

Move in Traffic Game Plan!

The Department of Campus Safety will be implementing a traffic plan developed to manage the large number of students moving in during Welcome Weekend. Personnel will direct you through this pattern as you arrive, however, this map gives an overview of what to expect.

Students moving into the four residential halls (Trinity, Engstrom, Smith & Adams) will enter the campus via the main entrance. From there, they will travel into a one way loop that borders each of the four halls.

On this loop, one side of the street will be reserved for vehicles to stop for 10-15 minutes and unload. **For safety and in the event of an emergency, a driver must stay with the vehicle at all times!**
