

# THE PATHWAY FROM **EDUCATION TO VOCATION**

*Becoming a Difference Maker in*  
**COMPUTER  
INFORMATION  
SYSTEMS**

## **Why Study Computer Information Systems at Azusa Pacific University?**

Computer Information Systems (CIS) is the study of computer hardware and software that people, organizations, and businesses use to collect, create, process, and distribute data. Computer information systems specialists and management professionals design, build, and implement software solutions that are the driving force in many businesses, non-profits, and government agencies. They're also relied upon to analyze existing systems and discover new ways to optimize their performance. So it's no surprise that significant job growth is expected in CIS fields over the next several years.

The Computer Information Systems program at APU combines cutting edge technology with 21st century business practices into a hands-on active-learning environment. Our faculty are dedicated to providing the best possible education and career preparation for students who have the talent and work ethic to succeed in the challenging and rewarding CIS marketplace. Students graduating from our program gain significant analytical, technical, organizational and interpersonal skills so that they can hit the ground running when they begin their careers. The CIS program at APU centers around courses in database design and management, computer coding languages, marketing, and accounting. Students learn to encode, organize, analyze and utilize computer systems and digital databases to solve problems and provide support for a variety of business needs.

## YOU MIGHT CONSIDER A COMPUTER INFORMATION SYSTEMS MAJOR IF YOU:

- Are interested in technology and its application, but don't want to focus on the scientific and mathematical aspects of computer science
- Enjoy puzzles and mental challenges
- Are thorough and detail oriented
- Approach problems with patience and persistence
- Are interested in working independently as a freelancer or consultant

**ANTHONY RAMIREZ '07**

Director of Information Technology  
Foothill Christian School

Anthony always had an interest in the field of computers, especially incorporating technology within a business. In his current role, he maintains complex computer systems, which was the core knowledge he gained through course work at APU.

*"You don't need to know everything to be successful, but you must be willing to learn if you want to be."*

**MELISSA TESSIER '02**

IT Project Manager  
CIT Bank

Melissa decided to major in CIS because of its web focused nature. Currently, she oversees changes in CIT's online banking platform and says the programming classes at APU were crucial for her success in this field.

*"It was a great experience to be in a Christian university and have support from faculty where they are willing to pray for you."*

## COMPUTER INFORMATION SYSTEMS MAJORS ARE PREPARED FOR:

- Applying general problem-solving techniques to business-specific problems
- Consideration of the ethical implications of technological advancements
- Entering the high-tech industry and succeeding
- Identifying world-wide social-impact problems and offering realistic solutions
- Understanding and creating real-world project requirements & specifications

## GRADUATES IN COMPUTER INFORMATION SYSTEMS WORK AS:

- Computer systems analysts
- Computer programmers
- Software engineers
- Web developers
- Database managers
- Information security specialists
- Network administrators
- Game designers
- Chief technology officers
- Freelance technology consultants

*\*Many of these careers may require additional training and/or graduate education*

**ELIKEM ADADEVOH '05**

UX Developer  
CRU

Eli has spent most of his professional career working as a web designer or developer for companies ranging from family owned to large multi-national organizations. He received his graduate degree from DePaul University in Chicago, IL.

*"Foster relationships with people who build you up and don't forget to build others up too."*

## STEPS TO TAKE AS A MAJOR IN COMPUTER INFORMATION SYSTEMS

## OPTIONS TO EXPLORE AROUND APU

### BE CALLED.

EXPLORE. DEFINE. RESEARCH. LEARN.

- **TAKE INTRODUCTION TO COMPUTER SCIENCE (CS 220)**  
Explore what computer scientists do by taking a fun, introductory programming course.
- **ATTEND A ROBOTICS CLUB MEETING**  
Visit a Robotics Club meeting (no skill required) to see what fun and exciting robotics projects our students are developing with industry partners and/or for personal interest.

- **LEARN HOW TO APPLY YOUR STRENGTHS WITHIN YOUR ACADEMICS, LIFE, AND CAREER**  
Meet with a Career Consultant\* or Strengths Mentor.
- **CONSIDER CAREER OPTIONS FOR YOUR MAJOR**  
Meet with a Career Consultant\* or your faculty advisor to explore and discuss requirements for your career options.

### BE PREPARED.

IDENTIFY. STRENGTHEN. PRACTICE.

- **ATTEND A COMPUTER INFORMATION SYSTEMS CAREER NIGHT**  
Come and listen to industry partners and Alumni as they share insights about how to prepare yourself for the technology industry.
- **ATTEND A SUMMER SERVICE TRIP WITH THE DEPARTMENT**  
Collaborate with universities around the world in developing computer programs and solutions which lead to positive social impact in third-world communities.
- **COMPETE IN AN ACM PROGRAMMING COMPETITION**  
Compete in the regional ACM programming competition against dozens of other southern California schools to help increase your problem-solving skills and measure yourself against top regional programmers.
- **SECURE AN INTERNSHIP**  
Start planning to apply for internships during junior year. Many students get jobs with the same company they interned with. Benefits include:
  - Gain the real-world experiences that all employers seek
  - Exposure to various fields in computing
  - Help build your professional network
  - Great resume boost

- **RECEIVE FEEDBACK ON YOUR INTERVIEWING ABILITIES**  
Complete a Mock Interview with a Career Consultant\*
- **CREATE A RESUME TO APPLY FOR AN INTERNSHIP**  
Meet with a Career Consultant\* to review your resume and cover letter. Run them by your professors, too.
- **GROW YOUR SKILLS IN AN ON CAMPUS JOB OR STUDENT LEADERSHIP POSITION**  
Talk to Student Employment or Student Life about the available opportunities.
- **VOLUNTEER LOCALLY AND GLOBALLY TO SHAPE YOUR PERSPECTIVE**  
Talk to the Center for Student Action about how you can serve.
- **GAIN KNOWLEDGE ABOUT YOUR CAREER OPTIONS**  
Do informational interviews or go to a career-related event to learn more about your career, degree, and experience requirements.

