apply for Nurse Practitioner (NP) certification and Clinical Nurse Specialist (CNS) certification.
- The master's degree in nursing and the postgraduate APRN certificate programs at Azusa Pacific University are accredited by the Commission on Collegiate Nursing Education (<https://www.aacnnursing.org/CCNE/>), 655 K Street NW, Suite 750, Washington, DC 20001, (202) 887-6791.
- The Doctor of Nursing Practice at Azusa Pacific University is accredited by the Commission on Collegiate Nursing Education (<https://www.aacnnursing.org/CCNE/>), 655 K Street NW, Suite 750, Washington, DC 20001, (202) 887-6791.

Learn more about the School of Nursing. (<http://www.apu.edu/nursing/>)

## Departments

- Department of Doctoral Studies (p. 1037)
- Department of Entry-Level Master of Science in Nursing (p. 950)
- Department of Healthcare Administration and Leadership (p. 1026)
- Department of Master of Science in Nursing Advanced Practice (p. 981)
- Department of Nursing Education (p. 1028)
- Department of Public Health (p. 1030)
- Department of RN to BSN (p. 926)
- Department of Upper-Division BSN Transfer (<http://catalog.apu.edu/academics/school-nursing/upper-division-transfer-two-plus-two-lvn-to-bsn/>)
- Department of (Traditional) Undergraduate Baccalaureate Program (p. 941)

## Courses

### GNRS 500, Conceptual Foundations of Professional Nursing, 3 Units

This course focuses on the introductory concepts crucial to the socialization of second career students to professional nursing. The history of nursing, the evolution of nursing in the U.S., the art and science of nursing, the legal and professional basis of nursing, the role of nursing in the health care delivery system, and current issues and trends in nursing education, practice and research are emphasized.

### GNRS 501, Theoretical Thinking in Nursing, 2 Units

This course examines questions about the nature and construction of theory and how theoretical ideas are developed and used in nursing practice and research. Philosophical ideas underlying theory are examined, and selected theoretical models and theories are explored.

**Prerequisite:** Completion of undergraduate research course or instructor's consent; admission to ELM or MSN program.

### **GNRS 503, Cultural Competency in Health Care, 3 Units**

This course focuses on transforming graduate nursing students, preparing them for nursing leadership in nursing practice, nursing research, education, and public health policy for the improvement of patient healthcare outcomes in our increasingly diverse society. Students move from cultural sensitivity and awareness to critical reflection and action, challenging their assumptions and broadening their perspectives. The Essentials of Master's Education in Nursing (American Association of Colleges of Nursing, 2011) serves as the foundation for the development of core cultural competencies.

**Prerequisite:** Graduate standing in the School of Nursing.

### **GNRS 504, Bioethics and Health Care Policy, 3 Units**

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.

**Prerequisite:** Graduate standing

### **GNRS 505, Christian Formation for Holistic Care, 3 Units**

Students engage in the process of discovering the foundational values of Azusa Pacific University that serve as guiding principles for the distinctive education they will receive. They are made aware of the Christian worldview and its implications for personal holistic development and care. With a focus on developing motivating character and integrated caregivers, the course brings heightened self-awareness, the impact of a Christian worldview on vocation, scriptural awareness especially emphasizing healing themes in the life of Christ, and the importance of spiritual growth on the journey toward formation.

### **GNRS 506, Spiritual Concept Analysis in Health Care, 3 Units**

Scholarly research and analysis of selected concepts in the spiritual care of persons from the Judeo-Christian perspective provide a central focus to the course. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journey and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.

**Prerequisite:** Graduate standing

### **GNRS 507, Scientific Writing, 3 Units**

This course provides opportunities for students to learn how to introduce a topic or issue, articulate a thesis, support and develop a thesis and subordinate claims, work with secondary sources, and organize an argument.

### **GNRS 508A, Research and Theory in Advanced Practice Nursing, 4 Units**

This course prepares nurses to use theory and research evidence in advanced clinical practice. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theoretical models and theories are explored, and students learn how ideas are developed and used in nursing practice and research. Students deepen their understanding of the research process by engaging in a systematic search, critique, and summary of research studies with direct application to nursing practice. Experience in statistical analysis of research data is included.

**Prerequisite:** Computer literacy, undergraduate research course, undergraduate statistics course, and graduate standing

### **GNRS 508B, Research and Theory in Healthcare, 4 Units**

This course prepares the healthcare administrator to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students learn the fundamentals of quantitative, qualitative, and mixed methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to healthcare. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.

**Prerequisite:** GNRS 613

### **GNRS 510, Family Theory in Health Care, 2 Units**

The major theoretical perspectives for understanding the family as a core unit of analysis are studied. This course fosters the student's recognition of the family's responsibility for health. Factors such as family patterns and care-giving tasks of families experiencing catastrophic or chronic alteration in health care are examined. This class is offered online.

**Prerequisite:** Graduate standing

### **GNRS 511, Advanced Pediatric Health Assessment and Health Promotion, 4 Units**

This course develops the graduate nurse's assessment skills and focuses on the promotion of health in the pediatric population from the newborn period through adolescence. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional health practices and identify culturally relevant and age-appropriate health promotion strategies. Outcomes are examined in light of related theoretical concepts. Strategies for health promotion include a focus on developmental and behavioral assessments, emotional health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for early detection and prevention of disease.

**Prerequisite:** Undergraduate health assessment and GNRS 515;

**Corequisite:** Practicum

## **GNRS 512, Advanced Health Assessment and Health Promotion, 4 Units**

This course develops the graduate nurse's assessment skills and focus on the promotion of health in individuals across the age range and within family, community, and cultural contexts. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional and nontraditional therapies and identify culturally relevant and age-appropriate health promotion strategies for common episodic complaints and chronic health conditions. Outcomes are examined in light of theoretical concepts. Strategies for health promotion include a focus on lifestyle, mental health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for the early detection and prevention of disease.

**Prerequisite:** Undergraduate health assessment and GNRS 515;

**Corequisite:** Lab

## **GNRS 513, Advanced Nursing Practice Role, 2 Units**

This course focuses on the concepts of role development and performance competence of the nurse in advanced clinical practice within the context of a reformed health care delivery system. Emphasis is placed on the clinician, educator, clinical program manager, consultant, researcher, and case manager roles of the advanced practice nurse. The leadership aspects of the roles of advanced practice are explored in relation to health care delivery, policy formulation, and legislation. The course explores theories and issues related to the advanced nursing practice role.

**Prerequisite:** Graduate standing

## **GNRS 514, Research Proposal Writing, 2 Units**

This course focuses on the application of the concepts in GNRS 508A. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.

**Prerequisite:** GNRS 508A

## **GNRS 515, Advanced Pathophysiology, 3 Units**

This course builds on basic anatomy and physiology and undergraduate study of pathophysiology. It focuses on development of an advanced understanding of the pathophysiologic mechanisms of human health disorders. Diagnostic reasoning that facilitates the clustering of signs and symptoms leading to diagnosis is a key process undergirding the course. This course requires the integration of signs and symptoms, clinical testing (such as laboratory and radiologic studies), and pathophysiologic mechanisms with diagnoses.

**Prerequisite:** Graduate standing and undergraduate pathophysiology

## **GNRS 516, Integrative Disease and Symptom Management, 3 Units**

Using a systems-based approach, this course provides the student with a broad-based, graduate-level overview for understanding disease processes, treatment modalities, assessment and interventional strategies for patients across the life span.

## **GNRS 518, Supervised Practicum in Health Care, 3 Units**

This course prepares students to integrate and apply theory, evidence-based practice, and national guidelines and standards in practicum settings. Students select practicum areas in which, with faculty approval, they will participate in experiences led by preceptors. The purpose of the course is to equip students with current, evidence-based knowledge in a selected practice area.

## **GNRS 520, Theory and Practice of the Clinical Nurse Specialist in Nursing Care of Adult-Gerontology Patients, 6 Units**

Critical concepts in advanced collaborative management of adult-gerontology client populations by Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, adult-gerontology continuum of health and illness (i.e., wellness, health promotion, disease prevention), teaching-learning theory, and evidence-based best practices for clinical decision-making for the Adult and Geriatric population are highlighted. CNS roles, competencies, and professional issues and integrated clinical rotations will be chosen from critical care or medical-surgical adult-gerontology populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;

**Corequisite:** Practicum

## **GNRS 521, Clinical Specialization in the Care of Adult-Gerontology Patients, 6 Units**

The course prepares the student to apply concepts introduced in GNRS 520. It focuses on diagnosis and collaborative disease management of acute illness in the adult-gerontology patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice, disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

**Prerequisite:** Academic Core and Advanced Practice Core courses, GNRS 520, current RN license, CPR certificate, and meets health screening requirements;

**Corequisite:** Practicum

## **GNRS 522, Disaster Nursing and Emergency Preparedness, 3 Units**

This course explores the nature of disasters and prepares nurses to respond to various types of disasters - including natural, environmental, mass casualty, public health emergencies, terrorism, and bioterrorism - by utilizing essential knowledge, skills, values, meanings, and experience in the basic competencies of emergency preparedness and disaster nursing. In accordance with the position of major nursing organizations, emphasis is placed on evidence-based best practices for personal preparedness.

**Prerequisite:** Comparable course, such as UNRS 312 Nursing Management of Adults, a human growth and development course, a lifespan course OR an RN licensure.

## **GNRS 530, Theory and Practice of the Clinical Nurse Specialist in the Care of the Pediatric Patient, 6 Units**

Critical concepts in the advanced collaborative management of pediatric client populations by the Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, pediatric continuum of health and illness (i.e., wellness, health promotion/disease prevention), teaching-learning theory, and evidence-based/best practices for clinical decision-making for the Pediatric population are highlighted. CNS roles, competencies, and professional issues are integrated. Clinical rotations will be chosen from critical care or medical-surgical pediatric populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;

**Corequisite:** Practicum

## **GNRS 531, Clinical Specialization in the Care of the Pediatric Patient, 6 Units**

The course prepares the student to apply concepts introduced in GNRS 530. It focuses on diagnosis and collaborative disease management of acute illness in the pediatric patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

**Prerequisite:** Academic Core and Advanced Practice Core courses, GNRS 530, current RN license, CPR certificate, and meets health screening requirements;

**Corequisite:** Practicum

## **GNRS 532, Advanced Nursing Practice in Pediatrics, 6 Units**

This course emphasizes physiological and psychological bases for critical and chronic conditions in children, focusing on an advanced science base for the assessment, diagnosis, and management of children and families to promote wellness. Exploration of traditional versus alternate medicine treatment plans, as well as relevant cultural, spiritual, and health promotion strategies, is incorporated.

**Prerequisite:** Graduate status and GNRS 590A;

**Corequisite:** Practicum

## **GNRS 533, Psychiatric Theories across the Life Span, 2 Units**

This course presents neurobiologic, neuroendocrine, genomic, behavioral, and psychodynamic theories of psychiatric mental illnesses as they manifest among members of diverse cultural groups across the life span. A theoretical foundation for subsequent coursework in primary psychiatric mental health care is provided for the role of the psychiatric mental health nurse practitioner.

**Prerequisite:** Graduate standing, Advanced Practice Core

## **GNRS 534, Integrated Psychiatric and Health Assessment across the Life Span, 2 Units**

This course teaches the role of the psychiatric mental health nurse practitioner in interviewing, assessing, and utilization of other data collection methods to elicit, analyze, and evaluate bio-psychosocial information regarding psychiatric mental health illness as experienced and understood by the clients, across the lifespan. Assessment and integration of the effects of potential and/or existing co-morbid health problems are focused upon. Diagnostic reasoning that is based on the Diagnostic Statistical Manual is foundational in the course. Development of differential diagnoses and disease management, evidence-based practice, and health promotion that includes client and nurse practitioner collaboration is emphasized.

**Prerequisite:** Advanced Practice Core, GNRS 533 (May be taken concurrently)

## **GNRS 535, Psychiatric Interventions and Health Promotion across the Life Span, 6 Units**

In this course students learn historical, theoretical, and contemporary evidence-based psychotherapies that promote and support client stabilization, rehabilitation, and recovery. The client as a collaborating decision making consumer and the client-clinician therapeutic alliance are central to this course. Students increase competence in assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, group, family), medication management, and health promotion interventions, including motivational interviewing. Student competence in developing and facilitating therapeutic groups as a recovery modality are included in the course. The role of the psychiatric mental health nurse practitioner in the integration and coordination of support services that impact mental health and illness is also included. Students practice verbal psychotherapeutic skills that motivate and facilitate client self-management and progression toward recovery.

**Prerequisite:** Advanced Practice Core, GNRS 533 and GNRS 534; GNRS 539 may be taken concurrently;

**Corequisite:** Practicum

### **GNRS 536, Psychiatric Mental Health Care with Adults and Older Adults, 6 Units**

In this course students increase their knowledge and competence in the assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services, with adults and older adults.

**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 539;

**Corequisite:** Practicum

### **GNRS 537, Psychiatric Mental Health Care with Children and Adolescents, 6 Units**

In this course, students increase competence in the role of the psychiatric mental health nurse practitioner in the assessment of psychiatric mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services with children, adolescents, and families.

**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;

**Corequisite:** Practicum

### **GNRS 538, Psychiatric Mental Health Care with Selected Populations, 5 Units**

Students increase knowledge and competence in the assessment of psychiatric and mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), medication management, health promotion and disease prevention interventions, and integration and coordination of support services with a selected population. Focus is on integrating and practicing all aspects of the role of the psychiatric mental health nurse practitioner with clients who are experiencing acute and/or chronic mental health problems and psychiatric disorders.

**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;

**Corequisite:** Practicum

### **GNRS 539, Psychopharmacology, 2 Units**

Students in this course build upon knowledge of advanced practice nursing and provides content essential for the psychiatric mental health nurse practitioner to prescribe appropriate pharmacologic treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for psychopharmaceuticals commonly utilized across the lifespan are addressed.

**Prerequisite:** GNRS 533, GNRS 534; GNRS 535 (May be taken concurrently)

### **GNRS 542, Advanced Concepts and Competencies in Pediatric Primary Health Care, 3 Units**

This course offers a comprehensive review and synthesis of core concepts and competencies for the pediatric advanced practice nurse in the primary care setting. This culminating experience for pediatric nurse practitioner students incorporates seminar discussions and clinical practicum placement, and also allows for a discussion of developmental/behavioral issues, management of acute and chronic care illnesses seen in primary care settings, and preventative health care.

**Prerequisite:** Graduate standing, GNRS 532 (may be taken concurrently with instructor's permission), and GNRS 590A;

**Corequisite:** Practicum

### **GNRS 543, Transitions Across the Care Continuum, 4-6 Units**

This course focuses on principles and models of care and their implementation in a multidisciplinary practice environment that emphasizes healthcare delivery through integration of services and transition management. Students are introduced to decision making related to allocation of resources and services, development of protocols, and evaluation of management approaches. Evidence-based approaches to the clinical, administrative, educational, and research dimensions of patient care are emphasized. Evaluation of care management activities with the student's selected clinical population is an integral component of the course.

**Prerequisite:** NP students: completion of Advanced Practice Core; CNS students: completion of Advanced Practice Core and GNRS 520 or GNRS 530; HAL students: completion of MSN Core and GNRS 560.

**Corequisite:** Practicum

### **GNRS 544, Clinical Specialization Residency, 2-3 Units**

The elective clinical residency is a clinical specialty experiential program designed as a collaborative partnership between the School of Nursing and selected community health care organizations. This residency is an intensive precepted clinical experience planned to ease the role transition from a student nurse to a beginning professional nurse in a specialized setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination. The student will increase their ability to perform clinical reasoning with the assigned patient population and evaluate QSEN competencies of patient centered care, safety, evidence based practice, informatics, and teamwork and collaboration.

**Prerequisite:** GNRS 573 (May be taken concurrently)

## **GNRS 546, Theory and Practice in Health Care Systems in the Community, 6 Units**

This specialized course prepares RNs without a bachelor's degree for graduate study in nursing. A multiple theoretical focus that includes concepts from systems, stress, adaptation, developmental, and role theory is emphasized. A beginning practice in the utilization of the nursing process with an emphasis on nursing diagnosis and the nurse's role in assessing, planning, implementing, and evaluating care of clients in a variety of community settings is provided. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals and families at home are essential course components. A review of legal mandates for practice and discussion of ethical dilemmas and issues related to high quality nursing care are included. Specific content varies based on the students' prior education and experience. Clinical placements are arranged to meet the individual student's needs.

**Prerequisite:** Undergraduate research, pathophysiology, and health assessment;

**Corequisite:** Practicum

## **GNRS 547, Nursing Leadership in Acute Care Settings, 6 Units**

This is one of two clinical courses provided for the RN who seeks both a bachelor's and master's degree in nursing. The course synthesizes selected information from the generic bachelor's and master's programs for presentation in a condensed format, addressing the development and nature of today's health care systems and associated issues in the United States. Further, content familiarizes the student with several roles and responsibilities of the contemporary nurse, such as leader, consultant, teacher, manager, and client advocate. The course focuses on client needs in acute health care settings and emphasizes the relationship between the health care system and the advocate.

**Prerequisite:** Undergraduate research, pathophysiology, and health assessment;

**Corequisite:** Practicum

## **GNRS 548, Health Promotion Across the Lifespan, 2 Units**

The course focuses on health promotion and disease prevention across the lifespan and around the globe. The course includes exploration of population health issues, environmental implications in health and health policy, impact on health promotion and the development of disease.

**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements

## **GNRS 550A, Theory and Practice in School Nursing, 6 Units**

This combined didactic and clinical course provides theoretical content and field experiences that emphasize the multifaceted role of the school nurse. The student participates in field experiences and classroom learning activities that focus on the assessment and management of children's health care needs in various school settings. This course provides the student with the necessary tools and skills to successfully function as a professional school nurse. At the conclusion of this course, the student will be able to successfully function as a provider of health education as well as a provider, planner, and coordinator of health care in school settings.

**Prerequisite:** All School Nurse Services Credential courses except GNRS 590A, GNRS 589 may be taken concurrently

## **GNRS 555, Medical Surgical Care of the Adult and Geriatric Patient, 7 Units**

This course introduces crucial concepts to professional nursing care such as nursing process, communication, therapeutic interventions, and critical thinking and clinical reasoning. The course focuses on the application of biological, psychosocial, and spiritual concepts to hospitalized adult and elderly clients with acute and/or chronic illnesses. Students will be guided in critical thinking and clinical reasoning exercises in the management of hospitalized clients. Nursing process is utilized to provide care to one or two adult clients within the health care delivery system of an acute care setting. The clinical practicum focuses on the cognitive basis, scientific principles, and manipulative component of psychomotor skills used when providing nursing care. Students will have an opportunity to practice simulated clinical skills.

**Prerequisite:** Admission to the ELM program, completion of all prerequisite courses for the program;

**Corequisite:** Practicum

## **GNRS 556, Intermediate Medical Surgical Care of the Adult, 7 Units**

This course is designed to build on the base of medical-surgical nursing knowledge from GNRS555. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, in restorative care setting, or long-term care setting.

**Prerequisite:** Admission to the ELM program; successful completion of GNRS 555;

**Corequisite:** Practicum

## **GNRS 557, Medical Spanish for Advanced Practice Nurses, 3 Units**

This course provides non-Spanish-speaking advanced-practice nursing students with foundational knowledge of Spanish language structure and vocabulary, helping them build appropriate phrasing to facilitate communication in healthcare settings. Cultural issues relevant to health and illness in the Latino community are also addressed.

**Prerequisite:** Graduate nursing student standing, or instructor's permission

## **GNRS 559, Audiometry for School Nurses, 3 Units**

This course provides didactic instruction via eCollege and eight hours of on-site practicum experience that emphasizes the content and clinical expertise necessary to fulfill the requirements of the State of California School Hearing Conservation Program and training for the school audiometrist. The course focuses on the physiologic process of hearing and how to assess for deficits in hearing in children of all ages. At the conclusion of the course, and after having completed successfully all learning objectives, the student is eligible to submit an Application for Registration as a School Audiometrist in the State of California (a \$10 registration fee is required with the application).

### **GNRS 560, Strategic Leadership in Healthcare, 3 Units**

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

### **GNRS 564, Nutrition and Therapeutics, 2 Units**

Students in this course explore the functions of nutrients and the consequences of nutrient deficiencies and excesses in the body. Course material introduces a variety of tools for planning and evaluating diets, including a computer diet analysis, and the application of nutrition concepts is interwoven into health care and fitness conditions. Students also study the prevention of chronic disease as it relates to proper nutrition and adequate exercise.

**Prerequisite:** Admission to the ELM program

### **GNRS 567, Healthcare Administration and Leadership Supervised Practicum, 3 Units**

This course provides the student with the opportunity to experience the role of healthcare administrator. An individualized administration practicum in a specific area of clinical emphasis is chosen by the student and approved and monitored by the faculty and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth. Students focus on the context for enacting the role of administrator in a healthcare delivery system.

**Prerequisite:** All core and role courses

### **GNRS 568, Healthcare Finance, 4 Units**

This course is an introduction to financial concepts and skills need for healthcare leaders, managers, and executives. The student will develop skills in assessing multiple dimensions of financial performance and methods to improve the financial health of an organization in the context of current patient care system.

### **GNRS 569, Quality and Safety for Health Care Practice, 3 Units**

This course is designed to deepen and advance students' knowledge of, and ability to systematically apply the principles of, patient quality and safety in nursing practice. Based on national standards, the focus is on examining and applying quality and safety tools, including informatics, that can be used to improve patient care delivery across the continuum of health care.

### **GNRS 570, Parish Nursing/Health Ministries, 2 Units**

This course provides an introduction to and overview of health ministry and parish nursing theory and practice. The philosophy of the course is that (a) the parish nursing role is that of a specialist in spiritual aspects of patient care in the congregational context, requiring the integration of graduate level theology/ministry and nursing theory and praxis; and (b) health ministry is an emerging role and trend in pastoral ministry that seeks to bring professional ministry skill to bear upon the integration of health, faith, and spirituality in the parish setting.

### **GNRS 571, International Health Care, 2-4 Units**

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

### **GNRS 573, Clinical Residency, 4 Units**

The clinical residency is an internship clinical experiential program designed as a collaborative partnership between the School of Nursing and selected community in-patient health care organizations. This residency is an intensive preceptored clinical experience planned to ease the role transition from a student nurse to a beginning professional nurse in an acute-care setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination.

**Prerequisite:** Successful completion of all pre-licensure clinical courses

### **GNRS 575, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units**

This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Selected issues of women's health are explored. The student is introduced to birth preparation, prenatal care, normal neonatal, and postpartum care with concurrent clinical experiences.

**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;

**Corequisite:** Practicum

### **GNRS 576, Pharmacology, 2 Units**

This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.

**Prerequisite:** Admission to the ELM program

## **GNRS 578, Health Assessment, 3 Units**

This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physical examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included.

**Prerequisite:** Admission to the ELM program;

**Corequisite:** Practicum

## **GNRS 580, Gerontology, 2 Units**

This course integrates research and writings about the major trends and developments in the field of gerontology as they apply to the field of nursing. The approach is interdisciplinary - course material includes information from the fields of sociology, psychology, anthropology, biological sciences, medicine, nursing, and psychiatry. Development in adulthood is viewed from multiple perspectives including cognitive, behavioral, biological, sociocultural, and spiritual, and the influences these perspectives have on the successful negotiation of age-related issues are considered. Finally, students examine aspects of human aging in contemporary American society and from a cross-cultural and ethnic perspective.

**Prerequisite:** Graduate standing in the School of Nursing.

## **GNRS 581, Primary Health Care of the Older Adult, 5 Units**

GNRS 581 focuses on the role of the adult-gerontology primary care nurse practitioner in the management of the older adult including health promotion, assessment, treatment, and maintenance of common primary care health problems. The clinical practicum emphasizes the application of theory and evidence-based research for the delivery of culturally competent assessment and treatment of the older adult within the context of their families and in a variety of outpatient settings.

**Prerequisite:** Graduate status in the School of Nursing, completion of Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNRS 582A, Pathophysiology, 2 Units**

This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

**Prerequisite:** Admission to the ELM program

## **GNRS 582B, Pathophysiology, 2 Units**

This course continues the presentation an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

**Prerequisite:** Admission to the ELM program, successful completion of GNRS 582A

## **GNRS 583, Nursing Care of Children and Young Adults, 4 Units**

This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship to the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.

**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;

**Corequisite:** Practicum

## **GNRS 584, Mental Health Nursing, 4 Units**

This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of clients with acute and chronic psychiatric disorders.

**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;

**Corequisite:** Practicum

## **GNRS 586, Leadership and Management in Professional Practice, 2 Units**

This course emphasizes leadership and management theory including systems theory in a number of applications and settings. It assists the upcoming graduate in adjusting to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to the clinical settings are presented using a systems approach. Emphasis on nursing case management is included.

## **GNRS 587, Community Health Nursing, 5 Units**

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing, and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings, with a focus on care of the gerontological client. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care is included.

**Prerequisite:** Admission to the ELM program, successful completion of semesters one, two, and three;

**Corequisite:** Practicum

## **GNRS 588, Advanced Nursing Care of Adults - Leadership, 6 Units**

This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The primary focus of the course is to care for critically ill clients and their families with complex health care needs in a critical-care setting. A second area of focus is on the utilization of leadership and management concepts/skills in providing comprehensive care to groups of clients and families. Emphasis is placed on preparing the student to practice in a beginning leadership role in managing client care. Legal and ethical issues related to acute care are included.

**Prerequisite:** Admission to the ELM program;

**Corequisite:** Practicum

## **GNRS 589, Adolescent Health Care, 2-4 Units**

This course focuses on the growth and development of adolescents, including assessment, prevention, and management of common health and psychosocial problems in this population. Emphasis is on age-appropriate and culturally competent provision of primary health care to adolescents in a family system.

**Prerequisite:** Graduate status in the School of Nursing; 2-unit version of this course requires prior completion of GNRS 515, while the 4-unit version requires prior completion of GNRS 515, GNRS 594, and GNRS 511 or GNRS 512.

## **GNRS 590A, Primary Health Care of the Young Family, 6 Units**

This combined theory and clinical course focuses on management of health care of children (from birth through adolescence) and their families.

Theory and clinical experiences emphasize assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory and clinical experiences in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.

**Prerequisite:** Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNRS 590B, Clinical Practicum in Pediatrics, 4 Units**

The student develops expanded skills in the comprehensive assessment and management of common childhood illnesses and problems and continues to gain skill in promoting child wellness. Application of theory and research is emphasized in the care of common illnesses throughout the childhood years.

**Prerequisite:** GNRS 511 or GNRS 512 and GNRS 590A

## **GNRS 590C, Primary Health Care of the Young Family for the School Nurse Services Credential, 6 Units**

Using a system-based approach, this combined didactic and practical course focuses on assessment, nursing interventions, and follow-up for common illness presentations in children, as well as illness-related impact on social, emotional, and educational functioning. The effects of culture on child development, parenting, and healthcare practices is also emphasized.

**Prerequisite:** GNRS 512;

**Corequisite:** Practicum

## **GNRS 591, Primary Health Care of the Childbearing Family, 4 Units**

This course focuses on the assessment and management of the primary health care needs of the reproductive family. Emphasis is placed on health promotion and maintenance, disease prevention, curative, and restorative care. Cross-cultural aspects related to parents, male and female, of the childbearing family are addressed.

**Prerequisite:** Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNRS 592A, Primary Health Care of the Adult and Aging Family, 6 Units**

This combined theory and clinical course focuses on the role of the nurse practitioner (NP) in caring for mature adults and aging family members, from young adulthood to elderly adulthood. Emphasis is placed on the management of common primary health problems of these age groups. The delivery of culturally competent primary health care interventions of young, middle-aged, and elderly adults is addressed.

**Prerequisite:** Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNRS 592B, Primary Health Care Clinical Practicum, 2 Units**

This course provides the final comprehensive clinical management experience, allowing FNP and AGNP students to apply knowledge gained throughout their course of study. Clinical conferences provide opportunity for discussion of role development issues and clinical case studies. Students engage in the clinical assessment and management of adults of diverse cultural backgrounds with routine and complex health problems in out-patient settings. Under the supervision of qualified preceptors and School of Nursing faculty, the student must complete his/her clinical hours and demonstrate mastery to perform the role of an entry-level nurse practitioner.

**Prerequisite:** Completion of clinical courses for the FNP or AGNP program track

## **GNRS 593, Psychosocial Primary Health Care of the Adult and Aging Family, 4 Units**

This combined didactic and clinical course focuses on psychosocial primary health care of the mature and aging family. Didactic content and clinical experiences emphasize the advanced practice nursing role in the medical management of chronic illness with concurrent assessment for psychosocial stressors that impact the experience and management of chronic illness. Students learn to tailor patient-centered therapeutic strategies, including presence, multi-faceted functional assessment, motivational interviewing, stress reduction techniques and spiritual support to individual patients.

**Prerequisite:** Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNRS 594, Pharmacology in Advanced Practice Nursing, 3 Units**

This course builds upon basic knowledge in pharmacology and provides content essential for the advanced practice nurse to render appropriate pharmacological treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for drugs commonly utilized across the life cycle are addressed. Variations in pharmacological reactions attributed to cultural factors are emphasized. Strategies for fostering individual/family adherence to pharmacological regimens are examined. This course meets the requirements of the California Board of Registered Nursing in the application of a 'furnishing number' by the advanced practice nurse in California.

**Prerequisite:** GNRS 515 (May be taken concurrently)

## **GNRS 595, Special Topics in Nursing, 1-6 Units**

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

**Prerequisite:** Graduate standing

## **GNRS 596, Foundations of Healthcare Informatics, 3 Units**

This course provides an overview of basic concepts for practice in healthcare-oriented informatics. These core concepts include an introduction to clinical and translational informatics; foundational theory and practical application of clinical decision making and computerized decision support; healthcare systems and their organization; the special issues of administration, security, and operations of electronic records in the healthcare setting; human factors issues; information science in the healthcare domain; standards, terminologies, and the uniqueness of biomedical data; and a special focus on emerging technologies.

## **GNRS 597, Comprehensive Examination Directed Study, 1 Unit**

This course guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge. Critical thinking is enhanced through careful consideration of information presented during discussion. The examinations are taken as part of this seminar.

**Prerequisite:** Completion of all Academic Core and degree specialty courses. Final specialty course may be taken concurrently.

## **GNRS 598, Thesis, 1 Unit**

A student initially enrolls in this option toward the latter part of the program for one unit of credit. The student registers for one unit of thesis credit each semester (two of three semesters per year) until the thesis is completed.

**Prerequisite:** GPA of 3.5 or above, chair's consent for thesis option, and completion of all Academic Core and Advanced Practice Core courses

## **GNRS 599, Readings/Independent Study in Nursing, 1-4 Units**

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. University policy states that the student must earn a grade in an independent study course in order to receive credit toward graduation.

**Prerequisite:** Graduate standing

## **GNRS 613, Graduate Statistics, 3 Units**

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

## **GNRS 620, Genome Science in Healthcare, 3 Units**

This course covers basic genomic concepts and technologies intended for personalizing healthcare. The primary goal is to provide the student with clinically relevant knowledge that can be used in practice and for teaching other healthcare professionals, patients and families. Applications of genome science and technology are analyzed in the context of real world examples taken from a variety of clinical specialty areas to better understand the relation between genomics, health, and illness.

## **GNRS 622, Genome Science and Ethical Issues, 3 Units**

This course examines current applications and implications of genome science and technology to healthcare, public health policy, economics, ethics, federal and state laws and societal issues. The following discussion topics are at the leading edge of healthcare and social debate: DNA biobanking, genetic profiling, and genomic technologies used in genome medicine such as stem cell research, gene therapy, and genetic enhancements. In addition, the course addresses ethics, philosophy, and theology literature to explore thoughtful discussions that cover a wide range of genome applications in healthcare and health science research.

**Prerequisite:** GNRS 620

## **GNRS 630A, Oncology Nurse Practitioner Fellowship A, 4 Units**

This course is the first in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## **GNRS 630B, Oncology Nurse Practitioner Fellowship B, 4 Units**

This course is the second in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## **GNRS 630C, Oncology Nurse Practitioner Fellowship C, 4 Units**

This course is the third in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## **GNRS 631, ONP: Cancer Biology and Assessment, 2 Units**

This course builds on knowledge of the anatomy and physiology of DNA, RNA, differentiated, and nondifferentiated human cells. Focus is on the pathophysiologic mechanisms of human cancer disorders. Diagnostic reasoning that facilitates the clustering of signs and symptoms is a key process undergirding the course. The course provides the foundation for the integration of diagnostic testing, physical assessment, and understanding of the predictable pathophysiology of cancer to stage tumors and predict metastatic risk in individuals.

**Prerequisite:** Admission to the oncology nurse practitioner fellowship certificate program.

## **GNRS 632, ONP: Cancer Therapeutics, 2 Units**

This course builds on knowledge of the predicted behavior of human cancer. Technology in cancer treatment is evolving rapidly. This class will provide a pathophysiological foundation to understand cancer protocols. Current cancer protocols, classes and categories of therapeutics, technologies in development, and tumor resistance will be discussed. The cost-benefit, side effects, and availability of the covered therapeutics will be discussed.

**Corequisite:** GNRS 631

## **GNRS 633, ONP: Symptom and Side Effect Burden, 2 Units**

Patients with advanced cancer often suffer significant symptomatic burden and the iatrogenic complications of treatment. This course develops a patient-centered approach to evidence-based management of common symptoms of cancer and side effects of treatment.

**Prerequisite:** GNRS 631 and GNRS 632

## **GNRS 634, ONP: Survivorship and the Psychosocial Impact of Cancer, 2 Units**

Cancer patients and their caregivers face complicated psychological, financial, and spiritual changes, beginning at diagnosis and extending into the posttreatment phases. This course covers the common problems related to those changes, and best-practice strategies and techniques to help patients and families cope with cancer.

## **GNRS 635, ONP: Team-based Care and the Role of the Oncology Nurse Practitioner, 2 Units**

The clinician role of the oncology nurse practitioner requires familiarity with the incidence, prevalence and risk assessment competencies for all common cancers. In addition, the oncology nurse practitioner must be prepared for a wide variety of leadership roles. Strategies for care coordination, designing and measuring interdisciplinary team outcomes, mentoring, collaborating with primary care providers, and rapid-cycle quality improvement are examined.

## **GNRS 636, ONP: Clinical Trials Nursing, 2 Units**

The advanced practice oncology nurse practitioner must be prepared to be a direct care provider or study coordinator for clinical research trials. This course covers the knowledge and behaviors needed by nurse practitioners engaged in oncology clinical trials.

**Prerequisite:** GNRS 512, GNRS 515, and GNRS 613, or instructor consent

### **GNRS 660, Theories of Teaching and Instruction, 3 Units**

This course analyzes selected teaching and learning models that are applicable to nursing education. Strategies for classroom and clinical teaching are examined. Research relative to nursing education is reviewed and critiqued. Design of research methods to determine effectiveness of teaching strategies is incorporated. Course development and student evaluation are emphasized. Selected faculty and nursing education issues are also explored.

### **GNRS 661, Leadership and Role Development in Nursing Education, 3 Units**

This course includes an analysis of educational leadership and the multiple roles of the nurse educator related to teaching, scholarship, service, and practice. Theoretical perspectives and practical approaches supported by research in nursing and higher education literature, as well as the Christian educator's role promoting faith integration, are addressed.

### **GNRS 662, Assessment, Curriculum, Development, and Outcomes, 3 Units**

This course addresses theoretical approaches to educational assessment, the development and implementation of nursing curriculum, and student and program outcomes. Emphasis is given to the importance of incorporating Christian values in the curriculum. The course also includes critical analyses of related topics based upon current research in nursing and higher education literature.

### **GNRS 663, Clinical Practicum in Nursing Education, 3 Units**

This practicum course builds on clinical and teaching/learning theories, concepts in curriculum design, and instructional strategies. Under the supervision of a faculty-mentor, the practical classroom experience focuses on designing and implementing teaching plans for units of instruction, writing of teaching/learning objectives, selecting teaching strategies and learning activities, evaluating student learning outcomes, obtaining feedback on teaching performance from faculty-mentors, students, and self-evaluation, and reflection. The clinical teaching practical experience focuses on assessing and meeting nursing student clinical learning needs, conducting postcare conferences, clinical evaluation of nursing student performance, and student counseling.

**Prerequisite:** GNRS 660, GNRS 661, GNRS 662

### **GNRS 664, Teaching-Learning Strategies and Educational Technology in Nursing Education, 3 Units**

This course will equip the nurse educator to develop and utilize theory- and evidence-based instructional strategies and tools in traditional and non-traditional formats in a variety of nursing educational settings.

### **GNRS 695, Special Topics, 1-4 Units**

A subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. This course may be repeated for credit to a maximum of 6 units applied toward the MSN or PhD degree; each course must address a different topic.

### **GNRS 700, Philosophy of Science, 3 Units**

This course is designed to provide students with the knowledge and critical analytic skills to comparatively evaluate the philosophical foundations of scientific theories and the influence of Western philosophical schools of thought on the development of nursing science. Course content is organized to engage students in discussion and critical analysis of the epistemological and philosophic foundations of scientific theories and the characteristics of scientific knowledge according to the received view, paradigmatic view, perceived postmodern view, and feminist tradition. Special emphasis is given to the critical debate within nursing about the nature of nursing science.

### **GNRS 701, Nursing Knowledge Development, 3 Units**

This course focuses on analyzing and critiquing the theoretical and methodological processes that are utilized in theory building and knowledge development in nursing. Discussion and critique of the different stages of theory development and students' experimentation with conceptualizing and developing their theoretical stance go hand in hand. Patterns of knowing, knowledge development, and criteria for evaluating nursing knowledge are examined in relation to the discipline's domain and the phenomena of concern in nursing.

### **GNRS 702, Nursing Theory, 3 Units**

This course focuses on strategies for theory development such as concept analysis, conceptual mapping, and theoretical modeling as applied to the student's phenomenon of concern. It also provides critique and analysis of the major models and theories used in a variety of nursing settings in relation to existing interdisciplinary theoretical knowledge.

### **GNRS 703, Spirituality and Health, 3 Units**

This course provides an introduction to spirituality, including spiritual experience, as it relates to individual health and illness. Communal spirituality is also considered. Differentiation is made between and among generic religious and Christian spiritualities. While the course covers theoretical aspects of spirituality and their interaction with health and illness, concentration is on the movement from theory to praxis. This lecture/seminar course is oriented toward nursing educators who seek to develop a foundation in spirituality for spiritual integration as well as for its development in nursing practice.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 704, Faith Integration and Nursing Scholarship, 3 Units**

This course begins with an exploration of the nature, role, problems, and possibilities of faith integration in higher education and in the nursing curriculum at all levels of higher education. The special circumstances of faith integration and its implications for teaching in secular college settings are explored. This course further provides a critical explication of theological method and content in three domains: biblical hermeneutics, constructive theology, and ministry praxis for education. The focus of the course is on the appropriation of theological method and knowledge for the purposes of integration into nursing education and practice especially (but not exclusively) within the context of a Christian or church-affiliated college.

## **GNRS 705, Social Ethics and Health Policy, 3 Units**

This course seeks to provide a social ethics frame of reference for health care. Medical and biological advances have contributed to a rapidly expanding amount of human control over human and natural processes, including genetic potential and behaviors. This new power raises questions of morality and highlights the need for discussion and legislation regarding the complex issues raised by developments in health care, medical technology, and science. A comprehensive social ethic places decisions about health care within the context of a fuller account of purpose and meaning in life.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 706, Methods of Inquiry, 3 Units**

Exploration of various methods of inquiry focuses on the difference between scientific thinking, wisdom, and alternative concepts of knowledge. Existential dilemmas intrinsic to the pursuit of truth, the exploration of the meaning of actions, the process of interpretation, the perception of reality, and empirical generalizations are discussed and their influence on the definition of research problems and designs explored. The nature of the problem and assumptions and their relationship within the physical and social order are addressed with an emphasis on understanding the complexity and interrelatedness of events and the concept of ecology in research. Research designs and methods are introduced as they relate to problem definition and theory and includes an overview of the principles of basic and applied experimental research, evaluation research, and the traditions and foundation of qualitative and historical research. The role of triangulation as a methodological choice in research design and analysis is addressed to provide a more insightful approach to the exploration of complex phenomena.

## **GNRS 707, Quantitative Nursing Research Design I, 3 Units**

This course focuses on advanced multiple research designs and data collection approaches. Emphasis is on experimental and quasi-experimental designs, epidemiological methods, survey research, and evaluation and outcomes research, as well as on planning design and sampling. Inferential statistics and advanced statistical analysis methods including ANOVA and various types of multiple regression analysis are incorporated within the course content.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 708, Qualitative Nursing Research Design I, 3 Units**

This course focuses on analyzing the epistemological foundations and the assumptions of qualitative research methodologies. It provides an introduction to the major qualitative research methodologies including grounded theory, phenomenology, and ethnography. Each methodology is analyzed as to its appropriateness for the research question. Experience in carrying out a pilot study in the selected methodology is provided.

## **GNRS 709, Advanced Statistical Analysis II, 3 Units**

This course presents advanced methods of quantitative inquiry. The emphasis is on the use of factor analysis, confirmatory factor analysis, path analysis, and structural equation modeling. Assumptions of the techniques are addressed. The course provides the student experience in using statistical packages for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which of the advanced statistical techniques to use is stressed. Critique of the advanced statistical analyses of published health care research is also emphasized.

**Prerequisite:** GNRS 707

## **GNRS 710, Advanced Qualitative Research Methods, 3 Units**

This course provides advanced knowledge and training in the use of qualitative research methods including phenomenological interpretation, grounded theory interpretation, ethnographic interpretation, focus groups interpretation, and feminist interpretation. Intensive interpretive and structured approaches to analysis and methods of establishing plausibility, credibility, and adequacy of qualitative data are emphasized.

**Prerequisite:** GNRS 708

## **GNRS 711, Advanced Research Methods in the Humanities, 3 Units**

This seminar and consultation course introduces PhD students to nonscientific research methodologies as used in the arts, letters, humanities and aspects of the social sciences for the (a) conduct of original dissertation research on one of the disciplines of arts, letters, humanities, or nonscientific aspects of one of the social sciences, (b) conduct humanities-based research to widen and deepen a scientific dissertation topic, or (c) to enlarge the student's methodological repertoire, knowledge, and skill. The course is intended for those whose primary research education and experience has been in scientific methods and disciplines. (Enrollment limited to eight.)

**Prerequisite:** (a) successful completion of GNRS 701 and GNRS 706, (b) permission of the instructor

## **GNRS 712, Advanced Evaluation Research, 3 Units**

Evaluation research bridges the gap between conceptual definitions, theory formulation, and practice. Evaluation research utilizes quantitative and qualitative research designs to analyze evidence and disseminate the findings to identified stakeholders that will inform decision making and policy development. Explicit models of the decision process for program development and implementation are incorporated into the structure of the evaluation design and analysis. The course includes needs assessment, benchmarking or best practices, logic modeling, program theory development, empowerment evaluation, system analysis, and process-outcome designs. Examples incorporate national and international programs.

## **GNRS 713, Advanced Statistical Analysis I, 3 Units**

This course presents common nonparametric and parametric statistical techniques used in healthcare research. Assumptions of the techniques are addressed. Specifically, the course emphasizes t-tests, ANOVA, ANCOVA, RANCOVA, correlation, odds ratio, regression, and power analysis, and provides the student experience in using SPSS for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which statistical techniques to use is stressed. Critique of statistical analyses of published healthcare research is also emphasized.

## **GNRS 715, Psychosocial Issues of Older Adults, 3 Units**

This course focuses on the biological and psychosocial processes throughout adulthood and the older years. Theories of aging are examined, as well as social role changes, social stratification, and the development of institutions of the aged. The course explores both normal aging and psychopathology, and the systematic intrinsic psychological or personality changes associated with development and adaptation in later life. Other topics include clarification of the causes and prevention of health maladies in the later years, and the nature and treatment of the most common psychopathologies. The psychodynamics of institutionalization and family care of the very old are also examined.

## **GNRS 716, Translational Research, 3 Units**

The goal of this course is to help the nurse scientist identify strategies within a multidisciplinary model that promotes the ready translation of research developed from basic laboratory, clinical, or population studies. The course involves three stages as set forth by the National Institute of Nursing Research. The first stage, referred to as early translation, reviews a promising discovery that was developed in the lab, epidemiologic study, or other study that involves the initial development and testing of an intervention. In the second stage, or late translation, analysis of the study design and intervention used in clinical trials determines appropriate clinical guidelines. In the final stage, where dissemination involves the broader distribution of the intervention, emphasis is on analyzing the strengths and limitations in the clinical setting.

## **GNRS 717, Health Technology and Informatics, 3 Units**

This course presents an overview of the evolution of health care informatics from an interdisciplinary perspective. Students learn health care informatics history, concepts, theories, legal and ethical implications, and applications within the health care industry. This course introduces the student to the information system life cycle, human factor issues in health care informatics, critical issues affecting the development and implementation of information and communication systems and technologies (clinical, administrative, and learning), knowledge management principles, professional practice trends, and emerging ICT (information and communication technology) in health care.

## **GNRS 718, Organizational Leadership and Strategic Planning, 3 Units**

In this course, students acquire knowledge and skill to effectively manage change, empower others, and influence political processes. Advanced nursing practice leadership occurs in clinical practice with clients and staff, within healthcare institutions and professional organizations, and in healthcare policy making arenas. To develop the leadership role, students implement strategies for creating organizational change to provide high-quality services at reasonable costs. Focus is on organizational process, including the associated management of conflict, change, and control of risk within a political context.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 720, Wellness Promotion and Health Maintenance, 3 Units**

This course focuses on the critical appraisal of theories and models of health promotion and on the evaluation of health initiatives developed for national health promotion and maintenance. Relevant risk prevention, control, and health promotion intervention strategies are emphasized. Communicable diseases; health hazards; high-risk health factors; acute and chronic illness across ethnicities, genders, and the life span; and morbidity and mortality of the nation's leading health problems are analyzed. Students' research questions are generated from a synthesis of knowledge regarding a specific phenomenon relevant to the student's individual area of study.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 721, Health Disparities and Vulnerable Populations, 3 Units**

This course offers an analysis and evaluation of various topics and issues on health disparities of underserved ethnic or minority vulnerable populations as well as an analysis of research that describes, explains, and examines variables influencing health disparities and intervention strategies to reduce these disparities.

## **GNRS 722, Research in Nursing and Health, 3 Units**

This course is team taught and reflects the research expertise and program of study of the nursing doctoral faculty. It focuses on analysis of determinants of health and illness across demographic, biological, psychological, familial/cultural, and societal dimensions. Attention is given to theoretical explanations toward promoting development of students' programs of research.

## **GNRS 724, Quantitative Nursing Research Design II - Psychometrics, 3 Units**

This course is designed to introduce students to the methods of survey research. The course considers practical considerations in the construction of questionnaires including determining questionnaire content, selection of item types and wording of items, selection of an administration method, piloting questionnaires, and locating existing questionnaires. Discussion about conducting survey research considers sample selection, analyzing information obtained from questionnaires using SPSS, evaluating questionnaires, sources of error and how to reduce measurement error in survey research.

**Prerequisite:** GNRS 707

## **GNRS 725, Research Practicum, 1 Unit**

The practicum further develops, mentors, and socializes students into the roles and activities of research scientists and scholars. Emphasis is on mentoring to facilitate student progression in research methodology, culturally appropriate research strategies, data management, and data analysis. Students can choose either a quantitative or qualitative practicum experience.

## **GNRS 726, Advanced Scientific Writing, 3 Units**

This course provides opportunities for students to learn how to research and introduce a topic in writing, articulate a thesis statement, support and develop a literature review, work with secondary sources, and organize a written paper that can be developed into a dissertation or translational research paper.

## **GNRS 727, Genome Science in Clinical Cases and Disease Management, 3 Units**

This course focusing on medical family history taking, constructing and analyzing the pedigree, genetic counseling, clinical decision making and clinical case management for a wide variety of inherited and acquired diseases through the lens of emerging genome science. Clinical cases are discussed from a holistic perspective including: genome science, epidemiology, genomic profiling, genetic technologies, personalized medicine, interprofessional collaboration, ethical and legal issues, and health policy.

**Prerequisite:** GNRS 620

## **GNRS 728, Genome Science Research Methods, 3 Units**

This course focuses on genome research methods for understanding and translating genome science to practice and to genome related nursing research. Understanding the research methods fosters a deeper understanding of the strength and the weaknesses of the science and an ability to critique the benefits and the limitations of the science for designing nursing research. The course includes a wide range of research methods that explore genetics or genomics in human populations. A key outcome of this course is to develop a research proposal using genome methods to design nursing research aimed at improving quality of health for individuals, families and populations.

**Prerequisite:** GNRS 620, GNRS 622, GNRS 727

## **GNRS 729, Population Health and Epidemiology, 3 Units**

The concept of population health includes aggregate, community, environmental/occupational, and cultural/socioeconomic definitions of health. The implementation of clinical prevention and population health activities is central to achieving the national goal of improving health status and reducing health disparities among different aggregate groups. This course covers the basic elements and methodological concepts used in the epidemiologic study of factors related to health promotion and disease prevention in human populations. It brings together considerations from several fields of investigation, such as epigenetics, epidemiology, psychology, and public health, to study the effects on health and health-related outcomes.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 730, Comparative Health Care Systems, 3 Units**

This course focuses on exploring/analyzing environmental, social, cultural, political and economic determinants of health across the globe. Comparative analysis of international health care systems including governmental, nongovernmental, traditional, and faith-based organizations are emphasized. Epidemiological analysis of morbidity and mortality, analysis of health and illness responses, and health-seeking behavior across the age span and gender/ethnic variables are discussed with the intent to identify areas of research relevant to students' interest. Presented from a Christian perspective, this course investigates research and practice opportunities and responsibilities for advanced practice nurses in global arenas.

