Credit Hour Policy

Following the APU Credit Hour policy, to meet the identified course learning outcomes of this course, the expectations are that this **x** unit course, delivered over a **y** week term will approximate **z** hours/week classroom or direct faculty instruction. In addition, out-of-class student work will approximate **zz** hours/week.

Instructions: The above policy must be included in your syllabus. Replace **x**, **y**, **z**, and **zz** with appropriate numbers. For all undergraduate programs, the University policy is a 1:2 ratio: for every 1 hour of in-class instruction, 2 hours of out-of-class student work must occur. Please see Appendix 1 below for how to calculate the Credit Hour Policy for your class, and/or use the [Credit Hour Calculator](#).

Student Learning Outcomes and Expected Competencies

Instructions: Course student learning outcomes have been established for each course by individual departments and approved through faculty governance. Instructors wishing to add learning outcomes should consult with their department chair prior to doing so, and must maintain all core course outcomes.

1. State clear student outcomes in terms that are observable and measurable (e.g., students will be able to synthesize, interpret, identify, demonstrate, write, etc...). A list of action verbs from Bloom's taxonomy can be found at

https://www.apu.edu/live_data/files/326/blooms_taxonomy_action_verbs.pdf

- Avoid outcomes that utilize passive verbs (e.g., students will understand, or students will know)

2. Each outcome should be measured during or upon completion of the class and should be visibly linked to course assignments or other assessments in the syllabus.

3. If you wish to include the learning objectives that will be used on your IDEA course evaluations, you may do so here (see below for examples).

A mapping of the Student Learning Outcomes to the IDEA Objective and the assignments to assess them is required. **Here is an example:**

Student Learning Outcome	IDEA Objective (Spring 2016)	Assignments Used to Assess
"By the end of this course, students should be able to..."		
Describe the major historical themes, events, and personalities in European history from 1789-1914	Gaining a basic understanding of the subject (e.g. factual knowledge, methods, principles, generalizations, theories).	Exams 1, 2 and 3
Articulate how their faith interacts with their understanding of psychological principles	Developing knowledge and understanding of diverse perspectives, global awareness, or other cultures.	Critical thinking papers
Compare and contrast different methods of treating knee injury in sport	Learning to apply course materials (to improve thinking, problem solving, and decisions).	Research paper, Exam #2

Write clearly and concisely, using the writing style of the American Psychological Association	Developing specific skills, competencies, and points of view needed by professionals in the field most closely related to this course	Literature review, survey paper, APA worksheets
	Acquiring skills in working with others as a member of a team.	
	Developing creative capacities (inventing; designing; writing; performing in art, music, drama, etc.)	
	Gaining a broader understanding and appreciation of intellectual/cultural activity (music, science, literature, etc.)	
	Developing skill in expressing myself orally or in writing.

NOTE: Not all of the IDEA Objectives will be used in each class, however they are listed on this mapping table for the faculty's convenience.

- Extra Credit work (accepted or not)
- Requests for Incompletes and re-taking the course
- Make-up work

A complete copy of the Academic Integrity Policy is available in the Office of Student Life, the Office of the Vice Provost, and online.

Appendix 1: Credit Hour Calculation

APU Credit Hour Policy

Approved February 2012

A credit hour represents the amount of work governed by intended and clearly identified student learning outcomes and verified by evidence of student achievement that approximates one hour (or 50 to 55 minutes) of classroom or direct faculty instruction and a minimum of two hours (for undergraduate) or three hours (for graduate) of out-of-class student work each week for a fifteen-week term, or the equivalent amount of work over a term of a different length.

Classroom or direct faculty instruction and out-of-class student work leading to the award of credit hours may vary for courses that require laboratory work, internships, practica, studio work, online work, research, guided study, study abroad, and other academic work to achieve the identified student learning outcomes. In addition, student workload may vary based upon program expectations established by national or regional accrediting bodies.

Assignment of credit hours for courses will occur during program/course approval processes and be monitored through faculty, curriculum, and program reviews established by the university.

Worksheet, determining classroom or direct faculty instruction hours:

1. Multiple the number of course units x 15 _____
2. Divide #1 by the number of weeks in the term _____

The answer in #2 is the number of hours/week of direct faculty instruction for your term.

Please note that if you calculate using a 50 or 55 minute hour, then you need to adjust the calculations in this manner:

1. Multiple the number of course units by 50 or 55 _____
2. Divide #1 by 60 _____
3. Multiple #2 by 15 _____
4. Divide #3 by the number of weeks in the term _____

The answer in #4 is the number of hours/week of direct faculty instruction for your term.

Worksheet, determining out-of-class instruction hours:

1. Multiple the number of course units by 2 (for UG courses) or 3 (for GR courses) _____
2. Multiple #1 by 15 _____
3. Divide #2 by the number of weeks in the term _____

The answer in #3 is the number of hours/week of out-of-class requirement.