### BE CONNECTED.

JOIN. NETWORK. BE ACTIVE.

- **JOIN IEEE**  
IEEE is the world's largest technical society. Members gain access to essential technical information, networking opportunities, career development tools, and many other exclusive benefits.
- **JOIN ACM**  
ACM chapter members are eligible to receive valuable networking tools and industry information.
- **JOIN ROBOTICS CLUB**  
Club activities include programming, robotics and engineering. Provides a solid foundation in object-oriented programming, mechanical engineering, teamwork, and well-developed critical thinking skills.
- **PARTICIPATE IN ZUVENTUREZ**  
ZuVenturez is a training program and business competition held by the School of Business. Form a team, make invaluable connections, and win money from real-life investors to help launch your start-up company idea.

- **TALK TO ALUMNI FROM YOUR MAJOR**  
Join [APUConnect.com](http://APUConnect.com) and start reaching out. You can also email [clasalumni@apu.edu](mailto:clasalumni@apu.edu)\* for help connecting with alumni.
- **GET ACTIVE ON LINKEDIN**  
Meet with a Career Consultant\* to review your profile and learn how to use LinkedIn.
- **ATTEND CAREER-RELATED EVENTS**  
Keep an eye out for career events related to your major or that are happening around campus.
- **HAVE LETTERS OF RECOMMENDATION ON HAND**  
Request them from professors and advisors at least a month before due.

\* Visit [apucareer.youcanbook.me/](http://apucareer.youcanbook.me/) to make an appointment with a Career Consultant

\* Use subject line: Connect me with APU alumni

# APPLYING TO GRADUATE SCHOOL

## EXPLORE.

Learn more at  
[www.apu.edu/career/graduateschool](http://www.apu.edu/career/graduateschool)

## SELECT.

ONLINE RESOURCES TO HELP IDENTIFY THE BEST PROGRAM FOR YOU

[Peterson's Guide](#)  
[GradSchools.com](#)  
[The Princeton Review](#)  
[National Assoc. of Graduate Professional Students](#)  
[The Council of Graduate Schools](#)  
[APU Pew Society Graduate Guide](#)

EXAMPLES OF SCHOOLS ATTENDED BY APU **COMPUTER INFORMATION SYSTEMS** GRADUATES:

[University of Southern California](#)  
[Portland State University](#)  
[University of California, Santa Cruz](#)  
[University of Hawaii](#)  
[Oregon State University](#)

## APPLY.

- APPLICATION FORM AND FEES**  
Follow instructions carefully and have one or more people check for errors.
- ENTRANCE ESSAY**  
Provide a writing example that shows your personal objectives.
- TRANSCRIPT**  
Ask APU to send it directly to the school you are applying to.
- LETTERS OF RECOMMENDATION**  
Schools usually require three letters, so get them early.
- INTERVIEWS**  
If your potential school requests an interview, treat it as a job interview.

# FINDING YOUR CAREER

## IDENTIFY.

- Search online job boards and professional associations in the Computer Information Systems field
- Regularly check-in with your organizations of interest and network with those who can inform you of opportunities
- Look on APU Career Network for possible opportunities

### COMPUTER INFORMATION SYSTEMS ASSOCIATIONS:

[American Society for Information Science and Technology](#)  
[Association for Computing Machinery](#)  
[Association for Women in Computing](#)  
[American Society for Engineering Education](#)  
[Anita Borg Institute for Women and Technology](#)  
[Association of Information Technology Professionals](#)  
[The Computing Research Association](#)  
[The Institute of Electrical and Electronics Engineers Computer Society](#)  
[Institute for Operations Research and the Management Sciences](#)  
[Society for Industrial and Applied Mathematics](#)

## PREPARE.

### BRAINSTORM YOUR EXPERIENCE

What have you done? What is relevant?

### TAILOR YOUR RESUME

What does the job description say?

### WRITE GOOD BULLET POINTS

Do you focus on your accomplishments?

### FORMAT YOUR RESUME

Is it easy to read and follow?

### PRACTICE INTERVIEWING

Know yourself.  
Know the position.  
Know the organization.

## RESEARCH OPTIONS

### OCCUPATIONAL OUTLOOK HANDBOOK

[www.bls.gov/ooh/](http://www.bls.gov/ooh/)

### O\*NET ONLINE

[www.onetonline.org](http://www.onetonline.org)

### PROFESSIONAL ASSOCIATION REFERENCE

[www.weddles.com/associations](http://www.weddles.com/associations)

## NETWORK.

WHO DO YOU KNOW?  
WHO DO YOU NEED TO KNOW?

### WHY NETWORK?

- Learn about different options in your field
- Research companies and positions of interest
- Find hidden opportunities that are not advertised
- Obtain referrals from those who have influence

### EXAMPLES OF COMPANIES THAT HIRE APU **COMPUTER INFORMATION SYSTEMS** GRADUATES:

SpaceX  
Boeing  
Northrop Grumman  
Riot Games  
Epic Systems  
Qualcomm  
Life-Ray  
PowerSettlements  
Veolia Environment  
Logos Bible Software

**AZUSA PACIFIC**