## **GNRS 732, DNP Clinical Residency, 0 Units**

This course provides students enrolled in the Doctor of Nursing Practice (DNP) program with opportunities to develop professional nursing skills at the doctoral level. The focus of the course is to explore the development and scientific underpinnings of components of expert advanced clinical practice. Students select a population of interest for the DNP clinical residency and apply evidence-based practice and research findings in order to develop and improve practice. Over the course of the DNP program, students integrate previous nursing education and practice experiences with the DNP residency and concurrent doctoral coursework to meet the AACN Essentials of Doctoral Education for Advanced Nursing Practice and complete a DNP scholarly project. The course may be repeated to enable the student to obtain a minimum of 1,000 residency hours. Previous hours from graduate clinical courses may apply, so residency hour requirements will vary.

**Prerequisite:** Admission to DNP program

### **GNRS 733A, Residency IA, 1 Unit**

This is the first in a series of three residency courses designed to enhance students' critical thinking, diagnostic reasoning, interpretation, and management skills for advanced clinical practice. This course broadens and enhances understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice clinical nurse scholarship. Students practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts. The course focuses on exploring the development and scientific underpinnings of components of expert advanced clinical practice, and attention is given to the development of skills necessary to attain that goal. By the end of this course, students select their population of interest for their clinical residency and apply evidence-based findings to this population to identify potential areas of intervention.

**Prerequisite:** Admission to DNP program

### **GNRS 733B, Residency IB, 1 Unit**

The second of a three-course sequence, this course may be taken concurrently with GNRS 733A and/or GNRS 733C with approval of the DNP director or designee. Grading: pass/fail

### **GNRS 733C, Residency IC, 1 Unit**

The third of a three-course sequence, this course may be taken concurrently with GNRS 733A and GNRS 733B with approval of the DNP director or designee. Grading: pass/fail

### **GNRS 734A, Residency IIA, 1 Unit**

The first of a three-course sequence, this course may be taken concurrently with GNRS 734B and GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

### **GNRS 734B, Residency IIB, 1 Unit**

The second of a three-course sequence, this course may be taken concurrently with GNRS 734A and/or GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

### **GNRS 734C, Residency IIC, 1 Unit**

This is the last of a three-course series of clinical residencies with a focus on transformative and collaborative leadership, including completion of the evidence-based practice project, assessment of project outcomes, and planned dissemination of findings. Students apply relevant clinical and research findings to develop and improve practice. Content emphasizes critical appraisal of skills and interventions necessary to ensure meaningful translation of scientific evidence into practice, including a cost-benefit analysis for implementing a change into clinical practice. The course also emphasizes the professional role of the nurse as a collaborator, leader, and provider of care with nursing colleagues and other members of the interprofessional healthcare team within the context of complex healthcare systems, preparing students to implement an advanced nursing practice role that results in practice and/or policy change at the local, state, and/or national levels.

**Prerequisite:** Successful completion of GNRS 733A, GNRS 733B, GNRS 733C, GNRS 734A and GNRS 734B

### **GNRS 735, DNP Scholarly Project Seminar, 3 Units**

The DNP program requires a rigorous clinical project focused on translating scientific research to health care in a timely manner so that patients experience the best applications of science and practice. The project is a scholarly experience that implements the principles of evidence-based practice and translation under the guidance of a faculty mentor. In line with the AACN Essentials of 2007, the outcome of the DNP scholarly project is a tangible and deliverable academic product that is derived from the practice immersion experience and reviewed and evaluated by an academic committee. The project also serves as a foundation for future scholarly practice.

### **GNRS 736, DNP Scholarly Project Seminar: Evaluation and Dissemination, 2 Units**

This course focuses on presentation to and approval of a completed DNP Scholarly Project. The DNP program requires a rigorous clinical project focused on translating scientific research to health care to improve the patients experience utilizing the best evidence of science and practice. This scholarly project is a culminating, independent experience which demonstrates the student's synthesis of coursework and lays the foundation for future scholarship.

### **GNRS 780, Doctoral Seminar I: Elements of a Proposal and IRB Application, 3 Units**

This seminar directs the development of either a dissertation or a DNP Scholarly Project proposal draft that details a problem, the research/project purpose, questions or hypotheses to be examined, a synopsis of the relevant literature, the design and methods of the study including its timeline, protection of human subjects, plans for analysis, and the budget. The seminar also includes preparation of IRB applications, and peer review and critique of student proposals.

### **GNRS 781, Doctoral Seminar II: Developing a Grant Proposal, 3 Units**

This doctoral seminar provides students with the opportunity to acquire knowledge, skills, and insights in the writing of a grant proposal. Discussion will focus on the value of writing grant proposals, the basic principles in writing a grant proposal, the components of a grant proposal, identification of funding sources, the difference between a research and a program grant proposal, as well as administrative factors in submitting a grant proposal. Students will craft and a grant proposal in response to a Request for Funding Proposal (RFP) that aligns with the guidelines of the funding agency, and additionally, a budget plan with justification, timelines, and a bio-sketch. In addition, students will conduct a peer review of class completed grant proposals.

## **GNRS 782, Doctoral Seminar III: Writing for Publication, 3 Units**

This seminar focuses on various aspects of writing for publication and directs the development of a manuscript suitable for publication from a previously written paper (e.g., a course term paper). This course will help the student get started on writing; identify writing styles for various forms of publication including abstracts, journal articles, papers, and books; and determine appropriate journals to consider for article submission. The student will acquire practice in reviewing and critiquing scholarly writing by others. It will also address the editorial and publication process, as well as ethical aspects of writing for publication.

## **GNRS 783, Doctoral Seminar IV: Developing Professional Presentations, 3 Units**

This seminar course identifies approaches to developing an effective and successful presentation, helping students find their voice and showcase their areas of expertise. Discussions focus on planning as essential to deciding on the content and the order in which the information is presented. Emphasis is on developing a logical sequence, one that flows naturally and is accompanied by audiovisuals that facilitate understanding of the material.

## **GNRS 784, Dissertation Seminar V, 2-4 Units**

This fifth dissertation seminar provides the student a forum to explore with their peers research findings, theoretical and empirical implications, and potential venues for publication of manuscripts. Format and procedures for progression in the dissertation process are also discussed. Placement of the Course: This seminar is not required if dissertation seminar requirement of 12 units has been met by GNRS 780, GNRS 781, GNRS 782, GNRS 783, and student has defended dissertation. Grading: Pass/Fail.

**Prerequisite:** GNRS 783

## **GNRS 791, Doctor of Nursing Practice Intensive I, 1 Unit**

This is the first of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course introduces students to the role of the DNP nurse in a variety of healthcare settings. Students also acquire advanced practice and academic skills necessary for selecting a population of interest and applying evidence-based practice to it as part of an evidence-based DNP scholarly project consistent with the DNP role within a healthcare organizational setting.

**Prerequisite:** Admission to the DNP program;

**Corequisite:** GNRS 732

## **GNRS 792, Doctor of Nursing Practice Intensive II, 1 Unit**

This is the second of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course helps students identify strategies within a multidisciplinary model that promotes evidence-based practice in various clinical, community, and educational settings. Students receive support and direction in collaboration with the sponsoring facility and mentor as they develop a comprehensive, site-specific DNP scholarly project proposal.

**Prerequisite:** GNRS 791;

**Corequisite:** GNRS 732

## **GNRS 793, Doctor of Nursing Practice Intensive III, 1 Unit**

This is the third of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course helps students acquire the skills, competencies, and points of view needed for developing the ethical reasoning/decision-making skills necessary for conducting their DNP scholarly projects.

**Prerequisite:** GNRS 792;

**Corequisite:** GNRS 732

## **GNRS 794, Doctor of Nursing Practice Intensive IV, 1 Unit**

This is the last of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. As in the other intensive experiences, course content for each student reflects the interests of the student and is designed to meet that student's needs and career goals. This course allows students, with guidance from their mentors and faculty, to complete the DNP scholarly project and finalize the written and oral scholarly reports that disseminate and integrate new knowledge. Each student's final product reflects their ability to employ effective communication and collaboration skills, take a leadership role, integrate core DNP concepts and competencies that influence healthcare quality and safety, and successfully negotiate change in healthcare delivery for individuals, families, populations, or systems across a broad spectrum of health care.

**Prerequisite:** GNRS 793;

**Corequisite:** GNRS 732

## **GNRS 795, Special Topics, 1-4 Units**

In this course, a subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. Students may repeat the course for credit to a maximum of six units applied toward the doctoral program; each course must address a different topic.

## **GNRS 798, Continuous Doctoral Study, 0 Units**

This course is for doctoral students working on dissertations or translational research projects. Students must re-enroll each semester until the dissertation or translational research project is completed, defended, submitted to the library, and approved.

## **GNRS 799, Independent Study, 1-4 Units**

Students enroll in this course to pursue independent study investigating subjects and interests that lie beyond regular course offerings. The student explores topics in greater depth than in other courses, and/or initiates an individual project. Readings are pursued in accordance with a study plan, which is developed in consultation with a sponsoring doctoral faculty member and approved by the doctoral department

## **GSPH 504, Bioethics and Health Care Policy, 3 Units**

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.

## **GSPH 506, Spiritual Concept Analysis in Health Care, 3 Units**

This course focuses on scholarly research and analysis of selected concepts in the spiritual care of people from the Judeo-Christian perspective. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journeys and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.

## **GSPH 508C, Research and Theory in Health Care, 3 Units**

This course prepares the healthcare practitioner to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined as students consider questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students also learn the fundamentals of quantitative, qualitative, and mixed-methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to health care. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.

**Prerequisite:** GSPH 613

## **GSPH 510, Social Determinants of Health, 3 Units**

A central focus of the public health field is understanding the etiology, occurrence, and distribution of health outcomes (morbidity and mortality). One growing area of importance within the field is examining how health and disease are influenced and maintained by social, economic, and political risk factors - called social determinants of health. This course provides a macro-level overview of concepts, research and theoretical models of social determinants of health. Through interactive lectures, readings and assignments, students will be exposed to major areas of study linked to social determinants of health, with discussions centered on the following key questions: What social factors are the greatest challenge to health outcomes within local communities? What does it mean to use a social determinants lens when studying health outcomes among diverse multicultural populations? What are health disparities and how might they best be addressed? What behavioral lifestyle factors commonly interplay with social determinants of health?

## **GSPH 512, Health, Culture, and Diversity, 3 Units**

This course covers the issues of health disparities in the United States and the development of culturally competent programs. Students examine what is meant by culture, the ways in which culture and health issues intersect, and how public health efforts can benefit by understanding and working with cultural processes.

## **GSPH 514, Research Proposal Writing, 2 Units**

This course focuses on the application of the concepts in GSPH 508C Research and Theory in Health Care. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.

**Prerequisite:** GSPH 508C

## **GSPH 518, Population Health Management, 3 Units**

This course covers important topics in the effective management of public health departments and agencies. Students develop knowledge and skills to fulfill roles in public health management as leaders, administrators, fundraisers, and internal and external communicators. Course content includes ways to be an effective coach to maximize the team's performance, the essentials of effective partnerships, how to create and sustain public health initiatives using business skills, how to run meetings, ways to manage electronic correspondence, and effective strategies to keep the public health organization running smoothly.

## **GSPH 519, Global Health Systems, 3 Units**

This course examines international health systems in terms of infrastructure and function. Students examine the benefits and risks of universal healthcare, third party reimbursement systems, and global availability and access to medical services.

## **GSPH 522, Cultural Inclusivity in Health Care, 3 Units**

In this course, students explore the topics and tools necessary for the application of cultural inclusivity processes in various healthcare settings. Curriculum includes an overview of demographic changes in the United States, cultural inclusivity, diversity related to specific groups, and the paradigm of cultural and linguistic diversity. Attention is also given to the costs, time, and skill sets associated with the process of moving a healthcare organization toward cultural inclusivity.

### **GSPH 525, Epidemiology, 3 Units**

This course covers the application of epidemiological procedures to the understanding of the occurrence and control of conditions such as infections and chronic diseases, mental disorders, community and environmental health hazards, unintentional injuries, and geriatric problems. Other topics include quantitative aspects of epidemiology, including data sources, measures of morbidity and mortality, evaluation of association and causality, study design, and screening for disease.

**Prerequisite:** Undergraduate statistics and biology

### **GSPH 526, Public Health Biology, 3 Units**

Human health problems comprise a wide range of infectious, degenerative, neoplastic, and genetically based disease factors. In addition to these factors, human disease results from a wide range of environmental and socially caused pathologies. This course presents the basic scientific and biomedical concepts of modern public health problems and explores the mechanisms and models of the major categories of disease. An integrative approach using knowledge of nutrition, exercise, mind-body, and spiritual practices is explored. The biologic principles presented in this course are foundations to developing and implementing public health disease prevention, control, or management programs in the student's future.

### **GSPH 527, Advanced Biostatistics and Epidemiology, 3 Units**

This course focuses on the application of statistical approaches in epidemiologic research, covering data management and selection of the appropriate statistical model. Regression analysis including linear regression, logistic regression, Poisson regression, and Cox regression is reviewed. Content also covers basic concepts in survival analysis including censoring, survival function, and hazard function. Epidemiologic methods for assessing causation, including mediation analysis, propensity score matching, and instrumental variable analysis, are also covered. Students learn to apply different analytic approaches using public databases.

### **GSPH 529, Bioinformatics [Proposed], 3 Units**

This course explains how informatics relates to knowledge acquisition, knowledge processing, knowledge generation, knowledge dissemination, and feedback. Technology trends, information security, ethical and legislative aspects will also be highlighted. Students will apply these concepts to support practice, education, administration, and research and will utilize these principles to improve healthcare models.

### **GSPH 532, Infectious Disease Epidemiology, 3 Units**

This course covers key epidemiologic methods for practicing infectious disease epidemiology including study design, interpretation of data, and assessment of validity. Course content covers methods in infectious disease epidemiology, airborne transmission, diarrheal diseases, blood and body fluids as reservoirs of infectious disease, vector-borne/zoonotic, and parasitic diseases. Students learn how to apply content and use problem-solving skills to develop effective prevention strategies.

### **GSPH 535, Environmental Health, 3 Units**

This course examines essential issues in environmental health, including the scientific and historical foundations, regulatory and policy issues, models and tools for assessing community environmental health, and an overview of select issues and implications of the environment on national and global health. Topics explored include select environmental pollutants in the air, water, soil, and food sources; hazardous waste, risk assessment and communication; and issues of environmental justice and vulnerable populations, nationally and globally.

**Prerequisite:** Undergraduate biology, chemistry, or ecology

### **GSPH 537, Occupational Health and Safety, 3 Units**

This course examines concepts and issues in occupational health and safety, identifying the significance to workers and public health. Students study social influences, historical events of worker injuries, industrial hygiene, and applicable principles of toxicology, worker quality of life, and safety in the workplace.

### **GSPH 540, Global Health, 3 Units**

This course examines global health issues, emerging priorities, and worldwide challenges affecting population health and disease. Students address opportunities and challenges to international health, examine determinants of human health holistically, and plan, implement, and evaluate programs and potential solutions to promote international prevention interventions and optimal human health worldwide with a focus on global health equity.

### **GSPH 543, Public Health Communication, 3 Units**

This course provides an overview of the use of communication strategies to inform and influence individual and community health decisions, with a focus on how communication concepts, theories, and methods are used for public health promotion and practice. Health communication theories include models of persuasive communications/mass media effects, social marketing, interpersonal communications, risk perceptions, and diffusion of innovations. Students work in pairs to develop/evaluate a health communication intervention that addresses a current public health issue within a specific target group.

### **GSPH 546, Principles and Practices of Toxicology, 3 Units**

Students in this course examine the principles of toxicology, including dose-response relationships, toxicokinetics, mechanisms and methods of toxicity, select exposures to toxic substances and accompanying toxidromes, the use of antidotes, and relevance to public health.

### **GSPH 551, Theories of Health Behavior, 3 Units**

This course helps students develop a knowledge foundation of health behavior theories and skills for developing theoretically based behavior-change programs. Given that a major focus of public health promotion, education, and prevention programs is on 'changing health behavior,' there is an ongoing quest to understand why people do what they do to (a) improve or maintain their health, and/or (b) worsen their health. Through lectures, readings, and assignments, students critically review and apply a range of health behavior theories that target the intrapersonal, interpersonal, and community levels.

### **GSPH 555, Infectious Diseases and Public Health, 3 Units**

Students in this course examine the role of infectious diseases in regional, national, and global public health. Students study the historical context and surveillance of communicable diseases, as well as emerging issues in the field. Course content also includes the identification and management of infectious diseases, with students using case studies and proposing threats along with opportunities in prevention, education, and health promotion.

### **GSPH 560, Strategic Leadership in Healthcare, 3 Units**

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

### **GSPH 561, Public Health Across the Disaster Cycle, 3 Units**

Students in this course evaluate the roles of public health in natural and human-caused disasters, from 'simple' to complex humanitarian events. Using case studies, students analyze the functions of public health agencies and practitioners in the context of institutional systems and the disaster cycle (prevention/preparedness, response, recovery, and mitigation). Field trips outside of class hours may be required.

### **GSPH 566, Politics and Policies in Disaster Health and Emergency Preparedness, 3 Units**

Students in this course evaluate existing governmental and institutional policies related to disaster health and emergency management (DHEM) within political systems. Implementation and evaluation of policy are analyzed and applied.

### **GSPH 568, Health Care Finance, 3 Units**

This course is an introduction to financial concepts and skills needed for healthcare leaders, managers, and executives. Students develop skills in assessing multiple dimensions of financial performance and learn methods to improve the financial health of an organization in the context of the current patient care system.

### **GSPH 571, International Health Care, 2-4 Units**

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

### **GSPH 581, Disaster Health and Emergency Management Principles and Practices, 3 Units**

Students in this course examine the practice of emergency management and the evolving field of disaster health. Content addresses traditional and current perspectives related to understanding disaster cycles and the relationship between disaster research and practice.

### **GSPH 593, Field Practicum, 3 Units**

In this integrative learning experience, students complete hours in the field applying coursework and classroom learning in a real-world setting under the guidance and supervision of faculty and community-based preceptors, preparing them for professional careers in public health.

### **GSPH 594, Additional Field Practicum Experience, 1-5 Units**

This field practicum elective gives students the opportunity to complete additional hours of practicum experience, allowing them to directly apply course content, public health knowledge, and skills acquired from the MPH program, under the guidance and supervision of faculty and community-based preceptors. This experience enriches classroom activity with practical understanding, and give students the chance to demonstrate an integration of coursework into a real-world setting, preparing them for a professional career in public health.

**Prerequisite:** GSPH 593

### **GSPH 595, Special Topics in Public Health, 1-6 Units**

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

**Prerequisite:** Graduate standing

## **GSPH 597, Capstone, 1 Unit**

This guided-study course provides a summative experience for completion of the Master in Public Health program and guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge from course work throughout the program to the solution of a major public health problem in this culminating project. Each graduate candidate will identify a unique health problem in an actual healthcare setting to address, perform a thorough review and synthesis of current literature, select an appropriate theoretical framework, and develop a creative and innovative solution to the problem. Candidates will meet regularly throughout the semester with course faculty to prepare for and discuss their progress and will submit their work for publication or comparable external review format at the end of the semester.

**Prerequisite:** Completion of all Academic Core and Specialty courses

## **GSPH 598, Thesis, 1 Unit**

This course is the second part of a two-course sequence (after GSPH 514 Research Proposal Writing) that supports student development of a thesis in the Master of Public Health program. The thesis has served as an option to the master's capstone project.

**Prerequisite:** GSPH 514

## **GSPH 599, Readings in Public Health, 1-3 Units**

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. This course is an independent study, arranged with a faculty member of the Department of Public Health.

**Prerequisite:** Graduate standing

## **GSPH 613, Graduate Statistics, 3 Units**

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

**Prerequisite:** Undergraduate statistics and biology

## **RNRS 221, Health Assessment, 3 Units**

This course provides the nursing student with skills in physical and psychosocial assessment of adult clients. History-taking and physical examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built.

## **RNRS 272, Professional Concepts in Nursing, 4 Units**

This course is designed to provide an introduction to theories, concepts and roles that help define the profession of nursing. Utilization of the nursing process to provide safe care is analyzed. Concepts of informatics, group dynamics, conflict/management, and techniques to analyze and solve problems are examined. Evidence based nursing practice is introduced through instruction in Library/data base searches.

## **RNRS 298, Communication and Teamwork in Patient and Family Centered Care, 3 Units**

This elective course is designed to simulate and enhance clinical experiences for the inexperienced graduate licensed RN entering the RN to BSN Accelerated Degree Program. Thirty-six hours of clinical experience will be completed in a healthcare setting with a preceptor. Concepts related to communication and teamwork are emphasized.

**Prerequisite:** Admission requirements for admission into the RN-BSN program apply

## **RNRS 299, Transition to Professional Practice, 3 Units**

This is a bridge course designed to be taken by inexperienced licensed RN's who are admitted to the RN to BSN program. Completion of the course provides the new RN experience with effective decision making skills related to clinical judgment and performance in the clinical setting as well as ways to incorporate evidence based interventions in the practice setting. This course includes a clinical/simulation component with participation in an online post conference discussion board.

**Prerequisite:** RNRS 298

## **RNRS 307, Theoretical Frameworks in Nursing, 3 Units**

The focus of this course is exploration and integration of theoretical models in stress, development and health care adaptation as applied to nursing practice. Through writing and experiential activities the students will express a knowledge of family assessment and analysis of the family unit utilizing a variety of theoretical models.

## **RNRS 321, Health Assessment, 5 Units**

This course develops the nursing student's history taking and assessment skills across the life span. Analysis of health data and identification of risks, including genetics and genomics in specific groups, are emphasized. Culturally sensitive interventions and evidence-based practice are discussed to reduce risk and promote health.

## **RNRS 327, Nursing Research and Statistics, 4 Units**

This course introduces the steps in the nursing research process, with emphasis on principles and methods. Basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for professional nurses are addressed. Current issues impacting nursing research are analyzed. Ethical considerations and rights of human subjects are explored.

**Prerequisite:** The RN-BSN program is designed with a specific course sequence determined by the School of Nursing. A progression schedule is reviewed by the student and advisor after program acceptance. Courses must be taken in the assigned sequence.

### **RNRS 358, Writing 3: Evidence-Based Practice in Nursing and Healthcare, 3 Units**

The focus of this course is to integrate evidence-based clinical practice into the current healthcare systems. The student will review and evaluate the clinical and research literature for application to practice. The process of an integrative literature review and the development of writing skills specific to the discipline of nursing will be conducted. Select research designs frequently used in practice settings will be explored. Quality improvement strategies, methods and issues will be discussed and applied to practice. Meets the General Studies Writing Three requirement. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

**Prerequisite:** Writing 2, Current enrollment in the RN to BSN Program is required

### **RNRS 368, Pathophysiology, 5 Units**

This course presents an introduction to alterations in health status across the life span and their applications to nursing practice. Major pathophysiologic concepts are explored using a body systems approach. Theories relating to etiology, pathogenesis, and clinical manifestations are used to study selected disease processes. Mechanisms causing alterations in cellular function and environment, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, genetics processes, and neuroendocrine control of the body are included. Concepts from anatomy and physiology courses are considered prerequisite and provide the foundation for exploring human dysfunction.

### **RNRS 396, Professional Practice: Ethics, Issues, and Spirituality in Health Care, 6 Units**

This course focuses on the examination and application of the religious, theological, philosophical, and cultural foundations of ethics in professional nursing practice. Participants develop knowledge and skills in ethical decision making that are theoretically sound, evidence based, holistic, and applicable to current healthcare issues. The course also addresses the expanding roles and responsibilities of professional nurses in meeting the healthcare needs of a dynamic society, with attention to the spiritual formation of nurses. *Meets the General Education Requirement: UP Bible Requirement.*

**Prerequisite:** The RN-BSN program is designed with a specific course sequence determined by the School of Nursing. A progression schedule is reviewed by the student and advisor after program acceptance. Courses must be taken in the assigned sequence.

### **RNRS 412, Spiritual Formation and the Profession of Nursing, 3 Units**

This course guides students as they examine and articulated the Christian worldview, which can be applied personally and to the broader issues of society. This knowledge allows the students to develop and implement an integrated approach to nursing and the common good, and formulate responses to the worldview aspect of current professional and social issues.

### **RNRS 448, Leadership in Health Care Settings, 6 Units**

This course presents concepts of organizational and systems leadership and management. Today's health care systems related to patient safety are addressed. The content examines inter-professional teamwork and collaboration, shared decision making, and major nursing roles. The quality improvement process is investigated as to its ability to continuously improve the quality & safety of the health care system. The relationship between the health care system's effectiveness and individual performance in securing patient safety and quality outcomes are identified. Integration of EBP with clinical practice and the role of Informatics to communicate, manage knowledge, mitigate error, and support decision making are developed. Health care policy, finance, and regulatory agency/environments are examined. Ninety hours of practicum are required to establish competency in this course.

**Prerequisite:** Enrollment in the RN to BSN Program

### **RNRS 449, Theory and Practice in Community Health Settings, 6 Units**

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings. Collaborating with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care is included. A multiple theoretical focus that includes concepts from systems, stress, adaptation, development, and role theory is emphasized.

### **RNRS 458, Writing 3: Evidence-Based Practice, Theory, and Clinical Pathways, 5 Units**

The focus of this course is exploration and integration of the evidence-based practice (EBP) process, including EBP implementation and critique of clinical pathways within individual organizations, and the role of informatics in health care and its importance in evidence-based practice. Theoretical nursing and nonnursing models are reviewed, with a focus on examining how theoretical principles are reflected in professional practice. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

### **RNRS 469, Improving Patient Outcomes: Quality, Safety, and Risk Management, 5 Units**

The focus of this course is the implementation of quality and safety mechanisms into clinical practice to improve patient outcomes. Utilizing national standards for quality and safety in health care, students examine initiatives necessary to improve patient outcomes. Concepts of informatics, patient-centered care, leadership, inter- and intraprofessional teamwork, collaboration, and communication are addressed.

## **RNRS 479, Population Health and Public Health Nursing, 4 Units**

This course focuses on population-based public health nursing practice. The assessment of systematic differences in outcomes across populations, including the complexity of interactions among health determinants (such as social environment, resource allocation, and biological pathways), provides the foundation for public health nursing practice. Exploration of how these determinants exert their influence over time and throughout the life cycle, with variations in their patterns of occurrence (including health inequities and inequalities), is central to the course. The role of the public health nurse in assessing and understanding health systems and the health status of a population is emphasized.

**Corequisite:** RNRS 482P

## **RNRS 480, Community Health and Care Transitions, 4 Units**

This course builds on the concepts of population health and public health nursing and describes the interaction of the nurse and the client in the home and in the community. Given an assessment of a community's priority health needs, students use course content to identify change-agent functions to promote and preserve health and to prevent disease and disability. All levels of prevention for the individual, family, and community system are addressed as community health nursing interventions. Course topics include the role of community health nursing in supporting care transitions across varied clinical and community settings, legal and regulatory considerations, and ethical issues related to community health.

**Prerequisite:** RNRS 479;

**Corequisite:** RNRS 482P

## **RNRS 482P, Clinical Practicum, 2 Units**

This course is the clinical component to RNRS 479 Population Health and Public Health Nursing and RNRS 480 Community Health and Care Transitions. The focus of this course is on students implementing the systematic assessment of a community health population and creating an intervention that supports health promotion and disease prevention. Students develop a strategy for change, guided by epidemiological evidence and an understanding of the complex determinants of health, for implementation in collaboration with community resources and other health professionals. *Meets the General Education Requirement: Integrative and Applied Learning.*

**Corequisites:** RNRS 479 and RNRS 480

## **RNRS 495, Special Topics in Nursing, 1-4 Units**

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. This course may be repeated for credit as the topic varies.

## **RNRS 497, Ethics and Issues in Health Care, 4 Units**

This course focuses on the integration of Christian faith, ethical issues, and professional concerns, which confront nurses in their work life. It also includes consideration of issues and trends in health care and nursing. Integration of such concerns as providers of health care, education of the health care professional, and consumerism with ethical concerns are investigated. This course also contains a comprehensive paper written on a bioethical issue, which meets the senior writing requirement. Each week there is a discussion period around ethical concerns, which correlates to the material presented in class.

## **RNRS 499, Readings, 1-4 Units**

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## **UNRS 105, Foundations in Professional Nursing/Aging, 6 Units**

Lecture 3 units; Clinical practicum 3 units (135 hours/semester) This course focuses on the nursing process and introductory concepts crucial to professional nursing care, including interviewing, wellness, health promotion, and illness prevention. The clinical practicum includes application of concepts and acquisition of nursing knowledge and skills needed to provide healthcare to the healthy aging and hospitalized adult and aging client utilizing the nursing process to plan care based on human needs, problems of immobility, and pain.

Special Fee Applies

**Prerequisite:** Acceptance into the Nursing Program.

**Corequisite:** UNRS 105P (Practicum)

## **UNRS 105P, Foundations in Professional Nursing - Practicum, 0 Units**

UNRS 105 Clinical Practicum

**Corequisite** UNRS 105; Acceptance into the nursing program

## **UNRS 106, Foundations of Professional Nursing/Aging, 6 Units**

This course focuses on the nursing process and introductory concepts crucial to professional nursing care, including interviewing, wellness, health promotion, and illness prevention. The clinical practicum includes application of concepts and acquisition of nursing knowledge and skills needed to provide health care to the healthy aging and hospitalized adults and aging, utilizing the nursing process to plan care based on human needs, problems of immobility, and pain.

**Corequisite:** UNRS 106P

## **UNRS 106P, Foundations of Professional Nursing/Aging Practicum, 0 Units**

UNRS 106 Clinical Practicum

**Corequisite:** UNRS 106

## UNRS 113, Pharmacology, 2 Units

Lecture, 2 units This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.

## UNRS 120, Fundamentals of Human Nutrition, 3 Units

Lecture: 3 units Principles of human nutrition are the focus of this course, including nutrient functions, metabolism, and changing needs across the lifespan. Nutrient deficiency and toxicity signs and symptoms are covered. Implications of a poor diet on the development of chronic disease are explored. Various nutrient analysis methods are used.

## UNRS 212, Nursing Care of Adults/Aging, 6 Units

Lecture 3 units; Clinical practicum 3 units (135 hours/semester) This course involves application of biological, psychosocial, and spiritual concepts to adult and aging clients experiencing the stress of an acute or chronic alteration in physical health within the medical surgical setting. The nursing process is utilized to provide care to one or two clients within the health care delivery system of an acute hospital, skilled nursing facility, or transitional care unit, and extending to the community.

Special Fee Applies

**Prerequisite:** Acceptance into the Nursing Program;

**Corequisite:** UNRS 212P

## UNRS 212P, Nursing Care Of Adults/Aging Practicum, 0 Units

UNRS 212 Clinical Practicum

**Corequisite:** UNRS 212

## UNRS 220, Health Assessment, 3 Units

Lecture, 2 units; Laboratory, 1 unit (45 hours): This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physical-examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included. RNs take this course in the summer.

Special Fee Applies

**Prerequisite:** Must be accepted into the Nursing Program.

## UNRS 240, Medical Spanish, 2 Units

This medical Spanish class is designed especially for nursing. Practical Spanish communication in real-life medical situations for beginners is emphasized. Pronunciation, intonation, and structure of Spanish within a framework designed to develop basic listening, speaking, reading and writing skills will be taught. Special cultural presentations supplement language study.

## UNRS 260, Nutrition, 2 Units

Lecture 2 units; Foundations of nutrition in the prevention of chronic disease are explored. Pathophysiology of various disease states and appropriate medical nutrition therapy are understood. Nursing's role in nutrition assessment is appreciated with respect to patient weight change, intake adequacy, gastrointestinal symptoms affecting nutrient absorption, and activities of daily living. Students perform dietary recalls, nutrient analyses, and anthropometric assessments. Evidence-based nutrition care for gastrointestinal diseases, cardiovascular diseases, diabetes, metabolic syndrome, energy balance and weight control, bone disease, and renal disease are addressed. Coverage of alternate feeding methods and issues surrounding drug-nutrient interactions are included. To expand their knowledge in these areas, students complete case studies. Opportunities to present prevention of disease through nutrition education in the community are offered.

**Prerequisite:** CHEM 123 or PRCH 123 or department approval if a non-nursing major

## UNRS 270, Professional Concepts in Nursing, 3 Units

Theory, 3 hours/Week: This 'bridge' course is designed for transfer students who are not required to take UNRS 105 (LVNs and RNs and students with nursing transfer credits who are entering the baccalaureate nursing program). It provides an introduction to the theories and concepts of professional nursing. The nursing process is presented and utilized as the basis for planning care as applied to patients. The content also includes discussion of current issues and trends in nursing and compilation of a professional portfolio.

**Prerequisite:** Acceptance into the nursing program

## UNRS 271, Theories and Concepts in Professional Nursing, 2 Units

This course provides an introduction to the theories and concepts of professional nursing. The nursing process is presented and utilized as the basis for planning care as applied to patients. The content also includes discussion of current issues and trends in nursing and compilation of a professional portfolio.

**Prerequisite:** Acceptance into the nursing program

## UNRS 280, Life Cycle Nutrition, 3 Units

Lecture 3 units: This course examines nutrient needs of individuals throughout various life stages: preconception, pregnancy, lactation, infancy, preschool years, middle childhood, pre-adolescence, adolescence, adulthood and late adulthood. Students understand the changing nutrient requirements through the lifecycle and apply this knowledge through special topic presentations and in the development of teaching tools that can be used for public education audiences. This is a service-learning course.

**Prerequisite:** BIOL 101, CHEM 123, UNRS 120, PSYC 290

## UNRS 281, Introduction to Global Healthcare, 1 Unit

A seminar or online format is utilized to introduce students to major aspects of the global healthcare experience such as the development of an understanding of the expectations and responsibilities related to international travel, an appreciation of other cultures, and the integration into another culture, the in-country experience, and the re-entry into the home country upon return.

**Prerequisite:** UNRS 282 (may be taken concurrently)

## UNRS 282, Transcultural Health Care: Country Specific, 3 Units

Lecture 1 unit; Clinical practicum 2 units (90 hours/semester): Through seminar, journal writing and a variety of clinical experiences, students are introduced to the theoretical basis of transcultural nursing practices and provided with an opportunity to formulate personal perspectives and individual cultural values that promote high quality professional nursing worldwide.

Special Fee Applies

**Prerequisite:** UNRS 105, UNRS 113, UNRS 220; UNRS 281 (May be taken concurrently)

## UNRS 282P, Transcultural Health Care: Country Specific- Practicum, 0 Units

UNRS 282 Clinical Practicum

**Prerequisite:** UNRS 105, UNRS 113, UNRS 220; Corequisite UNRS 282

UNRS 105, UNRS 113, UNRS 220; Corequisite UNRS 282

## UNRS 299, Statistics and Data Management for Nursing and Health Care, 3 Units

This course covers basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for professional nurses and students pursuing healthcare professions. Among the topics covered are graphing, measures of central tendency and variability, the normal curve, hypothesis testing, correlation and regression, and topics in probability that can be applied in real-world situations. *Meets the General Education Requirement: Quantitative Literacy (Math).*

**Prerequisite:** MATH 95 or an appropriate score on the APU mathematics proficiency exam or SAT Math score of 540 or ACT Math score of 23.

Admission to the School of Nursing, or Pre-Admitted Nursing status and admission to the Honors College.

## UNRS 300, Complementary and Alternative Therapies: Herbs, Supplements, and Nutrition, 3 Units

This course provides an introduction to therapies currently used as complements to Western medicine. Emphasis is on naturopathic medicine and biologically based therapies such as foods, special diets, herbal remedies, and dietary supplements. The course reviews potential risks and interactions between conventional and complementary and alternative therapies. The course examines agencies devoted to informing and protecting consumers and health care practitioners.

**Prerequisite:** BIOL 101 or BIOL 151, and CHEM 123. Instructor permission required if non-nursing major.

## UNRS 306, Writing 2: Theoretical Frameworks in Nursing, 3 Units

Students in this course learn to utilize a variety of genres of scientific writing while exploring, integrating, and applying theoretical models of stress, development, and health care adaptation to nursing practice. Students examine writing samples from various methodological perspectives and practice a variety of writing styles and forms of argument considered persuasive in the sciences. They also develop basic proficiency in the use of APA style.

*Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*

**Prerequisite:** C- or better in PRWR 110; acceptance into the nursing program.

## UNRS 310, Mental Health Nursing, 4 Units

Lecture 2 units, Clinical practicum 2 units (90 hours); This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of patients with acute and chronic psychiatric disorders. Short-term evaluation and treatment experiences are offered utilizing milieu, individual, group, and family therapy.

Special Fee Applies

**Prerequisite:** Co-requisite: UNRS 310P; Must be accepted into the Nursing Program.

## UNRS 310P, Mental Health Nursing Practicum, 0 Units

UNRS 310 Clinical Practicum

**Prerequisite:** Co-Requisite: UNRS 310

## **UNRS 312, Nursing Management of Adults, 3 Units**

Lecture, 1 unit; Clinical practicum, 2 units (90 hours/semester): This course continues the application of biological, psychosocial, and spiritual concepts to adult and aging clients experiencing the stress of an acute or chronic alteration in physical health within the medical surgical setting. Emphasis is on the application of concepts of pathophysiology and pharmacology to the nursing management of acute and chronically ill patients in the medical-surgical setting.

Special Fee Applies

**Corequisites:** UNRS 312P, UNRS 313 and UNRS 313P; Must be accepted into the Nursing Program

## **UNRS 312P, Nursing Management of Adults Practicum, 0 Units**

UNRS 312 Clinical Practicum

**Corequisites:** UNRS 312, UNRS 313 and UNRS 313P

## **UNRS 313, Restorative Nursing, 4 Units**

Lecture 2 units; Clinical practicum 2 units (90 hours/semester); This course focuses on the care of an adult or geriatric client with a chronic health problem. The mental health and spiritual concepts are emphasized. Students are assigned to a rehabilitation or restorative setting.

Special Fee Applies

**Corequisites:** UNRS 312, UNRS 312P and UNRS 313P; Must be accepted into the Nursing Program

## **UNRS 313P, Restorative Nursing Practicum, 0 Units**

UNRS 313 Clinical Practicum

**Corequisites:** UNRS 312, UNRS 312P and UNRS 313

## **UNRS 314, Nursing Management and Restorative Care of Adults, 6 Units**

This course builds on prior knowledge of biological, psychosocial, and spiritual concepts to help adult and aging clients experiencing the stress of an acute or chronic alteration in physical health. Emphasis is on the application of concepts of pathophysiology and pharmacology to the nursing management of acute and chronically ill patients in medical-surgical and rehabilitative or restorative settings.

**Corequisite:** UNRS 314P

## **UNRS 314P, Nursing Management and Restorative Care of Adults Practicum, 0 Units**

UNRS 314 Clinical Practicum

**Corequisite:** UNRS 314

## **UNRS 320, Cultural Aspects of Food and Nutrition, 3 Units**

This course examines the foodways of people around the world. Health benefits and practices of various cultures will be explored along with how industrialization of food influences nutrition content and pricing of foods. Effects of famine on life expectancy and how one's environment or living situation limits access to food are explored. A food lab is included in the course to allow students an opportunity to prepare, taste, and realize a country's particular etiquette practices when dining. Course requires field trips. This is a service-learning course.

**Prerequisite:** UNRS 120, SOC 358, GLBL 301, GLBL 310 or COMM 310

## **UNRS 367, Pathophysiology, 3 Units**

Lecture, 3 hours: This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

**Prerequisite:** Acceptance into the nursing program

## **UNRS 380, Transcultural Health Care Outreach, 2 Units**

This course provides an opportunity for nursing and nonnursing students to explore and understand theoretically based transcultural health care practices. The content serves to stimulate discussion and identify personal perspectives and individual cultural values as well as methods and frameworks appropriate to the development of knowledge related to the health care of individuals, families, and communities.

**Prerequisite:** Acceptance into the nursing program

## **UNRS 381, Transcultural Health Care Outreach - Practicum, 1 Unit**

This course provides an opportunity for nursing and nonnursing students to participate in service and learning in another culture as part of a health care team. It is intended to promote the delivery of health care and health education to underserved populations.

**Prerequisite:** Acceptance into the nursing program

## UNRS 382, Community Health Nursing, 3 Units

This course focuses on the study of principles and practices involved in community health nursing, with emphasis on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings. Collaboration with community-based organizations and services that provide health promotion, disease prevention, maintenance during chronic illness, and client education services to individuals, families, and aggregates is an essential component of this course. A review of legal mandates and regulations specific to community-based care, analysis of the healthcare needs within a community, and exploration of issues such as liberty, equality, terrorism, crisis, and disasters are included. Lecture, 1 unit (1 hour/week); clinical practicum, 2 units (90 hours/semester). *Meets the General Education Requirement: Civic Knowledge and Engagement.*

Special Fee Applies

Acceptance into the nursing program; corequisite: UNRS 382P.

## UNRS 382P, Community Health Nursing Practicum, 0 Units

UNRS 382 Clinical Practicum

**Corequisite:** UNRS 382

## UNRS 383, International Health Nursing, 3-5 Units

This course focuses on clinical observation of and participation in international healthcare settings, using a cross-cultural educational experience to give students a global perspective of healthcare issues. Students develop intercultural competence as they engage with people from diverse cultures with compassion and respect, and foster a commitment to global service, scholarship, and boundary-crossing community. Lecture, 1 unit; clinical practicum, 2-4 units. *Meets the General Education Requirement: Intercultural Competence.*

Special Fee Applies

Acceptance into the nursing program; corequisite: UNRS 383P.

## UNRS 383P, International Health Nursing Practicum, 0 Units

Lecture 1 Unit - Clinical Practicum 2-4 units: This course focuses on clinical observation and participation in international health care settings. The purpose is to broaden the student's worldview through a cross-cultural educational experience and to provide a global perspective of healthcare issues. In addition, it will provide opportunities to develop intercultural competence and foster a commitment to global service, scholarship, and boundary-crossing community.

**Prerequisite:** Acceptance into the nursing program

## UNRS 384, Urban/Rural Health Nursing, 3-5 Units

This course focuses on clinical observation of and participation in urban/rural healthcare settings, using a cross-cultural educational experience to give students a broader perspective of healthcare issues. Students develop intercultural competence as they engage with people from diverse cultures with compassion and respect, and foster a commitment to service, scholarship, and boundary-crossing community in vulnerable urban/rural populations. Lecture, 1 unit; clinical practicum, 2-4 units. *Meets the General Education Requirement: Intercultural Competence.*

**Prerequisite:** Acceptance into the Nursing Program;

**Corequisite:** UNRS 384P (Practicum)

## UNRS 384P, Urban Health Nursing Practicum, 0 Units

Lecture 1 Unit - Clinical Practicum 2-4 units: This course focuses on clinical observation and participation in urban health care settings. The purpose is to broaden the student's worldview through a cross-cultural educational experience and to provide a global perspective of healthcare issues. In addition, it will provide opportunities to develop intercultural competence and will foster a commitment to service, scholarship, and boundary-crossing community in vulnerable urban populations.

**Prerequisite:** Acceptance into the nursing program

## UNRS 402, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units

Lecture, 2 units; Clinical practicum, 2 units (90 hours/semester): This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Birth preparation, prenatal care, intrapartal, normal neonatal, and postpartum care with concurrent clinical experiences are introduced.

Special Fee Applies

**Corequisite:** UNRS 402P; Must be accepted into the Nursing Program

## UNRS 402P, Nursing Care in Maternal, Newborn, and Women's Health Practicum, 0 Units

## UNRS 403, Leadership and Management in Professional Practice, 2 Units

Theory, 2 hours. This course emphasizes leadership and management theory in a number of applications and health care settings. It assists the upcoming graduate in adjusting to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to the health care settings are presented with an emphasis on critical thinking, character development and leadership competencies, quality outcomes, and safety goal achievement for optimal patient care.

**Prerequisite:** Acceptance into the Nursing Program. Note: Per the progression schedule for the Traditional BSN program students, UNRS403 is taken in the same semester as UNRS404/404P and UNRS402/402P.

## **UNRS 404, Nursing Care of Children and Young Adults, 4 Units**

Lecture, 2 units; Clinical practicum, 2 units (90 hours/semester): This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship of the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.

Special Fee Applies

**Corequisites:** UNRS 404P and UNRS 403 or UNRS 403H; Must be accepted into the Nursing Program.

## **UNRS 404P, Nursing Care of Children and Young Adults Practicum, 0 Units**

## **UNRS 411, Advanced Nursing Care of Adults and Aging, 5 Units**

Lecture, 2 units; Clinical practicum, 3 units (135 hours/semester); This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The area of focus is caring for critically ill clients and their families with complex health needs in a critical-care setting. Legal and ethical issues related to acute care are included.

Special Fee Applies

**Corequisite:** UNRS 411P

## **UNRS 411P, Advanced Nursing Care of Adults & Aging - Practicum, 0 Units**

## **UNRS 412, Clinical Residency Nursing, 2 Units**

This clinical residency is an experiential internship program comprising a collaborative partnership between the School of Nursing and selected community in-patient healthcare organizations. This intensive program helps student nurses, under the supervision of preceptors, transition to beginning professional nurses in acute-care settings. It also enhances the skills and practice knowledge of students in preparation for the RN examination. Clinical practicum, 90 hours/semester. *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** UNRS 411 and UNRS 411P

## **UNRS 425, Nursing Research, 3 Units**

Lecture, 3 units: This course introduces the steps in the research process. Emphasis is placed on the principles and methods of the research process, including how this process contributes to the development of nursing knowledge and the improvement of nursing practice. This historical evolution of nursing research is examined and current issues impacting nursing research are analyzed. Ethical considerations and rights of human subjects are explored. Students have the opportunity to evaluate selected nursing studies throughout the semester in small groups with faculty input and guidance.

**Prerequisite:** UNRS 299; Must be accepted into the Nursing Program

## **UNRS 436, Fundamentals of Case Management, 3 Units**

Theory, 2 units; Practicum, 1 unit: This is an introductory course for senior-level students covering the principles of case management, roles and responsibilities of the case manager, case management tools, plans and methods, issues (including legal ones), and how case management improves patient and hospital outcomes. It is designed to give an overview of what case management is and how a nurse can utilize these tools and skills to advance clinical practices. It is an elective course.

Special Fee Applies

**Prerequisite:** Acceptance into the Nursing Program.

**Corequisite:** UNRS 436P (Practicum)

## **UNRS 436P, Fund of Case Mgmt Practicum, 0 Units**

## **UNRS 444, Clinical Specialization Elective, 1-2 Units**

This elective clinical is a clinical specialty experiential course designed as a collaborative partnership with selected community health care organizations. This is an intensive preceptored clinical experience planned to ease the role transition from student nurse to a beginning professional nurse in a specialized setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination.

**Prerequisite:** One of the following: UNRS 402 (for OB), UNRS 404 (for Peds), UNRS 310 (for Mental Health Nursing), UNRS 382 (for Community Health). If taken for two units instructor consent is required. Co-Requisite UNRS 411.

## **UNRS 445, Applied Pharmacology, 2 Units**

This course enhances students' ability to apply knowledge acquired in the basic pharmacology course by helping them utilize critical thinking skills at a more advanced level. Emphasis is on the application of pharmacokinetics, pharmacodynamics, and pharmacotherapeutics of major drug categories used to manage common patient disorders across the life span in clinical nursing practice.

**Prerequisite:** Acceptance into the nursing program

## **UNRS 495, Special Topics in Nursing, 1-4 Units**

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development, and/or to develop a particular project. May be repeated for credit as the topic varies.

**Prerequisite:** Acceptance into the nursing program

## UNRS 496, Writing 3: Ethics and Issues in Health Care, 4 Units

This course focuses on the integration of Christian faith, ethical concerns, and issues and trends in health care that nurses encounter in their work life. Students develop their abilities as independent thinkers in order to construct bodies of knowledge, and communicate what they are learning through reading, dialogue, debate, peer critique, presentations, and the development and refinement of written pieces. The capstone project for this course is a comprehensive research paper and formal presentation demonstrating scholarship and readiness to contribute to the nursing profession. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

Special Fee Applies

**Prerequisite:** Senior standing in the School of Nursing; UNRS 306

## UNRS 497, Readings, 1-4 Units

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## UNRS 498, Directed Research, 1-4 Units

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

**Prerequisite:** Junior or Senior Standing

## UNRS 499, Thesis/Project, 1-4 Units

This is a senior-level 'capstone' type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, or electronic media. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

**Prerequisite:** Upper-division writing intensive course or instructor consent; and junior or senior standing

## Faculty

### Dean

Aja Tulleners Lesh (<http://www.apu.edu/faculty/alesh/>), PhD, RN

### Senior Associate Dean

Renee Pozza (<http://www.apu.edu/faculty/rpozza/>), PhD, RN, CNS, FNP-BC, FAASLD, Senior Associate Dean of Academic Initiatives and Innovation

### Associate Deans

# Baccalaureate Nursing Programs

The School of Nursing baccalaureate programs are accredited by the Commission on Collegiate Nursing Education (<http://www.aacnnursing.org/CCNE/>) and approved by the California Board of Registered Nursing (<http://www.rn.ca.gov/>). The prelicensure programs enable students to take the California Board of Registered Nursing examination for RN licensure, and graduates are eligible to apply for a California Public Health Nurse (PHN) certificate. The School of Nursing also offers options for the registered nurse (RN) and the licensed vocational nurse (LVN) leading to a Bachelor of Science in Nursing.

