

## Child and Family Development Center • Support Form

### Your Chance to Give

Since its inception in 1989, the Child and Family Development Center has touched hundreds of lives in the San Gabriel Valley by offering professional counseling services to families, couples, adults, adolescents, and children in a safe and accessible environment. The CFDC recognizes the value mental and emotional health play in each person's overall well being.

As many clients come from low-income families, one of the CFDC's greatest concerns is to offer its services at an affordable cost. With the help of donations from people like you, the center's vital programs can continue to flourish.

We appreciate your support in such an important service to the San Gabriel Valley community.
