2.26.2016

8:30 AM – 2:00 PM

Memorial Park North
Recreation Center

320 N. Orange Avenue, Azusa CA 91702

For the fifth consecutive year, the Azusa community has the opportunity to introduce more than 700 8th graders to the many majors they can choose in college. Rather than waiting until high school to encourage students to think about their future, we believe in the importance of early exposure to college for students who may not otherwise have college on their radar. This event is important for the students, for the Azusa community, and for our local colleges—it is the only one of its kind, locally and nationally! Thank you to Citrus College and Cal Poly Pomona for the continued partnership that makes this event a reality!

Create an interactive experience.

Explain the career possibilities in your field.

Encourage students to pursue a college education.

Inspire young minds to positively impact their future.

“The students are fully engaged. They are enthusiastic. Their minds are being opened and the dialogue that’s happening is fantastic.”

—Linda Kaminski (AUSD Superintendent)