**General Education Note:** Nursing majors are not required to take health education as part of their General Education requirements (p. 1147). (p. 1159)

## Program Options

The School of Nursing offers:

1. Traditional Bachelor of Science in Nursing (BSN) (p. 942)
2. Bachelor of Science in Nursing (BSN) Upper-Division Transfer Program (p. 929)
3. Licensed Vocational Nurse (LVN) to Bachelor of Science in Nursing (BSN) (p. 929)
4. Licensed Vocational Nurse (LVN) to Registered Nurse (RN) (p. 929)
5. Registered Nurse (RN) to Bachelor of Science in Nursing (BSN) Degree Completion Program (p. 926)

NOTE: Students are encouraged to consult with their advisor if they have questions regarding coursework needed to meet graduation requirements.

## Baccalaureate Nursing Programs At A Glance

### Traditional Bachelor of Science in Nursing (BSN)

Designed primarily for recent high school graduates who will be admitted as first-year university students.<sup>1</sup>

Based on a cohort model, students are accepted into the program and progress through the curriculum in sequence with an assigned group of students.

All coursework assigned to a specific semester is prerequisite for progression to the next semester.

### BSN Upper-Division Transfer Program

Designed for transfer students interested in pursuing a baccalaureate degree in nursing.<sup>1</sup>

Based on a cohort model, students are accepted into the program and progress through the curriculum in sequence with an assigned group of students.

All coursework assigned to a specific semester is prerequisite for progression to the next semester.

### RN to BSN Degree Completion Program

Designed specifically for adult learners who have an RN license or are currently enrolled in an ADN program (Bridge to BSN option) and desire to complete their baccalaureate degree while continuing to work.

Based on a field-based modular design, cohort module.

Each student cohort has a primary advisor who provides guidance, direction, and mentorship to enrolled students.

### LVN to BSN and LVN to RN

Two programs are available to the Licensed Vocational Nurse (LVN): the LVN to BSN and LVN to RN (30-unit option).

Both programs are available on a space-available basis for clinical and didactic coursework.

Licensed Vocational Nurses are evaluated on an individual basis.

<sup>1</sup> Once accepted into an option, students must remain in that option for the duration of the program.

## Admission to the Bachelor of Science in Nursing (BSN) Programs

Admission to the university does not guarantee admission into the School of Nursing. Students interested in admission into a School of Nursing BSN program must indicate their desire on their application to the university. Students applying to the traditional BSN program should apply through the Office of Undergraduate Admissions (<https://www.apu.edu/undergraduate-admissions/>); students applying to the BSN Upper-Division Transfer Program (BSN Transfer and LVN options) or RN to BSN programs should apply through the Office of Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>).

Applicants will be reviewed by a School of Nursing Admissions Committee for possible admission into the university as well as one of the BSN programs: the traditional program, the BSN Upper-Division Transfer Program (BSN Transfer and LVN options), or the RN to BSN program.

Determinations will be made and two separate letters will be sent to applicants indicating 1) whether they have been accepted into the university and 2) whether they have been accepted into one of the BSN programs. Once accepted into a program, students must remain in that program for the duration of the nursing program.

Applicants who are not accepted into one of the BSN programs may still be admitted to the university. These applicants may consider coursework in preparation for application to the Entry-Level Master of Science in Nursing (ELM) program (p. 967), designed for students who have completed a baccalaureate degree in another major but are interested in pursuing a career in nursing.

**The School of Nursing reserves the right to change the curriculum and degree requirements as deemed necessary. Refer to the School of Nursing Handbook, which includes program-specific guidelines and detailed descriptions of course and program requirements.**

## **Program Learning Outcomes**

### **Program Learning Outcomes**

Students who successfully complete this program shall be able to:

1. Use a Christian worldview to integrate beliefs, values, ethics, and service in personal and professional life.
2. Provide nursing care utilizing professional knowledge and core competencies (critical thinking, communication, assessment, and technical skills) derived from a foundation of nursing science, General Education, and religious studies.
3. Demonstrate initiative for continual personal and professional growth and development.
4. Act as a patient educator and advocate to promote optimal health and well-being.
5. Function independently and collaboratively, as a leader and/or member of the healthcare team, to manage and coordinate care.

# Department of RN to BSN

The RN to BSN (p. 928) degree completion program offers an alternative to the traditional method of pursuing a college nursing degree. The program is designed for adult learners who have an RN license or are enrolled in an accredited associate's degree in nursing (ADN) program and desire to complete a Bachelor of Science in Nursing (BSN). The program is a field-based modular design, delivered to cohort groups. Each student has an advisor who provides system guidance, directs special projects, and serves as mentor to individual learners.

Prospective students include registered nurses (RNs) working in hospitals and other areas of health care, as well as students enrolled in accredited ADN programs at community colleges.

The Bridge to BSN (<http://www.apu.edu/nursing/programs/bridge-to-bsn/>) option is designed for ADN students enrolled at a community college who wish to get an early start on coursework for the Bachelor of Science in Nursing (BSN) degree. BSN coursework is offered during summer sessions. After completion of their ADN program, students will complete remaining coursework to obtain their BSN from Azusa Pacific University. Admission requirements for the RN to BSN program must be met and the RN license obtained prior to taking upper-division clinical courses.

The Concurrent ADN to BSN enrollment option is a BSN completion program offered only with select community college ADN programs. Students enrolled in select partner community college ADN programs may apply for this BSN completion program in which they will start coursework as an APU student in semester one of their ADN program, taking courses concurrently with APU and the community college ADN program. This accelerated program allows students to complete the ADN from their community college *and* complete the BSN degree within two semesters of graduation from the ADN program.

The accelerated RN to BSN program is based on the same philosophy, purposes, graduate characteristics, and conceptual framework as the traditional undergraduate program. However, in recognition of the special needs and skills of the working adult, the curriculum is packaged to accommodate the adult student. The nursing courses are presented in sequence in a modular arrangement of content. Courses are designed to affirm personal and professional strengths. The teaching/learning process is collaborative—the experiences and insights that student contribute are a vital part of class activities.

Students join cohorts and progress through the courses together. Courses are taught sequentially, and the rich diversity of experiences that students contribute results in lively discussions involving shared experiences. Because students often stay with the same group throughout the program, they develop a strong rapport with other group members who act as a support system through the completion of the degree.

Classes are offered one night a week on site or in an asynchronous online program. The same night of the week is used for on-site groups throughout their program.

Students may complete a BSN degree in approximately 15 months. In this accelerated format, a 40-semester-unit curriculum is concentrated into 60 weeks.

## Admission Requirements for RN to BSN Students

A minimum of 120 semester units of credit are required for the BSN. To be admitted to the 60-week accelerated RN to BSN program, a student must:

1. Provide a copy of RN license in good standing before starting clinical courses.
2. Graduate from an accredited associate degree program or diploma nursing program.
3. Have a minimum of 60 transferable semester units from an accredited college or university with a minimum GPA of 3.0. (2.7 GPA and above considered for provisional admission).
4. Submit official transcripts from all schools attended.
5. Provide two letters of recommendation.

## Admission Requirements for Bridge to BSN Students

A minimum of 120 semester units of credit are required for the BSN. To be admitted to the sequential enrollment, a student must:

1. Be currently enrolled in an accredited ADN program.
2. Have a minimum GPA of 3.0. (2.7 GPA and above considered for provisional admission).
3. Submit official transcripts from all schools attended.
4. Provide two letters of recommendation.

The program is not recommended for students who lack proficiency in basic academic skills, especially collegiate-level English communication skills.

International applicants with an F or J visa are not qualified for this program. International applicants with any other types of visa should consult with the International Center (<http://www.apu.edu/international/>) first at +1-626-812-3055 or [international@apu.edu](mailto:international@apu.edu).

## Admission Requirements for Concurrent Enrollment ADN to BSN Students

Students apply for the concurrent enrollment program with their community college ADN program application. A joint admissions committee of APU and the community college review applicants using admission requirements and recommendations from the community college. Once a student is accepted into the concurrent program, a progression schedule is reviewed by the student and the advisors, and courses must be taken in the assigned sequence. Students already enrolled in an ADN program do not qualify for concurrent enrollment. Students are required to complete 120 semester units of credit for the BSN, and official transcripts are required from all schools attended.

## Programs

- RN to BSN Degree Completion Program (p. 928)

# RN to BSN Degree Completion Program

40 units

## Requirements

The RN to BSN degree completion program (<https://www.apu.edu/nursing/programs/rn-to-bsn/>) (also available online) comprises the following:

Note: A total of 120 units is required to complete the BSN degree.

| Code   | Title   | Units |
|--|---|-------|
| <b>Prerequisite Courses</b> <sup>1</sup>           |   |       |
| <b>General Education Requirements</b> <sup>1</sup> |   |       |
| <b>Electives</b> <sup>2, 3</sup>                   |   |       |
| <b>Accelerated RN to BSN Courses</b>               |   |       |
| RNRS 321   | Health Assessment   | 5     |
| RNRS 327   | Nursing Research and Statistics   | 4     |
| RNRS 368   | Pathophysiology   | 5     |
| RNRS 396   | Professional Practice: Ethics, Issues, and Spirituality in Health Care <sup>4</sup> | 6     |
| RNRS 458   | Writing 3: Evidence-Based Practice, Theory, and Clinical Pathways <sup>5</sup>      | 5     |
| RNRS 469   | Improving Patient Outcomes: Quality, Safety, and Risk Management                    | 5     |
| RNRS 479   | Population Health and Public Health Nursing   | 4     |
| RNRS 480   | Community Health and Care Transitions   | 4     |
| RNRS 482P  | Clinical Practicum <sup>6</sup>   | 2     |
| Total Units  |   | 40    |

<sup>1</sup> The majority of General Education requirements are met through the ADN (IGETC or CSU), with the exception of a Writing 3 course, the Upper-Division Bible requirement, and the Integrative and Applied Learning requirement, which are met in RNRS course requirements RNRS 458, RNRS 396, and RNRS 482P, respectively.

<sup>2</sup> The number of elective units required is based on the number of units transferred into the RN to BSN degree completion program. Elective courses may be taken to achieve the total 120 units required for the BSN degree.

<sup>3</sup> For students with limited work experience, two elective transition-to-practice courses are offered: RNRS 298 and RNRS 299.

<sup>4</sup> Meets the General Education Upper-Division Bible requirement.

<sup>5</sup> Meets the General Education Writing 3 requirement

<sup>6</sup> Meets the General Education Integrative and Applied Learning requirement.

## Concurrent Enrollment Option

The 40-unit RN-BSN Concurrent Enrollment Option allows students to begin RN-BSN program coursework during their first semester of nursing school in an external Associate's Degree in Nursing (ADN) program; this is in contrast to the RN-BSN bachelor's completion program (for students who have graduated from an ADN program) and the Summer Bridge Option (for students enrolled in an ADN program who begin degree completion courses during the summer). Dual-enrollment students need to be enrolled in an ADN program and must maintain a 3.0 GPA during their combined coursework. Two letters of recommendation are required from ADN program faculty.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilizes Christian worldview to integrate beliefs, values, ethics and service in personal and professional life.
2. Provides nursing care utilizing professional knowledge and core competencies (critical thinking, communication, assessment and technical skills) derived from a foundation of nursing science, general education and religious studies.
3. Demonstrates initiative for continual personal and professional growth and development.
4. Acts as a patient and family educator and advocate to promote optimal health and well-being.
5. Functions independently and collaboratively, both as a leader and/or member of a health care team to manage and coordinate care.

# Department of Upper-Division BSN Transfer

The School of Nursing offers several professional programs at the baccalaureate level designed for students who bring previous experience and learning and want to advance their nursing career and complete their degree. The BSN Upper-Division Transfer Program provides options for students with at least 48 units of transferable nursing prerequisite courses or Licensed Vocational Nurses (LVNs) to complete coursework that leads to a Bachelor of Science in Nursing.

## BSN Upper-Division Transfer Program Options

- The BSN Transfer Option (p. 938) is designed for transfer students interested in pursuing a Bachelor of Science in Nursing (BSN). The program enables students with at least 48 units of transferable nursing prerequisite courses to complete the nursing major in six consecutive semesters (two years, including summers) at APU.
- LVN Options: APU's School of Nursing offers two programs for the licensed vocational nurse (LVN)—the LVN to BSN Option (p. 938) and LVN to RN 30-Unit Option (p. 938). The School of Nursing acknowledges that licensed vocational nurses acquire formal nursing training, continuing education units, and on-the-job experiences (possibly including military experiences) that may be assessed for academic credit. The Council for Adult and Experiential Learning (CAEL) (<https://www.cael.org/>) guidelines and the American Council on Education (ACE) (<http://www.acenet.edu/Pages/default.aspx>) are used to ensure a responsible evaluation. Students are evaluated individually. Open enrollment is available for the fall, spring, and summer semesters.

## Courses

### RNRS 221, Health Assessment, 3 Units

This course provides the nursing student with skills in physical and psychosocial assessment of adult clients. History-taking and physical examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built.

### RNRS 272, Professional Concepts in Nursing, 4 Units

This course is designed to provide an introduction to theories, concepts and roles that help define the profession of nursing. Utilization of the nursing process to provide safe care is analyzed. Concepts of informatics, group dynamics, conflict/management, and techniques to analyze and solve problems are examined. Evidence based nursing practice is introduced through instruction in Library/data base searches.

### RNRS 298, Communication and Teamwork in Patient and Family Centered Care, 3 Units

This elective course is designed to simulate and enhance clinical experiences for the inexperienced graduate licensed RN entering the RN to BSN Accelerated Degree Program. Thirty-six hours of clinical experience will be completed in a healthcare setting with a preceptor. Concepts related to communication and teamwork are emphasized.

**Prerequisite:** Admission requirements for admission into the RN-BSN program apply

### RNRS 299, Transition to Professional Practice, 3 Units

This is a bridge course designed to be taken by inexperienced licensed RN's who are admitted to the RN to BSN program. Completion of the course provides the new RN experience with effective decision making skills related to clinical judgment and performance in the clinical setting as well as ways to incorporate evidence based interventions in the practice setting. This course includes a clinical/simulation component with participation in an online post conference discussion board.

**Prerequisite:** RNRS 298

### RNRS 307, Theoretical Frameworks in Nursing, 3 Units

The focus of this course is exploration and integration of theoretical models in stress, development and health care adaptation as applied to nursing practice. Through writing and experiential activities the students will express a knowledge of family assessment and analysis of the family unit utilizing a variety of theoretical models.

### RNRS 321, Health Assessment, 5 Units

This course develops the nursing student's history taking and assessment skills across the life span. Analysis of health data and identification of risks, including genetics and genomics in specific groups, are emphasized. Culturally sensitive interventions and evidence-based practice are discussed to reduce risk and promote health.

### RNRS 327, Nursing Research and Statistics, 4 Units

This course introduces the steps in the nursing research process, with emphasis on principles and methods. Basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for professional nurses are addressed. Current issues impacting nursing research are analyzed. Ethical considerations and rights of human subjects are explored.

**Prerequisite:** The RN-BSN program is designed with a specific course sequence determined by the School of Nursing. A progression schedule is reviewed by the student and advisor after program acceptance. Courses must be taken in the assigned sequence.

### **RNRS 358, Writing 3: Evidence-Based Practice in Nursing and Healthcare, 3 Units**

The focus of this course is to integrate evidence-based clinical practice into the current healthcare systems. The student will review and evaluate the clinical and research literature for application to practice. The process of an integrative literature review and the development of writing skills specific to the discipline of nursing will be conducted. Select research designs frequently used in practice settings will be explored. Quality improvement strategies, methods and issues will be discussed and applied to practice. Meets the General Studies Writing Three requirement. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

**Prerequisite:** Writing 2, Current enrollment in the RN to BSN Program is required

### **RNRS 368, Pathophysiology, 5 Units**

This course presents an introduction to alterations in health status across the life span and their applications to nursing practice. Major pathophysiologic concepts are explored using a body systems approach. Theories relating to etiology, pathogenesis, and clinical manifestations are used to study selected disease processes. Mechanisms causing alterations in cellular function and environment, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, genetics processes, and neuroendocrine control of the body are included. Concepts from anatomy and physiology courses are considered prerequisite and provide the foundation for exploring human dysfunction.

### **RNRS 396, Professional Practice: Ethics, Issues, and Spirituality in Health Care, 6 Units**

This course focuses on the examination and application of the religious, theological, philosophical, and cultural foundations of ethics in professional nursing practice. Participants develop knowledge and skills in ethical decision making that are theoretically sound, evidence based, holistic, and applicable to current healthcare issues. The course also addresses the expanding roles and responsibilities of professional nurses in meeting the healthcare needs of a dynamic society, with attention to the spiritual formation of nurses. *Meets the General Education Requirement: UP Bible Requirement.*

**Prerequisite:** The RN-BSN program is designed with a specific course sequence determined by the School of Nursing. A progression schedule is reviewed by the student and advisor after program acceptance. Courses must be taken in the assigned sequence.

### **RNRS 412, Spiritual Formation and the Profession of Nursing, 3 Units**

This course guides students as they examine and articulated the Christian worldview, which can be applied personally and to the broader issues of society. This knowledge allows the students to develop and implement an integrated approach to nursing and the common good, and formulate responses to the worldview aspect of current professional and social issues.

### **RNRS 448, Leadership in Health Care Settings, 6 Units**

This course presents concepts of organizational and systems leadership and management. Today's health care systems related to patient safety are addressed. The content examines inter-professional teamwork and collaboration, shared decision making, and major nursing roles. The quality improvement process is investigated as to its ability to continuously improve the quality & safety of the health care system. The relationship between the health care system's effectiveness and individual performance in securing patient safety and quality outcomes are identified. Integration of EBP with clinical practice and the role of Informatics to communicate, manage knowledge, mitigate error, and support decision making are developed. Health care policy, finance, and regulatory agency/environments are examined. Ninety hours of practicum are required to establish competency in this course.

**Prerequisite:** Enrollment in the RN to BSN Program

### **RNRS 449, Theory and Practice in Community Health Settings, 6 Units**

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings. Collaborating with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care is included. A multiple theoretical focus that includes concepts from systems, stress, adaptation, development, and role theory is emphasized.

### **RNRS 458, Writing 3: Evidence-Based Practice, Theory, and Clinical Pathways, 5 Units**

The focus of this course is exploration and integration of the evidence-based practice (EBP) process, including EBP implementation and critique of clinical pathways within individual organizations, and the role of informatics in health care and its importance in evidence-based practice. Theoretical nursing and nonnursing models are reviewed, with a focus on examining how theoretical principles are reflected in professional practice. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

### **RNRS 469, Improving Patient Outcomes: Quality, Safety, and Risk Management, 5 Units**

The focus of this course is the implementation of quality and safety mechanisms into clinical practice to improve patient outcomes. Utilizing national standards for quality and safety in health care, students examine initiatives necessary to improve patient outcomes. Concepts of informatics, patient-centered care, leadership, inter- and intraprofessional teamwork, collaboration, and communication are addressed.

## **RNRS 479, Population Health and Public Health Nursing, 4 Units**

This course focuses on population-based public health nursing practice. The assessment of systematic differences in outcomes across populations, including the complexity of interactions among health determinants (such as social environment, resource allocation, and biological pathways), provides the foundation for public health nursing practice. Exploration of how these determinants exert their influence over time and throughout the life cycle, with variations in their patterns of occurrence (including health inequities and inequalities), is central to the course. The role of the public health nurse in assessing and understanding health systems and the health status of a population is emphasized.

**Corequisite:** RNRS 482P

## **RNRS 480, Community Health and Care Transitions, 4 Units**

This course builds on the concepts of population health and public health nursing and describes the interaction of the nurse and the client in the home and in the community. Given an assessment of a community's priority health needs, students use course content to identify change-agent functions to promote and preserve health and to prevent disease and disability. All levels of prevention for the individual, family, and community system are addressed as community health nursing interventions. Course topics include the role of community health nursing in supporting care transitions across varied clinical and community settings, legal and regulatory considerations, and ethical issues related to community health.

**Prerequisite:** RNRS 479;

**Corequisite:** RNRS 482P

## **RNRS 482P, Clinical Practicum, 2 Units**

This course is the clinical component to RNRS 479 Population Health and Public Health Nursing and RNRS 480 Community Health and Care Transitions. The focus of this course is on students implementing the systematic assessment of a community health population and creating an intervention that supports health promotion and disease prevention. Students develop a strategy for change, guided by epidemiological evidence and an understanding of the complex determinants of health, for implementation in collaboration with community resources and other health professionals.

*Meets the General Education Requirement: Integrative and Applied Learning.*

**Corequisites:** RNRS 479 and RNRS 480

## **RNRS 495, Special Topics in Nursing, 1-4 Units**

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. This course may be repeated for credit as the topic varies.

## **RNRS 497, Ethics and Issues in Health Care, 4 Units**

This course focuses on the integration of Christian faith, ethical issues, and professional concerns, which confront nurses in their work life. It also includes consideration of issues and trends in health care and nursing. Integration of such concerns as providers of health care, education of the health care professional, and consumerism with ethical concerns are investigated. This course also contains a comprehensive paper written on a bioethical issue, which meets the senior writing requirement. Each week there is a discussion period around ethical concerns, which correlates to the material presented in class.

## **RNRS 499, Readings, 1-4 Units**

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

## **UNRS 105, Foundations in Professional Nursing/Aging, 6 Units**

Lecture 3 units; Clinical practicum 3 units (135 hours/semester) This course focuses on the nursing process and introductory concepts crucial to professional nursing care, including interviewing, wellness, health promotion, and illness prevention. The clinical practicum includes application of concepts and acquisition of nursing knowledge and skills needed to provide healthcare to the healthy aging and hospitalized adult and aging client utilizing the nursing process to plan care based on human needs, problems of immobility, and pain.

Special Fee Applies

**Prerequisite:** Acceptance into the Nursing Program.

**Corequisite:** UNRS 105P (Practicum)

## **UNRS 105P, Foundations in Professional Nursing - Practicum, 0 Units**

UNRS 105 Clinical Practicum

**Corequisite** UNRS 105; Acceptance into the nursing program

## **UNRS 106, Foundations of Professional Nursing/Aging, 6 Units**

This course focuses on the nursing process and introductory concepts crucial to professional nursing care, including interviewing, wellness, health promotion, and illness prevention. The clinical practicum includes application of concepts and acquisition of nursing knowledge and skills needed to provide health care to the healthy aging and hospitalized adults and aging, utilizing the nursing process to plan care based on human needs, problems of immobility, and pain.

**Corequisite:** UNRS 106P

## **UNRS 106P, Foundations of Professional Nursing/Aging Practicum, 0 Units**

UNRS 106 Clinical Practicum

**Corequisite:** UNRS 106

## UNRS 113, Pharmacology, 2 Units

Lecture, 2 units This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.

## UNRS 120, Fundamentals of Human Nutrition, 3 Units

Lecture: 3 units Principles of human nutrition are the focus of this course, including nutrient functions, metabolism, and changing needs across the lifespan. Nutrient deficiency and toxicity signs and symptoms are covered. Implications of a poor diet on the development of chronic disease are explored. Various nutrient analysis methods are used.

## UNRS 212, Nursing Care of Adults/Aging, 6 Units

Lecture 3 units; Clinical practicum 3 units (135 hours/semester) This course involves application of biological, psychosocial, and spiritual concepts to adult and aging clients experiencing the stress of an acute or chronic alteration in physical health within the medical surgical setting. The nursing process is utilized to provide care to one or two clients within the health care delivery system of an acute hospital, skilled nursing facility, or transitional care unit, and extending to the community.

Special Fee Applies

**Prerequisite:** Acceptance into the Nursing Program;

**Corequisite:** UNRS 212P

## UNRS 212P, Nursing Care Of Adults/Aging Practicum, 0 Units

UNRS 212 Clinical Practicum

**Corequisite:** UNRS 212

## UNRS 220, Health Assessment, 3 Units

Lecture, 2 units; Laboratory, 1 unit (45 hours): This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physical-examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included. RNs take this course in the summer.

Special Fee Applies

**Prerequisite:** Must be accepted into the Nursing Program.

## UNRS 240, Medical Spanish, 2 Units

This medical Spanish class is designed especially for nursing. Practical Spanish communication in real-life medical situations for beginners is emphasized. Pronunciation, intonation, and structure of Spanish within a framework designed to develop basic listening, speaking, reading and writing skills will be taught. Special cultural presentations supplement language study.

## UNRS 260, Nutrition, 2 Units

Lecture 2 units; Foundations of nutrition in the prevention of chronic disease are explored. Pathophysiology of various disease states and appropriate medical nutrition therapy are understood. Nursing's role in nutrition assessment is appreciated with respect to patient weight change, intake adequacy, gastrointestinal symptoms affecting nutrient absorption, and activities of daily living. Students perform dietary recalls, nutrient analyses, and anthropometric assessments. Evidence-based nutrition care for gastrointestinal diseases, cardiovascular diseases, diabetes, metabolic syndrome, energy balance and weight control, bone disease, and renal disease are addressed. Coverage of alternate feeding methods and issues surrounding drug-nutrient interactions are included. To expand their knowledge in these areas, students complete case studies. Opportunities to present prevention of disease through nutrition education in the community are offered.

**Prerequisite:** CHEM 123 or PRCH 123 or department approval if a non-nursing major

## UNRS 270, Professional Concepts in Nursing, 3 Units

Theory, 3 hours/Week: This 'bridge' course is designed for transfer students who are not required to take UNRS 105 (LVNs and RNs and students with nursing transfer credits who are entering the baccalaureate nursing program). It provides an introduction to the theories and concepts of professional nursing. The nursing process is presented and utilized as the basis for planning care as applied to patients. The content also includes discussion of current issues and trends in nursing and compilation of a professional portfolio.

**Prerequisite:** Acceptance into the nursing program

## UNRS 271, Theories and Concepts in Professional Nursing, 2 Units

This course provides an introduction to the theories and concepts of professional nursing. The nursing process is presented and utilized as the basis for planning care as applied to patients. The content also includes discussion of current issues and trends in nursing and compilation of a professional portfolio.

**Prerequisite:** Acceptance into the nursing program

## **UNRS 280, Life Cycle Nutrition, 3 Units**

Lecture 3 units: This course examines nutrient needs of individuals throughout various life stages: preconception, pregnancy, lactation, infancy, preschool years, middle childhood, pre-adolescence, adolescence, adulthood and late adulthood. Students understand the changing nutrient requirements through the lifecycle and apply this knowledge through special topic presentations and in the development of teaching tools that can be used for public education audiences. This is a service-learning course.

**Prerequisite:** BIOL 101, CHEM 123, UNRS 120, PSYC 290

## **UNRS 281, Introduction to Global Healthcare, 1 Unit**

A seminar or online format is utilized to introduce students to major aspects of the global healthcare experience such as the development of an understanding of the expectations and responsibilities related to international travel, an appreciation of other cultures, and the integration into another culture, the in-country experience, and the re-entry into the home country upon return.

**Prerequisite:** UNRS 282 (may be taken concurrently)

## **UNRS 282, Transcultural Health Care: Country Specific, 3 Units**

Lecture 1 unit; Clinical practicum 2 units (90 hours/semester): Through seminar, journal writing and a variety of clinical experiences, students are introduced to the theoretical basis of transcultural nursing practices and provided with an opportunity to formulate personal perspectives and individual cultural values that promote high quality professional nursing worldwide.

Special Fee Applies

**Prerequisite:** UNRS 105, UNRS 113, UNRS 220; UNRS 281 (May be taken concurrently)

## **UNRS 282P, Transcultural Health Care: Country Specific- Practicum, 0 Units**

UNRS 282 Clinical Practicum

**Prerequisite:** UNRS 105, UNRS 113, UNRS 220; Corequisite UNRS 282

UNRS 105, UNRS 113, UNRS 220; Corequisite UNRS 282

## **UNRS 299, Statistics and Data Management for Nursing and Health Care, 3 Units**

This course covers basic statistical concepts and methods of collecting, summarizing, presenting, and interpreting data for professional nurses and students pursuing healthcare professions. Among the topics covered are graphing, measures of central tendency and variability, the normal curve, hypothesis testing, correlation and regression, and topics in probability that can be applied in real-world situations. *Meets the General Education Requirement: Quantitative Literacy (Math).*

**Prerequisite:** MATH 95 or an appropriate score on the APU mathematics proficiency exam or SAT Math score of 540 or ACT Math score of 23.

Admission to the School of Nursing, or Pre-Admitted Nursing status and admission to the Honors College.

## **UNRS 300, Complementary and Alternative Therapies: Herbs, Supplements, and Nutrition, 3 Units**

This course provides an introduction to therapies currently used as complements to Western medicine. Emphasis is on naturopathic medicine and biologically based therapies such as foods, special diets, herbal remedies, and dietary supplements. The course reviews potential risks and interactions between conventional and complementary and alternative therapies. The course examines agencies devoted to informing and protecting consumers and health care practitioners.

**Prerequisite:** BIOL 101 or BIOL 151, and CHEM 123. Instructor permission required if non-nursing major.

## **UNRS 306, Writing 2: Theoretical Frameworks in Nursing, 3 Units**

Students in this course learn to utilize a variety of genres of scientific writing while exploring, integrating, and applying theoretical models of stress, development, and health care adaptation to nursing practice. Students examine writing samples from various methodological perspectives and practice a variety of writing styles and forms of argument considered persuasive in the sciences. They also develop basic proficiency in the use of APA style.

*Meets the General Education Requirement: Writing 2: Genre, Evidence, and Persuasion.*

**Prerequisite:** C- or better in PRWR 110; acceptance into the nursing program.

## **UNRS 310, Mental Health Nursing, 4 Units**

Lecture 2 units, Clinical practicum 2 units (90 hours); This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of patients with acute and chronic psychiatric disorders. Short-term evaluation and treatment experiences are offered utilizing milieu, individual, group, and family therapy.

Special Fee Applies

**Prerequisite:** Co-requisite: UNRS 310P; Must be accepted into the Nursing Program.

## **UNRS 310P, Mental Health Nursing Practicum, 0 Units**

UNRS 310 Clinical Practicum

**Prerequisite:** Co-Requisite: UNRS 310

## **UNRS 312, Nursing Management of Adults, 3 Units**

Lecture, 1 unit; Clinical practicum, 2 units (90 hours/semester); This course continues the application of biological, psychosocial, and spiritual concepts to adult and aging clients experiencing the stress of an acute or chronic alteration in physical health within the medical surgical setting. Emphasis is on the application of concepts of pathophysiology and pharmacology to the nursing management of acute and chronically ill patients in the medical-surgical setting.

Special Fee Applies

**Corequisites:** UNRS 312P, UNRS 313 and UNRS 313P; Must be accepted into the Nursing Program

## **UNRS 312P, Nursing Management of Adults Practicum, 0 Units**

UNRS 312 Clinical Practicum

**Corequisites:** UNRS 312, UNRS 313 and UNRS 313P

## **UNRS 313, Restorative Nursing, 4 Units**

Lecture 2 units; Clinical practicum 2 units (90 hours/semester); This course focuses on the care of an adult or geriatric client with a chronic health problem. The mental health and spiritual concepts are emphasized. Students are assigned to a rehabilitation or restorative setting.

Special Fee Applies

**Corequisites:** UNRS 312, UNRS 312P and UNRS 313P; Must be accepted into the Nursing Program

## **UNRS 313P, Restorative Nursing Practicum, 0 Units**

UNRS 313 Clinical Practicum

**Corequisites:** UNRS 312, UNRS 312P and UNRS 313

## **UNRS 314, Nursing Management and Restorative Care of Adults, 6 Units**

This course builds on prior knowledge of biological, psychosocial, and spiritual concepts to help adult and aging clients experiencing the stress of an acute or chronic alteration in physical health. Emphasis is on the application of concepts of pathophysiology and pharmacology to the nursing management of acute and chronically ill patients in medical-surgical and rehabilitative or restorative settings.

**Corequisite:** UNRS 314P

## **UNRS 314P, Nursing Management and Restorative Care of Adults Practicum, 0 Units**

UNRS 314 Clinical Practicum

**Corequisite:** UNRS 314

## **UNRS 320, Cultural Aspects of Food and Nutrition, 3 Units**

This course examines the foodways of people around the world. Health benefits and practices of various cultures will be explored along with how industrialization of food influences nutrition content and pricing of foods. Effects of famine on life expectancy and how one's environment or living situation limits access to food are explored. A food lab is included in the course to allow students an opportunity to prepare, taste, and realize a country's particular etiquette practices when dining. Course requires field trips. This is a service-learning course.

**Prerequisite:** UNRS 120, SOC 358, GLBL 301, GLBL 310 or COMM 310

## **UNRS 367, Pathophysiology, 3 Units**

Lecture, 3 hours: This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

**Prerequisite:** Acceptance into the nursing program

## **UNRS 380, Transcultural Health Care Outreach, 2 Units**

This course provides an opportunity for nursing and nonnursing students to explore and understand theoretically based transcultural health care practices. The content serves to stimulate discussion and identify personal perspectives and individual cultural values as well as methods and frameworks appropriate to the development of knowledge related to the health care of individuals, families, and communities.

**Prerequisite:** Acceptance into the nursing program

## **UNRS 381, Transcultural Health Care Outreach - Practicum, 1 Unit**

This course provides an opportunity for nursing and nonnursing students to participate in service and learning in another culture as part of a health care team. It is intended to promote the delivery of health care and health education to underserved populations.

**Prerequisite:** Acceptance into the nursing program

## UNRS 382, Community Health Nursing, 3 Units

This course focuses on the study of principles and practices involved in community health nursing, with emphasis on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings. Collaboration with community-based organizations and services that provide health promotion, disease prevention, maintenance during chronic illness, and client education services to individuals, families, and aggregates is an essential component of this course. A review of legal mandates and regulations specific to community-based care, analysis of the healthcare needs within a community, and exploration of issues such as liberty, equality, terrorism, crisis, and disasters are included. Lecture, 1 unit (1 hour/week); clinical practicum, 2 units (90 hours/semester). *Meets the General Education Requirement: Civic Knowledge and Engagement.*

Special Fee Applies

Acceptance into the nursing program; corequisite: UNRS 382P.

## UNRS 382P, Community Health Nursing Practicum, 0 Units

UNRS 382 Clinical Practicum

**Corequisite:** UNRS 382

## UNRS 383, International Health Nursing, 3-5 Units

This course focuses on clinical observation of and participation in international healthcare settings, using a cross-cultural educational experience to give students a global perspective of healthcare issues. Students develop intercultural competence as they engage with people from diverse cultures with compassion and respect, and foster a commitment to global service, scholarship, and boundary-crossing community. Lecture, 1 unit; clinical practicum, 2-4 units. *Meets the General Education Requirement: Intercultural Competence.*

Special Fee Applies

Acceptance into the nursing program; corequisite: UNRS 383P.

## UNRS 383P, International Health Nursing Practicum, 0 Units

Lecture 1 Unit - Clinical Practicum 2-4 units: This course focuses on clinical observation and participation in international health care settings. The purpose is to broaden the student's worldview through a cross-cultural educational experience and to provide a global perspective of healthcare issues. In addition, it will provide opportunities to develop intercultural competence and foster a commitment to global service, scholarship, and boundary-crossing community.

**Prerequisite:** Acceptance into the nursing program

## UNRS 384, Urban/Rural Health Nursing, 3-5 Units

This course focuses on clinical observation of and participation in urban/rural healthcare settings, using a cross-cultural educational experience to give students a broader perspective of healthcare issues. Students develop intercultural competence as they engage with people from diverse cultures with compassion and respect, and foster a commitment to service, scholarship, and boundary-crossing community in vulnerable urban/rural populations. Lecture, 1 unit; clinical practicum, 2-4 units. *Meets the General Education Requirement: Intercultural Competence.*

**Prerequisite:** Acceptance into the Nursing Program;

**Corequisite:** UNRS 384P (Practicum)

## UNRS 384P, Urban Health Nursing Practicum, 0 Units

Lecture 1 Unit - Clinical Practicum 2-4 units: This course focuses on clinical observation and participation in urban health care settings. The purpose is to broaden the student's worldview through a cross-cultural educational experience and to provide a global perspective of healthcare issues. In addition, it will provide opportunities to develop intercultural competence and will foster a commitment to service, scholarship, and boundary-crossing community in vulnerable urban populations.

**Prerequisite:** Acceptance into the nursing program

## UNRS 402, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units

Lecture, 2 units; Clinical practicum, 2 units (90 hours/semester): This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Birth preparation, prenatal care, intrapartal, normal neonatal, and postpartum care with concurrent clinical experiences are introduced.

Special Fee Applies

**Corequisite:** UNRS 402P; Must be accepted into the Nursing Program

## UNRS 402P, Nursing Care in Maternal, Newborn, and Women's Health Practicum, 0 Units

## UNRS 403, Leadership and Management in Professional Practice, 2 Units

Theory, 2 hours. This course emphasizes leadership and management theory in a number of applications and health care settings. It assists the upcoming graduate in adjusting to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to the health care settings are presented with an emphasis on critical thinking, character development and leadership competencies, quality outcomes, and safety goal achievement for optimal patient care.

**Prerequisite:** Acceptance into the Nursing Program. Note: Per the progression schedule for the Traditional BSN program students, UNRS403 is taken in the same semester as UNRS404/404P and UNRS402/402P.

## **UNRS 404, Nursing Care of Children and Young Adults, 4 Units**

Lecture, 2 units; Clinical practicum, 2 units (90 hours/semester): This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship of the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.

Special Fee Applies

**Corequisites:** UNRS 404P and UNRS 403 or UNRS 403H; Must be accepted into the Nursing Program.

## **UNRS 404P, Nursing Care of Children and Young Adults Practicum, 0 Units**

## **UNRS 411, Advanced Nursing Care of Adults and Aging, 5 Units**

Lecture, 2 units; Clinical practicum, 3 units (135 hours/semester); This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The area of focus is caring for critically ill clients and their families with complex health needs in a critical-care setting. Legal and ethical issues related to acute care are included.

Special Fee Applies

**Corequisite:** UNRS 411P

## **UNRS 411P, Advanced Nursing Care of Adults & Aging - Practicum, 0 Units**

## **UNRS 412, Clinical Residency Nursing, 2 Units**

This clinical residency is an experiential internship program comprising a collaborative partnership between the School of Nursing and selected community in-patient healthcare organizations. This intensive program helps student nurses, under the supervision of preceptors, transition to beginning professional nurses in acute-care settings. It also enhances the skills and practice knowledge of students in preparation for the RN examination. Clinical practicum, 90 hours/semester. *Meets the General Education Requirement: Integrative and Applied Learning.*

**Prerequisite:** UNRS 411 and UNRS 411P

## **UNRS 425, Nursing Research, 3 Units**

Lecture, 3 units: This course introduces the steps in the research process. Emphasis is placed on the principles and methods of the research process, including how this process contributes to the development of nursing knowledge and the improvement of nursing practice. This historical evolution of nursing research is examined and current issues impacting nursing research are analyzed. Ethical considerations and rights of human subjects are explored. Students have the opportunity to evaluate selected nursing studies throughout the semester in small groups with faculty input and guidance.

**Prerequisite:** UNRS 299; Must be accepted into the Nursing Program

## **UNRS 436, Fundamentals of Case Management, 3 Units**

Theory, 2 units; Practicum, 1 unit: This is an introductory course for senior-level students covering the principles of case management, roles and responsibilities of the case manager, case management tools, plans and methods, issues (including legal ones), and how case management improves patient and hospital outcomes. It is designed to give an overview of what case management is and how a nurse can utilize these tools and skills to advance clinical practices. It is an elective course.

Special Fee Applies

**Prerequisite:** Acceptance into the Nursing Program.

**Corequisite:** UNRS 436P (Practicum)

## **UNRS 436P, Fund of Case Mgmt Practicum, 0 Units**

## **UNRS 444, Clinical Specialization Elective, 1-2 Units**

This elective clinical is a clinical specialty experiential course designed as a collaborative partnership with selected community health care organizations. This is an intensive preceptored clinical experience planned to ease the role transition from student nurse to a beginning professional nurse in a specialized setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination.

**Prerequisite:** One of the following: UNRS 402 (for OB), UNRS 404 (for Peds), UNRS 310 (for Mental Health Nursing), UNRS 382 (for Community Health). If taken for two units instructor consent is required. Co-Requisite UNRS 411.

## **UNRS 445, Applied Pharmacology, 2 Units**

This course enhances students' ability to apply knowledge acquired in the basic pharmacology course by helping them utilize critical thinking skills at a more advanced level. Emphasis is on the application of pharmacokinetics, pharmacodynamics, and pharmacotherapeutics of major drug categories used to manage common patient disorders across the life span in clinical nursing practice.

**Prerequisite:** Acceptance into the nursing program

## **UNRS 495, Special Topics in Nursing, 1-4 Units**

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development, and/or to develop a particular project. May be repeated for credit as the topic varies.

**Prerequisite:** Acceptance into the nursing program

### **UNRS 496, Writing 3: Ethics and Issues in Health Care, 4 Units**

This course focuses on the integration of Christian faith, ethical concerns, and issues and trends in health care that nurses encounter in their work life. Students develop their abilities as independent thinkers in order to construct bodies of knowledge, and communicate what they are learning through reading, dialogue, debate, peer critique, presentations, and the development and refinement of written pieces. The capstone project for this course is a comprehensive research paper and formal presentation demonstrating scholarship and readiness to contribute to the nursing profession. *Meets the General Education Requirement: Writing 3: Writing in the Disciplines.*

Special Fee Applies

**Prerequisite:** Senior standing in the School of Nursing; UNRS 306

### **UNRS 497, Readings, 1-4 Units**

This is a program of study concentrating on assigned readings, discussions, and writing arranged between and designed by a student of upper-division standing and a full-time professor. An independent study fee is assessed for each enrollment in this class.

### **UNRS 498, Directed Research, 1-4 Units**

This course provides instruction in research design and technique, and gives students experience in the research process. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying reading, log, writing, and seminar presentation within the department or in a university research symposium. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

**Prerequisite:** Junior or Senior Standing

### **UNRS 499, Thesis/Project, 1-4 Units**

This is a senior-level 'capstone' type of independent study/research experience, involving the student in a unique project with a sophisticated level of research, synthesis, analysis, and communication. The 1-unit expectation encompasses no fewer than 30 hours of work with accompanying readings, log, instructor discussions, and writing of summary analysis and conclusions. The thesis or project may result in formal thesis, published article, or electronic media. No more than 1 unit may be used to fulfill preparatory readings requirement. An independent study fee is assessed for each enrollment in this class.

**Prerequisite:** Upper-division writing intensive course or instructor consent; and junior or senior standing

# Upper-Division BSN Transfer and LVN Options

## Admission Requirements for the BSN Upper-Division Transfer and LVN-to-BSN Programs

BSN Upper-Division Transfer (<https://www.apu.edu/nursing/programs/bsn-transfer/>) and LVN-to-BSN applicants must meet the following admission requirements:

1. Submit an application to Graduate and Professional Admissions (<http://www.apu.edu/graduateprofessionalcenter/admissions/>) indicating interest in becoming a nursing major and pursuing the BSN degree. Include in the application the following information:
  - a. Official college transcripts for all colleges attended
  - b. Two letters of recommendation
  - c. A one-page statement of professional goals in nursing
  - d. A résumé reflecting volunteer and paid work experience within the past three years. Please include leadership positions held within volunteer organizations, community service experience, and/or employment where applicable
  - e. LVN applicants must include a copy of their current LVN license.
2. Submit evidence of a minimum of 48 college or university semester units of transferable nursing prerequisite course requirements prior to the semester in which the student is requesting admission. See list of courses below.
3. Submit proof of achieving a minimum cumulative college or university grade-point average of *B* (3.0) or better.
4. Successfully complete Human Anatomy with lab (4 units), Chemistry with lab (4 units), Human Physiology (4 units), and General Microbiology with lab (4 units) with no lower than a *B-* (2.7) grade-point average.
5. Provide a writing sample that demonstrates written communication skills.
6. Candidates are considered for admission into the program once they have completed the prerequisite coursework and progress through the curriculum in a predetermined sequence with an assigned group of students (cohort model). All nursing coursework assigned to a specific semester is prerequisite for progression to the next semester.
7. Eligible candidates may be interviewed by the program director and reviewed by the admissions committee.
8. Candidates accepted into the program will be notified by the admissions representative and assigned to the appropriate semester.
9. An acceptance letter will be mailed to the candidate from the School of Nursing.

## Course Requirements and Sequences

All undergraduate nursing programs are designed with a specific course sequence that is determined by the School of Nursing. When each student is accepted into a program, a progression schedule is reviewed by the student and the advisor. Courses must be taken in the assigned sequence. Admission is based on a cohort model.

The Upper-Division BSN Transfer Program is based on a cohort model. Students complete the required 48 units of prerequisite coursework, then begin nursing coursework in the fall, spring, or summer semester and continue in sequence for three consecutive semesters per year.

| Code   | Title   | Units |
|--|---|-------|
| <b>Prerequisite Nursing Requirements</b>           |   |       |
| BIOL 220   | General Microbiology  | 4     |
| BIOL 250   | Human Anatomy   | 4     |

| UNRS 404 & 404P             | Nursing Care of Children and Young Adults and Nursing Care of Children and Young Adults Practicum                         | 4     |
| UNRS 411 & 411P             | Advanced Nursing Care of Adults and Aging and Advanced Nursing Care of Adults & Aging - Practicum                         | 5     |
| UNRS 412                    | Clinical Residency Nursing <sup>4</sup>   | 2     |
| UNRS 425                    | Nursing Research  | 3     |
| UNRS 445                    | Applied Pharmacology  | 2     |
| UNRS 496                    | Writing 3: Ethics and Issues in Health Care <sup>5</sup>  | 4     |
| Total Units                 |   | 72-74 |

- 1 May receive academic credit through competency assessment (UNRS 106/106P, UNRS 113, UNRS 260).
- 2 Meets the General Education Quantitative Literacy requirement.
- 3 Meets the General Education Writing 2 requirement.
- 4 Meets the General Education Integrative and Applied Learning requirement.
- 5 Meets the General Education Writing 3 requirement.

## LVN to RN 30-unit Option

Students choosing this option are admitted as terminal nondegree students. Upon completion of the requirements of the 30-unit option with a 2.0 GPA or better in all courses, students receive a certificate of completion, which establishes eligibility to take the California Board of Registered Nursing (<http://>

www.rn.ca.gov/) examination for RN licensure as a nongraduate. Students should see a School of Nursing academic advisor for requirements. This program operates on a space-available basis for didactic and clinical coursework.

## **Previous Education Credit**

Students may be awarded credit for prior learning/coursework and clinical experience, including military education and experience, through a challenge examination and/or competency testing.

## **Program Learning Outcomes**

### **Program Learning Outcomes**

Students who successfully complete this program shall be able to:

1. Utilize a Christian worldview to integrate beliefs, values, ethics, and service in personal and professional life.
2. Provide nursing care utilizing professional knowledge and core competencies (critical thinking, communication, and technical skills) derived from a foundation of nursing science, general education, and religious studies.
3. Demonstrate initiative for continual personal and professional growth and development.
4. Act as a patient educator and advocate to promote optimal health and well-being.
5. Function independently and collaboratively, both as a leader and/or a member of the health care team, to manage and coordinate care.

# Department of (Traditional) Undergraduate Baccalaureate Program

- B.S. in Nursing (Traditional) Program (p. 942)
- Minor in International Health Nursing (Traditional BSN) (p. 948)
- Minor in Nutrition (Traditional BSN) (p. 949)

# B.S. in Nursing (Traditional) Program

69-71 units

Applicants interested in the traditional Bachelor of Science in Nursing program must meet the following admission requirements:

1. Submit an application to the Office of Undergraduate Admissions (<http://www.apu.edu/undergraduate-admissions/>) indicating interest in becoming a nursing major and pursuing the BSN. Include in that application the following information:
  - a. Copies of all high school and college transcripts;
  - b. Letters of recommendation as required by the university and the School of Nursing;
  - c. A one-page statement of professional goals in nursing;
  - d. A résumé reflecting volunteer and work experience within the past three years, including leadership positions within volunteer organizations, community service and/or employment where applicable.
2. Complete applicable prerequisite courses with a grade of *B* (3.0) or better, including the following:
  - a. One year of high school chemistry (or CHEM 101 Introduction to Chemistry)
  - b. One year of high school biology (or BIOL 101 Introduction of Biology)
  - c. Two years of high school math (algebra or geometry) and an SAT math score of 540+ or ACT math score of 23+. A math placement assessment is required unless the placement assessment is waived.
  - d. WRIT 110 Writing 1: The Art and Craft of Writing.
3. Submit proof of achieving the minimum high school, college, or university cumulative grade-point average of *B* (3.00).
4. Once a student has received a letter of acceptance into the School of Nursing, proof of the following must be provided prior to the beginning of the first nursing course (UNRS 105 Foundations in Professional Nursing/Aging):
  - a. Successful completion of anatomy with lab (4 units) and chemistry with lab (4 units), with a minimum *B-* (2.7 grade-point average) and no grade lower than a *C* (2.0) in each course; (Note: A student is allowed only one opportunity to repeat a single failed science course to try to raise his/her grade prior to beginning nursing (UNRS) courses). A *B-* (2.7) average must be obtained in all subsequent science coursework with no grade lower than a *C* (2.0) in each science course or the student will not be allowed to progress in his/her UNRS coursework. If a student is unable to meet the requirements of their conditional admission through the minimum science and overall college grade-point average as stated, the student may be placed on academic probation and will have two subsequent semesters to raise their GPA in order to begin nursing coursework and progress in the nursing program.
  - b. Once admitted into the nursing program, students must: (1) Overall: Maintain a cumulative GPA of 3.0 (84% or *B*) or higher in all course work, and no lower than a 2.0 (73% or *C*) in any course; (2) Science: Maintain a cumulative GPA of 2.7 (80% or *B-*) in all science courses, and no lower than a 2.0 (73% or *C*) in any science course; (3) Nursing (UNRS): Maintain a cumulative GPA of 2.7 (80% or *B-*) or higher in core nursing courses or the student will be placed on academic probation.
  - c. Receive credit or waiver for college algebra.

