

**Instructions:**

Enrollment in an Honors course is generally limited to students enrolled in the Honors Program. Non-Honors students may request permission to enroll in a course by completing this petition. Permission is based on space availability, student's GPA and motive for taking an Honors course. Students must have a *minimum GPA of 3.3* to petition for a course.

This petition must first be signed by the Director of the Honors Program followed by the course instructor. Once both signatures have been obtained, the student **must** return the petition to the Honors Program Office. If permission is granted, the student may proceed to enrolling in the course.

Failure to complete the petition process will eliminate the student from participation in the class, and if the student remains enrolled in the course, they will be dropped from the course by the Honors Program Office.
