COMPUTER & PROJECTOR OPERATION
1. Turn on computer
2. Use remote control to turn on projector (Allow 30-60 sec. to warm-up)
3. Pull down the projector screen
4. Use the "Input" button on remote control to switch to "Input 1"

LAPTOP & PROJECTOR OPERATION
1. Use control panel to turn on projector (Allow 30-60 sec. to warm up)
2. Pull down the projector screen
3. Disconnect the "data display" black VGA cable from the VGA splitter box behind the computer
   ** It is important to reconnect this when you are done for the next computer user
4. Plug the disconnected black VGA cable into the back of laptop
5. Turn on laptop
6. Use the "Input" button on remote control to switch projector to "Input 1"
7. If picture does not appear on the projector and your laptop screen press "Fn" & the F-Key (F1-F12) with a monitor symbol on it simultaneously
   Please allow several seconds for synchronization
   Repeat step 7 until image appears on both screens

DVD & AUDIO CD PLAYER
1. Follow the Computer & Projector Operation directions then continue to step 2
2. Insert DVD disc into the computer's DVD/CD drive
3. Apple DVD software should load up automatically
   Note: If software does not load, find the DVD program:
   Dock Menu Bar(left side of screen) > Applications > DVD Player
4. Adjust volume settings using the computer's volume buttons as well as computer's DVD player program
5. Play Audio CD through computer using the same steps and the CD player software will load up automatically

VCR OPERATION
1. Use remote control to turn on projector (Allow 30-60 sec. to warm up)
2. Pull Down the projector screen
3. Turn on VCR (Located next the computer on the desk)
4. Use the "Input" button on remote control to switch projector to "Input 3"
5. Play video (Play button is located on VCR)
6. To adjust the volume, use the projector remote control