## Transfer Students with Nursing Credit/Previous Education Credit

1. Transfer applicants who have completed college nursing courses in nationally accredited nursing or other health care programs are evaluated individually and may be given credit for courses that meet the requirements.
2. Up to 70 units of community college credit and additional units from a university (per registrar's approval) may be transferred. Applicants may petition to have nursing units transferred from a nationally accredited university, but must receive administrative approval for inclusion in total credits. Students may be awarded credit for prior coursework and clinical experience, including military education and experience, through a challenge examination and/or competency testing.

## International Students

International students are required to meet the same academic and admission requirements as other students in addition to the following:

1. International students must complete WRIT 110, one of the four required sciences taken at an accredited U.S. university with a minimum grade of *C* (2.0), and achieve a cumulative grade-point average of *B* (3.0) in all college courses completed at Azusa Pacific University after two semesters of full-time enrollment.
2. The admission requirement for international students with English as a second language (ESL) is a minimum TOEFL score of 80 iBT. The School of Nursing specifies that the TOEFL Test of Written English (TWE) and TOEFL Test of Spoken English (TSE) be included in the TOEFL assessment score as these are critical to success in nursing. If the student has taken the IBT (Internet-Based TOEFL), the required score is 85 percent or better.

If there are no TOEFL scores of written and spoken English, the student will be referred to Azusa Pacific University's American Language and Culture Institute (ALCI) (p. 49) for successful completion of evaluation and required testing. If deemed necessary, additional ESL courses may be required. (Information about taking the TOEFL examination can be obtained by contacting the Office of International Student Services.)

NOTE: Please check with the Office of Undergraduate Admissions (<http://www.apu.edu/undergraduate-admissions/>) regarding residency requirements prior to application.

## Requirements and Sequences for the Traditional BSN Program

All undergraduate nursing programs are designed with a specific course sequence that is determined by the School of Nursing. When each student is accepted into a program, a progression schedule is reviewed by the student and the advisor. Courses must be taken in the assigned sequence.

The Traditional BSN program is based on a cohort model. All coursework assigned to a specific semester is prerequisite for progression to the next semester. Students in the Traditional BSN program begin their nursing coursework either in the fall or spring semesters and continue in sequence for two consecutive semesters per school year. Depending on cohort admission and sequencing of the curriculum, the length of the program may be 4-4½ years. The coursework is as follows:

| Code                         | Title  | Units |
|------------------------------|--|-------|
| <b>Nursing Requirements</b>  |  |       |
| UNRS 105<br>& 105P           | Foundations in Professional Nursing/Aging<br>and Foundations in Professional Nursing - Practicum                             | 6     |

| UNRS 496                     | Writing 3: Ethics and Issues in Health Care <sup>7</sup>   | 4     |
| Total Units                  |  | 69-71 |

<sup>1</sup> Meets the General Education Quantitative Literacy requirement. May be waived by petition by an AP Stats test score of 3 or greater.

<sup>2</sup> Meets the General Education Writing 2 requirement.

<sup>3</sup> Meets the General Education Civic Knowledge and Engagement requirement.

<sup>4</sup> Meets the General Education Intercultural Competence requirement.

<sup>5</sup> Must apply to and be selected by the School of Nursing Global and Community Health Committee (GCHC).

<sup>6</sup> Meets the General Education Integrative and Applied Learning requirement.

<sup>7</sup> Meets the General Education Writing 3 requirement.

## Additional Nursing Requirements

| Code   | Title   | Units |
|--|---|-------|
| BIOL 220   | General Microbiology  | 4     |
| BIOL 250   | Human Anatomy   | 4     |
| BIOL 251   | Human Physiology  | 4     |
| CHEM 123   | General, Organic, and Biological Chemistry for the Health Sciences <sup>1,2</sup> | 4     |
| PSYC 110   | General Psychology <sup>3</sup>   | 3     |
| PSYC 290   | Human Growth and Development <sup>3</sup>   | 3     |
| <b>Additional General Education Requirements</b> |   |       |
| GE 100   | First-Year Seminar <sup>4</sup>   | 3     |
| COMM 111   | Public Communication <sup>5</sup>   | 3     |
| PE 1XX Fitness for Life/Varsity Sport            |   | 1     |
| MIN 108  | Christian Life, Faith, and Ministry <sup>6</sup>                                  | 3     |
| WRIT 110   | Writing 1: The Art and Craft of Writing <sup>4</sup>                              | 3     |
| UBBL 100   | Introduction to Biblical Literature: Exodus/Deuteronomy <sup>6</sup>              | 3     |
| UBBL 230   | Luke/Acts <sup>6</sup>  | 3     |
| PHIL 100   | Introduction to Philosophy <sup>7</sup>   | 3     |
| 3XX/4XX  | Bible <sup>8</sup>  | 3     |
| THEO 3XX Doctrine Requirement                    |   | 3     |
| Humanities: History                              |   | 3     |
| Humanities: Literature                           |   | 3     |
| Humanities: Fine Arts                            |   | 3     |
| Foreign Language Proficiency                     |   |       |
| Total Units                                      |   | 59    |

<sup>1</sup> Meets the General Education Natural Sciences requirement.

<sup>2</sup> Nursing prerequisite requirement.

<sup>3</sup> Meets the General Education Social Science requirement.

<sup>4</sup> Meets the General Education Intellectual and Practical Skills requirement.

<sup>5</sup> Meets the General Education Oral Communication requirement.

<sup>6</sup> Meets the General Education Biblical, Theological, and Philosophical Formation requirement.

<sup>7</sup> Meets the General Education Philosophy requirement.

<sup>8</sup> May meet the General Education Upper-Division Bible requirement.

## Recommended Nursing Electives for the Traditional Program

| Code     | Title   | Units |
|----------|---|-------|
| UNRS 120 | Fundamentals of Human Nutrition   | 3     |
| UNRS 280 | Life Cycle Nutrition  | 3     |
| UNRS 281 | Introduction to Global Healthcare (Prerequisite for UNRS 282 and UNRS 383) <sup>1</sup> | 1     |
| UNRS 282 | Transcultural Health Care: Country Specific   | 3     |
| UNRS 300 | Complementary and Alternative Therapies: Herbs, Supplements, and Nutrition              | 3     |
| UNRS 320 | Cultural Aspects of Food and Nutrition  | 3     |
| UNRS 444 | Clinical Specialization Elective  | 1-2   |

| UNRS 411P                        | Advanced Nursing Care of Adults & Aging - Practicum                         | 0       |
| Units                            |   | 14      |
| Total Units                      |   | 134-136 |

<sup>1</sup> Foreign Language Proficiency requirement may be met by APU proficiency test, SAT, AP, CLEP, FLATS, or OPIc test score, or completion of an APU language course numbered 102 or higher.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Use a Christian worldview to integrate beliefs, values, ethics, and service in personal and professional life.
2. Provide nursing care utilizing professional knowledge and core competencies (critical thinking, communication, assessment, and technical skills) derived from a foundation of nursing science, General Education, and religious studies.
3. Demonstrate initiative for continual personal and professional growth and development.

4. Act as a patient educator and advocate to promote optimal health and well-being.
5. Function independently and collaboratively, as a leader and/or member of the healthcare team, to manage and coordinate care.

# Minor in International Health Nursing (Traditional BSN)

19 units

Students interested in expanding their global perspective on health and nursing care may apply to participate in a short-term transcultural health nursing experience, an international health nursing semester, or the international health nursing minor. Accepted students complete additional coursework, and a study plan is developed by the student and advisor. Contact the School of Nursing for the proposed study plan.

## Requirements

| Code   | Title   | Units    |
|--|---|----------|
| <b>Required Courses</b>  |   |          |
| UNRS 220   | Health Assessment   | 3        |
| UNRS 281   | Introduction to Global Healthcare   | 1        |
| UNRS 282   | Transcultural Health Care: Country Specific <sup>1</sup>                      | 3        |
| UNRS 383   | International Health Nursing (Country Specific) <sup>2,3</sup>                | 5        |
| UNRS 383P  | International Health Nursing Practicum  | 0        |
| HIST 235<br>or HIST 335  | Cultural History/Travel Study   | 3        |
| GLBL 425   | Integration and Formation Seminar   | 1        |
| <b>Electives</b>   |   | <b>3</b> |
| Choose one of the following:   |   |          |
| GLBL 201   | Anthropology for Everyday Life (or GLBL 301 if previously taken) <sup>3</sup> |          |
| GLBL 260   | Intercultural Communication (or GLBL 310 if previously taken) <sup>3</sup>    |          |
| SOC 358  | Human Diversity <sup>3</sup>  |          |
| UNRS 300   | Complementary and Alternative Therapies: Herbs, Supplements, and Nutrition    |          |
| UNRS 320   | Cultural Aspects of Food and Nutrition  |          |
| Choose one of the following if one is not selected from elective list above: |   |          |
| PHIL 452<br>or PHIL 252  | Classical Chinese Ethics <sup>3</sup>   |          |
| RELG 200   | World Religions <sup>3</sup>  |          |
| RELG 351   | Introduction to Islam <sup>3</sup>  |          |
| RELG 352   | Introduction to Hinduism and South Asian Traditions <sup>3</sup>              |          |
| RELG 353   | Introduction to Buddhism and East Asian Traditions <sup>3</sup>               |          |
| Total Units  |   | 19       |

<sup>1</sup> This is a short-term study-away experience with the School of Nursing.

<sup>2</sup> This is a semester-long study-away experience with the School of Nursing.

<sup>3</sup> Meets the General Education Intercultural Competence requirement.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize a Christian worldview to integrate beliefs, values, ethics, and service in personal and professional life.
2. Provide nursing care utilizing professional knowledge and core competencies (critical thinking, communication, and technical skills) derived from a foundation of nursing science, general education, and religious studies.
3. Demonstrate initiative for continual personal and professional growth and development.
4. Act as a patient educator and advocate to promote optimal health and well-being.
5. Function independently and collaboratively, both as a leader and/or a member of the health care team, to manage and coordinate care.

# Minor in Nutrition (Traditional BSN)

17 units

The minor in nutrition is available to any APU student interested in expanding his or her skills in this specialized area of preventative health. Emphasis within this minor is on the four pillars of a healthful lifestyle: physical activity, good diet, healthy choices, and preventative screening—all crucial for national health. Contact the School of Nursing for the proposed study plan, verification of course offerings, and program availability.

## Requirements

| Code        | Title  | Units |
|-------------|--|-------|
| UNRS 120    | Fundamentals of Human Nutrition  | 3     |
| UNRS 260    | Nutrition  | 2     |
| UNRS 280    | Life Cycle Nutrition   | 3     |
| UNRS 300    | Complementary and Alternative Therapies: Herbs, Supplements, and Nutrition | 3     |
| UNRS 320    | Cultural Aspects of Food and Nutrition                                     | 3     |
| KIN 360     | Nutrition for Exercise and Sport Science                                   | 3     |
| Total Units |  | 17    |

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Utilize a Christian worldview to integrate beliefs, values, ethics, and service in personal and professional life.
2. Provide nursing care utilizing professional knowledge and core competencies (critical thinking, communication, and technical skills) derived from a foundation of nursing science, general education, and religious studies.
3. Demonstrate initiative for continual personal and professional growth and development.
4. Act as a patient educator and advocate to promote optimal health and well-being.
5. Function independently and collaboratively, both as a leader and/or a member of the health care team, to manage and coordinate care.

# Department of Entry-Level Master of Science in Nursing

The Department of Entry-Level Master of Science in Nursing offers the Entry-Level Master of Science in Nursing (ELM) degree options, designed for students who desire to enter the nursing profession but hold a baccalaureate or higher degree in another discipline.

Contact the School of Nursing (<https://www.apu.edu/nursing/>) for specific program availability and locations.

## Programs

- Entry-Level Master of Science in Nursing (ELM) (p. 967)
- ELM-MSN: School Nurse Services Credential (SNSC) and Family Nurse Practitioner (FNP) (p. 977)
- ELM-MSN: School Nurse Services Credential (SNSC) and Pediatric Nurse Practitioner-Primary Care (PNP-PC) (p. 979)
- ELM-MSN: Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) (p. 971)
- ELM-MSN: Adult-Gerontology or Pediatric Clinical Nurse Specialist (CNS) (p. 969)
- ELM-MSN: Family Nurse Practitioner (FNP) (p. 972)
- ELM-MSN: Pediatric Nurse Practitioner-Primary Care (PNP-PC) (p. 975)
- ELM-MSN: Psychiatric Mental Health Nurse Practitioner (PMHNP) Specialty (p. 976)
- ELM-MSN: Healthcare Administration and Leadership (p. 973)
- ELM-MSN: Nursing Education (p. 974)

## Courses

### **GNRS 500, Conceptual Foundations of Professional Nursing, 3 Units**

This course focuses on the introductory concepts crucial to the socialization of second career students to professional nursing. The history of nursing, the evolution of nursing in the U.S., the art and science of nursing, the legal and professional basis of nursing, the role of nursing in the health care delivery system, and current issues and trends in nursing education, practice and research are emphasized.

### **GNRS 501, Theoretical Thinking in Nursing, 2 Units**

This course examines questions about the nature and construction of theory and how theoretical ideas are developed and used in nursing practice and research. Philosophical ideas underlying theory are examined, and selected theoretical models and theories are explored.

**Prerequisite:** Completion of undergraduate research course or instructor's consent; admission to ELM or MSN program.

### **GNRS 503, Cultural Competency in Health Care, 3 Units**

This course focuses on transforming graduate nursing students, preparing them for nursing leadership in nursing practice, nursing research, education, and public health policy for the improvement of patient healthcare outcomes in our increasingly diverse society. Students move from cultural sensitivity and awareness to critical reflection and action, challenging their assumptions and broadening their perspectives. The Essentials of Master's Education in Nursing (American Association of Colleges of Nursing, 2011) serves as the foundation for the development of core cultural competencies.

**Prerequisite:** Graduate standing in the School of Nursing.

### **GNRS 504, Bioethics and Health Care Policy, 3 Units**

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.

**Prerequisite:** Graduate standing

### **GNRS 505, Christian Formation for Holistic Care, 3 Units**

Students engage in the process of discovering the foundational values of Azusa Pacific University that serve as guiding principles for the distinctive education they will receive. They are made aware of the Christian worldview and its implications for personal holistic development and care. With a focus on developing motivating character and integrated caregivers, the course brings heightened self-awareness, the impact of a Christian worldview on vocation, scriptural awareness especially emphasizing healing themes in the life of Christ, and the importance of spiritual growth on the journey toward formation.

## **GNRS 506, Spiritual Concept Analysis in Health Care, 3 Units**

Scholarly research and analysis of selected concepts in the spiritual care of persons from the Judeo-Christian perspective provide a central focus to the course. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journey and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.

**Prerequisite:** Graduate standing

## **GNRS 507, Scientific Writing, 3 Units**

This course provides opportunities for students to learn how to introduce a topic or issue, articulate a thesis, support and develop a thesis and subordinate claims, work with secondary sources, and organize an argument.

## **GNRS 508A, Research and Theory in Advanced Practice Nursing, 4 Units**

This course prepares nurses to use theory and research evidence in advanced clinical practice. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theoretical models and theories are explored, and students learn how ideas are developed and used in nursing practice and research. Students deepen their understanding of the research process by engaging in a systematic search, critique, and summary of research studies with direct application to nursing practice. Experience in statistical analysis of research data is included.

**Prerequisite:** Computer literacy, undergraduate research course, undergraduate statistics course, and graduate standing

## **GNRS 508B, Research and Theory in Healthcare, 4 Units**

This course prepares the healthcare administrator to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students learn the fundamentals of quantitative, qualitative, and mixed methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to healthcare. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.

**Prerequisite:** GNRS 613

## **GNRS 510, Family Theory in Health Care, 2 Units**

The major theoretical perspectives for understanding the family as a core unit of analysis are studied. This course fosters the student's recognition of the family's responsibility for health. Factors such as family patterns and care-giving tasks of families experiencing catastrophic or chronic alteration in health care are examined. This class is offered online.

**Prerequisite:** Graduate standing

## **GNRS 511, Advanced Pediatric Health Assessment and Health Promotion, 4 Units**

This course develops the graduate nurse's assessment skills and focuses on the promotion of health in the pediatric population from the newborn period through adolescence. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional health practices and identify culturally relevant and age-appropriate health promotion strategies. Outcomes are examined in light of related theoretical concepts. Strategies for health promotion include a focus on developmental and behavioral assessments, emotional health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for early detection and prevention of disease.

**Prerequisite:** Undergraduate health assessment and GNRS 515;

**Corequisite:** Practicum

## **GNRS 512, Advanced Health Assessment and Health Promotion, 4 Units**

This course develops the graduate nurse's assessment skills and focus on the promotion of health in individuals across the age range and within family, community, and cultural contexts. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional and nontraditional therapies and identify culturally relevant and age-appropriate health promotion strategies for common episodic complaints and chronic health conditions. Outcomes are examined in light of theoretical concepts. Strategies for health promotion include a focus on lifestyle, mental health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for the early detection and prevention of disease.

**Prerequisite:** Undergraduate health assessment and GNRS 515;

**Corequisite:** Lab

## **GNRS 513, Advanced Nursing Practice Role, 2 Units**

This course focuses on the concepts of role development and performance competence of the nurse in advanced clinical practice within the context of a reformed health care delivery system. Emphasis is placed on the clinician, educator, clinical program manager, consultant, researcher, and case manager roles of the advanced practice nurse. The leadership aspects of the roles of advanced practice are explored in relation to health care delivery, policy formulation, and legislation. The course explores theories and issues related to the advanced nursing practice role.

**Prerequisite:** Graduate standing

### **GNRS 514, Research Proposal Writing, 2 Units**

This course focuses on the application of the concepts in GNRS 508A. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.

**Prerequisite:** GNRS 508A

### **GNRS 515, Advanced Pathophysiology, 3 Units**

This course builds on basic anatomy and physiology and undergraduate study of pathophysiology. It focuses on development of an advanced understanding of the pathophysiologic mechanisms of human health disorders. Diagnostic reasoning that facilitates the clustering of signs and symptoms leading to diagnosis is a key process undergirding the course. This course requires the integration of signs and symptoms, clinical testing (such as laboratory and radiologic studies), and pathophysiologic mechanisms with diagnoses.

**Prerequisite:** Graduate standing and undergraduate pathophysiology

### **GNRS 516, Integrative Disease and Symptom Management, 3 Units**

Using a systems-based approach, this course provides the student with a broad-based, graduate-level overview for understanding disease processes, treatment modalities, assessment and interventional strategies for patients across the life span.

### **GNRS 518, Supervised Practicum in Health Care, 3 Units**

This course prepares students to integrate and apply theory, evidence-based practice, and national guidelines and standards in practicum settings. Students select practicum areas in which, with faculty approval, they will participate in experiences led by preceptors. The purpose of the course is to equip students with current, evidence-based knowledge in a selected practice area.

### **GNRS 520, Theory and Practice of the Clinical Nurse Specialist in Nursing Care of Adult-Gerontology Patients, 6 Units**

Critical concepts in advanced collaborative management of adult-gerontology client populations by Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, adult-gerontology continuum of health and illness (i.e., wellness, health promotion, disease prevention), teaching-learning theory, and evidence-based best practices for clinical decision-making for the Adult and Geriatric population are highlighted. CNS roles, competencies, and professional issues and integrated clinical rotations will be chosen from critical care or medical-surgical adult-gerontology populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;

**Corequisite:** Practicum

### **GNRS 521, Clinical Specialization in the Care of Adult-Gerontology Patients, 6 Units**

The course prepares the student to apply concepts introduced in GNRS 520. It focuses on diagnosis and collaborative disease management of acute illness in the adult-gerontology patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice, disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

**Prerequisite:** Academic Core and Advanced Practice Core courses, GNRS 520, current RN license, CPR certificate, and meets health screening requirements;

**Corequisite:** Practicum

### **GNRS 522, Disaster Nursing and Emergency Preparedness, 3 Units**

This course explores the nature of disasters and prepares nurses to respond to various types of disasters - including natural, environmental, mass casualty, public health emergencies, terrorism, and bioterrorism - by utilizing essential knowledge, skills, values, meanings, and experience in the basic competencies of emergency preparedness and disaster nursing. In accordance with the position of major nursing organizations, emphasis is placed on evidence-based best practices for personal preparedness.

**Prerequisite:** Comparable course, such as UNRS 312 Nursing Management of Adults, a human growth and development course, a lifespan course OR an RN licensure.

### **GNRS 530, Theory and Practice of the Clinical Nurse Specialist in the Care of the Pediatric Patient, 6 Units**

Critical concepts in the advanced collaborative management of pediatric client populations by the Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, pediatric continuum of health and illness (i.e., wellness, health promotion/disease prevention), teaching-learning theory, and evidence-based/best practices for clinical decision-making for the Pediatric population are highlighted. CNS roles, competencies, and professional issues are integrated. Clinical rotations will be chosen from critical care or medical-surgical pediatric populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;

**Corequisite:** Practicum

## **GNRS 531, Clinical Specialization in the Care of the Pediatric Patient, 6 Units**

The course prepares the student to apply concepts introduced in GNRS 530. It focuses on diagnosis and collaborative disease management of acute illness in the pediatric patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

**Prerequisite:** Academic Core and Advanced Practice Core courses, GNRS 530, current RN license, CPR certificate, and meets health screening requirements;

**Corequisite:** Practicum

## **GNRS 532, Advanced Nursing Practice in Pediatrics, 6 Units**

This course emphasizes physiological and psychological bases for critical and chronic conditions in children, focusing on an advanced science base for the assessment, diagnosis, and management of children and families to promote wellness. Exploration of traditional versus alternate medicine treatment plans, as well as relevant cultural, spiritual, and health promotion strategies, is incorporated.

**Prerequisite:** Graduate status and GNRS 590A;

**Corequisite:** Practicum

## **GNRS 533, Psychiatric Theories across the Life Span, 2 Units**

This course presents neurobiologic, neuroendocrine, genomic, behavioral, and psychodynamic theories of psychiatric mental illnesses as they manifest among members of diverse cultural groups across the life span. A theoretical foundation for subsequent coursework in primary psychiatric mental health care is provided for the role of the psychiatric mental health nurse practitioner.

**Prerequisite:** Graduate standing, Advanced Practice Core

## **GNRS 534, Integrated Psychiatric and Health Assessment across the Life Span, 2 Units**

This course teaches the role of the psychiatric mental health nurse practitioner in interviewing, assessing, and utilization of other data collection methods to elicit, analyze, and evaluate bio-psychosocial information regarding psychiatric mental health illness as experienced and understood by the clients, across the lifespan. Assessment and integration of the effects of potential and/or existing co-morbid health problems are focused upon. Diagnostic reasoning that is based on the Diagnostic Statistical Manual is foundational in the course. Development of differential diagnoses and disease management, evidence-based practice, and health promotion that includes client and nurse practitioner collaboration is emphasized.

**Prerequisite:** Advanced Practice Core, GNRS 533 (May be taken concurrently)

## **GNRS 535, Psychiatric Interventions and Health Promotion across the Life Span, 6 Units**

In this course students learn historical, theoretical, and contemporary evidence-based psychotherapies that promote and support client stabilization, rehabilitation, and recovery. The client as a collaborating decision making consumer and the client-clinician therapeutic alliance are central to this course. Students increase competence in assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, group, family), medication management, and health promotion interventions, including motivational interviewing. Student competence in developing and facilitating therapeutic groups as a recovery modality are included in the course. The role of the psychiatric mental health nurse practitioner in the integration and coordination of support services that impact mental health and illness is also included. Students practice verbal psychotherapeutic skills that motivate and facilitate client self-management and progression toward recovery.

**Prerequisite:** Advanced Practice Core, GNRS 533 and GNRS 534; GNRS 539 may be taken concurrently;

**Corequisite:** Practicum

## **GNRS 536, Psychiatric Mental Health Care with Adults and Older Adults, 6 Units**

In this course students increase their knowledge and competence in the assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services, with adults and older adults.

**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 539;

**Corequisite:** Practicum

## **GNRS 537, Psychiatric Mental Health Care with Children and Adolescents, 6 Units**

In this course, students increase competence in the role of the psychiatric mental health nurse practitioner in the assessment of psychiatric mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services with children, adolescents, and families.

**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;

**Corequisite:** Practicum

## **GNRS 538, Psychiatric Mental Health Care with Selected Populations, 5 Units**

Students increase knowledge and competence in the assessment of psychiatric and mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), medication management, health promotion and disease prevention interventions, and integration and coordination of support services with a selected population. Focus is on integrating and practicing all aspects of the role of the psychiatric mental health nurse practitioner with clients who are experiencing acute and/or chronic mental health problems and psychiatric disorders.

**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;

**Corequisite:** Practicum

## **GNRS 539, Psychopharmacology, 2 Units**

Students in this course build upon knowledge of advanced practice nursing and provides content essential for the psychiatric mental health nurse practitioner to prescribe appropriate pharmacologic treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for psychopharmaceuticals commonly utilized across the lifespan are addressed.

**Prerequisite:** GNRS 533, GNRS 534; GNRS 535 (May be taken concurrently)

## **GNRS 542, Advanced-Level Concepts and Competencies in Pediatric Primary Health Care, 3 Units**

This course offers a comprehensive review and synthesis of core concepts and competencies for the pediatric advanced practice nurse in the primary care setting. This culminating experience for pediatric nurse practitioner students incorporates seminar discussions and clinical practicum placement, and also allows for a discussion of developmental/behavioral issues, management of acute and chronic care illnesses seen in primary care settings, and preventative health care.

**Prerequisite:** Graduate standing, GNRS 532 (may be taken concurrently with instructor's permission), and GNRS 590A;

**Corequisite:** Practicum

## **GNRS 543, Transitions Across the Care Continuum, 4-6 Units**

This course focuses on principles and models of care and their implementation in a multidisciplinary practice environment that emphasizes healthcare delivery through integration of services and transition management. Students are introduced to decision making related to allocation of resources and services, development of protocols, and evaluation of management approaches. Evidence-based approaches to the clinical, administrative, educational, and research dimensions of patient care are emphasized. Evaluation of care management activities with the student's selected clinical population is an integral component of the course.

**Prerequisite:** NP students: completion of Advanced Practice Core; CNS students: completion of Advanced Practice Core and GNRS 520 or GNRS 530; HAL students: completion of MSN Core and GNRS 560.

**Corequisite:** Practicum

## **GNRS 544, Clinical Specialization Residency, 2-3 Units**

The elective clinical residency is a clinical specialty experiential program designed as a collaborative partnership between the School of Nursing and selected community health care organizations. This residency is an intensive precepted clinical experience planned to ease the role transition from a student nurse to a beginning professional nurse in a specialized setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination. The student will increase their ability to perform clinical reasoning with the assigned patient population and evaluate QSEN competencies of patient centered care, safety, evidence based practice, informatics, and teamwork and collaboration.

**Prerequisite:** GNRS 573 (May be taken concurrently)

## **GNRS 546, Theory and Practice in Health Care Systems in the Community, 6 Units**

This specialized course prepares RNs without a bachelor's degree for graduate study in nursing. A multiple theoretical focus that includes concepts from systems, stress, adaptation, developmental, and role theory is emphasized. A beginning practice in the utilization of the nursing process with an emphasis on nursing diagnosis and the nurse's role in assessing, planning, implementing, and evaluating care of clients in a variety of community settings is provided. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals and families at home are essential course components. A review of legal mandates for practice and discussion of ethical dilemmas and issues related to high quality nursing care are included. Specific content varies based on the students' prior education and experience. Clinical placements are arranged to meet the individual student's needs.

**Prerequisite:** Undergraduate research, pathophysiology, and health assessment;

**Corequisite:** Practicum

## **GNRS 547, Nursing Leadership in Acute Care Settings, 6 Units**

This is one of two clinical courses provided for the RN who seeks both a bachelor's and master's degree in nursing. The course synthesizes selected information from the generic bachelor's and master's programs for presentation in a condensed format, addressing the development and nature of today's health care systems and associated issues in the United States. Further, content familiarizes the student with several roles and responsibilities of the contemporary nurse, such as leader, consultant, teacher, manager, and client advocate. The course focuses on client needs in acute health care settings and emphasizes the relationship between the health care system and the advocate.

**Prerequisite:** Undergraduate research, pathophysiology, and health assessment;

**Corequisite:** Practicum

## **GNRS 548, Health Promotion Across the Lifespan, 2 Units**

The course focuses on health promotion and disease prevention across the lifespan and around the globe. The course includes exploration of population health issues, environmental implications in health and health policy, impact on health promotion and the development of disease.

**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements

## **GNRS 550A, Theory and Practice in School Nursing, 6 Units**

This combined didactic and clinical course provides theoretical content and field experiences that emphasize the multifaceted role of the school nurse. The student participates in field experiences and classroom learning activities that focus on the assessment and management of children's health care needs in various school settings. This course provides the student with the necessary tools and skills to successfully function as a professional school nurse. At the conclusion of this course, the student will be able to successfully function as a provider of health education as well as a provider, planner, and coordinator of health care in school settings.

**Prerequisite:** All School Nurse Services Credential courses except GNRS 590A, GNRS 589 may be taken concurrently

## **GNRS 555, Medical Surgical Care of the Adult and Geriatric Patient, 7 Units**

This course introduces crucial concepts to professional nursing care such as nursing process, communication, therapeutic interventions, and critical thinking and clinical reasoning. The course focuses on the application of biological, psychosocial, and spiritual concepts to hospitalized adult and elderly clients with acute and/or chronic illnesses. Students will be guided in critical thinking and clinical reasoning exercises in the management of hospitalized clients. Nursing process is utilized to provide care to one or two adult clients within the health care delivery system of an acute care setting. The clinical practicum focuses on the cognitive basis, scientific principles, and manipulative component of psychomotor skills used when providing nursing care. Students will have an opportunity to practice simulated clinical skills.

**Prerequisite:** Admission to the ELM program, completion of all prerequisite courses for the program;

**Corequisite:** Practicum

## **GNRS 556, Intermediate Medical Surgical Care of the Adult, 7 Units**

This course is designed to build on the base of medical-surgical nursing knowledge from GNRS555. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, in restorative care setting, or long-term care setting.

**Prerequisite:** Admission to the ELM program; successful completion of GNRS 555;

**Corequisite:** Practicum

## **GNRS 557, Medical Spanish for Advanced Practice Nurses, 3 Units**

This course provides non-Spanish-speaking advanced-practice nursing students with foundational knowledge of Spanish language structure and vocabulary, helping them build appropriate phrasing to facilitate communication in healthcare settings. Cultural issues relevant to health and illness in the Latino community are also addressed.

**Prerequisite:** Graduate nursing student standing, or instructor's permission

## **GNRS 559, Audiometry for School Nurses, 3 Units**

This course provides didactic instruction via eCollege and eight hours of on-site practicum experience that emphasizes the content and clinical expertise necessary to fulfill the requirements of the State of California School Hearing Conservation Program and training for the school audiometrist. The course focuses on the physiologic process of hearing and how to assess for deficits in hearing in children of all ages. At the conclusion of the course, and after having completed successfully all learning objectives, the student is eligible to submit an Application for Registration as a School Audiometrist in the State of California (a \$10 registration fee is required with the application).

## **GNRS 560, Strategic Leadership in Healthcare, 3 Units**

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

## **GNRS 564, Nutrition and Therapeutics, 2 Units**

Students in this course explore the functions of nutrients and the consequences of nutrient deficiencies and excesses in the body. Course material introduces a variety of tools for planning and evaluating diets, including a computer diet analysis, and the application of nutrition concepts is interwoven into health care and fitness conditions. Students also study the prevention of chronic disease as it relates to proper nutrition and adequate exercise.

**Prerequisite:** Admission to the ELM program

## **GNRS 567, Healthcare Administration and Leadership Supervised Practicum, 3 Units**

This course provides the student with the opportunity to experience the role of healthcare administrator. An individualized administration practicum in a specific area of clinical emphasis is chosen by the student and approved and monitored by the faculty and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth. Students focus on the context for enacting the role of administrator in a healthcare delivery system.

**Prerequisite:** All core and role courses

### **GNRS 568, Healthcare Finance, 4 Units**

This course is an introduction to financial concepts and skills need for healthcare leaders, managers, and executives. The student will develop skills in assessing multiple dimensions of financial performance and methods to improve the financial health of an organization in the context of current patient care system.

### **GNRS 569, Quality and Safety for Health Care Practice, 3 Units**

This course is designed to deepen and advance students' knowledge of, and ability to systematically apply the principles of, patient quality and safety in nursing practice. Based on national standards, the focus is on examining and applying quality and safety tools, including informatics, that can be used to improve patient care delivery across the continuum of health care.

### **GNRS 570, Parish Nursing/Health Ministries, 2 Units**

This course provides an introduction to and overview of health ministry and parish nursing theory and practice. The philosophy of the course is that (a) the parish nursing role is that of a specialist in spiritual aspects of patient care in the congregational context, requiring the integration of graduate level theology/ministry and nursing theory and praxis; and (b) health ministry is an emerging role and trend in pastoral ministry that seeks to bring professional ministry skill to bear upon the integration of health, faith, and spirituality in the parish setting.

### **GNRS 571, International Health Care, 2-4 Units**

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

### **GNRS 573, Clinical Residency, 4 Units**

The clinical residency is an internship clinical experiential program designed as a collaborative partnership between the School of Nursing and selected community in-patient health care organizations. This residency is an intensive preceptored clinical experience planned to ease the role transition from a student nurse to a beginning professional nurse in an acute-care setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination.

**Prerequisite:** Successful completion of all pre-licensure clinical courses

### **GNRS 575, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units**

This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Selected issues of women's health are explored. The student is introduced to birth preparation, prenatal care, normal neonatal, and postpartum care with concurrent clinical experiences.

**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;

**Corequisite:** Practicum

### **GNRS 576, Pharmacology, 2 Units**

This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.

**Prerequisite:** Admission to the ELM program

### **GNRS 578, Health Assessment, 3 Units**

This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physical examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included.

**Prerequisite:** Admission to the ELM program;

**Corequisite:** Practicum

### **GNRS 580, Gerontology, 2 Units**

This course integrates research and writings about the major trends and developments in the field of gerontology as they apply to the field of nursing. The approach is interdisciplinary - course material includes information from the fields of sociology, psychology, anthropology, biological sciences, medicine, nursing, and psychiatry. Development in adulthood is viewed from multiple perspectives including cognitive, behavioral, biological, sociocultural, and spiritual, and the influences these perspectives have on the successful negotiation of age-related issues are considered. Finally, students examine aspects of human aging in contemporary American society and from a cross-cultural and ethnic perspective.

**Prerequisite:** Graduate standing in the School of Nursing.

### **GNRS 581, Primary Health Care of the Older Adult, 5 Units**

GNRS 581 focuses on the role of the adult-gerontology primary care nurse practitioner in the management of the older adult including health promotion, assessment, treatment, and maintenance of common primary care health problems. The clinical practicum emphasizes the application of theory and evidence-based research for the delivery of culturally competent assessment and treatment of the older adult within the context of their families and in a variety of outpatient settings.

**Prerequisite:** Graduate status in the School of Nursing, completion of Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNRS 582A, Pathophysiology, 2 Units**

This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

**Prerequisite:** Admission to the ELM program

## **GNRS 582B, Pathophysiology, 2 Units**

This course continues the presentation an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

**Prerequisite:** Admission to the ELM program, successful completion of GNRS 582A

## **GNRS 583, Nursing Care of Children and Young Adults, 4 Units**

This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship to the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.

**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;

**Corequisite:** Practicum

## **GNRS 584, Mental Health Nursing, 4 Units**

This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of clients with acute and chronic psychiatric disorders.

**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;

**Corequisite:** Practicum

## **GNRS 586, Leadership and Management in Professional Practice, 2 Units**

This course emphasizes leadership and management theory including systems theory in a number of applications and settings. Its assists the upcoming graduate in adjusting to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to the clinical settings are presented using a systems approach. Emphasis on nursing case management is included.

## **GNRS 587, Community Health Nursing, 5 Units**

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing, and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings, with a focus on care of the gerontological client. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care is included.

**Prerequisite:** Admission to the ELM program, successful completion of semesters one, two, and three;

**Corequisite:** Practicum

## **GNRS 588, Advanced Nursing Care of Adults - Leadership, 6 Units**

This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The primary focus of the course is to care for critically ill clients and their families with complex health care needs in a critical-care setting. A second area of focus is on the utilization of leadership and management concepts/skills in providing comprehensive care to groups of clients and families. Emphasis is placed on preparing the student to practice in a beginning leadership role in managing client care. Legal and ethical issues related to acute care are included.

**Prerequisite:** Admission to the ELM program;

**Corequisite:** Practicum

## **GNRS 589, Adolescent Health Care, 2-4 Units**

This course focuses on the growth and development of adolescents, including assessment, prevention, and management of common health and psychosocial problems in this population. Emphasis is on age-appropriate and culturally competent provision of primary health care to adolescents in a family system.

**Prerequisite:** Graduate status in the School of Nursing; 2-unit version of this course requires prior completion of GNRS 515, while the 4-unit version requires prior completion of GNRS 515, GNRS 594, and GNRS 511 or GNRS 512.

## **GNSRS 590A, Primary Health Care of the Young Family, 6 Units**

This combined theory and clinical course focuses on management of health care of children (from birth through adolescence) and their families. Theory and clinical experiences emphasize assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory and clinical experiences in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.

**Prerequisite:** Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNSRS 590B, Clinical Practicum in Pediatrics, 4 Units**

The student develops expanded skills in the comprehensive assessment and management of common childhood illnesses and problems and continues to gain skill in promoting child wellness. Application of theory and research is emphasized in the care of common illnesses throughout the childhood years.

**Prerequisite:** GNSRS 511 or GNSRS 512 and GNSRS 590A

## **GNSRS 590C, Primary Health Care of the Young Family for the School Nurse Services Credential, 6 Units**

Using a system-based approach, this combined didactic and practical course focuses on assessment, nursing interventions, and follow-up for common illness presentations in children, as well as illness-related impact on social, emotional, and educational functioning. The effects of culture on child development, parenting, and healthcare practices is also emphasized.

**Prerequisite:** GNSRS 512;

**Corequisite:** Practicum

## **GNSRS 591, Primary Health Care of the Childbearing Family, 4 Units**

This course focuses on the assessment and management of the primary health care needs of the reproductive family. Emphasis is placed on health promotion and maintenance, disease prevention, curative, and restorative care. Cross-cultural aspects related to parents, male and female, of the childbearing family are addressed.

**Prerequisite:** Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNSRS 592A, Primary Health Care of the Adult and Aging Family, 6 Units**

This combined theory and clinical course focuses on the role of the nurse practitioner (NP) in caring for mature adults and aging family members, from young adulthood to elderly adulthood. Emphasis is placed on the management of common primary health problems of these age groups. The delivery of culturally competent primary health care interventions of young, middle-aged, and elderly adults is addressed.

**Prerequisite:** Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNSRS 592B, Primary Health Care Clinical Practicum, 2 Units**

This course provides the final comprehensive clinical management experience, allowing FNP and AGNP students to apply knowledge gained throughout their course of study. Clinical conferences provide opportunity for discussion of role development issues and clinical case studies. Students engage in the clinical assessment and management of adults of diverse cultural backgrounds with routine and complex health problems in out-patient settings. Under the supervision of qualified preceptors and School of Nursing faculty, the student must complete his/her clinical hours and demonstrate mastery to perform the role of an entry-level nurse practitioner.

**Prerequisite:** Completion of clinical courses for the FNP or AGNP program track

## **GNSRS 593, Psychosocial Primary Health Care of the Adult and Aging Family, 4 Units**

This combined didactic and clinical course focuses on psychosocial primary health care of the mature and aging family. Didactic content and clinical experiences emphasize the advanced practice nursing role in the medical management of chronic illness with concurrent assessment for psychosocial stressors that impact the experience and management of chronic illness. Students learn to tailor patient-centered therapeutic strategies, including presence, multi-faceted functional assessment, motivational interviewing, stress reduction techniques and spiritual support to individual patients.

**Prerequisite:** Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNSRS 594, Pharmacology in Advanced Practice Nursing, 3 Units**

This course builds upon basic knowledge in pharmacology and provides content essential for the advanced practice nurse to render appropriate pharmacological treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for drugs commonly utilized across the life cycle are addressed. Variations in pharmacological reactions attributed to cultural factors are emphasized. Strategies for fostering individual/family adherence to pharmacological regimens are examined. This course meets the requirements of the California Board of Registered Nursing in the application of a 'furnishing number' by the advanced practice nurse in California.

**Prerequisite:** GNSRS 515 (May be taken concurrently)

## **GNRS 595, Special Topics in Nursing, 1-6 Units**

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

**Prerequisite:** Graduate standing

## **GNRS 596, Foundations of Healthcare Informatics, 3 Units**

This course provides an overview of basic concepts for practice in healthcare-oriented informatics. These core concepts include an introduction to clinical and translational informatics; foundational theory and practical application of clinical decision making and computerized decision support; healthcare systems and their organization; the special issues of administration, security, and operations of electronic records in the healthcare setting; human factors issues; information science in the healthcare domain; standards, terminologies, and the uniqueness of biomedical data; and a special focus on emerging technologies.

## **GNRS 597, Comprehensive Examination Directed Study, 1 Unit**

This course guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge. Critical thinking is enhanced through careful consideration of information presented during discussion. The examinations are taken as part of this seminar.

**Prerequisite:** Completion of all Academic Core and degree specialty courses. Final specialty course may be taken concurrently.

## **GNRS 598, Thesis, 1 Unit**

A student initially enrolls in this option toward the latter part of the program for one unit of credit. The student registers for one unit of thesis credit each semester (two of three semesters per year) until the thesis is completed.

**Prerequisite:** GPA of 3.5 or above, chair's consent for thesis option, and completion of all Academic Core and Advanced Practice Core courses

## **GNRS 599, Readings/Independent Study in Nursing, 1-4 Units**

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. University policy states that the student must earn a grade in an independent study course in order to receive credit toward graduation.

**Prerequisite:** Graduate standing

## **GNRS 613, Graduate Statistics, 3 Units**

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

## **GNRS 620, Genome Science in Healthcare, 3 Units**

This course covers basic genomic concepts and technologies intended for personalizing healthcare. The primary goal is to provide the student with clinically relevant knowledge that can be used in practice and for teaching other healthcare professionals, patients and families. Applications of genome science and technology are analyzed in the context of real world examples taken from a variety of clinical specialty areas to better understand the relation between genomics, health, and illness.

## **GNRS 622, Genome Science and Ethical Issues, 3 Units**

This course examines current applications and implications of genome science and technology to healthcare, public health policy, economics, ethics, federal and state laws and societal issues. The following discussion topics are at the leading edge of healthcare and social debate: DNA biobanking, genetic profiling, and genomic technologies used in genome medicine such as stem cell research, gene therapy, and genetic enhancements. In addition, the course addresses ethics, philosophy, and theology literature to explore thoughtful discussions that cover a wide range of genome applications in healthcare and health science research.

**Prerequisite:** GNRS 620

## **GNRS 630A, Oncology Nurse Practitioner Fellowship A, 4 Units**

This course is the first in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## **GNRS 630B, Oncology Nurse Practitioner Fellowship B, 4 Units**

This course is the second in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## **GNRS 630C, Oncology Nurse Practitioner Fellowship C, 4 Units**

This course is the third in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## **GNRS 631, ONP: Cancer Biology and Assessment, 2 Units**

This course builds on knowledge of the anatomy and physiology of DNA, RNA, differentiated, and nondifferentiated human cells. Focus is on the pathophysiologic mechanisms of human cancer disorders. Diagnostic reasoning that facilitates the clustering of signs and symptoms is a key process undergirding the course. The course provides the foundation for the integration of diagnostic testing, physical assessment, and understanding of the predictable pathophysiology of cancer to stage tumors and predict metastatic risk in individuals.

**Prerequisite:** Admission to the oncology nurse practitioner fellowship certificate program.

## **GNRS 632, ONP: Cancer Therapeutics, 2 Units**

This course builds on knowledge of the predicted behavior of human cancer. Technology in cancer treatment is evolving rapidly. This class will provide a pathophysiological foundation to understand cancer protocols. Current cancer protocols, classes and categories of therapeutics, technologies in development, and tumor resistance will be discussed. The cost-benefit, side effects, and availability of the covered therapeutics will be discussed.

**Corequisite:** GNRS 631

## **GNRS 633, ONP: Symptom and Side Effect Burden, 2 Units**

Patients with advanced cancer often suffer significant symptomatic burden and the iatrogenic complications of treatment. This course develops a patient-centered approach to evidence-based management of common symptoms of cancer and side effects of treatment.

**Prerequisite:** GNRS 631 and GNRS 632

## **GNRS 634, ONP: Survivorship and the Psychosocial Impact of Cancer, 2 Units**

Cancer patients and their caregivers face complicated psychological, financial, and spiritual changes, beginning at diagnosis and extending into the posttreatment phases. This course covers the common problems related to those changes, and best-practice strategies and techniques to help patients and families cope with cancer.

## **GNRS 635, ONP: Team-based Care and the Role of the Oncology Nurse Practitioner, 2 Units**

The clinician role of the oncology nurse practitioner requires familiarity with the incidence, prevalence and risk assessment competencies for all common cancers. In addition, the oncology nurse practitioner must be prepared for a wide variety of leadership roles. Strategies for care coordination, designing and measuring interdisciplinary team outcomes, mentoring, collaborating with primary care providers, and rapid-cycle quality improvement are examined.

## **GNRS 636, ONP: Clinical Trials Nursing, 2 Units**

The advanced practice oncology nurse practitioner must be prepared to be a direct care provider or study coordinator for clinical research trials. This course covers the knowledge and behaviors needed by nurse practitioners engaged in oncology clinical trials.

**Prerequisite:** GNRS 512, GNRS 515, and GNRS 613, or instructor consent

## **GNRS 660, Theories of Teaching and Instruction, 3 Units**

This course analyzes selected teaching and learning models that are applicable to nursing education. Strategies for classroom and clinical teaching are examined. Research relative to nursing education is reviewed and critiqued. Design of research methods to determine effectiveness of teaching strategies is incorporated. Course development and student evaluation are emphasized. Selected faculty and nursing education issues are also explored.

## **GNRS 661, Leadership and Role Development in Nursing Education, 3 Units**

This course includes an analysis of educational leadership and the multiple roles of the nurse educator related to teaching, scholarship, service, and practice. Theoretical perspectives and practical approaches supported by research in nursing and higher education literature, as well as the Christian educator's role promoting faith integration, are addressed.

## **GNRS 662, Assessment, Curriculum, Development, and Outcomes, 3 Units**

This course addresses theoretical approaches to educational assessment, the development and implementation of nursing curriculum, and student and program outcomes. Emphasis is given to the importance of incorporating Christian values in the curriculum. The course also includes critical analyses of related topics based upon current research in nursing and higher education literature.

### **GNRS 663, Clinical Practicum in Nursing Education, 3 Units**

This practicum course builds on clinical and teaching/learning theories, concepts in curriculum design, and instructional strategies. Under the supervision of a faculty-mentor, the practical classroom experience focuses on designing and implementing teaching plans for units of instruction, writing of teaching/learning objectives, selecting teaching strategies and learning activities, evaluating student learning outcomes, obtaining feedback on teaching performance from faculty-mentors, students, and self-evaluation, and reflection. The clinical teaching practical experience focuses on assessing and meeting nursing student clinical learning needs, conducting postcare conferences, clinical evaluation of nursing student performance, and student counseling.

**Prerequisite:** GNRS 660, GNRS 661, GNRS 662

### **GNRS 664, Teaching-Learning Strategies and Educational Technology in Nursing Education, 3 Units**

This course will equip the nurse educator to develop and utilize theory- and evidence-based instructional strategies and tools in traditional and non-traditional formats in a variety of nursing educational settings.

### **GNRS 695, Special Topics, 1-4 Units**

A subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. This course may be repeated for credit to a maximum of 6 units applied toward the MSN or PhD degree; each course must address a different topic.

### **GNRS 700, Philosophy of Science, 3 Units**

This course is designed to provide students with the knowledge and critical analytic skills to comparatively evaluate the philosophical foundations of scientific theories and the influence of Western philosophical schools of thought on the development of nursing science. Course content is organized to engage students in discussion and critical analysis of the epistemological and philosophic foundations of scientific theories and the characteristics of scientific knowledge according to the received view, paradigmatic view, perceived postmodern view, and feminist tradition. Special emphasis is given to the critical debate within nursing about the nature of nursing science.

