

CRIS series 2011-12	The Practice and Perceptions of Science	Topics
9/20/11	Steve Wilkens/Leslie Wickman	Exploring the Wonders of Creation through Philosophy & Science
		For 9/20, how about something like “Exploring the Wonders of Creation through Science & Philosophy”? Maybe we could each take about 25 minutes and share from our own experiences and perspectives, then do Q&A together afterward... How about if we each try to work something up and touch base or get together in a month or so?
10/18/11	Ian Hutchinson	Monopolizing Knowledge: Scientism and its dismissal of culture and faith
11/1/11	Vishal Mangalwadi	Science in a Culture Skeptical of Truth
11/29/11	Rich Knopp	Lessons from the Philosophy of Science on the Perceptions and Practice of Science
1/17/11	Roy Clouser	Prospects for Theistic Science
1/18/11	noon	Two Views/Fall of Theology
02/07/11	Karl Giberson	Methodological Naturalism: Darwin’s Use of the Scientific Method
04/17/11	Pete Enns	Factors influencing personal differences in approaches to science