### **GNRS 701, Nursing Knowledge Development, 3 Units**

This course focuses on analyzing and critiquing the theoretical and methodological processes that are utilized in theory building and knowledge development in nursing. Discussion and critique of the different stages of theory development and students' experimentation with conceptualizing and developing their theoretical stance go hand in hand. Patterns of knowing, knowledge development, and criteria for evaluating nursing knowledge are examined in relation to the discipline's domain and the phenomena of concern in nursing.

### **GNRS 702, Nursing Theory, 3 Units**

This course focuses on strategies for theory development such as concept analysis, conceptual mapping, and theoretical modeling as applied to the student's phenomenon of concern. It also provides critique and analysis of the major models and theories used in a variety of nursing settings in relation to existing interdisciplinary theoretical knowledge.

### **GNRS 703, Spirituality and Health, 3 Units**

This course provides an introduction to spirituality, including spiritual experience, as it relates to individual health and illness. Communal spirituality is also considered. Differentiation is made between and among generic religious and Christian spiritualities. While the course covers theoretical aspects of spirituality and their interaction with health and illness, concentration is on the movement from theory to praxis. This lecture/seminar course is oriented toward nursing educators who seek to develop a foundation in spirituality for spiritual integration as well as for its development in nursing practice.

**Prerequisite:** Admission to DNP or Ph.D. program

### **GNRS 704, Faith Integration and Nursing Scholarship, 3 Units**

This course begins with an exploration of the nature, role, problems, and possibilities of faith integration in higher education and in the nursing curriculum at all levels of higher education. The special circumstances of faith integration and its implications for teaching in secular college settings are explored. This course further provides a critical explication of theological method and content in three domains: biblical hermeneutics, constructive theology, and ministry praxis for education. The focus of the course is on the appropriation of theological method and knowledge for the purposes of integration into nursing education and practice especially (but not exclusively) within the context of a Christian or church-affiliated college.

### **GNRS 705, Social Ethics and Health Policy, 3 Units**

This course seeks to provide a social ethics frame of reference for health care. Medical and biological advances have contributed to a rapidly expanding amount of human control over human and natural processes, including genetic potential and behaviors. This new power raises questions of morality and highlights the need for discussion and legislation regarding the complex issues raised by developments in health care, medical technology, and science. A comprehensive social ethic places decisions about health care within the context of a fuller account of purpose and meaning in life.

**Prerequisite:** Admission to DNP or Ph.D. program

### **GNRS 706, Methods of Inquiry, 3 Units**

Exploration of various methods of inquiry focuses on the difference between scientific thinking, wisdom, and alternative concepts of knowledge. Existential dilemmas intrinsic to the pursuit of truth, the exploration of the meaning of actions, the process of interpretation, the perception of reality, and empirical generalizations are discussed and their influence on the definition of research problems and designs explored. The nature of the problem and assumptions and their relationship within the physical and social order are addressed with an emphasis on understanding the complexity and interrelatedness of events and the concept of ecology in research. Research designs and methods are introduced as they relate to problem definition and theory and includes an overview of the principles of basic and applied experimental research, evaluation research, and the traditions and foundation of qualitative and historical research. The role of triangulation as a methodological choice in research design and analysis is addressed to provide a more insightful approach to the exploration of complex phenomena.

### **GNRS 707, Quantitative Nursing Research Design I, 3 Units**

This course focuses on advanced multiple research designs and data collection approaches. Emphasis is on experimental and quasi-experimental designs, epidemiological methods, survey research, and evaluation and outcomes research, as well as on planning design and sampling. Inferential statistics and advanced statistical analysis methods including ANOVA and various types of multiple regression analysis are incorporated within the course content.

**Prerequisite:** Admission to DNP or Ph.D. program

### **GNRS 708, Qualitative Nursing Research Design I, 3 Units**

This course focuses on analyzing the epistemological foundations and the assumptions of qualitative research methodologies. It provides an introduction to the major qualitative research methodologies including grounded theory, phenomenology, and ethnography. Each methodology is analyzed as to its appropriateness for the research question. Experience in carrying out a pilot study in the selected methodology is provided.

### **GNRS 709, Advanced Statistical Analysis II, 3 Units**

This course presents advanced methods of quantitative inquiry. The emphasis is on the use of factor analysis, confirmatory factor analysis, path analysis, and structural equation modeling. Assumptions of the techniques are addressed. The course provides the student experience in using statistical packages for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which of the advanced statistical techniques to use is stressed. Critique of the advanced statistical analyses of published health care research is also emphasized.

**Prerequisite:** GNRS 707

### **GNRS 710, Advanced Qualitative Research Methods, 3 Units**

This course provides advanced knowledge and training in the use of qualitative research methods including phenomenological interpretation, grounded theory interpretation, ethnographic interpretation, focus groups interpretation, and feminist interpretation. Intensive interpretive and structured approaches to analysis and methods of establishing plausibility, credibility, and adequacy of qualitative data are emphasized.

**Prerequisite:** GNRS 708

### **GNRS 711, Advanced Research Methods in the Humanities, 3 Units**

This seminar and consultation course introduces PhD students to nonscientific research methodologies as used in the arts, letters, humanities and aspects of the social sciences for the (a) conduct of original dissertation research on one of the disciplines of arts, letters, humanities, or nonscientific aspects of one of the social sciences, (b) conduct humanities-based research to widen and deepen a scientific dissertation topic, or (c) to enlarge the student's methodological repertoire, knowledge, and skill. The course is intended for those whose primary research education and experience has been in scientific methods and disciplines. (Enrollment limited to eight.)

**Prerequisite:** (a) successful completion of GNRS 701 and GNRS 706, (b) permission of the instructor

### **GNRS 712, Advanced Evaluation Research, 3 Units**

Evaluation research bridges the gap between conceptual definitions, theory formulation, and practice. Evaluation research utilizes quantitative and qualitative research designs to analyze evidence and disseminate the findings to identified stakeholders that will inform decision making and policy development. Explicit models of the decision process for program development and implementation are incorporated into the structure of the evaluation design and analysis. The course includes needs assessment, benchmarking or best practices, logic modeling, program theory development, empowerment evaluation, system analysis, and process-outcome designs. Examples incorporate national and international programs.

### **GNRS 713, Advanced Statistical Analysis I, 3 Units**

This course presents common nonparametric and parametric statistical techniques used in healthcare research. Assumptions of the techniques are addressed. Specifically, the course emphasizes t-tests, ANOVA, ANCOVA, RANCOVA, correlation, odds ratio, regression, and power analysis, and provides the student experience in using SPSS for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which statistical techniques to use is stressed. Critique of statistical analyses of published healthcare research is also emphasized.

### **GNRS 715, Psychosocial Issues of Older Adults, 3 Units**

This course focuses on the biological and psychosocial processes throughout adulthood and the older years. Theories of aging are examined, as well as social role changes, social stratification, and the development of institutions of the aged. The course explores both normal aging and psychopathology, and the systematic intrinsic psychological or personality changes associated with development and adaptation in later life. Other topics include clarification of the causes and prevention of health maladies in the later years, and the nature and treatment of the most common psychopathologies. The psychodynamics of institutionalization and family care of the very old are also examined.

### **GNRS 716, Translational Research, 3 Units**

The goal of this course is to help the nurse scientist identify strategies within a multidisciplinary model that promotes the ready translation of research developed from basic laboratory, clinical, or population studies. The course involves three stages as set forth by the National Institute of Nursing Research. The first stage, referred to as early translation, reviews a promising discovery that was developed in the lab, epidemiologic study, or other study that involves the initial development and testing of an intervention. In the second stage, or late translation, analysis of the study design and intervention used in clinical trials determines appropriate clinical guidelines. In the final stage, where dissemination involves the broader distribution of the intervention, emphasis is on analyzing the strengths and limitations in the clinical setting.

### **GNRS 717, Health Technology and Informatics, 3 Units**

This course presents an overview of the evolution of health care informatics from an interdisciplinary perspective. Students learn health care informatics history, concepts, theories, legal and ethical implications, and applications within the health care industry. This course introduces the student to the information system life cycle, human factor issues in health care informatics, critical issues affecting the development and implementation of information and communication systems and technologies (clinical, administrative, and learning), knowledge management principles, professional practice trends, and emerging ICT (information and communication technology) in health care.

### **GNRS 718, Organizational Leadership and Strategic Planning, 3 Units**

In this course, students acquire knowledge and skill to effectively manage change, empower others, and influence political processes. Advanced nursing practice leadership occurs in clinical practice with clients and staff, within healthcare institutions and professional organizations, and in healthcare policy making arenas. To develop the leadership role, students implement strategies for creating organizational change to provide high-quality services at reasonable costs. Focus is on organizational process, including the associated management of conflict, change, and control of risk within a political context.

**Prerequisite:** Admission to DNP or Ph.D. program

### **GNRS 720, Wellness Promotion and Health Maintenance, 3 Units**

This course focuses on the critical appraisal of theories and models of health promotion and on the evaluation of health initiatives developed for national health promotion and maintenance. Relevant risk prevention, control, and health promotion intervention strategies are emphasized. Communicable diseases; health hazards; high-risk health factors; acute and chronic illness across ethnicities, genders, and the life span; and morbidity and mortality of the nation's leading health problems are analyzed. Students' research questions are generated from a synthesis of knowledge regarding a specific phenomenon relevant to the student's individual area of study.

**Prerequisite:** Admission to DNP or Ph.D. program

### **GNRS 721, Health Disparities and Vulnerable Populations, 3 Units**

This course offers an analysis and evaluation of various topics and issues on health disparities of underserved ethnic or minority vulnerable populations as well as an analysis of research that describes, explains, and examines variables influencing health disparities and intervention strategies to reduce these disparities.

### **GNRS 722, Research in Nursing and Health, 3 Units**

This course is team taught and reflects the research expertise and program of study of the nursing doctoral faculty. It focuses on analysis of determinants of health and illness across demographic, biological, psychological, familial/cultural, and societal dimensions. Attention is given to theoretical explanations toward promoting development of students' programs of research.

### **GNRS 724, Quantitative Nursing Research Design II - Psychometrics, 3 Units**

This course is designed to introduce students to the methods of survey research. The course considers practical considerations in the construction of questionnaires including determining questionnaire content, selection of item types and wording of items, selection of an administration method, piloting questionnaires, and locating existing questionnaires. Discussion about conducting survey research considers sample selection, analyzing information obtained from questionnaires using SPSS, evaluating questionnaires, sources of error and how to reduce measurement error in survey research.

**Prerequisite:** GNRS 707

### **GNRS 725, Research Practicum, 1 Unit**

The practicum further develops, mentors, and socializes students into the roles and activities of research scientists and scholars. Emphasis is on mentoring to facilitate student progression in research methodology, culturally appropriate research strategies, data management, and data analysis. Students can choose either a quantitative or qualitative practicum experience.

### **GNRS 726, Advanced Scientific Writing, 3 Units**

This course provides opportunities for students to learn how to research and introduce a topic in writing, articulate a thesis statement, support and develop a literature review, work with secondary sources, and organize a written paper that can be developed into a dissertation or translational research paper.

### **GNRS 727, Genome Science in Clinical Cases and Disease Management, 3 Units**

This course focusing on medical family history taking, constructing and analyzing the pedigree, genetic counseling, clinical decision making and clinical case management for a wide variety of inherited and acquired diseases through the lens of emerging genome science. Clinical cases are discussed from a holistic perspective including: genome science, epidemiology, genomic profiling, genetic technologies, personalized medicine, interprofessional collaboration, ethical and legal issues, and health policy.

**Prerequisite:** GNRS 620

### **GNRS 728, Genome Science Research Methods, 3 Units**

This course focuses on genome research methods for understanding and translating genome science to practice and to genome related nursing research. Understanding the research methods fosters a deeper understanding of the strength and the weaknesses of the science and an ability to critique the benefits and the limitations of the science for designing nursing research. The course includes a wide range of research methods that explore genetics or genomics in human populations. A key outcome of this course is to develop a research proposal using genome methods to design nursing research aimed at improving quality of health for individuals, families and populations.

**Prerequisite:** GNRS 620, GNRS 622, GNRS 727

### **GNRS 729, Population Health and Epidemiology, 3 Units**

The concept of population health includes aggregate, community, environmental/occupational, and cultural/socioeconomic definitions of health. The implementation of clinical prevention and population health activities is central to achieving the national goal of improving health status and reducing health disparities among different aggregate groups. This course covers the basic elements and methodological concepts used in the epidemiologic study of factors related to health promotion and disease prevention in human populations. It brings together considerations from several fields of investigation, such as epigenetics, epidemiology, psychology, and public health, to study the effects on health and health-related outcomes.

**Prerequisite:** Admission to DNP or Ph.D. program

### **GNRS 730, Comparative Health Care Systems, 3 Units**

This course focuses on exploring/analyzing environmental, social, cultural, political and economic determinants of health across the globe. Comparative analysis of international health care systems including governmental, nongovernmental, traditional, and faith-based organizations are emphasized. Epidemiological analysis of morbidity and mortality, analysis of health and illness responses, and health-seeking behavior across the age span and gender/ethnic variables are discussed with the intent to identify areas of research relevant to students' interest. Presented from a Christian perspective, this course investigates research and practice opportunities and responsibilities for advanced practice nurses in global arenas.

### **GNRS 732, DNP Clinical Residency, 0 Units**

This course provides students enrolled in the Doctor of Nursing Practice (DNP) program with opportunities to develop professional nursing skills at the doctoral level. The focus of the course is to explore the development and scientific underpinnings of components of expert advanced clinical practice. Students select a population of interest for the DNP clinical residency and apply evidence-based practice and research findings in order to develop and improve practice. Over the course of the DNP program, students integrate previous nursing education and practice experiences with the DNP residency and concurrent doctoral coursework to meet the AACN Essentials of Doctoral Education for Advanced Nursing Practice and complete a DNP scholarly project. The course may be repeated to enable the student to obtain a minimum of 1,000 residency hours. Previous hours from graduate clinical courses may apply, so residency hour requirements will vary.

**Prerequisite:** Admission to DNP program

### **GNRS 733A, Residency IA, 1 Unit**

This is the first in a series of three residency courses designed to enhance students' critical thinking, diagnostic reasoning, interpretation, and management skills for advanced clinical practice. This course broadens and enhances understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice clinical nurse scholarship. Students practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts. The course focuses on exploring the development and scientific underpinnings of components of expert advanced clinical practice, and attention is given to the development of skills necessary to attain that goal. By the end of this course, students select their population of interest for their clinical residency and apply evidence-based findings to this population to identify potential areas of intervention.

**Prerequisite:** Admission to DNP program

### **GNRS 733B, Residency IB, 1 Unit**

The second of a three-course sequence, this course may be taken concurrently with GNRS 733A and/or GNRS 733C with approval of the DNP director or designee. Grading: pass/fail

### **GNRS 733C, Residency IC, 1 Unit**

The third of a three-course sequence, this course may be taken concurrently with GNRS 733A and GNRS 733B with approval of the DNP director or designee. Grading: pass/fail

### **GNRS 734A, Residency IIA, 1 Unit**

The first of a three-course sequence, this course may be taken concurrently with GNRS 734B and GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

### **GNRS 734B, Residency IIB, 1 Unit**

The second of a three-course sequence, this course may be taken concurrently with GNRS 734A and/or GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

### **GNRS 734C, Residency IIC, 1 Unit**

This is the last of a three-course series of clinical residencies with a focus on transformative and collaborative leadership, including completion of the evidence-based practice project, assessment of project outcomes, and planned dissemination of findings. Students apply relevant clinical and research findings to develop and improve practice. Content emphasizes critical appraisal of skills and interventions necessary to ensure meaningful translation of scientific evidence into practice, including a cost-benefit analysis for implementing a change into clinical practice. The course also emphasizes the professional role of the nurse as a collaborator, leader, and provider of care with nursing colleagues and other members of the interprofessional healthcare team within the context of complex healthcare systems, preparing students to implement an advanced nursing practice role that results in practice and/or policy change at the local, state, and/or national levels.

**Prerequisite:** Successful completion of GNRS 733A, GNRS 733B, GNRS 733C, GNRS 734A and GNRS 734B

### **GNRS 735, DNP Scholarly Project Seminar, 3 Units**

The DNP program requires a rigorous clinical project focused on translating scientific research to health care in a timely manner so that patients experience the best applications of science and practice. The project is a scholarly experience that implements the principles of evidence-based practice and translation under the guidance of a faculty mentor. In line with the AACN Essentials of 2007, the outcome of the DNP scholarly project is a tangible and deliverable academic product that is derived from the practice immersion experience and reviewed and evaluated by an academic committee. The project also serves as a foundation for future scholarly practice.

### **GNRS 736, DNP Scholarly Project Seminar: Evaluation and Dissemination, 2 Units**

This course focuses on presentation to and approval of a completed DNP Scholarly Project. The DNP program requires a rigorous clinical project focused on translating scientific research to health care to improve the patients experience utilizing the best evidence of science and practice. This scholarly project is a culminating, independent experience which demonstrates the student's synthesis of coursework and lays the foundation for future scholarship.

### **GNRS 780, Doctoral Seminar I: Elements of a Proposal and IRB Application, 3 Units**

This seminar directs the development of either a dissertation or a DNP Scholarly Project proposal draft that details a problem, the research/project purpose, questions or hypotheses to be examined, a synopsis of the relevant literature, the design and methods of the study including its timeline, protection of human subjects, plans for analysis, and the budget. The seminar also includes preparation of IRB applications, and peer review and critique of student proposals.

### **GNRS 781, Doctoral Seminar II: Developing a Grant Proposal, 3 Units**

This doctoral seminar provides students with the opportunity to acquire knowledge, skills, and insights in the writing of a grant proposal. Discussion will focus on the value of writing grant proposals, the basic principles in writing a grant proposal, the components of a grant proposal, identification of funding sources, the difference between a research and a program grant proposal, as well as administrative factors in submitting a grant proposal. Students will craft and a grant proposal in response to a Request for Funding Proposal (RFP) that aligns with the guidelines of the funding agency, and additionally, a budget plan with justification, timelines, and a bio-sketch. In addition, students will conduct a peer review of class completed grant proposals.

### **GNRS 782, Doctoral Seminar III: Writing for Publication, 3 Units**

This seminar focuses on various aspects of writing for publication and directs the development of a manuscript suitable for publication from a previously written paper (e.g., a course term paper). This course will help the student get started on writing; identify writing styles for various forms of publication including abstracts, journal articles, papers, and books; and determine appropriate journals to consider for article submission. The student will acquire practice in reviewing and critiquing scholarly writing by others. It will also address the editorial and publication process, as well as ethical aspects of writing for publication.

### **GNRS 783, Doctoral Seminar IV: Developing Professional Presentations, 3 Units**

This seminar course identifies approaches to developing an effective and successful presentation, helping students find their voice and showcase their areas of expertise. Discussions focus on planning as essential to deciding on the content and the order in which the information is presented. Emphasis is on developing a logical sequence, one that flows naturally and is accompanied by audiovisuals that facilitate understanding of the material.

### **GNRS 784, Dissertation Seminar V, 2-4 Units**

This fifth dissertation seminar provides the student a forum to explore with their peers research findings, theoretical and empirical implications, and potential venues for publication of manuscripts. Format and procedures for progression in the dissertation process are also discussed. Placement of the Course: This seminar is not required if dissertation seminar requirement of 12 units has been met by GNRS 780, GNRS 781, GNRS 782, GNRS 783, and student has defended dissertation. Grading: Pass/Fail.

**Prerequisite:** GNRS 783

### **GNRS 791, Doctor of Nursing Practice Intensive I, 1 Unit**

This is the first of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course introduces students to the role of the DNP nurse in a variety of healthcare settings. Students also acquire advanced practice and academic skills necessary for selecting a population of interest and applying evidence-based practice to it as part of an evidence-based DNP scholarly project consistent with the DNP role within a healthcare organizational setting.

**Prerequisite:** Admission to the DNP program;

**Corequisite:** GNRS 732

### **GNRS 792, Doctor of Nursing Practice Intensive II, 1 Unit**

This is the second of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course helps students identify strategies within a multidisciplinary model that promotes evidence-based practice in various clinical, community, and educational settings. Students receive support and direction in collaboration with the sponsoring facility and mentor as they develop a comprehensive, site-specific DNP scholarly project proposal.

**Prerequisite:** GNRS 791;

**Corequisite:** GNRS 732

### **GNRS 793, Doctor of Nursing Practice Intensive III, 1 Unit**

This is the third of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course helps students acquire the skills, competencies, and points of view needed for developing the ethical reasoning/decision-making skills necessary for conducting their DNP scholarly projects.

**Prerequisite:** GNRS 792;

**Corequisite:** GNRS 732

### **GNRS 794, Doctor of Nursing Practice Intensive IV, 1 Unit**

This is the last of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. As in the other intensive experiences, course content for each student reflects the interests of the student and is designed to meet that student's needs and career goals. This course allows students, with guidance from their mentors and faculty, to complete the DNP scholarly project and finalize the written and oral scholarly reports that disseminate and integrate new knowledge. Each student's final product reflects their ability to employ effective communication and collaboration skills, take a leadership role, integrate core DNP concepts and competencies that influence healthcare quality and safety, and successfully negotiate change in healthcare delivery for individuals, families, populations, or systems across a broad spectrum of health care.

**Prerequisite:** GNRS 793;

**Corequisite:** GNRS 732

### **GNRS 795, Special Topics, 1-4 Units**

In this course, a subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. Students may repeat the course for credit to a maximum of six units applied toward the doctoral program; each course must address a different topic.

### **GNRS 798, Continuous Doctoral Study, 0 Units**

This course is for doctoral students working on dissertations or translational research projects. Students must re-enroll each semester until the dissertation or translational research project is completed, defended, submitted to the library, and approved.

### **GNRS 799, Independent Study, 1-4 Units**

Students enroll in this course to pursue independent study investigating subjects and interests that lie beyond regular course offerings. The student explores topics in greater depth than in other courses, and/or initiates an individual project. Readings are pursued in accordance with a study plan, which is developed in consultation with a sponsoring doctoral faculty member and approved by the doctoral department

# Entry-Level Master of Science in Nursing (ELM)

The Entry-Level Master of Science in Nursing (<http://www.apu.edu/nursing/programs/entry-level-masters-in-nursing/>) is an accelerated graduate nursing program designed for students who desire to enter the nursing profession and hold a baccalaureate or higher degree in other disciplines. During their first four semesters, admitted students complete all prelicensure courses (theoretical and clinical) in an accelerated format, as well as selected graduate nursing courses, followed by a clinical residency, in preparation for the RN licensure examination. Students then continue with courses and preparation leading to a Master of Science in Nursing (MSN).

This program meets the California Board of Registered Nursing (BRN) requirements for licensure and is available at the Azusa campus and at APU's regional locations in Monrovia (<https://www.apu.edu/monrovia/>), San Diego (<http://www.apu.edu/sandiego/>), and the Inland Empire (<http://www.apu.edu/inland/>) (San Bernardino).

## Mission Statement

The ELM program prepares nurses to enter professional nursing and, subsequently, advanced practice roles. Students are prepared to take the NCLEX for RN licensure, to apply for a California PHN certificate, and to be eligible to apply for state certification, and may also apply for national certification by examination in advanced practice specialties upon successful completion of the required postlicensure courses.

## Additional Requirements

At the beginning of clinical coursework, graduate students are required to provide documentation concerning certifications, results of background checks, screening tests, and immunizations. Refer to the Student Handbook and specific program manuals or course syllabi for details.

## Program Requirements

The four-semester clinical residency prelicensure portion of this program is offered in an intensive cohort model format and **must** be taken in full-time study. Courses are offered in a fixed schedule with required clinical experiences that may be scheduled Monday through Saturday. This program meets California BRN requirements for registered nurse licensure.

| Code  | Title   | Units     |
|---|---|-----------|
| <b>Semester 1</b>                                 |   |           |
| GNRS 500  | Conceptual Foundations of Professional Nursing                        | 3         |
| GNRS 555  | Medical Surgical Care of the Adult and Geriatric Patient <sup>1</sup> | 7 (3/4)   |
| GNRS 578  | Health Assessment   | 3 (2/1)   |
| GNRS 582A   | Pathophysiology   | 2         |
| <b>Semester 2</b>                                 |   |           |
| GNRS 556  | Intermediate Medical Surgical Care of the Adult                       | 7 (3/4)   |
| GNRS 564  | Nutrition and Therapeutics  | 2         |
| GNRS 576  | Pharmacology  | 2         |
| GNRS 582B   | Pathophysiology   | 2         |
| GNRS 584  | Mental Health Nursing   | 4 (2/2)   |
| <b>Semester 3</b>                                 |   |           |
| GNRS 504  | Bioethics and Health Care Policy                                      | 3         |
| GNRS 505  | Christian Formation for Holistic Care                                 | 3         |
| GNRS 507  | Scientific Writing  | 3         |
| GNRS 575  | Nursing Care in Maternal, Newborn, and Women's Health                 | 4 (2/2)   |
| GNRS 583  | Nursing Care of Children and Young Adults                             | 4 (2/2)   |
| <b>Semester 4</b>                                 |   |           |
| GNRS 508A   | Research and Theory in Advanced Practice Nursing                      | 4         |
| GNRS 586  | Leadership and Management in Professional Practice                    | 2         |
| GNRS 587  | Community Health Nursing  | 5 (2/3)   |
| GNRS 588  | Advanced Nursing Care of Adults - Leadership                          | 6 (3/3)   |
| <b>Clinical Residency/Internship <sup>2</sup></b> |   |           |
| GNRS 573  | Clinical Residency  | 4         |
| <b>Total Units</b>                                |   | <b>70</b> |

<sup>1</sup> Numbers in parentheses are classroom/clinical units.

<sup>2</sup> This intensive period of clinical education and continuing preparation for practice takes place in a healthcare agency under the direct supervision of a clinical preceptor and supported by clinical faculty in the graduate program. Upon completion of this seven-week internship, students will have completed 252 hours in an acute-care setting; this usually consists of three 12-hour shifts per week for seven weeks. At the same time, students review prelicensure subject matter in preparation for NCLEX examination (RN licensing exam). Successful completion of the clinical residency is required to complete the prelicensure portion of the program. The BSN is awarded at the completion of the prelicensure portion of the program.

**NOTE:** Before taking advanced practice clinical courses for completion of the MSN degree, the student must achieve the passing score required by the California BRN on the NCLEX exam.

## Postlicensure

In addition to coursework and clinical practicums, postlicensure students are expected to have outside clinical work experience. To ensure that credit will be given, students should request approval prior to taking coursework at outside institutions. A maximum of 6 units may be transferred in with prior approval.

Students **must** take 7 units of electives during this component of the program. Students' programs are planned individually according to course sequencing for their clinical specialty. As an alternative to full-time study, students may elect to complete master's degree requirements in a part-time format while taking courses each semester.

Students may elect to write a thesis or take a comprehensive exam to complete the degree. Any student who elects to write a thesis must take GNRS 514.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# ELM-MSN: Adult-Gerontology or Pediatric Clinical Nurse Specialist (CNS)

The Master of Science in Nursing with Adult-Gerontology or Pediatric Clinical Nurse Specialist (CNS) (<https://www.apu.edu/nursing/programs/adult-cns-certificate/>) program allows students to concentrate on one of these two clinical areas of content and practice. Nurses with advanced practice preparation may work in acute, primary, or long-term care settings. Students learn the process of developing and sustaining evidence-based practice in illness management, advancing the practice of other nurses and nursing personnel, and developing organizational or systems modifications to support and improve nursing practice. The traditional CNS roles of expert clinical practice, consultation, clinical leadership, research, and education are shaped toward producing desirable patient outcomes as the CNS works in several spheres of influence. Graduates are eligible to apply to the state of California for certification as clinical nurse specialists, and may apply for national certification through examination by the American Nurses Credentialing Center (ANCC).

Contact the School of Nursing (<http://www.apu.edu/nursing/>) for specific program availability and locations. Prelicensure coursework (p. 967) must be completed prior to beginning advanced practice nursing coursework.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# ELM-MSN: Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP)

This specialty program (<https://www.apu.edu/nursing/programs/gerontology-nurse-practitioner/>) prepares students to be nurse practitioners for patients across the adult years in a primary healthcare setting. Graduates are eligible to apply to the state of California Board of Registered Nursing for certification as a nurse practitioner and may apply for national AGPCNP certification through examination. This advanced clinical practice specialty includes direct patient assessment, diagnosis, management and treatment, client advocacy, client/family education, consultation, and program planning, implementation, evaluation, and research.

Contact the School of Nursing for specific program availability and locations. Prelicensure coursework (p. 967) must be completed prior to beginning advanced practice nursing coursework.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# ELM-MSN: Healthcare Administration and Leadership

The entry-level master's option in healthcare administration and leadership (<https://www.apu.edu/nursing/programs/masters-in-healthcare-administration/>) prepares nurses for early to mid-level management and leadership roles in a variety of healthcare settings. Students acquire the knowledge and skills necessary to lead and manage a team of healthcare providers in organizations, functioning in areas such as operations management, project management, and healthcare consulting. The program emphasizes competencies needed for graduates to apply for the American Nurses Credentialing Center (ANCC) and American Organization of Nurse Executives (AONE) nurse leadership certifications through examinations.

Contact the School of Nursing (<http://www.apu.edu/nursing/>) for specific program availability and locations. Prelicensure coursework (p. 967) must be completed prior to beginning Healthcare Administration and Leadership coursework. Students must have the equivalent of one year of RN clinical experience prior to enrollment in GNRS 567 Healthcare Administration and Leadership Supervised Practicum.

| <b>Total Units</b>                                      |   | <b>37</b> |

<sup>1</sup> Units in parentheses are classroom/clinical units.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# ELM-MSN: Nursing Education

The Entry-Level Master of Science in Nursing (ELM) (p. 967) option in nursing education (<https://www.apu.edu/nursing/programs/masters-in-nursing-education/>) prepares nurses for teaching roles in a variety of settings, including traditional and nontraditional academic settings, online/distance settings, and clinical and community settings, using cutting-edge technology and teaching-learning methods. The program emphasizes competencies needed for students to complete the Certified Nurse Educator (CNE) certification examination, and is aligned with the American Association of Colleges of Nursing's *The Essentials of Master's Education in Nursing* (AACN, 2011) and the National League for Nursing's *Nurse Educator Competencies* (NLN, 2013).

Contact the School of Nursing (<http://www.apu.edu/nursing/>) for specific program availability and locations. Prelicensure coursework (p. 967) must be completed prior to beginning nursing education coursework. Students must have the equivalent of one year of RN clinical experience prior to enrollment in GNRS 663.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# ELM-MSN: Pediatric Nurse Practitioner–Primary Care (PNP-PC)

The Entry-Level Master of Science in Nursing (ELM) (p. 967) with a Pediatric Nurse Practitioner-Primary Care (PNP) (<https://www.apu.edu/nursing/programs/pediatric-nurse-practitioner/>) specialty prepares registered nurses to be nurse practitioners with children and their families in primary healthcare settings. This advanced practice specialty includes direct client assessment, diagnosis, management and treatment, client advocacy, client/family education, consultation, and program planning, implementation, evaluation, and research. Graduates are eligible to apply to the state of California Board of Registered Nursing for certification as a nurse practitioner and may apply for national PNP-PC certification through examination.

Contact the School of Nursing for specific program availability and locations. Precursor coursework (p. 967) must be completed prior to beginning advanced practice nursing coursework.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# ELM-MSN: Psychiatric Mental Health Nurse Practitioner (PMHNP) Specialty

This specialty master's program (<https://www.apu.edu/nursing/programs/psychiatric-nurse-practitioner/>) prepares students for roles as psychiatric mental health nurse practitioners for clients with psychiatric and mental health problems across the lifespan. Students learn to work respectfully and collaboratively with clients/consumers who are experiencing severe or chronic mental illnesses to determine biopsychosocial healthcare needs within a complex and changing environment. Theory and clinical coursework focuses on assessment; differential diagnosis and disease management; intervention planning; individual, family, and group psychotherapy; health promotion; and disease prevention. Mental-health-related policy, and the application of research and evidence-based practice, informs the psychiatric mental health nurse practitioner.

The inherent equality and worthiness of those who are vulnerable and disenfranchised; the role of spirituality; the value of diversity; and the ability to engender hope, empowerment, self-responsibility, and a meaningful role in life are threaded throughout the program. Graduates are eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national PMHNP certification through examination.

Contact the School of Nursing (<http://www.apu.edu/nursing/>) for specific program availability and locations. Prelicensure coursework (p. 967) must be completed prior to beginning advanced practice nursing coursework.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# ELM-MSN: School Nurse Services Credential (SNSC) and Family Nurse Practitioner (FNP)

This combined specialty program prepares nurses to be effective practitioners of school health and provide primary care for people of all ages in a variety of other settings. Students develop theoretical and practical expertise in nursing and education applied to basic health services in public schools (K-12). This prepares nurses to establish, maintain, and coordinate a comprehensive school health program. The advanced practice family nurse practitioner specialty includes direct client assessment, diagnosis, management and treatment, client advocacy, client/family education, consultation, program planning, implementation, evaluation, and research.

Graduates are eligible to apply to the state of California for the School Nurse Services Credential, and to apply for certification as a Family Nurse Practitioner. They are also qualified for and may seek national FNP certification by examination through specialty organizations. For details about academic core, advanced practice core, and concluding courses, see the MSN program requirements (p. 981). Students must also take a state of California-approved audiometry course to meet the SNSC requirements.

Contact the School of Nursing for specific program availability and locations. Prelicensure coursework (p. 967) must be completed prior to beginning advanced practice nursing coursework.

# ELM-MSN: School Nurse Services Credential (SNSC) and Pediatric Nurse Practitioner–Primary Care (PNP-PC)

This combined specialty program prepares nurses to be effective practitioners of school health and provide primary care for children in a variety of settings. Through the program, students develop theoretical and practical expertise in nursing and education applied to basic health services in the public schools (K-12). This enables them to establish, maintain, and coordinate a comprehensive school health program. The advance practice pediatric primary care nurse practitioner specialty includes direct client assessment, diagnosis, management and treatment, client advocacy, and client/family education. Graduates are eligible to apply to the state of California for the school nurse services credential. They are eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national PNP certification by examination. Students must take a California-approved audiometry course to meet the SNSC requirements.

Contact the School of Nursing for specific program availability and locations. Prelicensure coursework (p. 967) must be completed prior to beginning advanced practice nursing coursework.

<sup>1</sup> Numbers in parentheses are classroom/clinical units.

<sup>2</sup> Students must also take a California-approved audiometry course to meet SNSC requirements.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# Department of Master of Science in Nursing Advanced Practice

## Master of Science in Nursing (MSN)

The Department of Master of Science in Nursing Advanced Practice offers a nationally accredited Master of Science in Nursing (p. 999) program, as well as credential and certificate programs, to prepare students to assume roles as clinical nurse specialists, nurse practitioners, educators, administrators, or school nurses. The combination of theory, research, and professional development also prepares graduates for doctoral study in nursing (p. 1037).

The curriculum for these programs reflects the School of Nursing mission and is aligned with professional education standards for nursing. The programs are accredited by the Commission on Collegiate Nursing Education (<http://www.aacnnursing.org/CCNE/>), the California Board of Registered Nursing (<http://www.rn.ca.gov/>), and the California Commission on Teacher Credentialing (<https://www.ctc.ca.gov/>). Graduates are eligible to apply for state certification or a credential in their specialty and may take national certification examinations where these are offered through specialty organizations.

## Program Learning Outcomes

Graduates of the Master of Science in Nursing program will be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting health care.
5. Use information systems and other technology to communicate, manage knowledge, promote quality, mitigate error, and support decision making.
6. Demonstrate the ability to coordinate and collaborate with other healthcare team professionals.
7. Engage in clinical reasoning and effective communication, and act as a change agent to develop professional identity and practice skill.

## Transfer of Credits

Following admission, 9 units of approved graduate work completed elsewhere may be applied toward the MSN degree. Advanced Health Assessment may be considered for transfer credit if it was taken postlicensure as a registered nurse and the student was enrolled in an advanced practice nursing program. Advanced Pharmacology may be considered for transfer credit toward GNRS 594 Pharmacology in Advanced Practice Nursing if it was taken less than 24 months prior to the APU MSN program admit date.

## Additional Requirements

During the admission process, a review of academic transcripts is performed to assess whether the applicant has completed the prerequisite courses listed below. If not, students must complete the prerequisite courses as part of their MSN program before continuing to advanced practice courses (e.g., take undergraduate health assessment before advanced health assessment; take applied statistics and a nursing research course before the advanced practice research course).

| Code  | Title  | Units |
|---|--|-------|
| <b>Prerequisite Courses for MSN APRN Programs</b> |  |       |
| MATH 130<br>or UNRS 299                           | Introduction to Statistics<br>Statistics and Data Management for Nursing and Health Care | 3     |
| UNRS 220  | Health Assessment  | 3     |
| UNRS 367  | Pathophysiology  | 3     |
| UNRS 382  | Community Health Nursing   | 3     |
| UNRS 403  | Leadership and Management in Professional Practice                                       | 2     |
| UNRS 425  | Nursing Research   | 3     |
| Total Units                                       |  | 17    |

At the beginning of clinical coursework, including health assessment lab, students are required to provide documentation including RN licensure, CPR certification, TB screening, and immunizations appropriate for the clinical setting.

A student's health status must permit him/her to safely undertake and complete clinical experience required for the degree. As a fully prepared health professional, the student is expected to take responsibility for self-evaluation of her/his health status, including an assessment of the safety and appropriateness of practice in the clinical context, for the student and the patient.

The Joint Commission (<https://www.jointcommission.org/>), contracted facilities, and the School of Nursing require that all graduate students undergo a background check prior to their placement at clinical sites. The cost of the background check is the responsibility of the student. International students will have additional fees based on the cost of a background check in their country.

The MSN program requires that students have ongoing clinical work experience.

Students may select additional elective courses to support their programs of study as directed by faculty.

## Programs

- MSN with Single Specialties (p. 1005)
- MSN with Credentials (p. 999)
- Post-Bachelor's Credentials (p. 1012)
- Post-Master's Certificate Programs (p. 1014)

## Courses

### **GNSR 500, Conceptual Foundations of Professional Nursing, 3 Units**

This course focuses on the introductory concepts crucial to the socialization of second career students to professional nursing. The history of nursing, the evolution of nursing in the U.S., the art and science of nursing, the legal and professional basis of nursing, the role of nursing in the health care delivery system, and current issues and trends in nursing education, practice and research are emphasized.

### **GNSR 501, Theoretical Thinking in Nursing, 2 Units**

This course examines questions about the nature and construction of theory and how theoretical ideas are developed and used in nursing practice and research. Philosophical ideas underlying theory are examined, and selected theoretical models and theories are explored.

**Prerequisite:** Completion of undergraduate research course or instructor's consent; admission to ELM or MSN program.

### **GNSR 503, Cultural Competency in Health Care, 3 Units**

This course focuses on transforming graduate nursing students, preparing them for nursing leadership in nursing practice, nursing research, education, and public health policy for the improvement of patient healthcare outcomes in our increasingly diverse society. Students move from cultural sensitivity and awareness to critical reflection and action, challenging their assumptions and broadening their perspectives. The Essentials of Master's Education in Nursing (American Association of Colleges of Nursing, 2011) serves as the foundation for the development of core cultural competencies.

**Prerequisite:** Graduate standing in the School of Nursing.

### **GNSR 504, Bioethics and Health Care Policy, 3 Units**

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.

**Prerequisite:** Graduate standing

### **GNSR 505, Christian Formation for Holistic Care, 3 Units**

Students engage in the process of discovering the foundational values of Azusa Pacific University that serve as guiding principles for the distinctive education they will receive. They are made aware of the Christian worldview and its implications for personal holistic development and care. With a focus on developing motivating character and integrated caregivers, the course brings heightened self-awareness, the impact of a Christian worldview on vocation, scriptural awareness especially emphasizing healing themes in the life of Christ, and the importance of spiritual growth on the journey toward formation.

### **GNSR 506, Spiritual Concept Analysis in Health Care, 3 Units**

Scholarly research and analysis of selected concepts in the spiritual care of persons from the Judeo-Christian perspective provide a central focus to the course. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journey and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.

**Prerequisite:** Graduate standing

### **GNSR 507, Scientific Writing, 3 Units**

This course provides opportunities for students to learn how to introduce a topic or issue, articulate a thesis, support and develop a thesis and subordinate claims, work with secondary sources, and organize an argument.

## **GNRS 508A, Research and Theory in Advanced Practice Nursing, 4 Units**

This course prepares nurses to use theory and research evidence in advanced clinical practice. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theoretical models and theories are explored, and students learn how ideas are developed and used in nursing practice and research. Students deepen their understanding of the research process by engaging in a systematic search, critique, and summary of research studies with direct application to nursing practice. Experience in statistical analysis of research data is included.

**Prerequisite:** Computer literacy, undergraduate research course, undergraduate statistics course, and graduate standing

## **GNRS 508B, Research and Theory in Healthcare, 4 Units**

This course prepares the healthcare administrator to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students learn the fundamentals of quantitative, qualitative, and mixed methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to healthcare. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.

**Prerequisite:** GNRS 613

## **GNRS 510, Family Theory in Health Care, 2 Units**

The major theoretical perspectives for understanding the family as a core unit of analysis are studied. This course fosters the student's recognition of the family's responsibility for health. Factors such as family patterns and care-giving tasks of families experiencing catastrophic or chronic alteration in health care are examined. This class is offered online.

**Prerequisite:** Graduate standing

## **GNRS 511, Advanced Pediatric Health Assessment and Health Promotion, 4 Units**

This course develops the graduate nurse's assessment skills and focuses on the promotion of health in the pediatric population from the newborn period through adolescence. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional health practices and identify culturally relevant and age-appropriate health promotion strategies. Outcomes are examined in light of related theoretical concepts. Strategies for health promotion include a focus on developmental and behavioral assessments, emotional health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for early detection and prevention of disease.

**Prerequisite:** Undergraduate health assessment and GNRS 515;

**Corequisite:** Practicum

## **GNRS 512, Advanced Health Assessment and Health Promotion, 4 Units**

This course develops the graduate nurse's assessment skills and focus on the promotion of health in individuals across the age range and within family, community, and cultural contexts. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional and nontraditional therapies and identify culturally relevant and age-appropriate health promotion strategies for common episodic complaints and chronic health conditions. Outcomes are examined in light of theoretical concepts. Strategies for health promotion include a focus on lifestyle, mental health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for the early detection and prevention of disease.

**Prerequisite:** Undergraduate health assessment and GNRS 515;

**Corequisite:** Lab

## **GNRS 513, Advanced Nursing Practice Role, 2 Units**

This course focuses on the concepts of role development and performance competence of the nurse in advanced clinical practice within the context of a reformed health care delivery system. Emphasis is placed on the clinician, educator, clinical program manager, consultant, researcher, and case manager roles of the advanced practice nurse. The leadership aspects of the roles of advanced practice are explored in relation to health care delivery, policy formulation, and legislation. The course explores theories and issues related to the advanced nursing practice role.

**Prerequisite:** Graduate standing

## **GNRS 514, Research Proposal Writing, 2 Units**

This course focuses on the application of the concepts in GNRS 508A. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.

**Prerequisite:** GNRS 508A

## **GNRS 515, Advanced Pathophysiology, 3 Units**

This course builds on basic anatomy and physiology and undergraduate study of pathophysiology. It focuses on development of an advanced understanding of the pathophysiologic mechanisms of human health disorders. Diagnostic reasoning that facilitates the clustering of signs and symptoms leading to diagnosis is a key process undergirding the course. This course requires the integration of signs and symptoms, clinical testing (such as laboratory and radiologic studies), and pathophysiologic mechanisms with diagnoses.

**Prerequisite:** Graduate standing and undergraduate pathophysiology

### **GNRS 516, Integrative Disease and Symptom Management, 3 Units**

Using a systems-based approach, this course provides the student with a broad-based, graduate-level overview for understanding disease processes, treatment modalities, assessment and interventional strategies for patients across the life span.

### **GNRS 518, Supervised Practicum in Health Care, 3 Units**

This course prepares students to integrate and apply theory, evidence-based practice, and national guidelines and standards in practicum settings. Students select practicum areas in which, with faculty approval, they will participate in experiences led by preceptors. The purpose of the course is to equip students with current, evidence-based knowledge in a selected practice area.

### **GNRS 520, Theory and Practice of the Clinical Nurse Specialist in Nursing Care of Adult-Gerontology Patients, 6 Units**

Critical concepts in advanced collaborative management of adult-gerontology client populations by Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, adult-gerontology continuum of health and illness (i.e., wellness, health promotion, disease prevention), teaching-learning theory, and evidence-based best practices for clinical decision-making for the Adult and Geriatric population are highlighted. CNS roles, competencies, and professional issues and integrated clinical rotations will be chosen from critical care or medical-surgical adult-gerontology populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;

**Corequisite:** Practicum

### **GNRS 521, Clinical Specialization in the Care of Adult-Gerontology Patients, 6 Units**

The course prepares the student to apply concepts introduced in GNRS 520. It focuses on diagnosis and collaborative disease management of acute illness in the adult-gerontology patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice, disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

**Prerequisite:** Academic Core and Advanced Practice Core courses, GNRS 520, current RN license, CPR certificate, and meets health screening requirements;

**Corequisite:** Practicum

### **GNRS 522, Disaster Nursing and Emergency Preparedness, 3 Units**

This course explores the nature of disasters and prepares nurses to respond to various types of disasters - including natural, environmental, mass casualty, public health emergencies, terrorism, and bioterrorism - by utilizing essential knowledge, skills, values, meanings, and experience in the basic competencies of emergency preparedness and disaster nursing. In accordance with the position of major nursing organizations, emphasis is placed on evidence-based best practices for personal preparedness.

**Prerequisite:** Comparable course, such as UNRS 312 Nursing Management of Adults, a human growth and development course, a lifespan course OR an RN licensure.

### **GNRS 530, Theory and Practice of the Clinical Nurse Specialist in the Care of the Pediatric Patient, 6 Units**

Critical concepts in the advanced collaborative management of pediatric client populations by the Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, pediatric continuum of health and illness (i.e., wellness, health promotion/disease prevention), teaching-learning theory, and evidence-based/best practices for clinical decision-making for the Pediatric population are highlighted. CNS roles, competencies, and professional issues are integrated. Clinical rotations will be chosen from critical care or medical-surgical pediatric populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;

**Corequisite:** Practicum

### **GNRS 531, Clinical Specialization in the Care of the Pediatric Patient, 6 Units**

The course prepares the student to apply concepts introduced in GNRS 530. It focuses on diagnosis and collaborative disease management of acute illness in the pediatric patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

**Prerequisite:** Academic Core and Advanced Practice Core courses, GNRS 530, current RN license, CPR certificate, and meets health screening requirements;

**Corequisite:** Practicum

### **GNRS 532, Advanced Nursing Practice in Pediatrics, 6 Units**

This course emphasizes physiological and psychological bases for critical and chronic conditions in children, focusing on an advanced science base for the assessment, diagnosis, and management of children and families to promote wellness. Exploration of traditional versus alternate medicine treatment plans, as well as relevant cultural, spiritual, and health promotion strategies, is incorporated.

**Prerequisite:** Graduate status and GNRS 590A;

**Corequisite:** Practicum

## **GNRS 533, Psychiatric Theories across the Life Span, 2 Units**

This course presents neurobiologic, neuroendocrine, genomic, behavioral, and psychodynamic theories of psychiatric mental illnesses as they manifest among members of diverse cultural groups across the life span. A theoretical foundation for subsequent coursework in primary psychiatric mental health care is provided for the role of the psychiatric mental health nurse practitioner.

**Prerequisite:** Graduate standing, Advanced Practice Core

## **GNRS 534, Integrated Psychiatric and Health Assessment across the Life Span, 2 Units**

This course teaches the role of the psychiatric mental health nurse practitioner in interviewing, assessing, and utilization of other data collection methods to elicit, analyze, and evaluate bio-psychosocial information regarding psychiatric mental health illness as experienced and understood by the clients, across the lifespan. Assessment and integration of the effects of potential and/or existing co-morbid health problems are focused upon. Diagnostic reasoning that is based on the Diagnostic Statistical Manual is foundational in the course. Development of differential diagnoses and disease management, evidence-based practice, and health promotion that includes client and nurse practitioner collaboration is emphasized.

**Prerequisite:** Advanced Practice Core, GNRS 533 (May be taken concurrently)

## **GNRS 535, Psychiatric Interventions and Health Promotion across the Life Span, 6 Units**

In this course students learn historical, theoretical, and contemporary evidence-based psychotherapies that promote and support client stabilization, rehabilitation, and recovery. The client as a collaborating decision making consumer and the client-clinician therapeutic alliance are central to this course. Students increase competence in assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, group, family), medication management, and health promotion interventions, including motivational interviewing. Student competence in developing and facilitating therapeutic groups as a recovery modality are included in the course. The role of the psychiatric mental health nurse practitioner in the integration and coordination of support services that impact mental health and illness is also included. Students practice verbal psychotherapeutic skills that motivate and facilitate client self-management and progression toward recovery.

**Prerequisite:** Advanced Practice Core, GNRS 533 and GNRS 534; GNRS 539 may be taken concurrently;

**Corequisite:** Practicum

## **GNRS 536, Psychiatric Mental Health Care with Adults and Older Adults, 6 Units**

In this course students increase their knowledge and competence in the assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services, with adults and older adults.

**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 539;

**Corequisite:** Practicum

## **GNRS 537, Psychiatric Mental Health Care with Children and Adolescents, 6 Units**

In this course, students increase competence in the role of the psychiatric mental health nurse practitioner in the assessment of psychiatric mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services with children, adolescents, and families.

**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;

**Corequisite:** Practicum

## **GNRS 538, Psychiatric Mental Health Care with Selected Populations, 5 Units**

Students increase knowledge and competence in the assessment of psychiatric and mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), medication management, health promotion and disease prevention interventions, and integration and coordination of support services with a selected population. Focus is on integrating and practicing all aspects of the role of the psychiatric mental health nurse practitioner with clients who are experiencing acute and/or chronic mental health problems and psychiatric disorders.

**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;

**Corequisite:** Practicum

## **GNRS 539, Psychopharmacology, 2 Units**

Students in this course build upon knowledge of advanced practice nursing and provides content essential for the psychiatric mental health nurse practitioner to prescribe appropriate pharmacologic treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for psychopharmaceuticals commonly utilized across the lifespan are addressed.

**Prerequisite:** GNRS 533, GNRS 534; GNRS 535 (May be taken concurrently)

## **GNRS 542, Advanced Concepts and Competencies in Pediatric Primary Health Care, 3 Units**

This course offers a comprehensive review and synthesis of core concepts and competencies for the pediatric advanced practice nurse in the primary care setting. This culminating experience for pediatric nurse practitioner students incorporates seminar discussions and clinical practicum placement, and also allows for a discussion of developmental/behavioral issues, management of acute and chronic care illnesses seen in primary care settings, and preventative health care.

**Prerequisite:** Graduate standing, GNRS 532 (may be taken concurrently with instructor's permission), and GNRS 590A;

**Corequisite:** Practicum

## **GNRS 543, Transitions Across the Care Continuum, 4-6 Units**

This course focuses on principles and models of care and their implementation in a multidisciplinary practice environment that emphasizes healthcare delivery through integration of services and transition management. Students are introduced to decision making related to allocation of resources and services, development of protocols, and evaluation of management approaches. Evidence-based approaches to the clinical, administrative, educational, and research dimensions of patient care are emphasized. Evaluation of care management activities with the student's selected clinical population is an integral component of the course.

**Prerequisite:** NP students: completion of Advanced Practice Core; CNS students: completion of Advanced Practice Core and GNRS 520 or GNRS 530; HAL students: completion of MSN Core and GNRS 560.

**Corequisite:** Practicum

## **GNRS 544, Clinical Specialization Residency, 2-3 Units**

The elective clinical residency is a clinical specialty experiential program designed as a collaborative partnership between the School of Nursing and selected community health care organizations. This residency is an intensive precepted clinical experience planned to ease the role transition from a student nurse to a beginning professional nurse in a specialized setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination. The student will increase their ability to perform clinical reasoning with the assigned patient population and evaluate QSEN competencies of patient centered care, safety, evidence based practice, informatics, and teamwork and collaboration.

**Prerequisite:** GNRS 573 (May be taken concurrently)

## **GNRS 546, Theory and Practice in Health Care Systems in the Community, 6 Units**

This specialized course prepares RNs without a bachelor's degree for graduate study in nursing. A multiple theoretical focus that includes concepts from systems, stress, adaptation, developmental, and role theory is emphasized. A beginning practice in the utilization of the nursing process with an emphasis on nursing diagnosis and the nurse's role in assessing, planning, implementing, and evaluating care of clients in a variety of community settings is provided. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals and families at home are essential course components. A review of legal mandates for practice and discussion of ethical dilemmas and issues related to high quality nursing care are included. Specific content varies based on the students' prior education and experience. Clinical placements are arranged to meet the individual student's needs.

**Prerequisite:** Undergraduate research, pathophysiology, and health assessment;

**Corequisite:** Practicum

## **GNRS 547, Nursing Leadership in Acute Care Settings, 6 Units**

This is one of two clinical courses provided for the RN who seeks both a bachelor's and master's degree in nursing. The course synthesizes selected information from the generic bachelor's and master's programs for presentation in a condensed format, addressing the development and nature of today's health care systems and associated issues in the United States. Further, content familiarizes the student with several roles and responsibilities of the contemporary nurse, such as leader, consultant, teacher, manager, and client advocate. The course focuses on client needs in acute health care settings and emphasizes the relationship between the health care system and the advocate.

**Prerequisite:** Undergraduate research, pathophysiology, and health assessment;

**Corequisite:** Practicum

## **GNRS 548, Health Promotion Across the Lifespan, 2 Units**

The course focuses on health promotion and disease prevention across the lifespan and around the globe. The course includes exploration of population health issues, environmental implications in health and health policy, impact on health promotion and the development of disease.

**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements

## **GNRS 550A, Theory and Practice in School Nursing, 6 Units**

This combined didactic and clinical course provides theoretical content and field experiences that emphasize the multifaceted role of the school nurse. The student participates in field experiences and classroom learning activities that focus on the assessment and management of children's health care needs in various school settings. This course provides the student with the necessary tools and skills to successfully function as a professional school nurse. At the conclusion of this course, the student will be able to successfully function as a provider of health education as well as a provider, planner, and coordinator of health care in school settings.

**Prerequisite:** All School Nurse Services Credential courses except GNRS 590A, GNRS 589 may be taken concurrently

## **GNRS 555, Medical Surgical Care of the Adult and Geriatric Patient, 7 Units**

This course introduces crucial concepts to professional nursing care such as nursing process, communication, therapeutic interventions, and critical thinking and clinical reasoning. The course focuses on the application of biological, psychosocial, and spiritual concepts to hospitalized adult and elderly clients with acute and/or chronic illnesses. Students will be guided in critical thinking and clinical reasoning exercises in the management of hospitalized clients. Nursing process is utilized to provide care to one or two adult clients within the health care delivery system of an acute care setting. The clinical practicum focuses on the cognitive basis, scientific principles, and manipulative component of psychomotor skills used when providing nursing care. Students will have an opportunity to practice simulated clinical skills.

**Prerequisite:** Admission to the ELM program, completion of all prerequisite courses for the program;

**Corequisite:** Practicum

## **GNRS 556, Intermediate Medical Surgical Care of the Adult, 7 Units**

This course is designed to build on the base of medical-surgical nursing knowledge from GNRS555. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, in restorative care setting, or long-term care setting.

**Prerequisite:** Admission to the ELM program; successful completion of GNRS 555;

**Corequisite:** Practicum

## **GNRS 557, Medical Spanish for Advanced Practice Nurses, 3 Units**

This course provides non-Spanish-speaking advanced-practice nursing students with foundational knowledge of Spanish language structure and vocabulary, helping them build appropriate phrasing to facilitate communication in healthcare settings. Cultural issues relevant to health and illness in the Latino community are also addressed.

**Prerequisite:** Graduate nursing student standing, or instructor's permission

## **GNRS 559, Audiometry for School Nurses, 3 Units**

This course provides didactic instruction via eCollege and eight hours of on-site practicum experience that emphasizes the content and clinical expertise necessary to fulfill the requirements of the State of California School Hearing Conservation Program and training for the school audiometrist. The course focuses on the physiologic process of hearing and how to assess for deficits in hearing in children of all ages. At the conclusion of the course, and after having completed successfully all learning objectives, the student is eligible to submit an Application for Registration as a School Audiometrist in the State of California (a \$10 registration fee is required with the application).

## **GNRS 560, Strategic Leadership in Healthcare, 3 Units**

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

## **GNRS 564, Nutrition and Therapeutics, 2 Units**

Students in this course explore the functions of nutrients and the consequences of nutrient deficiencies and excesses in the body. Course material introduces a variety of tools for planning and evaluating diets, including a computer diet analysis, and the application of nutrition concepts is interwoven into health care and fitness conditions. Students also study the prevention of chronic disease as it relates to proper nutrition and adequate exercise.

**Prerequisite:** Admission to the ELM program

## **GNRS 567, Healthcare Administration and Leadership Supervised Practicum, 3 Units**

This course provides the student with the opportunity to experience the role of healthcare administrator. An individualized administration practicum in a specific area of clinical emphasis is chosen by the student and approved and monitored by the faculty and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth. Students focus on the context for enacting the role of administrator in a healthcare delivery system.

**Prerequisite:** All core and role courses

## **GNRS 568, Healthcare Finance, 4 Units**

This course is an introduction to financial concepts and skills need for healthcare leaders, managers, and executives. The student will develop skills in assessing multiple dimensions of financial performance and methods to improve the financial health of an organization in the context of current patient care system.

## **GNRS 569, Quality and Safety for Health Care Practice, 3 Units**

This course is designed to deepen and advance students' knowledge of, and ability to systematically apply the principles of, patient quality and safety in nursing practice. Based on national standards, the focus is on examining and applying quality and safety tools, including informatics, that can be used to improve patient care delivery across the continuum of health care.

## **GNRS 570, Parish Nursing/Health Ministries, 2 Units**

This course provides an introduction to and overview of health ministry and parish nursing theory and practice. The philosophy of the course is that (a) the parish nursing role is that of a specialist in spiritual aspects of patient care in the congregational context, requiring the integration of graduate level theology/ministry and nursing theory and praxis; and (b) health ministry is an emerging role and trend in pastoral ministry that seeks to bring professional ministry skill to bear upon the integration of health, faith, and spirituality in the parish setting.

## **GNRS 571, International Health Care, 2-4 Units**

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

## **GNRS 573, Clinical Residency, 4 Units**

The clinical residency is an internship clinical experiential program designed as a collaborative partnership between the School of Nursing and selected community in-patient health care organizations. This residency is an intensive preceptored clinical experience planned to ease the role transition from a student nurse to a beginning professional nurse in an acute-care setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination.

**Prerequisite:** Successful completion of all pre-licensure clinical courses

## **GNRS 575, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units**

This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Selected issues of women's health are explored. The student is introduced to birth preparation, prenatal care, normal neonatal, and postpartum care with concurrent clinical experiences.

**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;

**Corequisite:** Practicum

## **GNRS 576, Pharmacology, 2 Units**

This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.

**Prerequisite:** Admission to the ELM program

## **GNRS 578, Health Assessment, 3 Units**

This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physical examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included.

**Prerequisite:** Admission to the ELM program;

**Corequisite:** Practicum

## **GNRS 580, Gerontology, 2 Units**

This course integrates research and writings about the major trends and developments in the field of gerontology as they apply to the field of nursing. The approach is interdisciplinary - course material includes information from the fields of sociology, psychology, anthropology, biological sciences, medicine, nursing, and psychiatry. Development in adulthood is viewed from multiple perspectives including cognitive, behavioral, biological, sociocultural, and spiritual, and the influences these perspectives have on the successful negotiation of age-related issues are considered. Finally, students examine aspects of human aging in contemporary American society and from a cross-cultural and ethnic perspective.

**Prerequisite:** Graduate standing in the School of Nursing.

## **GNRS 581, Primary Health Care of the Older Adult, 5 Units**

GNRS 581 focuses on the role of the adult-gerontology primary care nurse practitioner in the management of the older adult including health promotion, assessment, treatment, and maintenance of common primary care health problems. The clinical practicum emphasizes the application of theory and evidence-based research for the delivery of culturally competent assessment and treatment of the older adult within the context of their families and in a variety of outpatient settings.

**Prerequisite:** Graduate status in the School of Nursing, completion of Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNRS 582A, Pathophysiology, 2 Units**

This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

**Prerequisite:** Admission to the ELM program

## **GNRS 582B, Pathophysiology, 2 Units**

This course continues the presentation an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

**Prerequisite:** Admission to the ELM program, successful completion of GNRS 582A

## **GNRS 583, Nursing Care of Children and Young Adults, 4 Units**

This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship to the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.

**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;

**Corequisite:** Practicum

## **GNRS 584, Mental Health Nursing, 4 Units**

This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of clients with acute and chronic psychiatric disorders.

**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;

**Corequisite:** Practicum

## **GNRS 586, Leadership and Management in Professional Practice, 2 Units**

This course emphasizes leadership and management theory including systems theory in a number of applications and settings. It assists the upcoming graduate in adjusting to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to the clinical settings are presented using a systems approach. Emphasis on nursing case management is included.

## **GNRS 587, Community Health Nursing, 5 Units**

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing, and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings, with a focus on care of the gerontological client. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care is included.

**Prerequisite:** Admission to the ELM program, successful completion of semesters one, two, and three;

**Corequisite:** Practicum

## **GNRS 588, Advanced Nursing Care of Adults - Leadership, 6 Units**

This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The primary focus of the course is to care for critically ill clients and their families with complex health care needs in a critical-care setting. A second area of focus is on the utilization of leadership and management concepts/skills in providing comprehensive care to groups of clients and families. Emphasis is placed on preparing the student to practice in a beginning leadership role in managing client care. Legal and ethical issues related to acute care are included.

**Prerequisite:** Admission to the ELM program;

**Corequisite:** Practicum

## **GNRS 589, Adolescent Health Care, 2-4 Units**

This course focuses on the growth and development of adolescents, including assessment, prevention, and management of common health and psychosocial problems in this population. Emphasis is on age-appropriate and culturally competent provision of primary health care to adolescents in a family system.

**Prerequisite:** Graduate status in the School of Nursing; 2-unit version of this course requires prior completion of GNRS 515, while the 4-unit version requires prior completion of GNRS 515, GNRS 594, and GNRS 511 or GNRS 512.

## **GNRS 590A, Primary Health Care of the Young Family, 6 Units**

This combined theory and clinical course focuses on management of health care of children (from birth through adolescence) and their families.

Theory and clinical experiences emphasize assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory and clinical experiences in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.

**Prerequisite:** Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNRS 590B, Clinical Practicum in Pediatrics, 4 Units**

The student develops expanded skills in the comprehensive assessment and management of common childhood illnesses and problems and continues to gain skill in promoting child wellness. Application of theory and research is emphasized in the care of common illnesses throughout the childhood years.

**Prerequisite:** GNRS 511 or GNRS 512 and GNRS 590A

## **GNRS 590C, Primary Health Care of the Young Family for the School Nurse Services Credential, 6 Units**

Using a system-based approach, this combined didactic and practical course focuses on assessment, nursing interventions, and follow-up for common illness presentations in children, as well as illness-related impact on social, emotional, and educational functioning. The effects of culture on child development, parenting, and healthcare practices is also emphasized.

**Prerequisite:** GNRS 512;

**Corequisite:** Practicum

## **GNRS 591, Primary Health Care of the Childbearing Family, 4 Units**

This course focuses on the assessment and management of the primary health care needs of the reproductive family. Emphasis is placed on health promotion and maintenance, disease prevention, curative, and restorative care. Cross-cultural aspects related to parents, male and female, of the childbearing family are addressed.

**Prerequisite:** Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNRS 592A, Primary Health Care of the Adult and Aging Family, 6 Units**

This combined theory and clinical course focuses on the role of the nurse practitioner (NP) in caring for mature adults and aging family members, from young adulthood to elderly adulthood. Emphasis is placed on the management of common primary health problems of these age groups. The delivery of culturally competent primary health care interventions of young, middle-aged, and elderly adults is addressed.

**Prerequisite:** Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNRS 592B, Primary Health Care Clinical Practicum, 2 Units**

This course provides the final comprehensive clinical management experience, allowing FNP and AGNP students to apply knowledge gained throughout their course of study. Clinical conferences provide opportunity for discussion of role development issues and clinical case studies. Students engage in the clinical assessment and management of adults of diverse cultural backgrounds with routine and complex health problems in out-patient settings. Under the supervision of qualified preceptors and School of Nursing faculty, the student must complete his/her clinical hours and demonstrate mastery to perform the role of an entry-level nurse practitioner.

**Prerequisite:** Completion of clinical courses for the FNP or AGNP program track

## **GNRS 593, Psychosocial Primary Health Care of the Adult and Aging Family, 4 Units**

This combined didactic and clinical course focuses on psychosocial primary health care of the mature and aging family. Didactic content and clinical experiences emphasize the advanced practice nursing role in the medical management of chronic illness with concurrent assessment for psychosocial stressors that impact the experience and management of chronic illness. Students learn to tailor patient-centered therapeutic strategies, including presence, multi-faceted functional assessment, motivational interviewing, stress reduction techniques and spiritual support to individual patients.

**Prerequisite:** Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNRS 594, Pharmacology in Advanced Practice Nursing, 3 Units**

This course builds upon basic knowledge in pharmacology and provides content essential for the advanced practice nurse to render appropriate pharmacological treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for drugs commonly utilized across the life cycle are addressed. Variations in pharmacological reactions attributed to cultural factors are emphasized. Strategies for fostering individual/family adherence to pharmacological regimens are examined. This course meets the requirements of the California Board of Registered Nursing in the application of a 'furnishing number' by the advanced practice nurse in California.

**Prerequisite:** GNRS 515 (May be taken concurrently)

## **GNRS 595, Special Topics in Nursing, 1-6 Units**

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

**Prerequisite:** Graduate standing

## **GNRS 596, Foundations of Healthcare Informatics, 3 Units**

This course provides an overview of basic concepts for practice in healthcare-oriented informatics. These core concepts include an introduction to clinical and translational informatics; foundational theory and practical application of clinical decision making and computerized decision support; healthcare systems and their organization; the special issues of administration, security, and operations of electronic records in the healthcare setting; human factors issues; information science in the healthcare domain; standards, terminologies, and the uniqueness of biomedical data; and a special focus on emerging technologies.

## **GNRS 597, Comprehensive Examination Directed Study, 1 Unit**

This course guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge. Critical thinking is enhanced through careful consideration of information presented during discussion. The examinations are taken as part of this seminar.

**Prerequisite:** Completion of all Academic Core and degree specialty courses. Final specialty course may be taken concurrently.

## **GNRS 598, Thesis, 1 Unit**

A student initially enrolls in this option toward the latter part of the program for one unit of credit. The student registers for one unit of thesis credit each semester (two of three semesters per year) until the thesis is completed.

**Prerequisite:** GPA of 3.5 or above, chair's consent for thesis option, and completion of all Academic Core and Advanced Practice Core courses

## **GNRS 599, Readings/Independent Study in Nursing, 1-4 Units**

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. University policy states that the student must earn a grade in an independent study course in order to receive credit toward graduation.

**Prerequisite:** Graduate standing

## **GNRS 613, Graduate Statistics, 3 Units**

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

## **GNRS 620, Genome Science in Healthcare, 3 Units**

This course covers basic genomic concepts and technologies intended for personalizing healthcare. The primary goal is to provide the student with clinically relevant knowledge that can be used in practice and for teaching other healthcare professionals, patients and families. Applications of genome science and technology are analyzed in the context of real world examples taken from a variety of clinical specialty areas to better understand the relation between genomics, health, and illness.

## **GNRS 622, Genome Science and Ethical Issues, 3 Units**

This course examines current applications and implications of genome science and technology to healthcare, public health policy, economics, ethics, federal and state laws and societal issues. The following discussion topics are at the leading edge of healthcare and social debate: DNA biobanking, genetic profiling, and genomic technologies used in genome medicine such as stem cell research, gene therapy, and genetic enhancements. In addition, the course addresses ethics, philosophy, and theology literature to explore thoughtful discussions that cover a wide range of genome applications in healthcare and health science research.

**Prerequisite:** GNRS 620

## **GNRS 630A, Oncology Nurse Practitioner Fellowship A, 4 Units**

This course is the first in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## **GNRS 630B, Oncology Nurse Practitioner Fellowship B, 4 Units**

This course is the second in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## **GNRS 630C, Oncology Nurse Practitioner Fellowship C, 4 Units**

This course is the third in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## **GNRS 631, ONP: Cancer Biology and Assessment, 2 Units**

This course builds on knowledge of the anatomy and physiology of DNA, RNA, differentiated, and nondifferentiated human cells. Focus is on the pathophysiologic mechanisms of human cancer disorders. Diagnostic reasoning that facilitates the clustering of signs and symptoms is a key process undergirding the course. The course provides the foundation for the integration of diagnostic testing, physical assessment, and understanding of the predictable pathophysiology of cancer to stage tumors and predict metastatic risk in individuals.

**Prerequisite:** Admission to the oncology nurse practitioner fellowship certificate program.

**GNRS 632, ONP: Cancer Therapeutics, 2 Units**

This course builds on knowledge of the predicted behavior of human cancer. Technology in cancer treatment is evolving rapidly. This class will provide a pathophysiological foundation to understand cancer protocols. Current cancer protocols, classes and categories of therapeutics, technologies in development, and tumor resistance will be discussed. The cost-benefit, side effects, and availability of the covered therapeutics will be discussed.

**Corequisite:** GNRS 631

**GNRS 633, ONP: Symptom and Side Effect Burden, 2 Units**

Patients with advanced cancer often suffer significant symptomatic burden and the iatrogenic complications of treatment. This course develops a patient-centered approach to evidence-based management of common symptoms of cancer and side effects of treatment.

**Prerequisite:** GNRS 631 and GNRS 632

**GNRS 634, ONP: Survivorship and the Psychosocial Impact of Cancer, 2 Units**

Cancer patients and their caregivers face complicated psychological, financial, and spiritual changes, beginning at diagnosis and extending into the posttreatment phases. This course covers the common problems related to those changes, and best-practice strategies and techniques to help patients and families cope with cancer.

**GNRS 635, ONP: Team-based Care and the Role of the Oncology Nurse Practitioner, 2 Units**

The clinician role of the oncology nurse practitioner requires familiarity with the incidence, prevalence and risk assessment competencies for all common cancers. In addition, the oncology nurse practitioner must be prepared for a wide variety of leadership roles. Strategies for care coordination, designing and measuring interdisciplinary team outcomes, mentoring, collaborating with primary care providers, and rapid-cycle quality improvement are examined.

**GNRS 636, ONP: Clinical Trials Nursing, 2 Units**

The advanced practice oncology nurse practitioner must be prepared to be a direct care provider or study coordinator for clinical research trials. This course covers the knowledge and behaviors needed by nurse practitioners engaged in oncology clinical trials.

**Prerequisite:** GNRS 512, GNRS 515, and GNRS 613, or instructor consent

**GNRS 660, Theories of Teaching and Instruction, 3 Units**

This course analyzes selected teaching and learning models that are applicable to nursing education. Strategies for classroom and clinical teaching are examined. Research relative to nursing education is reviewed and critiqued. Design of research methods to determine effectiveness of teaching strategies is incorporated. Course development and student evaluation are emphasized. Selected faculty and nursing education issues are also explored.

**GNRS 661, Leadership and Role Development in Nursing Education, 3 Units**

This course includes an analysis of educational leadership and the multiple roles of the nurse educator related to teaching, scholarship, service, and practice. Theoretical perspectives and practical approaches supported by research in nursing and higher education literature, as well as the Christian educator's role promoting faith integration, are addressed.

**GNRS 662, Assessment, Curriculum, Development, and Outcomes, 3 Units**

This course addresses theoretical approaches to educational assessment, the development and implementation of nursing curriculum, and student and program outcomes. Emphasis is given to the importance of incorporating Christian values in the curriculum. The course also includes critical analyses of related topics based upon current research in nursing and higher education literature.

**GNRS 663, Clinical Practicum in Nursing Education, 3 Units**

This practicum course builds on clinical and teaching/learning theories, concepts in curriculum design, and instructional strategies. Under the supervision of a faculty-mentor, the practical classroom experience focuses on designing and implementing teaching plans for units of instruction, writing of teaching/learning objectives, selecting teaching strategies and learning activities, evaluating student learning outcomes, obtaining feedback on teaching performance from faculty-mentors, students, and self-evaluation, and reflection. The clinical teaching practical experience focuses on assessing and meeting nursing student clinical learning needs, conducting postcare conferences, clinical evaluation of nursing student performance, and student counseling.

**Prerequisite:** GNRS 660, GNRS 661, GNRS 662

**GNRS 664, Teaching-Learning Strategies and Educational Technology in Nursing Education, 3 Units**

This course will equip the nurse educator to develop and utilize theory- and evidence-based instructional strategies and tools in traditional and non-traditional formats in a variety of nursing educational settings.

**GNRS 695, Special Topics, 1-4 Units**

A subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. This course may be repeated for credit to a maximum of 6 units applied toward the MSN or PhD degree; each course must address a different topic.

## **GNRS 700, Philosophy of Science, 3 Units**

This course is designed to provide students with the knowledge and critical analytic skills to comparatively evaluate the philosophical foundations of scientific theories and the influence of Western philosophical schools of thought on the development of nursing science. Course content is organized to engage students in discussion and critical analysis of the epistemological and philosophic foundations of scientific theories and the characteristics of scientific knowledge according to the received view, paradigmatic view, perceived postmodern view, and feminist tradition. Special emphasis is given to the critical debate within nursing about the nature of nursing science.

## **GNRS 701, Nursing Knowledge Development, 3 Units**

This course focuses on analyzing and critiquing the theoretical and methodological processes that are utilized in theory building and knowledge development in nursing. Discussion and critique of the different stages of theory development and students' experimentation with conceptualizing and developing their theoretical stance go hand in hand. Patterns of knowing, knowledge development, and criteria for evaluating nursing knowledge are examined in relation to the discipline's domain and the phenomena of concern in nursing.

## **GNRS 702, Nursing Theory, 3 Units**

This course focuses on strategies for theory development such as concept analysis, conceptual mapping, and theoretical modeling as applied to the student's phenomenon of concern. It also provides critique and analysis of the major models and theories used in a variety of nursing settings in relation to existing interdisciplinary theoretical knowledge.

## **GNRS 703, Spirituality and Health, 3 Units**

This course provides an introduction to spirituality, including spiritual experience, as it relates to individual health and illness. Communal spirituality is also considered. Differentiation is made between and among generic religious and Christian spiritualities. While the course covers theoretical aspects of spirituality and their interaction with health and illness, concentration is on the movement from theory to praxis. This lecture/seminar course is oriented toward nursing educators who seek to develop a foundation in spirituality for spiritual integration as well as for its development in nursing practice.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 704, Faith Integration and Nursing Scholarship, 3 Units**

This course begins with an exploration of the nature, role, problems, and possibilities of faith integration in higher education and in the nursing curriculum at all levels of higher education. The special circumstances of faith integration and its implications for teaching in secular college settings are explored. This course further provides a critical explication of theological method and content in three domains: biblical hermeneutics, constructive theology, and ministry praxis for education. The focus of the course is on the appropriation of theological method and knowledge for the purposes of integration into nursing education and practice especially (but not exclusively) within the context of a Christian or church-affiliated college.

## **GNRS 705, Social Ethics and Health Policy, 3 Units**

This course seeks to provide a social ethics frame of reference for health care. Medical and biological advances have contributed to a rapidly expanding amount of human control over human and natural processes, including genetic potential and behaviors. This new power raises questions of morality and highlights the need for discussion and legislation regarding the complex issues raised by developments in health care, medical technology, and science. A comprehensive social ethic places decisions about health care within the context of a fuller account of purpose and meaning in life.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 706, Methods of Inquiry, 3 Units**

Exploration of various methods of inquiry focuses on the difference between scientific thinking, wisdom, and alternative concepts of knowledge. Existential dilemmas intrinsic to the pursuit of truth, the exploration of the meaning of actions, the process of interpretation, the perception of reality, and empirical generalizations are discussed and their influence on the definition of research problems and designs explored. The nature of the problem and assumptions and their relationship within the physical and social order are addressed with an emphasis on understanding the complexity and interrelatedness of events and the concept of ecology in research. Research designs and methods are introduced as they relate to problem definition and theory and includes an overview of the principles of basic and applied experimental research, evaluation research, and the traditions and foundation of qualitative and historical research. The role of triangulation as a methodological choice in research design and analysis is addressed to provide a more insightful approach to the exploration of complex phenomena.

## **GNRS 707, Quantitative Nursing Research Design I, 3 Units**

This course focuses on advanced multiple research designs and data collection approaches. Emphasis is on experimental and quasi-experimental designs, epidemiological methods, survey research, and evaluation and outcomes research, as well as on planning design and sampling. Inferential statistics and advanced statistical analysis methods including ANOVA and various types of multiple regression analysis are incorporated within the course content.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 708, Qualitative Nursing Research Design I, 3 Units**

This course focuses on analyzing the epistemological foundations and the assumptions of qualitative research methodologies. It provides an introduction to the major qualitative research methodologies including grounded theory, phenomenology, and ethnography. Each methodology is analyzed as to its appropriateness for the research question. Experience in carrying out a pilot study in the selected methodology is provided.

### **GNRS 709, Advanced Statistical Analysis II, 3 Units**

This course presents advanced methods of quantitative inquiry. The emphasis is on the use of factor analysis, confirmatory factor analysis, path analysis, and structural equation modeling. Assumptions of the techniques are addressed. The course provides the student experience in using statistical packages for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which of the advanced statistical techniques to use is stressed. Critique of the advanced statistical analyses of published health care research is also emphasized.

**Prerequisite:** GNRS 707

### **GNRS 710, Advanced Qualitative Research Methods, 3 Units**

This course provides advanced knowledge and training in the use of qualitative research methods including phenomenological interpretation, grounded theory interpretation, ethnographic interpretation, focus groups interpretation, and feminist interpretation. Intensive interpretive and structured approaches to analysis and methods of establishing plausibility, credibility, and adequacy of qualitative data are emphasized.

**Prerequisite:** GNRS 708

### **GNRS 711, Advanced Research Methods in the Humanities, 3 Units**

This seminar and consultation course introduces PhD students to nonscientific research methodologies as used in the arts, letters, humanities and aspects of the social sciences for the (a) conduct of original dissertation research on one of the disciplines of arts, letters, humanities, or nonscientific aspects of one of the social sciences, (b) conduct humanities-based research to widen and deepen a scientific dissertation topic, or (c) to enlarge the student's methodological repertoire, knowledge, and skill. The course is intended for those whose primary research education and experience has been in scientific methods and disciplines. (Enrollment limited to eight.)

**Prerequisite:** (a) successful completion of GNRS 701 and GNRS 706, (b) permission of the instructor

### **GNRS 712, Advanced Evaluation Research, 3 Units**

Evaluation research bridges the gap between conceptual definitions, theory formulation, and practice. Evaluation research utilizes quantitative and qualitative research designs to analyze evidence and disseminate the findings to identified stakeholders that will inform decision making and policy development. Explicit models of the decision process for program development and implementation are incorporated into the structure of the evaluation design and analysis. The course includes needs assessment, benchmarking or best practices, logic modeling, program theory development, empowerment evaluation, system analysis, and process-outcome designs. Examples incorporate national and international programs.

### **GNRS 713, Advanced Statistical Analysis I, 3 Units**

This course presents common nonparametric and parametric statistical techniques used in healthcare research. Assumptions of the techniques are addressed. Specifically, the course emphasizes t-tests, ANOVA, ANCOVA, RANCOVA, correlation, odds ratio, regression, and power analysis, and provides the student experience in using SPSS for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which statistical techniques to use is stressed. Critique of statistical analyses of published healthcare research is also emphasized.

### **GNRS 715, Psychosocial Issues of Older Adults, 3 Units**

This course focuses on the biological and psychosocial processes throughout adulthood and the older years. Theories of aging are examined, as well as social role changes, social stratification, and the development of institutions of the aged. The course explores both normal aging and psychopathology, and the systematic intrinsic psychological or personality changes associated with development and adaptation in later life. Other topics include clarification of the causes and prevention of health maladies in the later years, and the nature and treatment of the most common psychopathologies. The psychodynamics of institutionalization and family care of the very old are also examined.

### **GNRS 716, Translational Research, 3 Units**

The goal of this course is to help the nurse scientist identify strategies within a multidisciplinary model that promotes the ready translation of research developed from basic laboratory, clinical, or population studies. The course involves three stages as set forth by the National Institute of Nursing Research. The first stage, referred to as early translation, reviews a promising discovery that was developed in the lab, epidemiologic study, or other study that involves the initial development and testing of an intervention. In the second stage, or late translation, analysis of the study design and intervention used in clinical trials determines appropriate clinical guidelines. In the final stage, where dissemination involves the broader distribution of the intervention, emphasis is on analyzing the strengths and limitations in the clinical setting.

### **GNRS 717, Health Technology and Informatics, 3 Units**

This course presents an overview of the evolution of health care informatics from an interdisciplinary perspective. Students learn health care informatics history, concepts, theories, legal and ethical implications, and applications within the health care industry. This course introduces the student to the information system life cycle, human factor issues in health care informatics, critical issues affecting the development and implementation of information and communication systems and technologies (clinical, administrative, and learning), knowledge management principles, professional practice trends, and emerging ICT (information and communication technology) in health care.

## **GNRS 718, Organizational Leadership and Strategic Planning, 3 Units**

In this course, students acquire knowledge and skill to effectively manage change, empower others, and influence political processes. Advanced nursing practice leadership occurs in clinical practice with clients and staff, within healthcare institutions and professional organizations, and in healthcare policy making arenas. To develop the leadership role, students implement strategies for creating organizational change to provide high-quality services at reasonable costs. Focus is on organizational process, including the associated management of conflict, change, and control of risk within a political context.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 720, Wellness Promotion and Health Maintenance, 3 Units**

This course focuses on the critical appraisal of theories and models of health promotion and on the evaluation of health initiatives developed for national health promotion and maintenance. Relevant risk prevention, control, and health promotion intervention strategies are emphasized. Communicable diseases; health hazards; high-risk health factors; acute and chronic illness across ethnicities, genders, and the life span; and morbidity and mortality of the nation's leading health problems are analyzed. Students' research questions are generated from a synthesis of knowledge regarding a specific phenomenon relevant to the student's individual area of study.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 721, Health Disparities and Vulnerable Populations, 3 Units**

This course offers an analysis and evaluation of various topics and issues on health disparities of underserved ethnic or minority vulnerable populations as well as an analysis of research that describes, explains, and examines variables influencing health disparities and intervention strategies to reduce these disparities.

## **GNRS 722, Research in Nursing and Health, 3 Units**

This course is team taught and reflects the research expertise and program of study of the nursing doctoral faculty. It focuses on analysis of determinants of health and illness across demographic, biological, psychological, familial/cultural, and societal dimensions. Attention is given to theoretical explanations toward promoting development of students' programs of research.

## **GNRS 724, Quantitative Nursing Research Design II - Psychometrics, 3 Units**

This course is designed to introduce students to the methods of survey research. The course considers practical considerations in the construction of questionnaires including determining questionnaire content, selection of item types and wording of items, selection of an administration method, piloting questionnaires, and locating existing questionnaires. Discussion about conducting survey research considers sample selection, analyzing information obtained from questionnaires using SPSS, evaluating questionnaires, sources of error and how to reduce measurement error in survey research.

**Prerequisite:** GNRS 707

## **GNRS 725, Research Practicum, 1 Unit**

The practicum further develops, mentors, and socializes students into the roles and activities of research scientists and scholars. Emphasis is on mentoring to facilitate student progression in research methodology, culturally appropriate research strategies, data management, and data analysis. Students can choose either a quantitative or qualitative practicum experience.

## **GNRS 726, Advanced Scientific Writing, 3 Units**

This course provides opportunities for students to learn how to research and introduce a topic in writing, articulate a thesis statement, support and develop a literature review, work with secondary sources, and organize a written paper that can be developed into a dissertation or translational research paper.

## **GNRS 727, Genome Science in Clinical Cases and Disease Management, 3 Units**

This course focusing on medical family history taking, constructing and analyzing the pedigree, genetic counseling, clinical decision making and clinical case management for a wide variety of inherited and acquired diseases through the lens of emerging genome science. Clinical cases are discussed from a holistic perspective including: genome science, epidemiology, genomic profiling, genetic technologies, personalized medicine, interprofessional collaboration, ethical and legal issues, and health policy.

**Prerequisite:** GNRS 620

## **GNRS 728, Genome Science Research Methods, 3 Units**

This course focuses on genome research methods for understanding and translating genome science to practice and to genome related nursing research. Understanding the research methods fosters a deeper understanding of the strength and the weaknesses of the science and an ability to critique the benefits and the limitations of the science for designing nursing research. The course includes a wide range of research methods that explore genetics or genomics in human populations. A key outcome of this course is to develop a research proposal using genome methods to design nursing research aimed at improving quality of health for individuals, families and populations.

**Prerequisite:** GNRS 620, GNRS 622, GNRS 727

## **GNRS 729, Population Health and Epidemiology, 3 Units**

The concept of population health includes aggregate, community, environmental/occupational, and cultural/socioeconomic definitions of health. The implementation of clinical prevention and population health activities is central to achieving the national goal of improving health status and reducing health disparities among different aggregate groups. This course covers the basic elements and methodological concepts used in the epidemiologic study of factors related to health promotion and disease prevention in human populations. It brings together considerations from several fields of investigation, such as epigenetics, epidemiology, psychology, and public health, to study the effects on health and health-related outcomes.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 730, Comparative Health Care Systems, 3 Units**

This course focuses on exploring/analyzing environmental, social, cultural, political and economic determinants of health across the globe. Comparative analysis of international health care systems including governmental, nongovernmental, traditional, and faith-based organizations are emphasized. Epidemiological analysis of morbidity and mortality, analysis of health and illness responses, and health-seeking behavior across the age span and gender/ethnic variables are discussed with the intent to identify areas of research relevant to students' interest. Presented from a Christian perspective, this course investigates research and practice opportunities and responsibilities for advanced practice nurses in global arenas.

## **GNRS 732, DNP Clinical Residency, 0 Units**

This course provides students enrolled in the Doctor of Nursing Practice (DNP) program with opportunities to develop professional nursing skills at the doctoral level. The focus of the course is to explore the development and scientific underpinnings of components of expert advanced clinical practice. Students select a population of interest for the DNP clinical residency and apply evidence-based practice and research findings in order to develop and improve practice. Over the course of the DNP program, students integrate previous nursing education and practice experiences with the DNP residency and concurrent doctoral coursework to meet the AACN Essentials of Doctoral Education for Advanced Nursing Practice and complete a DNP scholarly project. The course may be repeated to enable the student to obtain a minimum of 1,000 residency hours. Previous hours from graduate clinical courses may apply, so residency hour requirements will vary.

**Prerequisite:** Admission to DNP program

## **GNRS 733A, Residency IA, 1 Unit**

This is the first in a series of three residency courses designed to enhance students' critical thinking, diagnostic reasoning, interpretation, and management skills for advanced clinical practice. This course broadens and enhances understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice clinical nurse scholarship. Students practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts. The course focuses on exploring the development and scientific underpinnings of components of expert advanced clinical practice, and attention is given to the development of skills necessary to attain that goal. By the end of this course, students select their population of interest for their clinical residency and apply evidence-based findings to this population to identify potential areas of intervention.

**Prerequisite:** Admission to DNP program

## **GNRS 733B, Residency IB, 1 Unit**

The second of a three-course sequence, this course may be taken concurrently with GNRS 733A and/or GNRS 733C with approval of the DNP director or designee. Grading: pass/fail

## **GNRS 733C, Residency IC, 1 Unit**

The third of a three-course sequence, this course may be taken concurrently with GNRS 733A and GNRS 733B with approval of the DNP director or designee. Grading: pass/fail

## **GNRS 734A, Residency IIA, 1 Unit**

The first of a three-course sequence, this course may be taken concurrently with GNRS 734B and GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

## **GNRS 734B, Residency IIB, 1 Unit**

The second of a three-course sequence, this course may be taken concurrently with GNRS 734A and/or GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

## **GNRS 734C, Residency IIC, 1 Unit**

This is the last of a three-course series of clinical residencies with a focus on transformative and collaborative leadership, including completion of the evidence-based practice project, assessment of project outcomes, and planned dissemination of findings. Students apply relevant clinical and research findings to develop and improve practice. Content emphasizes critical appraisal of skills and interventions necessary to ensure meaningful translation of scientific evidence into practice, including a cost-benefit analysis for implementing a change into clinical practice. The course also emphasizes the professional role of the nurse as a collaborator, leader, and provider of care with nursing colleagues and other members of the interprofessional healthcare team within the context of complex healthcare systems, preparing students to implement an advanced nursing practice role that results in practice and/or policy change at the local, state, and/or national levels.

**Prerequisite:** Successful completion of GNRS 733A, GNRS 733B, GNRS 733C, GNRS 734A and GNRS 734B

### **GNRS 735, DNP Scholarly Project Seminar, 3 Units**

The DNP program requires a rigorous clinical project focused on translating scientific research to health care in a timely manner so that patients experience the best applications of science and practice. The project is a scholarly experience that implements the principles of evidence-based practice and translation under the guidance of a faculty mentor. In line with the AACN Essentials of 2007, the outcome of the DNP scholarly project is a tangible and deliverable academic product that is derived from the practice immersion experience and reviewed and evaluated by an academic committee. The project also serves as a foundation for future scholarly practice.

### **GNRS 736, DNP Scholarly Project Seminar: Evaluation and Dissemination, 2 Units**

This course focuses on presentation to and approval of a completed DNP Scholarly Project. The DNP program requires a rigorous clinical project focused on translating scientific research to health care to improve the patients experience utilizing the best evidence of science and practice. This scholarly project is a culminating, independent experience which demonstrates the student's synthesis of coursework and lays the foundation for future scholarship.

### **GNRS 780, Doctoral Seminar I: Elements of a Proposal and IRB Application, 3 Units**

This seminar directs the development of either a dissertation or a DNP Scholarly Project proposal draft that details a problem, the research/project purpose, questions or hypotheses to be examined, a synopsis of the relevant literature, the design and methods of the study including its timeline, protection of human subjects, plans for analysis, and the budget. The seminar also includes preparation of IRB applications, and peer review and critique of student proposals.

### **GNRS 781, Doctoral Seminar II: Developing a Grant Proposal, 3 Units**

This doctoral seminar provides students with the opportunity to acquire knowledge, skills, and insights in the writing of a grant proposal. Discussion will focus on the value of writing grant proposals, the basic principles in writing a grant proposal, the components of a grant proposal, identification of funding sources, the difference between a research and a program grant proposal, as well as administrative factors in submitting a grant proposal. Students will craft and a grant proposal in response to a Request for Funding Proposal (RFP) that aligns with the guidelines of the funding agency, and additionally, a budget plan with justification, timelines, and a bio-sketch. In addition, students will conduct a peer review of class completed grant proposals.

### **GNRS 782, Doctoral Seminar III: Writing for Publication, 3 Units**

This seminar focuses on various aspects of writing for publication and directs the development of a manuscript suitable for publication from a previously written paper (e.g., a course term paper). This course will help the student get started on writing; identify writing styles for various forms of publication including abstracts, journal articles, papers, and books; and determine appropriate journals to consider for article submission. The student will acquire practice in reviewing and critiquing scholarly writing by others. It will also address the editorial and publication process, as well as ethical aspects of writing for publication.

### **GNRS 783, Doctoral Seminar IV: Developing Professional Presentations, 3 Units**

This seminar course identifies approaches to developing an effective and successful presentation, helping students find their voice and showcase their areas of expertise. Discussions focus on planning as essential to deciding on the content and the order in which the information is presented. Emphasis is on developing a logical sequence, one that flows naturally and is accompanied by audiovisuals that facilitate understanding of the material.

### **GNRS 784, Dissertation Seminar V, 2-4 Units**

This fifth dissertation seminar provides the student a forum to explore with their peers research findings, theoretical and empirical implications, and potential venues for publication of manuscripts. Format and procedures for progression in the dissertation process are also discussed. Placement of the Course: This seminar is not required if dissertation seminar requirement of 12 units has been met by GNRS 780, GNRS 781, GNRS 782, GNRS 783, and student has defended dissertation. Grading: Pass/Fail.

**Prerequisite:** GNRS 783

### **GNRS 791, Doctor of Nursing Practice Intensive I, 1 Unit**

This is the first of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course introduces students to the role of the DNP nurse in a variety of healthcare settings. Students also acquire advanced practice and academic skills necessary for selecting a population of interest and applying evidence-based practice to it as part of an evidence-based DNP scholarly project consistent with the DNP role within a healthcare organizational setting.

**Prerequisite:** Admission to the DNP program;

**Corequisite:** GNRS 732

### **GNRS 792, Doctor of Nursing Practice Intensive II, 1 Unit**

This is the second of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course helps students identify strategies within a multidisciplinary model that promotes evidence-based practice in various clinical, community, and educational settings. Students receive support and direction in collaboration with the sponsoring facility and mentor as they develop a comprehensive, site-specific DNP scholarly project proposal.

**Prerequisite:** GNRS 791;

**Corequisite:** GNRS 732

### **GNRS 793, Doctor of Nursing Practice Intensive III, 1 Unit**

This is the third of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course helps students acquire the skills, competencies, and points of view needed for developing the ethical reasoning/decision-making skills necessary for conducting their DNP scholarly projects.

**Prerequisite:** GNRS 792;

**Corequisite:** GNRS 732

### **GNRS 794, Doctor of Nursing Practice Intensive IV, 1 Unit**

This is the last of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. As in the other intensive experiences, course content for each student reflects the interests of the student and is designed to meet that student's needs and career goals. This course allows students, with guidance from their mentors and faculty, to complete the DNP scholarly project and finalize the written and oral scholarly reports that disseminate and integrate new knowledge. Each student's final product reflects their ability to employ effective communication and collaboration skills, take a leadership role, integrate core DNP concepts and competencies that influence healthcare quality and safety, and successfully negotiate change in healthcare delivery for individuals, families, populations, or systems across a broad spectrum of health care.

**Prerequisite:** GNRS 793;

**Corequisite:** GNRS 732

### **GNRS 795, Special Topics, 1-4 Units**

In this course, a subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. Students may repeat the course for credit to a maximum of six units applied toward the doctoral program; each course must address a different topic.

### **GNRS 798, Continuous Doctoral Study, 0 Units**

This course is for doctoral students working on dissertations or translational research projects. Students must re-enroll each semester until the dissertation or translational research project is completed, defended, submitted to the library, and approved.

### **GNRS 799, Independent Study, 1-4 Units**

Students enroll in this course to pursue independent study investigating subjects and interests that lie beyond regular course offerings. The student explores topics in greater depth than in other courses, and/or initiates an individual project. Readings are pursued in accordance with a study plan, which is developed in consultation with a sponsoring doctoral faculty member and approved by the doctoral department.

# Master of Science in Nursing (MSN) with Credentials

- MSN and Family Nurse Practitioner (FNP) and School Nurse Services Credential (SNSC) (p. 1000)
- MSN and Pediatric Nurse Practitioner–Primary Care (PNP-PC) and School Nurse Services Credential (SNSC) (p. 1002)
- MSN with School Nurse Services Credential (SNSC) (p. 1004)

# MSN and Family Nurse Practitioner (FNP) and School Nurse Services Credential (SNSC)

This combined specialty program (<https://www.apu.edu/nursing/programs/msn-snsc-fnp/>) prepares nurses to be effective practitioners of school health and provide primary care for people of all ages in a variety of settings. Through the program, students develop theoretical and practical expertise in nursing and education applied to basic health services in the public schools (K-12). This enables them to establish, maintain, and coordinate a comprehensive school health program. The advanced practice family nurse practitioner specialty includes direct client assessment, diagnosis, management and treatment, client advocacy, and client/family education. Graduates are eligible to apply to the state of California for the School Nurse Services Credential; they are also eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national FNP certification through examination.

Students must also take a California-approved audiometry course to meet SNSC requirements.

## Requirements

<sup>1</sup> Numbers in parentheses are classroom/clinical hours.

<sup>2</sup> Students must also take a California-approved audiometry course to meet SNSC requirements.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# MSN and Pediatric Nurse Practitioner–Primary Care (PNP-PC) and School Nurse Services Credential (SNSC)

This combined specialty program (<https://www.apu.edu/nursing/programs/msn-snc-pnp/>) prepares nurses to be effective practitioners of school health and provide primary care for children in a variety of other settings. Through the program, students develop theoretical and practical expertise in nursing and education applied to basic health services in the public schools (K-12). This enables them to establish, maintain, and coordinate a comprehensive school health program. The advanced practice pediatric nurse practitioner-primary care specialty includes direct client assessment, diagnosis, management and treatment, client advocacy, and client/family education. Graduates are eligible to apply to California for the School Nurse Services Credential. They are also eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national PNP certification through examination.

Students must also take a California-approved audiometry course to meet SNSC requirements.

# Master of Science in Nursing with Single Specialties

- Adult-Gerontology or Pediatric Clinical Nurse Specialist (CNS) (p. 1006)
- Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) (p. 1008)
- Family Nurse Practitioner (FNP) (p. 1009)
- Pediatric Nurse Practitioner–Primary Care (PNP-PC) (p. 1010)
- Psychiatric Mental Health Nurse Practitioner (PMHNP) (p. 1011)

# Adult-Gerontology or Pediatric Clinical Nurse Specialist (CNS)

The Master of Science in Nursing with Adult-Gerontology or Pediatric Clinical Nurse Specialist (CNS) program (<https://www.apu.edu/nursing/programs/msn-cns/>) allows students to concentrate on one of these two clinical areas of content and practice. Nurses with advanced practice preparation may work in acute, primary, or long-term care settings. Students learn the process of developing and sustaining evidence-based practice in illness management, advancing the practice of other nurses and nursing personnel, and developing organizational or systems modifications to support and improve nursing practice. The traditional CNS roles of expert clinical practice, consultation, clinical leadership, research, and education are shaped toward producing desirable patient outcomes as the CNS works in several spheres of influence. Graduates are eligible to apply to the state of California for certification as clinical nurse specialists, and may apply for national certification through examination by the American Nurses Credentialing Center (ANCC) (<https://www.nursingworld.org/ancc/>).

<sup>1</sup> Units shown in parentheses are classroom/clinical units.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP)

The Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) program (<https://www.apu.edu/nursing/programs/msn-np/>) prepares students to provide primary care to the young adult, adult, and older adult age spectrum across the continuum of care from wellness to illness, in settings that include community health centers and clinics, private medical practices, long-term care facilities, and patient homes. Graduates are eligible to apply to the state of California Board of Registered Nursing (<https://www.rn.ca.gov/>) for certification as a nurse practitioner and may apply for national AGPCNP certification through examination.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# Family Nurse Practitioner (FNP)

This specialty program prepares students to be nurse practitioners for patients across the human lifespan in a primary healthcare setting. This advanced clinical practice specialty includes direct patient assessment, diagnosis, management, and treatment; client advocacy; and client/family education. Graduates are eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner and may apply for national FNP certification through examination.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# Psychiatric Mental Health Nurse Practitioner (PMHNP)

This specialty master's program prepares students as psychiatric mental health nurse practitioners for clients with psychiatric and mental health problems across the lifespan. Graduates are prepared to work respectfully and collaboratively with clients/consumers who are experiencing severe or chronic mental illnesses to determine biopsychosocial healthcare needs within a complex and changing environment. Theory and clinical coursework focus on assessment; differential diagnosis and disease management; intervention planning; individual, family, and group psychotherapy; health promotion; and disease prevention.

The inherent equality and worthiness of those who are vulnerable and disenfranchised, the role of spirituality, the value of diversity, and the ability to engender hope, empowerment, self-responsibility, and a meaningful role in life are threaded throughout the program. Graduates are eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national PMHNP certification through examination.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# Post-Bachelor's Credentials

- School Nurse Services Credential (SNSC) (a nondegree post-bachelor's program) (p. 1013)

# School Nurse Services Credential (SNSC)

This specialty (nondegree) program (<https://www.apu.edu/nursing/programs/school-nurse-services-credential/>) includes core academic courses and those required for the school nurse services credential, preparing registered nurses who have completed a bachelor's degree to be effective practitioners of school health. Students develop theoretical and practical expertise in nursing and education applied to basic health services in the public schools (K-12), learning to establish, maintain, and coordinate a comprehensive school health program. This includes planning health programs, assessing the health of children, providing health care and health referral, and contributing to the formulation and evaluation of health policy. To maximize children's ability to learn in school, candidates for the credential emphasize child health maintenance, illness prevention, restoration of health, and childhood wellness. This program is approved by the California Commission on Teacher Credentialing (CTC) (<https://www.ctc.ca.gov/>).

Admission requirements (<https://www.apu.edu/nursing/programs/school-nurse-services-credential/admission/>) are the same as those for the Master of Science in Nursing (p. 967) program. Students must also take a California-approved audiometry course to meet SNSC requirements.

## Requirements

| Code   | Title  | Units     |

| <b>Total Units for the SNSC <sup>2</sup></b> |  | <b>26</b> |

<sup>1</sup> Numbers in parentheses are classroom/clinical units.

<sup>2</sup> Students must also take a California-approved audiometry course to meet SNSC requirements.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# Post-Master's Certificate Programs

The School of Nursing offers certificate programs to prepare nurses for advanced practice, education, and administrative roles. The curriculum for these programs reflects the School of Nursing mission and philosophy, and professional education standards for nursing. The programs are accredited by the Commission on Collegiate Nursing Education (<http://www.aacnursing.org/CCNE/>) and the California Board of Registered Nursing (<http://www.rm.ca.gov/>). The following are offered:

- Adult-Gerontology Clinical Nurse Specialist (CNS) Certificate (p. 1015)
- Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) Certificate (p. 1016)
- Family Nurse Practitioner (FNP) Certificate (p. 1018)
- Nursing Education Certificate (p. 1021)
- Oncology Nurse Practitioner Certificate (p. 1022)
- Pediatric Clinical Nurse Specialist (CNS) Certificate (p. 1023)
- Pediatric Nurse Practitioner–Primary Care (PNP-PC) Certificate (p. 1024)
- Post-Master's Certificate in Healthcare Administration and Leadership (p. 1020)
- Psychiatric Mental Health Nurse Practitioner (PMHNP) Certificate (p. 1025)

## Prerequisites

1. Master's degree in nursing
2. Completion of a graduate research course
3. Completion of an undergraduate health assessment course

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# Adult-Gerontology Clinical Nurse Specialist (CNS) Certificate

The Adult-Gerontology Clinical Nurse Specialist (CNS) Certificate (<https://www.apu.edu/nursing/programs/adult-cns-certificate/>) program is a nondegree course credit option for nurses with a master's degree in nursing.<sup>1</sup> This program provides theory and clinical experiences to prepare nurses to apply to the state of California Board of Registered Nursing for certification and to apply for national certification as an adult clinical nurse specialist (CNS) by examination. **Note: Students must be admitted to the university before registering for this program (see Admission section below).**

<sup>1</sup> Students may be given transfer credits for previous content completed in a master's degree program.

## Requirements

| Code   | Title  | Units     |
|--|--|-----------|
| <b>Advanced Practice Core Courses</b> <sup>1</sup> |  | <b>12</b> |
| GNRS 512   | Advanced Health Assessment and Health Promotion <sup>2</sup>                                       | 4 (3/1)   |
| GNRS 513   | Advanced Nursing Practice Role <sup>3</sup>  | 2         |
| GNRS 515   | Advanced Pathophysiology   | 3         |
| GNRS 594   | Pharmacology in Advanced Practice Nursing  | 3         |
| <b>Advanced Practice Specialty Courses</b>         |  | <b>22</b> |
| GNRS 520   | Theory and Practice of the Clinical Nurse Specialist in Nursing Care of Adult-Gerontology Patients | 6 (2/4)   |
| GNRS 521   | Clinical Specialization in the Care of Adult-Gerontology Patients                                  | 6 (2/4)   |
| GNRS 543   | Transitions Across the Care Continuum  | 6 (2/4)   |
| GNRS 548   | Health Promotion Across the Lifespan   | 2         |
| GNRS 580   | Gerontology  | 2         |
| <b>Total Units</b>                                 |  | <b>34</b> |

<sup>1</sup> Students may be given transfer credits for previous content completed in a master's degree program.

<sup>2</sup> Units in parentheses are classroom/clinical units.

<sup>3</sup> This requirement is waived for 1992-96 APU master's graduates, as the content was integrated in the clinical courses.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting healthcare.
5. Use information systems and technology to communicate, manage knowledge, promote quality, mitigate error and support decision-making.
6. Demonstrate the ability to coordinate and collaborate with other health care team professionals.
7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

# Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) Certificate

The Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) Certificate (<https://www.apu.edu/nursing/programs/gerontology-nurse-practitioner/>) program is designed as a nondegree course credit option for nurses with a master's degree in nursing.<sup>1</sup> This program prepares students to provide primary care to the young adult, adult, and older adult age spectrum across the continuum of care from wellness to illness, in settings including community health centers and clinics, private medical practices, long-term care facilities, and patient homes. Graduates are eligible to apply to the state of California Board of Registered Nursing for certification as a nurse practitioner, and may apply for the national AGPCNP certification examination.

**Note: Students must be admitted to the university before registering for this program (see Admission section below).**

<sup>1</sup> Students may be given credits for previous content completed in a master's degree program. Students who hold current California certification as a nurse practitioner or nurse midwife, and students who hold a master's degree in nursing and/or national certification as a clinical nurse specialist (CNS), may challenge or request a waiver of the coursework required for the Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP) program, as appropriate to the student's current specialty. Petitions for challenge or waiver of courses must be initiated upon admission and approved by the MSN chair. Students must show proof of current nurse practitioner, nurse midwife, or clinical nurse specialist certification.

## Requirements

# Post-Master's Certificate in Healthcare Administration and Leadership

The Post-Master's Certificate in Healthcare Administration and Leadership (<https://www.apu.edu/nursing/programs/nursing-administration-certificate/>) program prepares professionals for administrative positions and leadership opportunities in nursing in a variety of healthcare settings. Coursework focuses on strategic leadership, leading change, managing teams and resources, and the business of healthcare finance and patient care delivery. This program is a way for nurses to advance their career options and builds on skills and knowledge obtained in a Master of Science in Nursing program. **Note: Students must be admitted to the university before registering for this program (see Admission section below).**

## Requirements

| Code                    | Title  | Units     |
|-------------------------|--|-----------|
| <b>Required Courses</b> |  |           |
| GNRS 560                | Strategic Leadership in Healthcare   | 3         |
| GNRS 567                | Healthcare Administration and Leadership Supervised Practicum <sup>1</sup> | 3 (0/3)   |
| GNRS 568                | Healthcare Finance   | 4         |
| GNRS 596                | Foundations of Healthcare Informatics                                      | 3         |
| MGMT 516                | High Performance People Management   | 3         |
| MGMT 517                | Managing Human Capital   | 3         |
| <b>Total Units</b>      |  | <b>19</b> |

<sup>1</sup> Units in parentheses are classroom/clinical units.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# Post-Master's Certificate in Nursing Education

The Nursing Education Certificate program (<https://www.apu.edu/nursing/programs/nursing-education-certificate/>) prepares nurses for teaching roles in various clinical and/or academic settings. This program builds on skills and knowledge obtained in a Master of Science in Nursing (MSN) program. **Note: Students must be admitted to the university before registering for this program (see Admission section below).**

## Requirements

| Code                    | Title  | Units     |
|-------------------------|--|-----------|
| <b>Required Courses</b> |  |           |
| GNRS 516                | Integrative Disease and Symptom Management                                   | 3         |
| GNRS 518                | Supervised Practicum in Health Care <sup>1</sup>                             | 3 (1/2)   |
| GNRS 660                | Theories of Teaching and Instruction   | 3         |
| GNRS 661                | Leadership and Role Development in Nursing Education                         | 3         |
| GNRS 662                | Assessment, Curriculum, Development, and Outcomes                            | 3         |
| GNRS 663                | Clinical Practicum in Nursing Education                                      | 3 (0/3)   |
| GNRS 664                | Teaching-Learning Strategies and Educational Technology in Nursing Education | 3         |
| <b>Total Units</b>      |  | <b>21</b> |

<sup>1</sup> Units in parentheses are classroom/clinical units

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting health care.
5. Use information systems and technology to communicate, manage knowledge, promote quality, mitigate error, and support decision-making.
6. Demonstrate the ability to coordinate and collaborate with other healthcare team professionals.
7. Engage in clinical reasoning, effective communication, and act as change agents to develop professional identity and practice skill.

# Oncology Nurse Practitioner Post-Master's Certificate

The oncology nurse practitioner predoctoral fellowship program (<https://www.apu.edu/nursing/programs/oncology-nurse-practitioner/>) is designed for licensed nurse practitioners interested in providing high-quality care across the illness span to cancer patients and their families. To maximize survivorship and minimize distress, candidates are prepared to address the unique physiologic and psychosocial needs of cancer patients across the illness span in a program that emphasizes screening, surveillance, diagnosing, staging, and team-building. The curriculum is based on Oncology Nursing Society competencies, and students participate in 540 hours of supervised direct patient care experiences in multiple specialty services at a comprehensive cancer care center. Candidates enrolled in Azusa Pacific's Doctor of Nursing Practice program may apply these hours toward the residency requirement and may petition to apply didactic units toward the specialty courses. Candidates for the certificate meet the eligibility criteria for the Advanced Oncology Certified Nurse Practitioner examination offered by the Oncology Nursing Certification Corporation.

## Prerequisites

- Master's degree in nursing that includes advanced pathophysiology, advanced pharmacology, and advanced health assessment.
- Experience in oncology nursing.
- Current California nurse practitioner license.

## Requirements

| Code        | Title  | Units |
|-------------|--|-------|
| GNSR 630A   | Oncology Nurse Practitioner Fellowship A                             | 4     |
| GNSR 630B   | Oncology Nurse Practitioner Fellowship B                             | 4     |
| GNSR 630C   | Oncology Nurse Practitioner Fellowship C                             | 4     |
| GNSR 631    | ONP: Cancer Biology and Assessment                                   | 2     |
| GNSR 632    | ONP: Cancer Therapeutics   | 2     |
| GNSR 633    | ONP: Symptom and Side Effect Burden                                  | 2     |
| GNSR 634    | ONP: Survivorship and the Psychosocial Impact of Cancer              | 2     |
| GNSR 635    | ONP: Team-based Care and the Role of the Oncology Nurse Practitioner | 2     |
| GNSR 636    | ONP: Clinical Trials Nursing   | 2     |
| Total Units |  | 24    |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity, and applying spiritual concepts.
2. Engage in scholarly inquiry and critical thinking, including evaluation and application of evidence-based research.
3. Appraise and apply knowledge to develop, implement, and evaluate interventions that promote health and prevent disease.
4. Demonstrate thoughtful analysis of the legal, political, ethical, and/or financial factors impacting healthcare.
5. Use information systems and technology to communicate, manage knowledge, promote, quality, mitigate error and support decision making.
6. Demonstrate the ability to coordinate and collaborate with other health care team professionals.
7. Engage in clinical reasoning, effective communication, and act as a change agent to develop professional identity and practice skill.

# Pediatric Clinical Nurse Specialist (CNS) Certificate

The Pediatric Clinical Nurse Specialist (CNS) Certificate (<https://www.apu.edu/nursing/programs/pediatric-cns-certificate/>) program is a nondegree course credit option for nurses with a master's degree in nursing.<sup>1</sup> Pediatric clinical nurse specialists influence best-practice care of pediatric populations across the care continuum through direct care and as consultants and educators. This program provides theory and clinical experiences to prepare nurses to apply to the state of California for certification as a CNS. Graduates may also apply for national certification as a pediatric CNS through examination. **Note: Students must be admitted to the university before registering for this program (see Admission section below).**

| Code   | Title  | Units     |

<sup>1</sup> Students may be given transfer credits for previous content completed in a master's degree program.

<sup>2</sup> This requirement is waived for 1992-96 APU master's graduates, as the content was integrated in the clinical courses.

<sup>3</sup> Units in parentheses are classroom/clinical units.

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# Pediatric Nurse Practitioner–Primary Care (PNP-PC) Certificate

The Pediatric Nurse Practitioner–Primary Care (PNP-PC) Certificate (<https://www.apu.edu/nursing/programs/pediatric-nurse-practitioner/>) program is a nondegree course credit option for nurses with a master's degree in nursing.<sup>1</sup> This program prepares students with primary healthcare skills through didactic education and clinical supervision. Nurses who complete this program are eligible to apply to the California Board of Registered Nursing for certification as a nurse practitioner, and may apply for national PNP-PC certification through examination. **Note: Students must be admitted to the university before registering for this program (see Admission section below).**

<sup>1</sup> Students may be given transfer credits for previous content completed in a master's degree program. Students who hold current California certification as a nurse practitioner or nurse midwife, and students who hold a master's degree in nursing and/or national certification as a clinical nurse specialist (CNS), may challenge or request waiver of the coursework required for the Pediatric Nurse Practitioner program, as appropriate to the student's current specialty. Petitions for challenge or waiver of courses must be initiated upon admission and approved by the MSN chair. Students must show proof of current nurse practitioner, nurse midwife, or clinical nurse specialist certification.

# Department of Healthcare Administration and Leadership

The Master of Science in Nursing (MSN) in Healthcare Administration and Leadership (p. 1027) is designed for BSN-prepared registered nurses who are looking to advance their careers and move into early- to mid-level management and leadership roles in myriad healthcare settings. The program provides values-based education to develop nursing leaders who are effective collaborators, motivated by a spirit of commitment to the profession, and have a genuine compassion for others. Students will acquire the knowledge and skills necessary to lead and manage healthcare teams in organizations, functioning in areas such as operations management, project management, and healthcare consulting.

The program includes graduate nursing core courses focused on a critical analysis of nursing and healthcare research and theory, bioethics, healthcare policy, and the integration of spirituality in health care. Interdisciplinary administration and leadership coursework is offered through the School of Nursing and APU's School of Business and Management. Content includes leadership styles and theories, strategic planning, quality improvement and patient safety, change management, effective communication and conflict resolution skills, staffing challenges and constraints, financial management, and healthcare informatics. Students apply their knowledge and develop competencies in healthcare settings during practicum experiences. Upon completion of this program, students will have had the educational content required to sit for the American Nurses Credentialing Center (<https://www.nursingworld.org/ancc/>) and American Organization for Nursing Leadership (<http://www.aone.org/>) nurse leadership examinations.

## Programs

# Department of Nursing Education

The Master of Science in Nursing (MSN) in Nursing Education (p. 1029) prepares nurses for teaching roles in a variety of settings, including traditional and nontraditional academic settings, online/distance settings, and clinical and community settings, using cutting-edge technology and teaching-learning methods. The program emphasizes competencies needed for students to complete the Certified Nurse Educator (CNE) certification examination, and is aligned with the American Association of Colleges of Nursing's *The Essentials of Master's Education in Nursing* (AACN, 2011) and the National League for Nursing's *Nurse Educator Competencies* (NLN, 2013).

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

# Department of Public Health

## Master of Public Health (MPH)

The Department of Public Health offers a Master of Public Health (<https://www.apu.edu/nursing/programs/mph-degree/>) program that provides students with competencies required to understand the unique challenges inherent to public health practice and education. The curriculum reflects the School of Nursing mission and emphasizes the conceptual, analytical, and experiential skills required to serve in the public health sector. Throughout the program, an emphasis is placed on the five core areas of public health: biostatistics, epidemiology, environmental health sciences, health policy and management, and social and behavioral sciences. There are also seven cross-cutting areas interwoven into the curriculum: communication, diversity and culture, leadership, professionalism and ethics, program planning and assessment, public health biology, and systems thinking.

Students may choose from seven specializations: biostatistics and epidemiology, social and behavioral science, health policy and administration, health promotion and education, international health, environmental health, and disaster health and emergency preparedness. Students should check with the department regarding specialization availability, then meet with an advisor to develop a course plan that is consistent with their selected specialization.

## Transfer of Credits

Following admission, 9 units of approved graduate work completed elsewhere may be applied toward the MPH degree.

## Additional Requirements

At the beginning of clinical coursework, including the field practicum, students are required to provide documentation of TB screening and immunizations appropriate for the clinical or field practicum setting.

A student's health status must permit him/her to safely undertake and complete clinical (field practicum) experience required for the degree. As a fully prepared public health practitioner, the student is expected to take responsibility for self-evaluation of her/his health status, including an assessment of the safety and appropriateness of practice in the clinical context.

The Joint Commission (<https://www.jointcommission.org/>), contracted facilities, and the School of Nursing require that all graduate students undergo a background check prior to their placement at clinical and field practicum sites. The cost of the background check is the responsibility of the student. International students have additional fees based on the cost of a background check in their country.

Students may select additional elective courses to support their programs of study as directed by faculty.

## Programs

- Master of Public Health (p. 1035)

## Courses

### GSPH 504, Bioethics and Health Care Policy, 3 Units

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.

### GSPH 506, Spiritual Concept Analysis in Health Care, 3 Units

This course focuses on scholarly research and analysis of selected concepts in the spiritual care of people from the Judeo-Christian perspective. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journeys and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.

### GSPH 508C, Research and Theory in Health Care, 3 Units

This course prepares the healthcare practitioner to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined as students consider questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students also learn the fundamentals of quantitative, qualitative, and mixed-methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to health care. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.

**Prerequisite:** GSPH 613

## **GSPH 510, Social Determinants of Health, 3 Units**

A central focus of the public health field is understanding the etiology, occurrence, and distribution of health outcomes (morbidity and mortality). One growing area of importance within the field is examining how health and disease are influenced and maintained by social, economic, and political risk factors - called social determinants of health. This course provides a macro-level overview of concepts, research and theoretical models of social determinants of health. Through interactive lectures, readings and assignments, students will be exposed to major areas of study linked to social determinants of health, with discussions centered on the following key questions: What social factors are the greatest challenge to health outcomes within local communities? What does it mean to use a social determinants lens when studying health outcomes among diverse multicultural populations? What are health disparities and how might they best be addressed? What behavioral lifestyle factors commonly interplay with social determinants of health?

## **GSPH 512, Health, Culture, and Diversity, 3 Units**

This course covers the issues of health disparities in the United States and the development of culturally competent programs. Students examine what is meant by culture, the ways in which culture and health issues intersect, and how public health efforts can benefit by understanding and working with cultural processes.

## **GSPH 514, Research Proposal Writing, 2 Units**

This course focuses on the application of the concepts in GSPH 508C Research and Theory in Health Care. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.

**Prerequisite:** GSPH 508C

## **GSPH 518, Population Health Management, 3 Units**

This course covers important topics in the effective management of public health departments and agencies. Students develop knowledge and skills to fulfill roles in public health management as leaders, administrators, fundraisers, and internal and external communicators. Course content includes ways to be an effective coach to maximize the team's performance, the essentials of effective partnerships, how to create and sustain public health initiatives using business skills, how to run meetings, ways to manage electronic correspondence, and effective strategies to keep the public health organization running smoothly.

## **GSPH 519, Global Health Systems, 3 Units**

This course examines international health systems in terms of infrastructure and function. Students examine the benefits and risks of universal healthcare, third party reimbursement systems, and global availability and access to medical services.

## **GSPH 522, Cultural Inclusivity in Health Care, 3 Units**

In this course, students explore the topics and tools necessary for the application of cultural inclusivity processes in various healthcare settings. Curriculum includes an overview of demographic changes in the United States, cultural inclusivity, diversity related to specific groups, and the paradigm of cultural and linguistic diversity. Attention is also given to the costs, time, and skill sets associated with the process of moving a healthcare organization toward cultural inclusivity.

## **GSPH 525, Epidemiology, 3 Units**

This course covers the application of epidemiological procedures to the understanding of the occurrence and control of conditions such as infections and chronic diseases, mental disorders, community and environmental health hazards, unintentional injuries, and geriatric problems. Other topics include quantitative aspects of epidemiology, including data sources, measures of morbidity and mortality, evaluation of association and causality, study design, and screening for disease.

**Prerequisite:** Undergraduate statistics and biology

## **GSPH 526, Public Health Biology, 3 Units**

Human health problems comprise a wide range of infectious, degenerative, neoplastic, and genetically based disease factors. In addition to these factors, human disease results from a wide range of environmental and socially caused pathologies. This course presents the basic scientific and biomedical concepts of modern public health problems and explores the mechanisms and models of the major categories of disease. An integrative approach using knowledge of nutrition, exercise, mind-body, and spiritual practices is explored. The biologic principles presented in this course are foundations to developing and implementing public health disease prevention, control, or management programs in the student's future.

## **GSPH 527, Advanced Biostatistics and Epidemiology, 3 Units**

This course focuses on the application of statistical approaches in epidemiologic research, covering data management and selection of the appropriate statistical model. Regression analysis including linear regression, logistic regression, Poisson regression, and Cox regression is reviewed. Content also covers basic concepts in survival analysis including censoring, survival function, and hazard function. Epidemiologic methods for assessing causation, including mediation analysis, propensity score matching, and instrumental variable analysis, are also covered. Students learn to apply different analytic approaches using public databases.

## **GSPH 529, Bioinformatics [Proposed], 3 Units**

This course explains how informatics relates to knowledge acquisition, knowledge processing, knowledge generation, knowledge dissemination, and feedback. Technology trends, information security, ethical and legislative aspects will also be highlighted. Students will apply these concepts to support practice, education, administration, and research and will utilize these principles to improve healthcare models.

### **GSPH 532, Infectious Disease Epidemiology, 3 Units**

This course covers key epidemiologic methods for practicing infectious disease epidemiology including study design, interpretation of data, and assessment of validity. Course content covers methods in infectious disease epidemiology, airborne transmission, diarrheal diseases, blood and body fluids as reservoirs of infectious disease, vector-borne/zoonotic, and parasitic diseases. Students learn how to apply content and use problem-solving skills to develop effective prevention strategies.

### **GSPH 535, Environmental Health, 3 Units**

This course examines essential issues in environmental health, including the scientific and historical foundations, regulatory and policy issues, models and tools for assessing community environmental health, and an overview of select issues and implications of the environment on national and global health. Topics explored include select environmental pollutants in the air, water, soil, and food sources; hazardous waste, risk assessment and communication; and issues of environmental justice and vulnerable populations, nationally and globally.

**Prerequisite:** Undergraduate biology, chemistry, or ecology

### **GSPH 537, Occupational Health and Safety, 3 Units**

This course examines concepts and issues in occupational health and safety, identifying the significance to workers and public health. Students study social influences, historical events of worker injuries, industrial hygiene, and applicable principles of toxicology, worker quality of life, and safety in the workplace.

### **GSPH 540, Global Health, 3 Units**

This course examines global health issues, emerging priorities, and worldwide challenges affecting population health and disease. Students address opportunities and challenges to international health, examine determinants of human health holistically, and plan, implement, and evaluate programs and potential solutions to promote international prevention interventions and optimal human health worldwide with a focus on global health equity.

### **GSPH 543, Public Health Communication, 3 Units**

This course provides an overview of the use of communication strategies to inform and influence individual and community health decisions, with a focus on how communication concepts, theories, and methods are used for public health promotion and practice. Health communication theories include models of persuasive communications/mass media effects, social marketing, interpersonal communications, risk perceptions, and diffusion of innovations. Students work in pairs to develop/evaluate a health communication intervention that addresses a current public health issue within a specific target group.

### **GSPH 546, Principles and Practices of Toxicology, 3 Units**

Students in this course examine the principles of toxicology, including dose-response relationships, toxicokinetics, mechanisms and methods of toxicity, select exposures to toxic substances and accompanying toxidromes, the use of antidotes, and relevance to public health.

### **GSPH 551, Theories of Health Behavior, 3 Units**

This course helps students develop a knowledge foundation of health behavior theories and skills for developing theoretically based behavior-change programs. Given that a major focus of public health promotion, education, and prevention programs is on 'changing health behavior,' there is an ongoing quest to understand why people do what they do to (a) improve or maintain their health, and/or (b) worsen their health. Through lectures, readings, and assignments, students critically review and apply a range of health behavior theories that target the intrapersonal, interpersonal, and community levels.

### **GSPH 555, Infectious Diseases and Public Health, 3 Units**

Students in this course examine the role of infectious diseases in regional, national, and global public health. Students study the historical context and surveillance of communicable diseases, as well as emerging issues in the field. Course content also includes the identification and management of infectious diseases, with students using case studies and proposing threats along with opportunities in prevention, education, and health promotion.

### **GSPH 560, Strategic Leadership in Healthcare, 3 Units**

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

### **GSPH 561, Public Health Across the Disaster Cycle, 3 Units**

Students in this course evaluate the roles of public health in natural and human-caused disasters, from 'simple' to complex humanitarian events. Using case studies, students analyze the functions of public health agencies and practitioners in the context of institutional systems and the disaster cycle (prevention/preparedness, response, recovery, and mitigation). Field trips outside of class hours may be required.

### **GSPH 566, Politics and Policies in Disaster Health and Emergency Preparedness, 3 Units**

Students in this course evaluate existing governmental and institutional policies related to disaster health and emergency management (DHEM) within political systems. Implementation and evaluation of policy are analyzed and applied.

### **GSPH 568, Health Care Finance, 3 Units**

This course is an introduction to financial concepts and skills needed for healthcare leaders, managers, and executives. Students develop skills in assessing multiple dimensions of financial performance and learn methods to improve the financial health of an organization in the context of the current patient care system.

### **GSPH 571, International Health Care, 2-4 Units**

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

### **GSPH 581, Disaster Health and Emergency Management Principles and Practices, 3 Units**

Students in this course examine the practice of emergency management and the evolving field of disaster health. Content addresses traditional and current perspectives related to understanding disaster cycles and the relationship between disaster research and practice.

### **GSPH 593, Field Practicum, 3 Units**

In this integrative learning experience, students complete hours in the field applying coursework and classroom learning in a real-world setting under the guidance and supervision of faculty and community-based preceptors, preparing them for professional careers in public health.

### **GSPH 594, Additional Field Practicum Experience, 1-5 Units**

This field practicum elective gives students the opportunity to complete additional hours of practicum experience, allowing them to directly apply course content, public health knowledge, and skills acquired from the MPH program, under the guidance and supervision of faculty and community-based preceptors. This experience enriches classroom activity with practical understanding, and give students the chance to demonstrate an integration of coursework into a real-world setting, preparing them for a professional career in public health.

**Prerequisite:** GSPH 593

### **GSPH 595, Special Topics in Public Health, 1-6 Units**

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

**Prerequisite:** Graduate standing

### **GSPH 597, Capstone, 1 Unit**

This guided-study course provides a summative experience for completion of the Master in Public Health program and guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge from course work throughout the program to the solution of a major public health problem in this culminating project. Each graduate candidate will identify a unique health problem in an actual healthcare setting to address, perform a thorough review and synthesis of current literature, select an appropriate theoretical framework, and develop a creative and innovative solution to the problem. Candidates will meet regularly throughout the semester with course faculty to prepare for and discuss their progress and will submit their work for publication or comparable external review format at the end of the semester.

**Prerequisite:** Completion of all Academic Core and Specialty courses

### **GSPH 598, Thesis, 1 Unit**

This course is the second part of a two-course sequence (after GSPH 514 Research Proposal Writing) that supports student development of a thesis in the Master of Public Health program. The thesis has served as an option to the master's capstone project.

**Prerequisite:** GSPH 514

### **GSPH 599, Readings in Public Health, 1-3 Units**

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. This course is an independent study, arranged with a faculty member of the Department of Public Health.

**Prerequisite:** Graduate standing

### **GSPH 613, Graduate Statistics, 3 Units**

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

**Prerequisite:** Undergraduate statistics and biology

## **Faculty**

### **Department Chair**

Marissa Brash (<http://www.apu.edu/faculty/mbrash/>), DrPH

## **Professor**

Teresa Dodd-Butera (<http://www.apu.edu/faculty/tbutera/>), Ph.D.

## **Associate Professors**

Marissa Brash (<http://www.apu.edu/faculty/mbrash/>), DrPH

Sanggon Nam (<http://www.apu.edu/faculty/snam/>), Ph.D.

## **Instructor**

Brianna Pack (<http://www.apu.edu/faculty/bpack/>), MBA

## Requirements

| Code   | Title   | Units    |
|--|---|----------|
| <b>Core Courses</b>                              |   |          |
| GSPH 613   | Graduate Statistics   | 3        |
| GSPH 504   | Bioethics and Health Care Policy                                    | 3        |
| GSPH 560   | Strategic Leadership in Healthcare                                  | 3        |
| GSPH 510   | Social Determinants of Health                                       | 3        |
| GSPH 525   | Epidemiology  | 3        |
| GSPH 535   | Environmental Health  | 3        |
| GSPH 540   | Global Health   | 3        |
| GSPH 506   | Spiritual Concept Analysis in Health Care                           | 3        |
| GSPH 526   | Public Health Biology   | 3        |
| GSPH 508C  | Research and Theory in Health Care                                  | 3        |
| GSPH 593   | Field Practicum   | 3        |
| Choose one of the following:                     |   | 1-3      |
| GSPH 597   | Capstone  |          |
| - or -   |   |          |
| GSPH 598<br>& GSPH 514                           | Thesis<br>and Research Proposal Writing                             |          |
| <b>Specialization (Choose One)</b>               |   | <b>9</b> |
| Biostatistics and Epidemiology Track             |   |          |
| GSPH 527   | Advanced Biostatistics and Epidemiology                             |          |
| GSPH 529   | Bioinformatics [Proposed]   |          |
| GSPH 532   | Infectious Disease Epidemiology                                     |          |
| International Health Track                       |   |          |
| GSPH 512   | Health, Culture, and Diversity                                      |          |
| GSPH 519   | Global Health Systems   |          |
| GSPH 522   | Cultural Inclusivity in Health Care                                 |          |
| Social and Behavioral Science Track              |   |          |
| GSPH 543   | Public Health Communication   |          |
| GSPH 551   | Theories of Health Behavior   |          |
| GSPH 522   | Cultural Inclusivity in Health Care                                 |          |
| Health Policy and Administration Track           |   |          |
| GSPH 568   | Health Care Finance   |          |
| MGMT 516   | High Performance People Management                                  |          |
| MGMT 517   | Managing Human Capital  |          |
| Health Promotion and Education Track             |   |          |
| GSPH 543   | Public Health Communication   |          |
| GSPH 518   | Population Health Management  |          |
| GSPH 512   | Health, Culture, and Diversity                                      |          |
| Environmental Health Track                       |   |          |
| GSPH 555   | Infectious Diseases and Public Health                               |          |
| GSPH 537   | Occupational Health and Safety                                      |          |
| GSPH 546   | Principles and Practices of Toxicology                              |          |
| Disaster Health and Emergency Preparedness Track |   |          |
| GSPH 561   | Public Health Across the Disaster Cycle                             |          |
| GSPH 566   | Politics and Policies in Disaster Health and Emergency Preparedness |          |

## Admission

University graduate admission and program-specific requirements must be met before an application is complete (see Admission to the University (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/nextcatalog-apu-edu-admissions-financial/>)). **Program-specific application requirements are available** online (<https://tracking.cirrusinsight.com/74647a2d-e9a2-412f-9b55-9959c7aac4ec/apu-edu-graduateprofessionalcenter-admissions-requirements-program/>).

International students should contact Graduate and Professional Admissions (<https://www.apu.edu/graduateprofessionalcenter/admissions/>) for application procedures.

## Program Learning Outcomes

### Program Learning Outcomes

Students who successfully complete this program shall be able to:

1. Articulate a Christian worldview, demonstrating respect for the dignity and uniqueness of others, valuing diversity and integrity, and applying spiritual concepts.
2. Engage in evidence-based methods to understand and address public health issues, using critical reasoning, scholarly inquiry, knowledge of peer-reviewed scientific literature, bioinformatics, and data analysis.
3. Design population-based policies and programs that promote health, prevent disease, and address social equity issues.
4. Apply principles of leadership to promote interprofessional collaboration and decision-making among diverse stakeholders.
5. Utilize systems-level thinking and communication in response to public health issues - analyzing and synthesizing policies and programs that address efficiency, cost-effectiveness, and health equity.

# Department of Doctoral Studies

The Department of Doctoral Studies offers two doctoral programs, the Doctor of Philosophy (Ph.D.) in Nursing and the Doctor of Nursing Practice (DNP). Scholarship is fundamental to both programs. The Ph.D. is a research-based program that primarily prepares students to conduct independent research and disseminate their findings. The DNP program is clinically focused and provides graduates with the expertise to assess nursing research evidence, evaluate the impact of nursing research on nursing practice (evidence-based practice), and take a leadership role in making changes in the healthcare environment to enhance the quality of care.

## Programs

- Doctor of Philosophy (Ph.D.) in Nursing (p. 1057)
- Doctor of Nursing Practice (DNP) (p. 1054)

## Courses

### **GNRS 500, Conceptual Foundations of Professional Nursing, 3 Units**

This course focuses on the introductory concepts crucial to the socialization of second career students to professional nursing. The history of nursing, the evolution of nursing in the U.S., the art and science of nursing, the legal and professional basis of nursing, the role of nursing in the health care delivery system, and current issues and trends in nursing education, practice and research are emphasized.

### **GNRS 501, Theoretical Thinking in Nursing, 2 Units**

This course examines questions about the nature and construction of theory and how theoretical ideas are developed and used in nursing practice and research. Philosophical ideas underlying theory are examined, and selected theoretical models and theories are explored.

**Prerequisite:** Completion of undergraduate research course or instructor's consent; admission to ELM or MSN program.

### **GNRS 503, Cultural Competency in Health Care, 3 Units**

This course focuses on transforming graduate nursing students, preparing them for nursing leadership in nursing practice, nursing research, education, and public health policy for the improvement of patient healthcare outcomes in our increasingly diverse society. Students move from cultural sensitivity and awareness to critical reflection and action, challenging their assumptions and broadening their perspectives. The Essentials of Master's Education in Nursing (American Association of Colleges of Nursing, 2011) serves as the foundation for the development of core cultural competencies.

**Prerequisite:** Graduate standing in the School of Nursing.

### **GNRS 504, Bioethics and Health Care Policy, 3 Units**

This course will outline the role of the healthcare leader in ensuring human rights are upheld in healthcare systems. This course focuses on bioethical analysis, decision-making and moral policy analysis, and formulation. Through course discussion, group and individual assignments, and oral and written presentations, students will analyze and apply bioethical principles to decision- and policy- making processes in the workplace and at national levels. Healthcare ethics and policy will be considered from a Christian worldview.

**Prerequisite:** Graduate standing

### **GNRS 505, Christian Formation for Holistic Care, 3 Units**

Students engage in the process of discovering the foundational values of Azusa Pacific University that serve as guiding principles for the distinctive education they will receive. They are made aware of the Christian worldview and its implications for personal holistic development and care. With a focus on developing motivating character and integrated caregivers, the course brings heightened self-awareness, the impact of a Christian worldview on vocation, scriptural awareness especially emphasizing healing themes in the life of Christ, and the importance of spiritual growth on the journey toward formation.

### **GNRS 506, Spiritual Concept Analysis in Health Care, 3 Units**

Scholarly research and analysis of selected concepts in the spiritual care of persons from the Judeo-Christian perspective provide a central focus to the course. Students also examine healthcare research/other healthcare literature for adequacy with respect to the concept they select. Various assignments facilitate greater student awareness of their own spiritual journey and knowledge of faith traditions other than their own. The course is conducted as a tutorial/seminar experience.

**Prerequisite:** Graduate standing

### **GNRS 507, Scientific Writing, 3 Units**

This course provides opportunities for students to learn how to introduce a topic or issue, articulate a thesis, support and develop a thesis and subordinate claims, work with secondary sources, and organize an argument.

## **GNRS 508A, Research and Theory in Advanced Practice Nursing, 4 Units**

This course prepares nurses to use theory and research evidence in advanced clinical practice. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theoretical models and theories are explored, and students learn how ideas are developed and used in nursing practice and research. Students deepen their understanding of the research process by engaging in a systematic search, critique, and summary of research studies with direct application to nursing practice. Experience in statistical analysis of research data is included.

**Prerequisite:** Computer literacy, undergraduate research course, undergraduate statistics course, and graduate standing

## **GNRS 508B, Research and Theory in Healthcare, 4 Units**

This course prepares the healthcare administrator to apply theory and research evidence in healthcare environments. The relationship between theory and research is examined, exploring questions about the nature, construction, and use of each. Selected theories are explored, and students learn how ideas are developed and used in practice and research. Students learn the fundamentals of quantitative, qualitative, and mixed methods research and deepen their understanding through systematic search, critique, and summary of research studies with application to healthcare. Students work in groups to develop a research plan addressing a healthcare-derived question. Experience in statistical analysis of research data is included.

**Prerequisite:** GNRS 613

## **GNRS 510, Family Theory in Health Care, 2 Units**

The major theoretical perspectives for understanding the family as a core unit of analysis are studied. This course fosters the student's recognition of the family's responsibility for health. Factors such as family patterns and care-giving tasks of families experiencing catastrophic or chronic alteration in health care are examined. This class is offered online.

**Prerequisite:** Graduate standing

## **GNRS 511, Advanced Pediatric Health Assessment and Health Promotion, 4 Units**

This course develops the graduate nurse's assessment skills and focuses on the promotion of health in the pediatric population from the newborn period through adolescence. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional health practices and identify culturally relevant and age-appropriate health promotion strategies. Outcomes are examined in light of related theoretical concepts. Strategies for health promotion include a focus on developmental and behavioral assessments, emotional health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for early detection and prevention of disease.

**Prerequisite:** Undergraduate health assessment and GNRS 515;

**Corequisite:** Practicum

## **GNRS 512, Advanced Health Assessment and Health Promotion, 4 Units**

This course develops the graduate nurse's assessment skills and focus on the promotion of health in individuals across the age range and within family, community, and cultural contexts. Emphasis is on adapting and expanding the medically focused history and physical assessment to incorporate the assessment of traditional and nontraditional therapies and identify culturally relevant and age-appropriate health promotion strategies for common episodic complaints and chronic health conditions. Outcomes are examined in light of theoretical concepts. Strategies for health promotion include a focus on lifestyle, mental health, nutrition, counseling to modify risk factors, and screening tests/prophylaxis for the early detection and prevention of disease.

**Prerequisite:** Undergraduate health assessment and GNRS 515;

**Corequisite:** Lab

## **GNRS 513, Advanced Nursing Practice Role, 2 Units**

This course focuses on the concepts of role development and performance competence of the nurse in advanced clinical practice within the context of a reformed health care delivery system. Emphasis is placed on the clinician, educator, clinical program manager, consultant, researcher, and case manager roles of the advanced practice nurse. The leadership aspects of the roles of advanced practice are explored in relation to health care delivery, policy formulation, and legislation. The course explores theories and issues related to the advanced nursing practice role.

**Prerequisite:** Graduate standing

## **GNRS 514, Research Proposal Writing, 2 Units**

This course focuses on the application of the concepts in GNRS 508A. The goal is the completion of a research proposal that details the problem, the research purpose, questions or hypotheses to be tested, a critique of the literature, the design and methods of the study including protection of human subjects, the plans for analysis, use of the study, and the budget and personnel.

**Prerequisite:** GNRS 508A

## **GNRS 515, Advanced Pathophysiology, 3 Units**

This course builds on basic anatomy and physiology and undergraduate study of pathophysiology. It focuses on development of an advanced understanding of the pathophysiologic mechanisms of human health disorders. Diagnostic reasoning that facilitates the clustering of signs and symptoms leading to diagnosis is a key process undergirding the course. This course requires the integration of signs and symptoms, clinical testing (such as laboratory and radiologic studies), and pathophysiologic mechanisms with diagnoses.

**Prerequisite:** Graduate standing and undergraduate pathophysiology

### **GNRS 516, Integrative Disease and Symptom Management, 3 Units**

Using a systems-based approach, this course provides the student with a broad-based, graduate-level overview for understanding disease processes, treatment modalities, assessment and interventional strategies for patients across the life span.

### **GNRS 518, Supervised Practicum in Health Care, 3 Units**

This course prepares students to integrate and apply theory, evidence-based practice, and national guidelines and standards in practicum settings. Students select practicum areas in which, with faculty approval, they will participate in experiences led by preceptors. The purpose of the course is to equip students with current, evidence-based knowledge in a selected practice area.

### **GNRS 520, Theory and Practice of the Clinical Nurse Specialist in Nursing Care of Adult-Gerontology Patients, 6 Units**

Critical concepts in advanced collaborative management of adult-gerontology client populations by Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, adult-gerontology continuum of health and illness (i.e., wellness, health promotion, disease prevention), teaching-learning theory, and evidence-based best practices for clinical decision-making for the Adult and Geriatric population are highlighted. CNS roles, competencies, and professional issues and integrated clinical rotations will be chosen from critical care or medical-surgical adult-gerontology populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;

**Corequisite:** Practicum

### **GNRS 521, Clinical Specialization in the Care of Adult-Gerontology Patients, 6 Units**

The course prepares the student to apply concepts introduced in GNRS 520. It focuses on diagnosis and collaborative disease management of acute illness in the adult-gerontology patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice, disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

**Prerequisite:** Academic Core and Advanced Practice Core courses, GNRS 520, current RN license, CPR certificate, and meets health screening requirements;

**Corequisite:** Practicum

### **GNRS 522, Disaster Nursing and Emergency Preparedness, 3 Units**

This course explores the nature of disasters and prepares nurses to respond to various types of disasters - including natural, environmental, mass casualty, public health emergencies, terrorism, and bioterrorism - by utilizing essential knowledge, skills, values, meanings, and experience in the basic competencies of emergency preparedness and disaster nursing. In accordance with the position of major nursing organizations, emphasis is placed on evidence-based best practices for personal preparedness.

**Prerequisite:** Comparable course, such as UNRS 312 Nursing Management of Adults, a human growth and development course, a lifespan course OR an RN licensure.

### **GNRS 530, Theory and Practice of the Clinical Nurse Specialist in the Care of the Pediatric Patient, 6 Units**

Critical concepts in the advanced collaborative management of pediatric client populations by the Clinical Nurse Specialists are studied. Differential diagnosis, pharmacologic management, cultural sensitivity, pediatric continuum of health and illness (i.e., wellness, health promotion/disease prevention), teaching-learning theory, and evidence-based/best practices for clinical decision-making for the Pediatric population are highlighted. CNS roles, competencies, and professional issues are integrated. Clinical rotations will be chosen from critical care or medical-surgical pediatric populations. Clinical seminar times allow students to discuss and analyze current professional issues and clinical problems in a collegial atmosphere.

**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements;

**Corequisite:** Practicum

### **GNRS 531, Clinical Specialization in the Care of the Pediatric Patient, 6 Units**

The course prepares the student to apply concepts introduced in GNRS 530. It focuses on diagnosis and collaborative disease management of acute illness in the pediatric patient by the Clinical Nurse Specialist. The integration of advanced skill development, theory and evidence based practice disease management, clinical decision making, unit and organization management issues, professional issues and APRN role competencies are the foundation for this course. Practicum and seminars are planned to span the breadth of the students' clinical opportunities.

**Prerequisite:** Academic Core and Advanced Practice Core courses, GNRS 530, current RN license, CPR certificate, and meets health screening requirements;

**Corequisite:** Practicum

### **GNRS 532, Advanced Nursing Practice in Pediatrics, 6 Units**

This course emphasizes physiological and psychological bases for critical and chronic conditions in children, focusing on an advanced science base for the assessment, diagnosis, and management of children and families to promote wellness. Exploration of traditional versus alternate medicine treatment plans, as well as relevant cultural, spiritual, and health promotion strategies, is incorporated.

**Prerequisite:** Graduate status and GNRS 590A;

**Corequisite:** Practicum

### **GNRS 533, Psychiatric Theories across the Life Span, 2 Units**

This course presents neurobiologic, neuroendocrine, genomic, behavioral, and psychodynamic theories of psychiatric mental illnesses as they manifest among members of diverse cultural groups across the life span. A theoretical foundation for subsequent coursework in primary psychiatric mental health care is provided for the role of the psychiatric mental health nurse practitioner.

**Prerequisite:** Graduate standing, Advanced Practice Core

### **GNRS 534, Integrated Psychiatric and Health Assessment across the Life Span, 2 Units**

This course teaches the role of the psychiatric mental health nurse practitioner in interviewing, assessing, and utilization of other data collection methods to elicit, analyze, and evaluate bio-psychosocial information regarding psychiatric mental health illness as experienced and understood by the clients, across the lifespan. Assessment and integration of the effects of potential and/or existing co-morbid health problems are focused upon. Diagnostic reasoning that is based on the Diagnostic Statistical Manual is foundational in the course. Development of differential diagnoses and disease management, evidence-based practice, and health promotion that includes client and nurse practitioner collaboration is emphasized.

**Prerequisite:** Advanced Practice Core, GNRS 533 (May be taken concurrently)

### **GNRS 535, Psychiatric Interventions and Health Promotion across the Life Span, 6 Units**

In this course students learn historical, theoretical, and contemporary evidence-based psychotherapies that promote and support client stabilization, rehabilitation, and recovery. The client as a collaborating decision making consumer and the client-clinician therapeutic alliance are central to this course. Students increase competence in assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, group, family), medication management, and health promotion interventions, including motivational interviewing. Student competence in developing and facilitating therapeutic groups as a recovery modality are included in the course. The role of the psychiatric mental health nurse practitioner in the integration and coordination of support services that impact mental health and illness is also included. Students practice verbal psychotherapeutic skills that motivate and facilitate client self-management and progression toward recovery.

**Prerequisite:** Advanced Practice Core, GNRS 533 and GNRS 534; GNRS 539 may be taken concurrently;

**Corequisite:** Practicum

### **GNRS 536, Psychiatric Mental Health Care with Adults and Older Adults, 6 Units**

In this course students increase their knowledge and competence in the assessment of psychiatric mental health illnesses, differential diagnoses and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services, with adults and older adults.

**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 539;

**Corequisite:** Practicum

### **GNRS 537, Psychiatric Mental Health Care with Children and Adolescents, 6 Units**

In this course, students increase competence in the role of the psychiatric mental health nurse practitioner in the assessment of psychiatric mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), evidence-based practice, medication management, health promotion and disease prevention interventions, integration and coordination of support services with children, adolescents, and families.

**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;

**Corequisite:** Practicum

### **GNRS 538, Psychiatric Mental Health Care with Selected Populations, 5 Units**

Students increase knowledge and competence in the assessment of psychiatric and mental health illnesses, differential diagnosis and disease management, implementation of psychotherapy (individual, family, group), medication management, health promotion and disease prevention interventions, and integration and coordination of support services with a selected population. Focus is on integrating and practicing all aspects of the role of the psychiatric mental health nurse practitioner with clients who are experiencing acute and/or chronic mental health problems and psychiatric disorders.

**Prerequisite:** GNRS 533, GNRS 534, GNRS 535, GNRS 536, GNRS 539;

**Corequisite:** Practicum

### **GNRS 539, Psychopharmacology, 2 Units**

Students in this course build upon knowledge of advanced practice nursing and provides content essential for the psychiatric mental health nurse practitioner to prescribe appropriate pharmacologic treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for psychopharmaceuticals commonly utilized across the lifespan are addressed.

**Prerequisite:** GNRS 533, GNRS 534; GNRS 535 (May be taken concurrently)

## **GNRS 542, Advanced Concepts and Competencies in Pediatric Primary Health Care, 3 Units**

This course offers a comprehensive review and synthesis of core concepts and competencies for the pediatric advanced practice nurse in the primary care setting. This culminating experience for pediatric nurse practitioner students incorporates seminar discussions and clinical practicum placement, and also allows for a discussion of developmental/behavioral issues, management of acute and chronic care illnesses seen in primary care settings, and preventative health care.

**Prerequisite:** Graduate standing, GNRS 532 (may be taken concurrently with instructor's permission), and GNRS 590A;

**Corequisite:** Practicum

## **GNRS 543, Transitions Across the Care Continuum, 4-6 Units**

This course focuses on principles and models of care and their implementation in a multidisciplinary practice environment that emphasizes healthcare delivery through integration of services and transition management. Students are introduced to decision making related to allocation of resources and services, development of protocols, and evaluation of management approaches. Evidence-based approaches to the clinical, administrative, educational, and research dimensions of patient care are emphasized. Evaluation of care management activities with the student's selected clinical population is an integral component of the course.

**Prerequisite:** NP students: completion of Advanced Practice Core; CNS students: completion of Advanced Practice Core and GNRS 520 or GNRS 530; HAL students: completion of MSN Core and GNRS 560.

**Corequisite:** Practicum

## **GNRS 544, Clinical Specialization Residency, 2-3 Units**

The elective clinical residency is a clinical specialty experiential program designed as a collaborative partnership between the School of Nursing and selected community health care organizations. This residency is an intensive precepted clinical experience planned to ease the role transition from a student nurse to a beginning professional nurse in a specialized setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination. The student will increase their ability to perform clinical reasoning with the assigned patient population and evaluate QSEN competencies of patient centered care, safety, evidence based practice, informatics, and teamwork and collaboration.

**Prerequisite:** GNRS 573 (May be taken concurrently)

## **GNRS 546, Theory and Practice in Health Care Systems in the Community, 6 Units**

This specialized course prepares RNs without a bachelor's degree for graduate study in nursing. A multiple theoretical focus that includes concepts from systems, stress, adaptation, developmental, and role theory is emphasized. A beginning practice in the utilization of the nursing process with an emphasis on nursing diagnosis and the nurse's role in assessing, planning, implementing, and evaluating care of clients in a variety of community settings is provided. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals and families at home are essential course components. A review of legal mandates for practice and discussion of ethical dilemmas and issues related to high quality nursing care are included. Specific content varies based on the students' prior education and experience. Clinical placements are arranged to meet the individual student's needs.

**Prerequisite:** Undergraduate research, pathophysiology, and health assessment;

**Corequisite:** Practicum

## **GNRS 547, Nursing Leadership in Acute Care Settings, 6 Units**

This is one of two clinical courses provided for the RN who seeks both a bachelor's and master's degree in nursing. The course synthesizes selected information from the generic bachelor's and master's programs for presentation in a condensed format, addressing the development and nature of today's health care systems and associated issues in the United States. Further, content familiarizes the student with several roles and responsibilities of the contemporary nurse, such as leader, consultant, teacher, manager, and client advocate. The course focuses on client needs in acute health care settings and emphasizes the relationship between the health care system and the advocate.

**Prerequisite:** Undergraduate research, pathophysiology, and health assessment;

**Corequisite:** Practicum

## **GNRS 548, Health Promotion Across the Lifespan, 2 Units**

The course focuses on health promotion and disease prevention across the lifespan and around the globe. The course includes exploration of population health issues, environmental implications in health and health policy, impact on health promotion and the development of disease.

**Prerequisite:** Academic Core and Advanced Practice Core courses, current RN license, CPR certificate, and meets health screening requirements

## **GNRS 550A, Theory and Practice in School Nursing, 6 Units**

This combined didactic and clinical course provides theoretical content and field experiences that emphasize the multifaceted role of the school nurse. The student participates in field experiences and classroom learning activities that focus on the assessment and management of children's health care needs in various school settings. This course provides the student with the necessary tools and skills to successfully function as a professional school nurse. At the conclusion of this course, the student will be able to successfully function as a provider of health education as well as a provider, planner, and coordinator of health care in school settings.

**Prerequisite:** All School Nurse Services Credential courses except GNRS 590A, GNRS 589 may be taken concurrently

## **GNRS 555, Medical Surgical Care of the Adult and Geriatric Patient, 7 Units**

This course introduces crucial concepts to professional nursing care such as nursing process, communication, therapeutic interventions, and critical thinking and clinical reasoning. The course focuses on the application of biological, psychosocial, and spiritual concepts to hospitalized adult and elderly clients with acute and/or chronic illnesses. Students will be guided in critical thinking and clinical reasoning exercises in the management of hospitalized clients. Nursing process is utilized to provide care to one or two adult clients within the health care delivery system of an acute care setting. The clinical practicum focuses on the cognitive basis, scientific principles, and manipulative component of psychomotor skills used when providing nursing care. Students will have an opportunity to practice simulated clinical skills.

**Prerequisite:** Admission to the ELM program, completion of all prerequisite courses for the program;

**Corequisite:** Practicum

## **GNRS 556, Intermediate Medical Surgical Care of the Adult, 7 Units**

This course is designed to build on the base of medical-surgical nursing knowledge from GNRS555. The course focuses on comprehensive nursing care to patients with acute need for continuous cardiac monitoring, pulse oximetry monitoring, or ventilator assistance in telemetry units, in restorative care setting, or long-term care setting.

**Prerequisite:** Admission to the ELM program; successful completion of GNRS 555;

**Corequisite:** Practicum

## **GNRS 557, Medical Spanish for Advanced Practice Nurses, 3 Units**

This course provides non-Spanish-speaking advanced-practice nursing students with foundational knowledge of Spanish language structure and vocabulary, helping them build appropriate phrasing to facilitate communication in healthcare settings. Cultural issues relevant to health and illness in the Latino community are also addressed.

**Prerequisite:** Graduate nursing student standing, or instructor's permission

## **GNRS 559, Audiometry for School Nurses, 3 Units**

This course provides didactic instruction via eCollege and eight hours of on-site practicum experience that emphasizes the content and clinical expertise necessary to fulfill the requirements of the State of California School Hearing Conservation Program and training for the school audiometrist. The course focuses on the physiologic process of hearing and how to assess for deficits in hearing in children of all ages. At the conclusion of the course, and after having completed successfully all learning objectives, the student is eligible to submit an Application for Registration as a School Audiometrist in the State of California (a \$10 registration fee is required with the application).

## **GNRS 560, Strategic Leadership in Healthcare, 3 Units**

This course is designed to develop knowledge, skills and attitudes about leadership across the healthcare continuum. The student will consider the professional role of the healthcare administrator both from a leadership and a management perspective. Areas of concentration will include leadership theory, structure of healthcare institutions, systems thinking and decision-making, performance improvement including quality and safety issues, risk management and effective communication skills. Application of business skills will be integrated. Students will consider the theoretical and research background, current issues and trends, leadership and administrative implications of specific topics.

## **GNRS 564, Nutrition and Therapeutics, 2 Units**

Students in this course explore the functions of nutrients and the consequences of nutrient deficiencies and excesses in the body. Course material introduces a variety of tools for planning and evaluating diets, including a computer diet analysis, and the application of nutrition concepts is interwoven into health care and fitness conditions. Students also study the prevention of chronic disease as it relates to proper nutrition and adequate exercise.

**Prerequisite:** Admission to the ELM program

## **GNRS 567, Healthcare Administration and Leadership Supervised Practicum, 3 Units**

This course provides the student with the opportunity to experience the role of healthcare administrator. An individualized administration practicum in a specific area of clinical emphasis is chosen by the student and approved and monitored by the faculty and preceptor. Competencies that govern the role of the healthcare administrator are explored in depth. Students focus on the context for enacting the role of administrator in a healthcare delivery system.

**Prerequisite:** All core and role courses

## **GNRS 568, Healthcare Finance, 4 Units**

This course is an introduction to financial concepts and skills need for healthcare leaders, managers, and executives. The student will develop skills in assessing multiple dimensions of financial performance and methods to improve the financial health of an organization in the context of current patient care system.

## **GNRS 569, Quality and Safety for Health Care Practice, 3 Units**

This course is designed to deepen and advance students' knowledge of, and ability to systematically apply the principles of, patient quality and safety in nursing practice. Based on national standards, the focus is on examining and applying quality and safety tools, including informatics, that can be used to improve patient care delivery across the continuum of health care.

## **GNRS 570, Parish Nursing/Health Ministries, 2 Units**

This course provides an introduction to and overview of health ministry and parish nursing theory and practice. The philosophy of the course is that (a) the parish nursing role is that of a specialist in spiritual aspects of patient care in the congregational context, requiring the integration of graduate level theology/ministry and nursing theory and praxis; and (b) health ministry is an emerging role and trend in pastoral ministry that seeks to bring professional ministry skill to bear upon the integration of health, faith, and spirituality in the parish setting.

## **GNRS 571, International Health Care, 2-4 Units**

This course provides students with experience in nursing care in other countries. Students prepare with coursework in the United States, then travel abroad, where they have experiences in acute and/or chronic care settings, exploring cultural, economic, systems, philosophical, and other aspects of care that influence the provision of health care in other countries. A debriefing period is provided upon return.

## **GNRS 573, Clinical Residency, 4 Units**

The clinical residency is an internship clinical experiential program designed as a collaborative partnership between the School of Nursing and selected community in-patient health care organizations. This residency is an intensive preceptored clinical experience planned to ease the role transition from a student nurse to a beginning professional nurse in an acute-care setting. In addition, it enhances the skill and practice knowledge of the student in preparation for the RN licensing examination.

**Prerequisite:** Successful completion of all pre-licensure clinical courses

## **GNRS 575, Nursing Care in Maternal, Newborn, and Women's Health, 4 Units**

This course focuses on the theoretical and clinical concepts of the childbearing patient, her infant, and her family. The students study both normal and complicated obstetrics. Selected issues of women's health are explored. The student is introduced to birth preparation, prenatal care, normal neonatal, and postpartum care with concurrent clinical experiences.

**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;

**Corequisite:** Practicum

## **GNRS 576, Pharmacology, 2 Units**

This course is designed for students who have completed organic chemistry, inorganic chemistry, and biochemistry. The content focuses on principles of pharmacology and specifics of the major drug classifications.

**Prerequisite:** Admission to the ELM program

## **GNRS 578, Health Assessment, 3 Units**

This course provides the nursing student with skills in physical, spiritual, and psychosocial assessment of adult clients. History-taking and physical examination techniques presented in the course help the student develop strong assessment skills upon which further knowledge and practice can be built. Basic concepts related to assessment of geriatric, pediatric, and childbearing patients are included.

**Prerequisite:** Admission to the ELM program;

**Corequisite:** Practicum

## **GNRS 580, Gerontology, 2 Units**

This course integrates research and writings about the major trends and developments in the field of gerontology as they apply to the field of nursing. The approach is interdisciplinary - course material includes information from the fields of sociology, psychology, anthropology, biological sciences, medicine, nursing, and psychiatry. Development in adulthood is viewed from multiple perspectives including cognitive, behavioral, biological, sociocultural, and spiritual, and the influences these perspectives have on the successful negotiation of age-related issues are considered. Finally, students examine aspects of human aging in contemporary American society and from a cross-cultural and ethnic perspective.

**Prerequisite:** Graduate standing in the School of Nursing.

## **GNRS 581, Primary Health Care of the Older Adult, 5 Units**

GNRS 581 focuses on the role of the adult-gerontology primary care nurse practitioner in the management of the older adult including health promotion, assessment, treatment, and maintenance of common primary care health problems. The clinical practicum emphasizes the application of theory and evidence-based research for the delivery of culturally competent assessment and treatment of the older adult within the context of their families and in a variety of outpatient settings.

**Prerequisite:** Graduate status in the School of Nursing, completion of Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNRS 582A, Pathophysiology, 2 Units**

This course presents an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

**Prerequisite:** Admission to the ELM program

## **GNRS 582B, Pathophysiology, 2 Units**

This course continues the presentation an introduction to human pathophysiology. Mechanisms causing alterations in cellular activity, maintenance of cellular tissue oxygenation, fluid and electrolyte balance, and neuroendocrine control of the body are included. Common pathophysiologic disorders are emphasized.

**Prerequisite:** Admission to the ELM program, successful completion of GNRS 582A

### **GNRS 583, Nursing Care of Children and Young Adults, 4 Units**

This theoretical and clinical course focuses on the care of children from birth through adolescence. The effects of acute and chronic illness on growth and development are studied in the acute and community health care setting. Education of the child and family on health promotion, disease prevention, and safety issues are addressed. Ethical issues are discussed regarding the relationship to the child and family, including issues such as child abuse, informed consent, and the impact of diverse cultural and spiritual beliefs on health care decisions in the family.

**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;

**Corequisite:** Practicum

### **GNRS 584, Mental Health Nursing, 4 Units**

This theoretical and clinical course focuses on the dynamics of psychosocial stress within the interpersonal and intrapersonal systems of clients with acute and chronic psychiatric disorders.

**Prerequisite:** Admission to the ELM program, successful completion of semesters one and two;

**Corequisite:** Practicum

### **GNRS 586, Leadership and Management in Professional Practice, 2 Units**

This course emphasizes leadership and management theory including systems theory in a number of applications and settings. It assists the upcoming graduate in adjusting to various organizations encountered by professional nurses serving in a variety of roles. Core concepts relevant to the clinical settings are presented using a systems approach. Emphasis on nursing case management is included.

### **GNRS 587, Community Health Nursing, 5 Units**

This course has two areas of focus within the community setting: the study of principles and practices involved in community health nursing, and the development of skills for teaching a group of clients. The emphasis is on the role of the nurse in assessing, planning, implementing, and evaluating care of clients in a variety of community-based settings, with a focus on care of the gerontological client. Collaboration with community-based organizations and services that provide health restoration, maintenance, illness prevention, and client education services to individuals, families, and aggregates are essential components of this course. A review of legal mandates and regulations, as well as discussion of ethical dilemmas and issues related to community-based care is included.

**Prerequisite:** Admission to the ELM program, successful completion of semesters one, two, and three;

**Corequisite:** Practicum

### **GNRS 588, Advanced Nursing Care of Adults - Leadership, 6 Units**

This course involves the application of pathophysiological, psychosocial, and spiritual concepts to adult and geriatric clients experiencing the stress of illness in acute settings. The primary focus of the course is to care for critically ill clients and their families with complex health care needs in a critical-care setting. A second area of focus is on the utilization of leadership and management concepts/skills in providing comprehensive care to groups of clients and families. Emphasis is placed on preparing the student to practice in a beginning leadership role in managing client care. Legal and ethical issues related to acute care are included.

**Prerequisite:** Admission to the ELM program;

**Corequisite:** Practicum

### **GNRS 589, Adolescent Health Care, 2-4 Units**

This course focuses on the growth and development of adolescents, including assessment, prevention, and management of common health and psychosocial problems in this population. Emphasis is on age-appropriate and culturally competent provision of primary health care to adolescents in a family system.

**Prerequisite:** Graduate status in the School of Nursing; 2-unit version of this course requires prior completion of GNRS 515, while the 4-unit version requires prior completion of GNRS 515, GNRS 594, and GNRS 511 or GNRS 512.

### **GNRS 590A, Primary Health Care of the Young Family, 6 Units**

This combined theory and clinical course focuses on management of health care of children (from birth through adolescence) and their families.

Theory and clinical experiences emphasize assessment, prevention, and management of physiological, social, emotional, intellectual, spiritual, and educational needs of the child as an individual and as a family member. The effects of culture on development, parenting, and health care practices are emphasized. The course provides theory and clinical experiences in the management of normal and common pathological conditions to prepare students for advanced nursing practice in the role of nurse practitioner.

**Prerequisite:** Advanced Practice Core courses;

**Corequisite:** Practicum

### **GNRS 590B, Clinical Practicum in Pediatrics, 4 Units**

The student develops expanded skills in the comprehensive assessment and management of common childhood illnesses and problems and continues to gain skill in promoting child wellness. Application of theory and research is emphasized in the care of common illnesses throughout the childhood years.

**Prerequisite:** GNRS 511 or GNRS 512 and GNRS 590A

## **GNRS 590C, Primary Health Care of the Young Family for the School Nurse Services Credential, 6 Units**

Using a system-based approach, this combined didactic and practical course focuses on assessment, nursing interventions, and follow-up for common illness presentations in children, as well as illness-related impact on social, emotional, and educational functioning. The effects of culture on child development, parenting, and healthcare practices is also emphasized.

**Prerequisite:** GNRS 512;

**Corequisite:** Practicum

## **GNRS 591, Primary Health Care of the Childbearing Family, 4 Units**

This course focuses on the assessment and management of the primary health care needs of the reproductive family. Emphasis is placed on health promotion and maintenance, disease prevention, curative, and restorative care. Cross-cultural aspects related to parents, male and female, of the childbearing family are addressed.

**Prerequisite:** Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNRS 592A, Primary Health Care of the Adult and Aging Family, 6 Units**

This combined theory and clinical course focuses on the role of the nurse practitioner (NP) in caring for mature adults and aging family members, from young adulthood to elderly adulthood. Emphasis is placed on the management of common primary health problems of these age groups. The delivery of culturally competent primary health care interventions of young, middle-aged, and elderly adults is addressed.

**Prerequisite:** Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNRS 592B, Primary Health Care Clinical Practicum, 2 Units**

This course provides the final comprehensive clinical management experience, allowing FNP and AGNP students to apply knowledge gained throughout their course of study. Clinical conferences provide opportunity for discussion of role development issues and clinical case studies. Students engage in the clinical assessment and management of adults of diverse cultural backgrounds with routine and complex health problems in out-patient settings. Under the supervision of qualified preceptors and School of Nursing faculty, the student must complete his/her clinical hours and demonstrate mastery to perform the role of an entry-level nurse practitioner.

**Prerequisite:** Completion of clinical courses for the FNP or AGNP program track

## **GNRS 593, Psychosocial Primary Health Care of the Adult and Aging Family, 4 Units**

This combined didactic and clinical course focuses on psychosocial primary health care of the mature and aging family. Didactic content and clinical experiences emphasize the advanced practice nursing role in the medical management of chronic illness with concurrent assessment for psychosocial stressors that impact the experience and management of chronic illness. Students learn to tailor patient-centered therapeutic strategies, including presence, multi-faceted functional assessment, motivational interviewing, stress reduction techniques and spiritual support to individual patients.

**Prerequisite:** Advanced Practice Core courses;

**Corequisite:** Practicum

## **GNRS 594, Pharmacology in Advanced Practice Nursing, 3 Units**

This course builds upon basic knowledge in pharmacology and provides content essential for the advanced practice nurse to render appropriate pharmacological treatment in practice. Mechanisms of action, interactions, side effects, and prescribing guidelines for drugs commonly utilized across the life cycle are addressed. Variations in pharmacological reactions attributed to cultural factors are emphasized. Strategies for fostering individual/family adherence to pharmacological regimens are examined. This course meets the requirements of the California Board of Registered Nursing in the application of a 'furnishing number' by the advanced practice nurse in California.

**Prerequisite:** GNRS 515 (May be taken concurrently)

## **GNRS 595, Special Topics in Nursing, 1-6 Units**

In this course, a topic of current interest to students is examined in depth. Students analyze and evaluate topics/issues to reach and express a position, enhance personal development and/or to develop a particular project. If students elect this course more than once during their program, each such course must address a different topic.

**Prerequisite:** Graduate standing

## **GNRS 596, Foundations of Healthcare Informatics, 3 Units**

This course provides an overview of basic concepts for practice in healthcare-oriented informatics. These core concepts include an introduction to clinical and translational informatics; foundational theory and practical application of clinical decision making and computerized decision support; healthcare systems and their organization; the special issues of administration, security, and operations of electronic records in the healthcare setting; human factors issues; information science in the healthcare domain; standards, terminologies, and the uniqueness of biomedical data; and a special focus on emerging technologies.

## **GNRS 597, Comprehensive Examination Directed Study, 1 Unit**

This course guides the student through the process of demonstrating an integration of theoretical, clinical, and research knowledge. Critical thinking is enhanced through careful consideration of information presented during discussion. The examinations are taken as part of this seminar.

**Prerequisite:** Completion of all Academic Core and degree specialty courses. Final specialty course may be taken concurrently.

## **GNRS 598, Thesis, 1 Unit**

A student initially enrolls in this option toward the latter part of the program for one unit of credit. The student registers for one unit of thesis credit each semester (two of three semesters per year) until the thesis is completed.

**Prerequisite:** GPA of 3.5 or above, chair's consent for thesis option, and completion of all Academic Core and Advanced Practice Core courses

## **GNRS 599, Readings/Independent Study in Nursing, 1-4 Units**

A student may elect to pursue special interests for credit at any time during the program under the supervision of a faculty member. University policy states that the student must earn a grade in an independent study course in order to receive credit toward graduation.

**Prerequisite:** Graduate standing

## **GNRS 613, Graduate Statistics, 3 Units**

This course presents the knowledge of descriptive, correlational, and inferential statistics used in research that serves as the basis for evidence-based practice. Students develop the ability to perform descriptive and inferential data analysis techniques, use software applications to aid in statistical calculations and presentation, and interpret findings.

## **GNRS 620, Genome Science in Healthcare, 3 Units**

This course covers basic genomic concepts and technologies intended for personalizing healthcare. The primary goal is to provide the student with clinically relevant knowledge that can be used in practice and for teaching other healthcare professionals, patients and families. Applications of genome science and technology are analyzed in the context of real world examples taken from a variety of clinical specialty areas to better understand the relation between genomics, health, and illness.

## **GNRS 622, Genome Science and Ethical Issues, 3 Units**

This course examines current applications and implications of genome science and technology to healthcare, public health policy, economics, ethics, federal and state laws and societal issues. The following discussion topics are at the leading edge of healthcare and social debate: DNA biobanking, genetic profiling, and genomic technologies used in genome medicine such as stem cell research, gene therapy, and genetic enhancements. In addition, the course addresses ethics, philosophy, and theology literature to explore thoughtful discussions that cover a wide range of genome applications in healthcare and health science research.

**Prerequisite:** GNRS 620

## **GNRS 630A, Oncology Nurse Practitioner Fellowship A, 4 Units**

This course is the first in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## **GNRS 630B, Oncology Nurse Practitioner Fellowship B, 4 Units**

This course is the second in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## **GNRS 630C, Oncology Nurse Practitioner Fellowship C, 4 Units**

This course is the third in a series of three fellowship courses that enhance students' critical thinking, diagnostic reasoning, and interpretation and management skills for advanced practice nursing in the field of oncology. Students gain a deeper understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice nursing scholarship, and practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts, with a focus on exploring the development and scientific underpinnings of components of expert clinical oncology practice.

**Prerequisite:** Enrollment in the oncology nurse practitioner fellowship certificate program.

## **GNRS 631, ONP: Cancer Biology and Assessment, 2 Units**

This course builds on knowledge of the anatomy and physiology of DNA, RNA, differentiated, and nondifferentiated human cells. Focus is on the pathophysiologic mechanisms of human cancer disorders. Diagnostic reasoning that facilitates the clustering of signs and symptoms is a key process undergirding the course. The course provides the foundation for the integration of diagnostic testing, physical assessment, and understanding of the predictable pathophysiology of cancer to stage tumors and predict metastatic risk in individuals.

**Prerequisite:** Admission to the oncology nurse practitioner fellowship certificate program.

### **GNRS 632, ONP: Cancer Therapeutics, 2 Units**

This course builds on knowledge of the predicted behavior of human cancer. Technology in cancer treatment is evolving rapidly. This class will provide a pathophysiological foundation to understand cancer protocols. Current cancer protocols, classes and categories of therapeutics, technologies in development, and tumor resistance will be discussed. The cost-benefit, side effects, and availability of the covered therapeutics will be discussed.

**Corequisite:** GNRS 631

### **GNRS 633, ONP: Symptom and Side Effect Burden, 2 Units**

Patients with advanced cancer often suffer significant symptomatic burden and the iatrogenic complications of treatment. This course develops a patient-centered approach to evidence-based management of common symptoms of cancer and side effects of treatment.

**Prerequisite:** GNRS 631 and GNRS 632

### **GNRS 634, ONP: Survivorship and the Psychosocial Impact of Cancer, 2 Units**

Cancer patients and their caregivers face complicated psychological, financial, and spiritual changes, beginning at diagnosis and extending into the posttreatment phases. This course covers the common problems related to those changes, and best-practice strategies and techniques to help patients and families cope with cancer.

### **GNRS 635, ONP: Team-based Care and the Role of the Oncology Nurse Practitioner, 2 Units**

The clinician role of the oncology nurse practitioner requires familiarity with the incidence, prevalence and risk assessment competencies for all common cancers. In addition, the oncology nurse practitioner must be prepared for a wide variety of leadership roles. Strategies for care coordination, designing and measuring interdisciplinary team outcomes, mentoring, collaborating with primary care providers, and rapid-cycle quality improvement are examined.

### **GNRS 636, ONP: Clinical Trials Nursing, 2 Units**

The advanced practice oncology nurse practitioner must be prepared to be a direct care provider or study coordinator for clinical research trials. This course covers the knowledge and behaviors needed by nurse practitioners engaged in oncology clinical trials.

**Prerequisite:** GNRS 512, GNRS 515, and GNRS 613, or instructor consent

### **GNRS 660, Theories of Teaching and Instruction, 3 Units**

This course analyzes selected teaching and learning models that are applicable to nursing education. Strategies for classroom and clinical teaching are examined. Research relative to nursing education is reviewed and critiqued. Design of research methods to determine effectiveness of teaching strategies is incorporated. Course development and student evaluation are emphasized. Selected faculty and nursing education issues are also explored.

### **GNRS 661, Leadership and Role Development in Nursing Education, 3 Units**

This course includes an analysis of educational leadership and the multiple roles of the nurse educator related to teaching, scholarship, service, and practice. Theoretical perspectives and practical approaches supported by research in nursing and higher education literature, as well as the Christian educator's role promoting faith integration, are addressed.

### **GNRS 662, Assessment, Curriculum, Development, and Outcomes, 3 Units**

This course addresses theoretical approaches to educational assessment, the development and implementation of nursing curriculum, and student and program outcomes. Emphasis is given to the importance of incorporating Christian values in the curriculum. The course also includes critical analyses of related topics based upon current research in nursing and higher education literature.

### **GNRS 663, Clinical Practicum in Nursing Education, 3 Units**

This practicum course builds on clinical and teaching/learning theories, concepts in curriculum design, and instructional strategies. Under the supervision of a faculty-mentor, the practical classroom experience focuses on designing and implementing teaching plans for units of instruction, writing of teaching/learning objectives, selecting teaching strategies and learning activities, evaluating student learning outcomes, obtaining feedback on teaching performance from faculty-mentors, students, and self-evaluation, and reflection. The clinical teaching practical experience focuses on assessing and meeting nursing student clinical learning needs, conducting postcare conferences, clinical evaluation of nursing student performance, and student counseling.

**Prerequisite:** GNRS 660, GNRS 661, GNRS 662

### **GNRS 664, Teaching-Learning Strategies and Educational Technology in Nursing Education, 3 Units**

This course will equip the nurse educator to develop and utilize theory- and evidence-based instructional strategies and tools in traditional and non-traditional formats in a variety of nursing educational settings.

### **GNRS 695, Special Topics, 1-4 Units**

A subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. This course may be repeated for credit to a maximum of 6 units applied toward the MSN or PhD degree; each course must address a different topic.

## **GNRS 700, Philosophy of Science, 3 Units**

This course is designed to provide students with the knowledge and critical analytic skills to comparatively evaluate the philosophical foundations of scientific theories and the influence of Western philosophical schools of thought on the development of nursing science. Course content is organized to engage students in discussion and critical analysis of the epistemological and philosophic foundations of scientific theories and the characteristics of scientific knowledge according to the received view, paradigmatic view, perceived postmodern view, and feminist tradition. Special emphasis is given to the critical debate within nursing about the nature of nursing science.

## **GNRS 701, Nursing Knowledge Development, 3 Units**

This course focuses on analyzing and critiquing the theoretical and methodological processes that are utilized in theory building and knowledge development in nursing. Discussion and critique of the different stages of theory development and students' experimentation with conceptualizing and developing their theoretical stance go hand in hand. Patterns of knowing, knowledge development, and criteria for evaluating nursing knowledge are examined in relation to the discipline's domain and the phenomena of concern in nursing.

## **GNRS 702, Nursing Theory, 3 Units**

This course focuses on strategies for theory development such as concept analysis, conceptual mapping, and theoretical modeling as applied to the student's phenomenon of concern. It also provides critique and analysis of the major models and theories used in a variety of nursing settings in relation to existing interdisciplinary theoretical knowledge.

## **GNRS 703, Spirituality and Health, 3 Units**

This course provides an introduction to spirituality, including spiritual experience, as it relates to individual health and illness. Communal spirituality is also considered. Differentiation is made between and among generic religious and Christian spiritualities. While the course covers theoretical aspects of spirituality and their interaction with health and illness, concentration is on the movement from theory to praxis. This lecture/seminar course is oriented toward nursing educators who seek to develop a foundation in spirituality for spiritual integration as well as for its development in nursing practice.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 704, Faith Integration and Nursing Scholarship, 3 Units**

This course begins with an exploration of the nature, role, problems, and possibilities of faith integration in higher education and in the nursing curriculum at all levels of higher education. The special circumstances of faith integration and its implications for teaching in secular college settings are explored. This course further provides a critical explication of theological method and content in three domains: biblical hermeneutics, constructive theology, and ministry praxis for education. The focus of the course is on the appropriation of theological method and knowledge for the purposes of integration into nursing education and practice especially (but not exclusively) within the context of a Christian or church-affiliated college.

## **GNRS 705, Social Ethics and Health Policy, 3 Units**

This course seeks to provide a social ethics frame of reference for health care. Medical and biological advances have contributed to a rapidly expanding amount of human control over human and natural processes, including genetic potential and behaviors. This new power raises questions of morality and highlights the need for discussion and legislation regarding the complex issues raised by developments in health care, medical technology, and science. A comprehensive social ethic places decisions about health care within the context of a fuller account of purpose and meaning in life.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 706, Methods of Inquiry, 3 Units**

Exploration of various methods of inquiry focuses on the difference between scientific thinking, wisdom, and alternative concepts of knowledge. Existential dilemmas intrinsic to the pursuit of truth, the exploration of the meaning of actions, the process of interpretation, the perception of reality, and empirical generalizations are discussed and their influence on the definition of research problems and designs explored. The nature of the problem and assumptions and their relationship within the physical and social order are addressed with an emphasis on understanding the complexity and interrelatedness of events and the concept of ecology in research. Research designs and methods are introduced as they relate to problem definition and theory and includes an overview of the principles of basic and applied experimental research, evaluation research, and the traditions and foundation of qualitative and historical research. The role of triangulation as a methodological choice in research design and analysis is addressed to provide a more insightful approach to the exploration of complex phenomena.

## **GNRS 707, Quantitative Nursing Research Design I, 3 Units**

This course focuses on advanced multiple research designs and data collection approaches. Emphasis is on experimental and quasi-experimental designs, epidemiological methods, survey research, and evaluation and outcomes research, as well as on planning design and sampling. Inferential statistics and advanced statistical analysis methods including ANOVA and various types of multiple regression analysis are incorporated within the course content.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 708, Qualitative Nursing Research Design I, 3 Units**

This course focuses on analyzing the epistemological foundations and the assumptions of qualitative research methodologies. It provides an introduction to the major qualitative research methodologies including grounded theory, phenomenology, and ethnography. Each methodology is analyzed as to its appropriateness for the research question. Experience in carrying out a pilot study in the selected methodology is provided.

### **GNRS 709, Advanced Statistical Analysis II, 3 Units**

This course presents advanced methods of quantitative inquiry. The emphasis is on the use of factor analysis, confirmatory factor analysis, path analysis, and structural equation modeling. Assumptions of the techniques are addressed. The course provides the student experience in using statistical packages for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which of the advanced statistical techniques to use is stressed. Critique of the advanced statistical analyses of published health care research is also emphasized.

**Prerequisite:** GNRS 707

### **GNRS 710, Advanced Qualitative Research Methods, 3 Units**

This course provides advanced knowledge and training in the use of qualitative research methods including phenomenological interpretation, grounded theory interpretation, ethnographic interpretation, focus groups interpretation, and feminist interpretation. Intensive interpretive and structured approaches to analysis and methods of establishing plausibility, credibility, and adequacy of qualitative data are emphasized.

**Prerequisite:** GNRS 708

### **GNRS 711, Advanced Research Methods in the Humanities, 3 Units**

This seminar and consultation course introduces PhD students to nonscientific research methodologies as used in the arts, letters, humanities and aspects of the social sciences for the (a) conduct of original dissertation research on one of the disciplines of arts, letters, humanities, or nonscientific aspects of one of the social sciences, (b) conduct humanities-based research to widen and deepen a scientific dissertation topic, or (c) to enlarge the student's methodological repertoire, knowledge, and skill. The course is intended for those whose primary research education and experience has been in scientific methods and disciplines. (Enrollment limited to eight.)

**Prerequisite:** (a) successful completion of GNRS 701 and GNRS 706, (b) permission of the instructor

### **GNRS 712, Advanced Evaluation Research, 3 Units**

Evaluation research bridges the gap between conceptual definitions, theory formulation, and practice. Evaluation research utilizes quantitative and qualitative research designs to analyze evidence and disseminate the findings to identified stakeholders that will inform decision making and policy development. Explicit models of the decision process for program development and implementation are incorporated into the structure of the evaluation design and analysis. The course includes needs assessment, benchmarking or best practices, logic modeling, program theory development, empowerment evaluation, system analysis, and process-outcome designs. Examples incorporate national and international programs.

### **GNRS 713, Advanced Statistical Analysis I, 3 Units**

This course presents common nonparametric and parametric statistical techniques used in healthcare research. Assumptions of the techniques are addressed. Specifically, the course emphasizes t-tests, ANOVA, ANCOVA, RANCOVA, correlation, odds ratio, regression, and power analysis, and provides the student experience in using SPSS for entering and analyzing data. Reporting results of the analyses is also incorporated. Making appropriate decisions regarding which statistical techniques to use is stressed. Critique of statistical analyses of published healthcare research is also emphasized.

### **GNRS 715, Psychosocial Issues of Older Adults, 3 Units**

This course focuses on the biological and psychosocial processes throughout adulthood and the older years. Theories of aging are examined, as well as social role changes, social stratification, and the development of institutions of the aged. The course explores both normal aging and psychopathology, and the systematic intrinsic psychological or personality changes associated with development and adaptation in later life. Other topics include clarification of the causes and prevention of health maladies in the later years, and the nature and treatment of the most common psychopathologies. The psychodynamics of institutionalization and family care of the very old are also examined.

### **GNRS 716, Translational Research, 3 Units**

The goal of this course is to help the nurse scientist identify strategies within a multidisciplinary model that promotes the ready translation of research developed from basic laboratory, clinical, or population studies. The course involves three stages as set forth by the National Institute of Nursing Research. The first stage, referred to as early translation, reviews a promising discovery that was developed in the lab, epidemiologic study, or other study that involves the initial development and testing of an intervention. In the second stage, or late translation, analysis of the study design and intervention used in clinical trials determines appropriate clinical guidelines. In the final stage, where dissemination involves the broader distribution of the intervention, emphasis is on analyzing the strengths and limitations in the clinical setting.

### **GNRS 717, Health Technology and Informatics, 3 Units**

This course presents an overview of the evolution of health care informatics from an interdisciplinary perspective. Students learn health care informatics history, concepts, theories, legal and ethical implications, and applications within the health care industry. This course introduces the student to the information system life cycle, human factor issues in health care informatics, critical issues affecting the development and implementation of information and communication systems and technologies (clinical, administrative, and learning), knowledge management principles, professional practice trends, and emerging ICT (information and communication technology) in health care.

## **GNRS 718, Organizational Leadership and Strategic Planning, 3 Units**

In this course, students acquire knowledge and skill to effectively manage change, empower others, and influence political processes. Advanced nursing practice leadership occurs in clinical practice with clients and staff, within healthcare institutions and professional organizations, and in healthcare policy making arenas. To develop the leadership role, students implement strategies for creating organizational change to provide high-quality services at reasonable costs. Focus is on organizational process, including the associated management of conflict, change, and control of risk within a political context.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 720, Wellness Promotion and Health Maintenance, 3 Units**

This course focuses on the critical appraisal of theories and models of health promotion and on the evaluation of health initiatives developed for national health promotion and maintenance. Relevant risk prevention, control, and health promotion intervention strategies are emphasized. Communicable diseases; health hazards; high-risk health factors; acute and chronic illness across ethnicities, genders, and the life span; and morbidity and mortality of the nation's leading health problems are analyzed. Students' research questions are generated from a synthesis of knowledge regarding a specific phenomenon relevant to the student's individual area of study.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 721, Health Disparities and Vulnerable Populations, 3 Units**

This course offers an analysis and evaluation of various topics and issues on health disparities of underserved ethnic or minority vulnerable populations as well as an analysis of research that describes, explains, and examines variables influencing health disparities and intervention strategies to reduce these disparities.

## **GNRS 722, Research in Nursing and Health, 3 Units**

This course is team taught and reflects the research expertise and program of study of the nursing doctoral faculty. It focuses on analysis of determinants of health and illness across demographic, biological, psychological, familial/cultural, and societal dimensions. Attention is given to theoretical explanations toward promoting development of students' programs of research.

## **GNRS 724, Quantitative Nursing Research Design II - Psychometrics, 3 Units**

This course is designed to introduce students to the methods of survey research. The course considers practical considerations in the construction of questionnaires including determining questionnaire content, selection of item types and wording of items, selection of an administration method, piloting questionnaires, and locating existing questionnaires. Discussion about conducting survey research considers sample selection, analyzing information obtained from questionnaires using SPSS, evaluating questionnaires, sources of error and how to reduce measurement error in survey research.

**Prerequisite:** GNRS 707

## **GNRS 725, Research Practicum, 1 Unit**

The practicum further develops, mentors, and socializes students into the roles and activities of research scientists and scholars. Emphasis is on mentoring to facilitate student progression in research methodology, culturally appropriate research strategies, data management, and data analysis. Students can choose either a quantitative or qualitative practicum experience.

## **GNRS 726, Advanced Scientific Writing, 3 Units**

This course provides opportunities for students to learn how to research and introduce a topic in writing, articulate a thesis statement, support and develop a literature review, work with secondary sources, and organize a written paper that can be developed into a dissertation or translational research paper.

## **GNRS 727, Genome Science in Clinical Cases and Disease Management, 3 Units**

This course focusing on medical family history taking, constructing and analyzing the pedigree, genetic counseling, clinical decision making and clinical case management for a wide variety of inherited and acquired diseases through the lens of emerging genome science. Clinical cases are discussed from a holistic perspective including: genome science, epidemiology, genomic profiling, genetic technologies, personalized medicine, interprofessional collaboration, ethical and legal issues, and health policy.

**Prerequisite:** GNRS 620

## **GNRS 728, Genome Science Research Methods, 3 Units**

This course focuses on genome research methods for understanding and translating genome science to practice and to genome related nursing research. Understanding the research methods fosters a deeper understanding of the strength and the weaknesses of the science and an ability to critique the benefits and the limitations of the science for designing nursing research. The course includes a wide range of research methods that explore genetics or genomics in human populations. A key outcome of this course is to develop a research proposal using genome methods to design nursing research aimed at improving quality of health for individuals, families and populations.

**Prerequisite:** GNRS 620, GNRS 622, GNRS 727

## **GNRS 729, Population Health and Epidemiology, 3 Units**

The concept of population health includes aggregate, community, environmental/occupational, and cultural/socioeconomic definitions of health. The implementation of clinical prevention and population health activities is central to achieving the national goal of improving health status and reducing health disparities among different aggregate groups. This course covers the basic elements and methodological concepts used in the epidemiologic study of factors related to health promotion and disease prevention in human populations. It brings together considerations from several fields of investigation, such as epigenetics, epidemiology, psychology, and public health, to study the effects on health and health-related outcomes.

**Prerequisite:** Admission to DNP or Ph.D. program

## **GNRS 730, Comparative Health Care Systems, 3 Units**

This course focuses on exploring/analyzing environmental, social, cultural, political and economic determinants of health across the globe. Comparative analysis of international health care systems including governmental, nongovernmental, traditional, and faith-based organizations are emphasized. Epidemiological analysis of morbidity and mortality, analysis of health and illness responses, and health-seeking behavior across the age span and gender/ethnic variables are discussed with the intent to identify areas of research relevant to students' interest. Presented from a Christian perspective, this course investigates research and practice opportunities and responsibilities for advanced practice nurses in global arenas.

## **GNRS 732, DNP Clinical Residency, 0 Units**

This course provides students enrolled in the Doctor of Nursing Practice (DNP) program with opportunities to develop professional nursing skills at the doctoral level. The focus of the course is to explore the development and scientific underpinnings of components of expert advanced clinical practice. Students select a population of interest for the DNP clinical residency and apply evidence-based practice and research findings in order to develop and improve practice. Over the course of the DNP program, students integrate previous nursing education and practice experiences with the DNP residency and concurrent doctoral coursework to meet the AACN Essentials of Doctoral Education for Advanced Nursing Practice and complete a DNP scholarly project. The course may be repeated to enable the student to obtain a minimum of 1,000 residency hours. Previous hours from graduate clinical courses may apply, so residency hour requirements will vary.

**Prerequisite:** Admission to DNP program

## **GNRS 733A, Residency IA, 1 Unit**

This is the first in a series of three residency courses designed to enhance students' critical thinking, diagnostic reasoning, interpretation, and management skills for advanced clinical practice. This course broadens and enhances understanding of the sciences necessary for enhanced role development, knowledge, and skills for advanced practice clinical nurse scholarship. Students practice in a designated appropriate setting under the direction of a faculty advisor in collaboration with selected clinical experts. The course focuses on exploring the development and scientific underpinnings of components of expert advanced clinical practice, and attention is given to the development of skills necessary to attain that goal. By the end of this course, students select their population of interest for their clinical residency and apply evidence-based findings to this population to identify potential areas of intervention.

**Prerequisite:** Admission to DNP program

## **GNRS 733B, Residency IB, 1 Unit**

The second of a three-course sequence, this course may be taken concurrently with GNRS 733A and/or GNRS 733C with approval of the DNP director or designee. Grading: pass/fail

## **GNRS 733C, Residency IC, 1 Unit**

The third of a three-course sequence, this course may be taken concurrently with GNRS 733A and GNRS 733B with approval of the DNP director or designee. Grading: pass/fail

## **GNRS 734A, Residency IIA, 1 Unit**

The first of a three-course sequence, this course may be taken concurrently with GNRS 734B and GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

## **GNRS 734B, Residency IIB, 1 Unit**

The second of a three-course sequence, this course may be taken concurrently with GNRS 734A and/or GNRS 734C with approval of the DNP director or designee. Grading: pass/fail

## **GNRS 734C, Residency IIC, 1 Unit**

This is the last of a three-course series of clinical residencies with a focus on transformative and collaborative leadership, including completion of the evidence-based practice project, assessment of project outcomes, and planned dissemination of findings. Students apply relevant clinical and research findings to develop and improve practice. Content emphasizes critical appraisal of skills and interventions necessary to ensure meaningful translation of scientific evidence into practice, including a cost-benefit analysis for implementing a change into clinical practice. The course also emphasizes the professional role of the nurse as a collaborator, leader, and provider of care with nursing colleagues and other members of the interprofessional healthcare team within the context of complex healthcare systems, preparing students to implement an advanced nursing practice role that results in practice and/or policy change at the local, state, and/or national levels.

**Prerequisite:** Successful completion of GNRS 733A, GNRS 733B, GNRS 733C, GNRS 734A and GNRS 734B

### **GNRS 735, DNP Scholarly Project Seminar, 3 Units**

The DNP program requires a rigorous clinical project focused on translating scientific research to health care in a timely manner so that patients experience the best applications of science and practice. The project is a scholarly experience that implements the principles of evidence-based practice and translation under the guidance of a faculty mentor. In line with the AACN Essentials of 2007, the outcome of the DNP scholarly project is a tangible and deliverable academic product that is derived from the practice immersion experience and reviewed and evaluated by an academic committee. The project also serves as a foundation for future scholarly practice.

### **GNRS 736, DNP Scholarly Project Seminar: Evaluation and Dissemination, 2 Units**

This course focuses on presentation to and approval of a completed DNP Scholarly Project. The DNP program requires a rigorous clinical project focused on translating scientific research to health care to improve the patients experience utilizing the best evidence of science and practice. This scholarly project is a culminating, independent experience which demonstrates the student's synthesis of coursework and lays the foundation for future scholarship.

### **GNRS 780, Doctoral Seminar I: Elements of a Proposal and IRB Application, 3 Units**

This seminar directs the development of either a dissertation or a DNP Scholarly Project proposal draft that details a problem, the research/project purpose, questions or hypotheses to be examined, a synopsis of the relevant literature, the design and methods of the study including its timeline, protection of human subjects, plans for analysis, and the budget. The seminar also includes preparation of IRB applications, and peer review and critique of student proposals.

### **GNRS 781, Doctoral Seminar II: Developing a Grant Proposal, 3 Units**

This doctoral seminar provides students with the opportunity to acquire knowledge, skills, and insights in the writing of a grant proposal. Discussion will focus on the value of writing grant proposals, the basic principles in writing a grant proposal, the components of a grant proposal, identification of funding sources, the difference between a research and a program grant proposal, as well as administrative factors in submitting a grant proposal. Students will craft and a grant proposal in response to a Request for Funding Proposal (RFP) that aligns with the guidelines of the funding agency, and additionally, a budget plan with justification, timelines, and a bio-sketch. In addition, students will conduct a peer review of class completed grant proposals.

### **GNRS 782, Doctoral Seminar III: Writing for Publication, 3 Units**

This seminar focuses on various aspects of writing for publication and directs the development of a manuscript suitable for publication from a previously written paper (e.g., a course term paper). This course will help the student get started on writing; identify writing styles for various forms of publication including abstracts, journal articles, papers, and books; and determine appropriate journals to consider for article submission. The student will acquire practice in reviewing and critiquing scholarly writing by others. It will also address the editorial and publication process, as well as ethical aspects of writing for publication.

### **GNRS 783, Doctoral Seminar IV: Developing Professional Presentations, 3 Units**

This seminar course identifies approaches to developing an effective and successful presentation, helping students find their voice and showcase their areas of expertise. Discussions focus on planning as essential to deciding on the content and the order in which the information is presented. Emphasis is on developing a logical sequence, one that flows naturally and is accompanied by audiovisuals that facilitate understanding of the material.

### **GNRS 784, Dissertation Seminar V, 2-4 Units**

This fifth dissertation seminar provides the student a forum to explore with their peers research findings, theoretical and empirical implications, and potential venues for publication of manuscripts. Format and procedures for progression in the dissertation process are also discussed. Placement of the Course: This seminar is not required if dissertation seminar requirement of 12 units has been met by GNRS 780, GNRS 781, GNRS 782, GNRS 783, and student has defended dissertation. Grading: Pass/Fail.

**Prerequisite:** GNRS 783

### **GNRS 791, Doctor of Nursing Practice Intensive I, 1 Unit**

This is the first of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course introduces students to the role of the DNP nurse in a variety of healthcare settings. Students also acquire advanced practice and academic skills necessary for selecting a population of interest and applying evidence-based practice to it as part of an evidence-based DNP scholarly project consistent with the DNP role within a healthcare organizational setting.

**Prerequisite:** Admission to the DNP program;

**Corequisite:** GNRS 732

### **GNRS 792, Doctor of Nursing Practice Intensive II, 1 Unit**

This is the second of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course helps students identify strategies within a multidisciplinary model that promotes evidence-based practice in various clinical, community, and educational settings. Students receive support and direction in collaboration with the sponsoring facility and mentor as they develop a comprehensive, site-specific DNP scholarly project proposal.

**Prerequisite:** GNRS 791;

**Corequisite:** GNRS 732

### **GNRS 793, Doctor of Nursing Practice Intensive III, 1 Unit**

This is the third of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. This course helps students acquire the skills, competencies, and points of view needed for developing the ethical reasoning/decision-making skills necessary for conducting their DNP scholarly projects.

**Prerequisite:** GNRS 792;

**Corequisite:** GNRS 732

### **GNRS 794, Doctor of Nursing Practice Intensive IV, 1 Unit**

This is the last of four intensive courses that give DNP students a face-to-face interactive experience through out-of-classroom work. As in the other intensive experiences, course content for each student reflects the interests of the student and is designed to meet that student's needs and career goals. This course allows students, with guidance from their mentors and faculty, to complete the DNP scholarly project and finalize the written and oral scholarly reports that disseminate and integrate new knowledge. Each student's final product reflects their ability to employ effective communication and collaboration skills, take a leadership role, integrate core DNP concepts and competencies that influence healthcare quality and safety, and successfully negotiate change in healthcare delivery for individuals, families, populations, or systems across a broad spectrum of health care.

**Prerequisite:** GNRS 793;

**Corequisite:** GNRS 732

### **GNRS 795, Special Topics, 1-4 Units**

In this course, a subject of current interest is examined in depth. Students analyze and evaluate controversial issues to reach and express a reflective position. Students may repeat the course for credit to a maximum of six units applied toward the doctoral program; each course must address a different topic.

### **GNRS 798, Continuous Doctoral Study, 0 Units**

This course is for doctoral students working on dissertations or translational research projects. Students must re-enroll each semester until the dissertation or translational research project is completed, defended, submitted to the library, and approved.

### **GNRS 799, Independent Study, 1-4 Units**

Students enroll in this course to pursue independent study investigating subjects and interests that lie beyond regular course offerings. The student explores topics in greater depth than in other courses, and/or initiates an individual project. Readings are pursued in accordance with a study plan, which is developed in consultation with a sponsoring doctoral faculty member and approved by the doctoral department.

# Doctor of Nursing Practice (DNP)
